46. At the 11th meeting, on 20 October, the representative of Brazil, on behalf of Brazil, Egypt, Ireland, Mexico, New Zealand, South Africa and Sweden, subsequently joined by Austria, Chile, Costa Rica, Paraguay and Solomon Islands, introduced a draft resolution entitled "Towards a nuclear-weapon-free world: a new agenda" (A/C.1/58/L.40), which read:

*"The General Assembly,*

*"Recalling its resolutions 53/77 Y of 4 December 1998, 54/54 G of 1 December 1999, 55/33 C of 20 November 2000 and 57/59 of 22 November 2002,*

*"Convinced that the existence of nuclear weapons is a threat to the survival of humanity and that the only real guarantee against such weapons is their complete elimination and the assurance that they will never be used or produced again,*

*"Convinced also that the retention of nuclear weapons carries the inherent risk of contributing to proliferation and falling into the hands of non-State actors,*

*"Reaffirming that nuclear non-proliferation and nuclear disarmament are mutually reinforcing processes and that a fundamental prerequisite for the promotion of nuclear non-proliferation is continuous irreversible progress in the reduction of nuclear arms,*

*"Declaring that the participation of the international community as a whole is central to the maintenance and enhancement of international peace and stability and that international security is a collective concern requiring collective engagement,*

*"Declaring also that internationally negotiated treaties in the field of disarmament have made a fundamental contribution to international peace and security and that unilateral and bilateral nuclear disarmament measures complement the treaty-based multilateral approach towards nuclear disarmament,*

*"Noting the Advisory Opinion of the International Court of Justice on the Legality of the Threat or Use of Nuclear Weapons, issued at The Hague on 8 July 1996,*

*"Declaring that any presumption of the indefinite possession of nuclear weapons by the nuclear-weapon States is incompatible with the integrity and sustainability of the nuclear non-proliferation regime and with the broader goal of the maintenance of international peace and security,*

*"Declaring also that each article of the Treaty on the Non-Proliferation of Nuclear Weapons is binding on the States parties at all times and in all circumstances and that it is imperative that all States parties be held fully accountable with respect to the strict compliance with their obligations under*

the Treaty, in which the undertakings on nuclear disarmament have been specified, the implementation of which remains the imperative,

*“Expressing its deep concern* at the limited progress made to date in implementing the thirteen steps on nuclear disarmament to which all States parties agreed at the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,

*“Also expressing its deep concern* at the continued failure of the Conference on Disarmament to deal with nuclear disarmament and to resume negotiations on a non-discriminatory, multilateral and international and effectively verifiable treaty banning the production of fissile material for nuclear weapons and other devices, taking into consideration both nuclear disarmament and nuclear non-proliferation objectives,

*“Expressing grave concern* that the Comprehensive Nuclear-Test-Ban Treaty has not yet entered into force,

*“Stressing* the importance of regular reporting in promoting confidence in the Treaty on the Non-Proliferation of Nuclear Weapons,

*“Noting* the successful completion in September 2002 of the first phase of the Trilateral Initiative, involving the International Atomic Energy Agency, the Russian Federation and the United States of America, which aims to enable the placement of excess nuclear materials from dismantled weapons under international safeguards,

*“Convinced* that the further reduction of non-strategic nuclear weapons constitutes an integral part of the nuclear arms reduction and disarmament process,

*“Noting* that, despite bilateral agreements, there is no sign of engagement of all of the five nuclear-weapon States in the process leading to the total elimination of nuclear weapons,

*“Declaring* that it is essential that the fundamental principles of transparency, verification and irreversibility apply to all nuclear disarmament measures,

*“Expressing its deep concern* at the continued retention of the nuclear-weapon option by those three States, India, Israel and Pakistan, which have not yet acceded to the Treaty on the Non-Proliferation of Nuclear Weapons and which operate unsafeguarded nuclear facilities, in particular given the effects of regional volatility on international security, and, in this context, the continued regional tensions and deteriorating security situation in South Asia and the Middle East,

*“Also expressing its deep concern* at the announcement by the Democratic People’s Republic of Korea of its withdrawal from the Treaty on the Non-Proliferation of Nuclear Weapons and at its decision to restart the Yongbyon nuclear reactor without International Atomic Energy Agency safeguards,

*“Expressing concern* that the development of missile defences could impact negatively on nuclear disarmament and non-proliferation and lead to a

new arms race on earth and in outer space, and stressing that no steps should be taken that would lead to the weaponization of outer space,

*“Expressing its deep concern* about emerging approaches to the broader role of nuclear weapons as part of security strategies, including rationalizations for the use of and the possible development of new types of nuclear weapons,

*“Welcoming* the progress made in the development of nuclear-weapon-free zones,

*“Recalling* the United Nations Millennium Declaration, in which the heads of State and Government resolved to strive for the elimination of weapons of mass destruction, in particular nuclear weapons, and to keep all options open for achieving this aim, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

*“Taking into consideration* the unequivocal undertaking by the nuclear-weapon States, in the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament, to which all the States parties to the Treaty are committed under article VI of the Treaty,

*“1. Reaffirms* that any possibility that nuclear weapons could be used represents a continued risk for humanity;

*“2. Calls upon* all States to refrain from any action that could lead to a new nuclear arms race or that could impact negatively on nuclear disarmament and non-proliferation;

*“3. Also calls upon* all States to fulfil all their obligations under international treaties and international law in the field of nuclear disarmament and non-proliferation;

*“4. Further calls upon* all States parties to pursue, with determination, the full and effective implementation of the agreements reached at the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, the outcome of which provides the requisite blueprint to achieve nuclear disarmament;

*“5. Agrees* on the importance and urgency of obtaining the signatures and ratifications required to achieve the early entry into force of the Comprehensive Nuclear-Test-Ban Treaty;

