*"The General Assembly,*

*"Recalling* the United Nations Millennium Declaration, resolution 58/141 of 22 December 2003 and its other previous resolutions,

*"Reaffirming* its commitment to the outcome of the twentieth special session of the General Assembly, devoted to countering the world drug problem together, held in New York from 8 to 10 June 1998, and welcoming the continuing determination of Governments to overcome the world drug problem by a full and balanced application of national, regional and international strategies to reduce the demand for, production of and trafficking in illicit drugs,

*"Reaffirming also* the importance of the commitments of Member States in meeting the objectives targeted for 2003 and 2008, as set out in the Political Declaration adopted by the General Assembly at the twentieth special session, and welcoming the guidelines and elements recommended by the Commission on Narcotic Drugs to the Executive Director of the United Nations International Drug Control Programme for the preparation of subsequent reports on the follow-up to the twentieth special session,

*"Emphasizing* the importance of the Action Plan for the Implementation of the Declaration on the Guiding Principles of Drug Demand Reduction, which introduces a new global approach balanced between illicit supply and demand reduction, under the principle of shared responsibility, and of the Action Plan on International Cooperation on the Eradication of Illicit Drug Crops and on Alternative Development, which recognizes the importance of supply reduction as an integral part of a balanced drug control strategy,

*"Recognizing* the efforts of all countries, in particular those that produce narcotic drugs for scientific and medical purposes, and of the International Narcotics Control Board in preventing the diversion of such substances to illicit markets and in maintaining production at a level consistent with licit demand, in line with the Single Convention on Narcotic Drugs of 1961 and the Convention on Psychotropic Substances of 1971,

*"Aware* that progress has been uneven in meeting the goals set in the Political Declaration, as also reflected in the biennial reports of the Executive

Director of the United Nations Office on Drugs and Crime, and recognizing that the drug problem is still a global challenge that constitutes a serious threat to public health and safety and the well-being of humankind, in particular children and young people, and that it undermines socio-economic and political stability and sustainable development, including efforts to reduce poverty, and causes violence and crime, including in urban areas,

*“Profoundly concerned* by the increase in the abuse of narcotic drugs, especially amphetamine-type stimulants, among children and young people,

*“Deeply concerned* by the serious challenges and threats posed by the continuing links between illicit drug trafficking and terrorism and other national and transnational criminal activities, such as trafficking in human beings, especially women and children, money-laundering, corruption, trafficking in arms and trafficking in chemical precursors, and reaffirming that strong and effective international cooperation is needed to counter these threats,

*“Gravely concerned* about policies and activities in favour of the legalization of illicit narcotic drugs and psychotropic substances that are not in accordance with the international drug control treaties and that might jeopardize the international drug control regime,

*“Acknowledging* that international cooperation in countering drug abuse and illicit production and trafficking has shown that positive results can be achieved through sustained and collective efforts, and expressing its appreciation for the initiatives in this regard,

**“I**

**Respect for the principles enshrined in the Charter of the United Nations and international law in countering the world drug problem**

“1. *Reaffirms* that countering the world drug problem is a common and shared responsibility that must be addressed in a multilateral setting, requires an integrated and balanced approach, and must be carried out in full conformity with the purposes and principles of the Charter of the United Nations and international law, and in particular with full respect for the sovereignty and territorial integrity of States, the principle of non-intervention in the internal affairs of States and all human rights and fundamental freedoms, and on the basis of the principles of equal rights and mutual respect;

“2. *Urges* all States to ratify or accede to and implement all the provisions of the Single Convention on Narcotic Drugs of 1961 as amended by the 1972 Protocol, the Convention on Psychotropic Substances of 1971 and the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988;

**“II****International cooperation to counter the world drug problem and follow-up to the twentieth special session**

“1. *Reaffirms* the Joint Ministerial Statement and further measures to implement the action plans emanating from the twentieth special session of the General Assembly, adopted during the ministerial segment of the forty-sixth session of the Commission on Narcotic Drugs, which emphasizes that the world drug problem must be addressed in multilateral, regional, bilateral and national settings and that, in order to succeed, action to counter it has to involve all Member States, that action must be supported by strong international and development cooperation and must be further included in national development priorities, and that it requires a balance between supply reduction and demand reduction, as well as a comprehensive strategy that combines alternative development, including, as appropriate, preventive alternative development, eradication, interdiction, law enforcement, prevention, treatment and rehabilitation as well as education;

