Realization of the Programme and of Mr. Theo van Boven's recommendations

1.1 and "a" recommendation. In accordance with the recommendations of Mr. Theo Van Boven, all three branches of power of Uzbekistan publicly condemned torture of all kinds.

Executive power. Mr. A. Kamilov, the then State Adviser of the President of the Republic of Uzbekistan at the briefing to Diplomatic Corp and foreign journalists in March 2003 pointed out that state is going to fight against torture and other types of cruel treatment.

Coordinating Council of law-enforcement agencies of the Prosecutor General's Office of the Republic of Uzbekistan considered the issues of strict obedience of law-enforcement agencies' officers to international commitments in line with the UN Convention against Torture, discussed legitimacy maintenance during examination of claims and complaints from citizens and monitored illegitimate actions of officers in May 2004.

The Board of the Prosecutor General's Office also discussed the issue of strengthening the prosecutor control over respect to constitutional rights at the times of detention, arraignment and imprisonment.

The Board of the Ministry of Internal Affairs of Uzbekistan raised the issues of legislation concerning the bodies of internal affairs and further ways of its improvement as well as human rights on May 22, 2003. Inadmissibility of any violation of law and human rights of any form in activity of law-enforcement agencies including prohibited methods of investigation and interrogation i.e. torture were included into the Resolution of the Board. This document highlights the necessity to increase attention to claims linked with torture and illegitimate actions of law-enforcement agencies' officers. It created an additional control on their examination and consideration.

Judicial power. On December 19, 2003, the Plenary Session of the Supreme Court of the Republic of Uzbekistan adopted Resolution # 17 "On implementation by courts of laws providing suspect or accused with right to defend", which provide interpretation of "torture" in accordance with the UN Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment. Moreover, the Resolution #12 dated on September 24, 2004 "On implementation of some norms of the Criminal-Procedural Code on admissibility of evidences" points out that "evidences obtained by torture are unacceptable".

Legislative power. In August 2003, the Parliament adopted amendments to the Article 235 of the Criminal Code of the Republic of Uzbekistan which stated that torture and other cruel, inhuman and degrading treatment or punishment on all phases of criminal proceedings are crimes and must be prosecuted by law".

2.1. and Recommendation "b"

Recommendation "b" says "The Government should amend its domestic penal law to include the crime of torture the definition of which should be fully consistent with article 1 of the

Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment and supported by an adequate penalty”.

Uzbekistan marked out a crime connected with torture as an independent type of crime in its domestic legislation.

Article 235 of the Criminal Code of the Republic of Uzbekistan “Use of torture and other forms of cruel, inhuman or degrading treatment and punishment” in a new edition is read as follows:

The Resolution # 17 (December 19, 2003) of the Plenary Session of the Supreme Court of Uzbekistan gives interpretation of “torture” in line with the Convention Against Torture.

The Minister of Internal Affairs of the Republic of Uzbekistan on December, 18, 2003 issued the Instruction №334 with the announcement of the purposes and essence of introduction of the given article in the Criminal Code, and also the instruction on obligatory studying of the given norm and establishment of the special separate order of the account and control of complaints and claims of citizens on such facts.

Mass Media constantly explain rights of citizens in dealing with law-enforcement officers.

2.3. "Guidance on drafting reports on tortures" by Kamiy Giffare (Centre on Human Rights, Essex University, UK, 2000) was translated into Uzbek and published with assistance of the British Embassy in Tashkent in January 2004.

This Brochure has been distributed among officials of law-enforcement agencies and non-governmental organizations.

The corresponding resolutions concerning these issues are adopted by the Board of Prosecutor General's Office and Coordinating Council of law-enforcement agencies.

3.2. Recommendation "c". The round table on "Right for Fair Trial and Introduction of "Habeas Corpus" was held on 20-21 October 2003 in Tashkent. It was organized by American Bar Association, OSCE ODIHR, UNDP and National Human Rights Centre of the Republic of Uzbekistan. 6.1. and recommendation “f” In accordance with articles 256, 257, 266 of Criminal Procedure Code, it is put in practice dismissal of officials accused in use of torture.

