V. Proposed staffing and related costs . . . . .	26
VI. Proposed vehicle establishment . . . . .	27

## I. INTRODUCTION

1. By resolution 717 (1991) of 16 October 1991, the Security Council decided to establish, under its authority, a United Nations Advance Mission in Cambodia (UNAMIC) immediately after the signing of the agreements for a comprehensive political settlement and in accordance with the report of the Secretary-General dated 30 September 1991. **1/** The agreements were signed in Paris on 23 October 1991 and were reproduced in the annex to a document dated 30 October 1991. **2/**

2. By resolution **46/198** of 20 December 1991, the General Assembly appropriated an amount of **\$14,319,200** gross (**\$13,967,300** net) for the operation of UNAMIC for the period from 1 November 1991 to 30 April 1992. In addition, the Assembly **authorized** the Secretary-General to enter into commitments for **UNAMIC** at a rate not to exceed **\$2,070,000** gross (**\$2,000,000 net**) per month for the period beyond 30 April 1992 should the Security Council decide to continue the operation of **UNAMIC**, the said amounts to be appropriated among Member States in accordance with the scheme set out in the resolution.

3. The Secretary-General, in a report to the Security Council dated 30 December 1991, **3/** informed the Council that following the adoption of the Paris Agreements and the entry into force of a formal cease-fire in Cambodia, there was a growing sense in the international community of the need to undertake, on an urgent basis, a major de-mining effort in Cambodia. It was suggested also that such an effort should begin before the establishment of the United Nations Transitional Authority in Cambodia (UNTAC), so as to take advantage of the present dry season and to **prepare** the ground for the safe and orderly repatriation of Cambodian refugees and displaced persons under United Nations auspices. Accordingly, the Secretary-General recommended to the Council that the mandate of UNAMIC! be expanded to include training in mine clearance and the initiation of a de-mining programme. In an addendum to his report, **4/** the Secretary-General further recommended that the additional cost relating to the proposed mandate expansion should be considered an expense of the Organisation to be borne by Member States in accordance with Article 17, paragraph 2, of the Charter of the United Nations and that the assessments to be levied on Member States should be credited to the UNAMIC Special Account.

4. By its resolution 728 of 8 January 1992, the Security Council approved the report of the Secretary-General, especially the provision of assistance in mine clearing by Cambodians. The present report relates to the additional requirements of UNAMIC in respect of its expanded responsibilities for the period from 15 January to 30 April 1992.

## II. INITIAL MEASURES AUTHORIZING COMMITMENTS

5. In **order** to act as **soon** as possible on the Security Council's decision to expand the responsibilities of UNAMIC, the Chairman of the Advisory Committee on Administrative and Budgetary Questions informed the Secretary-General, by letter dated 3 February 1992, that the Committee had concurred with his proposals to enter into commitments for UNAMIC not to exceed \$10 million, under the provisions of General Assembly resolution **46/187** of 20 December 1991 relating to unforeseen and extraordinary expenses. The resources so **authorized** enable the emplacement of additional personnel and equipment in UNAMIC, pending the decision of the General Assembly to appropriate additional funds relating to the expanded operation of the mission.

## III. ESTIMATED REQUIREMENTS

6. The total cost **for** the expansion of UNAMIC for the 3 1/2-month period from 15 January to 30 April 1992 has been estimated at **\$22,893,000** gross (**\$22,813,000** net) and is presented in annex I, column 2, to the present report with supplementary **information** thereon in annex II. The above amount includes the commitment authority of \$10 million referred to in paragraph 5 above. Annex I, column 3, provides the total combined estimated resources required by UNAMIC from 1 November 1991 to 30 April 1992 including the apportionment of the amount already appropriated (column 1) in resolution **46/198**. Annex III, column 2, sets out the **cost** estimate for the expanded UNAMIC operation beginning 1 May 1992, should the advance mission be continued. The estimate provides for the maintenance of the level of activity at the end of April 1992 and is based on the assumptions and costing parameters used in preparing the present and prior cost estimates, after adjusting for non-recurrent start-up **costs**. It is estimated that the cost of maintaining UNAMIC for the six months beyond 30 April 1992 would amount to **\$38,874,000** gross (**\$38,139,000** net), which is equivalent to a monthly rate of **\$6,479,000** gross (**\$6,356,500** net). Annex IV provides the consolidated staffing table of UNAMIC and identifies separately the additional staffing requirements resulting from the expanded mandate.

