Part II

1. In order to approximate the opportunity costs of using conscripts in the military sector, the following information is requested:

(a) The average civilian wage rate that the conscripts would have been likely to obtain during the reporting year if they had not been occupied in the military sector.

Answer: not applicable.

If such an estimate is not available, respondents are requested to suggest an average civilian wage rate that may be readily available and that the respondents believe might serve as a reasonable measure of opportunity costs.

(b) The number of man-years devoted by conscripts to military service during the reporting year concerned.

Answer: not applicable.

2. With reference to point (d) of the specific guidelines above, respondents are requested to give below the total amount of military assistance received from abroad during the reporting year. The amount should be given in the same denomination and currency as used in the matrix, preferably converted from foreign currencies to national currency at average annual market or par value exchange rate as reported by the International Monetary Fund.

Answer: nil.

3. With reference to points (n) and (o) above, the requested information should be reported here in the same value terms as used in the matrix. It is requested that total expenditures, at least, and preferably detailed by type of force group as in columns 1 to 12 of the matrix, be reported for the following items:

Depletion of ammunition: \$140 million per annum.

Sales from the military sector of:

(a) Land	)	
	)	
(b) Real estate other than land	)	
	)	
(c) Equipment	)	sales from military are
	)	negligible.
(d) Services	)	
	)	
(e) Other	)	
	)	

4. Respondents are requested to submit information as to whether statistics of the following kinds would be readily available for the reporting year.

	<u>Available</u>	<u>Answer</u> <u>Not available</u>
Price index of specific relevance to the military sector	X	
Exports of military equipment		X
Such exports divided by:		
(i) Countries		X
(ii) Regions		X
Imports of military equipment	X	
Such imports divided by:		
(i) Countries	X	
(ii) Regions	X	

5. If a regularly published exchange rate is unavailable, or considered unsuitable for converting military expenditures, respondents are requested to comment on other possible ways for comparing the military expenditures of the responding country with those of other countries.

Notes

1.1 Personnel

Excludes service pensions.

1.2.1 Materials for current use

This item contains petrol, oil and lubrication, communal messing and procurement of replacement clothing, medicines and bandages.

1.2.3 Purchased services

This item includes postage, cargo and transport costs, telecommunication charges and general clerical expenses.

Under the Federal Armed Forces Accounting System, travel expenses are staff costs and are included in items 1.1.1 to 1.1.3. Division of these figures into their component parts would require considerable time and resources.

1.2.4 Rent costs

Rents for immovable property are, with the exception of column 14, included in the maintenance and repair costs for immovable property under item 1.2.2.

2.1.2 Missiles

Expenditure on missiles is included under item 2.1.1.

2.1.6 Artillery / 2.1.7 Other ordnance

Separate figures for artillery and other ordnance cannot be given. The sum total is contained under item 2.1.6.

(The fact that the figures in column 6 are higher than in previous years is to be attributed in part to the cost of withdrawing the forces of the former USSR, the provision of funds for staff increases* and the cost of renovating accommodation formerly belonging to the NVA (East German Armed Forces).)

* Funds (made available through reallocations within the budget) to employ more personnel to fulfil the administrative and organizational task arising in connection with the withdrawal of forces.

c/ Included in line 1.2.2.

d/ It includes lines 2.2.7., 2.2.8, and 2.2.9.

e/ The total comprises land forces, including the security forces. Columns 1, 3 to 10 and 12 do not apply to Luxembourg.

f/ Expenditures by the civil defence forces of the Grand Duchy of Luxembourg are essentially for the purpose of protecting the civilian population in case of accident or disaster in time of peace.

Part II

1. In order to approximate the opportunity costs of using conscripts in the military sector, the following information is requested:

(a) The average civilian wage rate that the conscripts would have been likely to obtain during the reporting year if they had not been occupied in the military sector.

Answer: not applicable.

If such an estimate is not available, respondents are requested to suggest an average civilian wage rate that may be readily available and that the respondents believe might serve as a reasonable measure of opportunity costs.

(b) The number of man-years devoted by conscripts to military service during the reporting year concerned.

Answer: not applicable.

2. With reference to point (d) of the specific guidelines above, respondents are requested to give below the total amount of military assistance received from abroad during the reporting year. The amount should be given in the same denomination and currency as used in the matrix, preferably converted from foreign currencies to national currency at average annual market or par value exchange rate as reported by the International Monetary Fund.

Answer: not applicable.

3. With reference to points (n) and (o) above, the requested information should be reported here in the same value terms as used in the matrix. It is requested that total expenditures, at least, and preferably detailed by type of force group as in columns 1 to 12 of the matrix, be reported for the following items:

Depletion of ammunition: ...

Sales from the military sector of:

- (a) Land
- (b) Real estate other than land
- (c) Equipment
- (d) Services
- (e) Other

4. Respondents are requested to submit information as to whether statistics of the following kinds would be readily available for the reporting year.

All statistics are available. Luxembourg does not export military equipment.

	<u>Available</u>	<u>Answer</u>	<u>Not available</u>
Price index of specific relevance to the military sector			
Exports of military equipment			
Such exports divided by:			
(i) Countries			
(ii) Regions			
Imports of military equipment			
Such imports divided by:

5. If a regularly published exchange rate is unavailable, or considered unsuitable for converting military expenditures, respondents are requested to comment on other possible ways for comparing the military expenditures of the responding country with those of other countries.

Not applicable.
