## **The Syrian Arab Republic fights terrorism**

Since 2011, a secret world war has begun on the Syrian Arab Republic under the umbrella of the civil war with the aim of destabilizing the country's security and stability after it is at the peak of its prosperity.

That force, which was and still Syria enjoyed it, was a heavy burden on those who wanted to break the resistance axis in the Middle East, and guarantee the stability for the Israeli occupation in the region. Some countries have met in aim to demolish this dam and it has contributing to the destruction of the country and the displacement and killing of the people and the siege of those who remain in their homeland and also it worked to weaken the leadership and the Syrian Arab army. Today, all the facts are known in front of the world and the United Nations in all its bodies after the great failure of the States which allied to eliminate this great force, and it is time to punish and hold accountable anyone who contributed directly or indirectly to violations and crimes against humanity against the Syrian people because the silence now is a crime committed by all those who is holds on his shoulders the task of the defending of human rights.

It was not strange for the United States of America to plant the seed of terrorism on Syrian territory and support and publish it to accelerate after that to the appeal and condemnation and the threat and to express its fears on the Syrian people as a result of terrorism, to give itself the right to intervene in a sovereign State to show the world its fear for Syria and its people and security and stability of the Region. and it has formed an international coalition, that resulted in committed war crimes has destroyed the hearts of the Syrians by using internationally prohibited weapons against unarmed civilians, leading to the death of thousands and the displacement hundreds of civilians who have become homeless as a result of the destruction of their homes, property and infrastructure, The coalition also provided the so-called "Islamic State of Iraq and the Levant" the terrorist organization, support it with military and logistical weapons To facilitate their tasks, and to make it a tool of pressure on the Syrian government in the negotiation.

After the great victory achieved by the Syrian Arab Army in the region of Al-Ghouta, which is has worried the major countries because of its regional and political dimensions, which emphasized that the Syrian Arab Republic still enjoys an influential force, the media war began using "the White Helmets" organization to promote the play of the chemical and accuse the Syrian authorities to use it without any evidence. the double standards of the United States, the United Kingdom of Great Britain and Northern Ireland and France, became known by all, despite of their claiming that they are committing their responsibilities and investigating the facts, they rejected the draft UN Security Council Resolution Submitted by the Russian Federation "to support the dispatch of investigators from the International Chemical Weapons Control Agency, to the location of the supposed attack in Douma, They have launched an illegal tripartite aggression on the Syrian territory and violated the sovereignty of the Syrian state and until today, they have not saw the world what the achievements of that aggression, only the repeated speech about emphasis that Syria possesses chemical weapons.

Israel was not far from its participation in the war crimes in the war against Syria, the victories of the Syrian Arab Army and the awareness of the Syrian people for the plot of the planned by the major countries to destroy his country, revealed the entry of the Zionist entity and its supporters in the confrontation in a direct way, after he was disguised behind his terrorist tools, it has launched several raids repeated air strikes have killed scores and destroyed many of the country's infrastructure.

The occupation authorities also continue to exercise arbitrary detention against the people of the occupied Golan against the backdrop of their opposition to the occupation and expose its illegal practices and expose its settlement policies and support to terrorist groups in the area of Separation zone and the vicinity region, to find conditions to help perpetuate its occupation of the Syrian Golan.

Since the occupation of the Syrian Golan in 1967, the Israeli occupation has not ceased the continuous violations of international humanitarian law and all the basic rights of the people of the occupied Syrian Golan which Rapporteur under the relevant resolutions of the United

Nations and the Security Council, by Narrowing on them and imposing unchecked decisions and legislation, the latest of which was the imposition of elections for the first municipal council for the first time since the occupation of the Golan, as was the case, Israeli identity cards were imposed on the Syrian citizens in the occupied Syrian Golan in a new attempt to make the people of the Golan between the two options to accept the occupation or leave their land, Not to mention establishment of settlements and the confiscation of land and the diversion of water sources and impose a boycott on agricultural products and all this weakens the United Nations bodies and mechanisms by the rogue Israeli occupation and calls for land owners to use all legitimate means in accordance with international law to liberate their land.

The International Council for the Supporting Fair Trial and Human Rights considers it a shame today to continue these violations and war crimes against the Syrian Arab Republic and impose economic sanctions on its people, which led to the deterioration of living conditions and became a barrier to the reconstruction of the country in the hands of its people despite the wounds after being destroyed by terrorism that spread in the country with the support of those planned and supportive States.

The Council calls for a comprehensive investigation into all war crimes committed by the terrorist groups against the Syrian people over nine years and the accountability of those who supported them with money and weapons. The Syrian blood that has flowed there, has diverted the whole world, not only Syria, from the dangers of destructive terrorism. We believe that it is time to calculate ...

States must also put an end of Intervention in Syria internal policy, with stressing that in accordance with the Charter of the United Nations, no State has the right to intervene directly or indirectly in sovereign Member States and for any reason in internal and external affairs. The Security Council must see things with the eyes of the Syrians alone and not allow the arrogance of the United States and its allies to continue to destroy States unchecked.

It is time to end the suffering that penetrated the hearts of the Syrians and to take what is necessary today to establish an independent and impartial international mechanism to investigate, condemn and punish the crimes of the United States of America on the Syrian territory and to condemn its blatant and their interference under the name of the international coalition without the consent of the Syrian state and the Security Council.

The Council is also deeply concerned about the suffering of the population in the occupied Syrian Golan and that the human rights there continue to be violated daily, with the emphasis that Israel's decision to impose its laws, jurisdiction and administration in the occupied Syrian Golan is absolutely null, and void and has no international legal effect on the basis of Security Council resolution 497 (1981) of 17 December 1981.

Syria has today won over terrorism and wreaked the world from its woes and , and today only the Syrians have the right to decide the future of their country and they have agreed to rewrite their constitution or revise it with their own hands, to realize the world that the strong link of the Syrian trio (the people, the leadership and the army) today destabilized the unilateral policy of the United States and its allies Especially Britain, France, and Israel, which could not break that trinity, and emerged from it with defeated.