### Operational Plan

7. As indicated in the report of the Secretary-General, **3/** in order for UNAMIC to undertake the mine training and de-mining tasks, it will **need**:

(a) A planning and liaison unit at its headquarters in Phnom **Penh** consisting of 40 military personnel. This unit would liaise with the National Mine Clearance Commission recently established by the Supreme National Council of Cambodia, as well as with the United Nations High Commissioner for Refugees, other international organizations, Governments and non-governmental organisations concerned, in order to gather all available information on land mines in Cambodia and facilitate the marking of all known minefields as a matter of **urgency**. The unit would develop a training programme for Cambodians

**in the fields** of mine-detection and mine-clearance. It would also elaborate plans for de-mining activities, determine the priorities for their execution and allocate the work to be undertaken by de-mining **units**;

(b) A field **engineer** battalion with a total strength of 700 military personnel is required, to initiate the mine-clearing of repatriation routes, reception centres and resettlement areas, and to carry out emergency repair and rehabilitation work of roads and bridges which have been cleared of mines. First priority will be given to those roads that are to be used by the first group of **returnees**;

(c) Expert training teams with a total strength of **200** military personnel to train Cambodian military personnel, **who** would be made available by the four Cambodian parties, **and participate** under the supervision of UNAMIC in the mine-clearing of repatriation routes, reception centres and resettlement areas)

(d) Logistic support personnel consisting of 150 military personnel to provide the **second** line transport and fuel requirements of the engineer unit and the mine-clearing training teams and to **provide** the necessary communication support.

**8.** In addition, 34 civilian (24 international and 10 local) staff will be required to **provide** additional administrative, transport, communication, procurement, security and interpretation support to UNAMIC. There will also be additional requirements for premises/accommodation, transport, air support, communication, miscellaneous equipment and miscellaneous supplies and services.

#### IV. VOLUNTARY CONTRIBUTIONS

**9.** Details **of** voluntary contributions to UNAMIC! were initially reported in document A/46/723 of 3 December 1991. Additionally, the Government of Thailand has offered to provide two forklift trucks **as a** voluntary contribution. Moreover, the Government **of** France has offered to provide part of the additional **air** support requirements for UNAMIC, the details of which are currently under negotiation. The Secretary-General hereby **appeals** once again to all Member States to consider making available voluntary contributions in cash and in **kind** in support of the continuing operation of UNAMIC.

#### V. ACTION TO BE TAKEN BY THE GENERAL ASSEMBLY AT ITS FORTY-SIXTH SESSION

**10.** The actions by the General Assembly that would appear to be required at its forty-sixth session for meeting the cost relating to the expansion of **UNAMIC's mandate**, are **as** follows:

(a) Appropriation and apportionment of the amount of **\$22,893,000** gross (**\$22,813,000** net) for a **3 1/2-month** period from 15 January to 30 April 1992, inclusive of the \$10 million authorized by the Advisory Committee;

(b) With regard to the period beyond 30 April 1992, provision, by means of commitment authoriaatioa in an amount not **exceeding \$6,479,000** gross (**\$6,356,500** net) per month, subject to the prior concurrence of the Advisory Committee, **for** the maintenance of **UNAMIC** should the advance mission be **continued**.

**Notes**

**1/ S/23097 and Add.1.**

**2/ A/46/608-S/23177.**

**3/ S/23331.**

**4/ S/23331/Add.1.**

ANNEX I

**Consolidated cost estimate of the United Nations Advance Mission in Cambodia for the period from 1 November 1991 to 30 April 1992**

**Summary statement**

(In thousands of United States dollars)

	Allocation of appropriation 1 Nov 1991 to <u>30 Apr 1992</u> (1)	Cost estimate of expansion 15 Jan to <u>30 Apr 1992</u> (2)	Total 1 Nov 1991 to <u>30 Apr 1992</u> (1) + (2)
<b>1. <u>Military personnel costs</u></b>			
<b>(a) <u>Military personnel</u></b>

## ANNEX II

### Supplementary information on the cost estimates of the expanded United Nations Advance Mission in Cambodia

#### I. COST PARAMETERS

1. These estimates were calculated, where applicable, on the basis of the cost parameters indicated below.

##### (a) Mission subsistence allowance

2. Mission subsistence allowance (**MSA**) will be paid to all eligible personnel at the rate of \$111 per day, except for the 700 field engineers and 150 logistic support personnel for whom **UNAMIC** will provide food and accommodation. The person days used in these calculations **are** for the period 1 February to 30 April 1992 for a total of 90 days.