7.1. and recommendations “g”. On 24 June 2004, based on the decision by the Collegium of the Ministry of Internal Affairs (MIA) of the Republic of Uzbekistan dated 22 May 2003, MIA issued the Order № 187 “On establishment of the Central Commission on Observing of Human Rights”. The Program of actions aimed on strengthening of lawfulness and ensuring observance of human rights within Internal Affairs Bodies has been developed and approved, and draft Concept on further development and improvement of the MIA penalty execution system for the period till 2010 has been prepared as an Annex to the Order.

Based on this Order, the mentioned Commission chaired by the Minister of Internal Affairs has been created. It has been instructed that information on work carried out on the ground is to be provided to the MIA Central Commission on a monthly basis in order to be analysed and summarized.

In 2003 the National Security Service (NSS) sent to all its divisions an instruction with indication that in case of violation of citizens rights by the NSS personnel not only guilty officers but also their supervisors would be punished.

7.2. The MIA representatives are regular participants of conferences and round tables organized by the National Human Right Centre of the Republic of Uzbekistan, Ombudsman, UNDP, OSCE and other international organizations.

In December 2003, the MIA representative participated in the International Workshop on “Fight Against Torture” held in Almaty with financial support of the UK Foreign Office and in cooperation with the International Bar Association.

In July 2003, 10 officials from the Main Directorate of Execution of Penalties (MDEP) of the MIA went through Improving Effectiveness of Central Asian Penitentiary Bodies special training at the Summer School organized by the OSCE.

In the framework of realization of the Plan on implementation of the recommendations of the UN Committee Against Torture, the OSCE Centre in Tashkent along with the MDEP is executing the Project aimed at increasing the level of legal literacy among penitentiaries personnel and inmates, and their familiarization with the basic international standards in the field of human rights. Within the Project, the MDEP established its own Training Centre to re-train and improve skills of the penalty execution personnel.

In August 2003, in the framework of a training program proposed by the OSCE Centre in Tashkent for penitentiary system personnel 3 regional seminars on human rights and international standards on treatment of inmates were conducted in Tashkent, Navoi and Karshi.

Seven officials from the penalty execution system with assistance of experts from the Helsinki Human Rights Foundation underwent "train – the – trainers" program on human rights in Poland in October 2003.

Another seven officials from Uzbekistan MIA penalty execution agencies participated in the Summer School on human rights organized by the Pavlodar Law College, Committee on Penalty Execution System, Ministry of Justice of the Republic of Kazakhstan in May 2003.

Uzbekistan with support of Konrad Adenauer Foundation hosted regional seminars on Liberalization of the System of Penalty Execution in 2004.

The UNDP along with Freedom House and US Embassy in Tashkent assisted in running the working tour to Slovenia (from 23 October to 2 November 2004) with participation of five Government officials (from the MIA, NSS and Prosecutor's Office) and four human rights activists. The aim was to share experience in introduction of human rights standards into the work of law-enforcement agencies as well as to establish contacts between them which allow to consider creation of the Permanent Commission authorized to monitor human right violations and cases of death in detention and custody. After these joint events a number of discussions on different human rights issues and concrete cases among the appropriate authorities, human rights activists and representatives of donor community were conducted under auspices of Freedom House.

In 2004, the MIA officially requested the UNDP to train mid-level officers for monitoring of human rights, observing the situation and drafting documentation. Twenty officials participated in the training.

Three small grants were allocated to implement human rights joint initiatives of the Government and NGOs. One of the projects is a joint project developed by the Jizak Department of Internal Affairs and NGO "Istiqboli Avlod" aimed at creation of the Legal Training Centre for officers of law-enforcement agencies to provide consultations and educate on human rights. 120 MIA officers from Jizzak province have passed training on human rights and related issues until now.

The MIA officials visited the United States, Turkey, Japan, United Arab Emirates, Bahrain, Austria and other countries to study international experience in observance of human rights by law-enforcement agencies.

