**Fifty-sixth session**

Agenda item 137

**Financing of the United Nations Mission in Ethiopia and Eritrea****Budget for the United Nations Mission in Ethiopia and  
Eritrea for the period from 1 July 2002 to 30 June 2003****Report of the Secretary-General\****Summary*

The present report contains the proposed budget for the 12-month period from 1 July 2002 to 30 June 2003 for the maintenance of the United Nations Mission in Ethiopia and Eritrea, which amounts to \$220,830,200 gross (\$216,814,800 net).

Of the total budget, some 13 per cent of resources relate to civilian personnel costs. Operational costs account for 28 per cent of the budget, military personnel costs reflect 55 per cent, and staff assessment comprises 2 per cent of the total. Two per cent of the total resources are related to other programmes.

The action to be taken by the General Assembly is set out in paragraph 3.

---

\* In accordance with General Assembly resolution 56/242 of 24 December 2001, if a report is submitted late to conference services, the reasons therefor should be included in a footnote to the document. The required footnote was not included in the present submission.

## I. Overview

1. The present report contains the proposed budget for the 12-month period from 1 July 2002 to 30 June 2003 for the maintenance of the United Nations Mission in Ethiopia and Eritrea (UNMEE), which amounts to \$220,830,200 gross (\$216,814,800 net).

2. The estimated requirements for the period from 1 July 2002 to 30 June 2003 represent an 11.3 per cent increase (\$22,430,200) in total gross resources in relation to the apportionment for the current period, from 1 July 2001 to 30 June 2002. The proposed increase reflects a 7.3 per cent increase in military personnel costs, a 6.5 per cent increase in civilian personnel costs, a 24.1 per cent increase in operational costs, a 4.5 per cent increase in other programmes and a 2.7 per cent increase in staff assessment. The financial resource requirements are summarized in table 1, and military and civilian staff requirements are reflected in table 2.

3. **The action to be taken by the General Assembly is as follows:**

(a) **To appropriate the amount of \$220,830,200 gross (\$216,814,800 net) for the maintenance of the Mission for the 12-month period from 1 July 2002 to 30 June 2003;**

(b) **To assess the amount in subparagraph (a) above at a monthly rate of \$18,402,517 gross (\$18,067,900 net) should the Security Council decide to continue the mandate of the Mission.**

## **II. Political mandate of the Mission**

**(Security Council resolutions 1312 (2000) of 31 July 2000, 1320 (2000) of 15 September 2000, 1344 (2001) of 15 March 2001 and 1369 (2001) of 14 September 2001)**

4. The United Nations Mission in Ethiopia and Eritrea (UNMEE) was established by the Security Council in its resolution 1312 (2000) for an initial period of six months, until 31 January 2001, in anticipation of a peacekeeping operation subject to future Council authorization. By that resolution, UNMEE was entrusted with the mandate: (a) to establish and maintain liaison with the parties; (b) to visit the parties' military headquarters and other units in all areas of operation of the Mission deemed necessary by the Secretary-General; (c) to establish and put into operation the mechanism for verifying the cessation of hostilities; (d) to prepare for the establishment of the Military Coordination Commission provided for in the Agreement on Cessation of Hostilities (S/2000/601); and (e) to assist in planning for a future peacekeeping operation as necessary.

5. By its resolution 1320 (2000), the Security Council authorized the deployment within UNMEE of up to 4,200 troops, including up to 220 military observers, until 15 March 2001, with a mandate: (a) to monitor the cessation of hostilities; (b) to assist, as appropriate, in ensuring the observance of the security commitments agreed by the parties; (c) to monitor and verify the redeployment of Ethiopian troops from positions taken after 6 February 1999 that were not under Ethiopian

administration before 6 May 1998; (d) to monitor the positions of Ethiopian forces once redeployed; (e) to simultaneously monitor the positions of Eritrean forces that were to redeploy in order to remain at a distance of 25 kilometres from positions to which Ethiopian forces were to redeploy; (f) to monitor the temporary security zone to assist in ensuring compliance with the Agreement on Cessation of Hostilities; (g) to chair the Military Coordination Commission to be established by the United Nations and the Organization of African Unity in accordance with the Agreement; (h) to coordinate and provide technical assistance for humanitarian mine-action activities in the temporary security zone and areas adjacent to it; and (i) to coordinate the Mission's activities in the zone and areas adjacent to it with humanitarian and human rights activities of the United Nations and other organizations in those areas.

6. In its resolution 1344 (2001), the Security Council extended the mandate of UNMEE at the troop and military observer levels authorized by its resolution 1320 (2000) until 15 September 2001. The Council also called upon the parties to continue working towards the full and prompt implementation of the Agreement on Cessation of Hostilities and the subsequent Peace Agreement signed by them in Algiers, on 18 June and 12 December 2000 (A/55/686-S/2000/1183) respectively. This included the expeditious completion of the remaining steps, in particular the rearrangement of forces necessary for the establishment of the temporary security zone, and the fulfilment of the obligations: (a) to ensure freedom of movement and access for UNMEE; (b) to establish a direct air corridor between Addis Ababa and Asmara in the interest of the safety of United Nations personnel; (c) to conclude status-of-forces agreements with the Secretary-General; and (d) to facilitate mine action in coordination with the United Nations Mine Action Service, in particular through exchanging and providing existing maps and any other relevant information to the United Nations.

7. In the same resolution, the Security Council stressed: (a) that the agreements linked the termination of the United Nations peacekeeping mission with the completion of the process of delimitation and demarcation of the Ethiopia-Eritrea border, which was a key element of the peace process; and (b) the importance of the close relationship between UNMEE and the Boundary Commission. The Council, noting the recommendations contained in paragraphs 50 and 53 of the report of the Secretary-General dated 7 March 2001 (S/2001/202), encouraged UNMEE to provide appropriate support to the Boundary Commission.

