EXPLANATORY MEMORANDUM
PROGRESS IN DEVELOPING INTERNATIONAL CO-OPERATION FOR
THE PEACEFUL USES OF ATOMIC ENERGY: REPORTS OF GOVERNMENTS

During the past year, historic steps have been taken to promote the peaceful uses of atomic energy for the benefit of all mankind. In addition to the International Conference on the Peaceful Uses of Atomic Energy, significant progress has been made toward the establishment of an International Atomic Energy Agency. Moreover, international co-operation in this field has been advanced by various States through programmes of co-operation in developing regional and national efforts to promote the peaceful uses of the atom. All of the foregoing programmes affect the vital interests of Member States of the United Nations.

In recognition of the interest demonstrated by the General Assembly in this field, the United States believes that Member States would appreciate the opportunity to be further informed of new developments. It therefore requests that the above item be placed on the agenda of the tenth regular session of the General Assembly.
