General Introduction

1. The United Nations Documents Index is prepared by the United Nations Library. In general, it lists all documents and publications of the United Nations and the specialized agencies, except restricted (confidential) materials and internal papers. Each monthly issue covers the documents and publications received by the Library during that month. However, some specialized agencies have assumed responsibility for the information contained in their sections and for the listing and indexing of their documents; the documents listed by these agencies are those published at their headquarters during the period covered and are not necessarily available at United Nations Headquarters in New York at the time of their listing. Periodicals and press releases are listed annually in the February issue.

2. Each monthly issue comprises:
(a) General Introduction
(b) List of Abbreviations
(c) Lists of Documents and Publications: arranged by issuing agency, the first section being given to United Nations documents, and succeeding sections to the specialized agencies documents in the alphabetical order of the abbreviated names of the agencies (Bank, FAO, Fund, ICAO, etc.). Each section is arranged in three parts: (1) a list of documents and publications; (2) non-English language editions; and (3) republications. In each part, materials are arranged, so far as possible, in alphabetical-numerical order by symbol. Complete bibliographical details are given only in part (1), where each entry is numbered in a consecutive series, separate series of such entry numbers being assigned to each agency. Parts (2) and (3) are arranged in tabular form with only enough information to identify the documents and publications in these categories. An asterisk (*) distinguishes those documents and publications which summarize the work of an organ, represent the final results of international conferences or research projects, or are works of reference such as bibliographies, handbooks and yearbooks, a selection intended to assist the general user in understanding the current work of the organizations and the relevant documentation.

(d) General Index: a combined author and subject index of all documents and publications listed in each section. All references in this index are to the entry numbers in the respective sections. The indexes in the monthly issues are cumulated in an annual index at the end of the year. It is suggested that the monthly indexes be discarded when replaced by the annual cumulative index which then can be bound with the twelve monthly lists comprising one volume.

3. Information concerning the documentation systems of the United Nations and the specialized agencies, and the availability of their documents and publications is contained in the note preceding the list of Documents and Publications of the United Nations and each of the specialized agencies in the introductions to their respective sections in the January issue. Consolidated lists of depository libraries and sales agents of the United Nations and the specialized agencies appeared as document ST/LIB/4.

4. Requests for documents and publications or for information about them should be addressed to the issuing agency. Thus, inquiries concerning materials published by the specialized agencies should be addressed to the respective agencies (Bank, FAO, Fund, ICAO, etc.), and not to the United Nations. Requests for documents based on information supplied by this publication should stipulate that the request includes revisions, addenda and corrigenda.

5. The United Nations Documents Index is published monthly at an annual subscription rate of $7.50, 54/- stg., Sw.fr. 32.00, post-free. Single copies are available at $.75, 5/- stg., Sw.fr. 3.00. Subscriptions may be placed with the sales agents of United Nations publications (listed on back cover). Orders and inquiries from countries without a sales agent may be addressed to the Sales and Circulation Section, United Nations, New York, or to the Sales Section, European Office of the United Nations, Geneva, Switzerland.

/INTRODUCTION GENERALE

Introduction générale

1. Le 'United Nations Documents Index', établi par la Bibliothèque des Nations Unies, donne la liste de tous les documents et publications de l'Organisation des Nations Unies et des institutions spécialisées, à l'exception des documents à distribution restreinte (documents confidentiels) ou qui n'intéressent que le Secrétariat. Chaque fascicule mensuel énumère les documents et publications que la Bibliothèque a reçus dans le courant du mois. Cependant, certaines institutions spécialisées se chargent de rédiger les parties de l'Index qui leur sont consacrées ainsi que de classer et d'indexer leurs propres documents; elles indiquent les documents publiés à leur siège au cours de la période considérée, parfois avant même qu'il ne soit possible de se les procurer au Siège des Nations Unies à New-York. Les périodiques et les communiqués de presse ne sont énumérés dans l'Index qu'une fois par an, dans le fascicule de février.

2. Chaque index mensuel comprend:

a) Une introduction générale.

b) Une liste des abréviations.

c) Des listes des documents et des publications, classés par organisation, les documents de l'ONU précédant ceux des diverses institutions spécialisées, rangées dans l'ordre alphabétique anglais de leurs abréviations (Bank, FAO, Fund, ICAO, etc.). Pour chaque organisation trois listes sont prévues: 1) documents et publications; 2) éditions dans des langues autres que l'anglais; 3) rééditions. Dans chacune de ces trois listes les documents sont classés autant que possible dans l'ordre alphabétique et numérique de leurs cotes. Il n'est donné de renseignements bibliographiques détaillés que pour la liste 1), où les divers documents sont numérotés les uns à la suite des autres, par séries, chaque institution spécialisée ayant la sienne. Les 2) et 3) sont présentées sous forme de tableaux et ne donnent que les renseignements indispensables pour identifier les documents et les publications énumérés.

Pour aider le public à se tenir au courant des travaux des organisations et à suivre la documentation qui s'y rapporte, on a fait précéder d'un astérisque la cote des documents et publications qui résument les travaux d'un organe, exposent les résultats de conférences internationales ou de travaux de recherches ou sont des ouvrages de référence, tels que bibliographies, manuels et annuaires.

d) Un index général: index unique, par auteur et par sujet, de tous les documents et publications énumérés dans chaque liste. Dans tous les cas, cet index renvoie aux numéros figurant dans les différentes listes. Tous les index mensuels sont groupés à la fin de l'année en un index général annuel. Il est recommandé de supprimer les index mensuels lorsqu'ils sont remplacés par l'index annuel, qui peut alors être relié en un seul volume avec les douze listes mensuelles.

3. La note qui, dans l'introduction aux parties les concernant dans le fascicule de janvier, précède la liste des documents et des publications de l'ONU et de chacune des institutions spécialisées donne tous renseignements utiles sur les systèmes de classement employés et sur la possibilité de se procurer les textes en question. La liste des bibliothèques et librairies dépositaires des publications de l'ONU et des institutions spécialisées figurait dans le document ST/LIB/4.

4. Les commandes de documents et de publications ou les demandes de renseignements doivent être adressées aux organisations qui les publient. Ainsi, les demandes concernant les documents publiés par les institutions spécialisées doivent être adressées à l'institution compétente (Banque, FAO, Fonds, OACI, etc.), et non à l'Organisation des Nations Unies. Dans toute demande de documents établie d'après l'Index il y a lieu de mentionner également les révisions, les additifs et les rectificatifs.

5. Le "United Nations Documents Index" est publié mensuellement. Le prix de l'abonnement annuel est de 7,50 dollars; 54 shillings; 32 frs suisses, franco de port. Le numéro coûte 0,75 dollar; 5 shillings; 3 frs suisses. Les abonnements peuvent être souscrits auprès des librairies dépositaires des publications des Nations Unies (voir liste au verso de la couverture). Les commandes et demandes de renseignements provenant de pays où il n'y a pas de librairie dépositaire peuvent être adressées à la Section des ventes et de la distribution, Organisation des Nations Unies, New-York ou à la Section des ventes, Office européen des Nations Unies, Genève (Suisse).

United Nations

1. The information below applies to documents and publications of all organs of the United Nations with the exception of the International Court of Justice.

Distribution Classification

2. The following classification applies to documents of the United Nations:

(a) General is applied to documents receiving full circulation.

(b) Limited is applied to documents for which wide circulation is unnecessary for any reason other than that given under (c), and, generally, for documents of a provisional nature, such as draft resolutions and amendments thereto, and similar action documents prepared for use at some meetings. Usually such documents are not distributed until they are published in final form as Annexes to the Official Records.

(c) Restricted is applied exclusively to documents whose content requires that they be treated as confidential or withheld from public circulation.

3. All printed Official Records of main organs are published in fascicle form. The record of each meeting is published separately, as an individual booklet or fascicle, immediately after the close of the meeting. At the end of each session there is issued to each recipient of the records a prefatory fascicle which contains the following reference material - a title-page, a table of contents, a list of representatives attending, the agenda, and a check list of the documents of the session, with indication of their republication. For ease of recognition, the fascicles of the opening and closing meetings are so identified in the masthead, and the prefatory fascicle is to be placed before the record of the opening meeting. Meeting records and prefatory fascicles of the Official Records of the General Assembly, the Economic and Social Council and the Trusteeship Council are bound together, in sessional volumes, for sales purposes. Meeting records of the Security Council and Disarmament Commission are available for sale as individual records of meetings.

4. Prices of printed documents and publications are indicated. All sales documents and publications are available in national currencies through authorized sales agents. A list of authorized sales agents to whom all orders and inquiries should be sent is to be found on the back cover of this publication. A list of United Nations sales agents also appeared as document ST/LIB/4. Orders and inquiries from countries where sales agents have not yet been appointed may be sent to:

Sales and Circulation Section,
United Nations,
New York

or

Sales Section,
European Office of
the United Nations,
Geneva, Switzerland

5. Certain periodical publications, such as the United Nations Review and the Monthly Bulletin of Statistics, are offered at a fixed annual subscription. Other publications, such as the Treaty Series and the various Official Records appear at intervals in numbered series, but there is, at present no established annual subscription price for them. However, authorized sales agents do accept standing orders for the Treaty Series or for any series of Official Records. Under this arrangement, publications will be mailed by the agent immediately upon issue and an invoice will be rendered periodically for publications despatched, plus postal charges.

6. The studies and reports prepared by the Secretariat cover a variety of fields. For the convenience of purchasers, the United Nations has established a series of numbered categories for its publications other than periodicals, the Treaty Series and the various Official Records. The following categories have been established.

I. General
II. Economics and Finance
- II. A. Economic Stability and Employment
- II. B. Economic Development
- II. C. World Economy
- II. D. Trade, Finance and Commerce
- II. E. European Economy
- II. F. Economy of Asia and the Far East
- II. G. Latin American Economy
- II. H. Technical Assistance

III. Public Health
IV. Social Questions
V. International Law
VI. A. Trusteeship
VI. B. Non-Self-Governing Territories
VII. Political and Security Council Affairs
VIII. Transport and Communications

X. International Administration
XI. Narcotic Drugs
XII. Education, Science and Culture
XIII. Demography
XIV. Human Rights
XV. Relief and Rehabilitation
XVI. Public Finance and Fiscal Questions

7. Each printed publication, with the exception of periodicals, the Official Records and the Treaty Series, carries on the inside front cover or on the reverse of the title-page a box containing a United Nations publication sales number consisting of the year of publication, the category number of the publication (in roman numerals) and the number of the publication in this particular category (in arabic numerals) issued during the year. The official document number should not be confused with the publication sales number, and need not be quoted unless the document does not bear a publication sales number.

8. Many sales agents will maintain standing orders for persons interested in publications in any of the categories listed above. It is at present impossible to establish an annual subscription rate in advance for any of these categories.

9. Libraries or individuals desiring a copy of every printed publication issued by the United Nations may arrange with sales agents for an "overall" standing order, whereby all Official Records, Secretariat studies and reports, etc. (except periodicals), will be mailed to them upon publication. Subscriptions to United Nations periodicals must be entered separately, even by libraries and individuals placing an "overall" standing order.

Sales Distribution: Mimeographed Document Series

10. Certain mimeographed document series are available by subscription. For information, see the annual catalogues of United Nations publications.

Free Distribution

11. Documents and publications are distributed to Member States, specialized agencies, non-governmental organizations, and depository libraries, under agreed arrangements. It should be noted that documents published in Geneva by ECE, in Bangkok by ECAFE or in Santiago by ECLA, cannot be distributed to some recipients as quickly as those originating at Headquarters Documents of missions in the field are not distributed to depository libraries.

12. The Office of Public Information issues basic material which may be obtained on request by the press, schools, centres of international study, public libraries, and non-governmental organizations. Inquiries should be directed to the Office of Public Information, United Nations, New York, or to United Nations Information Centres.

13. For information concerning free publications of the United Nations Children's Fund (UNICEF) and the United Nations Appeal for Children (UNAC), address the Information Section, United Nations Children's Fund, United Nations, New York.

Depository Libraries

14. A network of depository libraries has been established by the United Nations Library, so that throughout the world there are reference collections of documents of the United Nations accessible to the public. A consolidated list of depository libraries of the United Nations and the specialized agencies appeared as document ST/LIB/4.

15. The Library is authorized to designate at least one depository library in each Member State. In States of very large area or population, additional depository libraries may be designated. These depository libraries are entitled to receive all generally distributed documents and publications and in return are expected to make the collection available to the public. Many of these depositories send their own publications in exchange.

16. Centres of international study may also qualify to receive United Nations documents. A few libraries receive United Nations documents on an exchange basis, in return for extensive services and for publications made available to the United Nations Library.

Nations Unies

1. On trouvera ci-après des renseignements sur les documents et publications de tous les organes de l'Organisation des Nations Unies à l'exception de la Cour internationale de Justice.

Classification des documents distribués

2. Les documents des Nations Unies sont classés de la manière suivante:

a) Documents dont la distribution est générale et qui recoivent la plus large diffusion.

b) Documents dont la distribution est limitée: ce sont les documents qu'il n'est pas nécessaire de diffuser largement pour des raisons autres que les motifs indiqués à l'alinéa c); d'une manière générale, il s'agit de documents de caractère provisoire tels que projets de résolution, amendements à ces projets et autres documents de séance. D'ordinaire, ces documents ne sont pas distribués avant de paraitre sous une forme définitive comme Annexes aux Documents officiels.

c) Documents dont la distribution est restreinte: ce sont les documents qui, en raison de leur contenu, doivent être considérés comme confidentiels ou ne doivent pas recevoir une diffusion publique.

3. Tous les Documents officiels des organes principaux sont imprimés et distribués en fascicules. Le compte rendu de chacune des séances est publié sous forme de brochure ou de fascicule distinct immédiatement après la séance. A la fin de chaque session, le Secrétariat adresse aux destinataires des comptes rendus un fascicule liminaire qui comprend les éléments suivants: page de titre, table des matières, liste des représentants qui ont assisté à la session, ordre du jour et répertoire des documents utilisés pendant la session avec indication de leur nouvelle cote. On reconnaîtra facilement les fascicules qui contiennent le compte rendu des séances d'ouverture et de clôture par la mention spéciale qu'ils portent en haut et à droite de la première page; le fascicule liminaire doit précéder le compte rendu de la séance d'ouverture. Pour l'Assemblée générale, le Conseil économique et social et le Conseil de tutelle, les Documents officiels (comptes rendus de séances et fascicules liminaires) sont mis en vente sous la forme de volumes à la fin de chaque session. Les comptes rendus des séances du Conseil de sécurité et de la Commission du désarmement sont mis en vente isolément.

