I. Introduction

1. This note sets out the technical cooperation and assistance activities of the Secretariat subsequent to the date of the previous note submitted to the Commission at its fiftieth session (Vienna, 3–21 July 2017),¹ including those carried out in the region covered by the UNCITRAL Regional Centre for Asia and the Pacific (RCAP) but not initiated by RCAP. Activities initiated and undertaken in the Asia-Pacific region by the UNCITRAL Regional Centre for Asia and the Pacific are set out in a separate document.²

2. A separate document on coordination activities³ provides information on current activities of international organizations related to the harmonization and unification of international trade law and on the role of UNCITRAL in coordinating those activities.

II. Technical cooperation and assistance activities

A. General approaches

3. Technical cooperation and assistance activities undertaken by the Secretariat aim at promoting the adoption and uniform interpretation of UNCITRAL legislative texts. Such activities include providing advice to States considering signature, ratification or accession to an UNCITRAL convention, adoption of an UNCITRAL model law or use of an UNCITRAL legislative guide.

4. Technical cooperation and assistance may involve: undertaking briefing missions and participating in seminars and conferences, organized at both regional and national levels; assisting countries in assessing their trade law reform needs, including by reviewing existing legislation; assisting with the drafting of domestic legislation to implement UNCITRAL texts; assisting multilateral and bilateral development agencies to use UNCITRAL texts in their law reform activities and projects; providing advice and assistance to international and other organizations, such as professional associations, organizations of attorneys, chambers of commerce and arbitration centres, on the use of UNCITRAL texts; and organizing training activities to facilitate the implementation and interpretation of legislation based on UNCITRAL texts by judges and legal practitioners.

5. Some of the key activities undertaken by the Secretariat in the relevant time period are described below. In the experience of the Secretariat, the demand for technical assistance is greater in those areas in which there is a high rate of adoption of UNCITRAL texts (in particular, dispute settlement and electronic commerce). It should be noted that due to lack of resources and time constraints, some of the activities were undertaken by experts on behalf of the Secretariat. Activities denoted with an asterisk were funded by the UNCITRAL Trust Fund for Symposia.

Promotion of the universal adoption of fundamental trade law instruments

6. The Secretariat has continued to engage in promoting the adoption of fundamental trade law instruments, i.e., those treaties that are already enjoying wide adoption and the universal participation in which would seem particularly desirable.

7. The Secretariat has jointly organized, participated in, or contributed to the following events which dealt with a number of areas to which UNCITRAL's work relates:

(a) International symposium "Soft law and international trade law" (Montreal, Canada, 11–12 May 2017);

¹ A/CN.9/905 of 18 April 2017.

² A/CN.9/947 of 10 April 2018.

³ A/CN.9/948 of 2 April 2018.

(b) Hong Kong International Arbitration Centre Conference “The Belt and Road: A Catalyst for Connectivity, Convergence and Collaboration” (Hong Kong, China, 12 May 2017);

(c) Remote participation at the 20th Global Meeting of the Inter-Agency Cluster on Trade and Productive Capacity (Vienna, 17 November 2017).

Initiatives for a regional approach

8. The Secretariat continued its collaboration with the Asia-Pacific Economic Cooperation (APEC) and was granted a three-year guest status at its Economic Committee (EC) from 2017. During the reporting period, the Secretariat participated in meetings of the Economic Committee, Friends of the Chair Group on Strengthening Economic and Legal Infrastructure (SELI), Investment Experts Group (IEG) as well as three workshops organized under the auspices of the APEC Economic Committee and SELI:

(a) Workshop on Starting a Business: Simplified Business Registration and Incorporation according to International Best Practices (Ho Chi Minh City, Viet Nam, 24 August 2017);

(b) Workshop on the Use of Modern Technology for Dispute Resolution and Electronic Agreement Management (particularly Online Dispute Resolution) (Port Moresby, 3–4 March 2018);

(c) Workshop on Secured Transactions: Best Practices for Dynamic Business Growth (Mexico City, 21–22 March 2018).

9. The Secretariat’s participation in the APEC meetings mentioned above was made possible through support from US-ATTARI and the Department of Justice, Hong Kong, China and the APEC Secretariat.

10. The Secretariat also continued its participation in the APEC Ease of Doing Business (EoDB) project on enforcing contracts and getting credit, which aims at strengthening the legislative and institutional framework in APEC economies. In that context, UNCITRAL participated in the EoDB project for improving the getting credit environment in the Republic of Korea (Sydney, Australia, 26–30 June 2017 and Toronto, Canada, 18–20 October 2017); the EoDB project for improving the enforcing contract environment in Viet Nam (Hanoi, 26–30 June 2017); and the wrap-up International Conference on EoDB (Seoul, 22 November 2017). The Secretariat’s participation in the EoDB project was made possible through voluntary contributions from the Government of the Republic of Korea.

