## رسالة مقدمة من المؤسسة الوطنية الفنلندية لحقوق الإنسان

Mr. President,

1. This statement is made on behalf of the Finnish Human Rights Centre, representing the National Human Rights Institution of Finland<sup>1</sup>.
2. We welcome the adoption of Finland's fourth UPR report. We thank the Government for the open dialogue with us, and the civil society during the preparations for UPR but regret that due to lack of resources, no hearing was organised before Finland gave its responses to the recommendations.
3. Finland continued to receive several recommendations to better tackle discrimination, hate speech, hate crimes and domestic and gender-based violence. The Government accepted many of the recommendations but noted some related to prompt investigation measures and identification of cases. The Finnish Human Rights Centre wishes to underline that ensuring efficient criminal procedures and access to justice of victims should be a priority of any initiative aiming to strengthen rule of law in Finland.
4. Furthermore, the situation of the Sami was considered in several of the recommendations. Finland accepted the recommendations to reform the Sami Parliament Act. As the rights of indigenous peoples are a priority in Finland's foreign policy, the Government needs to ensure that this is equally reflected in its actions at national level.
5. Finally, parliamentary elections are approaching in Finland. The Government should consider the role of the Parliament in contributing to the implementation of UPR recommendations, and more generally to the discussion on the state of human rights in Finland.
6. In conclusion, the Finnish Human Rights Centre is committed to working with the Government to ensure the implementation of recommendations and will continue its own monitoring role.

Thank you, Mr. President.
