Cameroon*

[Original: French]

Article 17: Entry into force

Insert the word “twentieth” in the square brackets, thereby bringing the draft Protocol into line with the revised draft Protocol against the Smuggling of Migrants by Land, Air and Sea, supplementing the United Nations Convention against Transnational Organized Crime, which contains the same provision.

China**

[Original: English]

Article 4: Assistance for and protection of victims of trafficking in persons

Paragraph 6

1. Paragraph 6 should read as follows:

“6. States Parties shall ensure international cooperation to assist women and children [persons], especially from developing countries, in their repatriation and reintegration, in particular by providing financial aid.”

New article 10 bis

2. After article 10, add a new article to read as follows:

“*Article 10 bis*
“*Measures to eliminate trafficking in women*
and children [persons]”

“1. States Parties shall, through bilateral and multilateral cooperation, take such measures as they deem effective to eliminate the consumer market that nurtures transnational trafficking in women and children [persons, especially women and children].

“2. States Parties shall ensure the strengthening of international cooperation to eliminate the root causes of the vulnerability of women and children [persons, especially women and children,] to such trafficking, such as poverty and underdevelopment.”

Article 5: Status of the victim in the receiving State*Paragraph 2*

1. The following wording is suggested for paragraph 2:

“2. Each State Party shall give appropriate consideration to humanitarian and support factors in determining the status of migrant of such a victim in its territory when it is the receiving State.”

2. In the above text, the word “compassionate” has been replaced with the word “support”, since the latter term would be more appropriate bearing in mind that the notion of support would be consistent with the victim assistance and protection measures adopted under the Protocol, such as those in articles 4 and 7. Also, the proposed text stipulates that the status of the victim is that of migrant and not any other status, thus preventing the victim from being liable to any form of punishment by reason of international trafficking.

Article 5 bis: Seizure and confiscation of gains

3. The following wording is suggested:

“States Parties shall take all necessary and appropriate measures to allow the seizure and confiscation of property, instrumentalities and profits derived from the offences described in this Protocol, in conformity with individual guarantees enshrined in their domestic legislation. The proceeds from confiscation shall be used to defray the costs of providing due assistance to the victim.”

4. In the suggested wording, the phrase “where deemed appropriate by States Parties and as agreed by them” has been deleted. This is because agreements between States Parties would relate only to cooperation measures for the detection of offences or the confiscation of property, which would not follow from the proposed text.

5. It is felt that the article should refer expressly to confiscation of property and instrumentalities that is achieved through cooperation between States and to the possibility of sharing such proceeds.

Holy See**

as well as for the protection of their family members by fostering cooperation with the countries where the family members reside.”

Paragraph 6

2. Add an additional subparagraph to read:

“(…) Conversion of counterfeited proceeds and instruments of trafficking into educational and social programmes in favour of victims.”

3. Add the following additional paragraphs after paragraph 6:

“(…) Each State shall ensure the benefits provided for by the Convention to victims of crime, independently of their ability to furnish relevant elements to the judicial inquiry;

“(…) Each State Party shall consider implementing measures, in cooperation with non-governmental organizations and local communities, to provide for the physical, psychological and social recovery and, when requested, spiritual assistance of victims of and witnesses to crimes covered by this Protocol, in order to foster their health, self-respect and dignity, as well as their education and employment opportunities, in a manner appropriate to their age, gender and special needs;

“(…) Each State Party shall endeavour to provide assistance to children removed from forced labour and to reintegrate them into social life, by ensuring to them free primary education and informal education and by supporting their families;

“(…) Each State Party shall endeavour to develop, in cooperation with countries of origin or habitual residence of victims, programmes for the social reinsertion of victims in order to prepare them for return or to assist them once they have returned to their country of origin;

“(…) Each State Party shall consider promoting training programmes for public and voluntary agents working for the rehabilitation of victims of trafficking.”

Article 5: Status of the victim in the receiving State

Paragraph 1

4. Add the words “and to have access to education and employment” after the words “to remain in their territories”.

Article 6: Repatriation of victims of trafficking in persons

Paragraph 4

5. Add the words “after the end of judicial procedures against traffickers, unless the return would involve danger to the life of the victim,” after the words “without proper documentation”.

“(d) A change of identity, where necessary, if the threat is extremely serious.

“3. States Parties are encouraged to develop bilateral and multilateral agreements aimed at protecting trafficked persons and their families in countries of origin, transit and destination.