*“6. Calls* for the upholding and maintenance of the moratorium on nuclear-weapon-test explosions or any other nuclear explosions pending the entry into force of the Comprehensive Nuclear-Test-Ban Treaty;

*“7. Underlines* the urgency of the entry into force of the Comprehensive Nuclear-Test-Ban Treaty in the context of the progress achieved in implementing the international monitoring system;

*“8. Calls upon* the nuclear-weapon States to implement the commitments made in the Treaty on the Non-Proliferation of Nuclear Weapons, as well as in other nuclear disarmament or reduction agreements or initiatives, and to apply the principle of irreversibility by destroying their

nuclear warheads and avoid keeping them in a state that lends itself to their possible redeployment;

“9. *Acknowledges* that the reductions in the number of deployed strategic nuclear warheads envisaged by the Treaty on Strategic Offensive Reductions (‘the Moscow Treaty’) represent a positive step in the relationship between the United States of America and the Russian Federation, and calls upon them to make the Treaty verifiable and irreversible and to address non-operational warheads, thus making it a nuclear disarmament measure;

“10. *Agrees* that the further reduction of non-strategic nuclear weapons should be accorded a higher priority as an important step towards the elimination of nuclear weapons and that such reductions should be carried out in a comprehensive manner, including:

“(a) Further reductions in and elimination of non-strategic nuclear weapons based on unilateral initiatives and as an integral part of the nuclear arms reduction and disarmament process;

“(b) The implementation of reductions in a transparent, verifiable and irreversible manner;

“(c) The preservation, reaffirmation and implementation of the 1991 and 1992 presidential nuclear initiatives of the United States of America and the Union of the Soviet Socialist Republics/Russian Federation;

“(d) The formalization by the Russian Federation and the United States of America of their presidential nuclear initiatives into legally binding instruments and the initiation of negotiations on further reductions of their non-strategic nuclear weapons;

“(e) The enhancement of special security and physical protection measures for the transport and storage of non-strategic nuclear weapons, their components and related materials through, inter alia, the placing of such weapons in physically secure central storage sites with a view to their removal and subsequent destruction by the nuclear-weapon States as a part of the nuclear disarmament process to which they are committed under the Treaty on the Non-Proliferation of Nuclear Weapons, as well as the necessary steps to be taken by all nuclear-weapon States in possession of such weapons in this regard;

“(f) The achievement of further confidence-building and transparency measures to reduce the threats posed by non-strategic nuclear weapon systems;

“(g) The achievement of concrete agreed measures to further reduce the operational status of nuclear weapon systems so as to reduce the risk of use of non-strategic nuclear weapons;

“(h) The undertaking by the nuclear-weapon States that possess non-strategic nuclear weapons not to increase the number or types of weapons deployed and not to develop new types of those weapons or rationalizations for their use;

“(i) The prohibition of those types of non-strategic nuclear weapons which have already been removed from the arsenals of some nuclear-weapon

States and the development of transparency mechanisms for the verification of the elimination of those weapons;

“11. *Calls upon* the nuclear-weapon States to increase their transparency and accountability with regard to their nuclear weapon arsenals and their implementation of disarmament measures;

“12. *Agrees* that the Conference on Disarmament should establish, without delay, an appropriate ad hoc committee to deal with nuclear disarmament;

“13. *Also agrees* that the Conference on Disarmament should resume negotiations on a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices, taking into consideration both nuclear disarmament and nuclear non-proliferation objectives;

“14. *Further agrees* that the Conference on Disarmament should complete the examination and updating of the mandate on the prevention of an arms race in outer space in all its aspects, as contained in its decision of 13 February 1992, and that it should re-establish an ad hoc committee as early as possible;

“15. *Calls upon* the nuclear-weapon States to undertake the necessary steps towards the seamless integration of all five nuclear-weapon States into a process leading to the total elimination of nuclear weapons;

“16. *Notes* that the third and, as appropriate, fourth meetings of the Preparatory Committee of the 2005 Review Conference of the Treaty on the Non-Proliferation of Nuclear Weapons, taking into account the deliberations and results of the previous sessions, should make every effort to produce a report containing recommendations to the Review Conference;

“17. *Stresses* the importance of regular reporting in promoting confidence in the Treaty on the Non-Proliferation of Nuclear Weapons;

“18. *Calls upon* the nuclear-weapon States to respect fully their existing commitments with regard to security assurances pending the conclusion of multilaterally negotiated legally binding security assurances for all non-nuclear-weapon States parties;

“19. *Notes* the proposals on security assurances that have been submitted to the States parties to the Treaty on the Non-Proliferation of Nuclear Weapons, and calls upon the Preparatory Committee of the 2005 Review Conference to make time available to thoroughly consider the matter of security assurances at its third meeting so as to make recommendations to the Review Conference on how to take the matter forward;

“20. *Calls upon* those three States, India, Israel and Pakistan, which are not yet parties to the Treaty on the Non-Proliferation of Nuclear Weapons and which operate unsafeguarded nuclear facilities to accede to the Treaty as non-nuclear-weapon States promptly and without condition, to bring into force the required comprehensive safeguards agreements, together with additional protocols, consistent with the Model Protocol Additional to the Agreement(s) between State(s) and the International Atomic Energy Agency for the

Application of Safeguards approved by the Board of Governors of the International Atomic Energy Agency on 15 May 1997, for ensuring nuclear non-proliferation and to reverse clearly and urgently any policies to pursue any nuclear weapons development or deployment and refrain from any action that could undermine regional and international peace and security and the efforts of the international community towards nuclear disarmament and the prevention of nuclear weapons proliferation;

“21. *Reaffirms the conviction* that the establishment of internationally recognized nuclear-weapon-free zones on the basis of arrangements freely arrived at among the States of the regions concerned enhances global and regional peace and security, strengthens the nuclear non-proliferation regime and contributes towards realizing the objective of nuclear disarmament;

