ANNEX

NINETEENTH SOUTH PACIFIC FORUM - FORUM COMMUNIQUE

The 19th South Pacific Forum was held in Nuku'alofa, Tonga from 20-21 September 1988. The Forum was attended by Heads of Governments of Australia, the Cook Islands, Federated States of Micronesia, Fiji, Kiribati, Marshall Islands, Niue, Papua New Guinea, Solomon Islands, Tuvalu, Vanuatu and Western Samoa. Nauru was represented by its Minister for Finance, New Zealand, by its Deputy Prime Minister and Attorney General, and Tonga, by its Minister for Foreign Affairs and Defence. The acting Prime Minister of Tonga, Hon. Baron Vasa, chaired the meeting.

Economic issues were the main focus of the 19th Forum. Regional political and security matters were also discussed, while decisions were made on moves to strengthen the role of SPEC, the Forum Secretariat.

REPORT OF THE COMMITTEE ON REGIONAL ECONOMIC ISSUES

The Forum considered the report prepared at the direction of the 18th Forum. The report contained a broad range of initiatives for the economic development of Forum island countries. There included trade, investment, small business development and enhancement of economic planning capacity, particularly through training. The Forum directed the Secretariat to commence implementation of those recommendations for which it has the capacity: to seek assistance from donors to implement those recommendations for which it did not, to strengthen the Secretariat's capacity for economic analysis and advice, and to raise with relevant member governments those matters which require policy decisions on their part. The Forum also directed the Committee on Regional Economic Issues to meet again before the 1989 Forum meeting.

DIALOGUE WITH JAPAN AND OTHER DONORS

The Forum expressed appreciation that Canada and Japan in particular had substantially increased the level of their economic assistance to the region in recent years. The Forum urged Japan and other donors to ensure that their procedures for aid delivery take account of the capacities, characteristics and the particular needs of Forum island countries.

REGIONAL CIVIL AVIATION

The Forum strongly **endorsed** the South Pacific Regional Civil Aviation project as a **constructive means of improving** the efficiency of civil aviation in the South Pacific. It expressed appreciation of **Australia's** contribution of **Aust.\$2.5 m.** to **establish** a team of civil aviation **experts** to begin implementation of the project. It noted that **substantial** additional **financial resources** were required for the implementation of the project and **expressed** the hope that Japan and other **donors** would **provide** strong financial **support** for it.

PACIFIC ECONOMIC COOPERATION CONFERENCE

The Forum decided to **explore ways** in which Forum **island countries** might **become more** involved in and benefit **from** the activities of the Pacific Economic Cooperation Conference. It noted that one regional member, New Zealand, **is to be host** to the **1989 PECC Conference**, and **this should assist** cooperation between the Forum and PECC.

REPORT OF THE REGIONAL COMMITTEE ON TRADE

The Forum endorsed the **report of** the Seventh Regional Committee on Trade which reviewed the operation of **Sparteca** and **proposals** for **increased** regional trade and economic cooperation.

The Forum welcomed the Federated States of **Micronesia** and the Republic of the **Marshall Islands** participation in **Sparteca**. It noted, however, that **despite increased access** to the **Australian** and New Zealand **markets** under that agreement, fundamental problems existed with the productive capacity of **borne Forum island countries**, especially the smaller **island countries**. The Forum agreed to look further at ways of **boosting** production, including the **attraction of overseas investment**.

MEETING OF TRADE AND ECONOMIC MINISTERS

The Forum welcomed the proposal by New Zealand to **host** a meeting of **Ministers of Trade and Economic Development** from Forum **countries** in Auckland later this year. It was noted that this **meeting** will provide an opportunity to **discuss** Uruguay Round and other **issues** relating to trade and economic cooperation.

TOURISM

The Forum directed the Secretariat to prepare a paper for the Forum's consideration on Institutional Options for Addressing and Coordinating Regional Tourism Issues on a Regional Basis.

TRADE ISSUES

The Forum noted members' dependence on the export of certain agricultural and other commodities. It expressed concern that the proliferation of trade distorting policies that characterise the present international trade regime represent a substantial trade and economic burden, particularly on the economies of the developing countries of the region. The Forum noted the importance of the Uruguay Round in addressing the question of reform of the agricultural and commodity trading systems. It called for participants in the negotiations to take full advantage of the mid-term review of the Round by agreeing to early reformation, particularly in tropical products and agriculture.

