NOTE

The resolutions and decisions of the Economic and Social Council are identified as follows:

Resolutions

Until 1977 (up to and including the resumed sixty-third session), the resolutions of the Economic and Social Council were numbered consecutively and were identified by an arabic numeral followed by an indication of the session in parentheses (for example: resolution 1733 (LIV), resolution 1915 (ORG-75), resolution 2046 (S-III), adopted at the fifty-fourth session, the organizational session for 1975 and the third special session, respectively). When several resolutions were adopted under the same number, each of them was identified by a capital letter (for example: resolution 1926 B (LVIII), resolutions 1954 A to D (LIX)). The last resolution so numbered is resolution 2130 (LXIII), of 14 December 1977.

Since 1978, as part of the new system adopted for symbols of Council documents, the resolutions have been numbered on a yearly basis and identified by two arabic numerals separated by an oblique stroke, the first numeral indicating the year, the second the number of the resolution in the annual series (for example: resolution 1990/47).

Decisions

Until 1973 (up to and including the resumed fifty-fifth session), the decisions of the Council were not numbered. From 1974 to 1977 (up to and including the resumed sixty-third session), the decisions were numbered consecutively and were identified by an arabic numeral followed by an indication of the session in parentheses (for example: decision 64 (ORG-75), decision 78 (LVIII), adopted at the organizational session for 1975 and the fifty-eighth session, respectively). The last decision so numbered is decision 293 (LXIII), of 2 December 1977.

Reaffirming the Convention on the Rights of Persons with Disabilities,⁵³ adopted on 13 December 2006, as a landmark convention affirming the human rights and fundamental freedoms of persons with disabilities, and recognizing that it is both a human rights treaty and a development tool,

Recalling earlier operational frameworks, such as the World Programme of Action concerning Disabled Persons⁵⁴ and the Standard Rules on the Equalization of Opportunities for Persons with Disabilities,⁵⁵

Convinced that addressing the profound social, cultural and economic disadvantage and exclusion experienced by many persons with disabilities, promoting the use of universal design, as appropriate, as well as the progressive removal of barriers to the full and effective participation of persons with disabilities in all aspects of development, and promoting the equal enjoyment by persons with disabilities of civil, political, economic, social and cultural rights will further the equalization of opportunities and contribute to the realization of a “society for all” in the twenty-first century,

Noting that, while progress has already been made by Governments, the international community and the United Nations system in mainstreaming disability as an integral part of the global development agenda, major challenges remain,

Welcoming the efforts of the United Nations to improve accessibility, in particular the opening of the Accessibility Centre at United Nations Headquarters in New York, which contributes to a disability-inclusive United Nations by facilitating the participation of persons with disabilities in the meetings of the United Nations and their access to the documentation of the United Nations,

The Economic and Social Council,

Recalling that, in the Madrid International Plan of Action on Ageing, 2002, adopted by the Second World Assembly on Ageing, held in Madrid from 8 to 12 April 2002,⁶⁰ the systematic review of its implementation by Member States was requested as being essential for its success in improving the quality of life of older persons,

Bearing in mind that, in its resolution 42/1 of 13 February 2004,⁶¹ the Commission for Social Development decided to undertake the review and appraisal of the Madrid Plan of Action every five years,

Recalling its resolution 2013/29 of 25 July 2013 on the second review and appraisal of the Madrid Plan of Action,

Recalling also General Assembly resolution 68/134 of 18 December 2013 and previous Assembly resolutions on ageing, as well as Human Rights Council resolution 24/20 of 27 September 2013⁶² and its previous resolutions on ageing,

Noting that the third review and appraisal of the Madrid Plan of Action will take place in 2017,

Noting also the work of the Open-ended Working Group on Ageing, established by the General Assembly in paragraph 28 of its resolution 65/182 of 21 December 2010,

Taking note of the report of the Secretary-General,⁶³

Recognizing that, in many parts of the world, awareness of the Madrid Plan of Action remains limited or non-existent, which limits the scope of implementation efforts,

Bearing in mind that the second review and appraisal highlighted several major challenges faced by older persons in most regions that undermined the social, economic and cultural participation of the aged, namely, income security, access to age-appropriate health-care services, access to labour markets and social protection, protection from abuse and violence, and age discrimination,

2014/14. Progress in the implementation of General Assembly resolution 67/226 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system

The Economic and Social Council,

Recalling General Assembly resolutions 67/226 of 21 December 2012 and 68/229 of 20 December 2013 and Economic and Social Council resolution 2013/5 of 12 July 2013, in which key system-wide policy orientations were established for development cooperation at both the Headquarters and the country levels,

Reaffirming the importance of the timely and full implementation of the system-wide policy orientations established in General Assembly resolution 67/226 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system,

Recalling the critical role of the Council in providing coordination, monitoring and guidance to the United Nations system to ensure that those policy orientations are implemented in a full and timely manner on a system-wide basis in accordance with the present resolution and General Assembly resolutions 48/162 of 20 December 1993, 50/227 of 24 May 1996, 57/270 B of 23 June 2003, 61/16 of 20 November 2006, 65/285 of 29 June 2011, 67/226 and 68/1 of 20 September 2013,

Reaffirming that the fundamental characteristics of the operational activities for development of the United Nations system should be, inter alia, their universal, voluntary and grant nature, their neutrality and their multilateralism, as well as their ability to respond to the development needs of programme countries in a flexible manner, and that the operational activities are carried out for the benefit of programme countries, at the request of those countries and in accordance with their own policies and priorities for development,

Noting the changes to its cycle,

Recognizing the importance and catalytic role of predictable official development assistance for international development, noting that global official development assistance increased steadily from 1997 to 2010 and that official development assistance increased in 2013, and noting with concern that official development assistance declined in 2011 and 2012,

Introduction

1. *Takes note* of the report of the Secretary-General on the implementation of General Assembly resolution 67/226 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system;⁸⁹

⁸⁹ A/69/63-E/2014/10.

Resolutions

2. *Acknowledges* the efforts of the Secretary-General, in consultation with Member States and all relevant entities, to establish a comprehensive and coherent monitoring and reporting framework for the implementation of General Assembly resolution 67/226 on the quadrennial comprehensive policy review;
3. *Requests* the United Nations funds and programmes to make every effort to continue to improve monitoring and data collection methods with a view to contributing towards further enhancement of the analytical quality of the report of the Secretary-General on operational activities for development of the United Nations system;
4. *Requests* the United Nations development system to provide quality inputs and appropriate updates to the report of the Secretary-General with a view to continuing to improve high-quality analytical reporting on the operational activities for development, while stressing the need to minimize transaction costs associated with reporting;
5. *Calls upon* the Secretary-General to further improve the analytical and evidence-based quality of the report on the implementation of the quadrennial comprehensive policy review, including by addressing challenges and presenting options for enhancing the implementation of system-wide mandates of the review;
6. *Also calls upon* the Secretary-General to ensure that the United Nations Development Group and the High-level Committee on Management fully align their efforts to monitor implementation of the quadrennial comprehensive policy review and align their work in the area of operational activities for development with the review;
7. *Reiterates its request* to the United Nations funds and programmes that have not already done so to consolidate their annual reporting on the implementation of the quadrennial comprehensive policy review within their reporting on the implementation of their strategic plans;
8. *Requests* the United Nations funds and programmes to continue to improve the quality of their annual reports to the Economic and Social Council;
9. *Reiterates its encouragement* to entities of the United Nations development system with operational activities for development that have not done so to fully align their strategic plans and their strategic planning and budgeting cycles with the quadrennial comprehensive policy review, taking into account their respective mandates;

Funding of operational activities for development of the United Nations system

10. *Reiterates* that core resources, because of their untied nature, continue to be the bedrock of the operational activities for development of the United Nations system, and in this regard recognizes the need for organizations to address, on a continuous basis, the imbalance between core and non-core resources and to report to the Council in 2015, as part of their regular reporting, on the measures taken to address this imbalance;
11. *Notes* that the majority of the increase in funding for the United Nations development system between 1997 and 2012 was in the form of non-core resources, resulting in an imbalance between core and non-core resources, and notes with concern that the percentage of core resources in the overall funding for operational activities has declined, representing only 28 per cent in 2012;
12. *Also notes* that non-core resources represent an important contribution to the overall resource base of the United Nations development system and complement core resources in supporting operational activities for development, thus contributing to an increase in total resources, while noting the need to make non-core resources more flexible and better aligned with strategic plans and national priorities and recognizing that non-core resources are not a substitute for core resources;
13. *Recognizes* that non-core resources pose challenges, in particular restricted earmarked funding such as single-donor project-specific funding, by potentially increasing transaction costs, fragmentation, competition and overlap among entities and providing disincentives for pursuing an Organization-wide focus, strategic positioning and coherence and may also potentially distort programme priorities regulated by intergovernmental bodies and processes;
14. *Expresses its regret* that the mandate contained in General Assembly resolution 67/226 with respect to taking concrete measures to broaden the donor base was not fulfilled, and requests the United Nations funds and programmes and encourages specialized agencies that have not done so to report to their governing bodies at a 2014

Resolutions

session on concrete measures taken to broaden the donor base and increase the number of countries and other partners making contributions to the United Nations development system in order to reduce the reliance of the system on a limited number of donors;

15. *Also expresses its regret* that the mandate contained in General Assembly resolution 67/226 with respect to the critical mass of core resources was not fulfilled, and reiterates the request to the United Nations funds and programmes to define common principles for the concept of critical mass of core resources, which may include the level of resources adequate to respond to the needs of the programme countries and to produce the results expected in strategic plans, including administrative, management and programme costs, in consultation with Member States, and to present specific proposals in 2014 with a view to a decision in 2014;

