Agenda item 7:

2. Ways and means to enhance national implementation, sharing best practices and experiences, including the voluntary exchange of information among States Parties on their national implementation, enforcement of national legislation, strengthening of national institutions and coordination among national law enforcement institutions

Entry of Argentina *should read*

Argentina	Argentina recalls the necessity of a common approach to face obstacles and difficulties in the implementation of the Convention. It is not sufficient to accede to the Convention and approve its laws and necessary regulation, if this is not accompanied by budgetary, educational and operational measures, with the participation of all the national actors, that are considered necessary for the full achievement of the objectives of the Convention. Regional and multilateral cooperation may play a key rol in this respect.	S 10/8 AM
