Forty-eighth session
Agenda item 173

FINANCING OF THE UNITED NATIONS ASSISTANCE MISSION FOR RWANDA

Report of the Secretary-General

Corrigendum

1. Since the issuance of the main report on the financing of the United Nations Assistance Mission for Rwanda (UNAMIR) dated 3 January 1994, a number of the assumptions contained in annexes I to IV of that report have changed, and this has necessitated a revision of the cost estimates. Total reductions to the cost estimates for the period from 5 October 1993 to 4 April 1994 amount to \$2,517,600 gross (\$2,438,400 net). Total increases in the cost estimates for the subsequent 12-month period from 5 April 1994 to 4 April 1995 amount to \$10,707,900 gross (\$10,572,900 net).

I. COST ESTIMATES FOR THE PERIOD FROM 5 OCTOBER 1993 TO 4 APRIL 1994

2. Annex I has been revised to reduce the total amount of the cost estimate by \$2,517,600 gross (\$2,438,400 net), from \$48,413,800 gross (\$47,818,000 net), to \$45,896,200 gross (\$45,379,600 net). Column 1 of annex I shows the Secretary-General's original cost estimate; column 2 shows the current adjustment, based on revised requirements for military observers, military contingents, civilian police, international and local staff, air operations, assistance for disarmament and demobilization, the support account for peace-keeping operations and staff assessment; and column 3 provides the revised cost estimate for the period from 5 October 1993 to 4 April 1994. The items that require revision are described below.

Item 1 (a). Military observers

3. While the original cost estimate provided for the deployment of 331 military observers, only 325 are expected to be deployed to the mission area during this period. A decrease of \$35,000 is, therefore, foreseen under this heading.

Item 1 (b). Military contingents

4. The increase of \$3,707,900 under this heading is the result of the early deployment of a second battalion to the demilitarized zone, as approved by the Security Council in its resolution 893 (1994) of 6 January 1994. The original cost estimate provided for a total of 1,420 military contingents; with the deployment of the second battalion, a total of 2,180 military contingents will be deployed during this period.

Item 2 (a). Civilian police

5. While the original cost estimate provided for the deployment of 60 civilian police during this period, it is now expected that only 51 will be deployed. A decrease of \$290,200 is, therefore, foreseen under this heading.

Item 2 (b). International and local staff

6. As a result of delayed deployment of international staff to the mission area (80 staff instead of 109, as originally budgeted for), a decrease of \$744,100 is foreseen under international staff salaries, common staff costs, mission subsistence allowance and travel to and from the mission area. This amount has been partially offset by an additional requirement of \$30,600 under local staff salaries. While the original cost estimate provided for the salaries of 50 locally recruited staff during this period, 65 are expected to be emplaced.

Item 6 (a). Helicopter operations

7. A decrease of \$2,924,700 is foreseen under this heading owing to the delayed deployment of helicopters to the mission area. Pending the deployment of commercially leased helicopters, the mission has been supported by the Belgian battalion, which has been providing four Alluette helicopters at a cost of \$1,000 per hour, inclusive of fuel, maintenance and aircrew costs.

Item 6 (b). Fixed-wing aircraft

8. A decrease of \$234,000 is foreseen under this heading owing to the delayed deployment of one B-200 aircraft to the mission area. This aircraft is now expected to be deployed in late March 1994.

/...

Item 6 (d). Other air operations costs

9. Owing to the delayed deployment of helicopters and fixed-wing aircraft, a decrease of \$120,000 is foreseen under this heading.

Item 15. Assistance for disarmament and demobilization

10. A decrease of \$1,768,200 is foreseen owing to delays in the implementation of the disarmament and demobilization programme. These resources will be required during the following mandate period.

Item 18. Support account for peace-keeping operations

11. The decreased requirement of \$60,700 is related to item 2 (b) above.

Item 19. Staff assessment

12. The decreased requirement of \$79,200 is related to item 2 (b) above.

II. COST ESTIMATES FOR THE PERIOD FROM 5 APRIL 1994
TO 4 APRIL 1995

13. Annex III has been revised to increase the total amount of the cost estimate by \$10,707,900 gross (\$10,572,900 net), from \$98,422,500 gross (\$96,110,400 net) to \$109,130,400 gross (\$106,683,300 net). Column 1 of annex III shows the Secretary-General's original cost estimate; column 2 shows the current adjustment, based on revised requirements for military observers, military contingents, civilian police, international and local staff, helicopter operations, other air operations costs, assistance for disarmament and demobilization, air and surface freight, the support account for peace-keeping operations and staff assessment; and column 3 provides the revised cost estimate for the period from 5 April 1994 to 4 April 1995. The items that require revision are described below.