4. Les documents et publications imprimés portent l'indication de leur prix. On peut se les procurer contre paiement en monnaie nationale auprès des librairies dépositaires agréées. On trouvera au dos de la présente brochure la liste des librairies dépositaires auxquelles peuvent être adressées les commandes et les demandes de renseignements. Une liste des librairies dépositaires des publications des Nations Unies figure également dans le document ST/LIB/4. Les commandes et les demandes de renseignements émanant de pays où des agents attitrés n'ont pas encore été nommés, doivent être adressées à la Section des ventes et de la distribution, Nations Unies, New-York (Etats-Unis) ou à la Section des ventes, Office européen des Nations Unies, Genève (Suisse).

5. Pour certaines publications périodiques, telles que la Revue des Nations Unies et le Bulletin mensuel de statistique, il a été établi un tarif d'abonnement annuel fixe. D'autres publications, telles que le Recueil des traités et les Documents officiels des divers organes, paraissent à intervalles irréguliers, en séries numérotées, et il n'a pas été établi de tarif d'abonnement annuel. Cependant les librairies dépositaires des publications des Nations Unies acceptent les commandes pour le service régulier du Recueil des traités ou des diverses séries de Documents officiels. Conformément à cet arrangement, les publications sont, dès leur parution, envoyées aux abonnés par les agents dépositaires qui établissent périodiquement une facture des publications livrées, augmentée des frais d'envoi.

6. Le Secrétariat de l'Organisation des Nations Unies fait paraître également des études et des rapports sur des questions qui intéressent des domaines divers. Pour faciliter les commandes, les publications des Nations Unies autres que les publications périodiques, le Recueil des traités et les Documents officiels des divers organes ont été classés dans les catégories numérotées que voici:

Toute publication imprimée, à l'exception des Documents officiels, du Recueil des traités et des diverses publications périodiques, porte, au verso de la couverture ou de la première page, une cartouche où est inscrit le numéro de vente, qui se compose de l'année de l'impression, du numéro de la catégorie à laquelle appartient la publication (en chiffres romains) et du numéro de la publication dans la série annuelle de cette catégorie particulière (en chiffres arabes). La cote officielle du document ne doit pas être confondue avec le numéro de vente; il n'est pas nécessaire de l'indiquer, à moins que le document ne porte pas de numéro de vente.

8. De nombreuses librairies dépositaires des publications des Nations Unies organisent un système d'abonnement annuel pour les personnes qui s'intéressent aux publications des catégories mentionnées ci-dessus. Il n'est pas possible à l'heure actuelle d'établir un tarif d'abonnement annuel pour ces diverses publications.

9. Les bibliothèques ou les personnes qui désirent se procurer un exemplaire de chacune des publications mises en vente par les Nations Unies pourront également s'adresser aux librairies dépositaires pour prendre un abonnement général qui leur permettra de recevoir, dès leur parution, tous les Documents officiels, les études et les rapports du Secrétariat, etc. (mais non les publications périodiques). Les abonnements aux publications périodiques des Nations Unies doivent être pris à part même lorsque les intéressés prennent un abonnement général.

Distribution gratuite

11. Des accords ont été conclus pour la distribution des documents et publications aux Etats Membres, aux institutions spécialisées, aux organisations non gouvernementales et aux bibliothèques dépositaires. Cependant, les documents publiés par la Commission économique pour l'Europe à Genève, par la Commission économique pour l'Asie et l'Extrême-Orient à Bangkok ou par la Commission économique pour l'Amérique latine à Santiago ne parviennent pas à certains destinataires aussi rapidement que les documents publiés au Siège. Les documents des missions ne sont pas distribués aux bibliothèques dépositaires des documents et publications des Nations Unies.

12. Le Service de l'information des Nations Unies fait paraître une documentation de base que la presse, les écoles, les centre d'études internationales, les bibliothèques publiques et les organisations non gouvernementales peuvent obrenir sur demande. Les demandes de renseignements doivent être adressées au Service de l'information, Nations Unies, New-York, ou aux centres d'information des Nations Unies.

13. Pour tous renseignements sur les publications gratuites du Fonds des Nations Unies pour l'enfance (FISE) et de l'Appel des Nations Unies en faveur de l'enfance (UNAC), on s'adressera à la Section de l'information, Fonds des Nations Unies pour l'enfance, Nations Unies, New-York.

Bibliothèques dépositaires

14. La Bibliothèque de l'Organisation a créé un réseau de bibliothèques dépositaires des publications des Nations Unies grâce auquel, dans un grand nombre de pays, des collections de documents des Nations Unies sont accessibles au public. Une liste des bibliothèques dépositaires des documents et publications des Nations Unies et des institutions spécialisées figure dans le document ST/LIB/4.

15. La Bibliothèque des Nations Unies peut désigner dans chaque Etat Membre une bibliothèque dépositaire au moins. Dans les Etats au territoire très vaste ou très peuplé, elle peut en désigner plusieurs. Ces bibliothèques dépositaires peuvent recevoir tous les documents miméographiés et imprimés dont la distribution est générale à charge de mettre les collections à la disposition du public. En échange, de nombreuses bibliothèques dépositaires envoient à la Bibliothèque de l'Organisation leurs propres publications.

16. Les centres d'études internationales peuvent aussi demander à recevoir les documents des Nations Unies. Quelques bibliothèques reçoivent les documents des Nations Unies en contrepartie des services qu'elles rendent à la Bibliothèque des Nations Unies et des publications qu'elles mettent à sa disposition.

Centres d'information des Nations Unies et agents d'information

17. On peut également se renseigner sur les documents publiés par les Nations Unies dans les centres d'information des Nations Unies et auprès des agents d'information dont la liste est donnée au paragraphe 17 du texte anglais, page 6.

International Court of Justice

1. Publications. The publications of the Court include:

The decisions given by the Court, that is, judgments, advisory opinions and orders. Each decision is printed in a separate unbound edition. It is also possible to obtain, in January of each year, the collected reports for the preceding year in one bound volume (consecutive pagination is used through the year). For the benefit of those who obtain them at the time of their publication, a stiff cover may be purchased in which it is possible to assemble the separate reports and the index, which may also be purchased separately. The series in which these decisions are published is entitled Reports of judgments, advisory opinions and orders (this series contains the English and the French texts).

The documentation of each case: pleadings, oral arguments, and other relevant documents. This publication appears after the Court has given its final decision in a case. The series is entitled Pleadings, oral arguments, documents. Documents are printed in their original language, that is, in English or in French. The series consists of bound volumes.

Acts and documents concerning the organisation of the Court. In the series bearing this title only one volume has appeared: it contains the English and French texts of the Charter of the United Nations, the Statute of the Court and the Rules of Court, together with certain other documents.

Yearbook. A bound yearbook appears in the autumn of each year; it covers the period from July 15th of the previous year to July 15th of the current year and contains information on the composition of the Court (with a biography of each Judge), the composition of the Registry, the jurisdiction of the Court in contentious and advisory proceedings; it lists the States, members of the United Nations and others, entitled to appear before the Court, the matters dealt with by the Court since 1946 together with a summary of the judgments and advisory opinions given during the course of the year; it gives a digest of the decisions given by the Court relating to the application of the Statute and the Rules, a bibliography of works published on the Court, relevant extracts from treaties, agreements, conventions governing the jurisdiction of the Court. This series is published in two editions, one in English and one in French, the Annuaire.

Catalogue of Publications, in two editions, French and English. The last catalogue was published in 1957 (see also the Yearbook, Chapter VII, "Publications of the Court").

2. Distribution and Sale of Publications. The above publications, which are edited by the Registry and printed by A. W. Sijthoff's Publishing Company of Leyden, are made available by the Registrar to all States entitled to appear before the Court and to international organisations. They may also be purchased by the public from sales agents against payment in local currency. A list of sales agents, who in general are also agents for the publications of the United Nations, is set out at the end of the catalogue of publications of the Court and at the end of each of the Court's publications.

In the case of countries where there are no sales agents, orders should be addressed to the Sales Section of the European Office of the United Nations, Palais des Nations, Geneva (Switzerland), or to the Sales and Distribution Section, United Nations, New York, U.S.A.

Cour internationale de Justice

1. Publications. Les publications de la Cour comprennent:

Les décisions rendues par la Cour, à savoir les arrêts, avis consultatifs et ordonnances. Chaque décision est imprimée en un fascicule non relié. On peut aussi se procurer, en janvier de chaque année, l'ensemble des décisions rendues l'année précédente, reliées en un volume (la pagination pendant l'année est continue). Pour les personnes qui ont acquis les fascicules au fur et à mesure de leur parution, une couverture mobile est mise en vente qui permet de les relier en y ajoutant l'index, lequel est également vendu à part. La série où sont publiées les décisions est intitulée: Recueil des arrêts, avis consultatifs et ordonnances (recueil bilingue, français et anglais).

Le dossier de chaque affaire: pièces de la procédure écrite, plaidoiries, autres documents pertinents. La publication a lieu après que la Cour se soit prononcée définitivement sur l'affaire. Le nom de la série est Mémoires, plaidoiries et documents. Les documents sont imprimés dans leur texte original, c'est-à-dire, selon le cas, en français ou en anglais. Les volumes sont reliés.

Les Actes et documents relatifs à l'organisation de la Cour. Sous ce nom de série, un seul volume a paru: il contient la Charte des Nations Unies, le Statut et le Règlement de la Cour ainsi que divers autres documents (publication bilingue, français et anglais).

L'Annuaire. Chaque année à l'automne parait un annuaire (relié) qui porte sur la période du 15 juillet de l'année précédente au 15 juillet de l'année courante. Il contient: des renseignements sur la composition de la Cour (avec la biographie de chaque juge), sur la composition du Greffe, sur la compétence de la Cour en matière contentieuse et consultative; la liste des Etats admis à ester en justice devant la Cour, Membres des Nations Unies et autres; la liste des affaires traitées par la Cour depuis 1946, ainsi qu'un résumé des arrêts et avis rendus pendant l'année; le digeste des décisions qui sont rendues par la Cour et qui portent application de son Statut et de son Règlement; la bibliographie des ouvrages parus sur la Cour; les extraits pertinents des traités, accords, conventions régissant la compétence de la Cour. Cette série comporte deux éditions: l'une française, l'autre anglaise Yearbook.

Le catalogue des publications, en deux éditions, l'une française et l'autre anglaise. Le dernier catalogue a paru en 1957 (voir également, dans l'Annuaire, le chapitre VII, intitulé "Publications de la Cour").

2. Distribution et vente des publications. Les publications, éditées par les soins du Greffe et imprimées par la Société A. W. Sijthoff à Leyde, sont mises gratuitement par le Greffier à la disposition des Etats admis à ester en justice ainsi que des institutions internationales. D'autre part, elles sont en vente pour le public contre paiement en monnaie locale chez les agents dépositaires. La liste de ces agents, qui sont en général également agents pour les publications des Nations Unies, est reproduite à la fin du catalogue des publications de la Cour et à la fin de chacune des publications de la Cour.

Pour les pays où il n'y a pas de dépositaires, on peut s'adresser à la Section des Ventes de l'Office européen des Nations Unies, Palais des Nations, Genève (Suisse), ou à la Section des Ventes et de la Distribution, Nations Unies, New York (Etats-Unis).

1. ICAO publications comprise the Convention on International Civil Aviation and Annexes thereto; summaries of proceedings and action of the Assembly, the Council, the Air Navigation Commission, the Air Transport Committee, other committees of the Council and of various meetings; reports of commissions of the Assembly, of Air Navigation Conferences, and of divisional, regional, special and legal meetings; regional and technical manuals; ICAO Circulars; the Index of ICAO Publications; tables of agreements and arrangements; the Digest of Statistics; the ICAO Bulletin, and others. For a detailed list and the pricing of salable publications of ICAO: see Catalogue of Salable Publications - 1946-1957, Montreal, 1958.

2. Except as otherwise indicated, these publications are issued either as Documents or Working Papers.

(a) A document (Symbol: Doc) is a publication which is considered to have permanent character or special importance. All salable publications are in the category of documents. Some documents may, at the discretion of the Secretary-General, be issued free of charge to individuals requesting them. Among these documents are, the minutes, rules of procedure and ad hoc reports of the Assembly, the Council, and other deliberative bodies of the Organization; lists of agreements and arrangements registered with ICAO; and the weekly list of documents and working papers produced by the Organization.

(b) A working paper (Symbol: WP) is any publication, other than a document, intended to serve primarily as a basis for discussion at a meeting, and is normally distributed only to those attending the meeting, for which it was prepared. Copies of working papers may, however, be supplied on specific request, at the discretion of the Secretary-General, within one year after the date of their issue.

B. SYMBOLS OF ICAO DOCUMENTS AND WORKING PAPERS

3. ICAO documents are identified by their title and by a reference symbol. The reference symbol consists of two groups of figures separated by a hyphen, a letter code symbol and an oblique stroke. For example:

Doc 500-AT/200

- 200 — Serial number (category listing)
- / — Oblique stroke
- AT — Letter code symbol
- - — Hyphen
- 500 — Serial number (general listing)

The first figure (500 in the example given) is the serial number in the general list of ICAO documents. The code letters (AT in this example) indicate the category of activity concerned (in this case, Air Transport). The second figure (in this case 200) is the serial number allotted to the document within that particular category.

4. For purposes of grouping by category of activity, the United Nations Documents Index lists documents, with symbol components reversed, the category element of the symbol first. However, citation of documents should be made with the symbol in proper order.

5. References to ICAO documents in the United Nations Documents Index are general and serve as a quick finding aid. For detailed analyses of ICAO documents, working papers and minutes of ICAO meetings, the reader should consult the Index of ICAO Publications which that Organization issues at the end of each Assembly and Council session and cumulates annually. ICAO also publishes special indexes as needed.

OACI

Organisation de l'aviation civile internationale

A. CATEGORIES DE PUBLICATIONS

1. Les publications de l'Organisation de l'aviation civile internationale comprennent: la Convention relative à l'aviation civile internationale et ses annexes; les comptes rendus des travaux et décisions de l'Assemblée, du Conseil, de la Commission de navigation aérienne, du Comité du transport aérien, des autres Comités du Conseil et de diverses réunions; les rapports des commissions de l'Assemblée, des Conférences de navigation aérienne, ainsi que des réunions de divisions, réunions régionales, réunions spéciales et réunions juridiques; les manuels régionaux et manuels techniques; les Circulaires OACI; l'Index des documents de l'OACI; les listes d'accords et de contrats internationaux; les Recueils de statistiques; le Bulletin de l'OACI, etc. Le Catalogue des Publications mises en vente par l'OACI, 1946-1957 (édition de 1958) donne la liste détaillée et le prix des publications en vente.