8. Subsequently, in its resolution 1369 (2001) of 14 September 2001, the Security Council decided to extend the mandate of UNMEE until 15 March 2002 at the troop and military observer levels authorized by its resolution 1320 (2000). The Council also called upon the parties to urgently resolve the outstanding issues in accordance with the Algiers agreements and to fulfil the following obligations: (a) the parties must provide freedom of movement and access for UNMEE personnel and its supplies as required for the performance of the Mission's duties; Eritrea must without restriction allow UNMEE to monitor the 15-kilometre area north of the temporary security zone; and Ethiopia must avoid creating restrictions on the freedom of movement of UNMEE in the 15-kilometre area south of the zone; (b) the parties must facilitate the establishment of a secure and practicable air corridor between Addis Ababa and Asmara, which does not require a detour through other countries, by accepting the proposal made in this regard by the Special Representative of the Secretary-General; (c) Eritrea must provide UNMEE with

information on the local militia and police inside the temporary security zone, including their weapons, necessary for the Mission to verify that the functions and configurations of the militia and police do not exceed that which prevailed before the outbreak of the conflict; (d) Ethiopia must provide UNMEE with full information and maps concerning all minefields so as to facilitate the work of the Mine Action Coordination Centre with a view to allowing internally displaced persons to return safely to their homes within the zone; (e) Eritrea must, without further delay, conclude the status-of-forces agreement with the Secretary-General; (f) the parties must, unconditionally and without further delay, and in accordance with the 1949 Geneva Conventions, release and return the remaining prisoners of war and detainees under the auspices of the International Committee of the Red Cross; and (g) the parties must fulfil their financial responsibilities regarding the Boundary Commission.

9. As indicated in the report of the Secretary-General to the Security Council dated 12 January 2001 (S/2001/45), an Agreement was signed on 12 December 2000 by the Government of the State of Eritrea and the Government of the Federal Democratic Republic of Ethiopia (A/55/686-S/2000/1183) envisaging, among other things, the establishment of a neutral boundary commission mandated to delimit and demarcate the colonial treaty border based on pertinent colonial treaties and applicable international law and the establishment of a neutral commission to decide on all claims for loss, damage or injury from either side. Pursuant to the signing of the above Agreement, trust funds to facilitate the financing of the two independent commissions have been established.

10. From 21 to 25 February 2002, the Security Council dispatched a special mission to Ethiopia and Eritrea. In its report (S/2002/205), the mission stated, among other things, that once the Boundary Commission had determined the location of the individual boundary pillars, all demining required for demarcation should move forward without delay. The mission also stated that the Secretary-General should be invited to submit recommendations at an early stage, taking into account the decision of the Boundary Commission, the contributions of the parties, the capacity of UNMEE and the resources available in the United Nations Trust Fund in support of the delimitation and demarcation of the Ethiopia-Eritrea border.

11. The current mandate of UNMEE expires on 15 March 2002 (Security Council resolution 1369 (2001)).

### **III. Operational plan and requirements**

12. The operational plan and requirements of the Mission were set out in the report of the Secretary-General to the Security Council on Ethiopia and Eritrea (S/2000/785) dated 9 August 2000, as well as in his subsequent reports to the Security Council dated 18 September 2000 (S/2000/879), 12 January 2001 (S/2001/45), 7 March 2001 (S/2001/202), 19 June 2001 (S/2001/608), 5 September 2001 (S/2001/843) and 13 December 2001 (S/2001/1194).

#### IV. Contributions made under the status-of-forces agreement

13. The status-of-forces agreement between the United Nations and the Government of Ethiopia was concluded on 23 March 2001. Under its terms, the following facilities have been provided to the United Nations by the Government, and that arrangement is expected to continue for the period 2002/03:

<i>Government</i>	<i>Contribution</i>	<i>Value<sup>a</sup></i>
Ethiopia	Premises for accommodation of military personnel, office premises, transit camps or other premises for the conduct of operational and administrative activities of UNMEE.	-
	Provision of water, electricity and other facilities free of charge.	-

<sup>a</sup> Value not quantified.

14. The status-of-forces agreement with the Government of Eritrea in respect of UNMEE remains to be signed. Pending the conclusion of an agreement, the model status-of-forces agreement of 9 October 1990 (A/45/594, annex) applies provisionally. In its report on the UNMEE budget for the period from 1 July 2001 to 30 June 2002 (A/56/661, para. 15), the Advisory Committee on Administrative and Budgetary Questions indicated that the Mission had paid taxes under protest to the Government of Eritrea. As at 28 February 2002, UNMEE had paid a total of \$172,858.36 to Eritrea. Also, UNMEE had paid taxes to the Government of Ethiopia in the amount of \$796.72 as at the end of February 2002, notwithstanding the status-of-forces agreement in effect between the United Nations and that Government.

#### V. Voluntary contributions and trust funds

##### Voluntary contributions

<i>Government/organization</i>	<i>In-kind contribution</i>	<i>Value (United States dollars)</i>	
		<i>1 June 2001 to 30 June 2002</i>	<i>1 July 2003 to 30 June 2003</i>

<sup>a</sup> The Trust Fund was established on 23 July 2001.

## **VI. Status of reimbursement of troop-contributing Governments**

### **Current troop contributors**

15. The current troop contributors are the Governments of Bangladesh, India, Ireland, Italy, Jordan, Kenya and Slovakia. Staff officers for the force headquarters have been provided by Australia, Bangladesh, Benin, Bulgaria, Finland, France, the Gambia, Ghana, India, Ireland, Italy, Jordan, Kenya, Malaysia, Namibia, the Netherlands, Nigeria, Slovakia, South Africa, Spain, the United Republic of Tanzania, Tunisia, the United States of America and Zambia. Former troop contributors include Canada and Denmark. Staff officers for the force headquarters were provided in the past by Argentina, Austria, Norway, Poland and Sweden.

### **Status of reimbursement**

16. Full reimbursement of troop costs in the amount of \$39,517,629 has been made for the period ended 31 October 2001.

17. The amount owed to troop-contributing countries for the period from 1 November 2001 to 28 February 2002 totals \$16,783,403.

## VII. Contingent-owned equipment and self-sustainment

### A. Method of reimbursement

18. Requirements for reimbursement of troop-contributing countries are based on the new standard reimbursement rates for contingent-owned equipment (wet-lease) and self-sustainment as approved by the General Assembly in its resolution 55/274 of 14 June 2001, in accordance with the recommendation of the post-Phase V Working Group on reform procedures for determining reimbursement of contingent-owned equipment.