7.3. and recommendations "i", "e". The Ministry of Internal Affairs along with Uzbekistan Bar Association developed and put into practice the Regulation for the Main Investigation Department "On order of ensuring protection of the rights of detained, suspected and accused individuals during preliminary investigation and interrogation" aimed at providing full and qualitative legal protection of their rights and liberties. The Regulation put control over behaviour of and professional conduct of law-enforcement officials in order to prevent their illegitimate actions towards detained, suspected and accused.

The implementation of efforts to control activities of law enforcement officials in order to prevent torture and other cruel treatment enabled to develop the Instruction for Prosecutors on the implementation of Article 243 of the Criminal Procedure Code of the Republic of Uzbekistan. According to this instruction prosecutors personally examine suspected or accused persons about the treatment exercised on them during the investigation. Therefore nowadays the interrogation of suspected or accused minors and women on criminal cases is carried out personally by the Prosecutor.

The centralized registration of applications and complaints of this kind, their periodic summarizing and taking duly administrative decisions are envisaged.

Another very important mechanism to examine the citizens' complaints is Ombudsman who will act on the basis of the Law "On Authorized Person for human rights of Oliy Majlis (Ombudsman)" in a new edition starting from 2005. The new Law gives all legal grounds for

carrying out independent investigations over facts of torture and other abuses by official authorities. According to Article 10 of the Law, Ombudsman examines complaints about actions or negligence of authorities or officials, which violate rights, freedoms and interests of citizens, and also has the right to initiate its own investigations.

Adoption of the new Law "On Ombudsman" guaranteeing independent investigations, testifies that this institution purposefully introduced into the criminal-procedural practice of Uzbekistan. The Government and its law enforcement agencies are ready to cooperate in carrying out independent investigations of complaints and other appeals on torture that received a negative public and international resonance.

The order of carrying out so-called "independent investigation" on facts of death of suspected and accused persons is developed. In particular, it allows to include authoritative public figures, human rights activists and relatives of the dead into the process of investigation on the abovementioned facts by respective authorities. In our opinion, it will also provide impartiality and legitimacy of the results of examination.

7.4. The Law "On detention of suspects and accused individuals" is drafted in the Republic of Uzbekistan. This document provides the legal status of these individuals, their rights and responsibilities, the order and conditions in preliminary detention places, the order of the organization of the public control on observance of guarantees of the rights and liberties of the persons under the custody.

8.1 and 8.3. and the recommendation "h". The Main Directorate on Execution of Penalties (MDEP) of the Ministry of Internal Affairs of the Republic of Uzbekistan ensures an unimpeded.

Moreover, the Ministry of Justice developed and registered the Instruction "On the order of visits of diplomats, representatives of international and domestic NGOs, local and foreign journalists to the penitentiaries".

The given Instruction is published in the Collection of the legislation of the Republic of Uzbekistan – the bulletin of the Ministry of Justice. The MDEP distributed the Instruction among international and domestic NGOs.

The Government is developing the system of access to penitentiary institutions for representatives of civil society groups. In this regard, the MDEP elaborated a new standard agreement on access of NGOs to the places of detention.

Uzbekistan established cooperation with the OSCE that for the last few years has organized special trainings on monitoring and drafting of reports on human rights.

In 2002-2004 experts of the OSCE/ODIHR had visited a number of penitentiary establishments in Tashkent City as well as Tashkent, Samarkand, Bukhara, Navoi, Khorezm and Kashkadarya provinces.

On the basis of the Agreement between the Government of Uzbekistan and the International Committee of Red Cross "On humanitarian activity in places of detention" the ICRC representatives conducted 4 visits to penitentiaries in 2001, 5 – in 2002, 33 – in 2003, over 50 – in 2004.

With the assistance of the MDEP of the Ministry of Internal Affairs of the Republic of Uzbekistan, representatives of the ICRC had private conversations with 893 prisoners discussing the conditions in prison and whether they have been subjected to torture and other kind of cruel or degrading treatment. The MDEP officially declared its readiness and intention to establish and develop constant dialogue, organize meetings and take other measures to monitor human rights practices in prisons.

In 2003, the OSCE experts visited 6 prisons and other penitentiaries, the representative of "Prison Reform International" (PRI) (baroness V.Stern - 2 prisons) and the head of "Freedom House" Office in Tashkent (1 prison). Prisons and other penitentiaries were repeatedly visited by the EU experts, diplomatic representatives of the United States, France, Germany, Great Britain, Italy, the Netherlands, Russia, Iran, and other countries, journalists of "Reuters", "France Press", "Associated Press", "BBC" and others.

On June 15, 2004, head of the "Freedom House" Office in Tashkent Ms. M.Sever and adviser of the US Ambassador to Uzbekistan on socio- economic and political issues Ms. S.Kurran visited prison located in Zhaslyk, the Republic of Karakalpakstan.

In October, 2004, independent expert of the UN Human Rights Commission Mr. L.Guseinov visited a number of prisons and penitentiaries.

The main purpose was to have the visitors get acquainted with the human rights practices and living conditions in prisons as well as to reveal any cases of torture or other kinds of inhuman and degrading treatment.

9.1. and recommendation "i".

The implementation of efforts to control activities of law enforcement officials in order to prevent torture and other cruel treatment enabled to develop the Instruction for Prosecutors on the implementation of Article 243 of the Criminal Procedure Code of the Republic of Uzbekistan. According to this instruction prosecutors personally examine suspected or accused persons about the treatment exercised on them during the investigation. Therefore nowadays the interrogation of suspected or accused minors and women on criminal cases is carried out personally by the Prosecutor.

It goes in line with the recommendation "i" of the UN Special Rapporteur.

10.1. and recommendation "j". The Plenary Session of the Supreme Court examined the enforcement of the Articles 85 and 95 of the Criminal Procedure Code of Uzbekistan, according to which evidences received through unauthorized methods of investigation are considered as unacceptable.

On December 19, 2003, the Plenary Session of the Supreme Court of the Republic of Uzbekistan adopted Resolution # 17 "On implementation by courts of laws providing suspect or accused with right to defend". Article 19 states that the evidence received through torture, coercion, deceit or any other cruel or humiliating treatment and unlawful measures cannot be used in bringing charges against a person.

The same requirement is stipulated in article 3 of the Decision of Plenum of the Supreme Court of Republic Uzbekistan №12 of September 24, 2004 "On some issues of application of norms of the criminal laws on inadmissibility of evidences".

The recommendation "i" of the UN Special Rapporteur points that "judges must always ask persons delivered from the Ministry of Internal Affairs' or NSS' custody as to how they have been treated, pay special attention to their condition, and, if needed, to request their physical examination, even though there are no complaint from detainees.

Article 19 of the Decision of the Supreme Court of Republic Uzbekistan №17 of 2003 also stipulates that "Investigator, inspector, public prosecutor, court (judge) must always ask persons delivered from custodies, as to how they have been treated during questioning and investigation as well as to inquire about their detention conditions. On each facts of torture or other illegal methods of inquiry, there must be conducted careful investigation, including physical examination". Officials found involved in using any illegal ways of investigation, including torture and other cruel or humiliating treatment become subject to remedial or criminal prosecution.

12.1. and recommendation "l". Based on these Regulations, a suspect or detainee has the right to have a defence lawyer who can represent his/her client from the moment of detention (not later than first 24 hours) and meet with him/her in private.

According to the Regulations, each investigatory division has a concrete legal consultation office, working 24 hours a day, lawyers of which must always be at reach to represent the interests and rights of arrested or detained persons.

12.3. Based on a Plan of measures of the State Public Prosecutor's Office for the first half-year 2004, the Coordination Council of law enforcement bodies discussed issues of observance of the law when considering complaints and applications of citizens and wrongful actions of law-enforcement officials and supervising bodies.

Also, the Board of the State Public Prosecutor's Office discussed measures on strengthening public prosecutor's supervision of observance of constitutional rights of citizens during detention and imprisonment.

