Security Council Committee established pursuant to resolution 1540 (2004)

Note verbale dated 17 January 2006 from the Permanent Mission of Mexico to the United Nations addressed to the Chairman of the Committee

The Permanent Mission of Mexico to the United Nations presents its compliments to the Chairman of the Security Council Committee established pursuant to resolution 1540 (2004) and has the honour to refer to the note of 15 November 2005 concerning the matrix that summarizes and expands upon the information provided by the Government of Mexico.

The Permanent Mission of Mexico is pleased to submit a printed and updated version of the said matrix, together with a diskette containing the relevant national legislation (see annex).*

* The text of laws and regulations is on file with the Secretariat and is available for consultation.

**Annex to the note verbale dated 17 January 2006 from the
Permanent Mission of Mexico to the United Nations addressed
to the Chairman of the Committee**

The Permanent Mission of Mexico to the United Nations presents its compliments to the Chairman of the Security Council Committee established pursuant to resolution 1540 (2004) and, with reference to his note S/AC.44/2005/DDA/OC.84 of 28 September 2005, has the honour to enclose herewith Mexico's second report, which responds to the questions posed in the aforementioned communication concerning the initial report, which was submitted and issued as document S/AC.44/2004/(02)/87 of 20 December 2004.

The second report has been prepared using the matrix provided by the Committee and it includes information from the Government of Mexico which supports and, where appropriate, complements that provided in the initial report. In order to provide more detailed information, the texts of the following domestic laws are attached as annexes: the Federal Penal Code; the Customs Act; the General Health Act; the Act establishing the Federal Preventive Police; the Federal Organized Crime Act; the Regulations Act relating to article 27 of the Constitution, on nuclear issues; and the General Rules on Radiological Safety.

The Government of Mexico has set up an inter-ministerial body on international disarmament, terrorism and security, composed of the competent departments of the Federal Government, which is working to implement the commitments made by Mexico in respect of nuclear issues, chemical, biological and conventional weapons and international terrorism. That body, which is responsible for preparing reports for submission to the 1540 Committee, is currently evaluating the implementation status of all relevant international commitments, with a view to presenting proposals for the adoption of the necessary national measures.

To that end, a draft Federal law on the control of chemicals liable to be diverted for the production of chemical weapons, which enforces the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, is currently being presented to the Congress of the Union. Similarly, a proposal to amend the Federal Penal Code in order to include explicit mention of "toxic substances, chemical, biological or similar agents, radioactive material or instruments that emit radiation" has been approved by the Senate and is currently under consideration by the Chamber of Deputies.

The Government of Mexico reaffirms its commitment to the full implementation of the provisions of resolution 1540 (2004) and, since this is a long-term project, will keep the 1540 Committee apprised of any relevant developments.

OP 1 and related matters from OP 5, OP 6, OP 8 (a), (b), (c) and OP 10

State:

Mexico

Date of report:

19 December 2005

Did you make one of the following statements or is your country a State Party to or Member State of one of the following Conventions, Treaties and Arrangements?		YES	If YES, indicate relevant information (i.e. signing, accession, ratification, entering into force, etc.)	Remarks (information refers to the page of the English version of the report or an official website)
1	General statement on non-possession of WMD	X	Mexico does not produce weapons of mass destruction	See information provided in the initial report, including paragraph 1 of document S/AC.44/2004/(02)/87 of 20 December 2004
2	General statement on commitment to disarmament and non-proliferation	X	Mexico has made statements in support of general and complete disarmament in all the relevant forums, including the United Nations General Assembly, the Conference on Disarmament and the Disarmament Commission. It has reiterated that position when depositing ratifications of disarmament treaties to which Mexico is party	
3	General statement on non-provision of WMD and related materials to non-State actors	X	Mexico does not provide any form of support to non-State actors	See information provided in the initial report. Page 2 of the report
4	Biological Weapons Convention (BWC)	X	Ratified on 8 April 1974	See information provided in the initial report. Page 6 of the report

15	Regulations for genetic engineering work	X	No			Idem.
16	Other legislation/regulations related to safety and security of biological materials					

The Government of Mexico has established the Inter-Ministerial Commission for Controlling the Processing and Use of Pesticides and Toxic Substances (CICOPLAFEST) in order to coordinate efforts to optimize activities relating to the regulation and control of chemical risks, thereby simplifying regulatory procedures and management. The Commission is composed of the Ministry of Economic Affairs, the Ministry of Agriculture, Livestock, Rural Development, Fisheries and Food and the Ministry of the Environment and Natural Resources

The establishment of CICOPLAFEST represents a significant step forward in the area of inter-institutional coordination. In accordance with its given responsibilities, the Commission will take joint decisions on chemical-related issues. Its strategies make provision for the