### B. Requirements

#### Major equipment

19. Estimates for the budgeted period for the reimbursement of troop-contributing countries for contingent-owned equipment and self-sustainment costs are based on standard rates for contingent-owned equipment (wet-lease) and self-sustainment, as authorized by the Security Council in its resolution 1369 (2001) of 14 September 2001, in respect of 3,110 infantry personnel and 870 personnel of logistical and specialized units. Requirements for reimbursement of major equipment amount to \$22,153,700 inclusive of special equipment.

#### Special equipment

20. Requirements for special equipment for demining and heavy engineering in respect of troop contributors (Bangladesh, Ireland, India and Slovakia) are estimated at \$2,989,276.

#### Self-sustainment

21. Requirements for self-sustainment are included in the cost estimates for the period from 1 July 2002 to 30 June 2003, which are estimated at \$16,602,300 as follows:

<i>Category</i>	<i>Amount (United States dollars)</i>
Accommodation	249 900
Bedding	701 300
Catering	1 202 800
Communication	3 857 200
Electrical	1 291 000
Explosive ordnance disposal	332 100
Field defence stores	61 300
Furniture	1 021 200
Laundry and cleaning	1 022 100
Medical	3 663 400
Minor engineering	739 300

<i>Category</i>	<i>Amount (United States dollars)</i>
Observation	1 423 900
Office equipment	702 200
Tentage	41 200
Welfare	293 400
<b>Total</b>	<b>16 602 300</b>

### Mission factors

22. Mission factors intended to compensate troop-contributing countries for extreme operational conditions in the mission area apply to the monthly reimbursable rates, as indicated below:

<i>Mission factors</i>	<i>Percentage</i>
Extreme environmental conditions	0.70
Intensified operational conditions	3.00
Hostile action/forced abandonment	1.90
Incremental transportation	2.00

## VIII. Staffing requirements

### Changes in staffing requirements

<i>Category</i>	<i>Number of posts</i>		
	<i>Current staffing</i>	<i>Proposed staffing requirements</i>	<i>Net change</i>
<b>International staff</b>

<b>Subtotal</b>	<b>356</b>	<b>356</b>	<b>-</b>
<b>Total</b>	<b>613</b>	<b>615</b>	<b>2</b>

23. The proposed changes in the staffing requirements for the period 2002/03 are shown in the table above. The net change is an increase of two posts in the overall staffing level. The increase comprises one new P-4 post for an HIV/AIDS officer to perform medical duties for UNMEE as well as to coordinate with various agencies under the aegis of the Medical Service, in close collaboration with the Office of the Special Representative of the Secretary-General, the upgrading of the P-3 post of Special Assistant to the Deputy Special Representative of the Secretary-General in Addis Ababa to the P-4 level in line with the similar post in Asmara, and one new Field Service post for an aviation safety assistant to assist in providing effective accident prevention and safety oversight for the UNMEE air fleet. The detailed breakdown by office is shown in the following table:

## IX. Objective-setting

24. In its resolution 55/220 C of 14 June 2001, the General Assembly requested the Secretary-General to ensure the use of objective-setting by the administrations of peacekeeping missions and that the development and attainment of those objectives are reported on to the General Assembly through the financial performance reports. In this connection, the objectives set by UNMEE for the period from 1 July 2002 to 30 June 2003 are as follows:

**Objective 1:** To provide UNMEE with safe, efficient, cost-effective and expeditious aviation support.

<i>Expected accomplishments</i>	<i>Indicators of achievement</i>
(a) To accomplish 2,400 flights to move personnel in the mission area.	(a) Percentage of flights achieved during the period.
(b) To accomplish 1,500 flights to move cargo.	(b) Percentage of flights achieved during the period.
(c) To accomplish 1,300 temporary security zone reconnaissance flights.	(c) Percentage of flights achieved during the period.
(d) To accomplish 100 casualty/medical evacuation flights.	(d) Percentage of flights achieved during the period.

**External factors:** The objectives and expected accomplishments are envisaged to be achieved on the assumption that the Mission's air-support requirements do not change and the environmental and local and regional conditions remain stable.

**Objective 2:** To provide a comprehensive and effective procurement service to enable the Mission to carry out its mandate effectively.

<i>Expected accomplishments</i>	<i>Indicators of achievement</i>
(a) To acquire goods and services in support of the Mission's objectives in line with the requisitioners' requirements; to aim for deliveries and the payment of vendors in a timely manner, satisfying the needs of the United Nations and its suppliers.	(a) The flow of requisitions from self-accounting units and/or certifying officers.
(b) To reduce the time and effort required in the presentation and passing of cases to the Local Committee on Contracts.	(b) A reduction in number of vendors chasing delinquent payments.

<i>Expected accomplishments</i>	<i>Indicators of achievement</i>
(c) To reduce the number of post facto transactions being handled by the Procurement Section.	(c) A reduction in time spent in preparing cases for presentation to the Local Committee on Contracts, allowing staff time to be used for more productive work.

**External factors:** The objectives and expected accomplishments are expected to be achieved assuming: (i) that the requirements of the self-accounting units are submitted in a timely manner and that those units adhere to a coherent procurement plan; and (ii) that the appropriate departments handle receiving documents and invoices promptly.

**Objective 3:** To ensure adequate planning and purchasing of much-needed spare parts and expendable items in order to satisfy the requirements of the Mission and to provide better services that will improve information flow.

<i>Expected accomplishments</i>	<i>Indicators of achievement</i>
(a) The procurement of needed material for the different communication sections will improve services and shorten the time needed for future repairs.	(a) Enhancement of the availability of services for field equipment maintenance as well as improvement of the present field installations in accordance with international standards.
(b) The extension of services to different United Nations agencies that may require the resources of UNMEE.	(b) A further increase in services for other United Nations agencies that may require the Mission's assistance.
(c) The prioritization of the purchase of spare parts for equipment in the field, given that the maintenance of mobile equipment is so critical to the Mission's success.	(c) Less downtime of services due to unavailability of materials.

