Overview

- The United Nations Office at Nairobi was established effective 1 January 1996 as a successor to the United Nations Common Services unit in Nairobi and two separate divisions of administration of the United Nations Environment Programme (UNEP) and the United Nations Human Settlements Programme (UN-Habitat). The objective of establishing the United Nations Office at Nairobi was to strengthen the United Nations presence in Nairobi and to achieve economies of scale. Under a memorandum of understanding and specific service agreements with UNEP and UN-Habitat, the Office provides them with a full range of administrative and other support services. Under various agreements with offices of other organizations of the United Nations system located in Nairobi, the Office also administers common support services for those offices. The Office also manages the United Nations facilities in Nairobi. The responsibilities of the Office will be set out in the revised Secretary-General's bulletin on the organization of the United Nations Office at Nairobi. The activities outlined in the present section fall within the framework of programme 24, Management and central support services, of the biennial programme plan for the period 2008-2009.
- 28G.2 The substantive programme activities of both UNEP and UN-Habitat are funded predominantly from extrabudgetary resources. On the basis of data on administrative workloads in support of their operations, UNEP and UN-Habitat reimburse the United Nations Office at Nairobi for the services provided for administrative support of their extrabudgetary activities, through a system of reimbursement arrangements for the services rendered. A significant component of funding for the Nairobi administration is consequentially of an extrabudgetary origin. This situation was addressed by the General Assembly initially in its resolution 52/220, in which it requested the Secretary-General to bring the financial arrangements of the Office in line with those of similar United Nations administrative offices. In response to that request and with a view to easing the administrative costs levied on the substantive programmes of UNEP and UN-Habitat, the Secretary-General has made a commitment to gradually increase the regular budget component of the programme budget of the Office. That commitment was reflected in the proposed programme budget for the bienniums 2000-2001, 2002-2003, 2004-2005 and 2006-2007 under the section for Administration, Nairobi, and was subsequently endorsed by the General Assembly in its resolutions 54/249, 56/253, 57/292, section I, 58/270 and 60/247 A, whereby the Assembly approved the proposed increases in the level of resources for the administration of the Office.
- 28G.3 In line with the directives of the General Assembly, the further strengthening of the regular budget component of the United Nations Office at Nairobi is reflected in the proposed programme budget for the biennium 2008-2009. For the Administration, Nairobi, this is translated into an increase in the regular budget resources in the amount of \$4.3 million, or 21.9 per cent, over the revised appropriation for 2006-2007. Of this increase \$1.8 million relates to the delayed impact of the 13 new posts approved in the biennium 2006-2007 and \$2.5 million represents the proposed increase sought in line with General Assembly resolution 52/220. This increase includes the proposed establishment of 36 new posts, of which 34 posts are in place of those posts that are currently financed from the extrabudgetary resources of UNEP and UN-Habitat, to provide administrative services. As a result, all Professional posts and close to 37 per cent of General Service (Local level) posts in the United Nations Office at Nairobi Administration will be funded from the regular budget. With the implementation of the measures for strengthening of the Office undertaken by the Secretary-General since the biennium 1998-1999, the total regular budget component of resources under section 28G for the biennium 2008-2009 would amount to nearly 63 per cent of the total resources of the Office under the section. As a consequence, the pressure on extrabudgetary resources of UNEP and UN-Habitat to fund their administrative support will be further reduced and the extrabudgetary resources released consequently will be available for the programme