“2. *Calls upon* all States to strengthen their efforts in the fight against the world drug problem, in order to achieve the objectives targeted for 2008 in the Political Declaration adopted by the General Assembly at the twentieth special session;

“6. *Urges* States, in order to achieve a significant and measurable reduction of drug abuse by 2008:

“(a) To further implement comprehensive demand reduction policies and programmes, including research, covering all the drugs under international control, in order to raise public awareness of the drug problem, paying special attention to prevention and education and providing, especially to young people and others at risk, information on developing life skills, making healthy choices and engaging in drug-free activities;

#### **“Control of precursors**

“8. *Encourages* States to establish or strengthen mechanisms and procedures to ensure strict control of chemical precursors used to manufacture illicit drugs, to prevent the diversion of chemical precursors used in the illicit manufacture of other narcotic drugs by exchanging information with other States and to implement fully article 12 of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988, in close cooperation with the International Narcotics Control Board;

#### **“Judicial cooperation**

“9. *Calls upon* all States to strengthen international cooperation among judicial and law enforcement authorities at all levels in order to prevent and combat illicit drug trafficking and to share and promote best operational practices in order to interdict illicit drug trafficking, including by establishing and strengthening regional mechanisms, providing technical assistance and establishing effective methods for cooperation, in particular in the areas of air, maritime and port control;

“10. *Also calls upon* all States to maintain close cooperation, based on the exchange of information, particularly on border control and in the implementation of extradition treaties;

**“Countering money-laundering**

“11. *Urges* States to strengthen action, in particular international cooperation and technical assistance aimed at preventing and combating the laundering of proceeds derived from drug trafficking and related criminal activities, with the support of the United Nations system, international institutions such as the World Bank and regional development banks, to develop and strengthen comprehensive international regimes to combat money-laundering, and to improve information-sharing among financial institutions and agencies in charge of preventing and detecting the laundering of those proceeds;

“12. *Calls upon* States to consider including provisions in their national drug control plans for the establishment of national networks to enhance their respective capabilities to prevent, monitor, control and suppress serious offences connected with money-laundering and the financing of terrorist acts, and in general to counter all transnational organized criminal acts, and to supplement existing regional and international networks dealing with money-laundering;

**“International cooperation in illicit crop eradication and alternative development**

“13. *Recognizes* the efforts made by States to implement innovative alternative programmes, and stresses the importance of the United Nations system and the international community contributing to the financial, economic and social development of the families and communities that benefit from such programmes;

“14. *Calls upon* States, where appropriate:

“(a) To enhance support, including, where appropriate, the provision of new and additional financial resources, for alternative development, environmental protection and elimination programmes undertaken by countries affected by the illicit cultivation of cannabis, especially in Africa, of opium poppy and of coca bush, in particular national programmes that seek to reduce social marginalization and promote sustainable economic development;

“(c) To encourage international cooperation, including, as appropriate, preventive alternative development, to prevent illicit crop cultivation from emerging in or being relocated to other areas;

“(d) To provide, in accordance with the principle of shared responsibility, greater access to their markets for products of alternative development programmes, which are necessary for the creation of employment, the eradication of poverty, the elimination of narcotic drug production and the promotion of sustainable development;

“(e) To establish or reinforce, where appropriate, national mechanisms to monitor and verify illicit crops;

“(f) To continue to contribute to the maintenance of a balance between the licit supply of and demand for opiate raw materials used for medical and scientific purposes and to cooperate in preventing the proliferation of sources of production of opiate raw materials;

“(g) To share with affected States their experience and expertise in the eradication of illicit drug crops and in alternative development programmes and to apply new strategies and tools to complement existing ones in efforts to combat traffic in illicit substances;

“15. *Calls upon* the international community to enhance financial and technical support for Afghanistan in order to enable the Government to implement successfully its national drug control strategy;

### “III

#### **Action by the United Nations system**

“1. *Emphasizes* that the multidimensional nature of the world drug problem calls for the promotion of integration and coordination of drug control activities throughout the United Nations system, including in the follow-up to major United Nations conferences, as well as other relevant multilateral institutions and organizations;

“2. *Reaffirms* its resolve to continue to strengthen the United Nations machinery for international drug control, in particular the Commission on Narcotic Drugs, the United Nations International Drug Control Programme and the International Narcotics Control Board, in order to enable them to fulfil their mandates, bearing in mind the recommendations contained in Economic and Social Council resolution 1999/30 of 28 July 1999 and the measures taken and recommendations adopted by the Commission on Narcotic Drugs at its forty-fourth, forty-fifth, forty-sixth and forty-seventh sessions, aimed at the enhancement of its functioning;

