## General Assembly

Distr.: General

15 August 2006
Original: English

## Sixty-first session <br> Item 121 of the provisional agenda* <br> Human resources management

## Composition of the Secretariat

## Report of the Secretary-General

## Summary

The present annual report of the Secretary-General on the composition of the Secretariat is submitted pursuant to General Assembly resolutions concerning human resources management, the most recent of which are resolutions 57/305 of 15 April 2003, 59/266 of 23 December 2004 and 60/238 of 23 December 2005.

The analysis of the workforce of the global Secretariat reflects the current trends over the period from 1 July 2005 to 30 June 2006. The report considers all staff $(30,548)$ of the Secretariat regardless of type and length of contract. Separately analysed are the workforce characteristics of staff with an appointment of one year or more under the 100 series $(11,894)$ and staff under the system of desirable ranges in posts subject to geographical distribution $(2,634)$. The report also provides responses to specific requests of the General Assembly.

Pursuant to section XVIII of General Assembly resolution 59/266, in which the Assembly requested the Secretary-General to submit consolidated reports, as appropriate, addenda to the present report on the following subjects are before the Assembly: gratis personnel provided by Governments and other entities (A/61/257/Add.1), employment of retired former staff (A/61/257/Add.2) and employment of consultants and individual contractors (A/61/257/Add.3).

The Secretary-General invites the General Assembly to take note of the report.

## I. Introduction

1. The present annual report of the Secretary-General on the composition of the Secretariat is submitted pursuant to General Assembly resolutions concerning human resources management, the most recent of which are resolutions 57/305 of 15 April 2003, 59/266 of 23 December 2004 and 60/238 of 23 December 2005. The present report, covering the period from 1 July 2005 to 30 June 2006, provides information on important demographic characteristics of the Secretariat and the system of desirable ranges for the geographical distribution of staff. ${ }^{1}$
2. The population used in previous reports was based on staff with contracts of one year or more, as recorded in the Integrated Management Information System (IMIS). ${ }^{2}$ To present a snapshot of the global Secretariat, the population of the current report has been expanded to include all staff with valid contracts ${ }^{3}$ as at 30 June 2006 irrespective of source of funding, type of engagement, duration of contract, level or duty station. Thus, staff included in the analysis of the present report are those at Headquarters duty stations (New York, Geneva, Vienna and Nairobi), at regional commissions (Economic Commission for Africa, Economic Commission for Europe, Economic Commission for Latin America and the Caribbean, Economic and Social Commission for Asia and the Pacific and Economic and Social Commission for Western Asia), in field locations where they are administered by the Department of Economic and Social Affairs, the Department of Political Affairs, the Department of Public Information, the Department of Peacekeeping Operations, the Office for the Coordination of Humanitarian Affairs, the Office of the United Nations High Commissioner for Human Rights, the Office of Internal Oversight Services, the United Nations Conference on Trade and Development, the United Nations Environment Programme, the United Nations Human Settlements Programme and the United Nations Office on Drugs and Crime and in field missions administered by the Department of Peacekeeping Operations.
3. For analytical purposes, the population data are reviewed in several categories: (a) the global population of the Secretariat, (b) staff with contracts of one year or more, (c) staff appointed under the 100 series of the Staff Rules with contracts of one year or more and (d) staff in posts subject to geographical distribution in the Secretariat.
4. Section II.A of the present report provides, for the first time, an analysis of the global workforce ( 30,548 staff) by category and grade, department or office, nationality, gender and type of appointment as at 30 June 2006.

[^1]5. Section II.B presents information relating to staff with contracts of one year or more $^{2}$ (25,543 staff) and compares staffing levels in various United Nations organizations, funds and programmes.
6. Section II.C contains an analysis of staff with appointments of one year or more ${ }^{4}$ under the 100 series of the Staff Rules (11,894 staff). The analysis considers such characteristics as type of appointment, length of service, age, staff movements (recruitment, promotions, separation, mobility, turnover, etc.) and anticipated retirements in the coming five years (2006-2010). Demographic information as at 30 June 2006 is provided. Information on staff movements covers the period from 1 July 2005 to 30 June 2006. Data in the report are drawn from IMIS and the Field Personnel Management System (FPMS).
7. Section II.D provides information on the system of desirable ranges for the geographical distribution of staff. It includes information on the methodology used for calculating the desirable ranges and focuses on staff appointed under this system (2,634 staff). This group consists of staff appointed by the Secretary-General at the Professional and higher categories for a duration of one year or more to posts financed by the regular budget and excludes staff appointed to the secretariats of subsidiary programmes, funds and organs with special status in matters of appointment. An analysis is provided of the main characteristics of these staff and changes over time in the population. It also includes a forecast of expected staff retirements in the next five years.
8. Section III of the present report provides information on responses to specific requests of the General Assembly, i.e., in relation to the status of human resources action plans, analysis of the level of underrepresentation of Member States and the definition of language posts.
9. Pursuant to section XVIII of General Assembly resolution 59/266, in which the Assembly requested the Secretary-General to submit consolidated reports, as appropriate, the following addenda to the present report are provided to the Assembly:
(a) A/61/257/Add.1, entitled "Gratis personnel provided by Governments and others entities", provides information on the use of gratis personnel in the Secretariat, including information on their nationality, duration of service, department or office where employed and functions performed;
(b) A/61/257/Add.2, entitled "Employment of retired former staff", provides information concerning categories, types and levels of retired staff employed in the Secretariat, including type of engagement;
(c) A/61/257/Add.3, entitled "Consultants and individual contractors", provides information on the use of consultants and individual contractors in the Secretariat, their duties and factors contributing to their use.

[^2]The addenda contain information for the biennial period from 1 January 2004 to 31 December 2005 and refer to organizational entities in existence during those two years.
10. The list of staff of the United Nations Secretariat, published as a separate document (ST/ADM/R.61), identifies staff by organizational entity, functional title, grade, nationality and contractual status.

## II. Composition of the United Nations Secretariat

## A. Global integrated Secretariat workforce analysis

11. The global integrated workforce comprises all staff under contract with the Secretariat under the 100 , 200 or 300 series of Staff Rules. As at 30 June 2006, the total number of such staff internationally and locally recruited in the United Nations Secretariat, including staff on appointments of less than one year, amounted to 30,548 (see table 1). This excludes 144 staff on special leave without pay and 74 staff on secondment to other organizations. Figure I illustrates the Secretariat population by location; figure II illustrates the same population by location, category and rule series.
12. Table A. 1 of annex II presents the staff under contract with the United Nations Secretariat as at 30 June 2006 totalling 30,548, by nationality, gender and category. The number of staff in the Professional and higher categories is 9,355 , of whom 6,032 have appointments under the 100 series of Staff Rules, 1,163 under the 200 series and 2,160 under the 300 series. Staff in the General Service and related categories number 21,193 , or 69.4 per cent of the total. Staff in field missions administered by the Department of Peacekeeping Operations number 15,839, comprising 52.0 per cent of the global Secretariat workforce.

d Field locations: staff of DESA, DPA, DPI, OCHA, OHCHR, OIOS, UNCTAD, UNEP, UN-Habitat and UNODC in non-Headquarters duty stations, and staff in field missions administered by DPKO (5,362 staff including 2,235 at the Professional level, 3,120 in the General Service and related categories and 7 under the 200 series of Staff Rules).

## Staff by category and grade

13. The base number of staff used in the present demographic analysis is 30,548 , of which 0.4 per cent are Under-Secretaries-General and Assistant SecretariesGeneral (110 staff), 1.7 per cent are in the Director category ( 509 staff), 24.8 per cent are in the Professional category ( 7,573 staff), 69.4 per cent are in the General Service and related categories (21,193 staff, comprising 17,562 in the General Service category, 2,745 in the Field Service category, 332 National Officers, 321 in the Security category, 170 in the Trades and Crafts category, 37 language teachers, 14 public information assistants and 12 conference typists) and 3.8 per cent are staff appointed under the 200 series ( 1,163 staff). Figure III shows the percentage of Secretariat staff by category, figure IV shows the number of staff by grade in the Professional and higher categories and figure V presents the number of staff by grade in the General Service category.

Figure III
Secretariat staff by category as at 30 June 2006
(Population: 30,548)

14. In the Professional category, 68.5 per cent of the staff are concentrated at the $\mathrm{P}-3$ and $\mathrm{P}-4$ grades. Staff at the $\mathrm{P}-1 / \mathrm{P}-2$ grades comprise 15.9 per cent and at the $\mathrm{P}-5$ grade 15.6 per cent. D-1 staff represent 76.4 per cent of staff in the Director category. In the General Service category, 70.5 per cent are divided among grades G-3, G-4 and G-5.