- activities of both programmes, in line with a number of resolutions of the General Assembly and the Governing Councils of UNEP and UN-Habitat.
- In reviewing the extrabudgetary resource allocations of the United Nations Office at Nairobi Administration in the last quarter of 2005, UNEP and UN-Habitat agreed to create additional extrabudgetary posts to improve services in the areas where the volume of work had considerably increased owing to the expansion of UNEP and UN-Habitat programme activities in recent years. A review of the budgets of common services provided to all United Nations agencies in Nairobi, which was conducted in the same time frame, also resulted in the establishment of additional extrabudgetary posts funded through inter-agency cost-sharing arrangements. Since these reviews took place after the submission to the General Assembly of the proposed budget for the biennium 2006-2007, the resulting changes in the extrabudgetary staffing table of the United Nations Office at Nairobi are reflected in the present submission.
- 28G.5 In the course of 2006, UNEP, UN-Habitat and the United Nations Office at Nairobi, with the support of the Department of Management and the Office of Internal Oversight Services, conducted an in-depth review of the governance, operations and organizational structure of the United Nations Office at Nairobi. As a result of this review, decisions were taken with a view to strengthening the executive direction and management of the Office, formalizing the oversight over its services on the part of its main clients — UNEP and UN-Habitat, clarifying accountability and reporting lines, rationalizing performance of its main functions and delivery of services, and better aligning its resources to the needs of the clients. Some of the more significant changes related to the Office include the establishment of an Executive Services Management Board, comprising the Director-General of the Office and the Executive Directors and the Deputy Executive Directors of UNEP and UN-Habitat. Given that the responsibilities of the Director-General of the Office are entrusted to one of the executive heads of Nairobi-based United Nations programmes (currently the Executive Director of UN-Habitat) and recognizing the need to strengthen the day-to-day management of operational services of the Office, the functions of the post of the Director of Administration have been transferred to the Director of Operations, who will assume responsibilities for the day-to-day management of all operational services of the Office, including the Divisions of Administration, Conference Services and Security and Safety Service. The revised structure is reflected in the organigramme for the biennium 2008-2009.
- Since 1998, the Administration of the United Nations Office at Nairobi has been providing dedicated budget and fund management services to UNEP. The related resources in the Budget and Financial Management Service of the Office were funded from extrabudgetary resources of UNEP under an arrangement separate from the tripartite service agreements between UNEP, UN-Habitat and the Office. Following further reviews of the arrangements, UNEP management concluded that, in order to exercise a more effective management of programme activities, there was a need for these programme support functions to be incorporated into the Executive Office of UNEP. As a result, effective 2007, the Fund Management Section and all related extrabudgetary resources, including 28 extrabudgetary posts (1 P-5, 4 P-4, 6 P-3 and 17 Local level posts), have been transferred from the Office to UNEP.
- As a result, the scope of responsibilities of the Budget and Financial Management Service has been reduced, and therefore the responsibilities for the management of the Service have been entrusted to the P-5 level post formerly designated as the Chief of Accounts Section. The post of the former Chief of the Budget and Financial Management Service at the D-1 level has been assigned the functions of the Chief of Division of Administrative Services.
- Although the Office of the Director of Operations and the Office of the Chief of Administration have distinct responsibilities, for the purposes of presentation of the current proposals, they have been reflected under executive direction and management.

- The overall resources required for the biennium 2008-2009 for this section amount to \$23,941,300 before recosting, reflecting an increase of \$4,296,100. The growth is summarized below.
 - (a) The net increase of \$892,500 under executive direction and management relates to an increase of \$897,500 for posts resulting from the proposed staff redeployments and the establishment of two General Service (Local level) posts in the Office of the Director of Operations, which is partially offset by a decrease (\$5,000) under non-post requirements;
 - (b) The net increase of \$3,403,600 under programme of work relates to:
 - (i) A net decrease (\$339,800) under subprogramme 2, Programme planning, budget and accounts, resulting from the proposed staff redeployments in line with the revised structure of the Office, and the establishment of eight General Service (Local level) posts in the Budget and Financial Management Service;
 - (ii) A net increase of \$1,053,700 under subprogramme 3, Human resources management, including an increase of \$1,083,700 for posts resulting from the proposed staff redeployments and the establishment of six General Service (Local level) posts in the Human Resources Management Service, and a decrease (\$30,000) under non-post requirements;
 - (iii) An increase of \$2,689,700 under subprogramme 4, Support services, including an increase of \$2,316,600 for posts resulting from the proposed staff redeployments and the establishment of 20 posts (2 P-3, 1 National Officer and 17 General Service (Local level)) in the Support Services Service and the Information Technology Service, and an increase of \$373,100 under non-post requirements, mainly for the maintenance and cleaning of the Office's premises relating to the expanded office space resulting from the reconfiguration and adaptation of available space.
- It will be recalled that in his note to the General Assembly dated 23 February 2007 (A/61/758), the Secretary-General submitted his comments on the recommendations contained in the report of the Redesign Panel on the United Nations system of administration of justice (A/61/205), and identified the time and resources needed to implement the Panel's recommendations. The note is currently under consideration by the General Assembly at the first part of its resumed sixty-first session. Accordingly, the proposed resource redeployments and growth sought in document A/61/758 have not been incorporated under the present budget section. Decisions by the General Assembly on these resource proposals will be incorporated in the budget appropriation at the time of adoption of the programme budget for the biennium 2008-2009 in December 2007. In addition, the programme narratives affected by such decisions will be adjusted accordingly.
- 28G.11 The regular budget resources under this section are supplemented by extrabudgetary resources derived from reimbursement for services rendered. Those resources for the biennium 2008-2009 amount to \$14,039,900, or 37.0 per cent of the total budget estimates for the biennium.
- Pursuant to General Assembly resolution 58/269, resources totalling approximately \$90,100 (regular budget) and \$3,500 (extrabudgetary) were identified within the available capacity of the Division of Administrative Services for the conduct of monitoring and evaluation, comprising:

 (a) 6.5 work-months at the Professional level and 5 work-months at the General Service (Local level) under the regular budget; and (b) one work-month at the General Service (Local level) to be financed from extrabudgetary funds.
- 28G.13 The estimated percentage distribution of the resources within the United Nations Office at Nairobi is presented in table 28G.1.