“3. *Encourages* the Commission on Narcotic Drugs, as the global coordinating body in international drug control and as the governing body of the United Nations International Drug Control Programme, and the International Narcotics Control Board to continue their useful work on the control of precursors and other chemicals used in the illicit manufacture of narcotic drugs and psychotropic substances;

“4. *Notes* that the International Narcotics Control Board needs sufficient resources to carry out all its mandates, including those that will enable it to effectively continue its task in the framework of Operation Purple, Operation Topaz and Project Prism, and therefore urges Member States to commit themselves in a common effort to assigning adequate and sufficient budgetary resources to the Board, in accordance with Economic and Social Council resolution 1996/20 of 23 July 1996, and emphasizes the need to maintain its capacity, inter alia, through the provision of appropriate means by the Secretary-General and adequate technical support by the United Nations International Drug Control Programme, and calls for enhanced cooperation and understanding between Member States and the Board in order to enable it to implement all its mandates under the international drug control conventions;

Subsequently, Angola, Bangladesh, Bolivia, Bosnia

### III. Recommendation of the Third Committee

20. The Third Committee recommends to the General Assembly the adoption of the following draft resolutions:

#### **Draft resolution I Control of cultivation of and trafficking in cannabis**

*The General Assembly,*

Recalling the Single Convention on Narcotic Drugs of 1961,<sup>1</sup> that Convention as amended by the 1972 Protocol,<sup>2</sup> the Convention on Psychotropic Substances of 1971<sup>3</sup> and the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988,<sup>4</sup>

*Recalling also* Commission on Narcotic Drugs resolution 45/8 on the control of cannabis in Africa,<sup>5</sup>

*Concerned* that, of all the substances listed in the international drug control treaties, cannabis is by far the most widely and most frequently abused, especially among young people,

*Concerned also* that the abuse of cannabis, especially among young people, often leads to risk-taking behaviour,

*Concerned further* that cultivation of and trafficking in cannabis are on the increase in Africa partly as a result of extreme poverty and the absence of any viable alternative crop and partly because of the profitability of such activity and the high demand for cannabis in other regions of the world,

*Noting with concern* that increased cultivation of cannabis in Africa is extremely dangerous for the ecosystem because it leads to extensive use of fertilizers, overexploitation of the soil and destruction of forests to make room for new cannabis fields, thus accelerating soil erosion,

*Taking note* of the report of the International Narcotics Control Board for 2003,<sup>6</sup> in which the Board confirmed that the production of, trafficking in and abuse of cannabis continued to pose a serious problem in various regions of the world,

*Aware* of the importance of programmes promoting alternative development, including, where appropriate, preventive alternative development,

*Emphasizing* the primary importance of international cooperation in combating drug trafficking and drug abuse,

5. *Encourages* Member States with experience and expertise in the eradication of illicit drug crops and alternative development programmes to share their experience and expertise with affected States, particularly in Africa;

## **Draft resolution II**

### **Providing support to the Government of Afghanistan in its efforts to eliminate illicit opium and foster stability and security in the region**

*The General Assembly,*

*Recalling* the United Nations Millennium Declaration,<sup>1</sup> outlining the interrelated commitments, goals and targets to be achieved, among others, on development, peace and security and setting the required framework for international cooperation for achieving those goals,

*Recognizing* that the threat emanating from illicit opium poppy cultivation and production of and trafficking in illicit opium, as addressed at the Conference on Drug Routes from Central Asia to Europe, held in Paris on 21 and 22 May 2003, is a serious challenge to the security and stability of Afghanistan, its neighbouring countries and the region and poses a problem to countries throughout the world,

*Taking note* of *Afghanistan: Opium Survey 2003*, published by the United Nations Office on Drugs and Crime,

*Recognizing* the strong and continuing commitment made by the Transitional Administration of Afghanistan at the institutional, legal and administrative levels to eliminate opium poppy cultivation by the year 2013,

*Reaffirming* the commitments undertaken by Member States in the Political Declaration adopted by the General Assembly at its twentieth special session, in which Member States recognized that action against the world drug problem was a common and shared responsibility and expressed their conviction that it must be addressed in a multilateral setting,<sup>2</sup>