Figure IV
Grade distribution, Professional and higher categories, as at 30 June 2006 ${ }^{\text {a }}$
(Populations 8,192 out of 30,548 )

${ }^{\text {a }}$ Excludes 1,163 staff with appointment under the 200 series of the Staff Rules.
${ }^{\mathrm{b}}$ INT: Interpreters; R: Revisers; and T: Translators are staff on "when actually employed" contracts.
Figure V
Grade distribution, General Service category, as at 30 June 2006
(Populations 17,562 out of 30,548 )

## Staff by department or office

15. A total of 10,985 staff ( 36 per cent of the overall total) serve at headquarters duty stations (New York, Geneva, Vienna, Nairobi), 2,603 staff ( 8.5 per cent) at the regional commissions (Economic Commission for Africa, Economic Commission for Europe, Economic Commission for Latin America and the Caribbean, Economic and Social Commission for Asia and the Pacific and Economic and Social Commission for Western Asia) and 6,573 in field locations ( 21.5 per cent), and 10,387 (34 per cent) are local staff members in field missions administered by the Department of Peacekeeping Operations (see table 1 and figure II). The total number of staff serving away from headquarters duty stations is 19,563 (64 per cent), compared with 10,985 staff ( 36 per cent) at headquarters. The 15,839 staff in field missions administered by the Department of Peacekeeping Operations represent 52 per cent of the global Secretariat workforce. Two peacekeeping missions (United Nations Organization Mission in the Democratic Republic of the Congo and United Nations Interim Administration Mission in Kosovo) have more than 2,000 staff each, and two others missions (United Nations Mission in the Sudan and United Nations Mission in Liberia) have more than 1,000 each. At headquarters duty stations, three departments (Department for General Assembly and Conference Management, Department of Management and United Nations Office at Geneva) have in excess of 1,000 staff. The Economic Commission for Africa has the largest number of staff among the regional commissions. The average size of field missions is 507 staff, for headquarters the average department size is 417 staff and for regional commissions the average is 521 staff.

## Staff by nationality

16. More than 61.9 per cent of all staff come from 20 Member States, each with more than 400 nationals, as shown in table A. 1 of annex II. There are more than 1,000 nationals in the Secretariat from each of the following six Member States: the Democratic Republic of the Congo, France, Kenya, the Sudan, Serbia and Montenegro and the United States of America. The inclusion in the statistics of staff in the General Service and related categories and of local staff serving in field missions administered by the Department of Peacekeeping Operations increases the number of staff from Member States that host United Nations headquarters, regional commissions (Austria, Chile, Ethiopia, Kenya, Lebanon, Switzerland, Thailand and the United States of America) and all large offices and peacekeeping missions. The inclusion of staff in the General Service and related categories also increases the number of Member States represented in the Secretariat by staff of all categories. Nationals of 182 Member States are represented in all staff categories, as compared with 173 for staff in posts subject to geographical distribution, while nine Member States have no nationals among staff. ${ }^{5}$

## Staff by gender

17. Of the global Secretariat staff, 19,451 , or 63.7 per cent, are men and 11,097 , or 36.3 per cent, are women. Of the local staff in field missions administered by the Department of Peacekeeping Operations, 78.9 per cent of the 10,387 are men.

[^3]18. In the two most senior grades of the Secretariat (Under-Secretary-General and Assistant Secretary-General), women represent 18.8 per cent of the total of 110 staff. Female representation in the Director category is 26.1 per cent of 509 staff (29.2 per cent at the $\mathrm{D}-2$ level and 25.2 per cent at the $\mathrm{D}-1$ level). In the Professional category, the proportion of women is 38.9 per cent. Gender parity has been attained at the P-1 and P-2 levels: 69.8 per cent of staff at the P-1 level and 50.1 per cent at the $\mathrm{P}-2$ level are women. Gender parity has not been achieved at the higher Professional levels: women comprise 40.7 per cent of staff at the P-3 level, 35.0 per cent at the P-4 level and 30.5 per cent at the $\mathrm{P}-5$ level. Women comprise 35.3 per cent of 21,193 staff in the General Service and related categories and 21.1 per cent of the 10,387 General Service staff in field missions administered by the Department of Peacekeeping Operations.
19. Figure VI indicates that five departments or offices in the Secretariat have either achieved gender parity or have more female than male staff in the Professional and higher categories, 13 departments and offices have between 40 and 49 per cent women, six between 30 and 39 per cent and 11 less than 30 per cent.

Figure VI
Female staff representation in the Professional and higher categories as at 30 June 2006

${ }^{\text {a }}$ Others include the Ethics Office (2 female staff, 66.7 per cent), the United Nations Administrative Tribunal (2 female staff, 100.0 per cent), the Office of the Ombudsman ( 3 female staff, 100.0 per cent), the Secretariat of the Joint Inspection Unit ( 5 female staff, 55.6 per cent) and the New York Office of the Regional Commissions ( 1 female staff member, 33.3.7 per cent).
${ }^{\mathrm{b}}$ Data for the Department of Management represent the aggregated percentage for the Office of the Under-Secretary-General ( 45.2 per cent), the Office of Programme Planning, Budget and Accounts ( 48.1 per cent), the Office of Human Resources Management ( 60.4 per cent), the Office of Central Support Services ( 24.5 per cent) and the Capital Master Plan Office ( 20.0 per cent).

## Staff by appointment type

20. As at 30 June 2006, 13.3 per cent of staff held permanent appointments, as illustrated in Figure VII. Permanent appointments were held by 28.5 per cent of Directors, 28.1 per cent of Professionals and 9.3 per cent of staff in the General Service and related categories. Among staff with permanent appointments, 81.4 per cent were in regular budget posts and 18.6 per cent were in other posts. Of staff who
were in regular budget posts, 38.7 per cent had permanent appointments; in contrast, only 3.4 per cent of staff in other posts had permanent appointments.
21. The current proportion of permanent appointments for posts subject to geographical distribution is 51.2 per cent $(1,349$ out of 2,634$)$. The proportion of staff with probationary appointments stands at 5.9 per cent (156 out of 2,634).
22. The percentage of permanent and fixed-term appointments varies across departments and offices, depending mainly on source of funding. Entities funded mainly from sources other than the regular budget, namely, the field missions administered by the Department of Peacekeeping Operations ( 1.5 per cent), the United Nations Compensation Commission (2.6 per cent), the United Nations Environment Programme ( 4.3 per cent), the Office for the Coordination of Humanitarian Affairs (6.2 per cent), the United Nations Human Settlements Programme ( 6.5 per cent) and the United Nations Monitoring, Verification and Inspection Commission ( 8.2 per cent), have the lowest rate of permanent appointees among their staff. Entities funded mainly from the regular budget, namely, the Department for General Assembly and Conference Management (54.3 per cent), the Office of Legal Affairs (49.3 per cent), the Department of Political Affairs (39.1 per cent), the Department of Management (37.9 per cent) and the Department of Economic and Social Affairs (34.4 per cent) have higher percentages of permanent appointments.

Figure VII
Staff distribution by type of appointment as at 30 June 2006
(Population: 30,548)

| $\square$ Short-term | $\square$ Permanent | $\square$ Fixed-term |
| :--- | :--- | :--- |
| $\square$ Probationary | $\square 200$ series | $\square$ When actually employed |
| $\square$ Limited duration |  |  |

## Staff on contracts of less than one year

23. A total of 4,757 staff ( 15.6 per cent of the global workforce) hold contracts of less than one year. The proportion of staff with contracts of less than one year is highest among field-based staff (17.6 per cent in field missions administered by the

Department of Peacekeeping Operations and 16 per cent in field locations). It is lower at headquarters (13 per cent) and regional commissions (12.7 per cent).

## B. Staff of the United Nations Secretariat and related entities in the United Nations system

24. A total of 25,543 staff, constituting 83.6 per cent of the global workforce of the Secretariat, are on contracts of one year or more, as shown in table 2. This population is used only for the purpose of comparing staffing levels in various United Nations organizations, funds and programmes.
25. The general principles of the Staff Rules apply to all the staff of the United Nations, including the staff of the secretariats of subsidiary programmes, funds and organs that have special status in matters of appointment, granted by the General Assembly. These include the United Nations Children's Fund, the United Nations Development Programme, the Office of the United Nations High Commissioner for Refugees, the United Nations Relief and Works Agency for Palestine Refugees in the Near East, the United Nations University, the secretariat of the International Civil Service Commission, the secretariat of the United Nations Joint Staff Pension Fund, the registry of the International Court of Justice and the International Trade Centre.
26. As at 30 June 2006, the total number of staff of the United Nations Secretariat and those organizations with special status holding appointments of one year or more amounted to 51,062 (see table 2). Of the total, 25,519 staff members serve with related entities of the United Nations and 25,543 serve with the Secretariat, of whom 36.5 per cent are women (see figure VIII). In the Secretariat, women constitute 37.4 per cent $(2,371)$ of staff at the Professional and higher categories and 36.2 per cent $(6,559)$ in the General Service and related categories. Among staff under the 200 series, 36.3 per cent (393) are women.

