I. INTRODUCTION

1. The General Assembly, in its resolutions 49/76 B of 15 December 1994 and 50/71 A of 12 December 1995 on the United Nations disarmament fellowship, training and advisory services programme, requested the Secretary-General to continue the implementation of the programme and to report to the Assembly at its fifty-first session.

2. The present report is submitted pursuant to that request.

II. DISARMAMENT FELLOWSHIP PROGRAMME

A. 1995 and 1996 fellowships

3. Thirty disarmament fellowships were awarded in 1995 and 20 in 1996. (One fellow was unable to participate in the 1996 programme.) The temporary decrease in the number of fellows was related to the current financial situation facing the Organization. The names and nationalities of the fellows who benefited from the 1995 and 1996 programmes are as follows:

4. With the 1996 programme, a total of 427 government officials from 142 Member States have received training under the disarmament fellowship programme since its inception.

B. Programme of studies

5. The 1995 programme of studies started on 16 August at Geneva and concluded on 28 October at United Nations Headquarters. The 1996 programme began on 8 September at Geneva and will conclude on 1 November at United Nations Headquarters. The programmes included lectures; speaking, drafting and simulation exercises; the preparation of individual research papers on various disarmament and security issues; attendance at the Conference on Disarmament, the First Committee of the General Assembly and the fifth session of the Ad Hoc Group of States Parties to the Biological Weapons Convention; and study visits to the International Atomic Energy Agency (IAEA) at Vienna, the Preparatory Commission for the Organization for the Prohibition of Chemical Weapons (OPCW) at the Hague, as well as to two Member States at their invitation: Germany and Japan.

6. At IAEA, the fellows attended lectures and briefings on various topics, including the IAEA safeguard activities and the nuclear non-proliferation regime. In addition, various relevant films were shown to the fellows.

7. At OPCW, the fellows attended lectures and briefings on various topics, including the Chemical Weapons Convention, its verification provisions and the activities of the Preparatory Commission for OPCW.

8. The study visits to the two Member States were organized by the Governments of the host countries and provided the fellows with valuable sources of

information and practical knowledge. The institutions and sites visited by the fellows in the course of the two visits are as follows:

(a) Germany. The Federal Foreign Office and the Palais Schaumburg (briefings/round-table discussions on disarmament and security-related issues; the Press and Information Office of the Federal Government; and BUCK INPAR GMBH at Pinnow (briefings on conversion programmes of the Company);

(b) Japan. The Ministry of Foreign Affairs (briefings on disarmament and security issues); Hiroshima (meeting with the Mayor of Hiroshima City, discussions with atomic-bomb survivors and visits to Hiroshima atomic-bomb hospital and the Institute of Radiational Effect); and Nagasaki (discussions with atomic-bomb survivors and visit to the Megumino-Oka Hill of Grace (a nursing home for atomic-bomb survivors)).

9. In conclusion, it can be said that the objectives of the programme are varied and include providing the fellows with a general background in disarmament and security-related issues, enabling them to gain confidence in discussing disarmament issues based on their knowledge and understanding, allowing them to improve their negotiating skills by assuming the roles of delegates to a model disarmament meeting, and familiarizing them with the procedures and practices of disarmament negotiating and deliberating bodies.