2. Sauf indications contraires, ces publications sont éditées soit comme documents soit comme notes de travail.

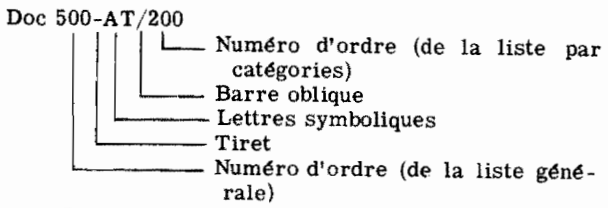
a) Un document (cote Doc) est une publication jugée d'un intérêt permanent ou d'une importance particulière. Toutes les publications en vente sont classées comme documents.

Le Secrétaire général peut faire adresser gratuitement certains documents aux personnes qui en font la demande. Ces documents comprennent notamment: les procès-verbaux, règlements intérieurs et rapports spéciaux de l'Assemblée, du Conseil et des autres organes délibérants de l'Organisation; les listes d'accords et de contrats internationaux enregistrés par l'OACI, ainsi que la liste hebdomadaire des documents et notes de travail publiés par l'Organisation.

b) Sont classées comme notes de travail (cote WP) toutes les publications, autres que les documents, qui sont surtout destinées à servir aux débats d'une réunion; les notes de travail ne sont en principe distribuées qu'aux personnes qui assistent à la réunion pour laquelle elles ont été rédigées. Toutefois, les notes de travail peuvent être fournies, au gré du Secrétaire général et sur demande expresse, pendant un an après leur parution.

B. COTES DES DOCUMENTS ET NOTES DE TRAVAIL DE L'OACI

3. Les documents de l'OACI sont identifiés par leur titre et par leur cote. La cote comprend deux groupes de chiffres, séparés par un tiret, une ou plusieurs lettres symboliques et une barre oblique. Exemple:



Le premier groupe de chiffres (500 dans l'exemple) est le numéro d'ordre dans la liste générale des documents de l'OACI. Les lettres symboliques (AT) désignent le domaine d'activité (Transport aérien). Le second groupe de chiffres (200) est le numéro d'ordre assigné au document dans cette catégorie particulière.

4. Afin d'obtenir un groupement par catégories dans le "United Nations Documents Index", les cotes des documents ont été inscrites dans l'ordre inverse, numéro de catégorie en premier. Toutefois, lorsqu'on cite un document, il convient d'indiquer sa cote dans l'ordre normal.

5. Dans le "United Nations Documents Index", les renvois aux documents et notes de travail de l'OACI présentent un caractère général; ils permettent toutefois de retrouver rapidement les notes de travail et documents essentiels. Pour une analyse plus détaillée des documents, notes de travail et procès-verbaux de réunions de l'OACI, il convient de consulter l'Index des publications de l'OACI, qui est publié à la fin de chaque Assemblée et session du Conseil et fait l'objet d'un index récapitulatif paraissant chaque année. L'OACI publie également des index spéciaux suivant le besoin.

ICITO-GATT

Interim Commission of the International Trade Organization - General Agreement on Tariffs and Trade

1. The GATT Secretariat (ICITO) is responsible for the publication of documents on behalf of the Contracting Parties to the General Agreement on Tariffs and Trade (GATT). GATT documents are almost all restricted at the time of issue and available only to Contracting Parties to the General Agreement. Documents in the ICITO series are infrequently issued.

Most of the documents issued during the sessions of the Contracting Parties to GATT are derestricted only a certain time after the end of each session. Other documents pertaining to no particular session or issued between sessions are also only derestricted periodically. The derestricted documents may be obtained at the headquarters of the GATT Secretariat, Geneva.

2. Sales distribution. GATT unrestricted documents may be obtained from the GATT Secretariat at Geneva. Printed GATT publications may be purchased from agents for United Nations publications (see list on back cover), excluding the monthly International Trade News Bulletin, which is obtainable on subscription from the GATT Secretariat only.

3. Free distribution. Unrestricted GATT documents are distributed free to governments, the United Nations, the specialized agencies, some intergovernmental organizations and libraries.

4. Depository libraries. There are no ICITO-GATT depository libraries as such; but some libraries receive derestricted documents on request.

5. Requests for documents and further information. Address:

GATT Secretariat
Palais des Nations
Geneva, Switzerland.

ICITO-GATT

Commission interimaire de l'Organisation internationale du commerce

1. Le Secrétariat du GATT (ICITO) est chargé de la publication des documents au nom des Parties Contractantes à l'Accord général sur les tarifs douaniers et le commerce (GATT). Lors de leur publication, les documents du GATT ont presque tous un caractère confidentiel et ne sont accessibles qu'aux Parties Contractantes à l'Accord général. Il n'est publié que rarement des documents dans la collection ICITO.

La plupart des documents publiés pendant les sessions des Parties Contractantes à l'Accord général ne sont mis à la disposition du public qu'un certain temps après la fin de chaque session. D'autres documents, qui n'ont trait à aucune session déterminée ou sont publiés entre les sessions ne sont également accessibles au public qu'à partir de dates spécialement fixées. Ces divers documents peuvent être alors obtenus au siège du secrétariat du GATT, à Genève.

2. Distribution par vente. On peut se procurer au secrétariat, à Genève, les documents du GATT mis à la disposition du public. Les publications imprimées sont en vente dans les librairies dépositaires des publications des Nations Unies (voir au verso de la couverture la liste de ces dépositaires), à l'exception du Bulletin du commerce international (mensuel) pour lequel il ne peut être souscrit d'abonnement qu'au secrétariat du GATT.

3. Distribution gratuite. Les documents du GATT accessibles au public sont distribués gratuitement aux gouvernements, à l'Organisation des Nations Unies, aux institutions spécialisées, à certaines organisations intergouvernementales et à un petit nombre d'organisations et de bibliothèques non gouvernementales.

4. Bibliothèques dépositaires. Il n'existe pas de bibliothèques dépositaires, proprement dites, de publications ICITO - GATT, mais certaines bibliothèques reçoivent, sur leur demande, des documents mis à la disposition du public.

5. Demandes de documents et de renseignements complémentaires. Adresse:

Secrétariat du GATT
Palais des Nations
Genève, Suisse.

NO DOCUMENTS LISTED FOR JANUARY

ILO
International Labour Organisation

1. International Labour Organisation documents are listed and indexed by the staff of the International Labour Office Library in Geneva and copy is forwarded for inclusion in the United Nations Documents Index.

As it is the practice of the ILO to reissue processed documents of permanent interest in one of its series of printed publications, processed documents are not included in the Index. An exception to this rule is made in the case of reports prepared for discussion by industrial committees, regional conferences and certain other conferences, which are issued in mimeographed form, as well as declassified Technical Assistance reports.

2. Documentation system. There is no general document numbering system for ILO documents. On the whole, however, they follow a fairly simple pattern, and fall into a few easily identifiable groups. These are as follows:

Documents of the International Labour Conference
Documents of regional and technical conferences
Documents of independent committees, of which the industrial committees, first created in 1945, form a distinct group.
Studies and Reports series
Annuals and periodicals
Special publications, such as the International Labour Code, The Conventions and Recommendations, model codes of safety regulations, etc.

Governing Body documents appear in the Minutes of the Governing Body. These contain the minutes of the debates, and as appendices the reports and other documents submitted for discussion.

The documents of the International Labour Conference consist of reports prepared by the International Labour Office and the proceedings of the Conference. Reports have lettered in the upper right corner the words "Report I [II, III, etc.]"; and before the title the corresponding annotation, "First [second, third] item of the agenda". A similar presentation is adopted in the case of reports prepared for other conferences and for industrial committees.

The series Studies and Reports, which consists of monographs on various topics, was formerly divided according to subject into separate series designated by the letters A to P; the volumes now bear numbers only, with the designation, New Series.

ILO

Most documents in recent years have been issued in English, French and Spanish. Recently some documents have been issued in German and Russian. One series (Workers' education manuals) is also being published in various other languages.

3. Sales distribution. An inclusive subscription to all ILO publications per year is $50.00; £15.0.0. Any publication can be purchased individually. Prices are fixed in the currency of each country; full information and publications may be obtained from branch offices and national correspondents of the ILO who act as sales agents in most countries.

4. Free distribution. Processed documents have limited distribution and are not for sale. Those which are considered to have permanent value are re-issued later in printed form. Working papers, that is, reports submitted to committees, special conferences, etc., now issued in mimeographed form with a printed cover, are available for limited distribution free of charge so far as stocks permit. They are listed in Industry and Labour, in addition to new printed publications and declassified Technical Assistance reports, and assigned a code number.

5. Sources of information. Information about the documents may be obtained from the Headquarters of the International Labour Office in Geneva, or from any of the branch offices or correspondents. Printed sales catalogues in English, French, German, Russian and Spanish editions, are issued by the Office in Geneva from time to time. The latest editions in English, French and Spanish mention the printed publications issued from 1944 to 1957 inclusive. There is also an earlier catalogue covering the years 1919 to 1953 inclusive. A printed circular entitled ILO: New Publications was started in May 1952 and is issued at intervals of about four months. No. 1 of this circular in German and Russian was published in June 1956.

The Library of the International Labour Office has prepared and issued mimeographed catalogues of all printed documents issued from 1919 to the end of 1950, in English and French. These catalogues are in two parts, the first an alphabetical arrangement by author, subject and title, the second, a checklist classed as suggested in paragraph 2 of this note. They are entitled: Catalogue of Publications in English of the International Labour Office, 1919-1950. (International Labour Office: Library. Bibliographical Contributions, no. 5); and Catalogue des publications en langue française du Bureau international du Travail, 1919-1950.) (Bureau international du Travail, Bibliothèque. Contributions bibliographiques, no. 6).

OIT

Organisation internationale du Travail

1. La liste des documents et l'index alphabétique sont préparés par la bibliothèque du Bureau international du Travail; une copie en est transmise à l'Organisation des Nations Unies pour inclusion dans le "United Nations Documents Index".

En régle générale seuls les documents imprimés figurent sur la liste. Les documents polycopiés qui présentent un intérêt permanent sont, habituellement publiés dans une des séries imprimées: ils ne figurent donc pas à "l'Index". Il existe des exceptions à cette règle; ce sont les rapports soumis aux Commissions d'industries, aux conférences régionales et à certaines autres réunions, ainsi que les rapports du Programme d'assistance technique dès qu'ils cessent d'être confidentiels.

2. Système de classification. Il n'existe aucun système de numérotage général des documents de l'O. I. T. Dans l'ensemble, toutefois, ils sont classés selon une méthode relativement simple, et se répartissent entre quelques groupes faciles à reconnaître:

Documents de la Conférence internationale du Travail
Documents de conférences régionales et techniques
Documents des commissions indépendantes, parmi lesquelles les commissions d'industrie, créées en 1945, constituent un groupe distinctif
Série des Etudes et documents
Publications annuelles et périodiques
Publications spéciales, telles que le Code international du travail, les Conventions et recommandations, les règlements-type de sécurité, etc.

Les documents du Conseil d'administration paraissent dans les Procès-verbaux du Conseil d'administration. Ceux-ci contiennent le compte rendu des débats, et, sous la forme d'annexes, les rapports et autres documents dont le Conseil était saisi.

Les documents de la Conférence internationale du Travail se composent de rapports élaborés par le Bureau international du Travail et des comptes rendus des travaux de la Conférence. Dans l'angle supérieur droit de chaque rapport est imprimée l'indication "Rapport I [II, III, etc.]" et, avant le titre, la mention correspondante "Première [deuxième, troisième, etc.] question à l'ordre du jour". La présentation est analogue pour les rapports rédigés pour d'autres conférences ou pour les commissions d'industrie.

Les Etudes et documents, monographies consacrées à diverses questions, se subdivisaient précédemment, d'après leur sujet, en plusieurs séries désignées par les lettres A à P. Ces volumes ne portent actuellement qu'un numéro, précédé de la désignation "Nouvelle série".

La plupart des documents publiés ces dernières années existent en anglais, en francais et en espagnol. Dernièrement quelques documents ont été également publiés en allemand et en russe. Enfin, une nouvelle série intitulée "Cours d'éducation ouvrière" est publiée, non seulement dans les trois langues officielles mais encore dans différentes autres.

3. Distribution par vente. L'abonnement global à toutes les publications de l'O. I. T. paraissant dans l'année coûte 180 fr. s. ou $45. Les publications peuvent être acquises séparément; les prix sont fixés dans la monnaie de chaque pays. Les bureaux de correspondance et les correspondants nationaux du B. I. T. qui, dans la plupart des pays, sont les dépositaires de ces publications, acceptent les commandes et fournissent tous renseignements utiles à ce sujet.

4. Distribution gratuite. Les documents polycopiés, dont la distribution est restreinte, ne sont pas mis en vente. Ceux que l'on juge présenter un intérêt permanent sont imprimés par la suite. Les documents de travail, à savoir les rapports présentés à des commissions, à des conférences spéciales, etc., qui sont actuellement publiés sous la forme de brochures polycopiées avec couverture imprimée, peuvent être obtenus gratuitement, en nombre limité, dans la mesure où les stocks le permettent. Ces documents polycopiés sont mentionnés, à coté des ouvrages imprimés récents, dans la liste de publications qui parait dans les "Informations sociales". Ils sont en général munis d'un symbole; par exemple: les rapports d'assistance technique ont comme symbole "OIT/TAP, etc".

5. Sources d'informations. Les demandes de renseignements concernant les publications peuvent être adressées au Bureau international du Travail à Genève, ou à ses bureaux de correspondance et correspondants nationaux. On trouvera d'utiles indications sur le contenu des documents dans les catalogues imprimés que le Bureau international du Travail fait paraître de temps à autre en anglais, en francais, en espagnol, en allemand et en russe. Le dernier de ces catalogues, publié en anglais, francais et espagnol, mentionne les documents imprimés qui ont parus de 1944 à 1957. Un catalogue publié en 1953, couvre la période de 1919 à 1953. Depuis mai 1952, un bulletin imprimé, intitulé "B. I. T.: Nouvelles publications", paraît environ tous les quatre mois. Ce bulletin paraît depuis juin 1956 en allemand et en russe.

La bibliothèque du Bureau international du Travail a dressé et publié, en anglais et en français, des catalogues polycopiés de tous les documents imprimés parus de 1919 à la fin de 1950. Ces catalogues se composent de deux parties: dans la première, les documents sont classés dans l'ordre alphabétique, par auteur, sujet et titre; dans la deuxième, ils sont rangés méthodiquement dans l'ordre mentionné au paragraphe 2 de la présente note. Ils sont intitulés: Catalogue of Publications in English of the International Labour Office, 1919-1950. (International Labour Office. Library. UNESCO
United Nations Educational, Scientific and Cultural Organization

1. UNESCO documents are listed and indexed by the staff of the Organization in Paris, and copy is forwarded for inclusion in the United Nations Documents Index. The documents listed are those distributed in Paris during the period covered.