“22. *Expresses concern* at tensions in the Middle East and South Asia and renews support for the establishment of a Middle East zone free of nuclear weapons and other weapons of mass destruction and of a nuclear-weapon-free zone in South Asia;

“23. *Calls upon* those States which have not yet done so to conclude full-scope safeguards agreements with the International Atomic Energy Agency and to conclude additional protocols to their safeguards agreements on the basis of the Model Protocol;

“24. *Calls upon* the Democratic People’s Republic of Korea to reconsider its recent announcements, with a view to complying fully with the provisions of the Treaty on the Non-Proliferation of Nuclear Weapons, and in this connection supports all diplomatic efforts for an early, peaceful resolution of the situation and for the establishment of an area free of nuclear weapons on the Korean peninsula;

“25. *Stresses* that the International Atomic Energy Agency must be able to verify and ensure that nuclear facilities of the States parties to the Treaty on the Non-Proliferation of Nuclear Weapons are being used for peaceful purposes only, and calls upon States to cooperate fully and immediately with the Agency in resolving issues arising from the implementation of their respective obligations towards it;

“26. *Calls upon* the Russian Federation and the United States of America to approach the International Atomic Energy Agency to carry out the verification requirements set forth in the Plutonium Management and Disposition Agreement signed by the two States on the basis of the model legal framework that has been agreed upon and that is now available to be used in new verification agreements between the International Atomic Energy Agency and each of the two States;

“27. *Calls upon* all nuclear-weapon States to make arrangements for the placing, as soon as practicable, of their fissile material no longer required for military purposes under International Atomic Energy Agency or other relevant international verification and to make arrangements for the disposition of such material for peaceful purposes in order to ensure that such material remains permanently outside military programmes;

“28. *Affirms* that a nuclear-weapon-free world will ultimately require the underpinning of a universal and multilaterally negotiated legally binding instrument or a framework encompassing a mutually reinforcing set of instruments;

“29. *Acknowledges* the reports of the Secretary-General on the implementation of resolution 57/59, and requests him to prepare a report, within existing resources, on the implementation of the present resolution;

*Believing* that the efforts of the international community to move towards the ideal of general and complete disarmament are guided by the inherent human desire for genuine peace and security, the elimination of the danger of war and the release of economic, intellectual and other resources for peaceful pursuits,

*Affirming* the abiding commitment of all States to the purposes and principles enshrined in the Charter of the United Nations in the conduct of their international relations,

*Noting* that essential guidelines for progress towards general and complete disarmament were adopted at the tenth special session of the General Assembly,<sup>1</sup>

*Welcoming* the prospects of genuine progress in the field of disarmament engendered in recent years as a result of negotiations between the two super-Powers,

*Taking note* of the recent proposals for disarmament at the regional and subregional levels,

*Recognizing* the importance of confidence-building measures for regional and international peace and security,

*Convinced* that endeavours by countries to promote regional disarmament, taking into account the specific characteristics of each region and in accordance with the principle of undiminished security at the lowest level of armaments, would enhance the security of all States and would thus contribute to international peace and security by reducing the risk of regional conflicts,

1. *Stresses* that sustained efforts are needed, within the framework of the Conference on Disarmament and under the umbrella of the United Nations, to make progress on the entire range of disarmament issues;

2. *Affirms* that global and regional approaches to disarmament complement each other and should therefore be pursued simultaneously to promote regional and international peace and security;

## **Draft resolution IV**

### **Conventional arms control at the regional and subregional levels**

*The General Assembly,*

*Recalling* its resolutions 48/75 J of 16 December 1993, 49/75 O of 15 December 1994, 50/70 L of 12 December 1995, 51/45 Q of 10 December 1996, 52/38 Q of 9 December 1997, 53/77 P of 4 December 1998, 54/54 M of 1 December 1999, 55/33 P of 20 November 2000, 56/24 I of 29 November 2001 and 57/77 of 22 November 2002,

*Recognizing* the crucial role of conventional arms control in promoting regional and international peace and security,

*Convinced* that conventional arms control needs to be pursued primarily in the regional and subregional contexts since most threats to peace and security in the post-cold-war era arise mainly among States located in the same region or subregion,

*Aware* that the preservation of a balance in the defence capabilities of States at the lowest level of armaments would contribute to peace and stability and should be a prime objective of conventional arms control,

*Desirous* of promoting agreements to strengthen regional peace and security at the lowest possible level of armaments and military forces,

*Noting with particular interest* the initiatives taken in this regard in different regions of the world, in particular the commencement of consultations among a number of Latin American countries and the proposals for conventional arms control made in the context of South Asia, and recognizing, in the context of this subject, the relevance and value of the Treaty on Conventional Armed Forces in Europe,<sup>1</sup> which is a cornerstone of European security,

*Believing* that militarily significant States and States with larger military capabilities have a special responsibility in promoting such agreements for regional security,

*Believing also* that an important objective of conventional arms control in regions of tension should be to prevent the possibility of military attack launched by surprise and to avoid aggression,

1. *Decides* to give urgent consideration to the issues involved in conventional arms control at the regional and subregional levels;

2. *Requests* the Conference on Disarmament to consider the formulation of principles that can serve as a framework for regional agreements on conventional arms control, and looks forward to a report of the Conference on this subject;

*The General Assembly,*

*Recognizing* that disarmament, arms control and non-proliferation are essential for the maintenance of international peace and security,

*Recalling* that effective national control of the transfer of arms, military equipment and dual-use goods and technology, including those transfers that could contribute to proliferation activities, is an important tool for achieving those objectives,

*Recalling also* that the States parties to the international disarmament and non-proliferation treaties have undertaken to facilitate the fullest possible exchange of materials, equipment and technological information for peaceful purposes, in accordance with the provisions of those treaties,