11. It is expected that the Secretariat will continue to cooperate closely with China, including Hong Kong Special Administrative Region, Mexico, the Republic of Korea and the United States of America in implementing the second APEC EoDB Action Plan (2016–2018).

12. Further, the Secretariat continued to be a partner in the project implemented by the *Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH* by appointment of the German Federal Ministry for Economic Cooperation and Development (BMZ) within the Open Regional Fund — Legal Reform. This project entitled “International Dispute Resolution Instruments”, comprises two main support pillars. The first of these aims to ensure that South-Eastern Europe as a region becomes more involved in the international discussion regarding dispute resolution and participate in the work of UNCITRAL, e.g. in the work of its Workings Groups II and III. The second area of work aims at promoting the use of the UNCITRAL Transparency Standards.

B. Specific activities

The Secretariat has continued cooperation with other international organizations active in public procurement reform to support the use of the UNCITRAL Model Law on Public Procurement (2011) (the “Procurement Model Law”),¹² its accompanying Guide to Enactment (2012),¹³ and the UNCITRAL texts on Privately-Financed Infrastructure Projects.¹⁴

24. The aims of such cooperation are to ensure that reforming Governments and organizations are informed of the terms of and the policy considerations underlying those texts, including as regards regional requirements and circumstances, so as to promote a thorough understanding and appropriate use of these UNCITRAL texts.¹⁵ The Secretariat is following a regional approach to this cooperation, engaging with the multilateral development banks and regional organizations, addressing the role of public procurement in sustainable development, trade facilitation, good governance and the avoidance of corruption and achieving value for money in government expenditure.

Sale of goods

28. The Secretariat has continued to promote broader adoption, use and uniform interpretation of the United Nations Convention on Contracts for the International Sale of Goods (Vienna, 1980) (“CISG”),¹⁶ and of the Convention on the Limitation Period in the International Sale of Goods (New York, 1974), as amended (Vienna, 1980).¹⁷

29. It is in particular noteworthy the remote participation of the Secretariat in events on CISG at the Economic Commission of the Congress of Guatemala (Guatemala City, 28 June 2017).

¹⁶ United Nations, *Treaty Series*, vol. 1489, No. 25567.

¹⁷ United Nations, *Treaty Series*, vol. 1511, No. 26121.

Security interests

30. UNCITRAL has produced a number of complementary texts in the area of secured transactions: the United Nations Convention on the Assignment of Receivables in International Trade (2001),¹⁸ the UNCITRAL Legislative Guide on Secured Transactions (2007),¹⁹ its Supplement on Security Rights in Intellectual Property (2010), the UNCITRAL Guide on the Implementation of a Security Rights Registry (2013)²⁰ and the UNCITRAL Model Law on Secured Transactions (2016).²¹

31. The Secretariat is continuing its cooperation with the World Bank to support law reforms based on UNCITRAL texts on security interests.

Transport Law

32. The Secretariat has participated in a roundtable of key stakeholders to discuss advantages of ratification of the Rotterdam Rules (Singapore, 27 November 2017).

III. Dissemination of information

33. A number of publications and documents prepared by UNCITRAL serve as key resources for its technical cooperation and assistance activities, particularly with respect to dissemination of information on its work and texts.

A. Website

34. The UNCITRAL website, available in the six official languages of the United Nations, provides access to full-text UNCITRAL documentation and other materials relating to the work of UNCITRAL, such as publications, treaty status information, press releases, events and news. In line with the organizational policy for document distribution, official documents are provided, when available, via linking to the United Nations Official Document System (ODS).

35. In 2017, the website received over 1,000,000 unique visitors, an increase from 2016 (800,000 unique visitors). Of all sessions, roughly 63 per cent were directed to pages in English and 37 per cent to pages in Arabic, Chinese, French, Russian and Spanish. In this respect, it should be noted that, while the UNCITRAL website is among the most important electronic sources of information on international trade law in all languages, it may represent one of few available sources on this topic in some of the official languages.

36. The content of the website is updated and expanded on an ongoing basis in the framework of the activities of the UNCITRAL Law Library and therefore at no additional cost to the Secretariat. The General Assembly has welcomed “the continuous efforts of the Commission to maintain and improve its website, including by developing new social media features, in accordance with the applicable guidelines.”²² In this regard, in September 2015, a general UNCITRAL LinkedIn account was established that now has over 3,600 followers, an increase from 1,900 in the last year. This account supplements the Tumblr microblog (“What’s new at UNCITRAL?”) established in 2014. Both features are accessible from the UNCITRAL website.

