Pursuant to Commission resolution 51/4, intersessional meetings should be held during the second half of 2008 to prepare recommendations for the decisions to be adopted by the Commission at its fifty-second session, in 2009. The intersessional meetings should take into account, inter alia, the conclusions of the working groups in order to provide material on which to base the drafting of the outcome for the high-level segment of the fifty-second session of the Commission.

In that resolution, it was also decided that a political declaration and, as appropriate, other declarations and measures to enhance international cooperation should be considered and adopted at the high-level segment, identifying, on the basis of the results of the review process, future priorities and areas requiring further action, as well as goals and targets to be set in countering the world drug problem beyond 2009.

**7. Adoption of the report of the working group**

It is expected that the working group will adopt its report, containing conclusions, on the last day of the meeting.