*Considering* that the exchange of national legislation, regulations and procedures on the transfer of arms, military equipment and dual-use goods and technology contributes to mutual understanding and confidence among Member States,

## **Draft resolution VIII**

### **Confidence-building measures in the regional and subregional context**

*The General Assembly,*

*Guided* by the purposes and principles enshrined in the Charter of the United Nations,

*Recalling* its resolution 57/337 of 3 July 2003 entitled “Prevention of armed conflict”, in which it calls upon Member States to settle their disputes by peaceful means, as set out in Chapter VI of the Charter, inter alia, by any procedures adopted by the parties, including the most effective use of the International Court of Justice,

*Recalling also* the Security Council resolutions relating to the prevention of armed conflict, and noting all Security Council presidential statements relating to this matter,

*Considering* the importance and effectiveness of confidence-building measures taken at the initiative and with the participation of all States concerned, and taking into account the specific characteristics of each region, since such measures can contribute to regional stability,

*Convinced* that resources released by disarmament, including regional disarmament, can be devoted to economic and social development and to the protection of the environment for the benefit of all peoples, in particular those of the developing countries,

*Recognizing* the need for meaningful dialogue among States concerned in the regions of tension to avert conflict,

*Welcoming* the peace processes already initiated by States concerned to resolve their disputes through peaceful means bilaterally or through mediation, inter alia, by third parties, regional organizations or the United Nations,

*Recognizing* that States in some regions have already taken steps towards confidence-building measures at the bilateral, subregional and regional levels in the political and military fields, including arms control and disarmament, and noting that such confidence-building measures have improved peace and security in those regions and contributed to progress in the socio-economic conditions of their people,

*Concerned* that the continuation of disputes among States, particularly in the absence of an effective mechanism to resolve them through peaceful means, may contribute to the arms race and endanger the maintenance of international peace and security and the efforts of the international community to promote arms control and disarmament,

1. *Calls upon* Member States to refrain from the use or threat of use of force in accordance with the purposes and principles of the Charter of the United Nations;

2. *Reaffirms its commitment* to the peaceful settlement of disputes under Chapter VI of the Charter, in particular Article 33, which provides for a solution by negotiation, enquiry, mediation, conciliation, arbitration, judicial settlement, resort to regional agencies or arrangements or other peaceful means chosen by the parties;

3. *Calls upon* Member States that have not already done so to open consultations and dialogue in the regions of tension without preconditions;

4. *Urges* States to comply strictly with all bilateral, regional and international agreements, including arms control and disarmament agreements, to which they are party;

5. *Urges also*, in the context of confidence-building measures, the maintenance of military balance between States in the regions of tension consistent with the principle of undiminished security at the lowest level of armaments;

6. *Encourages* the promotion of unilateral, bilateral and regional confidence-building measures to avoid conflict and prevent the unintended and accidental outbreak of hostilities;

7. *Requests* the Secretary-General to seek the views of Member States with a view to exploring possibilities of furthering efforts towards confidence-building measures in the regional and subregional context, particularly in the regions of tension;

8. *Also requests* the Secretary-General to report on the subject to the General Assembly at its fifty-ninth session;

9. *Decides* to include in the provisional agenda of its fifty-ninth session an item entitled "Confidence-building measures in the regional and subregional context".

**Draft resolution IX**  
**Promotion of multilateralism in the area of disarmament**  
**and non-proliferation**

*The General Assembly,*

*Determined* to foster strict respect for the purposes and principles enshrined in the Charter of the United Nations,

*Recalling* its resolution 56/24 T of 29 November 2001 on multilateral cooperation in the area of disarmament and non-proliferation and global efforts against terrorism and other relevant resolutions, as well as its resolution 57/63 of 22 November 2002 on promotion of multilateralism in the area of disarmament and non-proliferation,

*Recalling also* the purpose of the United Nations to maintain international peace and security and, to that end, to take effective collective measures for the prevention and removal of threats to the peace and for the suppression of acts of aggression or other breaches of the peace, and to bring about by peaceful means, and in conformity with the principles of justice and international law, adjustment or settlement of international disputes or situations which might lead to a breach of the peace, as enshrined in the Charter,

*Recalling further* the United Nations Millennium Declaration,<sup>1</sup> which states, inter alia, that the responsibility for managing worldwide economic and social development, as well as threats to international peace and security, must be shared among the nations of the world and should be exercised multilaterally and that, as the most universal and most representative organization in the world, the United Nations must play the central role,

*Convinced* that in the globalization era and with the information revolution, arms regulation, non-proliferation and disarmament problems are more than ever the concern of all countries in the world, which are affected in one way or another by these problems and, therefore, should have the possibility to participate in the negotiations that arise to tackle them,

*Bearing in mind* the existence of a broad structure of disarmament and arms regulation agreements resulting from non-discriminatory and transparent multilateral negotiations with the participation of a large number of countries, regardless of their size and power,

*Aware* of the need to advance further in the field of arms regulation, non-proliferation and disarmament on the basis of universal, multilateral, non-discriminatory and transparent negotiations with the goal of reaching general and complete disarmament under strict international control,

*Recognizing* the complementarity of bilateral, plurilateral and multilateral negotiations on disarmament,

*Recognizing also* that the proliferation and development of weapons of mass destruction, including nuclear weapons, are among the most immediate threats to international peace and security which need to be dealt with, with the highest priority,

---

<sup>1</sup> See resolution 55/2.

