关于阿根廷的条目应改为

Argentina Argentina recalls the necessity of a common approach to face obstacles and difficulties in the implementation of the Convention. It is not sufficient to accede to the Convention and approve its laws and necessary regulation, if this is not accompanied by budgetary, educational and operational measures, with the participation of all the national actors, that are considered necessary for the full achievement of the objectives of the Convention. Regional and multilateral cooperation may play a key rol in this respect.