*Recalling* that the Security Council, on 17 June 2003, called upon the international community to provide assistance to the Afghan Transitional Administration in collaboration with the United Nations Office on Drugs and Crime and in line with the national drug control strategy,

*Recalling also* that, in section II of its resolution 58/141 of 22 December 2003, the General Assembly reaffirmed the Joint Ministerial Statement and further measures to implement the action plans emanating from the twentieth special session of the General Assembly, adopted during the ministerial segment of the forty-sixth session of the Commission on Narcotic Drugs,<sup>3</sup> and recommended that adequate help be provided to Afghanistan in support of the commitment of the Transitional Administration of Afghanistan to eliminate illicit opium,

*Stressing* the importance and urgency of the implementation of the five action plans adopted by the International Counter-narcotics Conference on Afghanistan, held in Kabul on 8 and 9 February 2004, which were to form part of the discussion at the international conference entitled “Afghanistan and the International Community: a Partnership for the Future”, held in Berlin on 31 March and 1 April 2004, and the conclusion of the Kabul conference that the illicit drug issue is a top priority of all those interested in securing the future of Afghanistan,

---

<sup>1</sup> See resolution 55/2.

<sup>2</sup> Resolution S-20/2, annex, para. 2.

<sup>3</sup> A/58/124, sect. II.A.

*Recalling* that, in the Joint Ministerial Statement and further measures to implement the action plans emanating from the twentieth special session of the General Assembly, the ministers and other government representatives participating in the ministerial segment of the forty-sixth session of the Commission on Narcotic Drugs recommended that adequate help be provided to Afghanistan in the framework of the comprehensive international strategy carried out, inter alia, under the auspices of the United Nations and through other multilateral forums, in support of the commitment of the Transitional Government of Afghanistan to eliminate the illicit cultivation of the opium poppy and in response to the unique situation of that country, reaffirmed that that should help the provision of alternative livelihoods and the fight against illicit trafficking of drugs and precursors within Afghanistan and in neighbouring States and countries along trafficking routes, including the strengthening of “security belts” in the region, and that extensive efforts had to be made to reduce the demand for drugs globally in order to contribute to the sustainability of the elimination of illicit cultivation in Afghanistan and, in that context, affirmed that their response to that unique situation would not detract from their commitment and resources devoted to the fight against drugs in other parts of the world,<sup>4</sup>

*Recalling* that the International Narcotics Control Board, in its report for 2003, pointed out that trade in Afghan opiates generated funds that corrupted institutions, financed terrorism and insurgency and led to destabilization of the region,<sup>5</sup>

*Recalling* the appeal to the international community made by the International Narcotics Control Board on 12 February 2004 to fully support the Afghan authorities in addressing the drug control situation, in order to meet the requirements of the international drug treaties, including article 14 of the Single Convention on Narcotic Drugs of 1961<sup>6</sup> and that Convention as amended by the 1972 Protocol,<sup>7</sup>

1. *Welcomes* the bilateral and multilateral support being provided by the international community, through the United Nations Office on Drugs and Crime and other organizations;

2. *Expresses* its support for the efforts of Member States aimed at strengthening regional cooperation in order to counter the threat to the international community posed by the illicit cultivation of opium poppy in Afghanistan and its illicit trade;

3. *Calls upon* the international community to enhance financial and technical support to Afghanistan in order to enable the Government to implement successfully its national drug control strategy and thereby reduce the demand for illicit drugs in Afghanistan and the threat that illicit opium poppy cultivation and illicit opium trade have created to the peace, stability and socio-economic recovery of Afghanistan and to the security of the region and the other parts of the world;

4. *Urges* all stakeholders to accelerate efforts to implement a combined strategy, comprising law enforcement, eradication, interdiction, demand reduction

and awareness-building, including alternative livelihoods conceived in a broader development context than currently understood, with a view to creating sustainable livelihoods, independent of illicit opium;

5. *Encourages* the Transitional Administration of Afghanistan to accelerate the implementation of the commitment that it courageously made to the five action plans adopted by the International Counter-narcotics Conference on Afghanistan, held in Kabul on 8 and 9 February 2004;

**Draft resolution III**  
**Follow-up on strengthening the systems of control over chemical precursors and preventing their diversion and trafficking**