16. *Stresses* the need to avoid the use of core/regular resources to subsidize non-core/extrabudgetary financed activities, reaffirms that the guiding principle governing the financing of all non-programme costs should be based on full cost recovery, proportionally, from core and non-core funding sources, and in this regard notes the timelines agreed by the executive boards of the United Nations Development Programme, the United Nations Population Fund, the United Nations Children's Fund and the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women) for an independent and external assessment to be performed in 2016 of the consistency and alignment of the new cost recovery methodology with the quadrennial comprehensive policy review;

17. *Recalls* the request contained in General Assembly resolution 67/226 to the executive boards of the United Nations funds and programmes and the governing bodies of the specialized agencies, as appropriate, to organize structured dialogues with Member States during 2014 on how to finance the development results agreed in the new strategic planning cycle of the respective entities, with a view to making non-core resources more predictable and less restricted/earmarked, broadening the donor base and improving the adequacy and predictability of resource flows;

18. *Welcomes* the progress made by the United Nations funds, programmes and specialized agencies to ensure that available and projected core and non-core resources are consolidated within an integrated budgetary framework, based on the priorities of their respective strategic plans, and encourages all agencies that have not already done so to develop such integrated frameworks in their next budget cycle;

Contribution of the operational activities of the United Nations to national capacity development and development effectiveness

19. *Reaffirms* the request by the General Assembly to the United Nations development system to develop, for the consideration of Member States, a common approach for measuring progress in capacity development, including measures to ensure sustainability, as well as to develop specific frameworks aimed at enabling programme countries, upon their request, to design, monitor and evaluate results in the development of their capacity to achieve national development goals and strategies, and invites the Secretary-General to provide, in his 2015 annual report on the implementation of Assembly resolution 67/226 on the quadrennial comprehensive policy review, comprehensive and evidence-based updates on measures taken in this regard;

20. *Requests* the Secretary-General to include in his regular report to the Council in 2015, in consultation with Member States, information on steps taken by entities of the United Nations development system to strengthen and use national capacities and to make proposals to address any obstacles;

21. *Requests* the funds and programmes of the United Nations development system, and invites specialized agencies, to consider the findings and observations related to national capacity gaps repeatedly highlighted by programme countries to be addressed through the work of the operational activities for development of the United Nations system, including through the strengthening and use of national capacities, and to report to their governing bodies in 2015 with recommendations for implementation in this regard;

Poverty eradication

22. *Welcomes* the integration of poverty eradication, as the overarching priority, into the strategic plans of some United Nations system organizations, in accordance with their mandates;

23. *Reaffirms* the call by the General Assembly, contained in its resolution 67/226, for the organizations of the United Nations development system to assign the highest priority to the eradication of poverty, and in this regard

South-South cooperation

24. *Recalls* the requests contained in General Assembly resolution 67/226 on strengthening South-South cooperation, in this regard notes the progress made by some entities of the United Nations development system in mainstreaming South-South and triangular cooperation into their key policies, strategic frameworks, operational activities and budgets, and welcomes decision 18/1 of the High-level Committee on South-South Cooperation,⁹⁰ which contains, inter alia, measures to strengthen South-South and triangular cooperation, including through improved allocation of resources across the United Nations development system, including the United Nations Office for South-South Cooperation;

25. *Requests* the Secretary-General, in close consultation with the United Nations Office for South-South Cooperation, to present, as part of his annual report on the implementation of the quadrennial comprehensive policy review in 2015, recommendations based on a thorough analysis of obstacles to and incentives for the scaling up of United Nations support for South-South cooperation, including lessons learned from the implementation of successful South-South cooperation projects and programmes;

26. *Decides* that the President of the Council will include in its agenda for the operational activities segment of 2015 an interactive segment with relevant United Nations stakeholders and external stakeholders on lessons learned from the implementation of South-South cooperation projects and programmes and the potential benefits for the United Nations development system and participating countries;

27. *Reaffirms* the call in paragraph 77 of General Assembly resolution 67/226 for all countries in a position to do so, as well as other stakeholders, to increase their support for South-South cooperation and triangular cooperation, especially by providing technical assistance and mobilizing financial resources on a sustainable basis, and in this regard requests the United Nations funds and programmes to clarify for Member States, as part of their regular briefings, the role of all stakeholders and the action taken so far by such entities in this regard;

28. *Recalls* the request contained in General Assembly resolution 67/226 to the heads of specialized agencies, the United Nations funds and programmes and regional commissions to pay special attention to the implementation of South-South cooperation projects, including those managed or supported by the United Nations Office for South-South Cooperation, and requests the Secretary-General, as part of his regular reporting to the Council, to provide an update on progress in this regard;

⁹⁰ See *Official Records of the General Assembly, Sixty-ninth Session, Supplement No. 39 (A/69/39)*, chap. I.

Resident coordinator system

31. *Notes with appreciation* progress achieved in implementing the cost-sharing agreement for the resident coordinator system, notes the funding gap expected for the resident coordinator system for 2014 and 2015, in this regard requests entities of the United Nations development system that have not already done so to take appropriate actions to implement the agreement, subject to the approval of their governing bodies and without impacting programme delivery, including by paying their contribution in full, and requests the Secretary-General to include in his regular reporting to the Council updates on agency-specific progress in this regard;

“Delivering as one”

Results-based management

40. *Notes with concern* that there was no comprehensive reporting to the Council in 2013, with a view to implementation in 2014, on progress made towards a more robust, coherent and harmonized approach to operational activities for development, focused on results, which would streamline and improve the planning, monitoring, measurement and reporting on system-wide results, and in this regard requests the Secretary-General, in

2014/16. Standard Minimum Rules for the Treatment of Prisoners

The Economic and Social Council

Recommends to the General Assembly the adoption of the following draft resolution:

The General Assembly,

Guided by the principal purposes of the United Nations, as set out in the Preamble to the Charter of the United Nations and the Universal Declaration of Human Rights,⁹⁹ and inspired by the determination to reaffirm faith in fundamental human rights, in the dignity and worth of the human person, without distinction of any kind, and in the equal rights of men and women and of nations large and small, to establish conditions under which justice and respect for the obligations arising from treaties and other sources of international law can be maintained and to promote social progress and better standards of life in larger freedom,

Bearing in mind the long-standing concern of the United Nations for the humanization of criminal justice and the protection of human rights,

Aware that the Standard Minimum Rules for the Treatment of Prisoners¹⁰⁰ remain the universally acknowledged minimum standards for the detention of prisoners and that they have been of value and influence in the development of correctional laws, policies and practices since their adoption by the First United Nations Congress on the Prevention of Crime and the Treatment of Offenders, in 1955,

Mindful that, in the Salvador Declaration on Comprehensive Strategies for Global Challenges: Crime Prevention and Criminal Justice Systems and Their Development in a Changing World,¹⁰¹ Member States recognized that an effective, fair, accountable and humane criminal justice system was based on the commitment to uphold the protection of human rights in the administration of justice and the prevention and control of crime, and acknowledged the value and impact of the United Nations standards and norms in crime prevention and criminal justice in designing and implementing national crime prevention and criminal justice policies, laws, procedures and programmes,

Taking into account the progressive development of international standards pertaining to the treatment of prisoners since 1955, including in international instruments such as the International Covenant on Civil and Political Rights,¹⁰² the International Covenant on Economic, Social and Cultural Rights¹⁰² and the Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment¹⁰³ and the Optional

United Nations Model Strategies and Practical Measures on the Elimination of Violence against Children in the Field of Crime Prevention and Criminal Justice

Introduction

1. The United Nations Model Strategies and Practical Measures on the Elimination of Violence against Children in the Field of Crime Prevention and Criminal Justice have been prepared to help Member States to address the need for integrated strategies for violence prevention and child protection, thereby offering children the protection to which they have an unqualified right.
2. The Model Strategies and Practical Measures take into consideration the complementary roles of the justice system on the one hand, and the child protection, social welfare, health and education sectors on the other, in creating a protective environment and in preventing and responding to violence against children. They draw attention to the need for Member States to ensure that criminal law is used appropriately and effectively to criminalize various forms of violence against children, including forms of violence prohibited by international law. The Model Strategies and Practical Measures will enable criminal justice institutions to strengthen and focus their efforts to prevent and respond to violence against children, and to increase their diligence in investigating, convicting and rehabilitating perpetrators of violent crimes against children.
3. The Model Strategies and Practical Measures take into account the fact that children who are alleged as, accused of or recognized as having infringed criminal law, especially those who are deprived of their liberty, face a high risk of violence. Because special attention must be paid to the especially vulnerable situation of these children, the Model Strategies and Practical Measures are aimed at not only improving the effectiveness of the criminal justice system in preventing and responding to violence against children, but also at protecting children against any violence that may result from their contact with the justice system.
4. The Model Strategies and Practical Measures reflect the fact that some of the perpetrators of violence against children are themselves children and often victims of violence. The need to protect child victims in such instances cannot negate the rights of all of the children involved to have their best interests considered as a matter of primary importance.
5. The Model Strategies and Practical Measures are grouped into three broad categories: general prevention strategies to address violence against children as part of broader child protection and crime prevention initiatives; strategies and measures to improve the ability of the criminal justice system to respond to crimes of violence against children and to protect child victims effectively; and strategies and measures to prevent and respond to violence against children in contact with the justice system. Good practices are set forth, to be considered and used by Member States within the framework of their national legal systems in a manner consistent with applicable international instruments, including relevant human rights instruments, and taking into consideration relevant United Nations standards and norms in crime prevention and criminal justice. Member States should be guided by the Model Strategies and Practical Measures to the maximum extent of their available resources and, where needed, within the framework of international cooperation.