##### (b) Rotation/travel cost to and from the mission

3. An average travel cost of \$3,400 per person has been used for each one-way trip to the mission area by commercial air, including 100 kilograms of unaccompanied baggage and travel subsistence allowance, for all mission personnel, except for the 150 logistic support personnel. An average cost of \$2,600 per person has been used for each one-way trip for the logistic support personnel, based on the assumption that travel can be made under charter arrangements. No provision is made for the 700 field engineers, as **it** is anticipated that the battalion will travel via land from a neighbouring country. No provision has been made for repatriation travel,

##### (c) Civilian personnel costs

4. Salaries and staff costs are provided for the three months. For international staff, they are net of staff assessment and are based on the latest New York standard costs for staff *in* the Professional category and above, and General Service category; the rates for administrative technical staff are used for staff in the Field Service category. Salaries *for* local staff are also on a net basis, at an average rate of \$1,500 per person per annum.

## II. REQUIREMENTS

### 5. Military personnel costs

#### (a) Military personnel

(i) Subsistence allowance ..... \$2 397 000

Provision is made for the allowance to 240 military personnel (40 planning and liaison officers and 300 expert trainers) for a total of 21,600 person days at the rate indicated above (para. 2).

(ii) Travel costs ..... \$816 000

The estimate provides for one-way fares by commercial air travel for 240 military personnel, based on the rate indicated above (para. 3).

(iii) Clothing and equipment allowance ..... \$12 000

Provision is made for the clothing and equipment allowance for the 240 military personnel based on the established rate of \$200 per person per annum.

#### (b) Military contingent

(i) Standard troop cost reimbursement ..... \$2 705 000

Provision is made for reimbursement to Governments for 850 military personnel (700 field engineers and 150 support personnel consisting of 116 logistic, 25 signal and 9 medical personnel) in respect of pay and allowance at the standard rate of \$986 per person per month for all ranks for three months (\$2,519,000), plus a supplementary specialist allowance of \$291 monthly for up to 25 percent of the authorized strength (\$186,000).

(ii) Usage factor ..... \$179 000

Provision is made for the reimbursement to the Governments of a usage factor at the standard rate of \$70 per person per month to cover cost of personal clothing, gear, equipment and ammunition issued by the Governments to their military personnel,

(iii) Welfare ..... \$121 300

Provision is made to pay troops for recreational leave at a rate of \$10.50 per day for up to four days (\$36,000), plus allowance for other welfare activities at the rate of \$10 per person per month (\$25,000). This estimate also provides for the purchase of sports equipment, T.V.s, VCRs and radios (\$60,000).

(iv) Rations ..... \$574 000

This estimate provides for feeding of the 850 military personnel at the rate of \$7.50 per person per day for 90 days.

(v) Daily allowance ..... \$98 000

This estimate provides for payment of a daily allowance of \$1.26 per person to cover incidental personal expenses for 850 military personnel for 90 days.

(vi) Travel costs ..... ..a.\*..... \$390 000

Provision is made to cover travel cost of 150 logistic support personnel via charter flight,

(c) Other costs pertaining to contingents

(i) Death and disability compensation ..... \$400 000

Provision is made for settlement of compensation claims for death, injury or disability during service with UNAMIC.

(ii) Contingent-owned equipment ..... \$350 000

Provision is made for depreciation allowance of contingent-owned vehicles and equipment of the engineer battalion and the logistic support unit.

6. Civilian personnel costs

A total of 34 additional international and local staff will be required (see annex IV) to provide technical support and administrative services to the expanded UNAMIC. The calculation of the estimated salary and common staff costs is shown in annex V.

(a) International staff salaries ..., I., ~, ....., \$246 000

The estimated amount provides for salaries of 24 international staff as detailed in annex V.

(b) **Local staff salaries** ..... \$4 000

The estimated provides *for* salaries of 10 local staff as detailed in annex V.

