II. Annotations and list of documents

A. World Forum for Harmonization of Vehicle Regulations (WP.29)

Insert new agenda items 4.2.2 and 4.2.3, to read:

4.2.2. Simplification of lighting and light-signalling UN Regulations

The Informal Working Group on Simplification of Lighting and Light-Signalling Regulations (IWG SLR) proposed to introduce a new part B into Regulation No. 48 that would serve as a horizontal reference document to which the common provisions of numerous individual device Regulations would be moved. WP.29 is invited to consider the legal and practical consequences of the proposed concept and its possible alternatives, if any, and to provide guidance to GRE and IWG SLR.

Documentation

ECE/TRANS/WP.29/GRE/73

Report of the seventy-third session of GRE
(English only)

4.2.3. Design restrictive requirement in Regulation No. 48

Regulation No. 48 contains a specific requirement for auto-levelling of LED (light emitting diodes) headlamps which does not exist for headlamps with other types of light sources. On the other hand, GRE is currently revising all levelling requirements of Regulation No. 48. WP.29 is invited to provide guidance whether GRE should delete, without delay, the above requirement for LED or to await a new general solution for levelling of all types of headlamps.