**External factors:** The objectives and expected accomplishments are expected to be achieved on the assumption that: (a) the dynamic nature of the Mission will not lead to an increase in both the number and size of team sites and observation posts and future equipment needs will be identified in a timely manner; (b) priority attention will be given to continued problems with the local power supply, which has often resulted in damage to electrical equipment, notwithstanding installed power protection systems; and (c) the chances of both civil unrest and a resumption of hostilities that could lead to damage to or the destruction of United Nations-owned equipment have diminished.

## Annex I

### Cost estimates for the period from 1 July 2002 to 30 June 2003

#### A. Summary statement

(Thousands of United States dollars)

Category of apportionment	(1)	(2)	(3)	(4)
	1 July 2000 to	1 July 2001 to	1 July 2002 to 30 June 2003

<sup>a</sup> Based on the appropriation provided by the General Assembly in its resolution 55/252 A of 12 April 2001.

<sup>b</sup> Based on the appropriation provided by the General Assembly in its resolution 56/250 of 24 December 2001. Excludes gross and net amounts appropriated for the support account for peacekeeping operations and for financing of the United Nations Logistics Base at Brindisi.

## C. Supplementary information

1. The proposed budget for the 2002/03 fiscal period is based on a strength of 4,200 military personnel, including up to 220 military observers, 259 international staff, 274 local staff and 82 United Nations Volunteers. The overall budget reflects increased requirements under military personnel, civilian personnel, operational requirements and public information, mine-clearing and training programmes. The strength was authorized by the Security Council in its resolution 1320 (2000). The civilian personnel requirements take into account a vacancy factor of 10 per cent for all staff, excluding United Nations Volunteers.

### **Military personnel**

*Apportionment: \$112,329,200; estimate: \$120,572,200; variance: \$8,423,000*

2. The estimated requirement of \$120,572,200 reflects an increase of \$8,423,000 under this heading. The increased requirements relate to the full deployment of 4,200 military personnel (comprising 220 military observers, 3,069 infantry personnel, 784 support personnel and 127 staff officers) for the full 12 months. In the prior period only partial and delayed deployment took place. The estimate takes into account requirements of \$8,272,000 towards the cost of 220 military observers, \$71,864,200 in respect of troop reimbursements and related costs and a total of \$40,436,000 for contingent-owned equipment (\$22,153,700), self-sustainment (\$16,602,300) and death and disability compensation (\$1,680,000).

### **Military observers**

3. The estimated requirement of \$8,272,000 under this heading assumes the full deployment of 220 military observers to UNMEE and is based on mission-specific rates (see annex II.A). The estimates provide for mission subsistence allowance at the rate of \$80 per day for a total of \$6,424,000 for the period (80,300 person-days), as well as emplacement and rotation travel amounting to \$1,804,000. Also included is an amount of \$44,000 in respect of clothing and equipment allowance.

4. As indicated above, the mission subsistence allowance provision takes into account a total of 80,300 person-days. This includes 54,020 person-days (148 military observers) in Eritrea and 26,280 person-days (72 military observers) in Ethiopia.

5. The travel estimate (emplacement/rotation) of \$1,804,000 is based on an average cost per military observer of \$4,100 per one-way trip, inclusive of airfare (\$2,500), excess baggage (\$1,250) and terminal expenses (\$350).

6. The requirement of \$44,000 towards clothing and equipment allowance is based on a standard annual amount of \$200 each for 220 military observers.

### **Military contingents**

7. The provision of \$71,864,200 in respect of military contingents is requested. This amount is related to the full deployment of the authorized strength of 3,980 contingent personnel and consists of three infantry battalions and necessary specialist support personnel comprising signal, medical, communication, aviation, logistics, construction, engineering, demining and guard and administrative units.

The requirement provides for reimbursement of \$50,972,000 based on the standard rates (see annex II.A). Also budgeted are provisions for welfare (\$597,300), rations, including bottled water and a 16-day reserve at prescribed unit costs (\$9,269,700), daily allowance for military contingents (\$1,859,500), daily meal allowance (50 per cent of mission subsistence allowance) in respect of two officers accommodated in a hotel in Ethiopia (\$29,200), emplacement, rotation and repatriation of troops, including in-land rotation using group arrangements (\$5,650,000) and clothing and equipment allowance (\$3,486,500) based on standard rates (see annex II.A).

#### **Other requirements pertaining to military personnel**

8. An amount of \$40,436,000 is requested under this heading for contingent-owned equipment (\$22,153,700), comprising of the cost of reimbursement to troop contributors for major equipment (\$19,164,400), special equipment (\$2,989,300), self-sustainment (\$16,602,300) and death and disability (\$1,680,000). The provision for contingent-owned equipment and self-sustainment is based on wet-lease reimbursement rates approved by the General Assembly in its resolution 55/274 of 14 June 2001 on the basis of recommendations of the post-Phase V Working Group on reform procedures for determining reimbursement for contingent-owned equipment. In addition, the provisions are based on the memorandums of understanding concluded with troop contributors or under negotiation with current and prospective troop contributors.

9. Under the heading of death and disability, provision is requested in the amount of \$1,680,000 for reimbursement to Governments in respect of payments to them in the event of death, disability, injury or illness of their military personnel resulting from service with UNMEE. The requirement is based on an average payment of \$40,000, calculated at 1 per cent of the average monthly strength of military personnel.

#### **Civilian personnel**

*Apportionment: \$27,958,000; estimate: \$29,787,300; variance: \$1,829,300*

10. Resources of \$29,787,300 requested under this heading provide largely for the salaries and related costs of 615 civilian staff. The civilian staff comprises 259 international staff (110 Professionals, 37 General Service and 112 Field Service), 274 local staff and 82 United Nations Volunteers.

#### **International and local staff**

11. The estimate in respect of international staff (\$12,811,500), local staff (\$719,900) and common staff costs (\$6,461,600) is derived from salary scales for international staff based on New York standard salary costs, for mission-specific appointees with common staff costs set at 50 per cent of the New York standard cost and for local staff in Ethiopia and Eritrea. Related mission allowances amount to \$6,806,500. The provision, in addition to the hazardous duty station allowance, also takes into account a 10 per cent vacancy factor.