(c) **Common staff costs** ..... \$240 000

The provision covers *common* staff costs for international and local staff as **detailed** in annex V.

(d) **Mission subsistence allowance** ..... \$239 000

**Mission** subsistence allowance is provided *for* 24 staff members based on a total *of* 2,160 person days at the rate indicated above (**para.** 2).

(e) **Travel** ..... \$109 000

The estimate provides for one-way travel **of** 24 international staff at \$3,400 each (\$82,000). In addition, allowance is made for six trips, each of seven days' duration, by staff between New York and the mission area, at \$4,500 per trip (\$27,000).

## 7. Premises

(a) **Rental of premises** ..... \$63 000

Rental **of** premises at Phaom **Penh** for three months for the IO-person planning and liaison unit and additional civilian support personnel including storage and warehouse space for the logistic support unit.

(b) **Maintenance and alterations of premises** ..... \$10 000

Provision is made for maintenance, alteration **or** adaption of premises for use by **UNAMIC**. Provision is also made for the installation of air-conditioning units and the upgrading of utility installations.

(c) **Utilities** ..... \$30 000

The provision covers the cost of water, electricity and **fuel** for generators *for* three months.

(d) prefabricated housing units ..... \$ 2 493 000

Provision is made for the purchase of 20 self-sufficient camp facilities, composed of office and living accommodation for 10 persons per facility. The units would be established at locations outside the capital city and would **serve as** the operational base for the **demining** training teams. Cost per unit is estimated at \$89,000 (**\$1,780,000**) plus 15 per cent for freight (\$267,000) and **an** additional 20 per cent for installation costs (\$356,000). Provision is also made for the purchase of two tent type warehouses to be used for supply bases in the forward positions within Cambodia at an estimated cost of \$90,000 inclusive of **freight** and installation costs.

(e) Building and maintenance materials ..... \$20 000

Provision is made for the purchase of lumber, cement and other building materials, as well as for cleaning and sanitation materials.

## 8. Transport operations

(a) Purchase of vehicles ..... \$1 411 000

Provision is made for the acquisition **of 94** vehicles based on full costing at current prices. The vehicles, distributed by functional assignments, are shown in annex VI.

<u>Description</u>	<u>Qty</u>	<u>Unit price</u>	<u>Total cost</u>
Jeep, diesel, 4 x 4	44	15 000	660 000
Mini-buses, diesel	4	12 000	48 000
Double cabin van, 4 x 4	46	12 500	575 000
Total	94		1 283 000
Freight (100)			<u>128 000</u>
Grand total			<u>\$1 411 000</u>

(b) Workshop equipment ..... \*... \$40 000

The equipment would **provide** a minimum capacity for regular maintenance and minor repairs of vehicles.

(c) Vehicles maintenance and spare parts ..... \$452 000

Provision is made for the initial supply of spare parts for a total of 254 additional vehicles (94 United Nations-owned and 160 contingent-owned), including heavy cargo trucks and earth moving equipment (\$368,000). Included also are provisions for local contractual maintenance and accident repair costs (\$50,000), wheel-traction items, first-aid kits and fire extinguishers for the vehicles (\$14,000).

(d) Petrol, oil and lubricants ..... \$343 000

It is estimated that the 254 vehicles, including heavy trucks and earth moving equipment brought in by the logistic support unit and the field engineer battalion will consume 10 gallons of fuel per day at the cost of \$1.50 per gallon, for a total of 228,600 gallons.

(e) Vehicle insurance ..... \$20 000

This provision is based on \$312 per vehicle per annum to cover the cost of secondary third-party liability and supplementary local insurance for 254 vehicles for three months.

9. Air operations

(a) Helicopter operations

(i) Hire/charter costs .....\*.....\*..... \$2 310 000

Provision is made for the hiring of two utility helicopters (\$660,000) and two medium transport helicopters (\$1,650,000) based on an hourly rate of \$2,000 and \$5,000 respectively, with a minimum of 55 monthly flight hours for each helicopter for a period of three months.

(ii) Aviation fuel and lubricant ..... \$235 000

It is estimated that each of the utility helicopters will consume 125 gallons of fuel per hour for a total of 41,250 gallons at \$1.50 per gallon (\$61,800) and the medium transport helicopter will consume 350 gallons per hour for a total of 115,500 gallons (\$173,200).

