## Appendix

### **Report of the Republic of Madagascar on the implementation of resolution 1373 (2001) concerning counter-terrorism**

The Government of Madagascar hereby submits to the Counter-Terrorism Committee the present report, pursuant to paragraph 6 of resolution 1373 (2001) adopted by the United Nations Security Council on 28 September 2001. The report briefly describes the measures introduced to implement this resolution.

In submitting this report, Madagascar seeks to reaffirm its commitment to the principles and objectives of the Charter of the United Nations and to highlight its willingness to contribute to the eradication of terrorism.

## **I. National mechanisms for the prevention and suppression of terrorism**

Although Madagascar has no specific legislation on terrorism, its body of laws nevertheless contains a broad range of provisions to prevent and suppress terrorism, such as the death penalty, imprisonment and hard labour, which may be adapted as necessary to cover various terrorist acts.

### **• Prevention**

To date, Madagascar has not concluded any international agreement on terrorism. However, if there is a strong suspicion of terrorism, and at the demand of the country concerned, Madagascar will, in coordination with that country, put security measures in place for the surveillance of its Embassy and other associated entities, as in the case of the United States of America.

### **• Suppression**

There are currently no specific measures on “international terrorism” in Malagasy legislation but certain activities which may be related to terrorism may, from the perspective of suppression, be covered implicitly by various sections of the Penal Code, for instance:

## **A. Crimes and offences against the external security of the State**

*Article 76, paragraph 3:*

- Destruction, wilful damage caused to a ship, aerial navigation appliance, equipment, construction or installation used for the purpose of national defence, by nationals.
- Wilful participation in an act committed by a group and by an overt use of force, aimed at and causing wilful damage to equipment or supplies intended for national defence.

*Article 77:*

If perpetrated by a foreigner, the acts mentioned in the preceding article shall be characterized as espionage.

*Article 82, paragraph 1:*

The death penalty is the punishment for crimes committed under articles 76 and 77 and, in general, attacks threatening the external security of the State committed in times of peace are punishable by a term of imprisonment of one to five years and a fine of 180,000 to 1,800,000 Malagasy francs. The crimes mentioned in article 82 may be punishable by up to 10 years' imprisonment and a fine of 3,600,000 Malagasy francs.

### *Article 136:*

\* \* \*

It should be noted that this enumeration is not exhaustive. It only serves as an indication that, while there is no specific terrorism offence under Malagasy law, there is a wide range of penalties ranging from imprisonment, the death penalty to hard labour, which may be adapted as necessary to cover various terrorist acts.

## **II. At the international level**

Madagascar has ratified four of the 12 main international instruments aimed at preventing and combating terrorism, namely:

- The 1988 Montreal Protocol for the Suppression of Unlawful Acts of Violence at Airports Serving International Civil Aviation;
- The 1971 Montreal Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation;
- The Hague Convention of 1970 for the Suppression of Unlawful Seizure of Aircraft;

- The 1963 Tokyo Convention on Offences and Certain other Acts Committed on Board Aircraft.

These conventions and protocols are part of Madagascar's domestic law.

As far as the measures taken or planned by Madagascar pursuant to Security Council resolution 1373 (2001) adopted on 28 September 2001 are concerned, the Government of Madagascar has established an inter-ministerial unit, coordinated by the Ministry of Foreign Affairs, which is primarily responsible for carrying out the formalities required for Madagascar's accession to all the regional and international instruments concerning counter-terrorism.

In December 2001, the Council of Ministers also adopted bills concerning the ratification by Madagascar or its accession to the following agreements:

**1. Ratification:**

- The 1999 International Convention for the Suppression of the Financing of Terrorism;
- The 1997 International Convention for the Suppression of Terrorist Bombings;
- The 1991 Convention on the Marking of Plastic Explosives for the Purpose of Detection;
- The Organization of African Unity (OAU) Convention on the Prevention and Combating of Terrorism.

**2. Accession:**

- The 1973 Convention on the Prevention and Punishment of Crimes against Internationally Protected Persons, including Diplomatic Agents;
- The 1979 International Convention against the Taking of Hostages;
- The 1979 Convention on the Physical Protection of Nuclear Material;
- Convention for the Suppression of Unlawful Acts against the Safety of Maritime Navigation;
- The 1988 Protocol for the Suppression of Unlawful Acts against the Safety of Fixed Platforms Located on the Continental Shelf.

These draft laws will be submitted to the National Assembly and the Senate at the opening of their next session in May 2002.

The next step will be the adoption of the regulatory and legislative measures to be applied in the Malagasy context. Strengthening Madagascar's cooperation with its partners in the areas concerned, particularly at the bilateral and regional levels, is also on the agenda.

It should also be noted that the provisions on extradition contained in the Agreements of 4 June 1973 on cooperation between France and Madagascar are applicable to international terrorism; the two States undertake to hand over, on a reciprocal basis, persons found in the territory of one State who have been prosecuted or sentenced for terrorism by the judicial authorities of the other State. The two States shall not, however, extradite their respective nationals.

### **III. Conclusion**

Madagascar's needs in the context of the implementation of resolution 1373 (2001) are great. While these needs remain to be determined, we can already point out that the elaboration of laws and regulations, and the setting up of an adequate institutional framework, require technical competencies that are lacking at present.
