1. In order to approximate the opportunity costs **of** using **conscripts in the** military sector, the following information is **requested:**

(a) The average civilian wage **rate that the** conscripts would have **been** likely to obtain during the reporting **year** if they had **not been** occupied in the military sector.

**Answer:** 14 x 10.190 Austrian schillings

If **such an** estimate is **not** available, respondents are requested to **suggest** an **average civilian wage rate that** may be readily available **and** that the respondents believe **might** serve **as** a reaesonable **measure of** opportunity **costs**.

(b) **The number of man-years** devoted **by** conscripts to military service during the reporting year concerned.

**Answer :** 31,270

2. **With reference** to point (d) of the specific guidelines (see annex), respondents **are** requested to give below **the** total **amount** of military **assistance** received **from** abroad during **the** reporting year. The **amount** should be **given in the same** denomination and currency **as** used in **the matrix**, preferably converted from foreign curroncree to national **currency** at average annual **market or par** value **exchange** rate as reported by the International Monetary Fund.

**Answer:** ...

3. With reference to points (n) and (o), the reauested information **should** be reported **here** in the **same** value **terms as** used in the matrix. It **is** reauested **that** total expendituree, at least, and preferably detailed by type of force group a8 in columns 1 to 12 of **the matrix**, be reported for the following **items:**

**Depletion of ammunition:**

Sales from the military **sector of:**

(a) Land	)

(b) Real <b>estate other than</b> land	)	
	)	
(c) Equipment	)	<b>Total income - 525.1 million</b>

UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND

[Original: English]

[22 September 1986]

The United Kingdom of Great Britain and Northern Ireland has repeatedly stressed the importance it attaches to the completion of the reporting instrument by a representative sample of States from different regions and with different budgeting and accounting systems. It again notes with disappointment that, while a representative sample of countries with free-market economies has completed the matrix, there has still been no satisfactory response from countries with centrally planned economies. The United Kingdom has once again completed the matrix in the hope that such a response will be forthcoming.