12. A request is made for \$20,300 in respect of overtime, based on an average of 40 hours per person for 274 staff.

13. Under other official travel, the provision of \$549,500 would cover travel within the mission area (\$102,000), travel related to political consultations and meetings (\$126,313), internal audit team travel (\$40,000), visits of Headquarters personnel to the Mission for administrative, logistical, personnel and financial matters (\$80,058), travel of UNMEE administrative personnel to Headquarters (\$18,613) and travel related to aviation safety assistance (\$12,264), geographic information systems (\$15,976) and communication and information technology (\$154,264). The details of such travel can be found in annex II.A.

#### **United Nations Volunteers**

14. Requirements of \$2,418,000 under this heading relate to 82 United Nations Volunteers for the 2002/03 period in the areas of public information, human rights, general services, field/sector offices, administration, movement control, transport, buildings management and engineering, information technology, medical services, logistics and air operations. The provision is based on the assumption that the full complement of 82 United Nations Volunteers will be on board by 1 July 2002 and takes into account the full cost of the entitlements and allowances of the Volunteers. A memorandum of understanding with the Volunteers is expected to be concluded shortly.

#### **Operational requirements**

*Apportionment: \$50,175,100; estimate: \$62,247,700; variance: \$12,072,600*

15. Operational requirements for the 2002/03 period are estimated at a total of \$62,247,700 and comprise premises and accommodation (\$6,812,000), infrastructure repairs (\$225,000), transport operations (\$6,670,600), air operations (\$27,916,700), communications (\$4,088,700), other equipment (\$4,111,600), supplies and services (\$9,133,100) and air and surface freight (\$3,290,000). It represents an increase of \$12,072,600, or 24.1 per cent over the apportionment in 2001/02.

#### **Premises/accommodation**

16. The requirement under this heading, estimated at \$6,812,000, includes a non-recurrent provision of \$3,057,500. The overall provision represents the one-year cost for the rental of premises (\$1,679,800), alteration and renovation of premises (\$252,000), maintenance supplies (\$168,000) and services (\$168,000), utilities (\$1,486,600) and a non-recurrent amount under construction/prefabricated buildings (\$3,057,500). The requirement represents an increase of \$563,500 in comparison with the 2001/02 apportionment. The increased requirement assumes deployment of the full complement of personnel. The non-recurrent requirement of \$3,057,500 is in respect of five new wells at existing and new locations and 350 air-conditioned accommodation containers for the Italian battalion. A detailed breakdown in respect of recurrent requirements is set out in annex II.A, and the non-recurrent requirements are provided in annex II.C.

17. The increase over 2001/02 under rental of premises, besides the non-recurrent costs, is attributable to: (a) increases (\$143,900) under rental of premises as a result of the addition of four warehouses (to create an integrated warehouse complex) in Asmara, bringing the total to eight warehouses and team sites, as well as the

requirement to lease land in Senafe, Tsorena, Adi Quala and Mai Maine for the Indian battalion in Mekele for the public administration office, in Senafe for the civil-military cooperation office and in the five-star camp for a bank and offices; (b) the increased requirement (\$97,300) for the alteration and renovation of premises based on 15 per cent (as opposed to the 20 per cent standard rate) of the cost of rental of premises arising out of the need for additional repairs, renovations, and upgrading required on UNMEE premises; (c) the increase in maintenance supplies (\$14,400) and services (\$87,000) based on 10 per cent of the cost of rental and assuming full deployment of personnel; (d) the increase (\$179,100) under utilities, owing partly to increased usage and full deployment of personnel; and (e) the increase (\$41,700) under non-recurrent costs for construction/prefabricated buildings.

### **Infrastructure repairs**

18. A non-recurrent estimate of \$225,000 is required in respect of the repair, maintenance and upgrading of airstrips (\$10,000) and mission-area roads (\$100,000) and the repair of bridges (\$115,000). Compared to the 2001/02 apportionment, the resources requested are at the same level as for 2002/03.

### **Transport operations**

19. An amount of \$6,670,600 is requested under this heading, representing an increase of \$2,518,800. The increased requirement stems from high repair costs arising from the wear and tear of the ageing vehicle fleet as a result of extreme weather and rough terrain. A non-recurrent requirement of \$226,600 is included to replace 10 vehicles (\$170,000) and acquire one forklift (\$27,000), with freight costs for the vehicles and forklift estimated at the standard 15 per cent. Ten vehicles were damaged in the first 10 months of the Mission and are classified as being beyond economical repair. Experience has shown that, on average, 10 vehicles are subject to damage each year in accidents. Those vehicles are to be replaced at a cost of \$17,000 each. Provision is also budgeted for the acquisition of a 2.5-ton electric forklift for use in the warehouse complex and transport workshop. This is required because to date, the Mission has had no capability for retrieving, placing and checking wares placed in storage racks over 1.8 metres in height. A non-recurrent amount for workshop equipment (\$11,300) is also required in respect of the vehicles purchased. Recurrent provisions of \$42,000 for rental of vehicles, \$2,592,000 for spare parts, repairs and maintenance, \$3,520,600 for petrol, oil and lubricants and \$278,100 for vehicle insurance are requested.

### **Air operations**

20. Requirements under this heading amount to \$27,916,700 for the 2002/03 period. The amount comprises \$18,034,200 for helicopter operations, \$8,744,100 in respect of fixed-wing aircraft, \$288,300 for aircrew subsistence allowance and \$850,100 for other air operation requirements. Currently, UNMEE has a fleet of 10 helicopters and 7 fixed-wing aircraft under long-term commercial and letter-of-assist arrangements.

21. Estimated requirements under helicopter operations cover commercial contractual obligations in respect of one long-range and six medium- to long-range Mi-8 MTV-1 helicopters, a letter-of-assist arrangement with the Government of

France for one medium-utility (AS330 Puma) helicopter for casualty and medical evacuation purposes and a letter-of-assist arrangement with the Government of Italy in respect of two Bell 212 helicopters. The increased requirement under this heading is the result of the higher hire/charter costs of the two Bell 212 helicopters, which replace the two Hughes 500 helicopters from the previous period. The two craft in question have higher capacity and come with night visibility features — a requirement for reconnaissance flights and night patrols.