Table 2
Staff of the United Nations Secretariat and related entities by category and source of funds as at 30 June 2006

${ }^{\text {a }}$ Includes 1,735 staff in the Professional and higher categories serving in field missions administered by DPKO and 82 General Service staff against revenue-producing accounts.
${ }^{\text {b }}$ Includes 8,560 local staff and 2,641 staff in the General Service and related categories serving in field missions administered by DPKO and 82 General Service staff against revenue-producing accounts.
${ }^{\text {c }}$ Includes staff charged to the UNDP core budget, funds managed by UNDP and UNDP supplementary funds.
${ }^{\mathrm{d}}$ Includes National Officers.
${ }^{\text {e }}$ Includes headquarters General Service staff, country office General Service staff and National Officers.
${ }^{\mathrm{f}}$ Includes Junior Professional Officers.
${ }^{\mathrm{g}}$ Includes National and Junior Professional Officers.
${ }^{\text {h }}$ Includes Professional staff and National Officers occupying posts funded by regular budget resources.
${ }^{i}$ Includes Professional staff and National Officers occupying posts funded from project funds.
${ }^{\mathrm{j}}$ Excludes area staff.
${ }^{k}$ A number of posts in ITC are financed jointly by the United Nations from the regular budget and by the World Trade Organization.

Figure VIII
Staff of the Secretariat and related entities of the United Nations with an appointment of one year or more, as at 30 June 2006
(Population: 51,062)

${ }^{a}$ Includes ICJ, ICSC, ITC, UNFPA, UNITAR, UNJSPF, UNOPS, UNRWA and UNU.

## C. Analysis of United Nations Secretariat staff demographics

27. The requirements of global human resources planning and the need to track trends in the workforce of the Secretariat call for a more in-depth analysis of Secretariat staff. The presentation and analysis below cover Secretariat staff holding 100-series appointments of one year or more, irrespective of category, type of appointment or source of funding. In conformity with these criteria, the base figure used for demographic analysis as at 30 June 2006 is 11,894 . Secretariat-wide data and projections for the period from 2006 to 2010 have been drawn from the IMIS database. In order to avoid unnecessary repetition, the analysis below has excluded a number of demographic characteristics (staff breakdown by category and grade, by nationality and by duration of contract) that are presented in section II.A above.

## Demographic profile of Secretariat staff

## Staff by department or office

28. Figure IX shows the breakdown of staff by department, office or other entity. A total of 8,510 staff ( 71.5 per cent) of all Secretariat staff serve in 12 departments and offices with more than 450 staff each. The three departments with the largest number of staff are the United Nations Office at Geneva (10.1 per cent, 1,199 staff), the Department for General Assembly and Conference Management ( 9.1 per cent, 1,083 staff) and the Department of Management ${ }^{6}$ ( 9.0 per cent, 1,074 staff) in New York. Staff at United Nations Headquarters (in New York or directly administered by Headquarters departments) represent 40.3 per cent of all Secretariat staff. Offices away from Headquarters (Addis Ababa, Bangkok, Beirut, Geneva, Nairobi, Santiago

[^4]and Vienna) and their sub-offices make up 48.7 per cent of the staff, with the largest number at the United Nations Office at Geneva (19.2 per cent). A total of 693 staff, or 5.8 per cent, are detailed to field missions administered by the Department of Peacekeeping Operations.

Figure IX
Number of staff by entity as at 30 June 2006
(Population: 11,894)

${ }^{\text {a }}$ The 1,074 staff of the Department of Management include the staff of the Office of the Under-Secretary-General (70), the Office of Programme Planning, Budget and Accounts (273), the Office of Human Resources Management (211), the Office of Central Support Services (510) and the Capital Master Plan Office (10).

## Staff by gender

29. Secretariat 100 -series staff with appointments of one year or more $(11,894)$ display an almost evenly balanced female/male distribution (50.7/49.3). This figure does not reflect significant differences in gender representation by grade, category and department or office.
30. In spite of a general increase in female staff representation in all categories, the two most senior grades of the Secretariat (Under-Secretary-General and Assistant Secretary-General) have a low rate of female representation (22.2 per cent of 72 staff). Female staff are also poorly represented in the Director category (31.4 per cent of 389 staff). Currently, female representation levels in the D-2 and D-1 grades stand at 37.8 per cent ( 34 female staff) and 29.4 per cent ( 88 female staff), respectively. In the Professional category, the proportion of female staff is 41.8 per cent ( 1,770 female staff). It is higher at entry levels ( 52.4 per cent of 496 staff at the P-2 level and 45.6 per cent of 1,386 staff at the P-3 level). Female staff constitute the majority ( 60.7 per cent of 6,737 staff) in the General Service category. Two specific groups continue to have very low female staffing: the Trades and Crafts category ( 2.4 per cent of 168 staff) and the Security category ( 11.5 per cent of 295 staff).
31. In 10 departments and offices, there is either gender parity or the number of women exceeds that of men in the Professional and higher categories. Twelve departments and offices have between 40 and 49 per cent female staff, 10 have between 30 and 39 per cent female Professionals and five have less than 30 per cent women Professionals.

## Staff by age

32. As at 30 June 2006, the average age of the staff was 45.9 years, down one tenth of a year from the average as at 30 June 2005 . More than half, 56.0 per cent, of all Secretariat staff are older than $45,28.9$ per cent are younger than 40 and 4.7 per cent are younger than 30 . This pattern is illustrated in figures X and XI, which show, respectively, the age distribution of the female and male staff and the distribution of age groups in the Secretariat. The highest average age is for Under-Secretaries-General and Assistant Secretaries-General (58.9 years), followed by the Director category ( 54.9 years). The average age of staff in the Professional category is 46.2 years, and at the entry-level P-2 grade, 37.0 years. The average age of staff in the General Service category is 45.4 years, in the Security category, 37.4 years and in the Trades and Crafts category, 47.8 years.
33. The average age of female Directors exceeds that of male Directors by about two months, while Professional male staff are on average 18 months older than their female colleagues. Male security officers on average are nearly five years older than their female colleagues. For General Service staff, the average age of male staff is about nine months lower than that of female staff.
34. In the Professional category the youngest staff are found in the Office of the Secretary-General (41.8 years), the Office of Legal Affairs ( 42.6 years), the Office of the United Nations High Commissioner for Human Rights (43.2 years), the United Nations Compensation Commission (43.9 years) and the Office for the Coordination of Humanitarian Affairs (44.3 years), while the oldest are in the Office of the Special Adviser on Africa (49.2 years), the Economic and Social Commission
for Western Asia (48.7 years) and the Department of Public Information (48.4 years).
35. For all categories of staff, the departments and offices with the lowest average age are the new Department of Safety and Security (41.4 years), the Economic and Social Commission for Western Asia (43.2 years), the United Nations Office at Nairobi (43.7 years) and the Department of Peacekeeping Operations (44.0 years), while the highest overall average ages are found in the Office of the Special Adviser on Africa ( 50.0 years), the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States ( 49.8 years), the United Nations Monitoring, Verification and Inspection Commission (49.4 years), the Department of Economic and Social Affairs ( 48.5 years) and the Department for General Assembly and Conference Management (48.4 years).

Figure X
Distribution of staff by gender and age as at 30 June 2006
(Population: 11,894)

Figure XI
Distribution of age groups in the Secretariat as at 30 June 2006
(Population: 11,894)

## Staff by length of service

36. The average length of service for all staff and all types of appointments is 11.9 years ( 13.1 years for Directors, 10.3 years for Professionals and 12.8 years in the General Service and related categories).
37. The average length of service for staff with permanent appointments is 20.7 years ( 23.5 years for Directors, 15.8 years for Professionals and 25.5 years in the General Service and related categories). Longer service time for Directors correlates with their higher average age. The average length of service of staff holding fixed-term appointments of one year or more is 7.6 years ( 6.9 years for Directors, 6.0 years for Professionals and 8.3 years in the General Service and related categories).
38. The average length of service in departments and offices of at least 30 staff ranges from those of the Counter-terrorism Executive Directorate (4.7 years), the Office for the Coordination of Humanitarian Affairs (7.9 years) and the United Nations Monitoring, Verification and Inspection Commission (8.5 years) at the low end to those of the Department for General Assembly and Conference Management ( 15.4 years), the Economic and Social Commission for Asia and the Pacific (15.3 years), the Economic Commission for Latin America and the Caribbean ( 15.3 years), the Office of Central Support Services (15.2 years), the Department of Economic and Social Affairs (15.0 years), the United Nations Office at Geneva (14.6 years), the Department of Political Affairs (14.3 years) and the Department of Public Information (14.3 years) at the high end. A lower than average duration of service is a result of one or a combination of the following reasons: a younger staff population, more recent recruits, a higher staff turnover rate, the recent establishment of an office or appointments of limited duration. An average length of service at the departmental or office level that is higher than that of the Secretariat indicates an older population with a lower turnover rate.