2. Documentation system. UNESCO documents are divided into three categories: I) Publications; II) Main Series documents; III) Working Series documents. The Working Series documents are not listed in the United Nations Documents Index.

I. PUBLICATIONS

The term "publication", for the purpose of this statement of policy and procedure, applies to all UNESCO printed works published for sale or other general public distribution.

II. MAIN SERIES DOCUMENTS

Main series documents intended for general distribution comprise the following categories and are designated as shown in example:

a. General Conference documents: these relate to all the questions to be studied by the Conference; they also contain the Conference's records and decisions.

e.g. 7C/3 — 3rd document of the 7th session of the General Conference.

8C/PRG/23 — 23rd document of the Programme Commission of 8th session of the General Conference.

8C/ADM/11 — 11th document of the Administrative Commission of the 8th session of the General Conference.

b. Executive Board documents: these contain the Board's records and decisions.

e.g. 38 EX/SR. 1-13 — Summary records of the 38th session of the Executive Board.

38 EX/Decisions — Decisions of the 38th session of the Executive Board.

According to a decision of the Executive Board, 33rd session, working documents submitted to the Board are not indexed as they are only of transitory interest and superseded by the relevant decision of the Board in each case.

c. Documents of the Secretariat departments, services and bureaux: the reference number consists of the symbol of the originating department, service or bureau, followed by a serial number.

e.g. CUA/52 — 52nd document of the Department of Cultural Activities.

d. Documents originating from two sources: the reference number includes a double symbol - UNESCO's symbol plus that of the organization which has co-operated in preparing the document.

e.g. UNESCO/IBE/334 — 334th document prepared jointly by the International Bureau of Education and UNESCO.

3. Sales distribution. With a very few exceptions, all UNESCO publications are freely available for purchase. Distribution in each country is carried out through a "national distributor"; orders may be placed with any good bookseller or forwarded direct to the national distributor. Payment is made in the currency of the country of the buyer. Catalogues are available on application to the appropriate national distributor. A list of national distributors appeared in the consolidated list, 1958 (ST/LIB/4).

Subscriptions can be accepted to any of the nine periodicals published. In addition, the following special subscription services are offered:

Documents Subscription Service: One copy of each Main Series document (as opposed to publication) sent direct from Paris in the language selected by the subscriber.
Annual rate: $30.00

Comprehensive Periodicals Subscription Service: A combined subscription to all 9 UNESCO periodicals offering a considerable reduction over the total cost of separate subscriptions.
Annual rate: $25.00

Book Subscription Scheme: One copy of each new book or pamphlet in any one language sent on publication. Cost: Value of the books despatched. Payment is made in one sum every six months.

Subscriptions to the above three special services will cover all UNESCO material issued (with the exception of Working Series documents which are not available for general distribution).

4. Free distribution. Documents in the Main Series, which bear in the top right-hand corner a reference consisting of the word "UNESCO", followed by the code letters of the department of origin and a serial number (e.g.: UNESCO/ED/80), are distributed to Member States and National Commissions, and to certain specialists whose names appear on lists drawn up by the department of origin. These documents are, in principle, final issues, constituting a report on a given stage in the implementation of some item in the programme.

Working Series documents, which are identified by the code letters WS in the bottom left-hand corner are produced in a limited number of copies. No stock is kept, and no provision is made for reprinting, except in the case of the administrative category. All copies are held by the originating department, which distributes them only on special request and within the limits of the available stock.

5. Depository libraries. Publications and Main Series documents may be consulted in the depository libraries in all UNESCO Member States. A list of these depository libraries can be obtained on request.

6 A list of UNESCO depository libraries also appeared in the Consolidated List, 1958 (ST/LIB/4).

UNESCO

Organisation des Nations Unies pour l'education, la science et la culture

1. La liste des documents et l'index alphabétique sont préparés par le personnel de l'Organisation des Nations Unies pour l'éducation, la science et la culture; une copie en est transmise à l'Organisation des Nations Unies pour inclusion dans le "United Nations Documents Index".

2. Les documents de l'UNESCO sont divisés en trois catégories: I) Publications; II) Documents de la série principale; III) Documents de la série de travail. Les documents de la série de travail ne figurent pas dans le "United Nations Documents Index".

I. PUBLICATIONS

Le terme "publication" s'applique ici à tous les ouvrages imprimés de l'UNESCO qui font l'objet d'une distribution générale ou qui sont mis en vente.

II. DOCUMENTS DE LA SERIE PRINCIPALE

Les documents de la série principale destinés à la distribution générale comprennent les catégories suivantes et portent les cotes citées en exemple:

a. Les documents de la Conférence générale se rapportent à toutes les questions soumises à la Conférence; ils contiennent également des procès-verbaux et les décisions de la Conférence, leur cote comprend le sigle de la Conférence, des commissions, comités, etc.

Ex.: 7C/3 Troisième document de la septième session de la Conférence générale.
8C/PRG/23 Vingt-troisième document de la Commission du programme de la huitième session de la Conférence générale.
8C/ADM/11 Onzième document de la Commission administrative de la huitième session de la Conférence générale.

b. Les documents du Conseil exécutif contiennent les procès-verbaux et les décisions du Conseil.

Ex.: 38 EX/SR.1-13 Procès-verbaux de la trente-huitième session du Conseil exécutif.
38 EX/Décisions Décisions de la trente-huitième session du Conseil exécutif.

Suivant une décision du Conseil exécutif prise lors de sa trente-troisième session, les documents de travail soumis au Conseil ne figurent pas dans l'index, étant rapidement périmés et remplacés par les décisions du Conseil.

c. Documents des départements, services et bureaux du Secrétariat: leur cote comprend le sigle du département, service ou bureau dont ils émanent, suivi d'un numéro d'ordre.

Ex.: CUA/52 Cinquante-deuxième document du Département des activités culturelles.

d. Documents à double origine: leur cote comprend un double sigle, celui de l'UNESCO et celui de l'organisation qui a collaboré à leur établissement.

ex.: UNESCO/BIE/334 Trois-cent-trente-quatrième document préparé conjointement par le Bureau international de l'éducation et l'UNESCO.

3. Vente. A quelques exceptions près toutes les publications de l'UNESCO sont libres à la vente. La distribution est effectuée dans chaque pays par l'intermédiaire d'un agent général; les commandes doivent être adressées, soit à une bonne librairie locale, soit directement à l'agent général. Les paiements peuvent s'effectuer dans la monnaie de tout pays où l'UNESCO a un agent. Les catalogues peuvent être obtenu auprès de l'agent général. On peut trouver la liste des agents généraux dans document ST/LIB/4, 1958.

On peut s'abonner aux neuf périodiques de l'UNESCO. De plus, on peut choisir entre les abonnements spéciaux suivants:

Abonnements aux documents de l'UNESCO: cet abonnement permet de recevoir directement de Paris un exemplaire de chaque document de la série principale, dans la langue demandée par l'abonné.
Tarif annuel, port compris:
$30.00;

Abonnement général aux périodiques: abonnement combiné aux 9 périodiques de l'UNESCO (édition française ou édition anglaise) permettant de réaliser une économie très sensible.
Tarif annual, port compris: $25.00

Abonnement aux livres: Un exemplaire est envoyé directement de Paris, dans la langue choisie, de tout ouvrage ou opuscule nouveau, dès sa publication. Coût: prix des livres envoyés; règlement global tous les six mois.
Ces trois abonnements couvrent tous les documents et publications de l'UNESCO à l'exception des documents de travail.

4. Distribution gratuite. Les documents de la série principale portant en haut à droite la mention "UNESCO", suivie du sigle du département dont ils émanent, et d'un numéro d'ordre (Ex.: UNESCO/ED/80) sont distribués aux Etats Membres, aux Commissions nationales, et à des experts dont les noms figurent sur des listes spéciales établies par le département auteur. Ces documents sont généralement des rapports sur l'exécution d'un point du programme.

Les documents de la série de travail sont caractérisés par le sigle WS apposé au bas et à gauche du document, et ne font l'objet que d'un tirage limité. Aucun stock n'est constitué et aucun nouveau tirage n'est prévu, sauf lorsqu'il s'agit de la catégorie administrative. Tous les exemplaires tirés sont en dépôt au Département d'origine. Celui-ci ne les distribue que sur demande spéciale et dans la limite du stock disponible.

5. Bibliothèques dépositaires. Les publications et les documents de la série principale peuvent être consultés dans les bibliothèques dépositaires dans tous les Etats Membres de l'UNESCO. Une liste de ces bibliothèques peut être obtenue sur demande. Elle paraît également dans document ST/LIB/4, 1958.

General Introduction

1. The United Nations Documents Index is prepared by the United Nations Library. In general, it lists all documents and publications of the United Nations and the specialized agencies, except restricted (confidential) materials and internal papers. Each monthly issue covers the documents and publications received by the Library during that month. However, some specialized agencies have assumed responsibility for the information contained in their sections and for the listing and indexing of their documents; the documents listed by these agencies are those published at their headquarters during the period covered and are not necessarily available at United Nations Headquarters in New York at the time of their listing. Periodicals and press releases are listed annually in the February issue.

2. Each monthly issue comprises:

(a) General Introduction

(b) List of Abbreviations

(c) Lists of Documents and Publications: arranged by issuing agency, the first section being given to United Nations documents, and succeeding sections to the specialized agencies documents in the alphabetical order of the abbreviated names of the agencies (Bank, FAO, Fund, ICAO, etc.). Each section is arranged in three parts: (1) a list of documents and publications; (2) non-English language editions; and (3) republications. In each part, materials are arranged, so far as possible, in alphabetical-numerical order by symbol. Complete bibliographical details are given only in part (1), where each entry is numbered in a consecutive series, separate series of such entry numbers being assigned to each agency. Parts (2) and (3) are arranged in tabular form with only enough information to identify the documents and publications in these categories. An asterisk (*) distinguishes those documents and publications which summarize the work of an organ, represent the final results of international conferences or research projects, or are works of reference such as bibliographies, handbooks and yearbooks, a selection intended to assist the general user in understanding the current work of the organizations and the relevant documentation.

(d) General Index: a combined author and subject index of all documents and publications listed in each section. All references in this index are to the entry numbers in the respective sections. The indexes in the monthly issues are cumulated in an annual index at the end of the year. It is suggested that the monthly indexes be discarded when replaced by the annual cumulative index which then can be bound with the twelve monthly lists comprising one volume.

3. Information concerning the documentation systems of the United Nations and the specialized agencies, and the availability of their documents and publications is contained in the note preceding the list of Documents and Publications of the United Nations and each of the specialized agencies in the introductions to their respective sections in the January issue. Consolidated lists of depository libraries and sales agents of the United Nations and the specialized agencies appeared as document ST/LIB/4.

4. Requests for documents and publications or for information about them should be addressed to the issuing agency. Thus, inquiries concerning materials published by the specialized agencies should be addressed to the respective agencies (Bank, FAO, Fund, ICAO, etc.), and not to the United Nations. Requests for documents based on information supplied by this publication should stipulate that the request includes revisions, addenda and corrigenda.

5. The United Nations Documents Index is published monthly at an annual subscription rate of $7.50, 54/- stg., Sw.fr. 32.00, post-free. Single copies are available at $.75, 5/- stg., Sw.fr. 3.00. Subscriptions may be placed with the sales agents of United Nations publications (listed on back cover). Orders and inquiries from countries without a sales agent may be addressed to the Sales and Circulation Section, United Nations, New York, or to the Sales Section, European Office of the United Nations, Geneva, Switzerland.

/INTRODUCTION GENERALE

Introduction générale

1. Le 'United Nations Documents Index', établi par la Bibliothèque des Nations Unies, donne la liste de tous les documents et publications de l'Organisation des Nations Unies et des institutions spécialisées, à l'exception des documents à distribution restreinte (documents confidentiels) ou qui n'intéressent que le Secrétariat. Chaque fascicule mensuel énumère les documents et publications que la Bibliothèque a reçus dans le courant du mois. Cependant, certaines institutions spécialisées se chargent de rédiger les parties de l'Index qui leur sont consacrées ainsi que de classer et d'indexer leurs propres documents; elles indiquent les documents publiés à leur siège au cours de la période considérée, parfois avant même qu'il ne soit possible de se les procurer au Siège des Nations Unies à New-York. Les périodiques et les communiqués de presse ne sont énumérés dans l'Index qu'une fois par an, dans le fascicule de février.

2. Chaque index mensuel comprend:

a) Une introduction générale.

b) Une liste des abréviations.

c) Des listes des documents et des publications, classés par organisation, les documents de l'ONU précédant ceux des diverses institutions spécialisées, rangées dans l'ordre alphabétique anglais de leurs abréviations (Bank, FAO, Fund, ICAO, etc.). Pour chaque organisation trois listes sont prévues: 1) documents et publications; 2) éditions dans des langues autres que l'anglais; 3) rééditions. Dans chacune de ces trois listes les documents sont classés autant que possible dans l'ordre alphabétique et numérique de leurs cotes. Il n'est donné de renseignements bibliographiques détaillés que pour la liste 1), où les divers documents sont numérotés les uns à la suite des autres, par séries, chaque institution spécialisée ayant la sienne. Les 2) et 3) sont présentées sous forme de tableaux et ne donnent que les renseignements indispensables pour identifier les documents et les publications énumérés.

Pour aider le public à se tenir au courant des travaux des organisations et à suivre la documentation qui s'y rapporte, on a fait précéder d'un astérisque la cote des documents et publications qui résument les travaux d'un organe, exposent les résultats de conférences internationales ou de travaux de recherches ou sont des ouvrages de référence, tels que bibliographies, manuels et annuaires.

d) Un index général: index unique, par auteur et par sujet, de tous les documents et publications énumérés dans chaque liste. Dans tous les cas, cet index renvoie aux numéros figurant dans les différentes listes. Tous les index mensuels sont groupés à la fin de l'année en un index général annuel. Il est recommandé de supprimer les index mensuels lorsqu'ils sont remplacés par l'index annuel, qui peut alors être relié en un seul volume avec les douze listes mensuelles.

3. La note qui, dans l'introduction aux parties les concernant dans le fascicule de janvier, précède la liste des documents et des publications de l'ONU et de chacune des institutions spécialisées donne tous renseignements utiles sur les systèmes de classement employés et sur la possibilité de se procurer les textes en question. La liste des bibliothèques et librairies dépositaires des publications de l'ONU et des institutions spécialisées figurait dans le document ST/LIB/4.

4. Les commandes de documents et de publications ou les demandes de renseignements doivent être adressées aux organisations qui les publient. Ainsi, les demandes concernant les documents publiés par les institutions spécialisées doivent être adressées à l'institution compétente (Banque, FAO, Fonds, OACI, etc.), et non à l'Organisation des Nations Unies. Dans toute demande de documents établie d'après l'Index il y a lieu de mentionner également les révisions, les additifs et les rectificatifs.

5. Le "United Nations Documents Index" est publié mensuellement. Le prix de l'abonnement annuel est de 7,50 dollars; 54 shillings; 32 frs suisses, franco de port. Le numéro coûte 0,75 dollar; 5 shillings; 3 frs suisses. Les abonnements peuvent être souscrits auprès des librairies dépositaires des publications des Nations Unies (voir liste au verso de la couverture). Les commandes et demandes de renseignements provenant de pays où il n'y a pas de librairie dépositaire peuvent être adressées à la Section des ventes et de la distribution, Organisation des Nations Unies, New-York ou à la Section des ventes, Office européen des Nations Unies, Genève (Suisse).

General Introduction

1. The United Nations Documents Index is prepared by the United Nations Library. In general, it lists all documents and publications of the United Nations and the specialized agencies, except restricted (confidential) materials and internal papers. Each monthly issue covers the documents and publications received by the Library during that month. However, some specialized agencies have assumed responsibility for the information contained in their sections and for the listing and indexing of their documents; the documents listed by these agencies are those published at their headquarters during the period covered and are not necessarily available at United Nations Headquarters in New York at the time of their listing. Periodicals and press releases are listed annually in the February issue.

2. Each monthly issue comprises:
(a) General Introduction
(b) List of Abbreviations
(c) Lists of Documents and Publications: arranged by issuing agency, the first section being given to United Nations documents, and succeeding sections to the specialized agencies documents in the alphabetical order of the abbreviated names of the agencies (Bank, FAO, Fund, ICAO, etc.). Each section is arranged in three parts: (1) a list of documents and publications; (2) non-English language editions; and (3) republications. In each part, materials are arranged, so far as possible, in alphabetical-numerical order by symbol. Complete bibliographical details are given only in part (1), where each entry is numbered in a consecutive series, separate series of such entry numbers being assigned to each agency. Parts (2) and (3) are arranged in tabular form with only enough information to identify the documents and publications in these categories. An asterisk (*) distinguishes those documents and publications which summarize the work of an organ, represent the final results of international conferences or research projects, or are works of reference such as bibliographies, handbooks and yearbooks, a selection intended to assist the general user in understanding the current work of the organizations and the relevant documentation.

(d) General Index: a combined author and subject index of all documents and publications listed in each section. All references in this index are to the entry numbers in the respective sections. The indexes in the monthly issues are cumulated in an annual index at the end of the year. It is suggested that the monthly indexes be discarded when replaced by the annual cumulative index which then can be bound with the twelve monthly lists comprising one volume.

3. Information concerning the documentation systems of the United Nations and the specialized agencies, and the availability of their documents and publications is contained in the note preceding the list of Documents and Publications of the United Nations and each of the specialized agencies in the introductions to their respective sections in the January issue. Consolidated lists of depository libraries and sales agents of the United Nations and the specialized agencies appeared as document ST/LIB/4.

4. Requests for documents and publications or for information about them should be addressed to the issuing agency. Thus, inquiries concerning materials published by the specialized agencies should be addressed to the respective agencies (Bank, FAO, Fund, ICAO, etc.), and not to the United Nations. Requests for documents based on information supplied by this publication should stipulate that the request includes revisions, addenda and corrigenda.

5. The United Nations Documents Index is published monthly at an annual subscription rate of $7.50, 54/- stg., Sw.fr. 32.00, post-free. Single copies are available at $.75, 5/- stg., Sw.fr. 3.00. Subscriptions may be placed with the sales agents of United Nations publications (listed on back cover). Orders and inquiries from countries without a sales agent may be addressed to the Sales and Circulation Section, United Nations, New York, or to the Sales Section, European Office of the United Nations, Geneva, Switzerland.

/INTRODUCTION GENERALE

Introduction générale

1. Le 'United Nations Documents Index', établi par la Bibliothèque des Nations Unies, donne la liste de tous les documents et publications de l'Organisation des Nations Unies et des institutions spécialisées, à l'exception des documents à distribution restreinte (documents confidentiels) ou qui n'intéressent que le Secrétariat. Chaque fascicule mensuel énumère les documents et publications que la Bibliothèque a reçus dans le courant du mois. Cependant, certaines institutions spécialisées se chargent de rédiger les parties de l'Index qui leur sont consacrées ainsi que de classer et d'indexer leurs propres documents; elles indiquent les documents publiés à leur siège au cours de la période considérée, parfois avant même qu'il ne soit possible de se les procurer au Siège des Nations Unies à New-York. Les périodiques et les communiqués de presse ne sont énumérés dans l'Index qu'une fois par an, dans le fascicule de février.

2. Chaque index mensuel comprend:

a) Une introduction générale.

b) Une liste des abréviations.

c) Des listes des documents et des publications, classés par organisation, les documents de l'ONU précédant ceux des diverses institutions spécialisées, rangées dans l'ordre alphabétique anglais de leurs abréviations (Bank, FAO, Fund, ICAO, etc.). Pour chaque organisation trois listes sont prévues: 1) documents et publications; 2) éditions dans des langues autres que l'anglais; 3) rééditions. Dans chacune de ces trois listes les documents sont classés autant que possible dans l'ordre alphabétique et numérique de leurs cotes. Il n'est donné de renseignements bibliographiques détaillés que pour la liste 1), où les divers documents sont numérotés les uns à la suite des autres, par séries, chaque institution spécialisée ayant la sienne. Les 2) et 3) sont présentées sous forme de tableaux et ne donnent que les renseignements indispensables pour identifier les documents et les publications énumérés.

Pour aider le public à se tenir au courant des travaux des organisations et à suivre la documentation qui s'y rapporte, on a fait précéder d'un astérisque la cote des documents et publications qui résument les travaux d'un organe, exposent les résultats de conférences internationales ou de travaux de recherches ou sont des ouvrages de référence, tels que bibliographies, manuels et annuaires.

d) Un index général: index unique, par auteur et par sujet, de tous les documents et publications énumérés dans chaque liste. Dans tous les cas, cet index renvoie aux numéros figurant dans les différentes listes. Tous les index mensuels sont groupés à la fin de l'année en un index général annuel. Il est recommandé de supprimer les index mensuels lorsqu'ils sont remplacés par l'index annuel, qui peut alors être relié en un seul volume avec les douze listes mensuelles.

3. La note qui, dans l'introduction aux parties les concernant dans le fascicule de janvier, précède la liste des documents et des publications de l'ONU et de chacune des institutions spécialisées donne tous renseignements utiles sur les systèmes de classement employés et sur la possibilité de se procurer les textes en question. La liste des bibliothèques et librairies dépositaires des publications de l'ONU et des institutions spécialisées figurait dans le document ST/LIB/4.

4. Les commandes de documents et de publications ou les demandes de renseignements doivent être adressées aux organisations qui les publient. Ainsi, les demandes concernant les documents publiés par les institutions spécialisées doivent être adressées à l'institution compétente (Banque, FAO, Fonds, OACI, etc.), et non à l'Organisation des Nations Unies. Dans toute demande de documents établie d'après l'Index il y a lieu de mentionner également les révisions, les additifs et les rectificatifs.

5. Le "United Nations Documents Index" est publié mensuellement. Le prix de l'abonnement annuel est de 7,50 dollars; 54 shillings; 32 frs suisses, franco de port. Le numéro coûte 0,75 dollar; 5 shillings; 3 frs suisses. Les abonnements peuvent être souscrits auprès des librairies dépositaires des publications des Nations Unies (voir liste au verso de la couverture). Les commandes et demandes de renseignements provenant de pays où il n'y a pas de librairie dépositaire peuvent être adressées à la Section des ventes et de la distribution, Organisation des Nations Unies, New-York ou à la Section des ventes, Office européen des Nations Unies, Genève (Suisse).

General Introduction

1. The United Nations Documents Index is prepared by the United Nations Library. In general, it lists all documents and publications of the United Nations and the specialized agencies, except restricted (confidential) materials and internal papers. Each monthly issue covers the documents and publications received by the Library during that month. However, some specialized agencies have assumed responsibility for the information contained in their sections and for the listing and indexing of their documents; the documents listed by these agencies are those published at their headquarters during the period covered and are not necessarily available at United Nations Headquarters in New York at the time of their listing. Periodicals and press releases are listed annually in the February issue.

2. Each monthly issue comprises:

(a) General Introduction

(b) List of Abbreviations

(c) Lists of Documents and Publications: arranged by issuing agency, the first section being given to United Nations documents, and succeeding sections to the specialized agencies documents in the alphabetical order of the abbreviated names of the agencies (Bank, FAO, Fund, ICAO, etc.). Each section is arranged in three parts: (1) a list of documents and publications; (2) non-English language editions; and (3) republications. In each part, materials are arranged, so far as possible, in alphabetical-numerical order by symbol. Complete bibliographical details are given only in part (1), where each entry is numbered in a consecutive series, separate series of such entry numbers being assigned to each agency. Parts (2) and (3) are arranged in tabular form with only enough information to identify the documents and publications in these categories. An asterisk (*) distinguishes those documents and publications which summarize the work of an organ, represent the final results of international conferences or research projects, or are works of reference such as bibliographies, handbooks and yearbooks, a selection intended to assist the general user in understanding the current work of the organizations and the relevant documentation.

(d) General Index: a combined author and subject index of all documents and publications listed in each section. All references in this index are to the entry numbers in the respective sections. The indexes in the monthly issues are cumulated in an annual index at the end of the year. It is suggested that the monthly indexes be discarded when replaced by the annual cumulative index which then can be bound with the twelve monthly lists comprising one volume.

3. Information concerning the documentation systems of the United Nations and the specialized agencies, and the availability of their documents and publications is contained in the note preceding the list of Documents and Publications of the United Nations and each of the specialized agencies in the introductions to their respective sections in the January issue. Consolidated lists of depository libraries and sales agents of the United Nations and the specialized agencies appeared as document ST/LIB/4.

4. Requests for documents and publications or for information about them should be addressed to the issuing agency. Thus, inquiries concerning materials published by the specialized agencies should be addressed to the respective agencies (Bank, FAO, Fund, ICAO, etc.), and not to the United Nations. Requests for documents based on information supplied by this publication should stipulate that the request includes revisions, addenda and corrigenda.

5. The United Nations Documents Index is published monthly at an annual subscription rate of $7.50, 54/- stg., Sw.fr. 32.00, post-free. Single copies are available at $.75, 5/- stg., Sw.fr. 3.00. Subscriptions may be placed with the sales agents of United Nations publications (listed on back cover). Orders and inquiries from countries without a sales agent may be addressed to the Sales and Circulation Section, United Nations, New York, or to the Sales Section, European Office of the United Nations, Geneva, Switzerland.

/INTRODUCTION GENERALE

Introduction générale

1. Le 'United Nations Documents Index', établi par la Bibliothèque des Nations Unies, donne la liste de tous les documents et publications de l'Organisation des Nations Unies et des institutions spécialisées, à l'exception des documents à distribution restreinte (documents confidentiels) ou qui n'intéressent que le Secrétariat. Chaque fascicule mensuel énumère les documents et publications que la Bibliothèque a reçus dans le courant du mois. Cependant, certaines institutions spécialisées se chargent de rédiger les parties de l'Index qui leur sont consacrées ainsi que de classer et d'indexer leurs propres documents; elles indiquent les documents publiés à leur siège au cours de la période considérée, parfois avant même qu'il ne soit possible de se les procurer au Siège des Nations Unies à New-York. Les périodiques et les communiqués de presse ne sont énumérés dans l'Index qu'une fois par an, dans le fascicule de février.

2. Chaque index mensuel comprend:

a) Une introduction générale.

b) Une liste des abréviations.

c) Des listes des documents et des publications, classés par organisation, les documents de l'ONU précédant ceux des diverses institutions spécialisées, rangées dans l'ordre alphabétique anglais de leurs abréviations (Bank, FAO, Fund, ICAO, etc.). Pour chaque organisation trois listes sont prévues: 1) documents et publications; 2) éditions dans des langues autres que l'anglais; 3) rééditions. Dans chacune de ces trois listes les documents sont classés autant que possible dans l'ordre alphabétique et numérique de leurs cotes. Il n'est donné de renseignements bibliographiques détaillés que pour la liste 1), où les divers documents sont numérotés les uns à la suite des autres, par séries, chaque institution spécialisée ayant la sienne. Les 2) et 3) sont présentées sous forme de tableaux et ne donnent que les renseignements indispensables pour identifier les documents et les publications énumérés.

Pour aider le public à se tenir au courant des travaux des organisations et à suivre la documentation qui s'y rapporte, on a fait précéder d'un astérisque la cote des documents et publications qui résument les travaux d'un organe, exposent les résultats de conférences internationales ou de travaux de recherches ou sont des ouvrages de référence, tels que bibliographies, manuels et annuaires.

d) Un index général: index unique, par auteur et par sujet, de tous les documents et publications énumérés dans chaque liste. Dans tous les cas, cet index renvoie aux numéros figurant dans les différentes listes. Tous les index mensuels sont groupés à la fin de l'année en un index général annuel. Il est recommandé de supprimer les index mensuels lorsqu'ils sont remplacés par l'index annuel, qui peut alors être relié en un seul volume avec les douze listes mensuelles.

3. La note qui, dans l'introduction aux parties les concernant dans le fascicule de janvier, précède la liste des documents et des publications de l'ONU et de chacune des institutions spécialisées donne tous renseignements utiles sur les systèmes de classement employés et sur la possibilité de se procurer les textes en question. La liste des bibliothèques et librairies dépositaires des publications de l'ONU et des institutions spécialisées figurait dans le document ST/LIB/4.

4. Les commandes de documents et de publications ou les demandes de renseignements doivent être adressées aux organisations qui les publient. Ainsi, les demandes concernant les documents publiés par les institutions spécialisées doivent être adressées à l'institution compétente (Banque, FAO, Fonds, OACI, etc.), et non à l'Organisation des Nations Unies. Dans toute demande de documents établie d'après l'Index il y a lieu de mentionner également les révisions, les additifs et les rectificatifs.

5. Le "United Nations Documents Index" est publié mensuellement. Le prix de l'abonnement annuel est de 7,50 dollars; 54 shillings; 32 frs suisses, franco de port. Le numéro coûte 0,75 dollar; 5 shillings; 3 frs suisses. Les abonnements peuvent être souscrits auprès des librairies dépositaires des publications des Nations Unies (voir liste au verso de la couverture). Les commandes et demandes de renseignements provenant de pays où il n'y a pas de librairie dépositaire peuvent être adressées à la Section des ventes et de la distribution, Organisation des Nations Unies, New-York ou à la Section des ventes, Office européen des Nations Unies, Genève (Suisse).