*Considering* that the multilateral disarmament agreements provide the mechanism for States parties to consult one another and to cooperate in solving any problems which may arise in relation to the objective of, or in the application of, the provisions of the agreements and that such consultations and cooperation may also be undertaken through appropriate international procedures within the framework of the United Nations and in accordance with the Charter,

*Stressing* that international cooperation, the peaceful settlement of disputes, dialogue and confidence-building measures would contribute essentially to the creation of multilateral and bilateral friendly relations among peoples and nations,

*Being concerned* at the continuous erosion of multilateralism in the field of arms regulation, non-proliferation and disarmament, and recognizing that a resort to unilateral actions by Member States in resolving their security concerns would jeopardize international peace and security and undermine confidence in the international security system as well as the foundations of the United Nations itself,

*Reaffirming* the absolute validity of multilateral diplomacy in the field of disarmament, and determined to promote multilateralism as an essential way to develop arms regulation and disarmament negotiations,

1. *Reaffirms* multilateralism as the core principle in negotiations in the area of disarmament and non-proliferation with a view to maintaining and strengthening universal norms and enlarging their scope;

2. *Also reaffirms* multilateralism as the core principle in resolving disarmament and non-proliferation concerns;

3. *Urges* the participation of all interested States in multilateral negotiations on arms regulation, non-proliferation and disarmament in a non-discriminatory and transparent manner;

4. *Underlines* the importance of preserving the existing agreements on arms regulation and disarmament, which constitute an expression of the results of international cooperation and multilateral negotiations in response to the challenges facing mankind;

5. *Calls once again upon* all Member States to renew and fulfil their individual and collective commitments to multilateral cooperation as an important means of pursuing and achieving their common objectives in the area of disarmament and non-proliferation;

6. *Requests* the States parties to the relevant instruments on weapons of mass destruction to consult and cooperate among themselves in resolving their concerns with regard to cases of non-compliance as well as on implementation, in accordance with the procedures defined in those instruments, and to refrain from resorting or threatening to resort to unilateral actions or directing unverified non-compliance accusations against one another to resolve their concerns;

7. *Takes note* of the report of the Secretary-General containing the replies of Member States on the promotion of multilateralism in the area of disarmament and non-proliferation,<sup>2</sup> submitted pursuant to resolution 57/63;

---

<sup>2</sup> See A/58/176 and Add.1.

8. *Requests* the Secretary-General to seek the views of Member States on the issue of the promotion of multilateralism in the area of disarmament and non-proliferation and to submit a report thereon to the General Assembly at its fifty-ninth session;

9. *Decides* to include in the provisional agenda of its fifty-ninth session the item entitled "Promotion of multilateralism in the area of disarmament and non-proliferation".

**Draft resolution X**  
**Observance of environmental norms in the drafting and implementation of agreements on disarmament and arms control**

*The General Assembly,*

*Recalling* its resolutions 50/70 M of 12 December 1995, 51/45 E of 10 December 1996, 52/38 E of 9 December 1997, 53/77 J of 4 December 1998, 54/54 S of 1 December 1999, 55/33 K of 20 November 2000, 56/24 F of 29 November 2001 and 57/64 of 22 November 2002,

*Emphasizing* the importance of the observance of environmental norms in the preparation and implementation of disarmament and arms limitation agreements,

*Recognizing* that it is necessary to take duly into account the agreements adopted at the United Nations Conference on Environment and Development, as well as prior relevant agreements, in the drafting and implementation of agreements on disarmament and arms limitation,

*Taking note* of the report of the Secretary-General,<sup>1</sup>

*Mindful* of the detrimental environmental effects of the use of nuclear weapons,

1. *Reaffirms* that international disarmament forums should take fully into account the relevant environmental norms in negotiating treaties and agreements on disarmament and arms limitation and that all States, through their actions, should contribute fully to ensuring compliance with the aforementioned norms in the implementation of treaties and conventions to which they are parties;

2. *Calls upon* States to adopt unilateral, bilateral, regional and multilateral measures so as to contribute to ensuring the application of scientific and technological progress in the framework of international security, disarmament and other related spheres, without detriment to the environment or to its effective contribution to attaining sustainable development;

3. *Welcomes* the information provided by Member States on the implementation of the measures they have adopted to promote the objectives envisaged in the present resolution;<sup>1</sup>

4. *Invites* all Member States to communicate to the Secretary-General information on the measures they have adopted to promote the objectives envisaged in the present resolution, and requests the Secretary-General to submit a report containing this information to the General Assembly at its fifty-ninth session;

5. *Decides* to include in the provisional agenda of its fifty-ninth session the item entitled "Observance of environmental norms in the drafting and implementation of agreements on disarmament and arms control".

## Draft resolution XII

### Reducing nuclear danger

*The General Assembly,*

*Bearing in mind* that the use of nuclear weapons poses the most serious threat to mankind and to the survival of civilization,

*Reaffirming* that any use or threat of use of nuclear weapons would constitute a violation of the Charter of the United Nations,

*Convinced* that the proliferation of nuclear weapons in all its aspects would seriously enhance the danger of nuclear war,

*Convinced also* that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

*Considering* that, until nuclear weapons cease to exist, it is imperative on the part of the nuclear-weapon States to adopt measures that assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

*Considering also* that the hair-trigger alert of nuclear weapons carries unacceptable risks of unintentional or accidental use of nuclear weapons, which would have catastrophic consequences for all mankind,

*Emphasizing* the imperative need to adopt measures to avoid accidental, unauthorized or unexplained incidents arising from computer anomaly or other technical malfunctions,

*Conscious* that limited steps relating to detargeting have been taken by the nuclear-weapon States and that further practical, realistic and mutually reinforcing steps are necessary to contribute to the improvement in the international climate for negotiations leading to the elimination of nuclear weapons,

*Mindful* that reduction of tensions brought about by a change in nuclear doctrines would positively impact on international peace and security and improve the conditions for the further reduction and the elimination of nuclear weapons,

*Reiterating* the highest priority accorded to nuclear disarmament in the Final Document of the Tenth Special Session of the General Assembly<sup>1</sup> and by the international community,

*Recalling* that in the advisory opinion of the International Court of Justice on the *Legality of the Threat or Use of Nuclear Weapons*<sup>2</sup> it is stated that there exists an obligation for all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