Guiding principles

7. In implementing the Model Strategies and Practical Measures at the national level, Member States should be guided by the following principles:

(a) That the inherent rights of the child to life, survival and development are protected;

Resolutions

(b) That the right of the child to have his or her best interests as a primary consideration in all matters involving or affecting him or her is respected, whether the child is a victim or a perpetrator of violence, as well as in all measures of prevention and protection;

(c) That every child is protected from all forms of violence without discrimination of any kind, irrespective of the child's or his or her parent's or legal guardian's race, colour, sex, language, religion, political or other opinion, national, ethnic or social origin, property, disability, birth or other status;

(d) That the child is informed of his or her rights in an age-appropriate manner and that the right of the child to be consulted and to express his or her views freely in all matters affecting him or her is fully respected;

(e) That all strategies and measures to prevent and respond to violence against children are designed and implemented from a gender perspective that specifically addresses gender-based violence;

(f) That the specific vulnerabilities of children and the situations they find themselves in, including children in need of special protection and children committing criminal offences under the age of criminal responsibility, should be addressed as part of comprehensive violence prevention strategies and identified as a priority for action;

(g) That measures to protect child victims of violence are non-coercive and do not compromise the rights of these children.

Part one

Prohibiting violence against children, implementing broad prevention measures and promoting research and data collection

8. Child protection should begin with the proactive prevention of violence and the explicit prohibition of all forms of violence. Member States have the duty to take appropriate measures that effectively protect children from all forms of violence.

I. Ensuring the prohibition by law of all forms of violence against children

9. Recognizing the importance of the existence of a sound legal framework which prohibits violence against children and empowers authorities to respond appropriately to incidents of violence, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments, to ensure:

(a) That their laws are comprehensive and effective in prohibiting and eliminating all forms of violence against children and that provisions that justify, allow for or condone violence against children or may increase the risk of violence against children are removed;

(b) That cruel, inhuman or degrading treatment or punishment of children is prohibited and eliminated in all settings, including schools.

10. Because a countless number of girls and boys fall victim to harmful practices undertaken under different pretexts or grounds, including female genital mutilation or cutting, forced marriage, breast ironing and witchcraft rituals, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments:

(a) To establish by law a clear and comprehensive prohibition of all harmful practices against children, supported by detailed provisions in relevant legislation to secure the effective protection of girls and boys from those practices, to provide means of redress and to fight impunity;

(b) To remove from all national legislation any legal provisions that provide justification or allow for consent to harmful practices against children;

(c) To ensure that resorting to informal justice systems does not jeopardize children's rights or preclude child victims from accessing the formal justice system, and to establish the supremacy of international human rights law.

11. Recognizing the serious nature of many forms of violence against children and the need to criminalize these conducts, Member States should review and update their criminal law to ensure that the following acts are fully covered thereunder:

(a) Engaging in sexual activities with a child who is under the legal age of consent, ensuring as well that an appropriate “age of protection” or “legal age of consent”, below which a child cannot legally consent to sexual activity, is set;

(b) Engaging in sexual activities with a child using coercion, force or threats, abusing a position of trust, authority or influence over a child, including within the family, and abusing a particularly vulnerable situation of a child, because of a mental or physical disability or a situation of dependence;

(c) Committing sexual violence against a child, including sexual abuse, sexual exploitation and sexual harassment through or facilitated by the use of new information technologies, including the Internet;

(d) The sale of or trafficking in children for any purpose and in any form;

(e) Offering, delivering or accepting, by whatever means, a child for the purpose of sexual exploitation of the child, transfer of organs of the child for profit or engagement of the child in forced labour;

(f) Offering, obtaining, procuring or providing a child for child prostitution;

(g) Producing, distributing, disseminating, importing, exporting, offering, selling or possessing child pornography;

(h) Slavery or practices similar to slavery, debt bondage and serfdom and forced labour, including forced or compulsory recruitment of children for use in armed conflict;

(i) Committing gender-related violence against a child and, in particular, gender-related killing of girls.

II. Implementing comprehensive prevention programmes

12. General and context-specific measures should be developed by Member States to prevent violence against children. Prevention measures, building on a growing understanding of factors that give rise to violence against children and addressing the risks of violence to which children are exposed, should be part of a comprehensive strategy to eliminate violence against children. Criminal justice agencies, working together with, as appropriate, child protection, social welfare, health and education agencies and civil society organizations, should develop effective violence prevention programmes as part of both broader crime prevention programmes and initiatives to build a protective environment for children.

13. Preventing the victimization of children through all available means should be recognized as a crime prevention priority. Member States are therefore urged, as appropriate and while taking into consideration relevant international human rights instruments:

(a) To strengthen existing child protection systems and to help to create a protective environment for children;

(b) To adopt measures to prevent violence within the family and the community, address cultural acceptance or tolerance of violence against children, including gender-related violence, and challenge harmful practices;

(c) To encourage and support the development and implementation at every level of government of comprehensive plans for the prevention of violence against children in all of its forms, based on in-depth analysis of the problem and incorporating:

(i) An inventory of existing policies and programmes;

(ii) Well-defined responsibilities for the relevant institutions, agencies and personnel involved in preventive measures;

(iii) Mechanisms for the appropriate coordination of preventive measures between governmental and non-governmental agencies;

(iv) Evidence-based policies and programmes that are continually monitored and carefully evaluated in the course of implementation;

Resolutions

- (v) Parental capacity-building and family support as the primary preventive measures, while strengthening child protection in school and in the community;
 - (vi) Methods for effectively identifying, mitigating and reducing the risk of violence against children;
 - (vii) Public awareness-raising and community involvement in prevention policies and programmes;
 - (viii) Close interdisciplinary cooperation, with the involvement of all relevant agencies, civil society groups, local and religious leaders and, where relevant, other stakeholders;
 - (ix) Participation of children and families in policies and programmes for the prevention of criminal activities and victimization;
- (d) To identify the specific vulnerabilities and risks faced by children in different situations and to adopt proactive measures to reduce those risks;
- (e) To take appropriate actions to support and protect all children, in particular children in different situations of vulnerability and children in need of special protection;
- (f) To be guided by the Guidelines for the Prevention of Crime¹⁵¹ and play a leading role in developing effective crime prevention strategies and in creating and maintaining institutional frameworks for their implementation and review.
14. The risk of violence against children committed by children should be addressed by specific prevention measures, including measures:
- (a) To prevent physical, psychological and sexual violence exerted, often through bullying, by children against other children;
 - (b) To prevent the violence sometimes exerted by groups of children, including violence by youth gangs;
 - (c) To prevent the recruitment, use and victimization of children by youth gangs;
 - (d) To identify and protect children, in particular girls, who are linked to gang members and who are vulnerable to sexual exploitation;
 - (e) To encourage law enforcement agencies to use multi-agency intelligence to proactively profile local risk and, accordingly, to direct enforcement and disruption activity.
15. The risk of violence associated with trafficking in children and various forms of exploitation by criminal groups should be addressed by specific prevention measures, including measures:
- (a) To prevent the recruitment, use and victimization of children by criminal groups, terrorist entities or violent extremist groups;
 - (b) To prevent the sale of children, trafficking in children, child prostitution and child pornography;
 - (c) To prevent the production, possession and dissemination of images and all other materials that depict, glorify or incite violence against children, including when perpetrated by children, particularly through information technologies, such as the Internet, in particular social networking environments.
16. Broad public education and awareness campaigns are required. Member States, in cooperation with educational institutions, non-governmental organizations, relevant professional associations and the media, are urged, as appropriate and while taking into consideration relevant international human rights instruments:
- (a) To implement and support effective public awareness and public education initiatives that prevent violence against children by promoting respect for their rights and by educating their families and communities about the harmful impact of violence;

¹⁵¹ Economic and Social Council resolution 2002/13, annex.

(b) To raise awareness of how to prevent and respond to violence against children among persons who have regular contact with children in the justice, child protection, social welfare, health and education sectors and in areas relating to sport, culture and leisure activities;

(c) To encourage and support inter-agency cooperation in implementing violence prevention activities and programmes, planning and delivering public information campaigns, training professionals and volunteers, gathering data on the incidence of violence against children, monitoring and evaluating the effectiveness of programmes and strategies and exchanging information on good practices and lessons learned;

(d) To encourage the private sector, in particular the information and communications technology sector, the tourism and travel industry and the banking and finance sectors, and civil society to participate in the development and implementation of policies to prevent the exploitation and abuse of children;

(e) To encourage the media to contribute to community efforts to prevent and respond to violence against children and to promote changes in social norms that tolerate such violence, and to encourage the establishment of media-led ethical guidelines that will allow child-friendly coverage and reportage on cases involving child victims of abuse, exploitation, neglect and discrimination, taking into consideration the right of children to privacy;

(f) To involve children, their families, communities, local leaders, religious leaders and criminal justice and other relevant professionals in discussing the impact and detrimental effects of violence against children and ways to prevent violence and eliminate harmful practices;

(g) To challenge attitudes that condone or normalize violence against children, including the tolerance and acceptance of corporal punishment and harmful practices, and the acceptance of violence.

17. In order to address the vulnerability and the specific risks of violence faced by unaccompanied children, migrant children and children who are refugees or asylum seekers, Member States are urged, as appropriate and without prejudice to their obligations under international law:

(a) To ensure that these children have access to independent assistance, advocacy and advice, that they are always placed in appropriate accommodation and treated in a manner that is fully compatible with their best interests, that they are separated from adults when necessary to protect them and, when applicable, to sever relationships with smugglers and traffickers, and that a legally appointed representative is available from the moment an unaccompanied child is detected by the authorities;

(b) To conduct regular analyses of the nature of the threats faced by these children and to assess their needs for assistance and protection;

(c) To uphold the principle of burden-sharing and solidarity with the host country and to enhance international cooperation.

