“Having now adopted the resolution on small island developing States, there are two related matters that I would like to draw to the attention of the Committee and ask that they bear in mind and convey to their capitals:

“(a) First, in paragraph 5 of the resolution, we have decided to convene an international meeting in 2004. I understand that conference services has advised that the calendar of conferences currently has a gap in the latter part of August and early part of September 2004 during which the international meeting could take place. I also understand that the Group of 77 and China would like the meeting to take place during that period and are concerned that the current opening in the calendar of conferences not be lost. There also appears to be a general desire by members to bring clarity to the issue of the timing of the meeting at the next available opportunity. In the meantime, I would ask the Secretariat to draw this matter to the attention of the Committee on Conferences;

“(b) Secondly, in paragraph 15 of the resolution, we have decided to establish a voluntary fund for the purpose of assisting small island developing States, and the least developed among them, in participating in the international meeting and its preparatory process. I understand that a similar fund was established for the 1994 Barbados Conference and that approximately \$30,000 remains in that fund. I also understand that the Group of 77 and China would like to make use of those monies for the purpose of assisting small island developing States, and the least developed among them, to participate in the 2004 international meeting and its preparatory process. In order to do so, the Secretariat will need to obtain the agreement of all donors to the original 1994 fund. The Secretariat will shortly be writing to donor Governments to obtain their agreement.”

13. In the light of the adoption of draft resolution A/C.2/57/L.64, draft resolution A/C.2/57/L.20 was withdrawn by its sponsors.

Welcoming the establishment of the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States, and emphasizing the importance of issues related to small island developing States within the United Nations system,

Recognizing that, within the context of the challenges of development, small island developing States experience specific problems arising from small size, remoteness, geographical dispersion, vulnerability to natural disasters, fragile ecosystems, constraints on transport and communication, isolation from markets, vulnerability to exogenous economic and financial shocks, limited internal markets, lack of natural resources, limited freshwater supply, heavy dependence on imports and limited commodities, depletion of non-renewable resources and migration,

Recognizing also the significant efforts of small island developing States to achieve sustainable development and the need to continue to enhance their capacities to participate effectively in the multilateral financial and trading system,

Reiterating the importance of the vulnerability index as a tool for assessing, and thereby addressing, the vulnerability of small island developing States, as well as identifying the challenges to their sustainable development,

Recognizing the relevance of such work to the mandate of the Committee for Development Policy concerning criteria for the identification, including designation and graduation, of the least developed countries,

Noting the efforts to implement the Programme of Action for the Sustainable Development of Small Island Developing States at the national, regional and international levels and the need for regional and global institutions to continue to supplement the efforts being made at the national level, inter alia, through the provision of adequate financial and technical support,

Emphasizing the continuing need for the technical and financial support of projects that were presented within the context of the implementation of the Programme of Action, inter alia, at the meeting of representatives of donor countries and small island developing States, held in New York from 24 to 26 February 1999,¹⁹ as well as the partnership initiatives presented by small island developing States and their organizations during the World Summit on Sustainable Development,

Noting in this regard the preparatory activities undertaken at the national and regional levels for the World Summit on Sustainable Development and expressing