*Recalling also* the call in the United Nations Millennium Declaration<sup>3</sup> to seek to eliminate the dangers posed by weapons of mass destruction and the resolve to strive for the elimination of weapons of mass destruction, particularly nuclear

weapons, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

1. *Calls* for a review of nuclear doctrines and, in this context, immediate and urgent steps to reduce the risks of unintentional and accidental use of nuclear weapons;

2. *Requests* the five nuclear-weapon States to take measures towards the implementation of paragraph 1 above;

3. *Calls upon* Member States to take the necessary measures to prevent the proliferation of nuclear weapons in all its aspects and to promote nuclear disarmament, with the objective of eliminating nuclear weapons;

4. *Takes note* of the report of the Secretary-General submitted pursuant to paragraph 5 of General Assembly resolution 57/84 of 22 November 2002;<sup>4</sup>

5. *Requests* the Secretary-General to intensify efforts and support initiatives that would contribute towards the full implementation of the seven recommendations identified in the report of the Advisory Board on Disarmament Matters that would significantly reduce the risk of nuclear war,<sup>5</sup> and also to continue to encourage Member States to endeavour to create conditions that would allow the emergence of an international consensus to hold an international conference as proposed in the United Nations Millennium Declaration,<sup>3</sup> to identify ways of eliminating nuclear dangers, and to report thereon to the General Assembly at its fifty-ninth session;

6. *Decides* to include in the provisional agenda of its fifty-ninth session the item entitled "Reducing nuclear danger".

*Recognizing* the determination of the international community to combat terrorism, as evident in relevant General Assembly and Security Council resolutions,

*Deeply concerned* by the growing risk of linkages between terrorism and weapons of mass destruction, and in particular by the fact that terrorists may seek to acquire weapons of mass destruction,

*Noting* the support expressed in the Final Document of the Thirteenth Conference of Heads of State or Government of Non-Aligned Countries, which was held in Kuala Lumpur from 20 to 25 February 2003,<sup>1</sup> for measures to prevent terrorists from acquiring weapons of mass destruction,

*Noting also* that the Group of Eight, the European Union, the Regional Forum of the Association of Southeast Asian Nations and others have taken into account in their deliberations the dangers posed by the acquisition by terrorists of weapons of mass destruction, and the need for international cooperation in combating it,

*Acknowledging* the consideration of issues relating to terrorism and weapons of mass destruction by the Advisory Board on Disarmament Matters,<sup>2</sup>

*Taking note* of resolution GC(47)/RES/8, adopted on 19 September 2003 by the General Conference of the International Atomic Energy Agency at its forty-seventh regular session,<sup>3</sup> and the setting up of an Advisory Group on Security in the Agency to advise the Director General on the Agency's activities relating to nuclear security,

*Taking note also* of the report of the Policy Working Group on the United Nations and Terrorism,<sup>4</sup>

*Taking note further* of the report of the Secretary-General,<sup>5</sup> submitted pursuant to paragraphs 2 and 4 of resolution 57/83,

*Mindful* of the urgent need for addressing, within the United Nations framework and through international cooperation, this threat to humanity,

*Emphasizing* that progress is urgently needed in the area of disarmament and non-proliferation in order to help to maintain international peace and security and to contribute to global efforts against terrorism,

1. *Calls upon* all Member States to support international efforts to prevent terrorists from acquiring weapons of mass destruction and their means of delivery;

## **Draft resolution XV**

### **Reduction of non-strategic nuclear weapons**

*The General Assembly,*

*Recalling* its resolutions 55/33 D of 20 November 2000 and 57/58 and 57/59 of 22 November 2002,

*Stressing* the unequivocal undertaking by the nuclear-weapon States, in the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament, to which all States parties to the Treaty are committed under its article VI,<sup>1</sup>

*Recognizing* that disarmament and non-proliferation are essential for the maintenance of international peace and security,

*Reaffirming* the necessity of strict compliance at all times and in all circumstances by all parties with their obligations under the Treaty on the Non-Proliferation of Nuclear Weapons<sup>2</sup> and the necessity of upholding their commitments in the decisions and final documents agreed at the 1995 and 2000 Review Conferences,

*Noting* the advisory opinion of the International Court of Justice on the *Legality of the Threat or Use of Nuclear Weapons*, issued at The Hague on 8 July 1996,<sup>3</sup>

*Reiterating* the responsibility of the nuclear-weapon States for transparent, verifiable and irreversible reductions in nuclear weapons leading to nuclear disarmament,

*Stressing* the commitment made in the Final Document of the 2000 Review Conference to the further reduction of non-strategic nuclear weapons,<sup>4</sup>

*Convinced* that the further reduction of non-strategic nuclear weapons constitutes an integral part of the nuclear-arms reduction and disarmament process,

*Concerned* about the threat posed by non-strategic nuclear weapons due to their portability and proximity to areas of conflict, and thus about the risk of proliferation and of use,

*Concerned* about emerging approaches to the broader role of nuclear weapons as part of security strategies, including the possible development of new types of low-yield non-strategic nuclear weapons,

*Taking into consideration* the lack of transparency and of formal agreements with regard to non-strategic nuclear weapons,

<sup>1</sup> 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, *Final Document*, vol. I (NPT/CONF.2000/28 (Parts I and II)), part I, section entitled "Article VI and eighth to twelfth preambular paragraphs", para. 15:6.

