Fifty-ninth session

Agenda item 85 (b)

Sustainable development: further implementation of the Programme of Action for the Sustainable Development of Small Island Developing States

Accreditation of non-governmental organizations and other major groups to the International Meeting to Review the Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States

Note by the Secretariat

1. In its resolution 58/213 A, the General Assembly decided that the accreditation and participation of major groups, including non-governmental organizations, in the International Meeting to Review the Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States, shall be in accordance with rule 65 of the provisional rules of procedure of the International Meeting, as contained in the note by the Secretary-General (A/58/567 and Corr.1). In the same resolution, the Assembly decided that non-governmental organizations whose work is relevant to the subject of the International Meeting that are not currently accredited by the Economic and Social Council may submit applications to participate as observers in the International Meeting, as well as its preparatory meeting, subject to the approval of the open-ended preparatory meeting.

2. The Department of Economic and Social Affairs, through its Division for Sustainable Development, requested all unaccredited non-governmental organizations and other major groups wishing to attend the International Meeting and its preparatory meeting to submit their applications, together with the required supplementary materials, for evaluation. The Division indicated that if the evaluation showed, on the basis of the information provided, that the stated purposes of the applicant organization were legitimate and its activities were relevant to the work of the International Meeting, the Division would recommend its accreditation to the Commission on Sustainable Development. In the case of a recommendation against accreditation, the Division would make its reasons available to the Commission, and would submit its recommendations on all requests for accreditation to Member States two weeks before the start of the preparatory meeting.

3. The Division had received a total of eight completed application packages by 1 March 2004. With support from the United Nations Non-governmental Liaison Service, the Division reviewed the relevance of the work of each applicant on the basis of their background and involvement in sustainable development issues, particularly in the follow-up process to the United Nations Conference on Environment and Development and the Global Conference on the Sustainable Development of Small Island Developing States. The list of non-governmental organizations and other major groups recommended for accreditation by the Division (E/CN.17/2004/9) was approved for accreditation on 14 April 2004 by the open-ended preparatory meeting convened during the twelfth session of the Commission on Sustainable Development.

4. In its resolution 58/213 B, the General Assembly took note of the request by the Government of Mauritius to reschedule the International Meeting due to logistical considerations, and decided to convene the International Meeting to Review the Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States from 10 to 14 January 2005. In view of the rescheduling and in response to requests from non-governmental organizations, the Department of Economic and Social Affairs, through its Division for Sustainable Development, subsequently reopened the accreditation process to provide an additional opportunity for non-governmental organizations to submit applications to participate as observers in the International Meeting. Following the review procedures described above, the Division evaluated an additional 16 completed application packages received by 1 September 2004. A list of non-governmental organizations and other major groups recommended for accreditation by the Division in this round is contained in the annex for approval by the General Assembly.

5. Approval by the General Assembly will allow the non-governmental organizations and other major groups on the list to continue their preparations for the International Meeting, including making travel arrangements and soliciting funding support.
