The actions to be taken by the General Assembly are set out in section V of the present report.

## I. Introduction

1. The budget for the maintenance of the United Nations Mission for the Referendum in Western Sahara (MINURSO) for the period from 1 July 2003 to 30 June 2004 was set out in the report of the Secretary-General of 20 December 2002 (A/57/675 and Corr.1) and amounted to \$44,239,400 gross (\$40,920,800 net), inclusive of budgeted voluntary contributions in kind of \$1,776,100. It provided for 203 military observers, 27 military contingents, 26 civilian police, 184 international staff, 113 national staff and 6 observers from the African Union. The Advisory Committee on Administrative and Budgetary Questions, in paragraph 30 of its report dated 3 April 2003 (A/57/772/Add.2), recommended that the General Assembly appropriate \$41,529,500 gross for the period from 1 July 2003 to 30 June 2004.

2. The General Assembly, by its resolution 57/331 of 18 June 2003, appropriated an amount of \$41,529,500 gross (\$38,488,500 net) for the maintenance of the Mission for the period from 1 July 2003 to 30 June 2004. The total amount has been assessed on Member States.

## II. Mandate performance

3. The mandate of MINURSO was established by the Security Council in its resolution 690 (1991). The mandate for the performance period was provided by the Council in its resolutions 1485 (2003), 1495 (2003), 1513 (2003), 1523 (2004) and 1541 (2004).

4. The Mission is mandated to help the Security Council achieve an overall objective, namely, to enable the people of Western Sahara to choose, freely and democratically, between independence and integration with Morocco.

5. Within this overall objective, the Mission has, during the performance report period, contributed to a number of accomplishments by delivering related key outputs, shown in the frameworks below. These frameworks are grouped by components: substantive civilian, military and support.

6. The 2003/04 period is the first period for which the Mission was able to assess its performance against the planned results-based frameworks set out in the 2003/04 budget. The performance report compares the actual indicators of achievement, the extent to which actual progress has been made during the period against the expected accomplishments, with the planned indicators of achievement, and compares the actually completed outputs with the planned outputs.

#### IV. Analysis of variances<sup>1</sup>

	<i>Variance</i>	
<b>Military observers</b>	(\$5.9)	(0.1%)

7. Additional requirements were due to air fare increases resulting in higher cost of travel of military observers.

	<i>Variance</i>	
<b>Military contingents</b>	(\$96.4)	(14.3%)

8. Additional requirements resulted from the obligation of funds for troop cost reimbursement owed for fiscal year 2001/02, since insufficient funds had been obligated for that period.

	<i>Variance</i>	
<b>Civilian police</b>	\$324.6	54.5%

9. The unutilized balance resulted from the closure of the civilian police component in December 2003. All civilian police were repatriated to their respective countries by 31 December 2003, following the transfer of the Identification Commission files and materials to the United Nations Office at Geneva.

	<i>Variance</i>	
<b>International staff</b>	\$2,620.1	14.1%

10. The unutilized balance was attributable to the completion of the work of the Identification Commission staff on 31 December 2003. The 25 related posts had been budgeted for 12 months.

	<i>Variance</i>	
<b>National staff</b>	\$198.8	11.2%

11. The unutilized balance was due mainly to the fact that the salaries were budgeted at G-4/1, whereas the actual staff salaries were close to the G-3/1 scale.

	<i>Variance</i>	
<b>Government-provided personnel</b>	\$79.6	66.3%

12. The unutilized balance was due mainly to the delay in the replacement of African Union observers.

<sup>1</sup> Resource variance amounts are expressed in thousands of United States dollars.

	<i>Variance</i>	
<b>Consultants</b>	(\$0.5)	(5.1%)

13. Additional requirements were attributable to the hiring of a consultant for the people's management training course, held in May 2003, funds for which had inadvertently not been obligated in the prior period.

	<i>Variance</i>	
<b>Official travel</b>	\$24.4	7%

14. The unutilized balance was due mainly to the standstill political situation in the region which resulted in lower than expected official travel by the Special Representative of the Secretary-General.

	<i>Variance</i>	
<b>Facilities and infrastructure</b>	\$128.4	5.6%

15. The unutilized balance resulted primarily from a newly negotiated systems contract which led to the lower than budgeted cost of prefabricated facilities.

	<i>Variance</i>	
<b>Ground transportation</b>	\$341.5	9.0%

16. The unutilized balance was attributable mainly to the transfer of vehicles from the United Nations Iraq-Kuwait Observation Mission, resulting in reduced requirements under acquisition of vehicles.

	<i>Variance</i>	
<b>Air transportation</b>	(\$920.3)	(16.7%)

17. The additional requirements were due mainly to the rental cost of three MI-8MTV helicopters which replaced three MI-8MT helicopters for operational and safety reasons, as MI-8MTV helicopters are more appropriate for desert conditions.

	<i>Variance</i>	
<b>Communications</b>	(\$151.2)	(22.4%)

18. The additional requirements resulted primarily from the increase in the number of satellite Earth stations from 4 to 11. These seven additional stations, provided mainly from United Nations reserve, led to the extension of full information and communication technology services to remote team sites, resulting in overexpenditure under commercial communications.

	<i>Variance</i>	
<b>Information technology</b>	\$38.6	5.0%

19. The unutilized balance was due mainly to the completion of the work of the Identification Commission, resulting in reduced costs for information technology services.

	<i>Variance</i>	
<b>Medical</b>	(\$2.8)	(3.2%)

20. The additional requirements were attributable to the provision of specialized medical consultation services obtained from private providers.

	<i>Variance</i>	
<b>Special equipment</b>	\$4.2	28.2%

21. The unutilized balance was due to reduced requirements for metal detectors, as they were provided by the United Nations Logistics Base. The Mission had to pay the freight cost only.

	<i>Variance</i>	
<b>Other supplies, services and equipment</b>	\$95.6	11.0%

22. The unutilized balance was due mainly to the completion of the work of the Identification Commission, which resulted in reduced requirements for rations.

## V. Actions to be taken by the General Assembly

23. The actions to be taken by the General Assembly in connection with the financing of MINURSO are:

(a) To decide on the treatment of the unencumbered balance of \$2,678,700 with respect to the period from 1 July 2003 to 30 June 2004;
