## Overall orientation

1.1 The overall objectives of the programme are (a) to facilitate, through the provision of technical secretariat support and authoritative advice, the orderly and effective conduct of the deliberations and follow-up actions of the General Assembly, its General and First Committees, its Special Political and Decolonization (Fourth) Committee and various subsidiary organs, and its Second and Third Committees, the Economic and Social Council and most of the Council's subsidiary and ad hoc bodies, and the special United Nations conferences and meetings dealing with disarmament, international security and economic, social and related matters; and to assist in the revitalization efforts of the Assembly and other United Nations bodies; (b) to provide substantive and technical secretariat servicing to the Committee on Conferences; (c) to ensure, through integrated global management, the provision of high-quality conference-servicing support to all intergovernmental and expert bodies meeting at Headquarters and at the United Nations Offices at Geneva, Vienna and Nairobi, and other conferences and meetings held under the auspices of the United Nations, taking into account the principle of equal treatment to be given to all established official languages in each organ of the Organization; (d) to provide protocol, liaison and representational functions for the Secretary-General, host Governments and the Member States; and (e) to ensure uninterrupted delivery of services during the implementation of the capital master plan.

1.2 The basic mandates for the programme are contained in the rules of procedure of the principal organs of the United Nations. Additional mandates are contained in resolutions of the General Assembly and the Economic and Social Council, in particular resolutions on the reform and revitalization of the Assembly and on the pattern of conferences. Overall intergovernmental direction concerning the organization and servicing of meetings is provided by the Assembly on the advice of the Committee on Conferences, in accordance with Assembly resolution 43/222 B, in which the Assembly established the terms of reference of the Committee.

1.3 Responsibility for the implementation of the programme and the achievement of its objectives resides with the Department for General Assembly and Conference Management at Headquarters and the conference-servicing organizational entities at the United Nations Offices at Geneva, Vienna and Nairobi. Guided by Assembly resolutions 57/300 and 62/225 and provisions relating to conference services contained in Assembly resolutions on revitalization of the work of the Assembly and on multilingualism, the strategic framework under the programme seeks to make further progress in integrated global management and to provide high-quality documents in a timely manner in all official languages, as well as high-quality conference services to Member States at all duty stations, and to achieve those aims as efficiently and cost-effectively as possible. During the biennium, the Department will continue to actively provide the intergovernmental and expert bodies it services with technical secretariat, protocol and liaison, and conference-servicing support so as to achieve synergies and full-system benefits across the four conference-servicing duty stations.

1.4 The Department expects to continue to improve its performance by pursuing a proactive documents and meetings management strategy, including coordination of the calendar of conferences, advance capacity planning and re-engineered documentation workflows and processes. By further embedding the integrated

global management approach in its everyday decision-making activities, the Department will increase the standardization of its administrative policies, practices and procedures across all conference-servicing duty stations. In addition, policies and procedures, workload-sharing and staff exchanges will be more closely coordinated among the four conference-servicing duty stations and the regional commissions in order to make more efficient and cost-effective use of the Organization's conference-servicing human and financial resources. This "delivering as one" initiative will be extended to the area of conference servicing through more intensive contacts with the other agencies of the United Nations system.

1.5 Through systematic analysis, the Department will evaluate the risk landscape and implement risk management and mitigation strategies so as to reduce the impact of operational crises through more proactive and effective monitoring. It will also implement lessons learned and best practices arising from the experiences of other United Nations entities and international organizations. Centrally coordinated risk management/assessment and evaluation will facilitate informed managerial decision-making and monitoring. More systematic use of high-quality, reliable and transparent data on conference services derived from the array of indicators contained in the Performance Measurement Matrix, as introduced in the report of the Secretary-General on pattern of conferences (A/62/161), will enhance global operational efficiencies. The integrated conference management system aims to establish an enabling environment for a client-oriented global information and communications technology. This will allow the Department to leverage strategic planning by streamlining forecasting, process efficiency, timeliness and cost efficiency. In order to meet changing needs and expectations, the Department will continue to provide sustained support for training opportunities geared to expanding and upgrading staff members' skills and to further collaborate with international organizations and build outreach to universities in order to institutionalize training programmes and maintain ongoing communication.