*Emphasizing* that further reductions of non-strategic nuclear weapons should be accorded a higher priority, as an important step towards the elimination of nuclear weapons, and be carried out in a comprehensive manner,

1. *Agrees* that further reductions in and elimination of non-strategic nuclear weapons should be based on unilateral initiatives and included as an integral part of the nuclear-arms reduction and disarmament process;

2. *Also agrees* that reductions of non-strategic nuclear weapons should be carried out in a transparent, verifiable and irreversible manner;

3. *Further agrees* on the importance of preserving, reaffirming and implementing the 1991 and 1992 presidential nuclear initiatives of the United States of America and the Union of Soviet Socialist Republics/Russian Federation on non-strategic nuclear weapons;

4. *Calls upon* the Russian Federation and the United States of America to formalize their presidential nuclear initiatives into legal instruments and to initiate negotiations on further reductions of such weapons;

5. *Stresses* the importance of the enhancement of special security and physical protection measures for the transport and storage of non-strategic nuclear weapons, their components and related materials through, inter alia, the placing of such weapons in physically secure central storage sites, with a view to their removal and subsequent elimination by the nuclear-weapon States as a part of the nuclear disarmament process to which they are committed under the Treaty on the Non-Proliferation of Nuclear Weapons,<sup>2</sup> and calls upon all nuclear-weapon States in possession of such weapons to take the necessary steps in this regard;

6. *Calls* for further confidence-building and transparency measures to reduce the threats posed by non-strategic nuclear weapons;

7. *Also calls* for concrete agreed measures to reduce further the operational status of non-strategic nuclear weapons systems so as to reduce the risk of use of non-strategic nuclear weapons;

8. *Stresses* the need for an undertaking by the nuclear-weapon States that possess such weapons not to increase the number or types of weapons deployed and not to develop new types of these weapons or rationalizations for their use;

9. *Calls* for the prohibition of those types of non-strategic nuclear weapons that have already been removed from the arsenals of some nuclear-weapon States and the development of transparency mechanisms for the verification of the elimination of these weapons;

10. *Decides* to include in the provisional agenda of its sixtieth session the item entitled "Reduction of non-strategic nuclear weapons".

## **Draft resolution XVI**

### **Towards a nuclear-weapon-free world: a new agenda**

*The General Assembly,*

*Recalling* its resolutions 53/77 Y of 4 December 1998, 54/54 G of 1 December 1999, 55/33 C of 20 November 2000 and 57/59 of 22 November 2002,

*Convinced* that the existence of nuclear weapons is a threat to the survival of humanity and that the only real guarantee against the use or threat of use of these weapons is their complete elimination and the assurance that they will never be used or produced again,

*Convinced also* that the retention of nuclear weapons carries the inherent risk of proliferation of those weapons and their falling into the hands of non-State actors,

*Reaffirming* that nuclear non-proliferation and nuclear disarmament are equally important and mutually reinforcing processes requiring continuous irreversible progress on both fronts,

*Declaring* that the participation of the international community as a whole is central to the maintenance and enhancement of international peace and stability, and that international security is a collective concern requiring collective engagement,

*Declaring also* that internationally negotiated treaties in the field of disarmament have made a fundamental contribution to international peace and security, and that unilateral and bilateral nuclear disarmament measures complement the treaty-based multilateral approach towards nuclear disarmament,

*Noting* the advisory opinion of the International Court of Justice on the *Legality of the Threat or Use of Nuclear Weapons*, issued at The Hague on 8 July 1996,<sup>1</sup>

*Declaring* that any presumption of the indefinite possession of nuclear weapons by the nuclear-weapon States is incompatible with the integrity and sustainability of the nuclear non-proliferation regime and with the broader goal of the maintenance of international peace and security,

*Declaring* that each article of the Treaty on the Non-Proliferation of Nuclear Weapons<sup>2</sup> is binding on the States parties at all times and in all circumstances and that it is imperative that all States parties be held fully accountable with respect to the strict compliance with their obligations under the Treaty, and that the undertakings therein on nuclear disarmament have been given and implementation of them remains imperative,

*Expressing its deep concern* at the limited progress made to date in implementing the thirteen steps on nuclear disarmament, and determined to implement these thirteen practical steps, to which all States parties agreed at the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,<sup>3</sup>

*Expressing its deep concern* at the continued failure of the Conference on Disarmament to deal with nuclear disarmament and to resume negotiations on a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons and other devices, taking into consideration both nuclear disarmament and nuclear non-proliferation objectives,

*Expressing grave concern* that the Comprehensive Nuclear-Test-Ban Treaty<sup>4</sup> has not yet entered into force,

*Stressing* the importance of regular reporting in promoting confidence in the Treaty on the Non-Proliferation of Nuclear Weapons,

*Noting* the successful completion in September 2002 of the first phase of the Trilateral Initiative, involving the International Atomic Energy Agency, the Russian Federation and the United States of America, which aims to enable the placement of excess nuclear materials from dismantled weapons under international safeguards,

*Convinced* that the further reduction of non-strategic nuclear weapons constitutes an integral part of the nuclear arms reduction and disarmament process,

*Noting* that, despite bilateral agreements, there is no sign of engagement of all of the five nuclear-weapon States in the multilateral process leading to the total elimination of nuclear weapons,

*Declaring* that it is essential that the fundamental principles of transparency, verification and irreversibility apply to all nuclear disarmament measures,

*Expressing its deep concern* at the continued retention of the nuclear-weapons option by those three States, India, Israel and Pakistan, that have not yet acceded to the Treaty on the Non-Proliferation of Nuclear Weapons and that operate unsafeguarded nuclear facilities, in particular given the effects of regional volatility on international security, and, in this context, the continued regional tensions and deteriorating security situation in South Asia and the Middle East,

*Expressing also its deep concern* at the announcement by the Democratic People's Republic of Korea to withdraw from the Treaty on the Non-Proliferation of Nuclear Weapons and at its decision to restart the Yongbyon nuclear reactor without International Atomic Energy Agency safeguards,

*Expressing concern* that the development of missile defences could impact negatively on nuclear disarmament and non-proliferation and lead to a new arms race on earth and in outer space,

*Stressing* that no actions be taken that would lead to the weaponization of outer space,

*Expressing its deep concern* about emerging approaches to the broader role of nuclear weapons as part of security strategies, including rationalizations for the use, and the possible development, of new types of nuclear weapons,

*Welcoming further* the progress in the development of nuclear-weapon-free zones,

---

<sup>4</sup> See resolution 50/245.