III. Promoting research and data collection, analysis and dissemination

18. Member States, the institutes of the United Nations crime prevention and criminal justice programme network, relevant entities of the United Nations system, other relevant international organizations, research institutes, non-governmental organizations and professional associations are urged, as appropriate:

(a) To set up and strengthen mechanisms for the systematic and coordinated collection of data on violence against children, including on violence against children in contact with the justice system;

(b) To monitor and publish periodic reports on cases of violence against children reported to the police and other criminal justice agencies, including the number of cases, apprehension or arrest and clearance rates, prosecution and case disposition with regard to the alleged offenders and the prevalence of violence against children and, in so doing, to make use of data derived from population-based surveys. The reports should disaggregate data by type of violence and include, for example, information on the age and sex of the alleged offender and his or her relationship to the victim;

(c) To develop a multilevel system of reporting, starting from the most basic unit of government to the national level and to allow, in accordance with national legislation, the exchange of relevant information,

Resolutions

statistics and data among all relevant institutions to help to ensure comprehensive data gathering for policy and programme development that will promote child protection;

(d) To develop population-based surveys and child-sensitive methodologies aimed at collecting data regarding children, including crime and victimization surveys, to allow for assessment of the nature and extent of violence against children;

(e) To develop and implement indicators relating to the performance of the justice system in preventing and responding to violence against children;

(f) To develop and monitor indicators relating to the prevalence of violence against children in contact with the justice system;

(g) To evaluate the efficiency and effectiveness of the justice system in meeting the needs of child victims of violence and preventing such violence, including with regard to the way in which the justice system treats child victims of violence, the use it makes of different intervention models and the degree to which it cooperates with other agencies responsible for the protection of children, and also to evaluate and assess the impact of current legislation, rules and procedures relating to violence against children;

(h) To collect, analyse and disseminate data on independent inspections of places of detention, access to complaint mechanisms by children in detention and outcomes of complaints and investigations in accordance with the obligations of States under international human rights law;

(i) To use research studies and data collection to inform policy and practice and to exchange and disseminate information concerning successful violence prevention practices;

(j) To encourage and provide sufficient financial support for research on violence against children;

(k) To ensure that data, periodic reports and research are aimed at supporting the efforts of Member States to address violence against children and are used in the framework of constructive cooperation and dialogue with and among Member States.

Part two

Enhancing the ability and capacity of the criminal justice system to respond to violence against children and protect child victims

IV. Establishing effective detection and reporting mechanisms

19. In order to respond to the need to detect and report acts of violence against children, Member States are urged, as appropriate:

(a) To ensure that measures are taken to identify risk factors for different types of violence and identify signs of actual violence in order to trigger appropriate intervention as early as possible;

(b) To ensure that criminal justice professionals who routinely come into contact with children in the course of their work are aware of risk factors and indicators of various forms of violence, in particular at the national level, and that they have received guidance and are trained on how to interpret such indicators and have the knowledge, willingness and ability necessary to take appropriate action, including the provision of immediate protection;

(c) To legally require professionals who routinely come into contact with children in the course of their work to notify appropriate authorities if they suspect that a child is, or is likely to become, a victim of violence;

(d) To ensure that safe child- and gender-sensitive approaches, procedures and complaint, reporting and counselling mechanisms are established by law, are in conformity with the obligations of Member States under the relevant international human rights instruments, take into account relevant international standards and norms on crime prevention and criminal justice and are easily accessible to all children and their representative or a third party without fear of reprisal or discrimination;

(e) To ensure that individuals, and in particular children, reporting in good faith alleged incidents of violence against children are protected against all forms of reprisal;

(f) To work with Internet service providers, mobile telephone companies, search engines, public Internet facilities and others to facilitate and, where feasible, enact appropriate legislative measures to ensure the reporting of any representation, by whatever means, of a child engaged in real or simulated explicit sexual activities or any representation of the sexual parts of a child for primarily sexual purposes, defined as child pornography under the Optional Protocol to the Convention on the Rights of the Child on the sale of children, child prostitution and child pornography¹⁵² to the police or other authorized bodies and the blocking of access to websites where such material is available or the deletion of illegal content, and to keep records, in accordance with the law, and preserve evidence for a period of time and as determined by law for the purpose of investigation and prosecution.

V. Offering effective protection to child victims of violence

20. In order to more effectively protect child victims of violence through the criminal justice process and avoid their secondary victimization, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments, to take appropriate measures:

(a) To ensure that laws clearly define the roles and responsibilities of government departments and define standards for the actions of other institutions, services and facilities responsible for the detection of violence against children and the care and protection of children, in particular in cases of domestic violence;

(b) To ensure that police and other law enforcement agencies have, with judicial authorization where required by national law, adequate powers to enter premises and conduct arrests in cases of violence against children and to take immediate measures to ensure the safety of the children;

(c) To ensure that police, prosecutors, judges and all other relevant professionals who may be in contact with child victims respond promptly to incidents of violence against children and that relevant cases are managed expeditiously and efficiently;

(d) To ensure that criminal justice and other relevant professionals, in dealing with cases of child victims of violence, pay particular attention to child- and gender-sensitive approaches, including through the use of modern technologies in different stages of criminal investigations and criminal proceedings;

(e) To ensure that national standards, procedures and protocols are developed and implemented among relevant national actors in order to respond with sensitivity to child victims of violence whose physical or psychological integrity remains at serious risk and requires their urgent removal from the dangerous context, and that temporary protection and care are provided in an appropriate place of safety pending a full determination of the best interests of the child;

(f) To ensure that the police, courts and other competent authorities have the legal authority to issue and enforce protection measures such as restraining or barring orders in cases of violence against children, including removal of the perpetrator from the domicile and prohibiting further contact with the victim and other affected parties inside and outside the domicile, as well as to impose penalties for breaches of those orders in accordance with national legislation, and to ensure that, when the child victim of violence remains under the care and protection of the non-abusive parent, the parent can safeguard the child and that such protective measures are not dependent on the initiation of criminal proceedings;

(g) To ensure that a registration system is established for judicial protection and restraining or barring orders, where such orders are permitted by national law, so that police and other criminal justice officials can quickly determine whether such an order is in force;

(h) To ensure that an informal or mediated settlement of cases involving violence against children takes place only when it is in the best interests of the child, and does not involve harmful practices, such as forced marriage, taking into account any power imbalance and the vulnerability of the child or his or her family in consenting to a settlement, with due regard for any future risk to the safety of the child or other children;

¹⁵² United Nations, *Treaty Series*, vol. 2171, No. 27531.

(i) To ensure that child victims of violence and their families have access to appropriate mechanisms or procedures in order to obtain redress and reparation, including from the State, and that relevant information about those mechanisms is publicized and easily accessible.

21. Recognizing the fact that, for prosecutions to be effective, it is often necessary for child victims of violence to participate in the criminal justice process, that in some jurisdictions children can be required or compelled to testify and that these children are vulnerable and in need of special protection, assistance and support in order to prevent further hardship and trauma that may result from their participation in the criminal justice process, Member States are required in this regard to ensure that the child's privacy is fully respected at all stages of the proceedings and are urged, as appropriate:

(a) To ensure the availability for children of special services, physical and mental health care and protection that take into account gender and are appropriate to the age, level of maturity and needs of the child in order to prevent further hardship and trauma and promote the physical and psychological recovery and social reintegration of child victims of violence;

(b) To ensure that children who have been subjected to sexual abuse, and especially girls who have become pregnant or children living with HIV/AIDS or other sexually transmitted diseases as a result of the abuse, receive age-appropriate medical advice and counselling and are provided with the requisite physical and mental health care and support;

(c) To ensure that child victims receive assistance from support persons commencing at the initial report and continuing until such services are no longer required;

(d) To ensure that professionals who are responsible for assisting child victims make every effort to coordinate support to avoid unnecessary procedures and limit the number of interviews.

VI. Ensuring effective investigation and prosecution of incidents of violence against children

22. In order to effectively investigate and prosecute incidents of violence against children and bring the perpetrators to justice, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments:

(a) To ensure that the primary responsibility for initiating investigations and prosecutions lies with the police, the prosecution and other competent authorities and does not require an official complaint to be filed by the child victim of violence or a parent or legal guardian of the child;

(b) To adopt and implement policies and programmes aimed at guiding all decisions concerning the prosecution of offences of violence against children and ensuring the fairness, integrity and effectiveness of such decisions;

(c) To ensure that the applicable laws, policies, procedures, programmes and practices related to violence against children are consistently and effectively implemented by the criminal justice system;

(d) To ensure that child-sensitive investigation procedures are adopted and implemented so as to ensure that violence against children is correctly identified and to help provide evidence for administrative, civil and criminal proceedings, while according due assistance to children with special needs;

(e) To develop and implement policies and appropriate responses regarding the investigation and collection of evidence, in particular bodily samples, that take into account the needs and views of child victims of violence in accordance with the age and maturity of child victims, respect their dignity and integrity and minimize intrusion into their lives, while abiding by national standards for the collection of evidence;

(f) To ensure that the persons investigating alleged incidents of violence against children have the duty, powers and necessary authorization to obtain all the information necessary to the investigation, in accordance with criminal procedure as laid out in national law, and have at their disposal all the budgetary and technical resources necessary for effective investigation;

(g) To ensure that great care is taken to avoid subjecting a child victim of violence to further harm through the process of the investigation, including by inviting and giving due weight to the child's views in accordance with the age and maturity of the child and adopting child-sensitive and gender-sensitive investigation and prosecution practices;

(h) To ensure that decisions on the apprehension or arrest, detention and terms of any form of release of an alleged perpetrator of violence against a child take into account the need for the safety of the child and others related to the child, and that such procedures also prevent further acts of violence.

