**COMMITTEE OF EXPERTS ON THE TRANSPORT  
OF DANGEROUS GOODS**

(Twenty-first session,  
4-13 December 2000,  
agenda item 2 (b))

**WORK OF THE SUB-COMMITTEE OF EXPERTS  
ON THE TRANSPORT OF DANGEROUS GOODS**

**Draft amendments to the Recommendations on the Transport of Dangerous Goods**

**Packing instruction 904 – Minor amendment**

**Transmitted by the expert from the United States of America**

1. P904 currently indicates that packagings according to P001 and P002 may be used for the transport of genetically modified microorganisms. However, the packing instruction does not indicate the packing group level for testing the packagings.

**Proposal**

2. The expert from the United States of America proposes that the words “conforming to the packing group III performance level” be added after the words “Packagings according to P001 and P002” in P904 (1).