## Movements of staff from 1 July 2005 to 30 June 2006

39. The analysis presented below is based on the movements of staff, which include recruitment, separation, promotion and transfer between departments and offices, in the population of staff under the 100 series with appointments of one year or more in the Secretariat during the period from 1 July 2005 to 30 June 2006. That population includes staff in both the Professional and higher categories and the General Service and related categories.

## Recruitment

40. Figure XII illustrates that, between 1 July 2005 and 30 June 2006, 1,131 staff were recruited in the Secretariat for posts under the 100 series of the Staff Rules with appointments of one year or more in the population considered. In the Professional category ( 411 staff, 36.3 per cent of all recruits), the following departments recruited the largest number of staff: the Office of the United Nations High Commissioner for Human Rights (69 staff, 16.8 per cent), the Department of Peacekeeping Operations (47 staff, 11.4 per cent), the Department of Economic and Social Affairs (28 staff, 6.8 per cent) and the Department for General Assembly and Conference Management ( 25 staff, 6.1 per cent).
41. Of the 411 staff at the Professional level, a total of 98 recruits at the P-2 level accounted for 8.7 per cent of all recruits and for 23.8 per cent of all recruits in the Professional category. The main departments recruiting staff at the $\mathrm{P}-2$ level were the Department of Economic and Social Affairs (15 staff, 15.3 per cent), the Department for General Assembly and Conference Management (12 staff, 12.2 per cent), the Department of Public Information (9 staff, 9.2 per cent), the Department of Management and the Office of the United Nations High Commissioner for Human Rights ( 8 staff, 8.2 per cent, each) and the Department of Peacekeeping Operations and the Economic Commission for Africa (6 staff, 6.1 per cent, each).
42. A total of 671 staff, or 59.3 per cent of all staff recruited during the reporting period, were in the General Service and related categories.
43. Women accounted for 40.0 per cent of all staff recruited ( 452 women out of 1,131 staff) during the period from 1 July 2005 to 30 June 2006, compared with 41.6 per cent in the previous reporting period. At the Under-Secretary-General level, 2 out of 12 recruits were women, and at the Assistant Secretary-General level 1 out of 6 . In the Director category, women accounted for 22.6 per cent of recruits ( 7 out of 31), and in the Professional category, 43.3 per cent were women (178 out of 411). In the General Service and related categories, 264 staff, or 39.3 per cent, of staff recruited were women.
44. The following departments or offices account for almost 60 per cent of all recruitments: the field missions administered by the Department of Peacekeeping Operations (14.5 per cent, 164 staff), the Department of Safety and Security (10.6 per cent, 120 staff), the Office of the United Nations High Commissioner for Human Rights ( 6.5 per cent, 74 staff), the United Nations Office at Geneva ( 5.9 per cent, 67 staff), the Department of Peacekeeping Operations ( 5.7 per cent, 64 staff), the Department for General Assembly and Conference Management ( 5.4 per cent, 61 staff), the United Nations Office at Nairobi ( 5.1 per cent, 58 staff) and the United Nations Environment Programme ( 5.0 per cent, 56 staff). Recruitments comprised fixed-term appointments (89.8 per cent, 1,016 staff), new probationary
appointments ( 9.9 per cent, 112 staff) and permanent appointments due to transfer from another United Nations agency ( 0.3 per cent, 3 staff).

Figure XII
Recruitment of staff by category and gender (1 July 2005-30 June 2006)
(Population: 11,894)

## Separation

45. Separation is defined as the movement of staff out of the Secretariat owing to retirement, resignation, expiry of appointment, agreed termination, inter-agency transfer, termination for health reasons, death, termination or abandonment of post or dismissal for misconduct. Between 1 July 2005 and 30 June 2006, 998 staff separated, compared with 770 separations registered during the period from 1 July 2003 to 30 June 2004. Among them, 355 were retirements ( 35.6 per cent), 239 were resignations ( 23.9 per cent) and 222 were due to expiration of appointments ( 22.2 per cent). By category, 5.5 per cent were in the Director category and above, 35.3 per cent were Professionals and 57.7 per cent were staff in the General Service and related categories. A total of 29 staff at the P-2 level separated, accounting for 2.9 per cent of all separations and 8.2 per cent of separations at the Professional level. Separations of female staff accounted for 48.8 per cent of all staff departures. As indicated in Figure XIII, while female staff accounted for 39.3 per cent of separations in the Professional and higher categories, they constituted 55.7 per cent in the General Service and related categories. More than 60 per cent of staff who separated were from the field missions administered by the Department of Peacekeeping Operations (110), the Department for General Assembly and Conference Management (85), the United Nations Office at Geneva and the Department of Management (74 each), the Department of Peacekeeping Operations (61), the United Nations Compensation Commission (56), the Economic and Social Commission for Asia and the Pacific (53), the Department of Public Information (51) and the United Nations Environment Programme (48).
46. Between 1 July 2005 and 30 June 2006, a total of 239 staff resigned, accounting for 23.9 per cent of all separations. The number of resignations included four Under-Secretaries-General, one Assistant Secretary-General, three Directors, 56 staff in the Professional category and 175 staff in the General Service and related
categories. In the Professional category, 11 staff at the P-5 level resigned (19.6 per cent of total resignations), 19 staff at the P-4 level (33.9 per cent), 17 staff at P-3 level (30.4 per cent) and 9 staff at P-2 level (16.1 per cent).

Figure XIII
Separations by gender (1 July 2005-30 June 2006)
(Population: 11,894)

## Promotion

47. Promotion is defined as the movement of staff to a higher grade, except for movement to the Professional category of staff from the General Service and related categories, which is considered recruitment, pursuant to General Assembly resolution 55/258. During the period from 1 July 2005 to 30 June 2006, 1,077 promotions were registered in the Secretariat. The gender distribution of the promotions showed the percentage breakdown to be even between men (543 promotions, 50.4 per cent) and women (534 promotions, 49.6 per cent) as compared with the $55 / 45$ breakdown in favour of men in 2005. Women comprised 37.5 per cent of the promotions in the Director category, 47.1 per cent in the Professional category and 51.3 per cent in the General Service and related categories.
48. The departments with more than 75 promotions during the period from 1 July 2005 to 30 June 2006 were the Department of Management (136), the Department for General Assembly and Conference Management and the Economic Commission for Africa (109 each), the United Nations Office at Geneva (88) and the United Nations Office at Nairobi (83).

## Transfer

49. Transfers are defined as lateral staff movements with a change of assignment and involving two departments or offices at one or more duty stations. During the period under review, there were 539 transfers Secretariat-wide. Of the total, 332, or 61.6 per cent, were transfers of female staff. There were more transfers among staff with fixed-term appointments ( 69.8 per cent) than among staff with permanent appointments (29.1 per cent) and probationary appointments (1.1 per cent).
50. Most transfers occurred into or out of the United Nations Environment Programme (53), the Department of Management (50), the Department of Peacekeeping Operations (38), the Department of Economic and Social Affairs, and the Department of Public Information (37 each) and the Economic Commission for Europe (32).
51. In section VIII of its resolution 57/305, the General Assembly approved the Secretary-General's proposal contained in his report (A/56/816) on the placement of staff members serving in the Executive Office of the Secretary-General and requested him to report on the implementation of the procedure. During the period from 1 July 2005 to 30 June 2006, there were no transfers of staff to posts at the same level from the Executive Office of the Secretary-General.

## Turnover

52. Turnover rates are based on the calculation of a standard labour turnover index, which is obtained by comparing the number of actual staff departures over the reporting period with the number of active staff. Turnover indices for 2005/2006 are presented in table 3 by category of staff and take into account all causes of separation except expiration of appointment. The overall turnover index has increased from 5.1 in 2005 to 7.4 in 2006. While the turnover index for Directors is higher than that of the staff as a whole, for staff in the Professional category it is close to the overall turnover rate. Staff turnover helps to open up promotion and recruitment prospects.

