#### Human resources incumbency performance

| Category                  | Approved <sup>a</sup> | Actual<br>(average) | Vacancy rate<br>(percentage) b |
|---------------------------|-----------------------|---------------------|--------------------------------|
| Military observers        | 220                   | 215                 | 2                              |
| Military contingents      | 3 980                 | 3 772               | 5                              |
| International staff       | 257                   | 220                 | 14                             |
| National staff            | 274                   | 254                 | 7                              |
| United Nations Volunteers | 82                    | 40                  | 51                             |

<sup>&</sup>lt;sup>a</sup> Represents the highest level of authorized strength.

The actions to be taken by the General Assembly are set out in section IV of the present report.

<sup>&</sup>lt;sup>b</sup> Based on monthly incumbency and approved monthly strength.

## I. Mandate performance

- 1. The mandate of the United Nations Mission in Ethiopia and Eritrea (UNMEE) was established by Security Council resolutions 1312 (2000) and 1320 (2000). The mandate is also elaborated in Security Council resolutions 1344 (2001), 1369 (2001) and 1398 (2002).
- 2. The Mission is mandated to help the Security Council achieve an overall objective being, namely, to achieve the peaceful settlement of the dispute between Ethiopia and Eritrea.
- 3. Within this overall objective the Mission has, during the performance period, contributed to a number of accomplishments by delivering related key outputs, as shown in the frameworks below.
- 4. The frameworks represent an improvement in objective-setting. The 2001-2002 budget did not include standard frameworks for planned results, which would have been the baseline against which performance would have been measured and reported. Therefore, the Mission's performance data for 2001-2002 are presented in a transitional format showing the actual accomplishments and actual outputs for which information was available against generic indicators and output types rather than against a baseline.

#### **Component 1: Political**

| Expected accomplishments  |   |  |
|---|---|--|
| 1.1. Progress towards final settlement of border dispute  |   |  |
| Indicators of achievement   | Actual accomplishments  |  |
| Increased awareness of and involvement in political events and developments of both countries and increased public awareness of the peace process | Involvement, participation in political process<br>and dialogue by Ethiopia and Eritrea, the<br>Friends of UNMEE, the African Union, the<br>European Union and other concerned Member<br>States |  |
| Increased number of returning internally displaced persons refugees to the Temporary Security Zone and adjacent areas cleared of mines            | 170,000 internally displaced persons and refugees returned to the Temporary Security Zone and adjacent areas  |  |
| Decreased number of human rights violations in the Temporary Security Zone and adjacent areas   | Decreased   |  |

| Output type                  | Actual outputs   |
|------------------------------|--|
| Reports                      | 4 reports of the Secretary-General to the Security Council   |
|                              | Daily situation reports  |
|                              | 64 weekly and monthly reports  |
| Briefings                    | 25 briefings and presentations   |
|                              | 50 briefings by the Special Representative of<br>the Secretary-General to the Friends of<br>UNMEE, facilitators, guarantors and troop-<br>contributing countries (in both Ethiopia and<br>Eritrea) |
|                              | 50 briefings for visitors and visiting delegations, including representatives of the Security Council and the Advisory Committee on Administrative and Budgetary Questions                         |
| Confidence-building meetings | 3 facilitated meetings of religious leaders  |
| Public information           | 12 editions of UNMEE newsletter published with distribution of up to 60,000 copies in Mission area   |
|                              | 22 press releases  |
|                              | 104 radio programmes produced and made available on web site; 46 programmes aired  |
|                              | 4 special photo exhibitions  |
|                              | 44 press briefings   |
|                              | One video documentary produced on peace process  |
| Mine clearance               | Clearance of 10 square kilometres of land  |
|                              | Destruction of 2,400 mines and 35,000 items of unexploded ordnance   |
|                              | 105,000 people given mine risk training  |
|                              | 25 conducted training sessions in mine and unexploded ordnance safety  |
|                              | 80 mine action reports and safety advisories issued  |
|                              | 40 mine incidents/accidents investigated and closed  |

| Quick-impact projects                    | 51 quick-impact projects initiated  |
|--|---|
|  | 50 quick-impact projects completed  |
| Civilian military cooperation activities | Establishment of 3 centres in the field sectors   |
| Human rights report                      | 150 reports on human rights issues from field sectors   |
|  | 50 reports on human rights included in "UNMEE weekly"   |
|  | 500 interviews with victims of human rights violations, repatriation and family reunification cases                         |
|  | 10 human rights induction briefings for new peacekeeping contingents  |
|  | 5 meetings with the United Nations Country<br>Team on human rights issues   |
|  | 30 meetings on coordination of human rights issues with humanitarian organizations and local non-governmental organizations |