VII. Enhancing cooperation among various sectors

23. Acknowledging the complementary roles of the criminal justice system, child protection agencies, health, education and social service sectors and, in some cases, informal justice systems in creating a protective environment and preventing and responding to incidents of violence against children, Member States are urged, as appropriate:

(a) To ensure effective coordination and cooperation among the criminal justice, child protection, social welfare, health and education sectors in detecting, reporting and responding to violence against children and protecting and assisting child victims;

(b) To establish stronger operational links, particularly in emergency situations, between health and social service agencies, both public and private, and criminal justice agencies for the purposes of reporting, recording and responding appropriately to acts of violence against children, while protecting the privacy of child victims of violence;

(c) To establish stronger links between informal justice systems and justice and child protection institutions;

(d) To develop information systems and inter-agency protocols to facilitate the exchange of information and enable cooperation in identifying incidents of violence against children, responding to them, protecting child victims of violence and holding perpetrators accountable, in accordance with national laws on data protection;

(e) To ensure that violent acts against children, when suspected by health and social services or child protection agencies, are promptly reported to the police and other law enforcement agencies;

(f) To promote the establishment of specialized units specifically trained to deal with the complexities and sensitivities relating to child victims of violence, from which victims can receive comprehensive assistance, protection and intervention services, including health and social services, legal aid and police assistance and protection;

(g) To ensure that adequate medical, psychological, social and legal services sensitive to the needs of child victims of violence are in place to enhance the criminal justice management of cases involving violence against children, to encourage the development of specialized health services, including comprehensive, free and confidential forensic examinations by trained health providers and appropriate treatment, including HIV-specific treatment, and to facilitate and support inter-agency referrals of child victims for services;

(h) To provide support to children whose parents or caregivers are deprived of liberty in order to prevent and address the risk of violence such children may be exposed to as a result of the parents' or caregiver's actions or situation.

VIII. Improving criminal proceedings in matters involving child victims of violence

24. With respect to criminal proceedings in matters involving child victims of violence, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments:

(a) To ensure that comprehensive services are provided and protection measures are taken to ensure the safety, privacy and dignity of victims and their families at all stages of the criminal justice process, without prejudice to the ability or willingness of the victim to participate in an investigation or prosecution, and to protect them from intimidation and retaliation;

(b) To ensure that the child's views are given due weight in accordance with the age and maturity of the child, that the child is provided the opportunity to participate fully in any judicial and administrative proceedings, that every child is treated as a capable witness and that his or her testimony is not presumed to be invalid or untrustworthy by reason of the child's age alone, as long as the court or other competent authority deems that his or her age and maturity allow the giving of intelligible and credible testimony, with or without communication aids and other assistance;

Resolutions

(c) To ensure, in appropriate cases, that child victims of violence are not required to testify as part of the criminal justice process without the knowledge of their parents or legal guardians, that a child's refusal to testify does not constitute a criminal or other offence and that child victims of violence are able to testify in criminal proceedings through adequate measures and child-friendly practices that facilitate such testimony by protecting their privacy, identity and dignity, ensuring their safety before, during and after legal proceedings, avoiding secondary victimization and respecting their need and legal right to be heard while recognizing the legal rights of the accused;

(d) To ensure that child victims of violence, their parents or legal guardians and legal representatives, from the first contact with the justice system and throughout the judicial proceedings, are promptly and adequately informed of, inter alia, the rights of the child, the relevant procedures, available legal aid and the progress and disposition of the specific case;

(e) To ensure that the child victim's parents or legal guardian and, where appropriate, a child protection professional accompany the child during interviews conducted as part of the investigation and during trial proceedings, inter alia, while testifying as a witness, except in the following circumstances, as dictated by the best interests of the child:

(i) The parent(s) or the legal guardian are the alleged perpetrator(s) of the offence committed against the child;

(ii) The court deems that it is not in the best interests of the child to be accompanied by his or her parent(s) or legal guardian, including on the basis of credible concern expressed by the child;

(f) To ensure that proceedings relevant to the testimony of the child are explained to the child and conducted in language that is simple and comprehensible to the child and that interpretation into language that the child understands is made available;

(g) To protect the privacy of child victims of violence as a matter of primary importance, to protect them from undue exposure to the public, for example by excluding the public and the media from the courtroom during the child's testimony, and to protect information relating to a child's involvement in the justice process by maintaining confidentiality and restricting disclosure of information that may lead to identification of the child;

(h) To ensure, within the framework of national legal systems, that criminal proceedings involving child victims take place as soon as possible, unless delays are in the child's best interest;

(i) To provide for the use of child-sensitive procedures, including interview rooms designed for children, interdisciplinary services for child victims integrated within the same location, modified court environments that take child witnesses into consideration, recesses during a child's testimony, hearings scheduled at times of day appropriate to the age and maturity of the child, an appropriate notification system to ensure that the child goes to court only when necessary and other appropriate measures to facilitate the child's testimony;

(j) To ensure that, when child victims of violence may be the subject of intimidation, threats or harm, appropriate conditions are put in place to ensure their safety and that protective measures are taken, such as:

(i) Preventing direct contact between a child victim and the accused at any point during the criminal justice process;

(ii) Requesting restraining orders from a competent court, supported by a registry system;

(iii) Requesting a pretrial detention order for the accused from a competent court, with "no contact" bail conditions;

(iv) Requesting an order from a competent court to place the accused under house arrest if necessary;

(v) Requesting protection for a child victim by the police or other relevant agencies and safeguarding the whereabouts of the child from disclosure.

25. Recognizing the serious nature of violence against children and taking into account the severity of the physical and psychological harm caused to child victims, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments, to ensure, when informal justice systems are resorted to, that violence against children is appropriately denounced and deterred, that

perpetrators of violence against children are held accountable for their actions and that redress, support and compensation for child victims is provided.

26. Recognizing that measures to protect and assist child victims of violence must continue after the person accused of that violence has been convicted and sentenced, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments:

(a) To ensure the right of a child victim of violence, or his or her parents or legal guardian, to be notified of the offender's release from detention or imprisonment if they so wish;

IX. Ensuring that sentencing reflects the serious nature of violence against children

27. Recognizing the serious nature of violence against children, while taking into account the fact that the perpetrators of that violence may also be children, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments:

(a) To ensure that offences involving violence against children are, by law, punishable by appropriate penalties that take into account their grave nature;

(b) To ensure that national law takes into account specific factors which may aggravate a crime, including the age of the victim, the fact that the victim is severely handicapped mentally or intellectually, repeated violent acts, abuse of a position of trust or authority and perpetration of violence against a child in a close relationship with the offender;

(c) To design and implement training programmes for criminal justice professionals on the rights of the child, in particular on the Convention on the Rights of the Child and international human rights law, and to provide information on appropriate ways to deal with all children, in particular those who might be subject to discrimination, and to educate criminal justice professionals about the stages of child development, the process of cognitive development, the dynamics and nature of violence against children, the difference between regular peer groups and gangs, and the appropriate management of children who are under the influence of alcohol or drugs;

(d) To design and deliver guidance, information and training to informal justice system actors in order to ensure that their practices, legal interpretations and decisions comply with international human rights law and effectively protect children against all forms of violence;

Part three

Preventing and responding to violence against children within the justice system

XI. Reducing the number of children in contact with the justice system

29. Recognizing the importance of avoiding the unnecessary criminalization and penalization of children, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments, to ensure that any conduct not considered a criminal offence or not penalized if committed by an adult is also not considered a criminal offence and not penalized if committed by a child, in order to prevent the child's stigmatization, victimization and criminalization.

30. In this regard, Member States are encouraged not to set the minimum age of criminal responsibility at too low an age level, bearing in mind the emotional, mental and intellectual maturity of children, and in this respect reference is made to the recommendations of the Committee on the Rights of the Child to increase the lower minimum age of criminal responsibility without exception to the age of 12 years as the absolute minimum age, and to continue to increase it to a higher age level.

31. Recognizing that an important and highly effective way of reducing the number of children in the justice system is through diversion measures, restorative justice programmes and the use of non-coercive treatment and education programmes as alternative measures to judicial proceedings, as well as the provision of support for families, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments:

(a) To consider diversion to community-based programmes and to provide police and other law enforcement officers, prosecutors and judges with options for diverting children away from the justice system, including warning and community work, to be applied in combination with restorative justice processes;

(b) To foster close cooperation among the justice, child protection, social welfare, health and education sectors, so as to promote the use and enhanced application of alternative measures to judicial proceedings and to detention;

(c) To consider designing and implementing restorative justice programmes for children as alternative measures to judicial proceedings;

(d) To consider the use of non-coercive treatment, education and assistance programmes as alternative measures to judicial proceedings and the development of alternative non-custodial interventions and effective social reintegration programmes.

XII. Preventing violence associated with law enforcement and prosecution activities

32. Mindful of the fact that police and other security forces can sometimes be responsible for acts of violence against children, Member States are urged, while taking into consideration relevant international legal instruments, to prevent abuse of power, arbitrary detention, corruption and extortion by police officers who target children and their families.

33. Member States are urged to effectively prohibit the use of all forms of violence, torture and other cruel, inhuman or degrading treatment or punishment to obtain information, extract confessions, coerce a child into acting as an informant or agent for the police, or engage a child in activities against his or her will.