Table 3
Turnover indices (1 July 2005-30 June 2006)
(Percentage)

| Category | Number of staff as <br> at 30 June 2005 | Number of <br> separations | Turnover index |
| :--- | ---: | ---: | ---: |
| Directors | 382 | 47 | 12.3 |
| Professional category | 4124 | 332 | 8.1 |
| General Service and related categories | 7181 | 489 | 6.8 |
| Total staff | $\mathbf{1 1 6 8 7}$ | $\mathbf{8 6 8}$ | $\mathbf{7 . 4}$ |

## Forecasts of anticipated retirements in the United Nations Secretariat

53. Each year a number of staff leave the Organization for different reasons. The yearly attrition rate is the result of both foreseeable and unforeseeable events. Workforce planning identifies the future requirements of the Organization and enables departments and offices to fill their vacancies in a timely manner. Figure XIV illustrates anticipated retirements by category for the period 2006-2010.
54. A total of 1,759 Secretariat staff will reach the mandatory age of separation during the next five years ( 14.8 per cent of the current overall workforce). An average of 352 staff will retire each year, ranging from a low of 222 in 2006 to a high of 435 in 2009. Figure XIV indicates that 151 Directors will retire over the five-year period, accounting for 8.6 per cent of all retirements, 560 staff ( 31.8 per cent) will retire from the Professional category and 1,048 staff ( 59.6 per cent) will
retire from the General Service and related categories. During the period 2006-2010, more women than men will retire ( 935 women, 824 men). In the Professional and higher categories (P-2 to D-2), 62.3 per cent of the retirees will be male.

Figure XIV
Anticipated retirements by category
(Total anticipated retirements: 1,759)

55. Retirement rates at the senior levels (P-5, D-1 and D-2) will be significant in a number of departments. A comparison of the number of expected retirements at those levels by department and office, based on the present staffing table, is provided below. Departments and offices with a minimum of 20 staff at the senior levels have been divided into three groups corresponding to the percentage of their strategic replacement needs in the next five years:
(a) Departments and offices with low replacement needs (less than 25 per cent of their present staff): the Department of Peacekeeping Operations (11.1 per cent), the Office of the Secretary-General (11.5 per cent), the Department of Safety and Security ( 14.3 per cent), the United Nations Office on Drugs and Crime (17.4 per cent), the United Nations Environment Programme (20.4 per cent), the Economic Commission for Latin America and the Caribbean ( 21.2 per cent), the Office of Internal Oversight Services (21.7 per cent) and the Office of the United Nations High Commissioner for Human Rights (23.3 per cent);
(b) Departments and offices with medium replacement needs (between 25 and 40 per cent of their present staff): the Office of Programme Planning, Budget and Accounts (25.0 per cent), the Department of Political Affairs (27.5 per cent), the Office of Central Support Services, the Office of Legal Affairs and the United Nations Human Settlements Programme ( 27.6 per cent each), the Office of the Under-Secretary-General for Management (27.8 per cent), the United Nations Conference on Trade and Development (27.9 per cent), the Office for the Coordination of Humanitarian Affairs (28.1 per cent), the field missions administered by the Department of Peacekeeping Operations and the Department of Peacekeeping Operations (29.2 per cent each), the Economic and Social

Commission for Asia and the Pacific (31.6 per cent), the Department for Disarmament Affairs (33.3 per cent), the Department of Public Information (34.7 per cent), the Economic Commission for Africa (34.9 per cent), the Department of Economic and Social Affairs (36.0 per cent), the United Nations Office at Vienna ( 36.4 per cent) and the Economic Commission for Europe (40.0 per cent);
(c) Departments and offices with high replacement needs (over 40 per cent of their present staff): the Department for General Assembly and Conference Management ( 42.4 per cent), the United Nations Office at Geneva ( 45.5 per cent), the Office of Human Resources Management ( 48.0 per cent) and the Economic and Social Commission for Western Asia (48.0 per cent).
56. Monitoring of expected staff retirements in the P-5, D-1 and D-2 grades helps the forecasting of staff replacement requirements. Replacement needs for the P-5 grade for the coming five years are 25.4 per cent of the present number of staff. At the D-2 and D-1 grades they are higher, 38.8 per cent (see table 4).

Table 4
Replacement needs owing to retirement at the D-1/D-2 and P-5 grades

## D. Staff subject to the system of desirable ranges

57. The representation of their nationals in the staff of the United Nations Secretariat has been a major concern of Member States since the beginning of the Organization. This concern is reflected in Article 101, paragraph 3, of the Charter, which specifies that in the employment of staff the highest standards of efficiency, competence and integrity will be secured and that due regard will be paid to recruiting staff on as wide a geographical basis as possible. Among the 30,548 staff of the global Secretariat workforce, staff holding appointments of one year or more constitute a sub-group of 25,543 staff. Within this sub-group, 2,634 staff are recruited under the system of desirable ranges, which is described in the paragraphs below.
58. Staff under the system of desirable ranges are appointed by the SecretaryGeneral under the 100 series of rules for a period of at least one year to posts subject to geographical distribution in the Professional and higher categories funded
under the regular budget. Several categories of staff are excluded from this category. ${ }^{7}$
59. General Assembly resolution $42 / 220$ A introduced the current system of desirable ranges, and in that resolution the Assembly requested the Secretary-General to base it, with effect from 1 January 1988, on the following criteria:
(a) The base figure for the calculations would initially be 2,700 posts;
(b) The weight of the membership factor would be 40 per cent of the base figure;
(c) The population factor, which would be allotted a weight of 5 per cent, would be directly related to the population of Member States, and posts subject to that factor would be distributed among Member States in proportion to their population;
(d) The contribution factor would be based on the distribution of the remaining posts among Member States in proportion to the scale of assessments;
(e) The upper and lower limits of each range would be based on a flexibility of 15 per cent upward and downward from the midpoint of the desirable range, but not less than 4.8 posts up and down, the upper limit of the range being not less than 14 posts;
(f) The base figure would be adjusted whenever the actual number of posts subject to geographical distribution increased or decreased by 100, the weights of the three factors being maintained.
60. Changes in the representation status of a Member State may result from several factors: the appointment or separation of staff; adjustments of the desirable range because of an increase or decrease in the number of posts subject to geographical distribution; changes in the number of Member States; changes in the scale of assessments; changes in the population of Member States; and changes in the status of individual staff members (such as departure on secondment or special leave without pay, return from secondment or special leave or change in nationality).
61. In compliance with section III of General Assembly resolution 42/220 A, owing to the creation of additional posts, the base figure of posts subject to the system of desirable ranges was set at 2,700 in 1988. This number depends on the number of posts subject to geographical distribution but is not equal to it. The base

[^5]figure is adjusted whenever the actual number of posts (budgeted) subject to geographical distribution increases or decreases by 100. Currently, the base figure is set at 2,900 due to the change in the number of posts in the Professional and higher categories subject to the system of desirable ranges, which stands at 2,997. For more details on the calculation of ranges and the midpoint, see annex I.
62. The representation of Member States falls into four categories: unrepresented, underrepresented, within range and overrepresented. A Member State is unrepresented when none of its nationals has been appointed to a post subject to geographical distribution; it is underrepresented when the number of its nationals appointed to such posts is below the lower limit of the desirable range; it is within range when the number of its nationals appointed to such posts is between the upper and lower limits of the desirable range; and it is overrepresented when the number of its nationals appointed to such posts exceeds the upper limit of the desirable range.

## Representation of Member States in the system of desirable ranges

63. As at 30 June 2006, 18 Member States were unrepresented, compared with 17 in June 2005 (Angola, Bahrain, the Comoros, the Democratic People’s Republic of Korea, Timor-Leste, Kiribati, Kuwait, Liechtenstein, the Marshall Islands, Monaco, Nauru, Palau, Samoa, Sao Tome and Principe, Tajikistan, the United Arab Emirates, Vanuatu and Yemen). Eleven Member States were underrepresented, compared with nine in June 2005 (Brunei Darussalam, Japan, the Libyan Arab Jamahiriya, Mexico, Norway, Oman, Qatar, the Republic of Korea, Saudi Arabia, Switzerland and Viet Nam), and 21 Member States were overrepresented, compared with 20 in June 2005 (Argentina, Australia, Austria, Belgium, Bulgaria, Cameroon, Canada, Chile, Egypt, Ethiopia, India, Italy, Kenya, New Zealand, Nigeria, the Philippines, the Russian Federation, Sweden, Uganda, Ukraine and the Bolivarian Republic of Venezuela). Other Member States (141) were within range. ${ }^{1}$
64. The evolution of the representation of Member States in terms of staff appointed under the system of desirable ranges for the five-year period from 2002 to 2006 is illustrated in Figure XV.

Figure XV
Representation of Member States ${ }^{\text {a }}$

${ }^{\text {a }}$ The present report analyses the representation of 191 Member States, although as from 28 June 2006 the number of Member States increased to 192 with the admission of Montenegro, for which specific data are not available yet.
65. Tables A. 3 to A. 10 in annex II cover posts subject to geographical distribution. The data in table A. 3 are arranged by nationality, grade and gender. The table includes the midpoint of the desirable range and the range itself. The data in table A. 4 are arranged by nationality and type of appointment as at 30 June 2005 and 30 June 2006. Table A. 5 shows appointments arranged by nationality, grade and gender for the period from 1 July 2005 to 30 June 2006. Table A. 6 shows appointments and separations, arranged by nationality, type of appointment and gender, for the same period.