22. Provisions in respect of fixed-wing aircraft cover one heavy cargo IL-76 aircraft on loan from the United Nations Mission in the Democratic Republic of the Congo (MONUC) under letter of assist, one medium passenger/cargo plane (AN-26) under commercial contract, one medium military transport plane (G-222) under a letter-of-assist arrangement, one light jet aircraft (HS 125-400B) under commercial contract, two light observation/patrol (P-166) aircraft under a letter-of-assist arrangement and one light aircraft for casualty and medical evacuations (C-160), also under letter of assist.

23. Information on fuel consumption, insurance and related costs is contained in annex II.A. The substantially increased requirement under air operations (\$2,277,600 for helicopters and \$792,000 for fixed-wing aircraft) in respect of fuel consumption is attributable to the increase in low-altitude reconnaissance and patrol flights in and around the temporary security zone. The request for provisions under this heading takes into account past patterns of expenditure under air-traffic control services and equipment. In this connection, it is anticipated that UNMEE will continue flying medical evacuation runs outside of the mission area to Nairobi, Djibouti and Jeddah, Saudi Arabia, as well as flights carrying the Special Representative of the Secretary-General in connection with the peace-building process and the force commanders to coordinate the Military Coordination Council meetings.

### **Communications**

24. The budgeted estimate of \$4,088,700 under this heading represents provisions for recurrent expenditures envisaged in the amount of \$3,141,600 under commercial communications (\$1,347,500) and spare parts and supplies (\$1,794,100 estimated at 15 per cent of the acquisition value of communication equipment), as well as a non-recurrent provision of \$947,100 for operational, test and workshop equipment. The latter is inclusive of freight costs estimated at 15 per cent of the cost of equipment.

### **Other equipment**

25. An amount of \$4,111,600, including a non-recurrent requirement of \$2,588,900 under this heading, is requested. The non-recurrent provisions are intended to address the acquisition and replacement of office furniture, data-processing equipment, generators, observation equipment, petrol tank plus metering equipment, medical and dental equipment, accommodation equipment, miscellaneous equipment and security equipment. A recurrent amount of \$1,522,700 is required for the acquisition of spare parts and the maintenance of air conditioning, refrigeration, generation, medical and office equipment and data-processing spare parts and toner. The increase in provisions is attributable mainly to the spare parts required to maintain the water purification plants in Asmara and Addis Ababa. Also, with the full deployment of military and civilian personnel, UNMEE needs to procure

additional equipment such as work-group printers, servers and scanners, and at the same time keep abreast of the latest technology throughout the four-year replacement programme.

### **Supplies and services**

26. A sum of \$9,133,100 is estimated under supplies and services. The estimated requirement would provide for external audits (\$100,700), contractual services (\$4,409,300), data processing (\$382,100), round-the-clock security (\$374,400) for the Mine Action Coordination Centre, medical treatment and other services (\$1,470,000), claims and adjustments (\$50,400), official hospitality (\$24,000) and miscellaneous other services (\$355,900). The requirement also takes into account the provisions necessary for the acquisition of stationery and office supplies (\$413,800), medical supplies (\$188,600), sanitation and cleaning supplies (\$125,200), subscriptions (\$24,900), electrical supplies (\$72,000), uniforms, flags and decals (\$264,100), field defence stores (\$591,900), operational maps (\$57,500) and quartermaster and general stores (\$228,300). Annex II.A provides a detailed breakdown of supplies and services.

27. A substantially increased provision in respect of medical treatment and services (\$1,470,000) is budgeted, as UNMEE expects to cater to civilian and military contingent personnel at full strength. The calculation is based on the standard cost of two medical evacuations per 1,000 troops per month at a cost of \$20,000 per evacuation and two medical evacuations per 1,000 civilian staff per month at the same rate. In addition, increased requirements are requested under contractual services (\$4,409,300) that include provisions for running two shifts to maintain and run the water-purification plants owing to an increased requirement for drinking water as well as the addition of a kitchen (for a total of two), requiring additional contractual staff for operations.

### **Air and surface freight**

28. Non-recurrent provisions of \$1,430,000 and \$1,860,000, for a total of \$3,290,000, are requested. The amount of \$1,430,000 would provide for the deployment of contingent-owned equipment by air and sea and in-land transportation for the repatriation of contingent-owned equipment to troop-contributing countries. The amount of \$1,860,000 would provide for freight, cartage and clearing costs for goods and services as well as the transportation of United Nations-owned equipment to the Mission.

### **Other programmes**

*Apportionment: \$4,027,600; estimate: \$4,207,600; variance: \$207,400*

### **Public information programmes**

29. A provision of \$626,500 is requested under this heading to meet the increase in demand for coverage of political, humanitarian and confidence-building activities as well as increased activities of the Boundary Commission in and around the temporary security zone. Also, in the absence of a status-of-forces agreement with the Government of Eritrea, the Mission's requirement for media facilities is met through commercial sources and from outside agencies. The overall provision takes

into account a non-recurrent amount of \$62,000 towards the acquisition of public information equipment, a sum of \$101,500 for materials and supplies (\$21,500 in non-recurrent provision) and \$463,000 for contractual services related to the printing of brochures, leaflets, newsletters, rental of studios, satellite feed costs, rental of films, cinematographic services for confidence-building measures and training materials.

### Training programmes

30. A provision of \$393,400 is requested under this heading to cover the cost of travel and training of staff as follows (details are provided in annex II.A):

<i>Course</i>	<i>Estimate (United States dollars)</i>	<i>Number of staff to be trained</i>	<i>Venue</i>
Data processing	106 876	14	UNLB
Procurement	6 170	1	Asmara
Transport	41 564	8	UNLB and France
Communications	76 340	10	UNLB
Movement control (International Air Transport Association)	13 728	1	Asmara
Air operations	51 670		
International Civil Aviation Organization Seminar		6	Montreal
Ramp and cargo management		2	UNLB
Aviation fuel management		1	Nairobi
Supply	19 959	3	UNLB
Geographic information systems	15 771	1	UNLB
Contract management	11 016	2	MONUC
Contingent-owned equipment/memorandum of understanding	30 162	4	Asmara and UNLB
Field administration and logistics	20 613	4	UNLB
<b>Total<sup>a</sup></b>	<b>393 869</b>	<b>57</b>	

<sup>a</sup> The total estimate is rounded upward to \$393,900.