Resources in the amount of \$4,308,600 provide for the 29 regular budget posts in the Service. The decrease of \$339,800 reflects the net effect of: (a) the delayed impact of seven new Professional and higher category posts (1 D-1, 3 P-4, 3 P-3) approved in the biennium 2006-2007; (b) the proposed outward redeployment of seven posts (1 D-1 and 1 General Service (Local level) to the Office of the Chief of Administrative Services, 3 P-3 to the Human Resources Management Service, and 1 P-4 and 1 P-3 to the Support Services Service); and (c) a provision for eight General Service (Local level) posts in place of the posts at the same level currently funded on a reimbursable basis from the extrabudgetary resources of UNEP and UN-Habitat, in line with the overall policy of strengthening the regular budget component of the United Nations Office at Nairobi. The proposed redeployment of seven posts from this subprogramme to other subprogrammes reflects the restructuring of the Office, which includes the establishment of an Executive Services Management Board, the transfer of the functions of the Director of

Administration to that of the Director of Operations, who will assume responsibilities for day-to-day management of all operational services of the Office, including the Divisions of Administration, Conference Services, and Security and Safety Service, the transfer and incorporation of the fund management function relating to UNEP to the Executive Office of UNEP, the strengthening of the Human Resources Management Service and the Support Services Service, and realignment of resources in accordance with the needs of clients.

Subprogramme 3 Human resources management

Resource requirements (before recosting): \$4,479,200

28G.24 The Human Resources Management Service is responsible for recruitment, personnel administration, job classification, post management and the provision of in-service training programmes with respect to all categories of staff of UNEP, UN-Habitat and the United Nations Office at Nairobi. Efforts will continue to be made to make human resources management a shared responsibility of programme managers and to strengthen the partnership between individual staff members and supervisors as well as the assistance provided in competency development.

28G.27 The resources of \$4,479,200 provide for the 27 regular budget posts and for non-post requirements for language training as well as administrative and financial training for the staff of the Secretariat units at Gigiri. The net increase of \$1,053,700 includes the increase of \$1,083,700 arising from (a) the delayed impact of a new P-4 post for the Chief of the Medical Service approved in the biennium 2006-2007; (b) the proposed establishment of six new General Service (Local level) posts in place of those currently funded on a reimbursable basis from the extrabudgetary resources of UNEP and UN-Habitat; and (c) the inward redeployment of four posts (3 P-3 from the Financial Resources Management Service and 1 General Service (Local level) from the Support Services Service) and outward redeployment of one P-2 to the Support Services Service, partially offset by

a decrease of \$30,000 under contractual services reflecting the expenditure pattern. The proposed redeployment of posts described above reflects the restructuring of the United Nations Office at Nairobi as summarized in paragraphs 28G.5-28G.7 above.

External factors

- 28G.31 The subprogramme is expected to achieve its objectives and expected accomplishments on the assumption that:
 - (a) The evolution of technology and developments in related industries are in line with and conducive to the information and communications technology strategy, and emerging and leading edge technology as well as technologically skilled people are readily available;
 - (b) The developments in the airline and shipping industries will continue to enable the negotiation of favourable contracts;
 - (c) There are no sudden or unexpected political, economic or technological changes that adversely affect the scope of services;
 - (d) The United Nations entities in Nairobi serviced by the Office extend their full cooperation.

Outputs

- 28G.32 During the biennium 2008-2009, the following outputs will be delivered (regular budget and extrabudgetary):
 - (a) Development and maintenance of the information technology infrastructure, including IMIS and the management of its security; applications support, including the maintenance of existing applications and support in the analysis, design and implementation of new applications; help desk and other user support; operation and maintenance of communications facilities, including telephone, offsite voice and data communications; switchboard, facsimile and telex operations; and mail distribution services;
 - (b) Central support services, including allocation of space and office planning within the Gigiri complex; inventory control; property management; issuance of laissez-passer and other travel documents; travel arrangements for delegations and staff members on official mission and home leave; shipment of official property; bulk consignments for conferences; and removal of household goods and personal effects and the related insurance requirements; procurement of goods and services for the United Nations Office at Nairobi, UNEP and UN-Habitat; and provision of registry, pouch, mail and archival services for the Office, UNEP and UN-Habitat.