## Representation of Member States at the senior and policymaking levels

66. In section $X$, paragraph 2, of its resolution 55/258, the General Assembly requested the Secretary-General to take all necessary measures to ensure, at the senior and policymaking levels of the Secretariat, the equitable representation of Member States, especially those with inadequate representation at those levels and unrepresented and underrepresented States, in particular developing countries, in accordance with the relevant resolutions of the Assembly, and to continue to include relevant information thereon in all future reports on the composition of the

Secretariat. That request was reaffirmed in section II, paragraphs 37 and 38, of resolution 57/305 and section IV, paragraph 13, of resolution 59/266.
67. Staff at the senior and policymaking levels are defined as those at the Principal Officer (D-1) grade and above. Table 5 contains data on senior officials appointed under the system of desirable ranges, including a breakdown by country of nationality. It presents data on the representation of developing countries and other countries for staff subject to geographical distribution based on the combined desirable ranges of each group compared with the number of staff from Members States of those groups. Table 5 also includes staff under the system of desirable ranges and staff at the $\mathrm{D}-1$ grade and above, at the $\mathrm{D}-2$ grade and above and at the grade of Assistant Secretary-General and above (for more detailed information on the representation of individual Member States at the senior and policymaking levels, see table A. 10 in annex II).
68. A brief analysis of table 5 indicates that the percentage of staff under the system of the desirable ranges from both developing and developed countries is below their combined desirable ranges as at 30 June 2006. The number of staff from developing countries decreased (in both absolute and percentage terms) between 2002 and 2005 and increased between 2005 and 2006. Numbers of staff from developed countries have been gradually increasing in both absolute and percentage terms since 2002. Numbers of staff from countries with economies in transition have remained stable, in both absolute and percentage terms, and consistently above their combined desirable ranges between 2002 and 2006.
69. At the D-1, D-2 and Assistant Secretary-General and higher grades, the percentages of staff from developing countries have decreased between 2002 and 2006, but as at 30 June 2006 remain above their combined desirable ranges. Percentages of staff from developed countries at the D-1, D-2 and Assistant Secretary-General and higher grades have increased between 2002 and 2006, but as at 30 June 2006 remain below the sum of their desirable ranges. Percentages of staff from countries with economies in transition at the D-1, D-2 and Assistant SecretaryGeneral and higher grades have fluctuated between 2002 and 2006. As at 30 June 2006 they are above their combined desirable ranges for D-1 and D-2 grades and below for the Assistant Secretary-General and higher grades.
${ }_{\infty}^{\omega} \quad$ Table 5

## Female representation among staff under the system of desirable ranges

70. Since the forty-fifth session of the General Assembly, and in compliance with resolution 45/239 C, resolution 55/258, section XIV, paragraph 2, and resolution 57/305, section II, paragraphs 39 to 41, the Secretary-General has continued to report on efforts made to increase the number of women in posts subject to geographical distribution in the Secretariat, particularly in senior and policymaking posts. During the period from 1 July 2002 to 30 June 2006, the number of female staff members in the D-1 grade and above increased by five, from 106 to 111. Tables A. 7 and A.9.B of annex II show staff in posts with special language requirements by nationality, grade and gender. The proportion of female staff in posts subject to geographical distribution for the five-year period from 2002 to 2006 is illustrated in Figure XVI below.

Figure XVI
Proportion of female and male staff in posts subject to geographical distribution

71. The number and percentage of female staff in posts subject to geographical distribution and in posts with special language requirements, by grade, are shown in table 6, which compares data for 1996 and 2006.

Table 6
Female staff by grade in posts subject to geographical distribution and posts with special language requirements

${ }^{\text {a }}$ Does not include serving staff who already had the appointment status "geography".
73. Table A. 9 of annex II shows the gender distribution of staff in the Secretariat by department or office and by grade as at 30 June 2006. Section A of the table reports on staff in posts subject to geographical distribution, and section B provides data on staff in posts with special language requirements.

## Recruitment of staff under the system of desirable ranges

74. During the period from 1 July 2005 to 30 June 2006, 219 appointments were made under the system of desirable ranges (see annex II, table A.5). Of that total, 4 appointments (1.8 per cent) were of nationals of unrepresented Member States, 19 (8.7 per cent) were of nationals of underrepresented Member States, 146 (66.6 per cent) were of nationals of Member States that were within the desirable range and 49 (22.4) were of nationals of Member States that were overrepresented as at 30 June 2005.
75. Of the 219 appointments, 78 ( 35.6 per cent) were of candidates who had been successful in national competitive examinations for posts in the $\mathrm{P}-2$ and $\mathrm{P}-3$ grades. A total of 44 ( 56.4 per cent) of the 78 successful candidates in the examinations were women.
76. In 2005, 44 Member States participated in national competitive examinations (Andorra, Angola, Antigua and Barbuda, Bahrain, Barbados, Botswana, Brunei Darussalam, Cape Verde, the Comoros, Equatorial Guinea, the Gambia, Greece, Grenada, Guatemala, Israel, Japan, Kiribati, the Lao People’s Democratic Republic, Liechtenstein, Maldives, Malta, the Marshall Islands, Mauritius, Mexico, Micronesia (Federated States of), Monaco, Norway, Oman, Palau, Panama, Portugal, the Republic of Korea, the Republic of Moldova, Saint Lucia, Samoa, San Marino, Saudi Arabia, Solomon Islands, Switzerland, Tajikistan, Tonga, Tuvalu, the United

States of America and Viet Nam). These are unrepresented and underrepresented Member States and those in danger of becoming unrepresented or underrepresented. Examinations were given in seven occupational groups. ${ }^{8}$ A total of 121 candidates from the 2005 examinations were successful: 10 have been placed, 2 were no longer available and 20 of the remaining 109 candidates on the roster are in the process of being recruited.
77. Of the 219 staff appointed, 83 ( 37.9 per cent) were women, of whom 52 were from developed countries, 25 were from developing countries and 6 were from countries with economies in transition.
78. Among the 78 national competitive examination candidates, 32 ( 43.2 per cent) of the P-2 candidates were recruited by offices away from Headquarters, while 42 ( 56.8 per cent) were recruited for posts in New York. All four P-3 candidates were recruited at an office away from Headquarters. Table 8 presents placement data, by entity, for the period from July 2005 to June 2006.

Table 8

## Forecasts of anticipated retirements of Secretariat staff under the system of desirable ranges

79. Of the current 2,634 staff on posts subject to geographical distribution, 446 will retire between 2006 and 2010 (18.1 per cent). Retirements will average 93 staff members a year, ranging from a low of 62 in 2006 to a high of 112 in 2009. Figure XVII indicates the breakdown between the Director and Professional categories.
80. All currently serving staff on posts subject to geographical distribution from three Member States (Chad, Sierra Leone and Tuvalu) will retire in the next five years, while seven Member States (Afghanistan, Cambodia, China, Panama, Poland, the United Kingdom of Great Britain and Northern Ireland and the United States of America) may become underrepresented if the numbers of nationals expected to retire during this period are not balanced by a similar number of new recruitments from those Member States. The proportion of currently serving nationals of 49 Member States expected to retire by 2010 is between 21 and 50 per cent, of 24 Member States between 11 and 20 per cent and of 15 Member States up to 10 per cent. There will be no expected retirements for staff from 59 Member States in the next five years.

desirable ranges
(Total anticipated retirements: 446)

## III. Responses to requests contained in resolutions of the General Assembly

## A. Implementation of human resources action plans

81. In accordance with the request of the General Assembly in its resolution $57 / 305$ for the Secretary-General to report annually on progress made by departments in the implementation of their human resources action plans, the present report provides information on the status of the implementation of the human resources action planning system during the current planning cycle.
82. Human resources action planning was introduced in 1999 throughout the Secretariat. The departmental human resources action plans are biennial compacts between the heads of the participating departments/offices and the Assistant Secretary-General for Human Resources Management. The action plans, which include organizational human resources management goals based on the relevant mandates of the General Assembly, help to guide programme managers in their human resources management activities during the two-year planning cycle.
83. In its resolution 59/266, the General Assembly requested the SecretaryGeneral to continue to improve the effectiveness of human resources action plans for achieving the human resources objectives of the Organization. In response, and in cooperation with departments and offices, an expanded action plan was introduced for the fourth planning cycle (2005-2006), including additional human resources management areas and accountability targets.
84. A review of progress in achieving the planning goals during the first year of the current action plan cycle has been completed by the Office of Human Resources Management in cooperation with participating departments and offices. Departmental mid-cycle scorecards have been submitted to the Management Performance Board, which advises the Secretary-General on matters concerning the performance of individual senior managers. At its meeting in July 2006, the Board noted that although certain departments had made good progress in attaining goals, overall performance needed improvement, especially in the areas of geographic representation and gender balance.
85. Additional information on the human resources action plans is provided in the sections on human resources planning and monitoring of the Secretary-General's reports entitled "Human resources management reform" (A/61/228), "Investing in people" (A/61/255) and "Management Performance Board" (A/61/319).