## **Component 2: Military**

| Expected accomplishments   |  |  |  |  |
|--|--|--|--|--|
| 2.1. Ensure observance of the security commitments agreed by Ethiopia and Eritrea in the Agreement on Cessation of Hostilities |  |  |  |  |
| Indicators of achievement Actual accomplishments   |  |  |  |  |
| Successful maintenance of the Temporary<br>Security Zone in a demilitarized state  | Temporary Security Zone has been maintained in a demilitarized state since April 2001  |  |  |  |
| Decreased number of violations of the Agreement in the Temporary Security Zone and adjacent areas                              | Except for a few isolated incidents across the southern boundary of the Temporary Security Zone, no major violations of the agreement occurred |  |  |  |
| Output type  | Actual outputs   |  |  |  |
| Coordination meetings with Ethiopian and Eritrean military commanders  | 35 observation posts and 14 military observer sites  |  |  |  |
|  | 6 meetings of the Military Coordination<br>Committee with both parties   |  |  |  |
| Route access mine clearance in the Temporary Security Zone and adjacent areas  | 9,246,993 square metres area of land de-mined; 801.4 kilometres of roads cleared of mines and 2,275,477 square metres of land marked           |  |  |  |

| Routine and long-range patrols | 52 routine patrols (6-8 hours, day and night) of 40 to 100 kilometres                |
|--------------------------------|--|
|                                | 12 long-range patrols per month per sector   |
| Special investigation          | 24 investigations of special incidents were conducted by investigation teams/patrols |

## **Component 3: Support**

| Expected accomplishments  |   |  |
|---|---|--|
| 3.1. Increased efficiency and effectiveness in supporting the Mission |   |  |
| Indicators of achievement   | Actual accomplishments  |  |
| High level of surveyed satisfaction with support services             | Medium-to-high level of surveyed satisfaction was received from client offices  |  |
| Output type   | Actual outputs  |  |
| Budget report   | 1 budget report submitted   |  |
| Performance report  | 1 performance report submitted  |  |
| Accommodations maintained   | 41 premises maintained (offices, team sites, container complexes and camps)   |  |
| Pre-fabricated buildings/blocks constructed                           | 16 Kobe houses for 336 troops in Sector East, 5 Kobe houses in Sector Centre for the Indian battalion, 124 staff officers in one camp; 208 Guard and Administration Company (Irish) in one camp, 54 personnel in Level II medical facilities in staff officers camp |  |
| Water treatment plants installed and commissioned                     | 2 water treatment plants in operation   |  |
| Aircraft operated   | 5 fixed-wing aircraft in operation  |  |
| Helicopters operated  | 9 helicopters in operation  |  |
| Transport of passengers   | 42,670 passengers transported   |  |
| Cargo moved by air  | 989,233 kilos of cargo moved by air   |  |
| Cargo moved by land   | 2,746,719 kilos of cargo moved by land  |  |
| Vehicles maintained   | 406 United Nations-owned vehicles maintained  |  |
| Contracts managed and implemented                                     | 13 contracts managed  |  |
| Communications and information technology networks maintained         | Communications and information technology networks maintained daily during the year   |  |

| Security services provided                       | Security services provided daily during the year      |
|--|---|
| Purchase orders/contracts value                  | 673 purchase orders valued at \$12,514,218, completed |
| Establishment of UNOE Level I medical facilities | 1 Level I clinic established                          |
| Medical consultation                             | 982 medical consultations conducted at Level I        |
| Medical evacuation                               | 73 medical evacuations undertaken                     |

## II. Resource performance

## A. Financial resources

(Thousands of United States dollars. Budget year is 1 July 2001 to 30 June 2002.)

|  |               |              | Variance        |               |
|--|---------------|--------------|-----------------|---------------|
|  | Apportionment | Expenditures | Amount          | Percentage    |
| Category                                       | (1)           | (2)          | (3) = (1) - (2) | (4) = (3)/(1) |
| Military and police personnel                  |               |              |                 |               |
| Military observers                             | 8 295.4       | 7 204.3      | 1 091.1         | 13.2          |
| Military contingents                           | 79 426.6      | 76 491.6     | 2 935.0         | 3.7           |
| Civilian police                                |               | _            | _               | _             |
| Formed police units                            |               | _            | _               | _             |
| Civilian personnel                             |               |              |                 |               |

# C. Contingent-owned equipment: major equipment and self-sustainment

| Category                         | Expenditure<br>(Thousands of US dollars) |
|----------------------------------|--|
| Major equipment                  | 19 066.8                                 |
| Self-sustainment                 |  |
| Catering                         | 1 220.5                                  |
| Office                           | 702.2                                    |
| Electrical                       | 1 291.0                                  |
| Minor engineering                | 739.3                                    |
| Laundry and cleaning             | 1 022.1                                  |
| Tentage                          | 953.7                                    |
| Accommodation                    | 751.2                                    |
| Miscellaneous general stores     | 2 016.0                                  |
| Communications                   | 3 881.6                                  |
| Medical                          | 2 348.9                                  |
| Explosive ordnance               | 332.1                                    |
| Observation                      | 1 474.3                                  |
| Nuclear, biological and chemical | 99.7                                     |
| Subtotal                         | 16 832.6                                 |
| Total                            | 35 899.4                                 |

