I. Mandate performance

1. The mandate of the United Nations Mission for the Referendum in Western Sahara (MINURSO) was established by Security Council resolution 690 (1991) of 29 April 1991. The mandate for the performance period was provided for in Security Council resolutions 1359 (2001), 1380 (2001), 1394 (2002) and 1406 (2002).
2. The mission is mandated to help the Security Council achieve an overall objective, namely, to enable the people of Western Sahara to choose, freely and democratically, between independence and integration with Morocco.
3. Within this overall objective, the Mission has, during the performance report period, contributed to a number of accomplishments by delivering related key outputs, as shown in the frameworks below.
4. The frameworks represent an improvement in objective setting. The 2001-2002 budget did not include standard frameworks for planned results, which would have been the baseline against which performance would have been measured and reported. Therefore, the Mission performance data for 2001-2002 are presented in a transitional format showing the actual accomplishments and outputs for which information was available, against generic indicators and output types rather than against a baseline.

III. Analysis of variances¹

	<i>Variance</i>
Military observers	\$264.2 5.0%

5. The decreased requirement is due to a reduction in the rate of mission subsistence allowance from \$60 to \$50 per day, effective from April 2002, combined with a slightly lower number of military observers deployed in the Mission area than authorized.

¹ Resource variance amounts are expressed in thousands of United States dollars.

	<i>Variance</i>	
Civilian police	\$1,351.0	67.3%

6. The suspension of the Identification Commission and its activities, which led to a reduction in the number of civilian police monitors in situ from 81 to 26, and the reduction in the mission subsistence allowance mentioned above, explain the savings recorded.

	<i>Variance</i>	
International staff	\$6,175.2	24.9%

7. As a consequence of the suspension of the activities of the Identification Commission, vacant posts in the District Offices, Identification Centres and Registration Offices were not filled.

	<i>Variance</i>	
National staff	\$88.6	7.6%

8. Local level posts were encumbered at lower grades than the grade of G-4, step 1, used for the cost estimates, resulting in savings under national staff.

	<i>Variance</i>	
Government-provided personnel	\$141.9	67.7%

9. Suspension of the Identification Commission and its activities, which led to a 50 per cent reduction in the number of African Union observers, as well as the lower mission subsistence allowance rate mentioned above, explain the savings recorded.

	<i>Variance</i>	
Consultants	\$56.3	85.7%

10. The decrease in requirements resulted from the fact that, owing to the suspension of the Identification Commission, the services of the Independent Jurist were not needed during the reporting period.

	<i>Variance</i>	
Official travel	(\$78.4)	(42.3%)

11. Unbudgeted travel costs for the round of talks in Wyoming with all concerned parties in order to revise the draft framework agreement on the status of Western Sahara, and for the travel of staff to attend information technology and telecommunications training at the United Nations Logistics Base, Brindisi, Italy, led to the additional requirements under this heading.

	<i>Variance</i>	
Facilities and infrastructure	\$447.6	21.7%

12. Suspension of the Identification Commission and its activities and the corresponding reduction in personnel and civilian police monitors resulted in lower requirements for equipment, supplies and services than originally foreseen in the cost estimates.

	<i>Variance</i>	
Ground transportation	\$240.0	8.6%

13. Actual costs of vehicles purchased were less than budgeted, resulting in savings under this budget item.

	<i>Variance</i>	
Air transportation	\$720.3	11.2%

14. Actual number of flying hours were lower than budgeted, resulting in reduced landing fees, ground handling charges and lower fuel consumption than had been estimated.

	<i>Variance</i>	
Communications	\$261.8	30.3%

15. Reduced commercial communication charges due to the suspension of the Identification Commission and its activities and lower requirement for spare parts than originally estimated explain the reduced requirement under communications.

	<i>Variance</i>	
Information technology	\$105.3	21.2%

16. Actual costs of items purchased were less than budgeted, resulting in the reduced requirements under this heading.

	<i>Variance</i>	
Medical	(\$45.1)	(75.2%)

17. Increased requirements under this heading are due to higher than budgeted prices for urgently required supplies provided through letters-of-assist with the Government of Korea.

IV. Actions to be taken by the General Assembly

18. The actions to be taken by the General Assembly in connection with the financing of the United Nations Mission for the Referendum in Western Sahara are:
