## Sixty-fourth session

Agenda item 132

### Proposed programme budget for the biennium 2010-2011

## Revised estimates: effect of changes in rates of exchange and inflation

### Report of the Secretary-General

#### *Summary*

In accordance with established practice, the proposed programme budget is recosted prior to its adoption by the General Assembly. A preliminary recosting is reflected in the budget proposals of the Secretary-General issued earlier in 2009 as well as the relevant addenda and revised estimates.

The present report provides the latest data on actual inflation experience, the outcome of salary surveys, the movement of post-adjustment indices in 2009 and the effect of the evolution of operational rates of exchange in 2009 on the proposed programme budget for the biennium 2010-2011.

After recosting, the resources under the expenditure sections would amount to \$5,143.5 million and estimates of income would amount to \$563.2 million if the recommendations of the Advisory Committee on Administrative and Budgetary Questions were applied to the proposals of the Secretary-General.

1. In accordance with established practice, the proposed programme budget is normally presented at the same price levels and rates of exchange as the current programme budget. At the same time, the proposed programme budget contains provisions for anticipated increases owing to inflation. These are isolated and are presented separately in the column entitled “recosting” in the budget tables. The programme budget is subsequently recosted three times in the biennial cycle, as follows:

(a) The first such recosting is contained in the present report, which is submitted to the General Assembly for the purpose of updating the resource requirements in the proposed programme budget before an initial appropriation is approved;

(b) The second recosting is reflected in the revised estimates included in the first performance report on the programme budget, submitted by the Secretary-General at the end of the first year of the biennium in connection with approval of a revised appropriation;

(c) The third recosting is included in the second performance report, submitted at the end of the second year of the biennium, in connection with approval of the final appropriation.

2. Within that framework, and as foreseen in the introduction to the budget for the biennium 2010-2011 (A/64/6 (Introduction), para. 13), the budget estimates are recosted to take into account changes in operational rates of exchange, actual inflation experience, the outcome of salary surveys and the movement of post-adjustment indices. Bearing in mind the view of the Advisory Committee on Administrative and Budgetary Questions that the Administration should use such operational rates of exchange in recosting exercises as would allow for the lowest estimates (A/51/7/Add.1-9, document A/51/7/Add.6, para. 5), the present report provides updated information as at December 2009. The recosting in the present report is based on the initial budget proposals of the Secretary-General as well as the relevant addenda and revised estimates,<sup>1</sup> amended in accordance with the recommendations of the Advisory Committee.<sup>2</sup>

3. Those recommendations of the Advisory Committee on Administrative and Budgetary Questions, amounting to additional requirements totalling \$3.6 million for expenditure sections, are provided in the Advisory Committee’s reports on the proposed programme budget for the biennium 2010-2011 (A/64/7 and Add.4, Add.6, Add.8, Add.9 and Add.10).

4. While the General Assembly has yet to take action on the recommendations of the Advisory Committee, the recommendations have been taken into account to the

<sup>1</sup> A/64/6 (Introduction) and Corr.1, (Sect. 1) and Corr.1, (Sects. 2 and 3), (Sect. 4) and Corr.1, (Sect. 5) and Corr.1, (Sect. 6), (Sect. 7) and Corr.1, (Sects. 8-10), (Sect. 11) and Corr.1, (Sect. 12), (Sect. 13) and Add.1, (Sects. 14-16), (Sect. 17) and Corr.1, (Sects. 18-21), (Sect. 22) and Corr.1, (Sects. 23-26), (Sect. 27) and Corr.1, (Sect. 28), (Sects. 28A-28C), (Sect. 28D) and Add.1, (Sects. 28E and F), (Sect. 28G) and Corr.1, (Sect. 29) and Corr.1, (Sects. 30-32), (Sect. 33) and Add.1, (Sect. 34) and Add.1, (Sects. 35-36) and (Income sects. 1-3); A/64/366, A/64/380, A/64/472, A/64/477, A/64/532, A/C.5/64/2, A/C.5/64/11, A/C.5/64/12 and A/C.5/64/13.

<sup>2</sup> A/64/7 and Add.4, Add.6, Add.8, Add.9 and Add.10. The reports of the Advisory Committee on the Secretary-General’s proposals contained in A/64/6 (Section 34, Add.1, A/64/532, A/C.5/64/11, A/C.5/64/12 and A/C.5/64/13 are pending.

extent that they can be specifically costed. This allows Member States to have a more comprehensive picture of the overall level of estimates when determining the appropriation for the biennium 2010-2011. Nevertheless, the inclusion of the effect of applying the recommendations of the Advisory Committee is provided without prejudice to decisions yet to be made on those recommendations.

5. Table 1 provides a summary of the results of the recosting based on parameters described below.

Table 1  
**Summary of recosting of the proposed programme budget for the biennium 2010-2011 (expenditure sections)**

(Thousands of United States dollars)

<i>Proposed programme budget</i>	<i>Adjustments recommended by the Advisory Committee<sup>b</sup></i>	<i>Proposed programme budget plus the Advisory Committee adjustments</i>	<i>Recosting</i>		<i>Total</i>	<i>Estimated appropriation</i>
			<i>Exchange rate</i>	<i>Inflation</i>		
<i>(1)</i>	<i>(2)</i>	<i>(3)=(1+2)</i>	<i>(4)</i>	<i>(5)</i>	<i>(6)=(4+5)</i>	<i>(7)=(3+6)</i>
5 203 532.0	3 627.6	5 207 159.6	47 214.2	(110 917.0)	(63 702.8)	5 143 456.8

<sup>a</sup> See note 1 above.

<sup>b</sup> See note 2 and para. 4 above.

6. The proposed revised recosting factors to be applied for this first recosting in the biennial cycle, compared with the assumptions applied in the preliminary recosting included in the proposed programme budget for the biennium 2010-2011, are set out in the following schedules:

Schedule 1. Rates of exchange relative to the United States dollar and annual rates of inflation by duty station

Schedule 2. Post-adjustment multipliers by duty station

Schedule 3. Annual cost-of-living adjustments by duty station (General Service)

Schedule 4. Effects of recosting by budget section and main determining factor.

7. As a result of the application of the revised parameters, requirements for the biennium 2010-2011 reflect a net overall decrease of \$63.7 million, comprising an increase of \$47.2 million for exchange rate fluctuations and a decrease of \$110.9 million for inflation.

8. The estimated additional requirement of \$47.2 million in respect of exchange rate fluctuations reflects the significant weakening of the United States dollar against a number of currencies. In the present recosting, the average actual rates of exchange from January to December 2009 have been used as the basis for recosting for all duty stations, with the exception of Addis Ababa and Port of Spain, for which using the latest United Nations operational rates of exchange (those in effect as at December 2009) yields the lowest estimates. The net increased requirements of \$47.2 million relate to exchange rate fluctuations in respect of the Swiss franc (\$46.8 million), the euro (\$15.3 million), the Chilean pesos (\$13.8 million), the Kenyan shilling (\$4.2 million), the Thai baht (\$1.6 million) and other currencies

(\$0.7 million), partially offset by decreased requirements in respect of the Ethiopian birr (\$32.0 million), the shekel (\$2.8 million) and other currencies (\$0.4 million).

9. With respect to inflation, consideration is given, as necessary, to a series of factors, including analysis of the movement of the consumer price index at the different duty stations for goods and services and probable increases in the salaries of General Service staff as a result of the movement of consumer price indices and the outcome of comprehensive salary surveys. In the case of the salaries of Professional staff, while base salaries are not affected by exchange rates, as they are denominated in United States dollars, the post-adjustment component moves in response to changes in both cost of living and exchange rates. With regard to Professional staff costs, necessary adjustments are triggered by movements in post-adjustment multipliers approved by the International Civil Service Commission. As for General Service salary and non-post requirements, changes are attributable to cost-of-living adjustments and movements in rates of inflation, respectively, relative to those originally estimated. It should be noted in this regard that realized levels of inflation in 2009 directly affect price and salary levels for the forthcoming biennium, so lower-than-anticipated 2009 increases reflect decreased requirements for the biennium 2010-2011. Accordingly, the changes resulting from inflation comprise three elements, namely, post-adjustment movements for Professional staff, salary adjustments for General Service staff and adjustments to non-post estimates.

10. The estimated decrease in requirements of \$110.9 million due to inflation reflect lower requirements in respect of Professional salaries (\$19.1 million), General Service salaries (\$30.9 million), staff assessment (\$12.3 million) and non-post objects of expenditure (\$48.6 million). Reduced requirements for non-post objects due to inflation are largely the result of a number of adjustments in rates, including downward revisions for New York (\$24.9 million), Geneva (\$9.3 million), Addis Ababa (\$4.8 million), Vienna (\$3.3 million), Bangkok (\$2.0 million), Santiago (\$2.0 million), security field offices (\$2.2 million), Beirut (\$2.3 million) and other duty stations (\$1.4 million), partially offset by upward adjustments for Nairobi (\$3.0 million) and other duty stations (\$0.7 million).

11. Schedule 4 contains a detailed listing, by budget section and main determining factor, of the revised estimates for the biennium 2010-2011 resulting from the recosting of the resource requirements of the expenditure sections in the proposed programme budget, including the adjustments related to the recommendations of the Advisory Committee, using the parameters contained in the present report.

12. The foregoing budget parameters are also proposed to be applied to the income sections. The revised estimates for the income sections are summarized in table 2.

Table 2  
**Revised estimates for income sections 1 to 3 of the proposed programme budget for the biennium 2010-2011**

(Thousands of United States dollars)

<i>Income section</i>	<i>Proposed programme budget (1)</i>	<i>Adjustments recommended by the Advisory Committee<sup>a</sup> (2)</i>	<i>Proposed programme budget plus the Advisory Committee adjustments (3)=(1+2)</i>	<i>Increase/ (decrease)</i>	<i>Revised estimates</i>