Introduction

SCOPE

1. The United Nations Documents Index, prepared by the United Nations Library, New York, lists and indexes all documents and publications of the United Nations and the specialized agencies, except restricted (confidential) materials and internal papers. Each monthly issue covers, in general, the documents and publications received by the Library during the month. Some specialized agencies, however, have assumed responsibility for listing and indexing their own documents; the documents listed for those agencies are those published during the period covered and are not necessarily available at United Nations Headquarters at the time of their listing. Periodicals and press releases are listed annually in the February issue. Selected periodical articles are listed and indexed each month.

ARRANGEMENT

2. Each monthly issue comprises:
   (a) Table of Contents
   (b) Introduction
   (c) List of Abbreviations
   (d) List of Documents and Publications. Entries are arranged by issuing agency, the first section containing United Nations documents and succeeding sections those of the specialized agencies in alphabetical order of their abbreviated names (FAO, GATT, IAEA, ICAO, etc.). Documents are arranged, so far as possible, in alphabetical-numerical order by symbol, and each entry is numbered in a consecutive series, separate series of entry numbers being assigned to each agency. To assist the user, an asterisk (*) distinguishes those documents and publications which summarize the work of an organ, represent the final results of conferences or research projects, or constitute works of reference such as bibliographies, handbooks and yearbooks. For each agency, the list of documents and publications may be followed by one or more of the following lists:

      (1) Periodical articles, selected from periodicals published or received during the month
      (2) Non-English language editions
      (3) Republications
      (4) Revisions, addenda, and corrigenda
      (5) Publications sales numbers

The last four types are arranged in tabular form, with minimum descriptions; complete bibliographical details may be found in the corresponding entries of the main list.

   (e) Index. This is a combined author and subject index of all documents and publications listed. It is arranged alphabetically, word by word (e.g. national parks precedes nationality). Abbreviated agency names (ACC, ICAO, ITU, etc.), where used, are filed as though spelled out, with cross references at the beginning of each letter of the alphabet and in the List of Abbreviations. References are to the entry numbers in the respective sections of the List of Documents and Publications.

CUMULATIVE INDEX

3. The indexes published in the monthly issues are cumulated in a single annual index. The monthly indexes are paged separately and easily removable, so that they may be discarded if it is desired to bind the twelve monthly lists of documents and publications together with the cumulative index.

AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

4. Information concerning the documentation systems of the United Nations and each of the specialized agencies, and the availability of their documents and publications is contained in the note preceding the respective sections of the list of documents and publications in the January issue. Consolidated lists of depository libraries and sales agents of the United Nations and the specialized agencies appeared as document ST/LIB/4.

5. Requests for documents and publications or for information about them should be addressed to the issuing agency. Thus, inquiries concerning materials published by the specialized agencies should be addressed to the respective agencies (FAO, GATT, IAEA, ICAO, etc.), and not to the United Nations. Requests for documents should stipulate that the request includes revisions, addenda and corrigenda.

SUBSCRIPTION

6. The United Nations Documents Index is published monthly at an annual subscription rate of U.S. $7.50, 54/- stg., Sw.fr. 32.00, post-free. Single copies are available at U.S. $.75, 5/- stg., Sw.fr. 3.00. Subscriptions may be placed with the sales agents of United Nations publications (listed on back cover). Orders and inquiries from countries without a sales agent may be addressed to the Sales and Circulation Section, United Nations, New York, or to the Sales Section, European Office of the United Nations, Geneva, Switzerland.

Introduction

BUTS ET PORTEE

1. Le "United Nations Documents Index", établi par la Bibliothèque des Nations Unies à New-York, donne la liste et indexe tous les documents et publications de l'Organisation des Nations Unies et des institutions spécialisées, à l'exception des documents à distribution restreinte (documents confidentiels) ou qui n'intéressent que le Secrétariat. Chaque fascicule mensuel énumère, en général, les documents et publications que la Bibliothèque a reçus dans le courant du mois. Certaines institutions spécialisées, cependant, se chargent de classer et d'indexer leurs propres documents; elles indiquent les documents publiés à leur siège au cours de la période considérée, parfois avant même qu'il ne soit possible de se les procurer au Siège de l'Organisation des Nations Unies à New-York. Les périodiques et les communiqués de presse ne sont énumérés dans l'Index qu'une fois par an, dans le fascicule de février. Une sélection d'articles de périodiques est énumérée et indexée chaque mois.

PRESENTATION

2. Chaque index mensuel comprend:
   (a) Une table des matières
   (b) Une introduction
   (c) Une liste des abréviations
   (d) Une liste des documents et des publications, classés par organisation, les documents de l'ONU précédant ceux des diverses institutions spécialisées, rangées dans l'ordre alphabétique anglais de leurs abréviations (FAO, GATT, IAEA, ICAO, etc.). Les documents sont classés, autant que possible, dans l'ordre alphabétique et numérique de leurs cotes et ils sont numérotés les uns à la suite des autres, par série, chaque institution spécialisée ayant la sienne. Pour aider le public, on a fait précéder d'un astérisque (*) la cote des documents et publications qui résument les travaux d'un organe, exposent les résultats de conférences ou de travaux de recherches ou sont des ouvrages de référence, tels que bibliographies, manuels et annuaires. Pour chaque organisation, la liste des documents et publications peut être suivie d'une ou de plusieurs des autres listes suivantes:

   (1) Articles sélectionnés dans des périodiques publiés ou reçus dans le courant du mois.
   (2) Editions dans des langues autres que l'anglais.
   (3) Rééditions
   (4) Révisions, additifs et rectificatifs.
   (5) Numéros de vente des publications.

Les quatre dernières listes sont présentées sous forme de tableaux avec le minimum d'explications, la liste principale donnant des renseignements bibliographiques détaillés.

(e) Index. C'est un index unique par auteur et par sujet de tous les documents et publications énumérés. Les noms sont classés dans l'ordre alphabétique par mot, par exemple "national parks" précède "nationality". Les sigles des institutions spécialisées (ACC, ICAO, ITU, etc.), quand ils sont utilisés, sont classés comme si le nom était écrit en toutes lettres avec renvois au commencement de chaque lettre de l'alphabet et dans la liste des abréviations. Dans tous les cas cet index renvoie aux numéros figurant dans les différentes sections de la liste des documents et publications.

INDEX CUMULATIF

3. Tous les index mensuels sont groupés à la fin de l'année en un index cumulatif. Ils sont paginés séparément et peuvent être aisément détachés et supprimés, si besoin est, afin que les douze listes mensuelles de documents et de publications puissent être reliées avec l'index cumulatif.

DISPONIBILITE DES DOCUMENTS ET DES PUBLICATIONS

4. La note qui, dans l'introduction aux parties les concernant dans le fascicule de janvier, précède les sections respectives de la liste des documents et des publications de l'ONU et de chacune des institutions spécialisées donne tous renseignements utiles sur les systèmes de classement employés et sur la possibilité de se procurer les textes en question. La liste des bibliothèques et librairies dépositaires des publications de l'ONU et des institutions spécialisées figurait dans le document ST/LIB/4.

5. Les commandes de documents et de publications ou les demandes de renseignements doivent être adressées aux organisations qui les publient. Ainsi, les demandes concernant les documents publiés par les institutions spécialisées doivent être adressées à l'institution compétente (FAO, GATT, IAEA, ICAO, etc.), et non à l'Organisation des Nations Unies. Dans toute demande de documents il y a lieu de mentionner également les revisions, les additifs et les rectificatifs.

ABONNEMENT

6. Le "United Nations Documents Index" est publié mensuellement. Le prix de l'abonnement annuel est de 7, 50 dollars des Etats-Unis, 54 shillings; 32 frs suisses, franco de port. Le numéro coûte 0. 75 dollar des Etats-Unis; 5 shillings; 3 frs suisses. Les abonnements peuvent être souscrits auprès des librairies dépositaires des publications des Nations Unies (voir liste au verso de la couverture). Les commandes et demandes de renseignements provenant de pays où il n'y a pas de librairie dépositaire peuvent être adressées à la Section des ventes et de la distribution, Organisation des Nations Unies, New-York ou à la Section des ventes, Office européen des Nations Unies, Genève (Suisse).

General Index

July 1959

The monthly General Index is produced as a fascicle which can easily be removed when the cumulative index appears at the end of a year.

All references in this Index are made to entry numbers in the respective list of Documents and Publications for each organization, as indicated by the official abbreviations (UN, Bank, FAO, Fund, GATT, IAEA, ICAO, ILO, IMCO, ITU, UNESCO, UPU, WHO, WMO).

The word "text" in parentheses is used to denote the actual text of the document to which the subject-heading relates, as opposed to reference to that document as a subject in another document.

L'index général mensuel paraît sous forme d'un cahier que l'on peut aisément supprimer à la fin de l'année lors de la parution de l'index annuel.

Dans tous les cas, cet index renvoie aux numéros figurant dans les listes concernant les différentes organisations, désignées par leur abréviation anglaise officielle (UN, Bank, FAO, Fund, GATT, IAEA, ICAO, ILO, IMCO, ITU, UNESCO, UPU, WHO, WMO).

Le mot "text" (texte) entre parenthèses indique qu'il s'agit du texte même du document auquel se rapporte la vedette, et non d'une référence à ce document dans une autre publication.

Introduction

SCOPE

1. The United Nations Documents Index, prepared by the United Nations Library, New York, lists and indexes all documents and publications of the United Nations and the specialized agencies, except restricted (confidential) materials and internal papers. Each monthly issue covers, in general, the documents and publications received by the Library during the month. Some specialized agencies, however, have assumed responsibility for listing and indexing their own documents; the documents listed for those agencies are those published during the period covered and are not necessarily available at United Nations Headquarters at the time of their listing. Periodicals and press releases are listed annually in the February issue. Selected periodical articles are listed and indexed each month.

ARRANGEMENT

2. Each monthly issue comprises:

(a) Table of Contents
(b) Introduction
(c) List of Abbreviations
(d) List of Documents and Publications. Entries are arranged by issuing agency, the first section containing United Nations documents and succeeding sections those of the specialized agencies in alphabetical order of their abbreviated names (FAO, GATT, IAEA, ICAO, etc.). Documents are arranged, so far as possible, in alphabetical-numerical order by symbol, and each entry is numbered in a consecutive series, separate series of entry numbers being assigned to each agency. To assist the user, an asterisk (*) distinguishes those documents and publications which summarize the work of an organ, represent the final results of conferences or research projects, or constitute works of reference such as bibliographies, handbooks and yearbooks. For each agency, the list of documents and publications may be followed by one or more of the following lists:

(1) Periodical articles, selected from periodicals published or received during the month
(2) Non-English language editions
(3) Republications
(4) Revisions, addenda, and corrigenda
(5) Publications sales numbers

The last four types are arranged in tabular form, with minimum descriptions; complete bibliographical details may be found in the corresponding entries of the main list.

(e) Index. This is a combined author and subject index of all documents and publications listed. It is arranged alphabetically, word by word (e.g. national parks precedes nationality). Abbreviated agency names (ACC, ICAO, ITU, etc.), where used, are filed as though spelled out, with cross references at the beginning of each letter of the alphabet and in the List of Abbreviations. References are to the entry numbers in the respective sections of the List of Documents and Publications.

CUMULATIVE INDEX

3. The indexes published in the monthly issues are cumulated in a single annual index. The monthly indexes are paged separately and easily removable, so that they may be discarded if it is desired to bind the twelve monthly lists of documents and publications together with the cumulative index.

AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

4. Information concerning the documentation systems of the United Nations and each of the specialized agencies, and the availability of their documents and publications is contained in the note preceding the respective sections of the list of documents and publications in the January issue. Consolidated lists of depository libraries and sales agents of the United Nations and the specialized agencies appeared as document ST/LIB/4.

5. Requests for documents and publications or for information about them should be addressed to the issuing agency. Thus, inquiries concerning materials published by the specialized agencies should be addressed to the respective agencies (FAO, GATT, IAEA, ICAO, etc.), and not to the United Nations. Requests for documents should stipulate that the request includes revisions, addenda and corrigenda.

SUBSCRIPTION

6. The United Nations Documents Index is published monthly at an annual subscription rate of U.S. $7.50, 54/- stg., Sw.fr. 32.00, post-free. Single copies are available at U.S. $.75, 5/- stg., Sw.fr. 3.00. Subscriptions may be placed with the sales agents of United Nations publications (listed on back cover). Orders and inquiries from countries without a sales agent may be addressed to the Sales and Circulation Section, United Nations, New York, or to the Sales Section, European Office of the United Nations, Geneva, Switzerland.

/NOTICE EXPLICATIVE

Notice explicative

OBJET

1. Dans le "United Nations Documents Index", la Bibliothèque des Nations Unies à New-York, répertorie et indexe tous les documents et publications des Nations Unies et des institutions spécialisées à l'exception des textes confidentiels (restricted) et de caractère interne. Les livraisons mensuelles embrassent en général les documents et publications parvenus à la Bibliothèque au cours du mois. Quelques institutions spécialisées répertorient et indexent elles-mêmes leurs textes; dans ces cas, les documents indiqués sont ceux qui ont paru pendant la période considérée et l'on ne s'attendra pas nécessairement à les trouver au Siège dès la sortie du répertoire. Les périodiques et les communiqués de presse sont répertoriés chaque année dans le numéro de février. Les sélections d'articles extraits de périodiques sont répertoriés et indexés mensuellement.

PLAN

2. Chaque index mensuel comprend:
(a) Une table des matières
(b) Une notice explicative
(c) Une liste des abréviations
(d) Un répertoire des documents et des publications, classés par organisation, les documents de l'ONU précédant ceux des diverses institutions spécialisées, rangées dans l'ordre alphabétique anglais de leurs abréviations (FAO, GATT, IAEA, ICAO, etc.). Les documents sont classés, autant que possible, dans l'ordre alphabétique et numérique de leurs cotes et sont numérotés les uns à la suite des autres, par série, chaque institution spécialisée ayant la sienne. Pour guider le lecteur, on a fait précéder d'un astérisque (*) la cote des documents et publications qui résument les travaux d'un organe, exposent les résultats de conférences ou de travaux de recherches ou sont des ouvrages de référence, tels que bibliographies, manuels et annuaires. Pour chaque organisation, la liste des documents et publications peut être suivie de répertoires tels que:

(1) Articles sélectionnés dans des périodiques publiés ou reçus dans le courant du mois.
(2) Editions dans des langues autres que l'anglais.
(3) Rééditions.
(4) Révisions, additifs et rectificatifs.
(5) Numéros de vente des publications.