PACIFIC FORUM LINE FEEDER SERVICE

The Forum welcomed the assistance of Australian and New Zealand which enabled the Pacific Forum Line Feeder Service to operate to Tuvalu and Kiribati, noting that the future of the PFL Feeder Service to Tuvalu and Kiribati was under review. It also noted that the Federated States of Micronesia and the Republic of Marshall Islands were interested in the extension of the services to their countries.

REGIONAL PETROLEUM UNIT

Reflecting members' concern about prices and supply, the Forum agreed to establish within the Forum Secretariat a Regional Petroleum Unit which would assist members with these matters.

NEW CALEDONIA

The Forum reviewed recent developments affecting New Caledonia. It expressed its deep regret at the violence which had taken place in New Caledonia since its last meeting, in particular, at the deaths which had resulted, and restated its firm opposition to the use of violence and to the political claims.

The Forum noted developments in French policy towards New Caledonia since the re-election of President Mitterrand in May 1988 and the subsequent formation of the Government of Prime Minister

Rocard. The Forum welcomed the **efforts of the** French Government to initiate and promote dialogue between the **communities in New Caledonia** and to reduce **tensions in the Territory**. It noted the **results of that process** Of dialogue, and, in particular, **expressed its support** for the framework **agreement concluded in Paris in August, 1988** on the future of New Caledonia. The Forum urged all **parties to work for the successful implementation of the Agreement** in the **spirit of reconciliation** which clearly **underlines it** and welcomed the adoption by **consensus of a Resolution on New Caledonia** at the **August meeting of the United Nations Committee on Decolonization (C24)**. It **expressed the hope that the approach underlining this Resolution would continue to characterise UN consideration of the issue** at the 1988 United Nations General Assembly.

Encouraged by the new **spirit of constructive** dialogue which **marked relations with France**, the Forum declared **itself ready** to maintain the dialogue **thus launched**. Forum governments, **collectively and individually**, remained **ready** to contribute **positively to the process of reconciliation** and **cooperative endeavour now underway in New Caledonia**. They **expressed readiness to assist in the training process the French government has announced for the Kanaks in the lead up to the Act of Self-determination in 1998**.

The Forum **restated its strong support for an Act of Self-determination in New Caledonia consistent with the established decolonisation practice and principles of the United Nations**, in which all **options**, including independence, would be **open and leading to a settlement** which would safeguard the **rights of all people**, including the **indigenous people of New Caledonia**. The Forum urged France to **ensure that the proposed 1998 Act of Self-determination would be consistent with these criteria**.

SECURITY ISSUES

The Forum noted the **increasingly complex international and regional security environment** in which it was meeting. It **endorsed the proposal of the Committee on Regional Security Information Exchange to establish a system for an enhanced and timely exchange of information among Forum members on wide range of issues affecting their political and economic security**.

It noted that the South Pacific **is no longer isolated from the unwelcome international phenomena of terrorism and the illegal trade in arms and approved the recommendations of the Working Group on Terrorism and Hijacking designed to improve the region's capacity to prevent and deal with incidents of terrorism and hijacking**.

The **Forum** also **expressed its deep concern** at continued French nuclear **testing** in the South Pacific in **disregard of the views of the people⁸ of the South Pacific** as **unanimously stated** by the **Heads of Government⁸ of the Pacific countries**, and **called for tests to cease.**

SOUTH PACIFIC REGIONAL ENVIRONMENT PROGRAMME

The **Forum** **expressed its concern** with the **slow implementation of the SPREP Action Plan and the financial difficulties faced by the programme.** The **Forum** **agreed** that **there was a need to place SPREP on a more secure financial foundation and to consider whether there was a need for governments to play a stronger role in the direction of the programme.** It **urged member government⁸ to deal with the matter expeditiously.** It **noted** that the **future of the programme** would be **addressed by the South Pacific Conference at its meeting at Rarotonga in October.** It **further agreed** that the **Secretariat** maintain a **continuing and effective participation in SPREP and the Action Plan.**