34. Mindful of the fact that arrests and investigations are situations in which violence against children can occur, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments:

(a) To ensure that all arrests are conducted in conformity with the law, to limit the apprehension, arrest and detention of children to situations in which these measures are necessary as a last resort, and to promote and implement, where possible, alternatives to arrest and detention, including summonses and notices to appear, in cases involving children as alleged perpetrators;

(b) To implement the principle that the apprehension or arrest of children should be conducted in a child-sensitive manner;

Resolutions

(c) To prohibit the use of firearms, electric shock weapons and violent methods to apprehend and arrest children, and to adopt measures and procedures that carefully limit and guide the use of force and instruments of restraint by the police while apprehending or arresting children;

(d) To require, ensure and monitor police compliance with the obligation to notify parents, legal guardians or caregivers immediately following the apprehension or arrest of a child;

(e) To ensure that, when considering whether a parent, legal guardian, legal representative or responsible adult or, when necessary, a child protection professional is to be present at, or to observe a child during, the interview or interrogation process, the best interests of the child as well as other relevant factors are taken into consideration;

(f) To ensure that children are informed of their rights and have prompt access to legal aid during police interrogation and while in police detention, and that they may consult their legal representative freely and fully confidentially;

(g) To review, evaluate and, where necessary, update national laws, policies, codes, procedures, programmes and practices to implement policies and strict procedures for searching children while respecting their privacy and dignity, for taking intimate and non-intimate samples from child suspects and for assessing the age and gender of a child;

(h) To implement measures to specifically prevent violence related to unlawful practices by the police, including arbitrary arrests and detention and extrajudicial punishment of children for unlawful or unwanted behaviours;

(i) To establish accessible, child-appropriate and safe procedures for children to complain about incidents of violence during their arrest or interrogation or while in police custody;

(j) To ensure that alleged incidents of violence against children during their contact with the police are independently, promptly and effectively investigated and that those alleged to have been implicated in violence against children are removed from any position of control or power, whether direct or indirect, over complainants, witnesses and their families, as well as those conducting the investigation;

(k) To take measures to address the risk of violence and protect children during their transport to a court, hospital or other facility, including the risk of violence while being held in court holding cells together with adults;

(l) To ensure that, when a parent, legal guardian or caregiver is arrested, the child's best interests, care and other needs are taken into account.

XIII. Ensuring that deprivation of liberty is used only as a measure of last resort and for the shortest appropriate period of time

35. Recognizing that limiting the use of detention as a sentence and encouraging the use of alternatives to detention can help to reduce the risk of violence against children within the justice system, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments:

(a) Not to deprive children of their liberty unlawfully or arbitrarily and, in cases of deprivation of liberty, to ensure that it is in conformity with the law and used only as a measure of last resort and for the shortest appropriate period of time;

(e) To facilitate professional specialization, or at least specialized training, for criminal justice professionals dealing with children alleged as, accused of or recognized as having infringed criminal law.

XIV. Prohibiting torture and other cruel, inhuman or degrading treatment or punishment

36. Recognizing that no child should be subjected to torture or other cruel, inhuman or degrading treatment or punishment, Member States are urged:

(a) To review, evaluate and, where necessary, update their national laws to effectively prohibit sentences involving any form of corporal punishment for crimes committed by children;

(b) To review, evaluate and, where necessary, update their national laws to ensure that, under legislation and practice, neither capital punishment nor life imprisonment without the possibility of release is imposed for offences committed by persons when they were under 18 years of age.

XV. Preventing and responding to violence against children in places of detention

37. Recognizing that the majority of children deprived of their liberty are in police custody or pretrial or preventive detention and that those children might be at risk of violence, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments:

(a) To ensure that children in police custody or pretrial or preventive detention can promptly appear before a court or tribunal to challenge that detention and that they have an opportunity to be heard either directly or through a representative or an appropriate body in a manner consistent with the procedural rules of national law, in order to obtain a prompt decision on any such action;

(d) To endeavour to reduce pretrial detention by, inter alia, adopting legislative and administrative measures and policies on its preconditions, limitations, duration and alternatives and by taking measures aimed at the implementation of existing legislation, as well as by ensuring access to justice and legal aid.

38. Recognizing that, when children must be detained, the conditions of detention themselves can be conducive to various forms of violence against children, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments:

(a) To ensure that all detention facilities have adopted and implemented child-sensitive policies, procedures and practices, and to monitor compliance with them;

(e) To facilitate the assessment and classification of children held in detention facilities in order to identify their special needs and accordingly provide appropriate protection and individualize treatment and interventions, including with respect to the specific needs of girls, and to ensure that there is a sufficient array of facilities to accommodate and adequately protect children of different ages or with differing needs;

(f) To ensure that treatment and support is offered to detained children with special needs, including to girls who are pregnant, give birth and/or raise children in detention, and that treatment for mental illness, disabilities, HIV/AIDS and other communicable and non-communicable diseases and drug addiction is offered, and to address the needs of children at risk of committing suicide or other forms of self-harm;

(b) To prohibit the use of placement in a dark cell or closed or solitary confinement or any other punishment that may compromise the physical or mental health of a child;

(c) To adopt and implement strict policies guiding the use of force and physical restraints on children during their detention;

(d) To adopt policies prohibiting the carrying and use of weapons by personnel in any facility where children are detained;

(e) To prohibit and effectively prevent the use of corporal punishment as a disciplinary measure, to adopt clear and transparent disciplinary policies and procedures that encourage the use of positive and educational forms of discipline and to establish in law the duty of managers and personnel of detention facilities to record, review and monitor every instance in which disciplinary measures or punishment are used;

(b) To ensure that any person who has been convicted of a criminal offence against a child is not eligible to work in an agency or organization providing services to children, and to require agencies and organizations providing services to children to prevent persons who have been convicted of a criminal offence against a child from coming into contact with children;

(c) To train all personnel and make them aware of their responsibility to identify early signs of risks of violence and mitigate that risk, to report incidents of violence against children and to actively protect children against violence in an ethical and child- and gender-sensitive manner.

41. Taking into account the distinctive needs of girls and their vulnerability to gender-based violence, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments:

(a) To eliminate the risk of all forms of harassment, violence and discrimination against girls;

(b) To ensure that the special needs and vulnerabilities of girls are taken into account in decision-making processes;

(e) To adopt and implement clear policies and regulations on the conduct of staff aimed at providing maximum protection for girls deprived of their liberty from any physical or verbal violence, abuse or sexual harassment.

42. Recognizing the crucial importance of independent monitoring and inspection mechanisms, Member States are urged, as appropriate and while taking into consideration relevant international human rights instruments:

(a) To ensure effective monitoring of, regular access to and inspection of places of detention and community-based institutions by national independent bodies and national human rights institutions, ombudspersons or members of the judiciary, who are empowered to conduct unannounced visits, conduct interviews with children and staff in private and investigate allegations of violence;

International Guidelines for Crime Prevention and Criminal Justice Responses with Respect to Trafficking in Cultural Property and Other Related Offences

Introduction

1. The International Guidelines for Crime Prevention and Criminal Justice Responses with Respect to Trafficking in Cultural Property and Other Related Offences have been developed in recognition of the criminal character of such offences and their devastating consequences for the cultural heritage of humankind. Pursuant to General Assembly resolutions 66/180 and 68/186 and Economic and Social Council resolution 2010/19, draft guidelines were developed by the United Nations Office on Drugs and Crime in consultation with Member States and in close cooperation, as appropriate, with the United Nations Educational, Scientific and Cultural Organization, the International Criminal Police Organization (INTERPOL) and other competent international organizations.

2. The first draft of the guidelines was reviewed at an informal expert group meeting, held from 21 to 23 November 2011, composed of 20 experts from around the world with expertise in various fields related to the subject matter of the guidelines, including representatives of INTERPOL, the United Nations Educational, Scientific and Cultural Organization and the International Institute for the Unification of Private Law. Based on the valuable comments and advice on improving the draft, a second draft was presented to and discussed by the open-ended intergovernmental expert group on protection against trafficking in cultural property at its second meeting, held from 27 to 29 June 2012. Taking into account a compendium, prepared by the Secretariat, of comments made by Member States on the draft guidelines, the expert group reviewed and revised the guidelines at its third meeting, held from 15 to 17 January 2014, with a view to their finalization.

3. The Guidelines are based on crime prevention and criminal justice aspects of protection against trafficking in cultural property, taking into consideration a review of current practices and initiatives in several countries in addressing the problem of trafficking in cultural property, as well as principles and norms arising from the analysis of the following international legal instruments: the United Nations Convention against Transnational Organized Crime;¹⁶⁷ the United Nations Convention against Corruption;¹⁶⁸ the Convention for the Protection of Cultural Property in the Event of Armed Conflict¹⁶⁹ and its First¹⁶⁹ and Second Protocols;¹⁷⁰ the Protocol additional to the Geneva Conventions of 12 August 1949, and relating to the protection of victims of international armed conflicts;¹⁷¹ the Convention on the Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property;¹⁷² the Convention on Stolen or Illegally

4. The present set of non-binding guidelines is available to Member States for their consideration in the development and strengthening of crime prevention and criminal justice policies, strategies, legislation and cooperation mechanisms to prevent and combat trafficking in cultural property and related offences in all situations. Their development follows the expression, by the General Assembly and the Economic and Social Council in their resolutions, of alarm at the growing involvement of organized criminal groups in all forms and aspects of trafficking in cultural property and related offences, and of the need to promote international cooperation to combat crime in a concerted manner.

5. The Guidelines have the purpose of serving as a reference for national policymakers and as a tool for capacity-building in the area of crime prevention and criminal justice responses to trafficking in cultural property and related offences, in coordination with the United Nations Educational, Scientific and Cultural Organization and other competent international organizations, as appropriate. On the basis of the guidelines finalized by the intergovernmental expert group and submitted to the Commission on Crime Prevention and Criminal Justice, and taking into consideration the technical background document containing the version of the guidelines dated April 2012, and the comments made by Member States, the Commission may ask the Secretariat to develop a practical assistance tool, as appropriate, to aid in the implementation of the Guidelines.