Les quatre derniers répertoires sont présentés sous forme de tableaux avec le minimum d'explications, le repertoire principal donnant des renseignements bibliographiques détaillés.

(e) Index. C'est un index unique par auteur et par sujet de tous les documents et publications énumérés. Les noms sont classés dans l'ordre alphabétique par mot, par exemple "national parks" précède "nationality". Les sigles des institutions spécialisées (ACC, ICAO, ITU, etc.), sont classés, le cas échéant, comme si le nom était écrit en toutes lettres avec renvois au commencement de chaque lettre de l'alphabet et dans la liste des abréviations. Dans tous les cas cet index renvoie aux numéros figurant dans les différentes sections de la liste des documents et publications.

INDEX CUMULATIF

3. Les index mensuels sont fondus en fin d'année en un index cumulatif. Ils sont paginés séparément et peuvent être aisément détachés et supprimés, si besoin est, afin que les douze répertoires mensuels de documents et de publications puissent être reliés avec l'index cumulatif.

DISPONIBILITE DES DOCUMENTS ET PUBLICATIONS

4. On trouvera, dans les notes liminaires à chacune des sections - consacrées soit aux Nations Unies, soit aux institutions spécialisées - du répertoire de janvier, tous renseignements utiles sur les modes de classement utilisés et sur la possibilité de se procurer les textes dont il s'agit. La liste des bibliothèques et librairies dépositaires des publications de l'ONU et des institutions spécialisées figure dans le document ST/LIB/4.

5. Les commandes de documents et de publications ou les demandes de renseignements doivent être adressées aux organisations responsables. Ainsi, les demandes concernant les documents publiés par les institutions spécialisées doivent être adressées à l'institution compétente (FAO, GATT, IAEA, ICAO, etc.), et non à l'Organisation des Nations Unies. Dans toute demande de documents, préciser si l'on désire les révisions, les additifs et les rectificatifs.

ABONNEMENT

6. Le "United Nations Documents Index" est publié mensuellement. Le prix de l'abonnement annuel est de 7,50 dollars des Etats-Unis, 54 shillings, 32 frs suisses, franco de port. Le numéro coûte 0.75 dollar des Etats-Unis, 5 shillings, 3 frs suisses. Les abonnements peuvent être souscrits auprès des librairies dépositaires des publications des Nations Unies (voir liste au verso de la couverture). Les commandes et demandes de renseignements provenant de pays où il n'y a pas de librairie dépositaire peuvent être adressées à la Section des ventes et de la distribution, Organisation des Nations Unies, New-York ou à la Section des ventes, Office européen des Nations Unies, Genève (Suisse).

Introduction

SCOPE

1. The United Nations Documents Index, prepared by the United Nations Library, New York, lists and indexes all documents and publications of the United Nations and the specialized agencies, except restricted (confidential) materials and internal papers. Each monthly issue covers, in general, the documents and publications received by the Library during the month. Some specialized agencies, however, have assumed responsibility for listing and indexing their own documents; the documents listed for those agencies are those published during the period covered and are not necessarily available at United Nations Headquarters at the time of their listing. Periodicals and press releases are listed annually in the February issue. Selected periodical articles are listed and indexed each month.

ARRANGEMENT

2. Each monthly issue comprises:
   (a) Table of Contents
   (b) Introduction
   (c) List of Abbreviations
   (d) List of Documents and Publications. Entries are arranged by issuing agency, the first section containing United Nations documents and succeeding sections those of the specialized agencies in alphabetical order of their abbreviated names (FAO, GATT, IAEA, ICAO, etc.). Documents are arranged, so far as possible, in alphabetical-numerical order by symbol, and each entry is numbered in a consecutive series, separate series of entry numbers being assigned to each agency. To assist the user, an asterisk (*) distinguishes those documents and publications which summarize the work of an organ, represent the final results of conferences or research projects, or constitute works of reference such as bibliographies, handbooks and yearbooks. For each agency, the list of documents and publications may be followed by one or more of the following lists:

   (1) Periodical articles, selected from periodicals published or received during the month
   (2) Non-English language editions
   (3) Republications
   (4) Revisions, addenda, and corrigenda
   (5) Publications sales numbers

The last four types are arranged in tabular form, with minimum descriptions; complete bibliographical details may be found in the corresponding entries of the main list.

   (e) Index. This is a combined author and subject index of all documents and publications listed. It is arranged alphabetically, word by word (e.g. national parks precedes nationality). Abbreviated agency names (ACC, ICAO, ITU, etc.), where used, are filed as though spelled out, with cross references at the beginning of each letter of the alphabet and in the List of Abbreviations. References are to the entry numbers in the respective sections of the List of Documents and Publications.

CUMULATIVE INDEX

3. The indexes published in the monthly issues are cumulated in a single annual index. The monthly indexes are paged separately and easily removable, so that they may be discarded if it is desired to bind the twelve monthly lists of documents and publications together with the cumulative index.

AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

4. Information concerning the documentation systems of the United Nations and each of the specialized agencies, and the availability of their documents and publications is contained in the note preceding the respective sections of the list of documents and publications in the January issue. Consolidated lists of depository libraries and sales agents of the United Nations and the specialized agencies appeared as document ST/LIB/4.

5. Requests for documents and publications or for information about them should be addressed to the issuing agency. Thus, inquiries concerning materials published by the specialized agencies should be addressed to the respective agencies (FAO, GATT, IAEA, ICAO, etc.), and not to the United Nations. Requests for documents should stipulate that the request includes revisions, addenda and corrigenda.

SUBSCRIPTION

6. The United Nations Documents Index is published monthly at an annual subscription rate of U.S. $7.50, 54/- stg., Sw.fr. 32.00, post-free. Single copies are available at U.S. $.75, 5/- stg., Sw.fr. 3.00. Subscriptions may be placed with the sales agents of United Nations publications (listed on back cover). Orders and inquiries from countries without a sales agent may be addressed to the Sales and Circulation Section, United Nations, New York, or to the Sales Section, European Office of the United Nations, Geneva, Switzerland.

/NOTICE EXPLICATIVE

Notice explicative

OBJET

1. Dans le "United Nations Documents Index", la Bibliothèque des Nations Unies à New-York répertorie et indexe tous les documents et publications des Nations Unies et des institutions spécialisées à l'exception des textes confidentiels (restricted) et de caractère interne. Les livraisons mensuelles embrassent en général les documents et publications parvenus à la Bibliothèque au cours du mois. Quelques institutions spécialisées répertorient et indexent elles-mêmes leurs textes; dans ces cas, les documents indiqués sont ceux qui ont paru pendant la période considérée et l'on ne s'attendra pas nécessairement à les trouver au Siège dès la sortie du répertoire. Les périodiques et les communiqués de presse sont répertoriés chaque année dans le numéro de février. Les sélections d'articles extraits de périodiques sont répertoriés et indexés mensuellement.

PLAN

2. Chaque index mensuel comprend:
   (a) Une table des matières
   (b) Une notice explicative
   (c) Une liste des abréviations
   (d) Un répertoire des documents et des publications, classés par organisation, les documents de l'ONU précédant ceux des diverses institutions spécialisées, rangées dans l'ordre alphabétique anglais de leurs abréviations (FAO, GATT, IAEA, ICAO, etc.). Les documents sont classés, autant que possible, dans l'ordre alphabétique et numérique de leurs cotes et sont numérotés les uns à la suite des autres, par série, chaque institution spécialisée ayant la sienne. Pour guider le lecteur, on a fait précéder d'un astérisque (*) la cote des documents et publications qui résument les travaux d'un organe, exposent les résultats de conférences ou de travaux de recherches ou sont des ouvrages de référence, tels que bibliographies, manuels et annuaires. Pour chaque organisation, la liste des documents et publications peut être suivie de répertoires tels que:

   (1) Articles sélectionnés dans des périodiques publiés ou reçus dans le courant du mois.
   (2) Editions dans des langues autres que l'anglais.
   (3) Rééditions.
   (4) Révisions, additifs et rectificatifs.
   (5) Numéros de vente des publications.

Les quatre derniers répertoires sont présentés sous forme de tableaux avec le minimum d'explications, le repertoire principal donnant des renseignements bibliographiques détaillés.

(e) Index. C'est un index unique par auteur et par sujet de tous les documents et publications énumérés. Les noms sont classés dans l'ordre alphabétique par mot, par exemple "national parks" précède "nationality". Les sigles des institutions spécialisées (ACC, ICAO, ITU, etc.), sont classés, le cas échéant, comme si le nom était écrit en toutes lettres avec renvois au commencement de chaque lettre de l'alphabet et dans la liste des abréviations. Dans tous les cas cet index renvoie aux numéros figurant dans les différentes sections de la liste des documents et publications.

INDEX CUMULATIF

3. Les index mensuels sont fondus en fin d'année en un index cumulatif. Ils sont paginés séparément et peuvent être aisément détachés et supprimés, si besoin est, afin que les douze répertoires mensuels de documents et de publications puissent être reliés avec l'index cumulatif.

DISPONIBILITE DES DOCUMENTS ET PUBLICATIONS

4. On trouvera, dans les notes liminaires à chacune des sections - consacrées soit aux Nations Unies, soit aux institutions spécialisées - du répertoire de janvier, tous renseignements utiles sur les modes de classement utilisés et sur la possibilité de se procurer les textes dont il s'agit. La liste des bibliothèques et librairies dépositaires des publications de l'ONU et des institutions spécialisées figure dans le document ST/LIB/4.

5. Les commandes de documents et de publications ou les demandes de renseignements doivent être adressées aux organisations responsables. Ainsi, les demandes concernant les documents publiés par les institutions spécialisées doivent être adressées à l'institution compétente (FAO, GATT, IAEA, ICAO, etc.), et non à l'Organisation des Nations Unies. Dans toute demande de documents, préciser si l'on désire les révisions, les additifs et les rectificatifs.

ABONNEMENT

6. Le "United Nations Documents Index" est publié mensuellement. Le prix de l'abonnement annuel est de 7,50 dollars des Etats-Unis, 54 shillings, 32 frs suisses, franco de port. Le numéro coûte 0,75 dollar des Etats-Unis, 5 shillings, 3 frs suisses. Introduction

SCOPE

1. The United Nations Documents Index, prepared by the United Nations Library, New York, lists and indexes all documents and publications of the United Nations and the specialized agencies, except restricted (confidential) materials and internal papers. Each monthly issue covers, in general, the documents and publications received by the Library during the month. Some specialized agencies, however, have assumed responsibility for listing and indexing their own documents; the documents listed for those agencies are those published during the period covered and are not necessarily available at United Nations Headquarters at the time of their listing. Periodicals and press releases are listed annually in the February issue. Selected periodical articles are listed and indexed each month.

ARRANGEMENT

2. Each monthly issue comprises:
(a) Table of Contents
(b) Introduction
(c) List of Abbreviations
(d) List of Documents and Publications. Entries are arranged by issuing agency, the first section containing United Nations documents and succeeding sections those of the specialized agencies in alphabetical order of their abbreviated names (FAO, GATT, IAEA, ICAO, etc.). Documents are arranged, so far as possible, in alphabetical-numerical order by symbol, and each entry is numbered in a consecutive series, separate series of entry numbers being assigned to each agency. To assist the user, an asterisk (*) distinguishes those documents and publications which summarize the work of an organ, represent the final results of conferences or research projects, or constitute works of reference such as bibliographies, handbooks and yearbooks. For each agency, the list of documents and publications may be followed by one or more of the following lists:

(1) Periodical articles, selected from periodicals published or received during the month
(2) Non-English language editions
(3) Republications
(4) Revisions, addenda, and corrigenda
(5) Publications sales numbers

The last four types are arranged in tabular form, with minimum descriptions; complete bibliographical details may be found in the corresponding entries of the main list.

(e) Index. This is a combined author and subject index of all documents and publications listed. It is arranged alphabetically, word by word (e.g. national parks precedes nationality). Abbreviated agency names (ACC, ICAO, ITU, etc.), where used, are filed as though spelled out, with cross references at the beginning of each letter of the alphabet and in the List of Abbreviations. References are to the entry numbers in the respective sections of the List of Documents and Publications.

CUMULATIVE INDEX

3. The indexes published in the monthly issues are cumulated in a single annual index. The monthly indexes are paged separately and easily removable, so that they may be discarded if it is desired to bind the twelve monthly lists of documents and publications together with the cumulative index.

AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

4. Information concerning the documentation systems of the United Nations and each of the specialized agencies, and the availability of their documents and publications is contained in the note preceding the respective sections of the list of documents and publications in the January issue. Consolidated lists of depository libraries and sales agents of the United Nations and the specialized agencies appeared as document ST/LIB/4.

5. Requests for documents and publications or for information about them should be addressed to the issuing agency. Thus, inquiries concerning materials published by the specialized agencies should be addressed to the respective agencies (FAO, GATT, IAEA, ICAO, etc.), and not to the United Nations. Requests for documents should stipulate that the request includes revisions, addenda and corrigenda.

SUBSCRIPTION

6. The United Nations Documents Index is published monthly at an annual subscription rate of U.S. $7.50, 54/- stg., Sw.fr. 32.00, post-free. Single copies are available at U.S. $.75, 5/- stg., Sw.fr. 3.00. Subscriptions may be placed with the sales agents of United Nations publications (listed on back cover). Orders and inquiries from countries without a sales agent may be addressed to the Sales and Circulation Section, United Nations, New York, or to the Sales Section, European Office of the United Nations, Geneva, Switzerland.

Dans le "United Nations Documents Index", la Bibliothèque des Nations Unies à New-York répertorie et indexe tous les documents et publications des Nations Unies et des institutions spécialisées à l'exception des textes confidentiels (restricted) et de caractère interne. Les livraisons mensuelles embrassent en général les documents et publications parvenus à la Bibliothèque au cours du mois. Quelques institutions spécialisées répertorient et indexent elles-mêmes leurs textes; dans ces cas, les documents indiqués sont ceux qui ont paru pendant la période considérée et l'on ne s'attendra pas nécessairement à les trouver au Siège dès la sortie du répertoire. Les périodiques et les communiqués de presse sont répertoriés chaque année dans le numéro de février. Les sélections d'articles extraits de périodiques sont répertoriés et indexés mensuellement.