B. Library

37. Since its establishment in 1979, the UNCITRAL Law Library has been serving the research needs of Secretariat staff and participants in intergovernmental meetings convened by UNCITRAL. It has also provided research assistance to staff of Permanent Missions, global staff of the United Nations, staff of other Vienna-based international organizations, external researchers and law students. In 2017, library staff responded to approximately 480 reference requests, originating from over 45 countries. Library visitors other than meeting participants, staff and interns included researchers from over 24 countries.

38. The collection of the UNCITRAL Law Library focuses primarily on international trade law and currently holds over 12,000 monographs, 100 active journal titles, legal and general reference material, including non-UNCITRAL United Nations documents, documents of other international organizations and electronic resources (restricted to in-house use only). Particular attention is given to expanding the holdings in all of the six United Nations official languages. While use of electronic resources has increased, resources on trade law from many countries are still only found in print, and circulation of print items has remained steady.

39. The UNCITRAL Law Library maintains an online public access catalogue (OPAC) jointly with the other United Nations libraries in Vienna. OPAC is available via the library page of the UNCITRAL website.²³

40. The UNCITRAL Law Library staff prepare for the Commission an annual “Bibliography of recent writings related to the work of UNCITRAL”. The bibliography includes references to books, articles and dissertations in a variety of languages, classified according to subject.²⁴ Individual records of the bibliography are entered into OPAC, and the full-text collection of all cited materials is maintained in the Library collection. Monthly updates from the date of the latest annual bibliography are available in the bibliography section of the UNCITRAL website.

41. The Library produces a consolidated bibliography of writings related to the work of UNCITRAL on the UNCITRAL website.²⁵ The consolidated bibliography aims to compile all entries of the bibliographical reports submitted to the Commission since 1968. It currently contains over 9,970 entries, reproduced in English and in the original language versions, verified and standardized to the extent possible.

C. Publications

42. In addition to official documents, UNCITRAL traditionally maintains two series of publications, namely the texts of all instruments developed by the Commission and the UNCITRAL Yearbook. Publications are regularly provided in support of technical cooperation and assistance activities undertaken by the Secretariat, as well as by other organizations where the work of UNCITRAL is discussed, and in the context of national law reform efforts.

43. The publications appeared in 2017: UNCITRAL Technical Notes on Online Dispute Resolution,²⁶ UNCITRAL Model Law on Electronic Transferable Records (2017),²⁷ Modernizing International Trade Law to Support Innovation and Sustainable Development: Proceedings of the Congress of the United Nations Commission on International Trade Law, Vienna, 4–6 July 2017 (vol. 4: Papers Presented at the Congress)²⁸ and UNCITRAL Model Law on Secured

Transactions: Guide to enactment.²⁹ The 2014 UNCITRAL *Yearbook* was submitted for publication in 2017 and the 2015 *Yearbook* will be submitted in April 2018.

44. In light of budget and environmental concerns, the Secretariat has continued its efforts to use electronic media as a primary method to disseminate UNCITRAL texts. Thus, print runs for all publications have been reduced and the 2013 UNCITRAL *Yearbook* was published exclusively in electronic format (CD-ROM and e-book).

D. Press releases

45. Press releases are being regularly issued when treaty actions relating to UNCITRAL texts take place or information is received on the adoption of an UNCITRAL model law or other relevant text. Press releases are also issued with respect to information of particular importance and direct relevance to UNCITRAL. Those press releases are provided to interested parties by email and are posted on the UNCITRAL website, as well as on the website of the United Nations Information Service (UNIS) in Vienna or of the Department of Public Information, News and Media Division in New York, if applicable.

46. To improve the accuracy and timeliness of information received with respect to the adoption of UNCITRAL model laws, since such adoption does not require a formal action with the United Nations Secretariat, and to facilitate the dissemination of related information, the Commission may wish to request Member States to advise the Secretariat when enacting legislation implementing an UNCITRAL model law.

E. General enquiries

47. The Secretariat currently addresses approximately 2,000 general enquiries per year concerning, inter alia, technical aspects and availability of UNCITRAL texts, working papers, Commission documents and related matters. Increasingly, these enquiries are answered by reference to the UNCITRAL website.

F. Information lectures in Vienna

48. Upon request, the Secretariat provides information lectures in-house on the work of UNCITRAL to visiting university students and academics, members of the bar and Government officials, including judges. Since the last report, the Secretariat offered 14 lectures to visitors from Austria, France, Germany, Hungary, the Netherlands, Poland, Turkey and the United Kingdom.