(b) Fixed-wing aircraft

(i) Hire/charter costs ..... \$480 000

Provision is made for the hiring of a cargo aircraft at an hourly rate of \$1,600 with a minimum of 100 monthly flight hours for three months.

(ii) Aviation fuel and lubricants ..... \$349 000

It is estimated that the cargo plane will consume 775 gallons of fuel per hour for a total of 232,500 gallons at the cost of \$1.50 per gallon.

(iii) Landing fee and ground handling ..... \$18 000

The estimate provides for the estimated requirement for ground handling and landing fees.

(c) Air-crew subsistence allow- ..... \* ..... \* ..... \$280 000

Provision is made for the allowance to 26 air-crew personnel, consisting of 8 for the utility helicopters, 10 for the medium transport helicopters and 10 for the cargo aircraft, at the daily rate indicated above (para. 2) for a total of 2,520 days.

10. Communications

(a) Communications equipment ..... \$1 418 000

Provision is made for the purchase of additional communications equipment, primarily for installation in additional vehicles and at new forward camp installations and training-team sites as follows:

(i) HF radios

50 mobile transceivers, complete with tuner and antennas estimated at \$8,600 per set (\$430,000)

10 base station transceivers and broad band antennae, power supply, batteries and battery chargers, estimated at \$9,000 per set (\$90,000)

**(ii) VHF radios**

100 VHF spectra mobile transceivers, complete with magnetic antenna, estimated at \$2,300 per unit (\$230,000)

20 Spectra base station, complete with power supply, collinear antenna and helix feeder, estimated at \$2,500 per unit (\$50,000)

20 VHF MSF-500 repeater stations with battery bank, collinear antenna and halifax feeder, estimated at \$12,000 per unit (\$240,000)

150 GP-300 VHF handie-talkies, S-watt output with programme equiptrent, paging encoders, and battery chargers, estimated at \$1,000 per unit (\$150,000)

**(iii) INMARSAT terminals**

INMARSAT "A" telephone and facsimile Satellite terminals, two units at \$35,000 (~~\$70,000~~)

**(iv) A n t e n n a e**

Various types of antennae towers and masts (\$29,000)

**(v) Freight**

Estimated at 10 per cent of cost of equipment (\$129,000)

**(b) Workshop and test equipment ..... \$70 000**

Provision is made for the purchase of three communication analysers to be used for field repairs and maintenance.

**(c) Commercial communications ..... \$165 000**

Provision is made for projected additional usage of the INMARSAT communications terminals. telephone and pouch services **estimated** at \$55,000 monthly for three months.

**(d) Parts and supplies ..... \$68 000**

Requirements are estimated at 5 per cent of acquisition value of the **communications equipment (\$64,000) and workshop test equipment (\$4,000)**, as estimated in items 10 (a) and (b) above.

11. Other equipment

(a) Office furniture and equipment ..... \$250 000

The estimate provides for additional **office** furniture and equipment to the Mission's headquarters, **as** well as to the 20 new camp sites situated away from **the** Mission's headquarters, **including** personal computers, typewriters, photocopiers and air-conditioners.

(b) Generators ..... \$840 000

Provision is made for the acquisition of **additional** diesel-driven generator sets as follows: (i) two **100-KVA** generator sets for an additional **office** complex in Phnom Penh, likely to **be** located **away from** the **present** headquarters building, (ii) 44 36-KVA sets for the 20 new camp sites for training teams, and (iii) 25 **5-KVA** sets to be used as mobile power **sources for** the training teams **when** away from the base camps. Five **of** the **5-KVA** units will be utilised as reserve.

<u>Size/capacity</u>	<u>Qty</u>	<u>Unit price</u>	<u>Total East</u>
100 KVA	2	23 000	46 000
36 KVA	44	13 000	572 000
5 KVA	25	4 500	<u>112 500</u>
			730 500
Freight (15%)			<u>109 500</u>
Total			<u>\$840 000</u>

(c) Mine-clearing equipment ..... \$507 000

Provision is made for the purchase of 1,600 sets of basic mine-clearing kits at an estimated unit cost of \$20 (**\$32,000**), 150 units of electronic mine detector at an estimated \$3,000 per unit (**\$450,000**) and spare parts (\$25,000).

