Forty-second session
Item 84 of the preliminary list*

OPERATIONAL ACTIVITIES FOR DEVELOPMENT

Final comprehensive statistical data on operational activities
for development for the year 1985

Note by the Secretariat

1. In its resolution 35/81 of 5 December 1980, the General Assembly requested the annual submission to the Assembly of comprehensive statistical information on operational activities for development of the United Nations system.
2. Owing to technical problems, this information for the year 1985 could not be incorporated in the annual report on operational activities for development of the United Nations system, submitted to the General Assembly at its forty-first session (see A/41/776 and Corr.1, annex). It is now being made available to Member States as a complement to that report (see annex).

* A/42/50.

NOTE ON STATISTICAL INFORMATION

1. Coverage, definition and presentation of, as well as sources for, the statistical information are identical to previous reports of the Director-General, with the following additions and explanations.
2. Table B-8, which provides data on the administrative services and programme support costs of organizations engaged in operational activities has been added to the statistical series in 1985.
3. The following changes have been made to tables A-1, A-2 and A-3 and B-1 :
 - (a) Tables A-1 and B-1 now incorporate data in respect of cost-sharing and government cash counterpart contributions to the United Nations Development Programme (UNDP) , and expenditures financed therefrom, and self-supporting contributions to agencies, and expenditures financed therefrom. Such data was hitherto treated as "memorandum items".
 - (b) Table A-2, with information on contributions to funds and programmes of the United Nations, has been streamlined, as follows:
 - (i) Previous reports provided information on contributions from Governments and other sources to all the 23 funds that participate in the annual Pledging Conference. For the present report, and to reduce the length of the table, only the largest funds have been separately identified in table A-2; full data on the other funds are available in the Secretariat;
 - (ii) Data in respect of contributions to UNDP and to its various funds appear as follows:
 - a. Main UNDP programme, exclusive of cost-sharing contributions;
 - b. Contributions to funds administered by UNDP participating in the annual Pledging Conference (i.e., United Nations Capital Development Fund, Revolving Fund for National Resources Exploration, United Nations Special Fund for Land-Locked Developing Countries, United Nations Trust Fund for Sudano-Sahelian Activities, United Nations Financing System for Science and Technology for Development;
 - c. Cost-sharing contributions from developing country Governments in respect of their own projects assisted by UNDP and its funds, together with government cash counterpart contributions in respect of projects;
 - a. Other contributions to UNDP-administered trust funds;
 - (iii) Previous reports included in table A-3 data on contributions for emergency, relief and humanitarian purposes received by United Nations entities not part of the annual pledging conference and data in respect of the UNEP Environment Fund. Such data are now included in table A-2.

4. Historical data for the years 1979-1985 contained in table A-1 reflect the above reorganization of tables A-2 and A-3.

5. The Industrial Development Fund of UNIDO, which has been transferred from the United Nations to the United Nations Industrial Development Organization consequent upon the latter's establishment as a specialized agency, is treated for 1984 and earlier years as part of "United Nations funds and programmes".

6. Good progress has been made with respect to the quality of data on procurement. The amount of data reported as "unspecified" has been greatly reduced; reporting agencies have made significant strides in reconciling data on country of procurement with data on country of origin, a problem noted in the 1984 annual report. However, the procurement data reporting system does not yet fully capture all information on purchases made at the country level by Resident Representatives, agency representatives and project staff. This is an area which is being looked into for improvements.

7. Information on 1984 country procurement by organization is available in the Secretariat.

8. The data contained in tables C-1 and C-2 was collected and analysed by the Inter-agency Procurement Services Unit of UNDP, at the request of the Director-General.

Definitions

9. As in previous reports, data on contributions refer exclusively to contributions received or collected on payments made by Governments and other sources to organizations in the system. Data in respect of other sources of income, for example interest, or in respect of the greeting card operation of UNICEF, are excluded. Data on expenditures and disbursements represent the support provided by organizations to the programmes and projects of developing countries, exclusive of administrative, programme and other support costs. While UNICEF and WFP carry out some activities which are of a humanitarian and emergency character, all data relating to their operations are included under the rubric of operational activities for development. Net disbursements represent gross disbursements less repayment of principal. Net transfers represent net disbursements less interest and other charges.

Sources

10. For information on the sources of data, see paragraph 45 of the first (1981) annual report (A/36/478, annex) and the footnotes to the tables.

11. The data represent final figures for 1985. Any revisions or updating that may later prove necessary will be brought to the attention of the General Assembly in an appropriate manner.

EXPLANATORY NOTES

The expression "United Nations funds and programmes" used in the text refers to the funds and programmes explicitly listed by the General Assembly for participation in the annual United Nations Pledging Conference for Development Activities (see below) and to United Nations trust funds engaged in operational activities managed by, for example, the Department of Technical Co-operation for Development of the United Nations Secretariat and the regional commissions.

The designations employed and the presentation of the material in the present report do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

The term "country" as used in the text of the present report also refers, as appropriate, to territories or areas.

References to dollars (\$) are to United States dollars unless otherwise stated. A full stop is used to indicate decimals. Three dots (...) indicate that data are not available or are not separately reported. Parentheses () indicate a deficit or decrease, except as otherwise indicated. A dash (-) indicates that the amount is nil or negligible or the item is not applicable. A slash (/) indicates financial year, for example, 1970/1971. Use of a hyphen (-) between date representing years, for example, 1971-1973, signifies the full period involved, including the beginning and end years.

Annual rates of growth, unless otherwise stated, refer to annual compound rates.

Details and percentages in tables do not necessarily add to totals, because of rounding.

a/ The major share of such expenditures is financed by W H O . In accordance with resolution 29.48 of the World Health Assembly of May 1976, allocations of the regular programme budget were to reach the level of at least 60 per cent in real terms towards technical co-operation and provision of services to States members of WHO. Data for W H O also include support costs estimated at \$86.7 million for the biennium 1984-85 (see table 1, DP/1986/68).

b/ Main UNDP programme, including expenditures financed from cost-sharing and from cash counterpart contributions.

c/ I.e., from funds not elsewhere specified in the table. Line 6 is not immediately comparable to line 7 in table A-1, in that it includes expenditures financed from United Nations funds and programmes listed in line 5 of table A-1.

d/ Includes a small amount of grants, which in 1984 amounted to \$16.0 million.

e/ On a net transfer basis, i.e., rows 1-7, 8 (c), 9, 10 (c) and 11 (b).

f/ I.e., gross disbursements on "training" and "consultants" embodied in World Bank loans and IDA credits to World Bank borrowers.