### Mine-clearing programmes

31. An estimated requirement of \$3,187,700 is requested to cover the cost of the services of contractors (\$1,621,800) in lieu of 20 civilian staff (11 P-4, 1 General Service and 8 Local level) under non-post resources for the Mine Action Coordination Centre. The requirements also provide for a non-recurrent amount for equipment of \$123,900 and recurrent provisions of \$1,290,000 for miscellaneous services and (\$152,000) for supplies. Provisions in respect of the non-recurrent amount are detailed in annex II.C, while the recurrent amounts are set out in annex II.A. The hiring of personnel and the procurement of mine-action equipment and services have been subcontracted to the United Nations Office for Project Services

(UNOPS). The provisions requested include programme support costs levied by UNOPS.

### **Staff assessment**

*Apportionment: \$3,910,100; estimate: \$4,015,400; variance: \$105,300*

32. The amount budgeted under this heading represents the difference between gross and net emoluments; that is, the amount of staff assessment to which United Nations staff members are subject, in accordance with the Staff Regulations of the United Nations. Staff assessment costs are based on the staffing complement of 259 international staff and 274 local staff, as indicated in section VIII.A above.

### **Income from staff assessment**

*Apportionment: (\$3,910,100); estimate: (\$4,015,400); variance: (\$105,300)*

33. The staff assessment requirements have been credited to this item as income from staff assessment and will be credited to the Tax Equalization Fund established by the General Assembly in its resolution 973 A (X) of 15 December 1955. Member States are given credit in the fund in proportion to their respective rates of contribution to the UNMEE budget.

## Annex II

### Cost estimates for the period from 1 July 2002 to 30 June 2003: analysis

#### A. Standard and mission-specific costs

Description	Previous submission	Average strength	Standard cost	Proposed cost estimates (United States dollars)			Explanation
				Unit or daily	Monthly	Annual	
<b>1. Mission subsistence allowance</b>							
Addis Ababa (Hilton and Sheraton Hotels)	113			113			No change.
Asmara (Intercontinental Hotel)	151			151			Idem.
Elsewhere	80			80			No change.
<b>2. Travel costs (one-way)</b>

55. Electrical supplies	6 000				6 000		No change.
56. Uniforms, flags and decals	22 800				22 008		Acquisition of flags and decals for military personnel at full deployment, taking into account rotation.
57. Field defence stores	49 300				49 325		Acquisition of sandbags, barbed wire, concertina wire, etc.
58. Operational maps	18 400				4 792		Acquisition of replacement maps owing to wear and tear.
59. Quartermaster and general stores	12 900				19 025		Acquisition of expendable general stores and geographic information system supplies.
60. Public information programmes							
Materials and supplies	3 300				6 667		Acquisition of supplies and materials.

<i>Description</i>	<i>Previous submission</i>	<i>Average strength</i>	<i>Standard cost</i>	<i>Proposed cost estimates (United States dollars)</i>			<i>Explanation</i>
				<i>Unit or daily</i>	<i>Monthly</i>	<i>Annual</i>	
Contractual services	23 300				38 583		Printing of leaflets, newsletters and other public information materials.
<b>61. Training</b>							
Finance	12 300						
Data processing	76 300					106 876	Fourteen UNMEE staff, inclusive of course fees, to be trained at UNLB.
Procurement	15 300					6 170	One UNMEE staff, inclusive of course fees, to be trained in Asmara.
Contingent-owned equipment	-					30 162	Four staff, two at UNLB and two at Asmara.
Communications	114 400					76 340	Ten UNMEE staff, inclusive of course fees, to be trained at UNLB.
Transport	15 300					41 564	Eight motor transport officers, inclusive of course fees, to be trained at UNLB and in France.
Movement control	15 300					13 278	One UNMEE movement control specialist, inclusive of course fees, to obtain International Air Transport Association (IATA) dangerous goods certification in Asmara.
Air operations	30 600					51 670	Nine air specialists (2 for aviation operations (ramp and cargo management) at UNLB, 1 for aviation fuel management/IATA in Nairobi and six for International Civil Aviation Organization regional seminar in Montreal).
Administration and logistics						20 613	Four staff at UNLB.
Supply	22 900					19 959	Three UNMEE staff, inclusive of course fees, to be trained at UNLB.
United Nations-owned equipment, technical	38 000						No requirement.
Geographic information systems	58 900					15 771	Course fees for geographic information system staff at UNLB.
Contracts						11 016	Two staff to be trained at MONUC in Kinshasha.

<i>Description</i>	<i>Previous submission</i>	<i>Average strength</i>	<i>Standard cost</i>	<i>Proposed cost estimates (United States dollars)</i>			<i>Explanation</i>
				<i>Unit or daily</i>	<i>Monthly</i>	<i>Annual</i>	
<b>62. Mine-clearing programmes</b>							
Contractual services	1 186 800					1 621 800	Contractual staff services (11 P-4, 1 GS and 8 LL staff) converted to non-post resources.
Supplies	12 667				12 667		Acquisition of miscellaneous supplies for maps, explosives and accessories under letters of assist and minefield marking materials. No change.
Miscellaneous services							
Mine-awareness materials	55 000					55 000	Design, production and distribution of mine-awareness materials. No change.
Mine-awareness contracts							
Mine-clearance training the trainer contracts	35 000					35 000	Contractual services to provide training. No change.
Quality assurance	1 200 000					1 200 000	Lease of special mine-clearance vehicle and services for one year.
Quality assurance	1 200 000						No requirement.
<b>63. Quick-impact projects</b>	48 825						No requirement.

