I. Introduction

1. The budget for the maintenance of the United Nations Iraq-Kuwait Observation Mission (UNIKOM) for the period from 1 July 2002 to 30 June 2003 was set out in the report of the Secretary-General of 13 February 2002 (A/56/820) and amounted to US\$ 53,340,600 gross (\$51,112,700 net) inclusive of budgeted voluntary contributions in kind amounting to \$2,767,400. It provided for 195 military observers, 904 military contingents, 67 international staff and 168 national staff. The Advisory Committee on Administrative and Budgetary Questions, in paragraph 21 of its report dated 4 April 2002 (A/56/887/Add.5), recommended that the General Assembly appropriate \$50,573,200 gross for the period from 1 July 2002 to 30 June 2003, including the amount of \$32,230,200 net, representing two thirds of the cost, to be funded through voluntary contributions from the Government of Kuwait.

2. The General Assembly, by its resolution 56/297 of 27 June 2002, appropriated an amount of \$50,573,200 gross (\$48,345,300 net) for the maintenance of the Mission for the period from 1 July 2002 to 30 June 2003. Two thirds of the total amount was financed by voluntary contributions from the Government of Kuwait; the remaining one third of the amount has been assessed on Member States.

II. Mandate performance

3. The mandate of UNIKOM was established by the Security Council in its resolution 687 (1991) and was subsequently expanded by the Council in its resolution 806 (1993). The continuation of UNIKOM for the performance period was provided for by the letters from the President of the Security Council to the Secretary-General dated 4 April 2002 (S/2002/349), 3 October 2002 (S/2002/1109) and 3 April 2003 (S/2003/400).

4. UNIKOM was mandated to help the Security Council achieve an overall objective, namely, to maintain international peace and security.

5. During the period under review, conditions in the UNIKOM area of operations deteriorated so markedly, owing to political and military developments in the region, that the Secretary-General, decided for security reasons and because it could no longer fulfil its mandate, to suspend operations of UNIKOM on 17 March 2003.

6. Within its overall objective, the Mission has during the performance report period contributed to a number of accomplishments by delivering related key outputs, as shown in the frameworks set out below. The frameworks are grouped by components — military and support — which reflect, rather than determine, the common programmatic nature of the expected accomplishments and outputs contained in the components.

7. The frameworks represent a shift towards a results-based budgeting approach. The 2002/03 budget did not include standard frameworks for planned results, which would have been the baseline against which performance would be measured and reported. Therefore, the Mission mandate performance is presented in a transitional format showing the actual indicators of achievement and actual outputs during 2002/03 for which information was available. The expected accomplishments would lead to the fulfilment of the Security Council's objective within the time frame of

the mission and the actual indicators of achievement show a measurement of progress towards such accomplishments during the performance period. The actual outputs represent the contributions by the mission towards the expected accomplishments during the performance period.