## III. Analysis of variances<sup>1</sup>

|                    | Variance  |       |
|--------------------|-----------|-------|
| Military observers | \$1,091.1 | 13.2% |

5. The decrease in requirements was primarily due to the lower than budgeted for travel cost per military observer (\$2,030).

|                      | Variance  |      |
|----------------------|-----------|------|
| Military contingents | \$2,935.0 | 3.7% |

6. The decrease in requirements was mainly due to the lower than budgeted for travel cost per contingent member, augmented by savings under mission subsistence allowance. The lower average cost was \$283 per contingent for 10,993 contingent members, compared with the budgeted amount of \$800 per contingent member.

|                     | Variance  |       |
|---------------------|-----------|-------|
| International staff | \$3,280.7 | 11.5% |

7. The decrease in requirements was the result of posts at authorized levels being encumbered at lower grades and delayed recruitment.

|                | <br>Variance |       |
|----------------|--------------|-------|
| National staff | <br>\$392.8  | 30.9% |

8. The decrease in requirements resulted from a higher number of national staff being recruited at a lower grade level commensurate with the local labour market forces.

|                                  | Variance |       |
|----------------------------------|----------|-------|
| <b>United Nations Volunteers</b> | \$208.3  | 11.3% |

9. The decrease in requirements stemmed primarily from the delayed deployment of United Nations Volunteers.

|                 | Variance  |         |
|-----------------|-----------|---------|
| Official travel | (\$414.5) | (81.0%) |

10. The increase in requirements was mainly due to additional costs incurred for within-mission travel by substantive staff in connection with the settlement of border disputes and by administrative support staff to provide increased support to the peace process.

<sup>&</sup>lt;sup>1</sup> Resource variance amounts are expressed in thousands of United States dollars.

|                               | Variance  |       |
|-------------------------------|-----------|-------|
| Facilities and infrastructure | \$2,290.0 | 10.9% |

- 11. The decrease in requirements under equipment was attributed to savings from the acquisition, rather than purchase, of generators from the Field Administration and Logistics Division reserve stock, non-acquisition of water purification equipment as a result of alternative modes of water distribution by contracted trucks and non-acquisition of separate water and septic tank units, which are no longer needed as the new septic tanks come fitted with prefabricated hard wall structures.
- 12. Substantial savings were incurred owing to problems in acquiring a warehouse/logistics support contract due to lack of response to bids during the reporting period. The scope of work has been revised for re-bidding purposes and is expected to be issued shortly.

|                       | Variance  |       |
|-----------------------|-----------|-------|
| Ground transportation | \$1,484.6 | 35.8% |

13. The decrease in requirements resulted primarily from lower requirements than originally budgeted for under petrol, oil and lubricants for contingent-owned and United Nations-owned vehicles during the period.

|                    | Variance  |      |
|--------------------|-----------|------|
| Air transportation | \$1,595.5 | 6.8% |

14. The decrease in requirements were mainly due to the lower amount expended for aviation fuel consumption as a result of lower than anticipated actual flying hours and the repatriation of two surveillance aircraft.

|                | Variance |      |
|----------------|----------|------|
| Communications | \$449.4  | 5.7% |

15. The decrease in requirements mainly resulted from the delayed acquisition of an independent Internet connection and spare parts for equipment. The delay was due to the time required to identify a vendor to provide services in accordance with the Mission's existing equipment and requirements.

|                        | Variance |       |
|------------------------|----------|-------|
| Information technology | \$194.5  | 10.9% |

16. The decrease in requirements resulted from lower costs incurred for Geographical Information System (GIS) contractors during the period. The participation of the experienced military personnel to the GIS Unit allowed the Mission to set up the GIS office without additional external contractual services.

|         | Variance |      |
|---------|----------|------|
| Medical | \$156.1  | 5.6% |

17. The reduced requirements during the reporting period results from the fact that only one special medical evacuation via air ambulance was carried out during the reporting period, as opposed to the two budgeted for.

|  | Variance  |        |
|--|-----------|--------|
| Miscellaneous supplies, services and equipment | (\$186.6) | (1.3%) |

18. During the reporting period, provision was made to commercially charter 12 flights to ship equipment and supplies from the United Nations Logistics Base in Brindisi, Italy, and other missions. Accordingly, all shipments of equipment and supplies via air were transported utilizing the flying hours provided by UNMEE air operations, reducing the need to charter additional commercial flights.

#### IV. Actions to be taken by the General Assembly

- 19. The actions to be taken by the General Assembly in connection with the financing of UNMEE are:
- (a) A decision on the treatment of the unencumbered balance of \$13,392,300 with respect to the period from 1 July 2001 to 30 June 2002;
- (b) A decision on the treatment of other income/adjustments for the period ended 30 June 2002 amounting to \$10,547,000 from interest income (\$3,601,000), other/miscellaneous income (\$390,000) and savings on or cancellation of prior-period obligations (\$6,556,000).