*The General Assembly,*

*Concerned* with the continued diversion and misuse of precursors and the fact that despite efforts undertaken by all States, including the producing, exporting, importing and transit States, chemical substances are increasingly feeding the manufacture of illicit drugs of natural or synthetic origin, a problem that deserves the utmost attention of all States,

*Recalling* the Political Declaration adopted by the General Assembly at its twentieth special session, devoted to countering the world drug problem together, in which Member States decided to establish the year 2008 as a target date for States to eliminate or considerably reduce the diversion of precursors,<sup>1</sup>

*Recalling also* the Joint Ministerial Statement and further measures to implement the action plans emanating from the twentieth special session of the General Assembly, adopted during the ministerial segment of the forty-sixth session of the Commission on Narcotic Drugs,<sup>2</sup>

*Stressing* the importance of Economic and Social Council resolutions 2003/32 of 22 July 2003, on training in precursor control, countering money-laundering and drug abuse prevention, and 2003/35, also of 22 July 2003, on strengthening the prevention and suppression of illicit drug trafficking,

*Recalling* article 12, paragraphs 1, 9 (c) and 10, of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988,<sup>3</sup>

*Reaffirming* the importance of using all available legal means or measures to prevent the diversion of chemicals from legitimate trade to illicit drug manufacture as an essential component of comprehensive strategies against drug abuse and trafficking and of preventing access to chemical precursors by those engaged in or attempting to engage in the processing of illicit drugs,

*Reiterating* the importance of the effective and real-time exchange of information relating to the interdiction, diversion and suspected diversion of precursors, as an essential component of strategies to facilitate comprehensive investigations into cases relating to such diversion, including the identification of the modus operandi and entities involved and the initiation of appropriate legal action,

*Encouraging* Member States to conduct backtracking law enforcement investigations in order to counter organized smuggling networks effectively,

*Also encouraging* Member States to facilitate the exchange of information between the relevant agencies in order to identify the sources of seized precursor chemicals and those responsible for the shipping and diversion of those substances

and to identify the sources of pharmaceutical preparations misused for illicit drug manufacture,

*Noting* that links are increasingly being uncovered between the smuggling of drugs and the smuggling of precursor chemicals, including the use of similar modi operandi to conceal consignments in order to avoid detection,

*Welcoming with satisfaction* the results so far achieved under Operation Purple and Operation Topaz and the new initiative called Project Prism, which were launched by the International Narcotics Control Board, in cooperation with Member States, to enhance controls over chemicals used in the illicit manufacture of cocaine, heroin and amphetamine-type stimulants respectively,

*Concerned* that, without additional resources, the International Narcotics Control Board will not be able to carry out its important functions under the above-mentioned operations,

1. *Urges* all Member States to put in place systems and procedures to ensure that the details of any interdiction, seizure, diversion or attempted diversion of precursors are communicated expeditiously to all Governments concerned and the International Narcotics Control Board and, insofar as possible, share relevant information so that methods frequently used for the national and international trafficking in chemicals may be identified, pursuant to article 12 of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988;<sup>3</sup>

2. *Reiterates* the importance of applying the know-your-client principle referred to in Economic and Social Council resolution 2003/39 of 22 July 2003, and stresses the necessity of strengthening the use of the mechanism of pre-export notifications, including by providing timely responses, especially through the efficient sharing of information;

3. *Invites* those States which do not have mechanisms to enable the real-time exchange of information under the current international operations to consider establishing a national focal point or central national authority in line with the standard operating procedures of the international operations, through which all information on licit and illicit consignments can be channelled, and invites all Member States to contribute to updating the directory of competent national authorities under the international drug control treaties, with a view to implementing article 12 of the 1988 Convention;

4. *Recommends* that Member States develop or further adapt, where necessary, their regulatory and operational control procedures to counter the diversion of chemical substances into illicit drug production or manufacture, and encourages authorities to initiate or further strengthen coordination and cooperation between all regulatory and enforcement services involved in precursor control;

5. *Invites* Member States and appropriate international and regional bodies to review intelligence on the smuggling of drugs and the smuggling of precursor chemicals, in order to identify common links and to plan appropriate operations to stop such activities;

6. *Encourages* Member States to ensure that stopped diversion attempts receive the same investigative attention that would be afforded to a seizure of the

same substance, since such cases could provide valuable intelligence that could prevent diversions elsewhere;

7. *Emphasizes* the need to ensure that adequate mechanisms are in place, where necessary and to the extent possible, to prevent the diversion of preparations containing chemicals listed in tables I and II of the 1988 Convention, pertaining to illicit drug manufacture, in particular those containing ephedrine and pseudoephedrine;

