## Human Rights Council

### Fifty-first session

12 September–7 October 2022

Agenda item 3

**Promotion and protection of all human rights, civil,  
political, economic, social and cultural rights,  
including the right to development**

## **Note verbale dated 6 October 2022 from the Permanent Mission of Namibia to the United Nations Office at Geneva addressed to the Office of the United Nations High Commissioner for Human Rights**

The Permanent Mission of the Republic of Namibia to the United Nations Office at Geneva and other international organizations in Switzerland hereby draws the attention of the President of the Human Rights Council and the Office of the United Nations High Commissioner for Human Rights to the attached correspondence from the Frente POLISARIO pertaining to the right of self-determination and the permanent sovereignty of the people of the Non-Self-Governing Territory of Western Sahara over their natural resources (see annex).

The Permanent Mission of the Republic of Namibia has the honour to request that the present note verbale and the annex thereto\* be issued as a document of the Human Rights Council and circulated to all members of the Council under agenda item 3.

## **Annex to the note verbale dated 6 October 2022 from the Permanent Mission of Namibia to the United Nations Office at Geneva addressed to the Office of the United Nations High Commissioner for Human Rights**

### **For the attention of the members of the Human Rights Council**

Western Sahara, called Spanish Sahara until the colonial Power (Spain) terminated its presence in and illegally relinquished its responsibilities over the Territory in February 1976, was included in 1963 in the list of Non-Self-Governing Territories under Chapter XI of the Charter (A/5514, annex III). Since then, UN General Assembly Resolution 1514 (XV), which contains the “Declaration on the Granting of Independence to Colonial Countries and Peoples” fully applies to Western Sahara.

In adopting resolution 1514 (XV), the UN General Assembly affirmed that peoples may, for their own ends, freely dispose of their natural wealth and resources and declared that “all armed action or repressive measures of all kinds directed against dependent peoples shall cease in order to enable them to exercise peacefully and freely their right to complete independence, and the integrity of their national territory shall be respected.”<sup>1</sup>

In its 1975 Advisory Opinion<sup>2</sup>, the International Court of Justice concluded that the materials and information presented to it do not establish any tie of territorial sovereignty between the territory of Western Sahara and the Kingdom of Morocco. In November 1975, the UN Security Council in Resolution 380 called upon Morocco to immediately withdraw from the Territory of Western Sahara all the participants in the march. In November 1979, the UN General Assembly in Resolution 34/37 deeply deplored the aggravation of the situation resulting from the continued occupation of Western Sahara by the Kingdom of Morocco.

In adopting resolution 1803 (14 Dec. 1962) entitled “Permanent sovereignty over natural resources”, the UN General Assembly declared that “The exploration, development and disposition of such resources, as well as the import of the foreign capital required for these purposes, should be in conformity with the rules and conditions which the peoples and nations freely consider to be necessary or desirable with regard to the authorization, restriction or prohibition of such activities.”

In its General comment No. 12 on Article 1 of the International Covenant on Civil and Political Rights, the Human Rights Committee, referring to paragraph 2 of Article 1 stressed that the right of peoples freely to dispose of their natural wealth and resources entails corresponding duties for all States and the international community.

Paragraph 3, in the Committee’s opinion, is particularly important in that it imposes specific obligations on States parties, not only in relation to their own peoples but vis-à-vis all peoples which have not been able to exercise or have been deprived of the possibility of exercising their right to self-determination. The obligations exist irrespective of whether a people entitled to self-determination depend on a State party to the Covenant or not. It follows that all States parties to the Covenant should take positive action to facilitate realization of and respect for the right of peoples to self-determination.

Both, the Committee on Economic, Social and Cultural Rights in its 2015 Concluding observations on the fourth periodic report of Morocco<sup>3</sup> and the Human Rights Committee in

<sup>1</sup> The southern and eastern boundaries with the Islamic Republic of Mauritania were established by the “Convention pour la délimitation des possessions françaises et espagnoles dans l’Afrique occidentale, sur la côte du Sahara et sur la côte du Golfe de Guinée”, signed in Paris on 27 June 1900. The Northern boundary of Western Sahara with the territory of the Kingdom of Morocco was delimited by two conventions, the Paris Convention signed on 3 October 1904, and the Madrid Convention signed on 27 November 1912. Its delimitation has been slightly corrected by the Madrid Convention signed on 19 December 1956.

<sup>2</sup> Western Sahara, Advisory Opinion, I.C.J. Reports 1975.