IV. Resources and funding

49. The costs of most technical cooperation and assistance activities are not covered by the regular budget. The ability of the Secretariat to implement the technical cooperation and assistance component of the UNCITRAL work programme is therefore contingent upon the availability of extrabudgetary funding.

50. The Secretariat has explored a variety of ways to increase resources for technical assistance activities, including through in-kind contributions. In particular, a number of missions have been funded, in full or in part, by the organizers. Additional potential sources of funding could be available if trade law reform activities could be mainstreamed more regularly in broader international development assistance programmes. In this respect, the Commission may wish to provide guidance on possible future steps.

²⁹ Available from www.uncitral.org/uncitral/en/publications/publications.html.

A. UNCITRAL Trust Fund for symposia

51. The UNCITRAL Trust Fund for symposia supports technical cooperation and assistance activities for the members of the legal community in developing countries, funding the participation of UNCITRAL staff or other experts at seminars where UNCITRAL texts are presented for examination and possible adoption and fact-finding missions for law reform assessments in order to review existing domestic legislation and assess country needs for law reform in the commercial field.

52. For 2017, the released budget amounted to US\$ 100,005.00 and the total expenditure was US\$ 50,036.14. During the period, the Government of the Republic of Korea made a contribution of US\$ 23,211.77 for the participation of the UNCITRAL Secretariat in the APEC EoDB project (see para. 11).

53. At its 49th Session (New York, 27 June–15 July 2016), the Commission appealed to all States, international organizations and other interested entities to consider making contributions to the Trust Fund for UNCITRAL symposia, if possible, in the form of multi-year contributions, or as specific-purpose contributions, so as to facilitate planning and enable the Secretariat to meet the increasing requests from developing countries and countries with economies in transition for training and technical legislative assistance ([A/71/17](#), paras. 249–251). Potential donors have also been approached on an individual basis.

54. The Commission may wish to note that, in spite of efforts by the Secretariat to solicit new donations, funds available in the Trust Fund are sufficient only for a very small number of future technical cooperation and assistance activities. Efforts to organize the requested activities at the lowest cost and with co-funding and cost sharing whenever possible are ongoing. However, once current funds are exhausted, requests for technical cooperation and assistance involving the expenditure of funds for travel or to meet other costs will have to be declined unless new donations to the Trust Fund are received or alternative sources of funds can be found.

55. The Commission may once again wish to appeal to all States, relevant United Nations Agencies and bodies, international organizations and other interested entities to make contributions to the Trust Fund, if possible in the form of multi-year contributions, so as to facilitate planning and to enable the Secretariat to meet the demand for technical cooperation and assistance activities and to develop a more sustainable technical assistance programme. The Commission may also wish to request Member States to assist the Secretariat in identifying sources of funding within their Governments.

B. UNCITRAL Trust Fund to grant travel assistance to developing countries that are members of UNCITRAL

56. The Commission may wish to recall that, in accordance with General Assembly resolution [48/32](#) of 9 December 1993, the Secretary-General was requested to establish a Trust Fund to grant travel assistance to developing countries that are members of UNCITRAL. The Trust Fund so established is open to voluntary financial contributions from States, intergovernmental organizations, regional economic integration organizations, national institutions and non-governmental organizations, as well as to natural and juridical persons.

57. During the same reporting period, the available Trust Fund resources were used to facilitate participation at the 50th session of UNCITRAL in Vienna (3–21 July 2017) for one delegate from Honduras. Owing to the limited resources, only partial assistance could be provided.

58. Resources have been made available by the European Union and the Swiss Agency for Development and Cooperation (SDC) to provide financial support for the participation of developing countries at UNCITRAL Working Group III “Investor-State Dispute Settlement reform” which have been used to facilitate participation at

the 35th session of Working Group III in New York (23–27 April 2018) for delegates from El Salvador and Sri Lanka, as the agreement between the United Nations and the European Union also covers the funding of travel to States that are not currently members of UNCITRAL.

59. In order to ensure participation of all Member States in the sessions of UNCITRAL and its Working Groups, the Commission may wish to reiterate its appeal to relevant bodies in the United Nations system, organizations, institutions and individuals to make voluntary contributions to the Trust Fund established to provide travel assistance to developing countries that are members of the Commission.

60. It is recalled that in its resolution [51/161](#) of 16 December 1996, the General Assembly decided to include the Trust Funds for UNCITRAL symposia and travel assistance in the list of funds and programmes that are dealt with at the United Nations Pledging Conference for Development Activities.