8. *Encourages* Member States, in order to counter smuggling networks effectively, to conduct backtracking law enforcement investigations and, where appropriate, to identify the source of the seized chemical precursors and those responsible for the consignment and ultimately the diversion;

9. *Also encourages* Member States to investigate the possibility of establishing operational chemical profiling programmes, and invites all States to support, to the extent possible, such programmes;

10. *Requests* the International Narcotics Control Board, pursuant to Economic and Social Council resolution 1995/20 of 24 July 1995, to monitor international trade so that diversion attempts can be identified, preventing chemical precursors from reaching the illicit market;

11. *Urges* the International Narcotics Control Board to continue to follow up all such cases of diversion by facilitating investigations by national authorities and to make its findings available to Governments through its annual report;

12. *Requests* the Secretary-General to provide the necessary resources to the International Narcotics Control Board to enable it to continue its work effectively under Operation Purple, Operation Topaz and Project Prism;

13. *Requests* the Executive Director of the United Nations Office on Drugs and Crime, within the framework of his biennial reports on the implementation of the outcome of the twentieth special session of the General Assembly and taking into account the relevant resolutions adopted on the subject since the special session, to include in his report on the control of precursors, starting with his report to be submitted to the Commission on Narcotic Drugs at its forty-eighth session, recommendations on how to strengthen the use of the pre-export notification mechanism and ensure timely responses.

## Draft resolution IV

*Recalling* the United Nations Millennium Declaration,<sup>1</sup> resolution 58/141 of 22 December 2003 and its other previous resolutions,

*Reaffirming* its commitment to the outcome of the twentieth special session of the General Assembly, devoted to countering the world drug problem together, held in New York from 8 to 10 June 1998, and welcoming the continuing determination of Governments to overcome the world drug problem by a full and balanced application of national, regional and international strategies to reduce the demand for, production of and trafficking in illicit drugs,

*Reaffirming also* the importance of the commitments of Member States in meeting the objectives targeted for 2003 and 2008, as set out in the Political Declaration adopted by the General Assembly at the twentieth special session,<sup>2</sup> and welcoming the guidelines and elements recommended by the Commission on Narcotic Drugs to the Executive Director of the United Nations International Drug Control Programme for the preparation of subsequent reports on the follow-up to the twentieth special session,<sup>3</sup>

*Emphasizing* the importance of the Action Plan<sup>4</sup> for the Implementation of the Declaration on the Guiding Principles of Drug Demand Reduction,<sup>5</sup> which introduces a new global approach balanced between illicit supply and demand reduction, under the principle of shared responsibility, and of the Action Plan on International Cooperation on the Eradication of Illicit Drug Crops and on Alternative Development,<sup>6</sup> which recognizes the importance of supply reduction as an integral part of a balanced drug control strategy,

*Recognizing* the efforts of all countries, in particular those that produce narcotic drugs for scientific and medical purposes, and of the International Narcotics Control Board in preventing the diversion of such substances to illicit markets and in maintaining production at a level consistent with licit demand, in line with the Single Convention on Narcotic Drugs of 1961<sup>7</sup> and the Convention on Psychotropic Substances of 1971,<sup>8</sup>

*Aware* that progress has been uneven in meeting the goals set in the Political Declaration, as also reflected in the biennial reports<sup>9</sup> of the Executive Director of the United Nations Office on Drugs and Crime,<sup>10</sup> and recognizing that the drug problem is still a global challenge that constitutes a serious threat to public health

and safety and the well-being of humankind, in particular children and young people, and that it undermines socio-economic and political stability and sustainable development, including efforts to reduce poverty, and causes violence and crime, including in urban areas,

*Concerned* by the increase in the abuse of illicit drugs among children, including adolescents, and young people,

*Also concerned* by the challenges posed by links between the spread of HIV/AIDS and injecting drug use,

*Further concerned* by the serious challenges and threats posed by the continuing links between illicit drug trafficking and terrorism and other national and transnational criminal activities, such as trafficking in human beings, especially women and children, money-laundering, corruption, trafficking in arms and trafficking in chemical precursors, and reaffirming that strong and effective international cooperation is needed to counter these threats,

*Concerned* about policies and activities in favour of the legalization of illicit narcotic drugs and psychotropic substances that are not in accordance with the international drug control treaties and that might jeopardize the international drug control regime,