Item 1 (a). Military observers

14. The original cost estimate provided for the phased withdrawal of 331 military observers commencing in September 1994, reducing to 127 in October 1994, with a further reduction to 80 in December 1994. It is now estimated that this reduction will not commence until January 1995. An increase of \$2,263,500 is, therefore, foreseen under this heading.

/...

Item 1 (b). Military contingents

15. An increase of \$7,025,000 is foreseen under this heading owing, in part, to a greater number of contingent personnel being in the mission area earlier than originally expected because of the early deployment of a second battalion to the demilitarized zone during the previous mandate period. The increase is also partially a result of the later withdrawal of contingent personnel. While the original estimate provided for a withdrawal of contingent personnel commencing in July 1994, the withdrawal of personnel is now not expected to occur until October 1994.

Item 2 (a). Civilian police

16. The original estimate provided for the full deployment of civilian police during this period. However, as full deployment is now expected to occur later, a decrease of \$59,100 is foreseen under this heading.

Item 2 (b). International and local staff

17. Increased resources will be required under this heading owing to the fact that civilian staff to be deployed during this period will be phased in earlier than originally anticipated and budgeted for. An increase of \$799,500 under international staff salaries, common staff costs and mission subsistence allowance is partially offset by decreased requirements of \$80,000 under travel to and from the mission area because fewer staff will be rotated during this period.

Item 6 (a). Helicopter operations

18. A decrease of \$358,400 is foreseen under this heading owing to the delayed deployment of two helicopters (one Bell 212 and one Bell 206), which are now expected to be deployed in May 1994.

Item 6 (d). Other air operations costs

19. Owing to the delayed deployment of helicopters to the mission area, a decrease of \$10,000 is foreseen under landing fees and ground handling.

Item 15. Assistance for disarmament and demobilization

20. The increase of \$1,758,200 under this heading represents the carrying forward of an equivalent amount from the previous mandate period owing to delays in the implementation of the disarmament and demobilization programme.

/...

Item 16. Air and surface freight

21. A decrease of \$827,000 is foreseen under transport of contingent-owned equipment owing to the projected delay in withdrawal of contingent personnel during this period.

Item 18. Support account for peace-keeping operations

22. The increased requirement of \$61,200 is related to item 2 (b) above.

Item 19. Staff assessment

23. The increased requirement of \$135,000 is related to item 2 (b) above.

III. STATUS OF ASSESSED CONTRIBUTIONS

24. The table below summarizes the status of assessed contributions received and unpaid, taking into account applied credits, as at 22 March 1994. As shown, total outstanding assessments of \$32,945,923 are due from Member States.

Status of contributions as at 22 March 1994

IV. ACTION TO BE TAKEN BY THE GENERAL ASSEMBLY AT ITS
FORTY-EIGHTH SESSION

25. The action to be taken by the General Assembly at its forty-eighth session in connection with the financing of UNAMIR, incorporating the above revisions, is as follows:

(a) The appropriation of the amount of \$45,896,200 gross (\$45,379,600 net), inclusive of the amount of \$4.6 million previously authorized by the Advisory Committee on Administrative and Budgetary Questions, for the operation of UNAMIR for the period from 5 October 1993 to 4 April 1994, the above amount to be set off against the apportionment made in accordance with General Assembly decision 48/479 of 23 December 1993;

(b) With regard to the period after 4 April 1994, provision by means of an authorization at a monthly rate of \$9,094,200 gross (\$8,890,275 net) and the apportionment of such amounts, should the Security Council decide to extend the mandate of UNAMIR beyond that date;

(c) The decision to credit to Member States the amount of \$5,223,800 gross (\$5,098,400 net) remaining from the total amount of \$51,120,000 gross (\$50,478,000 net) apportioned among Member States in accordance with General Assembly decision 48/479.

ANNEX I

United Nations Assistance Mission for Rwanda

Revised cost estimate for the period from 5 October 1993 to 4 April 1994

Summary statement

(Thousands of United States dollars)

	Original cost <u>estimate</u>	Increase (decrease)	Revised cost <u>estimate</u>
1. <u>Military personnel costs</u>