**B. Distribution of resources by budgetary parameters: standard and mission-specific costs**

## Annex III

### Support provided by the United Nations Mission in Ethiopia and Eritrea to United Nations and non-United Nations entities in the mission area

<i>Section providing support/tasks</i>	<i>Entities receiving support</i>
<b>Electronic support services</b>	
Provision of VSAT extensions and rural links	Office of the United Nations High Commissioner for Refugees (Asmara) World Food Programme (Barentu) United Nations Development Programme (Asmara) Organization of African Unity (Asmara)
Provision of VSAT extensions and hard wire	Office of the United Nations High Commissioner for Refugees (Barentu)
Provision of Internet service and electronic mail	Office of the United Nations High Commissioner for Refugees (Barentu) World Food Programme (Barentu)
Provision of Internet service	Office of the United Nations High Commissioner for Refugees (Asmara) United Nations Development Programme (Asmara) Organization of African Unity (Asmara)
Provision of generator	United Nations Development Programme (Asmara)
Provision of bandwidth	Economic Commission for Africa (Addis Ababa)

## Annex IV

### Implementation of previous recommendations of the Advisory Committee on Administrative and Budgetary Questions

<i>Request</i>	<i>Response</i>
<p>1. The Advisory Committee notes with concern that no progress has been made in the implementation of its recommendation to establish a direct flight link between Addis Ababa and Asmara (A/56/661, para. 14).</p>	<p>As stated in the latest report of the Secretary-General to the Security Council (S/2001/1194, para. 17), there has been no progress regarding the establishment of a direct high-altitude flight route for UNMEE between Asmara and Addis Ababa. Eritrea continues to maintain that UNMEE should fly the most direct route and refuses to make any other route available. The Ethiopian authorities insist, however, that UNMEE make a brief deviation from the most direct route to steer clear of anti-aircraft installations. The Special Representative of the Secretary-General has been raising this issue with the respective authorities of both countries in every meeting.</p>
<p>2. The Committee was informed by the representatives of the Secretary-General of the positive impact of United Nations Volunteers on the activities of the Mission and of the good cooperation that the Special Representative of the Secretary-General had established with United Nations agencies, funds and programmes present in the area of operation. The Committee requests in this connection that the next budget submission for UNMEE include information on such cooperation and the possible future role for United Nations Volunteers, as well as statistics on human rights issues (ibid., para. 19).</p>	<p>(a) Possible future role for UNVs. In line with the recommendation of the Committee contained in its report on the financing of UNMEE for the period from 31 July 2000 to 30 June 2001 (A/55/688/Add.1, para. 31), UNMEE has made greater use of UNVs in areas such as human rights, communication and public information activities by increasing the number of Volunteers to 82 in the budget period 2001/02. Likewise, in future, UNMEE will continue to endeavour to include more UNVs if the need arises. In an effort to demonstrate its cooperation with UNMEE, a delegation from the UNV office in Bonn, Germany, consisting of a programme specialist and an associate programme specialist, visited UNMEE from 13 to 18 December 2001 and reviewed the draft memorandum of understanding and the set-up of the UNV Support Unit.</p> <p>(b) Statistics on human rights issues. The Human Rights Office of UNMEE monitors and reports on conflict-related human rights violations within the 1,200-kilometre-long, 25-kilometre-wide temporary security zone. In this regard, the continuing expulsion of both countries of persons of each other's nationality</p>

	<p>or descent has been central to the work of the Human Rights Office. Since the signing of the Algiers Peace Agreement, 21,411 persons of Ethiopian origin have been repatriated from Eritrea to Ethiopia under the auspices of the International Committee of the Red Cross. During the same period, 882 persons of Eritrean origin have been repatriated from Ethiopia to Eritrea. The Human Rights Office became operational in May 2001, and since then has started interviewing persons repatriated by both parties. This has enabled the team to gather first-hand information on the circumstances surrounding the repatriation and living conditions of each other's nationals still residing in the territory of the other. The number of persons interviewed by UNMEE human rights officers since its inception follows:</p> <ul style="list-style-type: none"> <li>(i) In November 2001, of the 1,021 individuals, including heads of families, that were repatriated from Ethiopia to Eritrea, the Human Rights Office interviewed 417;</li> <li>(ii) Between June and November 2001, the Human Rights Office interviewed approximately 365 individuals and heads of families;</li> <li>(iii) Between June and December 2001, the Human Rights Office interviewed 60 individuals and families with a view to incorporating them into the family reunification programme to be presented to the Governments of Ethiopia and Eritrea;</li> <li>(iv) Between June and December 2001, the Human Rights Office investigated 23 cross-border incidents, including "defections" of service personnel of one country to the other.</li> </ul>
<p>3. The Committee requests that the adequacy of the verification capacity and arrangements of UNMEE be examined (ibid., para. 22).</p>	<p>The UNMEE contingent-owned equipment verification system has been functioning adequately and makes use of available personnel resources from both the military and civilian components. UNMEE also has a system in place to train and keep ready enough personnel to take charge of the operation in the event that a staff member or a military person</p>

	on the team leaves the mission area. In this regard, please note that UNMEE is quite confident that the measures taken thus far are sufficient to maintain an adequate and timely submission of verification reports.
4. The Committee requests that the contractual arrangements and the use of the executive jet be reviewed with a view to ascertaining its cost-effectiveness and taking into account the Committee's recommendation on direct flight. The Committee also requests that the Mission explore less costly alternatives to the executive jet ( <i>ibid.</i> , para. 25).	As UNMEE explained to the Committee during the deliberation of the budget for 2001/02, the Special Representative of the Secretary-General, the Deputy Special Representative of the Secretary-General and the Force Commander often are required to attend meetings on short notice and therefore are greatly dependent on the fast mode of air transportation, which is now made available by the executive jet. In this regard, please note that there is a considerable amount of time savings, as the executive jet takes only an hour and a half compared to an AN-26, which takes four hours to complete the same journey. Moreover, an AN-26 must be refuelled en route to cover the same distance. Also, from the point of view of medical emergencies, as a contingency plan, UNMEE depends on the executive jet aircraft to arrange medical evacuations as necessary. Therefore, once the direct air corridor between Addis Ababa and Asmara is opened, UNMEE would be in a position to look into the urgent requirement of less costly alternatives, as requested by the Committee.
5. The Committee expresses concern that only two resident auditor posts (1 P-4 and 1 General Service) out of four have been filled as at the time of the examination of the estimates ( <i>ibid.</i> , para. 27).	Of the four incumbents for the audit function of UNMEE, two are Professional-level auditors and the other two are support staff — one international and one local. The second auditor post was filled in December 2001, and the local staff post was filled on 9 October 2001.