*Concerned also* by the increase in the diversion of chemical precursors used in the illicit manufacture of drugs,

*Acknowledging* that international cooperation in countering drug abuse and illicit production and trafficking has shown that positive results can be achieved through sustained and collective efforts, and expressing its appreciation for the initiatives in this regard,

1. *Reaffirms* the Joint Ministerial Statement and further measures to implement the action plans emanating from the twentieth special session of the General Assembly, adopted during the ministerial segment of the forty-sixth session of the Commission on Narcotic Drugs,<sup>15</sup> which emphasizes that the world drug problem must be addressed in multilateral, regional, bilateral and national settings and that, in order to succeed, action to counter it has to involve all Member States, that action must be supported by strong international and development cooperation and must be further included in national development priorities, and that it requires a balance between supply reduction and demand reduction, as well as a comprehensive strategy that combines alternative development, including, as appropriate, preventive alternative development, eradication, interdiction, law enforcement, prevention, treatment and rehabilitation as well as education;

12. *Calls upon* States to consider including provisions in their national drug control plans for the establishment of national networks to enhance their respective capabilities to prevent, monitor, control and suppress serious offences connected with money-laundering and the financing of terrorist acts, and in general to counter all transnational organized criminal acts, and to supplement existing regional and international networks dealing with money-laundering;

*International cooperation in illicit crop eradication and alternative development*

13. *Recognizes* the efforts made by States to implement innovative alternative programmes, inter alia, in reforestation, agriculture and small and medium enterprise, and stresses the importance of the United Nations system and the international community contributing to the economic and social development of the communities that benefit from such programmes;

14. *Calls upon* States, where appropriate:

(a) To enhance support, including, where appropriate, through the provision of new and additional financial resources, for alternative development, environmental protection and eradication programmes undertaken by countries affected by the illicit cultivation of cannabis, especially in Africa, of opium poppy and of coca bush, in particular national programmes that seek to reduce social marginalization and promote sustainable economic development;

(b) To enhance joint strategies, through international and regional cooperation, to strengthen, including by training, education and providing technical assistance, alternative development, eradication and interdiction capacity, with the aim of eliminating illicit crop cultivation and fostering economic and social development;

(c) To encourage international cooperation, including, as appropriate, preventive alternative development, to prevent illicit crop cultivation from emerging in or being relocated to other areas;

(d) To provide, in accordance with the principle of shared responsibility, greater access to their markets for products of alternative development programmes, which are necessary for the creation of employment and the eradication of poverty;

(e) To establish or reinforce, where appropriate, national mechanisms to monitor and verify illicit crops;

(f) To continue to contribute to the maintenance of a balance between the licit supply of and demand for opiate raw materials used for medical and scientific purposes and to cooperate in preventing the proliferation of sources of production of opiate raw materials;

15. *Calls upon* the international community to enhance financial and technical support for Afghanistan in order to enable the Government to implement successfully its national drug control strategy;

### **III**

#### **Action by the United Nations system**

2. *Reaffirms* its resolve to continue to strengthen the United Nations machinery for international drug control, in particular the Commission on Narcotic Drugs, the United Nations International Drug Control Programme and the International Narcotics Control Board, in order to enable them to fulfil their mandates, bearing in mind the recommendations contained in Economic and Social Council resolution 1999/30 of 28 July 1999 and the measures taken and recommendations adopted by the Commission on Narcotic Drugs at its forty-fourth, forty-fifth, forty-sixth and forty-seventh sessions, aimed at the enhancement of its functioning;

3. *Encourages* the Commission on Narcotic Drugs, as the global coordinating body in international drug control and as the governing body of the United Nations International Drug Control Programme, and the International Narcotics Control Board to continue their useful work on the control of precursors and other chemicals used in the illicit manufacture of narcotic drugs and psychotropic substances;

4. *Notes* that the International Narcotics Control Board needs sufficient resources to carry out all its mandates, including those that will enable it to effectively perform its task in the framework of Operation Purple, Operation Topaz and Project Prism, and therefore urges Member States to commit themselves in a common effort to assigning adequate and sufficient budgetary resources to the Board, in accordance with Economic and Social Council resolution 1996/20 of 23 July 1996, and emphasizes the need to maintain its capacity, inter alia, through the provision of appropriate means by the Secretary-General and adequate technical support by the United Nations International Drug Control Programme, and calls for
