Human Rights Council

Forty-seventh session

21 June–13 July 2021

Agenda item 3

**Promotion and protection of all human rights, civil,
political, economic, social and cultural rights,
including the right to development**

Russian Federation: amendment to draft resolution A/HRC/47/L.23/Rev.1

47/... Preventable maternal mortality and morbidity and human rights

Paragraph 1 *should read*

1. *Urges* all States to eliminate preventable maternal mortality and morbidity and to respect, protect and fulfil sexual and reproductive health and reproductive rights, as agreed in accordance with the Beijing Declaration and Platform for Action and the Programme of Action of the International Conference on Population and Development, and the outcome documents of their review conferences as adopted by the General Assembly, and the right of women to have full control over and decide freely and responsibly on all matters relating to their sexuality, including sexual and reproductive health, free from discrimination, coercion and violence, including through the removal of legal barriers and the development and enforcement of policies, best practices and legal frameworks that respect bodily autonomy, and to guarantee universal access to sexual and reproductive health-care services, evidence-based information and education within a human rights-based approach, including for family planning, safe and effective methods of modern contraception, emergency contraception, universal access to health care, including quality maternal health care, such as skilled birth attendance and emergency obstetric care, safe abortion, where not against national law, and the integration of sexual and reproductive health into national health strategies and programmes for all women and girls, including adolescents;