## B. Analysis of the level of underrepresentation

86. The General Assembly, in section IV, paragraph 8, of its resolution 59/266, requested the Secretary-General to include an analysis of the level of underrepresentation in the next report on the composition of the Secretariat. Such an analysis is presented below. For the purpose of the analysis, the level of underrepresentation is defined as the difference between the number of a Member State's nationals who are active staff in the Secretariat under the system of desirable ranges and the lower limit of the Member State's desirable range. The analysis
covers staff under the system of desirable ranges on posts subject to geographical distribution over a five-year period (2002-2006).
87. The increase in the number of unrepresented and underrepresented Member States from 27 in 2002 to 29 in 2006 and the creation of 300 additional posts under the system of desirable ranges has resulted in an increase in the overall number of recruitments that is required to bring all existing unrepresented and underrepresented Member States within range. That number rose from 194 in 2002 to 217 in 2006.
88. A review of unrepresented and underrepresented Member States during the period 2002-2006 indicates that they fall within three groups. The first group comprises Member States with the following characteristics: (a) the changes in their representation status were caused by small changes, not exceeding three, in the number of their nationals; and (b) the changes were occasional and resulted in a status of underrepresentation for not more than two consecutive years between 2002 and 2006. Andorra, Angola, Antigua and Barbuda, the Comoros, Liechtenstein, the Republic of Moldova and Uzbekistan, which have been unrepresented between 2002 and 2006, and Brazil, the Democratic People’s Republic of Korea, Greece, the Libyan Arab Jamahiriya, Portugal and Qatar, which have been underrepresented during the same period, are in this group of Member States.
89. The second group of Member States consists of those that have been unrepresented and underrepresented for at least four years over the 2002-2006 period and are underrepresented by 3 to 15 staff members. They comprise 13 unrepresented Member States (Bahrain, Brunei Darussalam, Guinea-Bissau, Kiribati, the Marshall Islands, Monaco, Nauru, Palau, Samoa, Sao Tome and Principe, Timor-Leste, Turkmenistan and the United Arab Emirates) and 6 underrepresented Member States (Kuwait, Mexico, Norway, the Republic of Korea, Saudi Arabia and Switzerland).
90. The third group comprises one underrepresented Member State, Japan, which has been chronically underrepresented for a long period of time by a number greater than the number of its nationals on board.
91. The situation of non-representation and underrepresentation can be monitored through a number of indicators. The first, which is reported annually in the report on the composition of the Secretariat, identifies the number of Member States that are unrepresented or underrepresented. The number of unrepresented Member States has increased from 16 in 2002 to 18 in 2006, while the number of underrepresented Member States during the same period has remained unchanged at 11 .
92. Another indicator of underrepresentation is the total number of staff on board from underrepresented Member States and their proportion relative to the total number of staff in posts subject to geographical distribution. In 2002, of the total of 2,492 staff in posts subject to geographical distribution, 368 were from underrepresented Member Sates ( 14.8 per cent). In 2006 that number has decreased to 207 ( 7.8 per cent of the 2,634 staff in posts subject to geographical distribution). This constitutes a decrease of 43 per cent between 2002 and 2006.
93. The number of recruitments required to bring all current unrepresented Member States within range is 26 . The number of recruitments required to bring all current underrepresented Member States within range is 187, of which 162 relate to Japan.
94. For an individual Member State, the level of underrepresentation may be measured by the difference between the number of its nationals who are active staff and the lower limit of its desirable range. In the second and third groups of Member States, the level of underrepresentation has increased for Japan (from 145 in 2002 to 162 in 2006), Kuwait (from 1 in 2002 to 4 in 2006), Mexico (from 0 in 2002 to 6 in 2006) and Saudi Arabia (from 2 in 2002 to 7 in 2006). The level of underrepresentation has decreased for Norway (from 6 in 2002 to 2 in 2006), the Republic of Korea (from 8 in 2002 to 2 in 2006) and Switzerland (from 10 in 2003 to 3 in 2006). More details are found in table 9. This situation calls for greater efforts to bring the representation status within range. For example, although the total number of staff in posts subject to geographical distribution has increased from 2,492 in 2002 to 2,634 in 2006, the number of nationals of Japan has gone down by one, from 111 in 2002 to 110 in 2006, bringing the percentage of its presence in staff in posts subject to geographical distribution to 4.1 per cent in 2006, down from 4.4 per cent in 2002. Enhanced efforts are needed to bring the representation of Japan within range in 2006.
95. As previously indicated, changes in the representation status of a Member State may result from several factors: the appointment or separation of staff; adjustment of the desirable range because of an increase or decrease in the number of posts subject to geographical distribution; changes in the number of Member States; changes in the scale of assessments; changes in the population of Member States; or changes in the status of individual staff members (such as departure on secondment or special leave without pay, return from secondment or special leave, or change in nationality).
96. As indicated above, representation status is affected by staff movements, specifically appointments and separations. There were six appointments of staff from unrepresented Member States between 2002 and 2006 (an average of one per year) and 114 from underrepresented Member States (an average of 23 per year). The 120 nationals recruited from unrepresented and underrepresented Member States between 2002 and 2006 represent 12.4 per cent of the total. The number of nationals recruited from overrepresented Member States over the same period stood at 196 ( 20.3 per cent) and from Member States within range 648 ( 67.1 per cent). As a result of the small number of nationals recruited from unrepresented and underrepresented Member States the proportion of nationals of underrepresented Member States relative to the total of staff subject to the system of the desirable ranges has changed from 14.8 per cent ( 368 staff ) in 2002 to 7.9 per cent ( 207 staff) in 2006. A reduction in the number of unrepresented and underrepresented Member States will require a higher proportion of recruitments from those States.
97. Within the next five years (2006-2010), 446 staff in the system of desirable ranges will retire ( 18.1 per cent of 2,634 ). This will create opportunities to improve the current geographical distribution of staff. Expected retirements from underrepresented Member States in the second and third groups number 10 for Japan, 5 for Switzerland, 4 for Mexico and 1 each for Saudi Arabia and the Republic of Korea.
98. The issue of equitable geographic distribution continues to be a high priority for the Secretary-General and is addressed in a variety of ways. Among them is the human resources action plan, by which heads of departments and offices undertake to increase the number of recruitments of candidates from unrepresented and
underrepresented Member States for posts subject to geographical distribution. The progress made in achieving goals in departmental human resources action plans is now monitored by the Management Performance Board, which is chaired by the Deputy Secretary-General.
99. Other mechanisms include the staff selection system, by which heads of department and office are required to certify that they have taken into account the Organization's human resources objectives and targets as reflected in the departmental action plans, especially with regard to geography. The Galaxy e-staffing system has been enhanced to include a special feature that highlights candidates from unrepresented and underrepresented Member States and also offers a search function to help managers identify candidates by nationality. Periodic meetings are held with representatives from unrepresented and underrepresented Member States to inform them of measures taken to recruit nationals from such States, to learn about their concerns and to identify areas of collaboration. In addition, a small number of recruitment missions have been organized.
100. Another important means of addressing geographical representation is the national competitive examination offered annually to Member States that are unrepresented, underrepresented or in danger of falling below their desirable range. Staff recruited through the examination are given geographic status. Additionally, a fast-track pilot project was proposed by the Secretary-General in his report entitled "Improvement of equitable geographical representation in the United Nations Secretariat" (A/59/264) as a new measure to assist in reducing the level of underrepresentation of Member States and the number of unrepresented Member States. In response, the General Assembly, in its resolution 59/266, authorized the Secretary-General, for a trial period of two years during which the procedures would be fully developed, to establish a special roster of candidates from unrepresented and underrepresented Member States for a number of posts at the P-4 and P-5 levels only, until such Member States are within the desirable ranges. Additional information is provided in the Secretary-General's report on human resources management reform (A/61/228).

${ }^{\text {a }}$ See paras. 89 and 90 above.

