Audit Statement for the UN/EDIFACT Standard Directory

This directory set is the official approved version of UN/EDIFACT Standard Directory D.97A.

Following the preparation of the directory by the Directory Production Team, it was examined by the Directory Audit Team, (DAT) which has confirmed in a report to the EDIFACT Steering Group (ESG) that the content was prepared in accordance with approved procedures and is considered satisfactory for implementation.

A copy of the full audit report submitted to ESG is available from the UN/ECE secretariat.

The directory is the final version of the D.97A for user implementation. Under no circumstances will any corrigenda, addenda or revisions be issued.

If during implementation a user identifies what is considered to be an error, this should be notified in a Data Maintenance Request (DMR) to allow possible amendments in a subsequent Standard Directory.

A DMR form can be obtained from the regional EDIFACT Board secretariat, who will advise of the process to be followed for its submission and may assist in the completion of the form. The text section of the "Business Needs" section, of this DMR, should read "Possible Standard Directory Error".