12.4. Mass Media constantly covers the right of arrested person to defence. The instructions booklet on the rights of all parties in criminal trial has been developed, which is distributed among employees of law-enforcement bodies. Such instructions are accessible to all citizens. Besides, these booklets are officially handed over to arrested or detained persons. The booklets explain their right to defence.

13.1. and recommendations "m". Within the framework of the project of the continuous juridical education, the Centre of Continuous Education of Lawyers was established. In 2004, more than 60 lawyers received 1-st technique training at the centre, and all other lawyers of Uzbekistan continues receiving training on the second technique. Since 2003 Association of lawyers together with the Ministry of Justice has been conducting training courses at the Training Centre of Lawyers.

13.3. Now the Association of lawyers and the Ministry of Justice of Republic Uzbekistan is developing a draft of the Concept of Reforming Bar, which will create basis for adopting a new law on bar, improving legislation on judicial system and the further realization of the Convention.

13.5. Mass Media constantly covers legal aid practices. The Bar Association has its own "The Lawyer" magazine published in Uzbek and Russian.

The Bar Association has its own web-site (www.advocates.uz). This web-site is a platform for the lawyer that provides any necessary information, court discussions. This activity was financed by the Holland Government under program of the Umbrella Project for human rights.

14.1 . Ministry of Health and Ministry of Internal Affairs composed training program on medico-biological issues of torture for doctors of penitentiary system.

15.1..15.3., 15.6. and recommendation "o". The Government of Uzbekistan actively carry's out the distribution of information and teaching materials, concerning prohibition of tortures. The main document, the provisions of which are taught during such trainings, was the International Covenant on Civil and Political Rights that Uzbekistan ratified in 1992. The provisions of the International Covenant on Civil and Political Rights and the UN Convention Against Torture and Other Cruel, Inhuman and Degrading Treatment and Punishments were in the limelight of the seminar.

In Uzbekistan in the framework of realization of the Plan on implementation of the recommendations of the UN Committee Against Torture, the OSCE Centre in Tashkent along with the MDEP is executing the Project aimed at increasing the level of legal literacy among penitentiaries personnel and inmates, and their familiarization with the basic international standards

in the field of human rights. Within the Project, the MDEP established its own Training Centre to re-train and improve skills of the penalty execution personnel.

International Law was introduced as a compulsory subject to the educational institutions of the law enforcement agencies (the Academy of the Ministry of Internal Affairs, the Institute of the National Security Service, the Lawyer's Professional Development Centre of the Ministry of Justice, Professional Skills Excellence Centre of the Prosecutor General's Office).

The Main Investigation Department of the Ministry of Internal Affairs submitted for consideration to its superiors the proposal to introduce a practice of examination of officers on international human rights standards during certification of their skills and promotion to new position or rank. This proposal received backing from the Ministry of Internal Affairs' top administration. In the event of a proper decision's adoption on it, this initiative will be used in respect of other law enforcement agencies of Uzbekistan.

15.2 The Ministry of Internal Affairs with a financial support of the UNDP Office in Tashkent and in collaboration with the National Centre for Human Rights of Uzbekistan and other relevant government agencies published in Uzbek a compilation of the international human rights documents ratified by Uzbekistan and pertinent to the activities of the law enforcement agencies.

15.4 The Main Investigation Department of the Ministry of Internal Affairs along with Uzbekistan Bar Association developed and put into practice the Regulation for the Main Investigation Department "On order of ensuring protection of the rights of detained, suspected and accused individuals during preliminary investigation and interrogation". These regulations were introduced in 2003. Moreover, with a purpose of further familiarizing the parties to the legal/criminal proceedings about their rights and duties, and improvement of legal literacy and awareness of the population together with the personnel of all internal affairs departments and penitentiary establishments, the information boards and posters on human rights were printed and posted up in all departments and divisions of the MIA.

In September 2004 the brochure "What should you know about your rights?" has a circulation of hundred thousand copies with assistance of the American Bar Association (ABA) and Embassy of Switzerland. This brochure is given to every individual in detention. All copies are published for the MIA, however, issuing of the similar brochure is to be done for the prosecutor's agencies and National Security Service (SNS).