(d) Miscellaneous other equipment ..... \$260 000

Provision is made for the purchase of water **purification** equipment (**\$50,000**), portable bladder for storage **for** fuel, fuel tanks **for** generators plus metering devices (**\$70,000**), **fire** extinguishers **and** other fire fighting equipment (**\$30,000**), water tanks (**\$30,000**), medical equipment (\$45,000) and miscellaneous other equipment (\$35,000).

(e) **Parts, repairs and maintenance** ..... \$195 000

The **estimate** provides for the purchase of spare **parts** for generators, estimated at 7.5 per **cent** of acquisition cost (**\$55,000**), various electrical supplies, cables, and panels for the locations where electrical power installations **are** to be made (\$105,900) plus spare parts and **an** allowance for **repair cost** in **respect of** the **various** types of equipment being purchased under this expenditure group (\$35,000).

12. **Supplies and services**

(a) **Contractual services** ..... \$180 000

Provision is made **for** three months for laundry and dry-cleaning services, **hair-cut** and tailoring services, etc., **for the** 850 contingent **personnel**. Provision is also made for contractual cleaning, **maintenance** and security services.

(b) **Construction materials** ..... \$600 000

This estimate provides for building and construction materials for the field engineer battalion responsible **for** the reconstruction of roads, bridges and other infrastructures to allow **for** the repatriation of refugees and other displaced persons, as well as **for** commercial contractual assistance as and when necessary.

(c) Other **supplies and services** ..... \$345 000

Provision is made to cover the purchase of medical supplies and services, stationery and office supplies, uniforms and United Nations accoutrement, flags and decals, jerrycans for water and petrol, subscriptions, bedding and general quartermaster stores plus other miscellaneous supplies and services.

(d) **Field defence store** ..... \$140 000

Provision is made for the purchase of sandbags, barbed wire and other field defence stores, including materials for establishment of forward positions and the marking/fencing of mine fields.

13. **Training** ..... \$120 000

Provision is made to pay a monthly allowance of \$100 per person **for** the projected 400 Cambodians expected to participate each month in the mine-clearing techniques training programme.

14. Freight and cartage ..... \$150 000

Provision is **made for** freight and clearing **charges** in respect of supplies and equipment not covered elsewhere.

15. Support account f o r peace-keeping o n - ..... \$71 000

In accordance **with** the methodology proposed for the funding of posts **authorized** from the support account for peace-keeping operations, provision is made here based on 6.5 per cent of the total cost of salaries, common staff costs and travel of the civilian staff members in the mission area.

16. Staff assessment ..... \$80 000

**Staff** costs have **been** shown on a net basis under budget line items 2 (a) and (b). The **estimate** under this heading represents the difference between gross and net emoluments, that is, the amount of **staff** assessment to which **United Nations** staff members are subject, in accordance with the Staff Regulations of the United Nations.

17. Income from staff assessment . . . . . (\$80 000)

The salaries and related emoluments of United Nations staff members are **subject** to staff assessment in **accordance with staff** regulation 3.3 of the Organisation. **All revenue derived** from staff **assessment that** is not disposed of by specific **resolution of** the **General** Assembly is credited to **the** Tax Equalisation Fund established by General Assembly resolution 973 A (X) of 15 December 1955. Member States will be given **credit in that fund** in appropriation to **their** rates of contribution to **UNAMIC** budget.

# ANNEX III

## Cost estimate of the expanded United Nations Advance Mission in Cambodia for the period beginning 1 May 1992

### Summary statement

(In thousands of United States dollars)

	Combined cost estimate 1 Nov. 1991 to <u>30 April 1992</u> (1)	cost estimate 1 May to <u>31 Oct. 1992</u> (2)
<b>1. <u>Military personnel costs</u></b>		
<b>(a) <u>Military personnel</u></b>		
Subsistence allowance	4 673.4	8 742.0
Travel costs	999.6	0.0
Clothing and equipment allowance	<u>19.6</u>	<u>43.0</u>
	5 692.6	8 765.0
<b>(b) <u>Military contingent</u></b>		
Standard troop cost reimbursement	2 705.0	5 410.0
Usage factor	179.0	357.0
Welfare	121.0	105.0
Rations	574.0	1 173.0
Daily allowance	98.0	200.0