28G.33 The resources amounting to \$12,757,300 provide for the 67 regular budget posts, as well as for general temporary assistance and various operating expenses in relation to support and maintenance of the facilities, infrastructure systems, supplies and equipment for support services. The increase in the amount of \$2,316,600 under posts comprises: (a) the delayed impact of the 4 posts (1 P-5 and 3 P-4) approved in 2006-2007, (b) the proposed establishment of 2 new posts (1 P-3 for a Chief of Property Control and Inventory and 1 National Officer for an Electrical Engineer), and the establishment of 18 new posts (1 P-3 and 17 General Service (Local level)) in place of the posts at the same level currently funded on a reimbursable basis from the extrabudgetary resources of UNEP and UN-Habitat, in line with the overall policy of strengthening the regular budget component of the United Nations Office at Nairobi, and (c) the inward redeployment of 2 posts (1 P-4 and 1 P-3) from the Budget and Financial Management Service and the outward redeployment of 1 General Service (Local level) post to the Human Resources Management Service. The net increase of \$373,100 under non-post items, including an increase of \$507,100 under general operating expenses, reflects the pattern of expenditures for maintenance and cleaning of the Office's premises, and the expanded office space resulting from the reconfiguration and adaptation of available space, which is partly offset by an aggregate decrease (\$134,000) under other non-post items, including contractual services, supplies and services and furniture and equipment. The proposed redeployment of posts reflects the restructuring of the Office, as summarized in paragraphs 28G.5-28G.7 above.

Table 28G.13 Summary of follow-up action taken to implement the relevant recommendations of the oversight bodies

Brief description of the recommendation

Action taken to implement the recommendation

Advisory Committee on Administrative and Budgetary Questions (A/60/7 and Corr.1)

The Committee is of the view that the Office of Human Resources Management should play a leading role in resolving the issue of enhancing recruitment of local staff so that employment of National Professional Officers could be expanded and more local staff could fill vacant General Service international posts available at the United Nations Office at Nairobi (para. VIII.70).

In line with this recommendation, the United Nations Office at Nairobi for its part has since recruited three National Officers funded from extrabudgetary resources for some of the common services it provides. One National Officer post to be funded from the regular budget is also proposed for the biennium 2008-2009.

Report of the Board of Auditors

(A/61/5, vol. I, chap. II)

The Board recommends that the Administration deal only with suppliers duly listed in the roster of vendors to protect the interests of the United Nations, and comply with the provisions of the United Nations Procurement Manual in regard to vendor selection (para. 540).

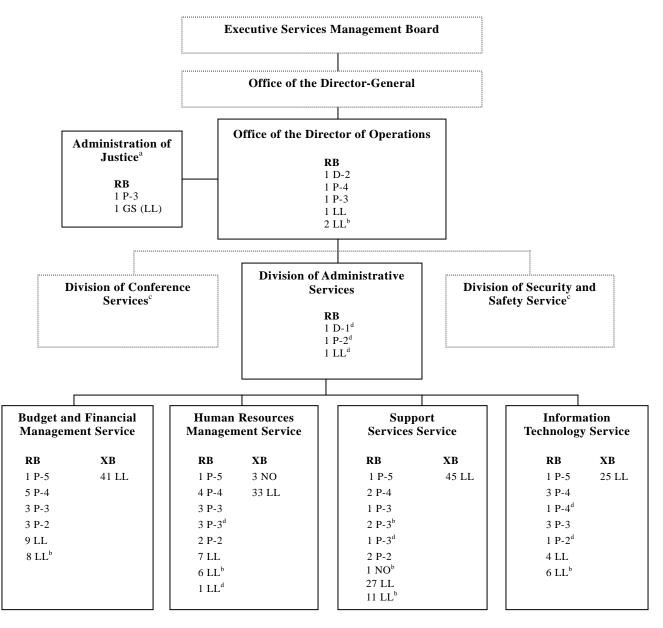

The United Nations Office at Nairobi, through its Procurement Travel and Shipping Section, will ensure that vendors identified through market research or through expression of interest for a specific award are only provisionally registered until formal registration is finalized in accordance with section 7.9.2 of the United Nations Procurement Manual. The provisionally registered vendors must complete the

	registration process within three months from the date of provisional registration, otherwise the said vendors will be deleted from the vendor database.
The Board recommends that the Administration periodically review and update the service level agreements of the United Nations Office at Nairobi (para. 564).	The United Nations Office at Nairobi will ensure that service level agreements are periodically reviewed and updated.