6. The Guidelines contain four chapters:

(a) Chapter I contains guidelines on crime prevention strategies (including information and data collection, the role of cultural institutions and the private sector, the monitoring of the cultural property market, imports and exports, and archaeological sites, as well as education and public awareness);

(b) Chapter II contains guidelines on criminal justice policies (including adherence to and implementation of relevant international treaties, the criminalization of specific harmful conduct or the establishment of administrative offences, corporate liability, seizure and confiscation and investigative measures);

(c) Chapter III contains guidelines on international cooperation (including matters related to jurisdictional basis, extradition, seizure and confiscation, and cooperation among law enforcement and investigating authorities, as well as the return, restitution or repatriation of cultural property);

(d) Chapter IV contains a guideline on the scope of application of the Guidelines.

I. Prevention strategies

The absence of registration of cultural property in such inventories shall by no means exclude it from protection against trafficking and related offences.

(a) Introducing or improving statistics on import and export of cultural property;

(b) Introducing or improving statistics, where practical, on administrative and criminal offences against cultural property;

¹⁷³ Ibid., vol. 2421, No. 43718.

Guideline 19. States should consider making it possible, in a way not contradictory to their fundamental legal principles, to infer a perpetrator’s knowledge that an object has been reported as trafficked, illicitly exported or imported, stolen, looted, illicitly excavated or illicitly traded, on the basis of objective factual circumstances, including when the cultural property is registered as such in a publicly accessible database.

Expressing its deepest concern also about the increase in the activities of transnational and national organized criminal entities and others that profit from the smuggling of migrants, especially women and children, and related offences,

Recalling General Assembly resolutions 66/128 of 19 December 2011, entitled “Violence against women migrant workers”, 66/172 of 19 December 2011, entitled “Protection of migrants”, 67/185 of 20 December 2012, entitled “Promoting efforts to eliminate violence against migrants, migrant workers and their families”, 67/219 of 21 December 2012, entitled “International migration and development”, 68/4 of 3 October 2013, entitled “Declaration of the High-level Dialogue on International Migration and Development”, and 68/193 of 18 December 2013, entitled “Strengthening the United Nations crime prevention and criminal justice programme, in particular its technical cooperation capacity”,

Recognizing that international migration is a multidimensional reality of major relevance for the development of countries of origin, transit and destination, and also recognizing that this cross-cutting phenomenon should be addressed in a coherent, comprehensive and balanced manner, while respecting human rights and integrating development aspects, with due regard for social, economic and environmental dimensions,

Underlining the challenges posed by the smuggling of migrants by land, sea and air, as illustrated by events at the global level,

Bearing in mind the obligations of States under applicable international law to exercise due diligence to prevent and combat the smuggling of migrants and to investigate and punish perpetrators, notwithstanding the obligation of States to protect the rights and respect the dignity of smuggled migrants under applicable international law,

Recognizing the sovereign right of States to enact and implement migration and border security measures, without prejudice to applicable international commitments in relation to the free movement of people,

Recognizing also the need for more effective international information-sharing, law enforcement cooperation and mutual legal assistance to prevent and combat the smuggling of migrants,

Recalling that migrants shall not be liable to criminal prosecution under the Protocol against the Smuggling of Migrants by Land, Sea and Air, supplementing the United Nations Convention against Transnational Organized Crime,¹⁸³ for the fact of having been the object of conduct set out in article 6 of the Protocol, and that nothing in the Protocol prevents a State party from taking measures against a person whose conduct constitutes an offence under its domestic law,

Bearing in mind the need for a focused and consistent criminal justice approach to the smuggling of migrants and related offences,

¹⁸³ United Nations, *Treaty Series*, vol. 2241, No. 39574.

Underlining that, although the crime of smuggling of migrants may share, in some cases, some common features with the crime of trafficking in persons, Member States need to recognize that they are distinct crimes requiring separate and complementary legal, operational and policy responses,

Welcoming the work and tools of the United Nations Office on Drugs and Crime in the framework of the Global Programme against the Smuggling of Migrants, including the Model Law against the Smuggling of Migrants, the International Framework for Action to Implement the Smuggling of Migrants Protocol and the Assessment Guide to the Criminal Justice Response to the Smuggling of Migrants,

Gravely concerned by the serious repercussions on the economic and social conditions of the Palestinian people caused by Israel's construction of the wall and its associated regime inside the Occupied Palestinian Territory, including in and around East Jerusalem, and the resulting violation of their economic and social rights, including the rights to work, to health, to education, to property, to an adequate standard of living and to freedom of access and movement,

Recalling, in that regard, the advisory opinion rendered on 9 July 2004 by the International Court of Justice on the legal consequences of the construction of a wall in the Occupied Palestinian Territory²⁰² and General Assembly resolution ES-10/15, and stressing the need to comply with the obligations mentioned therein,

Expressing grave concern at the extensive destruction by Israel, the occupying Power, of properties, including the increased demolition of homes, economic institutions, historical landmarks, agricultural lands and orchards, in the Occupied Palestinian Territory, including East Jerusalem, in particular in connection with its construction of settlements and the wall and confiscation of land, contrary to international law, in the Occupied Palestinian Territory, including in and around East Jerusalem,

Expressing grave concern also over the continuing forced displacement and dispossession of Palestinian civilians, including the Bedouin community, due to the continuing and intensifying policy of home demolitions, evictions and revocation of residency rights in and around occupied East Jerusalem, as well as measures to further isolate the city from its natural Palestinian environs, which have seriously exacerbated the already critical socioeconomic situation being faced by the Palestinian population,

Expressing grave concern further about ongoing Israeli military operations and policies of closures and severe restrictions on the movement of persons and goods, the imposition of crossing closures, checkpoints and a permit regime throughout the Occupied Palestinian Territory, including East Jerusalem, and the consequent negative impact on the socioeconomic situation of the Palestinian people, in particular the Palestinian refugee population, which remains that of a humanitarian crisis,

Expressing grave concern, in particular, about the continuing crisis in the Gaza Strip as a result of the prolonged Israeli closures and severe economic and movement restrictions that in effect amount to a blockade, and

Recognizing the prolonged negative impact of the military operations between December 2008 and January 2009 and in November 2012 on the economic conditions, the provision of social services and the living conditions of the Palestinian civilian population in the Gaza Strip, including as a result of the heavy casualties among civilians, including hundreds of children and women, the internal displacement of thousands of civilians and the widespread damage to homes, vital civilian infrastructure, hospitals, schools, food supply installations, economic, industrial and agricultural properties and several United Nations facilities in the Gaza Strip,

Recalling, in that regard, the relevant United Nations reports, including those of the Economic and Social Council, the Economic and Social Commission for Western Asia and the Human Rights Council,

Gravely concerned about various reports of the United Nations and specialized agencies regarding the substantial aid dependency caused by prolonged border closures, inordinate rates of unemployment, widespread poverty and severe humanitarian hardships, including food insecurity and rising health-related problems, including high levels of malnutrition, among the Palestinian people, especially children, in the Occupied Palestinian Territory, including East Jerusalem,

Expressing grave concern at the deaths and injuries caused to civilians, including children, women and peaceful demonstrators, and emphasizing that the Palestinian civilian population must be protected in accordance with international humanitarian law,

Emphasizing the importance of the safety and well-being of all civilians, and calling for the cessation of all acts of violence, including all acts of terror, provocation, incitement and destruction, and all firing of rockets,

Expressing deep concern that thousands of Palestinians, including many children and women, continue to be held in Israeli prisons or detention centres under harsh conditions, including unhygienic conditions, solitary confinement, excessive use of administrative detention, lack of proper medical care and denial of family visits and of due process, that impair their well-being, and expressing deep concern also about any ill-treatment and harassment of Palestinian prisoners and all reports of torture, while taking note of the agreement reached in May 2012 on conditions of detention in Israeli prisons and calling for its full and immediate implementation,

Conscious of the urgent need for the reconstruction and development of the economic and social infrastructure of the Occupied Palestinian Territory, including East Jerusalem, as well as the urgent need to address the humanitarian crisis facing the Palestinian people, including by ensuring the unimpeded provision of humanitarian assistance and the sustained and regular flow of persons and goods into and out of the Gaza Strip,

Recognizing the efforts by the Palestinian Government, with international support, to rebuild, reform and strengthen its damaged institutions and promote good governance, emphasizing the need to preserve the Palestinian national institutions and infrastructure, and commending in that regard the ongoing efforts to develop the institutions of an independent Palestinian State, including through the implementation of the Palestinian National Development Plan 2011–2013 on governance, economy, social development and infrastructure, and the significant achievements made, as confirmed by the positive assessments made by international institutions regarding readiness for statehood, including by the World Bank, the International Monetary Fund, the United Nations and the Ad Hoc Liaison Committee for the Coordination of the International Assistance to Palestinians, while also expressing concern about the negative impact of the current financial crisis being faced by the Palestinian Government,

Resolutions

5. *Highlights* the urgent need for the incorporation of the recommendations contained in the outcome documents of the World Summit in the revised guidelines for United Nations country teams on preparing the common country assessments and United Nations Development Assistance Frameworks, including the addition of an information and communications technology for development component;

6. *Recalls* General Assembly resolution 60/252 of 27 March 2006, in which the Assembly requested the Council to oversee the system-wide follow-up to the Geneva and Tunis outcomes of the World Summit and, to that end, requested the Council, at its substantive session of 2006, to review the mandate, agenda and composition of the Commission, including considering strengthening the Commission, taking into account the multi-stakeholder approach;