PLAN

2. Chaque index mensuel comprend:
(a) Une table des matières
(b) Une notice explicative
(c) Une liste des abréviations
(d) Un répertoire des documents et des publications, classés par organisation, les documents de l'ONU précédant ceux des diverses institutions spécialisées, rangées dans l'ordre alphabétique anglais de leurs abréviations (FAO, GATT, IAEA, ICAO, etc.). Les documents sont classés, autant que possible, dans l'ordre alphabétique et numérique de leurs cotes et sont numérotés les uns à la suite des autres, par série, chaque institution spécialisée ayant la sienne. Pour guider le lecteur, on a fait précéder d'un astérisque (*) la cote des documents et publications qui résument les travaux d'un organe, exposent les résultats de conférences ou de travaux de recherches ou sont des ouvrages de référence, tels que bibliographies, manuels et annuaires. Pour chaque organisation, la liste des documents et publications peut être suivie de répertoires tels que:

(1) Articles sélectionnés dans des périodiques publiés ou reçus dans le courant du mois.
(2) Editions dans des langues autres que l'anglais.
(3) Rééditions.
(4) Révisions, additifs et rectificatifs.
(5) Numéros de vente des publications.

Les quatre derniers répertoires sont présentés sous forme de tableaux avec le minimum d'explications, le repertoire principal donnant des renseignements bibliographiques détaillés.

(e) Index. C'est un index unique par auteur et par sujet de tous les documents et publications énumérés. Les noms sont classés dans l'ordre alphabétique par mot, par exemple "national parks" précède "nationality". Les sigles des institutions spécialisées (ACC, ICAO, ITU, etc.), sont classés, le cas échéant, comme si le nom était écrit en toutes lettres avec renvois au commencement de chaque lettre de l'alphabet et dans la liste des abréviations. Dans tous les cas cet index renvoie aux numéros figurant dans les différentes sections de la liste des documents et publications.

INDEX CUMULATIF

3. Les index mensuels sont fondus en fin d'année en un index cumulatif. Ils sont paginés séparément et peuvent être aisément détachés et supprimés, si besoin est, afin que les douze répertoires mensuels de documents et de publications puissent être reliés avec l'index cumulatif.

DISPONIBILITE DES DOCUMENTS ET PUBLICATIONS

4. On trouvera, dans les notes liminaires à chacune des sections - consacrées soit aux Nations Unies, soit aux institutions spécialisées - du répertoire de janvier, tous renseignements utiles sur les modes de classement utilisés et sur la possibilité de se procurer les textes dont il s'agit. La liste des bibliothèques et librairies dépositaires des publications de l'ONU et des institutions spécialisées figure dans le document ST/LIB/4.

5. Les commandes de documents et de publications ou les demandes de renseignements doivent être adressées aux organisations responsables. Ainsi, les demandes concernant les documents publiés par les institutions spécialisées doivent être adressées à l'institution compétente (FAO, GATT, IAEA, ICAO, etc.), et non à l'Organisation des Nations Unies. Dans toute demande de documents, préciser si l'on désire les révisions, les additifs et les rectificatifs.

ABONNEMENT

6. Le "United Nations Documents Index" est publié mensuellement. Le prix de l'abonnement annuel est de 7,50 dollars des Etats-Unis, 54 shillings, 32 frs suisses, franco de port. Le numéro coûte 0,75 dollar des Etats-Unis, 5 shillings, 3 frs suisses. Les abonnements peuvent être souscrits auprès des librairies dépositaires des publications des Nations Unies (voir liste au verso de la couverture). Les commandes et demandes de renseignements provenant de pays où il n'y a pas de librairie dépositaire peuvent être adressées à la Section des ventes et de la distribution, Organisation des Nations Unies, New-York ou à la Section des ventes, Office européen des Nations Unies, Genève (Suisse).

Introduction

SCOPE

1. The United Nations Documents Index, prepared by the United Nations Library, New York, lists and indexes all documents and publications of the United Nations and the specialized agencies, except restricted (confidential) materials and internal papers. Each monthly issue covers, in general, the documents and publications received by the Library during the month. Some specialized agencies, however, have assumed responsibility for listing and indexing their own documents; the documents listed for those agencies are those published during the period covered and are not necessarily available at United Nations Headquarters at the time of their listing. Periodicals and press releases are listed annually in the February issue. Selected periodical articles are listed and indexed each month.

ARRANGEMENT

2. Each monthly issue comprises:
(a) Table of Contents
(b) Introduction
(c) List of Abbreviations
(d) List of Documents and Publications. Entries are arranged by issuing agency, the first section containing United Nations documents and succeeding sections those of the specialized agencies in alphabetical order of their abbreviated names (FAO, GATT, IAEA, ICAO, etc.). Documents are arranged, so far as possible, in alphabetical-numerical order by symbol, and each entry is numbered in a consecutive series, separate series of entry numbers being assigned to each agency. To assist the user, an asterisk (*) distinguishes those documents and publications which summarize the work of an organ, represent the final results of conferences or research projects, or constitute works of reference such as bibliographies, handbooks and yearbooks. For each agency, the list of documents and publications may be followed by one or more of the following lists:

(1) Periodical articles, selected from periodicals published or received during the month
(2) Non-English language editions
(3) Republications
(4) Revisions, addenda, and corrigenda
(5) Publications sales numbers

The last four types are arranged in tabular form, with minimum descriptions; complete bibliographical details may be found in the corresponding entries of the main list.

(e) Index. This is a combined author and subject index of all documents and publications listed. It is arranged alphabetically, word by word (e.g. national parks precedes nationality). Abbreviated agency names (ACC, ICAO, ITU, etc.), where used, are filed as though spelled out, with cross references at the beginning of each letter of the alphabet and in the List of Abbreviations. References are to the entry numbers in the respective sections of the List of Documents and Publications.

CUMULATIVE INDEX

3. The indexes published in the monthly issues are cumulated in a single annual index. The monthly indexes are paged separately and easily removable, so that they may be discarded if it is desired to bind the twelve monthly lists of documents and publications together with the cumulative index.

AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

4. Information concerning the documentation systems of the United Nations and each of the specialized agencies, and the availability of their documents and publications is contained in the note preceding the respective sections of the list of documents and publications in the January issue. Consolidated lists of depository libraries and sales agents of the United Nations and the specialized agencies appeared as document ST/LIB/4.

5. Requests for documents and publications or for information about them should be addressed to the issuing agency. Thus, inquiries concerning materials published by the specialized agencies should be addressed to the respective agencies (FAO, GATT, IAEA, ICAO, etc.), and not to the United Nations. Requests for documents should stipulate that the request includes revisions, addenda and corrigenda.

SUBSCRIPTION

6. The United Nations Documents Index is published monthly at an annual subscription rate of U.S. $7.50, 54/- stg., Sw.fr. 32.00, post-free. Single copies are available at U.S. $.75, 5/- stg., Sw.fr. 3.00. Subscriptions may be placed with the sales agents of United Nations publications (listed on back cover). Orders and inquiries from countries without a sales agent may be addressed to the Sales and Circulation Section, United Nations, New York, or to the Sales Section, European Office of the United Nations, Geneva, Switzerland.

/NOTICE EXPLICATIVE

Notice explicative

OBJET

1. Dans le "United Nations Documents Index", la Bibliothèque des Nations Unies à New-York répertorie et indexe tous les documents et publications des Nations Unies et des institutions spécialisées à l'exception des textes confidentiels (restricted) et de caractère interne. Les livraisons mensuelles embrassent en général les documents et publications parvenus à la Bibliothèque au cours du mois. Quelques institutions spécialisées répertorient et indexent elles-mêmes leurs textes; dans ces cas, les documents indiqués sont ceux qui ont paru pendant la période considérée et l'on ne s'attendra pas nécessairement à les trouver au Siège dès la sortie du répertoire. Les périodiques et les communiqués de presse sont répertoriés chaque année dans le numéro de février. Les sélections d'articles extraits de périodiques sont répertoriés et indexés mensuellement.

PLAN

2. Chaque index mensuel comprend:
   (a) Une table des matières
   (b) Une notice explicative
   (c) Une liste des abréviations
   (d) Un répertoire des documents et des publications, classés par organisation, les documents de l'ONU précédant ceux des diverses institutions spécialisées, rangées dans l'ordre alphabétique anglais de leurs abréviations (FAO, GATT, IAEA, ICAO, etc.). Les documents sont classés, autant que possible, dans l'ordre alphabétique et numérique de leurs cotes et sont numérotés les uns à la suite des autres, par série, chaque institution spécialisée ayant la sienne. Pour guider le lecteur, on a fait précéder d'un astérisque (*) la cote des documents et publications qui résument les travaux d'un organe, exposent les résultats de conférences ou de travaux de recherches ou sont des ouvrages de référence, tels que bibliographies, manuels et annuaires. Pour chaque organisation, la liste des documents et publications peut être suivie de répertoires tels que:

      (1) Articles sélectionnés dans des périodiques publiés ou reçus dans le courant du mois.
      (2) Editions dans des langues autres que l'anglais.
      (3) Rééditions.
      (4) Révisions, additifs et rectificatifs.
      (5) Numéros de vente des publications.

Les quatre derniers répertoires sont présentés sous forme de tableaux avec le minimum d'explications, le repertoire principal donnant des renseignements bibliographiques détaillés.

(e) Index. C'est un index unique par auteur et par sujet de tous les documents et publications énumérés. Les noms sont classés dans l'ordre alphabétique par mot, par exemple "national parks" précède "nationality". Les sigles des institutions spécialisées (ACC, ICAO, ITU, etc.), sont classés, le cas échéant, comme si le nom était écrit en toutes lettres avec renvois au commencement de chaque lettre de l'alphabet et dans la liste des abréviations. Dans tous les cas cet index renvoie aux numéros figurant dans les différentes sections de la liste des documents et publications.

INDEX CUMULATIF

3. Les index mensuels sont fondus en fin d'année en un index cumulatif. Ils sont paginés séparément et peuvent être aisément détachés et supprimés, si besoin est, afin que les douze répertoires mensuels de documents et de publications puissent être reliés avec l'index cumulatif.

DISPONIBILITE DES DOCUMENTS ET PUBLICATIONS

4. On trouvera, dans les notes liminaires à chacune des sections - consacrées soit aux Nations Unies, soit aux institutions spécialisées - du répertoire de janvier, tous renseignements utiles sur les modes de classement utilisés et sur la possibilité de se procurer les textes dont il s'agit. La liste des bibliothèques et librairies dépositaires des publications de l'ONU et des institutions spécialisées figure dans le document ST/LIB/4.

5. Les commandes de documents et de publications ou les demandes de renseignements doivent être adressées aux organisations responsables. Ainsi, les demandes concernant les documents publiés par les institutions spécialisées doivent être adressées à l'institution compétente (FAO, GATT, IAEA, ICAO, etc.), et non à l'Organisation des Nations Unies. Dans toute demande de documents, préciser si l'on désire les révisions, les additifs et les rectificatifs.

ABONNEMENT

6. Le "United Nations Documents Index" est publié mensuellement. Le prix de l'abonnement annuel est de 7,50 dollars des Etats-Unis, 54 shillings, 32 frs suisses, franco de port. Le numéro coûte 0,75 dollar des Etats-Unis, 5 shillings, 3 frs suisses. Les abonnements peuvent être souscrits auprès des librairies dépositaires des publications des Nations Unies (voir liste au verso de la couverture). Les commandes et demandes de renseignements provenant de pays où il n'y a pas de librairie dépositaire peuvent être adressées à la Section des ventes et de la distribution, Organisation des Nations Unies, New-York ou à la Section des ventes, Office européen des Nations Unies, Genève (Suisse).

Introduction

SCOPE

1. The United Nations Documents Index, prepared by the United Nations Library, New York, lists and indexes all documents and publications of the United Nations and the specialized agencies, except restricted (confidential) materials and internal papers. Each monthly issue covers, in general, the documents and publications received by the Library during the month. Some specialized agencies, however, have assumed responsibility for listing and indexing their own documents; the documents listed for those agencies are those published during the period covered and are not necessarily available at United Nations Headquarters at the time of their listing. Periodicals are listed annually in the February issue. Selected periodical articles are listed and indexed each month.

ARRANGEMENT

2. Each monthly issue comprises:
(a) Table of Contents
(b) Introduction
(c) List of Abbreviations
(d) List of Documents and Publications. Entries are arranged by issuing agency, the first section containing United Nations documents and succeeding sections those of the specialized agencies in alphabetical order of their abbreviated names (FAO, GATT, IAEA, ICAO, etc.). Documents are arranged, so far as possible, in alphabetical-numerical order by symbol, and each entry is numbered in a consecutive series, separate series of entry numbers being assigned to each agency. To assist the user, an asterisk (*) distinguishes those documents and publications which summarize the work of an organ, represent the final results of conferences or research projects, or constitute works of reference such as bibliographies, handbooks and yearbooks. For each agency, the list of documents and publications may be followed by one or more of the following lists:

(1) Periodical articles, selected from periodicals published or received during the month
(2) Non-English language editions
(3) Republications
(4) Revisions, addenda, and corrigenda
(5) Publications sales numbers

The last four types are arranged in tabular form, with minimum descriptions; complete bibliographical details may be found in the corresponding entries of the main list.

(e) Index. This is a combined author and subject index of all documents and publications listed. It is arranged alphabetically, word by word (e.g. national parks precedes nationality). Abbreviated agency names (ACC, ICAO, ITU, etc.), where used, are filed as though spelled out, with cross references at the beginning of each letter of the alphabet and in the List of Abbreviations. References are to the entry numbers in the respective sections of the List of Documents and Publications.

CUMULATIVE INDEX

3. The indexes published in the monthly issues are cumulated in a single annual index. The monthly indexes are paged separately and easily removable, so that they may be discarded if it is desired to bind the twelve monthly lists of documents and publications together with the cumulative index.

AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

4. Information concerning the documentation systems of the United Nations and each of the specialized agencies, and the availability of their documents and publications is contained in the note preceding the respective sections of the list of documents and publications in the January issue. Consolidated lists of depository libraries and sales agents of the United Nations and the specialized agencies appeared as document ST/LIB/4.

5. Requests for documents and publications or for information about them should be addressed to the issuing agency. Thus, inquiries concerning materials published by the specialized agencies should be addressed to the respective agencies (FAO, GATT, IAEA, ICAO, etc.), and not to the United Nations. Requests for documents should stipulate that the request includes revisions, addenda and corrigenda.

SUBSCRIPTION

6. The United Nations Documents Index is published monthly at an annual subscription rate of U.S. $7.50, 54/- stg., Sw.fr. 32.00, post-free. Single copies are available at U.S. $.75, 5/- stg., Sw.fr. 3.00. Subscriptions may be placed with the sales agents of United Nations publications (listed on back cover). Orders and inquiries from countries without a sales agent may be addressed to the Sales and Circulation Section, United Nations, New York, or to the Sales Section, European Office of the United Nations, Geneva, Switzerland.