## C. Definition of language posts

101. In response to the request made by the General Assembly in section II, paragraph 7, of its resolution 59/266, the following paragraphs present a definition of language posts in the Secretariat.
102. It should be recalled that, since the beginning of the Organization, language posts have been considered separate from other posts due to the need to provide the linguistic expertise necessary for the proper servicing of conferences and the production of documents in all the official languages of the Organization. Professional language posts and their incumbents have traditionally been excluded from the principle of equitable geographical distribution, which is now implemented through the system of desirable ranges. ${ }^{9}$
103. Initially, the term "language posts" referred to regular budget posts at the Professional level, up to P-5, in conference services in New York and offices away from Headquarters. This group of posts was subsequently extended to include posts that are jointly financed with other entities using the Organization's conferences services, especially at duty stations outside New York, or posts financed through extrabudgetary resources and established for at least one year.
104. Staff recruited to serve in such posts are considered "language staff" and as such are subject to a special regime which is set out in administrative instruction ST/AI/2000/1. As repeatedly reaffirmed by the General Assembly, appointment to posts requiring special language competence for conference services is made exclusively through competitive examination. ${ }^{10}$ A competitive language examination is administered for that purpose for interpreters, translators/préciswriters, editors, verbatim reporters and proofreaders/copy preparers.
105. Language posts should be distinguished from other posts which may require special linguistic knowledge in departments or offices outside conference services. If the latter posts are at the Professional level or above under the regular budget, they are considered posts subject to equitable geographical distribution. Appointment to one of these posts would be subject to the application of the system of desirable ranges and, if at the $\mathrm{P}-2$ level, would require the candidate to be successful in a competitive national examination. Candidates selected for one of these posts would not be considered language staff.
106. Against this background, the following definition of language posts is considered appropriate:

Posts at the Professional level requiring special language skills in the conference servicing area (interpreters, translators/précis-writers, editors, verbatim reporters, proofreaders/copy preparers, revisers and terminologists) who are recruited through competitive language examinations.

[^7]
## IV. Conclusions

107. In support of the Secretary-General's vision of an integrated global Secretariat, the present report on the composition of the Secretariat provides for the first time information relating to all staff with contracts as at 30 June 2006 irrespective of source of funding, type of engagement, duration of contract, level or duty station. The population used in previous reports was based on staff with contracts of one year or more as recorded in IMIS.
108. Pursuant to section XVIII of General Assembly resolution 59/266, in which the Assembly requested the Secretary-General to submit consolidated reports, as appropriate, addenda ${ }^{11}$ to the present report on the following subjects are before the Assembly: gratis personnel provided by Governments and other entities (A/61/257/Add.1), employment of retired former staff (A/61/257/Add.2) and employment of consultants and individual contractors (A/61/257/Add.3).
109. The Secretary-General invites the General Assembly to take note of the present report.
[^8]
## Annex I

## System of desirable ranges

## Method of calculation of the midpoint and ranges

1. Three factors are used to calculate the midpoint of the desirable range: the membership factor, the contribution factor and the population factor.
2. The membership factor is defined by the number of Member States and is the same for each Member State. It accounts for 40 per cent of the base figure and is equal to 6.1 posts for each Member State, which is the total number of posts for this factor ( 40 per cent of $2,900=1,160$ posts), divided by the number of Member States (191).
3. The contribution factor is based on the latest scale of assessments agreed by the General Assembly; the number of allotted posts for each Member State varies proportionally. The contribution factor is different for each Member State, it represents the total number of posts for the factor ( 55 per cent of 2,900 $=$ 1,595 posts) divided by 100 and multiplied by the Member State's latest assessment percentage.
4. The population factor is based on the proportion of each Member State's population as compared with the global population of all Member States. The figures are based on United Nations statistics (population and vital statistics report) for each country. This factor is equal to the total number of posts for the population factor ( 5 per cent of $2,900=145$ posts) divided by total population of all Member States and multiplied by the population of the relevant Member State.
5. Once the three factors have been calculated, the midpoint of the range is derived by adding the individual Member State's share of the membership factor, the contribution factor and the population factor. The upper and lower limits of each range are determined by adding or subtracting 15 per cent from the midpoint of the range. The General Assembly, in its resolution 42/220 A, specified that this adjustment has a minimum of 4.8 posts and an upper limit of not less than 14 posts.

## Calculation of the weighted ranges

6. Table A. 8 provides data pertinent to the application of the system of desirable ranges for the geographical distribution of staff. It also shows the weighted distribution of staff and the weighted staff position for each Member State, in points.
7. As indicated in table A. 11 of annex II, the percentage of total staff in each grade (column 2) is applied to the base figure of 2,900 (column 3). The resulting figure is weighted by the gross salary per annum in United States dollars divided by 1,000 (column 4) to produce a weighted base figure (column 5). As at 30 June 2006, the weighted average value of each post was 83.56 points $(242,315 / 2,900)$. Accordingly, the weighted membership factor was 96,926 points ( 40 per cent of 242,315 ), the weighted population factor was 12,116 points ( 5 per cent) and the weighted contribution factor was 133,273 points ( 55 per cent). The above figures represent the global numbers; for each Member State a separate calculation based on the same factors results in a weighted base figure. The weighted midpoint shown in table A. 8 of annex II represents the sum of the weighted membership, population
and contribution factors, and the weighted range is calculated as 15 per cent upward and downward (but not less than 401 points up and down ( $4.8 \times 83.56$ ), with the upper limit being not less than 1,253 points ( $14 \times 83.56$ )). The weighted staff position for each Member State comprises the total number of staff of that country by grade, multiplied by the gross annual salary by grade.

[^9]
[^0]:    * A/61/150.

[^1]:    ${ }^{1}$ The present report analyses the representation of 191 Member States, although on 28 June 2006 the number of Member States increased to 192 with the admission of Montenegro, for which specific data are not available yet.
    ${ }^{2}$ Excluding staff on "when actually employed" or "one dollar a year" contracts.
    ${ }^{3}$ The authority of the Secretary-General to appoint staff derives from Article 101, paragraph 1, of the Charter of the United Nations, which states: "The staff shall be appointed by the SecretaryGeneral under regulations established by the General Assembly." The principles governing the recruitment and employment of staff are derived from Article 101, paragraph 3, of the Charter, which reads: 'The paramount consideration in the employment of the staff and in the determination of the conditions of service shall be the necessity of securing the highest standards of efficiency, competence, and integrity. Due regard shall be paid to the importance of recruiting the staff on as wide a geographical basis as possible'."

[^2]:    4 Excluding all staff on 200- and 300-series contracts, staff on 100 -series contracts with appointments limited to mission service and staff in the following categories: Field Service, National Officers, language teachers and public information assistants. It also excludes staff recruited locally for mission service and staff on "when actually employed" or "one dollar a year" contracts.

[^3]:    5 The Democratic People’s Republic of Korea, Kiribati, Liechtenstein, the Marshall Islands, Monaco, Nauru, Palau, the United Arab Emirates and Vanuatu.

[^4]:    6 The Department of Management comprises the Office of the Under-Secretary-General, the Capital Master Plan Office, the Office of Human Resources Management and the Office of Programme Planning, Budget and Accounts.

[^5]:    7 Those excluded from the system of the desirable ranges include staff appointed to the secretariats of subsidiary programmes, funds and organs with special status in matters of appointment; staff appointed to peacekeeping posts, posts specifically funded for other field mission service or posts financed under the support account for peacekeeping operations; staff appointed to posts with special language requirements; staff in the Field Service and the General Service and related categories of staff (such as Trades and Crafts, security officers and public information assistants) who are locally recruited; staff appointed to posts for service limited to the United Nations Environment Programme, the United Nations Human Settlements Programme or the United Nations Office on Drugs and Crime; staff appointed to posts financed on an inter-agency basis; staff appointed to technical cooperation project posts; National Officers at United Nations information centres; staff on special leave without pay; and staff on secondment to other organizations.

[^6]:    ${ }^{8}$ Architecture, demography, library, security, science and technology, statistics and web design.

[^7]:    ${ }^{9}$ See, for instance, the record of the discussions in the Fifth Committee at the third session of the General Assembly on the subject of the composition of the Secretariat and the principle of geographical distribution (Official Records of the Third Session of the General Assembly, Part I, Fifth Committee, Summary records of meetings, 21 September-10 December 1948, p. 110).
    ${ }^{10}$ See, for instance, resolution $51 / 226$, section III.B, paragraph 15 , resolution $53 / 221$, section V, paragraph 17, and resolution 55/258, section IV, paragraph 13.

[^8]:    11 The General Assembly established an annual reporting period for the composition of the Secretariat report covering 1 July-30 June (A/8604, para. 37) and requested biennial reports on gratis personnel provided by Governments and other entities (resolution 57/281B, para. 2), on the employment of retired former staff (decision 51/408, para. (f), and resolution 59/266, sect. XII, para. 7) and on consultants and individual contractors (resolution 57/305, sect. V, para. 8).

[^9]:    ${ }^{\text {a }}$ Gross annual salary, in United States dollars, divided by 1,000 . Salary scale effective 1 January 2006.