<sup>3</sup> E/C.12/MAR/CO/4\*.

its 2016 Concluding observations on the sixth periodic report of Morocco<sup>4</sup>, expressed their concerns about the failure to find a solution to the issue of the right to self-determination of the Non-Self-Governing Territory of Western Sahara and the illegal exploitation of the natural resources of the Territory by the Kingdom of Morocco.

Furthermore, in its annually adopted resolution entitled “Economic and other activities which affect the interests of the peoples of the Non-Self-Governing Territories”, the UN General Assembly calls upon all Governments that have not yet done so to take legislative, administrative or other measures in respect of their nationals and the bodies corporate under their jurisdiction that own and operate enterprises in the Non-Self-Governing Territories that are detrimental to the interests of the inhabitants of those Territories, in order to put an end to such enterprises.

UN General Assembly Resolution 2625 (XXV) of 24 October 1970, entitled “Declaration on Principles of International Law concerning Friendly Relations and Co-operation among States in accordance with the Charter of the United Nations”, provides that the territory of a colony or other Non-Self-Governing Territory has, under the Charter, a status separate and distinct from the territory of the administering Power (not mentioning an occupying Power) and that such separate and distinct status under the Charter shall exist until the people of the colony or Non-Self-Governing Territory have exercised their right of self-determination in accordance with the Charter, and particularly its purposes and principles.

It is precisely upon this very fundamental principle that the General Court of the European Union has founded its 29th September 2021 ruling<sup>5</sup> on the agreement between the European Union and Morocco amending the tariff preferences granted by the European Union to products of Moroccan origin and, second, the Sustainable Fisheries Partnership Agreement.

Confirming the relevant case law of the Court of Justice of the European Union<sup>6</sup>, the General Court, recalls that the Frente Popular de Liberación de Saguía el Hamra y Río de Oro (Frente POLISARIO) is recognised internationally as the representative of the people of Western Sahara and that any agreement on economic activities in the Non-Self-Governing Territory of Western Sahara must have the free and genuine consent of the people of Western Sahara. The General Court affirmed the legal personality of the Frente Polisario being entitled to act before the European and international judicial institutions to defend the rights of the people and the territory of Western Sahara.

The Frente POLISARIO, recognized by the UN General Assembly in Resolution 34/37 as the representative of the people of Western Sahara, denounces the persistent attitude of the European Union and its member states in its relations with the Kingdom of Morocco when addressing the Non-Self-Governing Territory of Western Sahara.

Whether it relates to the process of self-determination started in 1966 and continued with the creation by the Security Council of the UN Mission for the Referendum in Western Sahara (MINURSO), or to the exploitation of natural resources in the same Territory, the European democracies are ostensibly trampling on fundamental principles of international relations, the international law, the UN Charter and the countless resolutions adopted by the General Assembly concerning the Non-Self-Governing Territories and Western Sahara in particular.

The Frente POLISARIO deeply regrets that the European democracies participate actively to the weakening of the system created in 1945 in order to maintain international peace and security, to develop friendly relations among nations based on respect for the principle of equal rights and self-determination of peoples and to achieve international co-operation in encouraging respect for human rights and for fundamental freedoms for all.

The Frente POLISARIO calls upon the members of the Human Rights Council to request the High-Commissioner to establish a comprehensive list of companies developing economic activities in the occupied Non-Self-Governing Territory of Western Sahara without the free and genuine consent of the people of Western Sahara.<sup>7</sup>

<sup>7</sup> See the annexed list

The Frente POLISARIO, while denouncing the persistent illegal occupation and annexation of part of Western Sahara by the Kingdom of Morocco and the persistent illegal plundering of the natural resources of the Territory, as well as the development of economic activities which violate the rights of the Sahrawi people, calls upon once again the members of the Human Rights Council to implement OP5 of the UN General Assembly's annually-adopted resolution entitled "Universal realisation of the right of peoples to self-determination", which reads "Requests the Human Rights Council to continue to give special attention to violations of human rights, especially the right to self-determination, resulting from foreign military intervention, aggression or occupation" and to establish the mandate of a Special Rapporteur on the situation of human rights in the Occupied Western Sahara.

I would be most grateful if you would bring the present letter to the attention of the members of the Human Rights Council.

Geneva, 5 October 2022

Ms. Omeima Abdeslam

Representative of the Frente Polisario to the United Nations  
and other International Organisations in Geneva
