The Women's Resource and Outreach Centre, a women's NGO group in collaboration with the United Nations Democracy Fund, launched a project entitled "Strengthening Women's Leadership in Jamaica". This is a training programme geared towards increasing, improving and consolidating the presence and influence of women serving on boards and commissions in Jamaica. The Bureau is included as one of the implementing agencies in this project along with the Institute of Gender and Development Studies, the Jamaica Women's Political Caucus and the corporate governance committee of the Private Sector Organization of Jamaica.
