Summary

The present report contains the budget for the United Nations Mission of Support in East Timor (UNMISET) for the period from 1 July 2004 to 30 June 2005, which amounts to \$9,395,600, inclusive of budgeted voluntary contributions in kind in the amount of \$10,000.

The budget provides for the phased downsizing of administrative staff comprising 120 international and 133 national staff as well as 20 United Nations Volunteers, and for the liquidation of the Mission by 31 December 2004.

The total resource requirements for UNMISET for the financial period from 1 July 2004 to 30 June 2005 have been linked to the Mission's objective through a results-based support-component framework. The financial resources for operational items have been linked to the support component by identifying quantitative outputs for expenditure classes under operational costs.

The explanations of variances in levels of resources, both human and financial, have been linked, where applicable, to specific outputs planned by the Mission.

I. Mandate and planned results

1. The Mission is mandated to help the Security Council achieve an overall objective, namely, to maintain international peace and security. Within this overall objective, the Mission was mandated by the Council to carry out activities to ensure the long-term stability and security of Timor-Leste.

2. Pursuant to Security Council resolution 1410 (2002) of 17 May 2002, the full devolution by UNMISET of all its operational responsibilities to the Timor-Leste authorities will be completed by 20 May 2004. Accordingly, by 30 June 2004, all military and civilian police personnel will be repatriated to their home countries and all international substantive and most administrative staff will be returned to their parent organizations, reassigned to other peacekeeping missions or repatriated to their home countries. National staff will also be substantially reduced by 30 June 2004.

3. The Mission's liquidation team, charged with the responsibility of bringing the Mission to administrative closure by 31 December 2004, will contribute to the expected accomplishment by delivering related key outputs under the support component, as shown in the framework below.

III. Analysis of variances¹

Reference

This section describes the single largest contributing factor of each resource variance according to specific standard options encompassed in the four standard categories listed below:

Mandate: Variances caused by changes in the scale or scope of the mandate, or changes in the expected accomplishments as driven by the mandate;

External: Variances caused by parties or situations external to the United Nations;

Cost parameters: Variances caused by United Nations regulations, rules and policies;

Management: Variances caused by management actions to achieve planned results more effectively (e.g., by reprioritizing or adding certain outputs) or efficiently (e.g., by taking measures to reduce personnel or operational inputs while maintaining the same level of outputs), and/or from performance-related issues (e.g., by having underestimated the costs or quantities of inputs required to produce a certain level of outputs, or by delayed recruitment).

	<i>Variance</i>	
Military observers	(\$3,346.5)	(100%)

- **Mandate: liquidation of the Mission**

4. The variance of \$3,346,500 is attributable to the repatriation of all military observers prior to 1 July 2004.

V. Summary of follow-up action taken to implement requests and recommendations of the Advisory Committee on Administrative and Budgetary Questions and the Office of Internal Oversight Services

A. Advisory Committee on Administrative and Budgetary Questions

Request/recommendation
(see A/57/772/Add.11)

Action taken to implement request/recommendation

The Advisory Committee considers that the large amounts of savings regularly realized by the Mission on prior-period obligations indicate a laxity in obligating funds and illustrate weakness in budget implementation and monitoring. The Committee requests that efforts be made to address these problems (para. 6).

The validity of all obligations is being strictly reviewed by certifying officers. In addition, regular reviews have been undertaken with respect to both current and prior-period obligations so as to ensure that they are liquidated in a timely manner.

The Advisory Committee recommends that UNMISSET and other partners in Timor-Leste collaborate and coordinate their efforts with a view to ensuring that a durable law-and-order capacity is established. To that end, the Committee requests that information on work that has already been done and future plans to achieve this objective be included in the next proposed budget (para. 20).

Information on collaboration and coordination between UNMISSET and other partners with respect to the establishment of a durable law-and-order capacity in Timor-Leste is contained in the report of the Secretary-General to the Security Council on UNMISSET dated 6 October 2003 (S/2003/944, paras. 30-36).

In view of the anticipated termination of the mandate of UNMISSET on 20 May 2004, the Advisory Committee requests that early steps be taken to prepare an assets-disposal plan and that a report thereon be submitted to the General Assembly for its consideration (para. 22).

A report on the donation of assets to the Government of Timor-Leste dated 19 September 2003 (A/58/192/Add.1) was provided to the General Assembly for its consideration. Information on the implementation of the assets-disposal plan of the Mission and the actual disposition of the donated assets will be provided to the General Assembly in the context of the final disposition of assets report of UNMISSET upon completion of the Mission's liquidation.

B. Office of Internal Oversight Services

Request/recommendation
(see A/58/364)

Action taken to implement request/recommendation

The Office of Internal Oversight Services Investigations Division investigated several reports that United Nations staff at United Nations Transitional Administration in East Timor provided falsified official letters that afforded non-United Nations individuals access from Timor-Leste to Australia (para. 55).

Implemented. The Mission stopped the use by its staff of United Nations letterhead to request Australian visas, reviewed internal procedures regarding the use of United Nations documentation in the visa application process and instituted regular reviews of these procedures. Additionally, the Government of Australia introduced tighter border-control checks for the Mission personnel travelling to Australia.