*Recalling* the United Nations Millennium Declaration,<sup>5</sup> in which the heads of State and Government resolved to strive for the elimination of weapons of mass destruction, in particular nuclear weapons, and to keep all options open for achieving this aim, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

*Taking into consideration* the unequivocal undertaking by the nuclear-weapon States, in the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament, to which all the States parties to the Treaty are committed under article VI of the Treaty,<sup>6</sup>

1. *Reaffirms* that any possibility that nuclear weapons could be used represents a continued risk for humanity;

2. *Calls upon* all States to refrain from any action that could lead to a new nuclear-arms race or that could impact negatively on nuclear disarmament and non-proliferation;

3. *Calls upon* all States to fulfil all their obligations under international treaties and international law in the field of nuclear disarmament and non-proliferation;

4. *Calls upon* all States parties to pursue, with determination, the full and effective implementation of the agreements reached at the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,<sup>7</sup> the outcome of which provides the requisite plan to achieve nuclear disarmament;

5. *Agrees* on the importance and urgency of signatures and ratifications required to achieve the early entry into force of the Comprehensive Nuclear-Test-Ban Treaty;<sup>4</sup>

6. *Calls* for the upholding and maintenance of the moratorium on nuclear-weapon-test explosions or any other nuclear explosions pending the entry into force of the Comprehensive Nuclear-Test-Ban Treaty;

7. *Underlines* the urgency of the entry into force of the Comprehensive Nuclear-Test-Ban Treaty in the context of the progress achieved in implementing the international monitoring system;

8. *Calls upon* the nuclear-weapon States to implement the commitments made in the Treaty on the Non-Proliferation of Nuclear Weapons,<sup>2</sup> as well as in other nuclear disarmament or reductions agreements or initiatives, and to apply the principle of irreversibility by destroying their nuclear warheads and avoid keeping them in a state that lends itself to their possible redeployment;

9. *Acknowledges* that the reductions in the number of deployed strategic nuclear warheads envisaged by the Treaty on Strategic Offensive Reductions (“the

10. *Agrees* that the further reduction of non-strategic nuclear weapons should be accorded a higher priority as an important step towards the elimination of nuclear weapons and be carried out in a comprehensive manner, including:

(a) Further reductions in and elimination of non-strategic nuclear weapons based on unilateral initiatives and as an integral part of the nuclear-arms reduction and disarmament process;

(b) The implementation of reductions in a transparent, verifiable and irreversible manner;

(c) The preservation, reaffirmation and implementation of the 1991 and 1992 presidential nuclear initiatives of the United States of America and the Union of Soviet Socialist Republics/Russian Federation on non-strategic nuclear weapons;

(d) The formalization by the Russian Federation and the United States of America of their presidential nuclear initiatives into legal instruments and the initiation of negotiations on further reductions of such weapons;

(e) The enhancement of special security and physical protection measures for the transport and storage of non-strategic nuclear weapons, their components and related materials through, inter alia, the placing of such weapons in physically secure central storage sites with a view to their removal and subsequent elimination by the nuclear-weapon States as a part of the nuclear disarmament process to which they are committed under the Treaty on the Non-Proliferation of Nuclear Weapons, as well as the necessary steps to be taken by all nuclear-weapon States in possession of such weapons in this regard;

(f) The achievement of further confidence-building and transparency measures to reduce the threats posed by non-strategic nuclear weapons;

14. *Agrees* that the Conference on Disarmament should complete the examination and updating of the mandate on the prevention of an arms race in outer space in all its aspects, as contained in its decision of 13 February 1992,<sup>9</sup> and re-establish an ad hoc committee as early as possible;

15. *Calls upon* the nuclear-weapon States to undertake the necessary steps towards the seamless integration of all five nuclear-weapon States into a process leading to the total elimination of nuclear weapons;

16. *Notes* that the third and, as appropriate, fourth meetings of the Preparatory Committee for the 2005 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, taking into account the deliberations and results of the previous sessions, should make every effort to produce a report containing recommendations to the Review Conference;

17. *Stresses* the importance of regular reporting in promoting confidence in the Treaty on the Non-Proliferation of Nuclear Weapons;

19. *Notes* the proposals on security assurances that have been submitted to the States parties to the Treaty on the Non-Proliferation of Nuclear Weapons, and calls upon the Preparatory Committee for the 2005 Review Conference to allow time to thoroughly consider the matter of security assurances at its third meeting so as to make recommendations to the Review Conference on how to take the matter forward;

20. *Calls upon* those three States, India, Israel and Pakistan, which are not yet parties to the Treaty on the Non-Proliferation of Nuclear Weapons and which operate unsafeguarded nuclear facilities, to accede to the Treaty as non-nuclear-weapon States promptly and without condition, to bring into force the required comprehensive safeguards agreements, together with additional protocols, consistent with the Model Protocol Additional to the Agreement(s) between State(s) and the International Atomic Energy Agency for the Application of Safeguards approved by the Board of Governors of the International Atomic Energy Agency on 15 May 1997,<sup>10</sup> for ensuring nuclear non-proliferation and to reverse clearly and urgently any policies to pursue any nuclear weapons development or deployment and refrain

21. *Reaffirms the conviction* that the establishment of internationally recognized nuclear-weapon-free zones on the basis of arrangements freely arrived at among the States of the regions concerned enhances global and regional peace and security, strengthens the nuclear non-proliferation regime and contributes towards realizing the objective of nuclear disarmament;

22. *Expresses concern* at tensions in the Middle East and South Asia, and renews support for the establishment of a Middle East zone free of nuclear weapons and other weapons of mass destruction and of a nuclear-weapon-free zone in South Asia;
