I. Introduction

1. The budget for the maintenance of the United Nations Disengagement Observer Force (UNDOF) for the period from 1 July 2006 to 30 June 2007, set out in the report of the Secretary-General of 3 January 2006 (A/60/641 and Corr.2), amounted to \$39,975,900 gross (\$38,909,300 net). It provided for 1,047 military contingent personnel, 43 international staff and 107 national staff. The Advisory Committee on Administrative and Budgetary Questions, in paragraph 32 of its report on the financing of UNDOF dated 20 April 2006 (A/60/811), recommended that the General Assembly appropriate \$39,975,900 gross for the maintenance of the Force for that period.

2. The General Assembly, by its resolution 60/277, appropriated an amount of \$39,865,200 gross (\$38,798,600 net) for the maintenance of the Force for 2006/07. The total amount has been assessed on Member States.

II. Mandate performance

3. The mandate of the Force was established by the Security Council in its resolution 350 (1974) and extended in its subsequent resolutions. The mandate for the performance period was provided by the Council in its resolutions 1685 (2006) and 1729 (2006).

4. The Force is mandated to help the Security Council achieve an overall objective, namely, to maintain international peace and security.

5. Within this overall objective, the Force has, during the reporting period, contributed to a number of accomplishments by delivering related key outputs, shown in the frameworks below for the operations and support components.

6. The present report assesses actual performance against the planned results-based budgeting frameworks set out in the 2006/07 budget. In particular, the report compares the actual indicators of achievement, that is, the extent to which actual progress has been made during the period against the expected accomplishments, with the planned indicators of achievement, and the actually completed outputs with the planned outputs.

Incremental transportation factor	1.5

IV. Analysis of variances¹

	<i>Variance</i>
Military contingents	\$418.3 2.1%

8. The unutilized balance was due primarily to lower than budgeted actual requirements for the settlement of death and disability claims, and for the reimbursement for contingent-owned equipment, as six armoured personnel carriers envisaged under a dry lease agreement with a troop-contributing country were not provided.

¹ Resource variance amounts are expressed in thousands of United States dollars. Analysis is provided for variances of at least plus or minus 5 per cent or \$100,000.

	<i>Variance</i>	
International staff	\$309.8	4.9%

9. The unspent balance resulted from a higher actual vacancy rate of 9.3 per cent compared to the budgeted vacancy rate of 7.0 per cent.

	<i>Variance</i>	
National staff	(\$368.7)	(17.4%)

10. The additional requirements under this heading were due to the implementation of revised national staff salary scales effective from 1 October 2005 and from 1 October 2006. The budgetary provisions were based on a salary scale which took effect on 1 October 2004.

	<i>Variance</i>	
General temporary assistance	(\$79.8)	(199.5%)

11. The additional expenditures incurred under this heading were attributable primarily to the hiring of a cartographer to meet immediate operational requirements for mapping services owing to the security situation in the mission area.

	<i>Variance</i>	
Consultants	\$13.7	97.9%

12. The unutilized balance resulted from the availability of UNDOF staff to conduct training in conduct and discipline and prevention of sexual exploitation and abuse as well as contract administration, which obviated the need to engage consultants as provided for in the budget.

	<i>Variance</i>	
Official travel	(\$16.6)	(7.3%)

13. The additional requirements related primarily to travel undertaken by the incoming Force Commander to meet with Government officials and representatives of the diplomatic community and for reconnaissance travel to plan for possible evacuation of staff owing to the deterioration of the security situation.

	<i>Variance</i>	
Ground transportation	\$541.2	13.7%

14. The unutilized balance under this heading was due primarily to lower actual requirements for vehicle spare parts and liability insurance. Savings related to the acquisition of vehicle spare parts were attributable to the favourable local market conditions, as well as the reduction in vehicle accidents upon the introduction of strict speed limitation measures. In addition, worldwide insurance rates introduced after the finalization of the budget were lower than the budgeted rates.

	<i>Variance</i>	
Special equipment	(\$75.9)	(118.0%)

15. The additional requirements under this heading resulted from the acquisition of a night-vision device with thermal imagery capabilities required by military personnel to perform night observation in the areas of separation and limitation.

	<i>Variance</i>	
Other supplies, services and equipment	(\$379.2)	(65.2%)

16. The additional expenditures were due primarily to charges for the UNDOF share of the cost of the Office of Internal Oversight Services Procurement Task Force and the recording in the mission's accounts of a loss on exchange resulting from the fluctuation of the United States dollar.

V. Actions to be taken by the General Assembly

17. The actions to be taken by the General Assembly in connection with the financing of UNDOF are:

(a) To decide on the treatment of the unencumbered balance of \$316,200 with respect to the period from 1 July 2006 to 30 June 2007;

(b) To decide on the treatment of other income for the period ended 30 June 2007 amounting to \$2,412,500 from interest income (\$1,259,900), other/miscellaneous income (\$345,500) and savings on or cancellation of prior-period obligations (\$808,100), offset by prior-period adjustments (\$1,000).