7. *Notes with satisfaction* the holding in Geneva, from 13 to 17 May 2013, of the World Summit on the Information Society Forum 2013, organized by the International Telecommunication Union, the United Nations Educational, Scientific and Cultural Organization, the United Nations Conference on Trade and Development and the United Nations Development Programme, as a multi-stakeholder platform for the coordination of implementation of the outcomes of the World Summit and to facilitate the implementation of the World Summit action lines;

8. *Calls upon* all States, in building the information society, to take steps to avoid and to refrain from taking any unilateral measure not in accordance with international law and the Charter of the United Nations that impedes the full achievement of economic and social development by the population of the affected countries and that hinders their well-being;

9. *Welcomes* the progress highlighted in the report of the Secretary-General on the progress made in the implementation of and follow-up to the outcomes of the World Summit, in particular the fact that the rapid growth in access to mobile telephony since 2005 has meant that more than half of the world's inhabitants have access to information and communications technologies within their reach, in line with one of the World Summit targets, the value of this progress being enhanced by the advent of new services and applications, including m-health, m-agriculture, mobile transactions, m-government, e-government, e-business and development services, which offer great potential for the development of the information society;

10. *Notes with great concern* that many developing countries lack affordable access to information and communications technologies and that, for the majority of the poor, the promise of science and technology, including information and communications technologies, remains unfulfilled, and emphasizes the need to effectively harness technology, including information and communications technologies, to bridge the digital divide;

11. *Recognizes* that information and communications technologies present new opportunities and challenges and that there is a pressing need to address the major impediments that developing countries face in accessing the new technologies, such as an appropriate enabling environment, sufficient resources, infrastructure, education, capacity, investment and connectivity, as well as issues related to technology ownership, standards and flows, and in this regard calls upon all stakeholders to provide adequate resources, enhanced capacity-building and transfer of technology and knowledge to developing countries, particularly the least developed countries;

12. *Also recognizes* the rapid growth in broadband access networks, especially in developed countries, and notes with concern that there is a growing digital divide in the availability, affordability, quality of access and use of broadband between high-income countries and other regions, with the least developed countries and Africa as a continent lagging behind the rest of the world;

13. *Further recognizes* that the transition to a mobile-led communications environment is leading to significant changes in operators' business models and that it requires significant rethinking of the ways in which individuals and communities make use of networks and devices, of government strategies and of ways in which communications networks can be used to achieve development objectives;

14. *Recognizes* that, even with all the developments and the improvement observed in some respects, in numerous developing countries information and communications technologies and their applications are still not available to or affordable for the majority of people, particularly those living in rural areas;

15. *Also recognizes* that the number of Internet users is growing and that, in some instances, the digital divide is also changing in character from one based on whether access is available to one based on the quality of access, information and skills that users can obtain and the value that they can derive from it, and recognizes in this

regard that there is a need to prioritize the use of information and communications technologies through innovative approaches, including multi-stakeholder approaches, within national and regional development strategies;

16. *Takes note* of the global report of the Broadband Commission for Digital Development on the state of broadband in 2013 and universalizing broadband, and notes with interest the continuous efforts of the Broadband Commission in promoting high-level advocacy for the establishment of an enabling environment for broadband connectivity, in particular through national broadband plans and public-private partnerships for ensuring that the development agenda challenges are met with appropriate impact and in conjunction with all stakeholders;

17. *Notes* that, while a solid foundation for capacity-building in information and communications technology has been laid in many areas with regard to building the information society, there is still a need for continuing efforts to address the ongoing challenges, especially for developing countries and the least developed countries, and draws attention to the positive impact of broadened capacity development that involves institutions, organizations and entities dealing with information and communications technologies and Internet governance issues;

18. *Recognizes* the need to focus on capacity development policies and sustainable support to further enhance the impact of activities and initiatives at the national and local levels aimed at providing advice, services and support with a view to building an inclusive, people-centred and development-oriented information society;

19. *Notes* that topics continue to emerge, such as e-environment applications and the contribution of information and communications technologies to early warning, mitigating climate change, social networking, virtualization and cloud computing and services, mobile Internet and mobile-based services, the protection of online privacy and the empowerment and protection, especially against cyberexploitation and abuse, of vulnerable groups of society, in particular children and young people;

20. *Reiterates* the importance of information and communications technology indicators as a monitoring and evaluation tool for measuring the digital divide among countries and within societies and in informing decision makers when formulating policies and strategies for social, cultural and economic development, and emphasizes that the standardization and harmonization of reliable and regularly updated indicators capturing the performance, efficiency, affordability and quality of goods and services are essential for implementing information and communications technology policies;

Internet governance

21. *Reaffirms* that the outcomes of the World Summit related to Internet governance, namely, the process towards enhanced cooperation and the convening of the Internet Governance Forum, are to be pursued by the Secretary-General through two distinct processes, and recognizes that the two processes may be complementary;

22. *Also reaffirms* paragraphs 34 to 37 and 67 to 72 of the Tunis Agenda for the Information Society;²⁰⁷

Enhanced cooperation

23. *Recognizes* the importance of enhanced cooperation in the future, to enable Governments, on an equal footing, to carry out their roles and responsibilities in international public policy issues pertaining to the Internet, but not in the day-to-day technical and operational matters that do not impact on international public policy issues;

24. *Also recognizes* that the process towards enhanced cooperation, to be started by the Secretary-General, involving all relevant organizations by the end of the first quarter of 2006, will involve all stakeholders in their respective roles, will proceed as quickly as possible, consistent with legal process, and will be responsive to innovation; that relevant organizations should commence a process towards enhanced cooperation involving all stakeholders, proceeding as quickly as possible and being responsive to innovation; and that the same relevant organizations shall be requested to provide annual performance reports;

25. *Recalls* that, in its resolution 67/195 of 21 December 2012, the General Assembly invited the Chair of the Commission on Science and Technology for Development to establish a working group on enhanced

Resolutions

26. *Also recalls* that, in its resolution 67/195, the General Assembly requested the Chair of the Commission to ensure that the Working Group on Enhanced Cooperation had balanced representation between Governments, from the five regional groups of the Commission, and invitees from all other stakeholders, namely, the private sector, civil society, technical and academic communities and intergovernmental and international organizations, drawn equally from developing and developed countries;

27. *Notes* that the Working Group held four meetings between May 2013 and May 2014, at which it examined the mandate of enhanced cooperation by issuing a questionnaire and seeking, compiling and reviewing inputs from all Member States and other stakeholders for the purpose of developing draft recommendations, as stipulated by the General Assembly in its resolution 67/195;

28. *Takes note* of the report of the Chair of the Working Group on Enhanced Cooperation of the Commission,²⁰⁸ and expresses its gratitude to the Chair and members and other stakeholders that submitted inputs and contributed to the work of the Working Group;

29. *Notes* that consensus emerged on certain issues while a wide divergence of opinions persisted in a number of other issues that prevented the Working Group from making recommendations on how to fully implement enhanced cooperation as contained in the Tunis Agenda, as stipulated in the mandate given to the Working Group by the General Assembly in resolution 67/195;

30. *Also notes* the work initiated by the Working Group to review the identified international public policy issues pertaining to the Internet, list where there are existing international mechanisms addressing these issues, identify the status of mechanisms, if any, and whether they are addressing the issues, and attempt to identify gaps in order to ascertain what type of recommendations may be required;

31. *Recommends* that this work may be further continued by the secretariat of the Commission with a view to the submission of findings to the Commission at its intersessional meeting for further discussion and their integration into the 10-year review of the progress made in the implementation of the outcomes of the World Summit, to be prepared for consideration by the Commission at its eighteenth session;

view to promoting a comprehensive dialogue with all relevant actors and bodies, and emphasized the importance of promoting national, regional and global efforts to foster the exchange of knowledge and expertise, to assist developing countries in building and strengthening national capacities in that field,

Noting also resolution 1, adopted on 1 November 2012 by the Nineteenth United Nations Regional Cartographic Conference for Asia and the Pacific, held in Bangkok from 29 October to 1 November 2012,²²¹ in which the Conference, realizing the need to improve the sustainability and capability of the Global Geodetic Observing System and the need to encourage and support the adoption of the International Terrestrial Reference Frame as the foundation reference frame, urged the Committee of Experts to consult with Member States to adopt and sustain the global geodetic reference frame and provide a road map for its implementation, and to participate in and make commitments to the Global Geodetic Observing System to ensure its long-term sustainability,

Recognizing also the economic and scientific importance of and the growing demand for an accurate and stable global geodetic reference frame for the Earth that allows the interrelationship of measurements taken anywhere on the Earth and in space, combining geometric positioning and gravity field-related observations, as the basis and reference in location and height for geospatial information, which is used in many Earth science and societal applications, including sea-level and climate change monitoring, natural hazard and disaster management and a whole series of industrial applications (including mining, agriculture, transport, navigation and construction) in which precise positioning introduces efficiencies,

Recognizing further the extraordinary achievements made by national mapping and space agencies, geodetic commissions, research organizations and universities and other international organizations such as the International Federation of Surveyors, building upon initiatives of the International Association of Geodesy, representing the global geodetic community, in measuring and monitoring changes in the Earth's system on a best-effort basis, including the development of the now adopted International Terrestrial Reference Frame,

Recognizing the investments of Member States in developing satellite missions for positioning and remote sensing of the Earth, supporting a range of scientific endeavours that improve our understanding of the "Earth system" and underpin decision-making, and recognizing that the full societal benefits of these investments are realized only if they are referenced to a common global geodetic reference frame at the national, regional and global levels,