15.5. The brochure - "Prison Management with Respect to Human Rights" - was published recently. Results of implementation of this clause were discussed at the meeting of Interdepartmental Working Group (November 18, 2004).

16.2. and the recommendation "p". According to this clause the Expert Group was established including representatives the Ministry of Justice, Ministry of Internal Affairs, Prosecutor General's Office and Ombudsman. The Group worked out "Concepts of the further development and improvement of system of execution of punishments of the Ministry of Internal Affairs of the Republic of Uzbekistan for 2005–2010" Project, with initiative to extract the criminal-executive system from the authority of the Ministry of Internal Affairs of Uzbekistan.

17.1. and the recommendation "q". Consideration of practice of application Articles 985-991 of the Civil Code of the Republic of Uzbekistan, providing the order of compensation for moral and material damage to persons have been exposed to the torture or other cruel treatment.

The given right is fixed in the Decision of Plenary Session of the Supreme Court of the Republic of Uzbekistan dated April 28, 2000 "On some questions of application of the legislation on compensation of moral harm".

Moreover, with purpose to improve the system of compensation or rehabilitation of victims of torture within the framework of the Plan on Implementation of the Recommendation of the UN Committee Against Torture, and due to high urgency the problem is under constant control of the Interdepartmental Working Group. In this direction there are some positive moments. In particular, according to data of the NSS the damage for the sum of 490 million (national currency of Uzbekistan) was compensated in 2002, and reached to 850 million sum and 450 thousand US dollars in 2003.

18.1. Recommendation "r". The new edition of the Law "On Ombudsman" was adopted in August 2004. On 30 September, 2004 this law was published in all newspapers nationwide.

Article 13 describes the rights of the Ombudsman including the right to consider the complaints.

Article 14 stipulates the right of Ombudsman "to meet and talk to arrested and detained persons". By the same article Ombudsman is entitled to apply to the relevant agency on bringing to account the official whose actions contain the facts of infringement of human rights and liberties.

The guarantees of protection of human rights during the investigation of complaints by Ombudsman are also ensured. Thus, Article 19 states that "the complainant to the Ombudsman, and also the person appointed by the Ombudsman to collect and analyze the data and to conduct the expert evaluation, can not undergo persecution or be restricted in rights for the undertaken actions".

For the passed time Ombudsman representatives attended all establishments of punishments execution system.

The Agreement on cooperation in the sphere of securing human rights and liberties was signed between Ombudsman and Ministry of Internal Affairs of the Republic of Uzbekistan on 10 September, 2004.

19.1., 19.2. "Ijtimoiy fikr" civil society group conducted survey among citizens of the country about the introduction of moratorium and abolishment of the capital punishment.

The results of the survey showed that the vast majority of people in Uzbekistan (78,2%) agree with the use of capital punishment for the grave crimes. People believe that death penalty is a fair retribution, that offender has to pay for the committed crime. Besides, survey showed that the vast majority of people believe that the existence of capital punishment promote the containment of increase in crime.

During the survey the opinion of the population on introduction of moratorium for death penalty was also studied. In spite of the fact that introduction of the moratorium is of temporary character and aimed at moral preparation of citizens to change their attitude towards death penalty, the opinion of the public on the moratorium was still negative. Thus, more then half of the surveyed (52,6 %) were negative to introduction of moratorium on death penalty. In their opinion, moratorium on death penalty should not be introduced, because that may promote the increase in crime, especially in grave crimes rate.

Thus, as results of the survey have showed, the population of the Republic of Uzbekistan is against the abolition of death penalty in the country and introduction of moratorium.

In January 28, 2005, the President of Uzbekistan I.Karimov at the joint session of the Senate and the Legislative Chamber of the Oliy Majlis raised the issue of death penalty abolishment from penitentiary system: "We are not talking about the moratorium on a death penalty as it is made in some countries when convict has to wait the execution of punishment for years, but its full abolishment".
