UNFCCC Framework Convention on Climate Change

United Nations Climate Change Conference
COP 14 and CMP 4
Poznan, 1–12 December 2008

Daily Programme [1]

IMPORTANT NOTICE

As in past years, the conference venue will be closed for business on Sunday, 7 December.

*In addition, the Bureau of the Conference of the Parties, upon a request from the Group of 77 and China, took the decision that the Islamic feast of Eid Al-Adha will be observed at COP 14 on Monday, 8 December. No **formal** meetings related to the process will be scheduled on that day. All **formal** meetings currently scheduled for Monday will be rescheduled to Tuesday, 9 December, at the same times.*

*All other meetings not directly related to the process, planned side events and press briefings at the COP 14 conference venue and in the City of Poznan, scheduled to take place on Monday, 8 December, **will proceed as scheduled.***

The conference premises will be open and operational on Monday and Tuesday to support participants.

The City of Poznan is happy to announce that participants who originally scheduled excursions for Tuesday may reschedule to Monday, if they so wish. Participants should contact the Information desk of the City of Poznan, next to the Registration area, in Hall 15A.

[1] The Daily Programme is also available on the COP 14 website at: http://unfccc.int/meetings/cop_14/daily_programme/items/4556.php and includes links to the documents, schedules and other items listed.

Participants are kindly requested to retain copies of documents throughout the sessions, in order to reduce paper consumption.

Round table under agenda item 6 (a) of the SBI for the assessment of the status of implementation of Article 4, paragraph 8, of the Convention, and decisions 5/CP.7 and 1/CP.10

10.00–14.00

Chamois

Under the guidance of the Chair of the Subsidiary Body for Implementation (SBI), a round table will be held today with the participation of Parties and relevant organizations.

The objective of the event is to exchange views on experiences, lessons learned and best practices identified by Parties and other relevant organizations at all levels, in planning and implementing actions and activities to address the adverse effects of climate change and the impact of the implementation of response measures. The outcome of the exchange of views will facilitate the assessment of the status of implementation of Article 4, paragraph 8, of the Convention, and decisions 5/CP.7 and 1/CP.10.

Special announcements

Update of the Assembly document

Submissions to be considered in the update of the Assembly document (FCCC/AWGLCA/2008/16) should be sent, no later than 6 December 2008, to the following e-mail address: secretariat@unfccc.int, with a copy to Mr. Martin Schoenberg (mschoenberg@unfccc.int).

Decisions from the Ozone Secretariat

Delegates may wish to note that copies of two unedited decisions will be made available by the secretariat via the pigeonholes of delegations. The decisions from the Ozone Secretariat are distributed in response to a request by the 20th Meeting of the Parties to the Montreal Protocol on Substances That Deplete the Ozone Layer, held in Doha, Qatar, 16–20 November 2008.

[2] At the third meeting of the SBSTA, a Party suggested to include in the conclusions on *Other matters* aspects related to the collaboration with the Montreal Protocol. The Chair of the SBSTA decided to hold informal consultations on this matter.

Vacancies at the UNFCCC secretariat

Conference participants are encouraged to bring to the attention of qualified individuals in their countries/organizations the link to the employment page of the secretariat website:

<http://unfccc.int/secretariat/employment/recruitment>

Three professional positions are currently advertised:

VA 08/090/FTS	Programme Officer, Financial and Technical Support Programme
VA 08/092/SDM	Manager, Quality and Information Systems, Sustainable Development Mechanisms Programme
VA 08/093/FTS	Associate Programme Officer, Financial and Technical Support Programme

A number of vacancies ranging from entry level to senior management level are expected to be advertised in 2009.

The secretariat is committed to ensuring equitable geographical distribution and gender balance among its staff. To this end, it would like to especially encourage qualified women candidates and candidates from developing countries to apply for vacancies.

Announcements

Host country team has developed the mobile phone application

A first for the UNFCCC process, you can now view the Daily Programme, updated in real time, on your mobile phone. The Programme, together with other interactive information, is available as a downloadable application. To download the guide, launch the WAP browser of your phone and enter the following address: <http://cop14.looksoft.pl>. After the page is loaded, select the link "download" to obtain the mobile guide.

Video conference facilities available in the COP 14 venue

A video conference service will be in operation throughout the conference, on a commercial basis. The service may be used by all participants to conduct video conferences with others anywhere in the world. The video conference service uses standard ISDN or Internet IP connections and will connect to similar equipment. Technical information and booking forms are available from the UNFCCC COP 14 website, under "Services to participants".

Please contact Ms. Monika Stepien at +48 61 869 28 91 or by e-mail at: <cop14@mtp.pl>.

Webcasts of the sessions

For the duration of the conference, all official meetings and press conferences will be available live and on demand, with English or floor audio streams. On-demand files will be available shortly after the close of each meeting.

A selection of side-events will be available on demand in floor languages. Please check the UNFCCC website for the date and time of webcast sessions at <unfccc.int>.

Internet services for participants

Free Internet access in the PlugNplay zone
All participants are invited to take advantage of the free Internet (PlugNplay) service throughout the Conference facility. These services are available in two categories as described below; in either case you do not have to make any changes to settings.

Open network (RJ45) sockets available on the tables located in the Media and Computer Centres
Simply plug the cable into the network port on your laptop. If you need a cable, please request one from the computer support staff located in the respective support areas. Look out for staff wearing blue T-shirts with the COP 14 logo.

WiFi (Wireless) network services available throughout the Conference facility.
The Wireless network is identified by the service: **PlugNplay** and **PlugNplayVPN** (for those needing VPN services).

Note of caution:
The PlugNplay network is open, with no security protection or restrictions. To remain safe, all participants are advised to use appropriate ANTIVIRUS and PERSONAL FIREWALL software and to follow IT security best practice.

Paint for the Planet exhibit

"Paint for the Planet" is a UNEP exhibit of children's art that launched the United Nations campaign "UNite to Combat Climate Change" in New York in October 2008. The paintings are drawn from the UNEP International Children's Painting Competition and showcase children's fears and hopes for the planet. The paintings are on show in the central corridor between Hall 15 and Halls 7/8. The exhibit's theme is also captured in the "UNite to Combat Climate Change" banner hanging above the Climate Change Kiosk.

Credentials

"Credentials of representatives, alternate representatives and advisers shall be issued either by the Head of State or Government or by the Minister for Foreign Affairs." Delegations are kindly requested to present the corresponding letters of credentials to the External Relations team in the Conference Affairs office, located in Hall 15B.

Delegation nameplates

Delegates are kindly requested not to remove country nameplates from the meeting rooms. The secretariat is unable to replace these at short notice and this can lead to serious disruptions at meetings.

Pigeonholes for delegates

Pigeonholes for the distribution of official documents and messages, which delegates are kindly requested to check at regular intervals, are located in Hall 15B. Participants are requested to refrain from distributing non-official material via the pigeonholes.

Security

Participants should ensure that they wear their conference badge in full view at all times, as the security officers may request them to verify their identity. This may lead to some inconvenience at times, but it is expected that participants will understand the need for such arrangements.

Lost and found items

Participants are reminded not to leave personal belongings in meeting rooms. Documents left in meeting rooms and on unattended desks will be removed. The Security office, located in Hall 15A, is responsible for lost and found items.

Information for participants

A booklet on the facilities available at the conference venue, entitled "Information for participants" is available from the Information desk in Hall 15B and also on the COP 14 website.

…inSide climate change publications counter	Participants wishing to distribute documents should contact staff of the Observer Organizations Liaison team on the third floor of Hall 14B. The …inSide climate change publications counter is located in Hall 15B. Posters and flyers relating to side events may be affixed to the Poster boards available at prominent locations around the conference venue.
Meditation room	A room for meditation and prayer is available to participants on demand. Please contact staff at the Information desk in Hall 15B.
Facilities for non-governmental organizations	Offices for the business and industry organizations (BINGOs), environmental groups (ENGOs), indigenous peoples organizations (IPOs), local government and municipal authorities (LGMAs), research and independent NGOs (RINGOs), and the trade union NGOs (TUNGOs) are located in Hall 14B on the first floor.

Events

For a full schedule of side events during the sessions and a list of the exhibits, please see the brochure "**…inSide climate change**", available from the Information desk and the Documents distribution counter, or visit the UNFCCC website. The secretariat would like to note that the scheduling of events remains dependent upon the demands of the negotiating process. For short-term changes please consult the CCTV monitors.

UNFCCC and related events

13.00–15.00	**CDM methodologies – existing and emerging approaches; and PoA – opportunities and challenges** This event presents the methodology consideration process, highlighting project activities covered by methodologies, new approaches for emission reduction estimations, challenges in transport and energy efficiency methodologies, and opportunities and challenges for PoAs.	UNFCCC Ms. Emma Scott-Boon escott-boon@unfccc.int +49 228 815 1321	Kite
18.00–20.00	**Developing performance indicators and long-term strategy and analysing financing options for DTT** Presentation of the interim results of the work of the EGTT on developing performance indicators, a long-term strategy, and analysing financing options for DTT.	UNFCCC Mr. Xiaohua Zhang xzhang@unfccc.int +49 228 815 1306	Kite

Side events

13.00–15.00	**Global observations for climate prediction and adaptation** This joint ESA–WMO side event addresses efforts towards systematic global observations of climate relevant parameters like ECVs defined by GCOS. High quality observations from space and in-situ are fundamental for reliable prediction of climate variability and change, and for adequate adaptation.	European Space Agency (ESA) Mr. Frank Martin Seifert frank.martin.seifert@esa.int +39 06 9418 0560	Swan
13.00–15.00	**The new energy revolution: a sustainable world energy outlook** Greenpeace, Global Wind Energy Council, European Renewable Energy Council: a new scenario shows the energy sector changes needed to reduce CO_2 and tackle climate change. Renewable energy, combined with energy efficiency and smart energy use can deliver half of the world's energy needs by 2050.	Greenpeace International (GPI) Ms. Stephanie Tunmore stephanie.tunmore@uk.greenpeace.org +44 77 9694 7451	Grebe
13.00–15.00	**The GEF experience in financing technology transfer** The GEF will present to Parties the current experience with financing technology transfer and possible ideas for action in the future.	Global Environment Facility (GEF) Ms. Monica Fernandes mfernandes@thegef.org +1 202 473 9647	Aesculapian Snake
13.00–15.00	**Mitigation in agriculture and rural areas** Critical issues in agriculture and rural areas will be discussed, with attention to soil carbon, methodologies for measurement of GHGs and payment schemes. Mitigation opportunities in different biomes and agricultural based systems with positive spillovers for rural livelihoods and food security will also be featured.	Food and Agriculture Organization of the United Nations (FAO) Mr. Michele Bernardi Michele.Bernardi@fao.org +39 065 705 2442	Fox
13.00–15.00	**Indonesian TNA and potential of sectoral approach**	Indonesia Mr. Agus Purnomo apurnomo@menlh.go.id +62 81 199 9462	White Tailed Eagle
18.00–19.30	**Climate change mitigation potential in the Republic of Belarus and post-Kyoto commitments** Belarus evaluated its climate change mitigation potential with due regard for national circumstances and availability of the Kyoto mechanisms. Based on this assessment, the post-Kyoto targets were derived and means available for achieving these targets were identified, along with possible barriers.	Belarus Mr. Alexandre Grebenkov sasha_grebenkov@mail.ru +375 17 226 7727	Grebe
18.00–19.30	**GTOS: enhancing country preparedness for post-Kyoto monitoring, assessment and action** The importance of terrestrial Essential Climate Variables (ECVs) in implementing mitigation and adaptation strategies will be discussed. The need for common methodologies and standards will be noted, especially in regard to reporting, monitoring, modelling and mitigation strategies such as REDD.	Food and Agriculture Organization of the United Nations (FAO) Mr. Reuben Sessa reuben.sessa@fao.org +39 065 705 6519	Swan

18.00–19.30	**Nuclear energy** Nuclear energy will be a key component of international efforts to tackle climate change and meet the world's growing demand for clean and reliable energy. This session will highlight current developments in the nuclear industry and the contribution it can make over the 21st Century.	World Nuclear Association (WNA) Mr. Jonathan Cobb cobb@world-nuclear.org +44 020 7451 1536	Wild Sheep (BINGO)
18.00–19.30	**Community-based adaptation: small is beautiful** CARE International, the World Resources Institute (WRI) and the International Institute for Environment and Development (IIED) discuss the role of community-based adaptation within the post-2012 framework.	CARE International Foundation (Cooperative for Assistance and Relief Everywhere) (CARE International) Ms. Angie Dazé angie@care.ca +233 24 525 8174	Grouse (ENGO)
18.00–19.30	**Local mitigation and adaptation measure of indigenous peoples** The side event will discuss the impacts of mitigation and adaptation measures and will also focus on how indigenous peoples are adapting to climate change using their indigenous knowledge systems.	Tebtebba Foundation Mr. Raymond de Chavez raymond@tebtebba.org +63 74 444 7703	White Tailed Eagle
18.00–19.30	**Monitoring REDD using the GOFC-GOLD Sourcebook: practical examples for data collection** An updated version of the GOFC-GOLD REDD sourcebook offers technical guidance for collecting key data for national REDD implementation activities and capacity development.	Papua New Guinea Mr. Danilo Mollicone dmollicone@ rainforestcoalition.org +39 33 4913 5075	Aesculapian Snake
18.00–19.30	**Biodiversity and REDD** BirdLife, The Wilderness Society and the CBD secretariat discuss means of ensuring that REDD promotes and enhances biodiversity.	BirdLife International (BL) Mr. John Lanchbery john.lanchbery@rspb.org.uk +44 176 768 0551	Fox
19.30–21.00	**Programmatic CDM and JI: first experience with programmes of activities (PoAs)** This event will discuss concrete experiences with the development and design of PoAs in different areas like buildings, transport, renewable energies and fuel switching in CDM and JI host countries. The focus will be on the scope and design, as well as on the financial, operational and methodological requirements of PoAs.	KfW Bankengruppe (KfW) Mr. Bernhard Zander bernhard.zander@kfw.de +49 69 7431 2147	Wild Sheep (BINGO)
19.30–21.00	**The humanitarian response to climate change: early warning/early action** Representatives of international agencies present their views and experiences with integrating climate change risk into policies and measures and for strengthening preparedness and response systems.	International Federation of Red Cross and Red Crescent Societies (IFRC) Ms. Madeleen Helmer climatecentre@redcross.nl +31 704 45 5703	Aesculapian Snake
19.30–21.00	**Carbon capture and storage (CCS): making it happen** The IPCC has identified CCS as the most promising technology for the rapid reduction of global emissions. This side event explores the crucial factors, with a view to engaging key stakeholders to move forward the deployment of CCS. It provides a framework for action.	University of Regina Ms. Victoria Muzychuk victoria.muzychuk@uregina.ca +1 306 337 2296	Fox

19.30–21.00	**European leadership challenges – Poznan to Copenhagen** This is the time for Europe to lead. Europe plays a key role in the international climate policy debate and the fight against dangerous climate change. What does EU leadership look like presently? Is it winning or losing ground in its leadership role?	Climate Action Network – Europe (CAN–Europe) Ms. Karim Harris karim@climnet.org +32 22 29 5225	Grouse (ENGO)
19.30–21.00	**Responding to climate change** **Sustainable building/sustainable living** An exploration of the latest technological advances from the leading experts and manufacturers in the fields of domestic energy efficiency and sustainable building.	Responding to Climate Change (RTCC) Mr. James Ramsey abp@entico.com +44 20 7799 2222	Swan
19.30–21.00	**Community based adaptation needs and priorities for least developed countries** Adaptation needs vary by society and ecosystem. The event presents the experiences of community-based adaptation actions from several ecosystems to reduce vulnerability to climate change of different groups. Presentations cover vulnerabilities of SLR, flood and drought in countries from Asia and Africa.	Bangladesh Centre for Advanced Studies (BCAS) Mr. Atiq Rahman info@bcas.net +88 02 885 1237	WhiteTailed Eagle
19.30–21.00	**Towards a low carbon economy** Co-hosted together with ITU, UNEP, ITUC and IOE, this event focuses on the Green Jobs Initiative: towards decent work in a sustainable, low-carbon world and how ICT can help to shift from a high- to a low-carbon global economy.	International Labour Organization (ILO) Mr. Peter Poschen poschen@ilo.org +41 2 2799 6188	Grebe

Host Country Pavilion – Technologies for Climate Protection Exhibition

The Government of Poland's exhibition in Pavilion 5 is open to all participants and to the public and showcases 120 of the most innovative technological devices and installations that can help combat climate change. The exhibition is organized in five thematic areas: energy saving, renewable energy sources, environmentally friendly transport and adaptation to climate change.

Today's special event: 12.00–17.00 **The Water Machines Tournament**, organized by the Regional Centre of Ecological Education in Łódź, with an award ceremony at 16.45.

European Union Pavilion

The EU Pavilion is located in Hall 9.

10.30–12.30	**How will the EU reach 20% renewable energy in 2020? How much will this contribute to the climate goals?** Representatives of the European institutions and EU member States will present the legislative framework designed to reach the 20 per cent target. The European Renewable Energy Industry will present a roadmap looking at the development of various renewable technologies until 2020 to meet the target.	European Renewable Energy Council	Chopin
10.30–12.30	**The new energy revolution: A sustainable world energy outlook and blueprint for EU–27 energy supply until 2050** A new scenario shows that renewable energy, energy efficiency and smart energy use can deliver half of the world's energy needs by 2050. This event will demonstrate the energy [r]evolution concept for the European Union and provide a specific policy concept to implement this plan.	Greenpeace, European Renewable Energy Council, German Aerospace Center (DLR)	Rubinstein
13.00–15.00	**Carbon capture and storage: the case for demonstration in developing countries** Models show that to achieve low stabilization scenarios it will be necessary to deploy CCS worldwide, not just in Annex I countries. This event will give an overview of EU–China cooperation on CCS and also set out EU ideas for the use of CCS as a CDM methodology. A cocktail reception follows.	European Commission DG Environment	Chopin
13.00–15.00	**EU action to reduce GHG emissions from transport** This event will provide an overview of existing and planned European legislation to reduce GHG emissions from cars, planes, trucks, ships and fuels.	European Commission DG Environment	Rubinstein
15.30–17.30	**Climate change impact on rural areas – studies in Wielkopolska** The speakers at this session are five internationally recognized scientific authorities with solid track records in research and strong links to the IPCC and IGBP. The topics to be presented include climate change impacts on water and biodiversity, and aspects of climate change mitigation in rural areas.	Research Centre for Agricultural and Forest Environment, Polish Academy of Science, Poznan	Chopin
15.30–17.30	**Industrial stakes in scenarios under carbon constraint** The French industry group EPE and think-tank IDDRI are cooperating on carbon constraint scenarios. Economic simulations up to 2050 have been developed with a business-as-usual scenario and a factor 4 scenario. The results of these will be presented and discussed, focusing particularly on their industrial consequences.	Institut du développement durable et des relations internationales (IDDRI), France	Rubinstein

18.00–20.00	**EU progress towards fulfilling its Kyoto obligations** This event will focus on progress made by new member States of the EU and the successful policies they have implemented. The latest data on historical emissions and emission projections for the future will be presented. A cocktail reception follows.	European Commission DG Environment	Chopin
18.00–20.00	**Factors underpinning future action: up-to-date country information for the post-2012 negotiations** This session will present fact sheets on 60 countries looking at their emissions and underlying drivers on a detailed level as well as providing summaries of their policies. Detailed updates of climate policy plans in the major developed countries are also provided. Ecofys collected this country information for the UK Department for Environment, Food and Rural Affairs (DEFRA).	United Kingdom and Ecofys	Rubinstein

Other activities

08.45–09.15 **Launch of the Green Finger Campaign**
In the Registration area, COP participants are invited to paint what they would like to see happen on climate change.. The event is organized by WWF and International Youth.

Forthcoming events

Poznan Business Day

The World Business Council for Sustainable Development and the International Chamber of Commerce are jointly organizing a second global business day on Tuesday, 9 December 2008. The day's event will outline the business response to the building blocks of the Bali Action Plan and will provide a business-focused snapshot on the negotiations. Please register at <http://www.wbcsd.org/web/poznan/guest-registration.htm>. Participation is limited due to physical space and seats will be confirmed on a first to register basis.
