## Overview

- 25.1 The United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) was established as a separate entity within the United Nations system and as a subsidiary organ of the General Assembly by resolution 302 (IV), from which UNRWA derives its mandate to provide continued assistance to the Palestine refugees. Since starting operations in 1950, UNRWA has adapted and enhanced its programmes to meet the increasingly complex needs of refugees and to provide them with a measure of stability amid chronic conflict in the region, within available resources. It stands ready to continue to do so during the biennium 2010-2011 in accordance with the triennial mandate it receives from the Assembly.
- 25.2 UNRWA reports directly to the General Assembly. Overall review of UNRWA programmes and activities is undertaken by the 23-member Advisory Commission, which includes representatives of the Agency's major donors and host Governments. In its resolution 3331 B (XXIX), the Assembly decided that, with effect from 1 January 1975, the expenses relating to the emoluments of international staff in the service of UNRWA, which would otherwise have been charged to voluntary contributions, should be financed by the regular budget of the United Nations for the duration of the Agency's mandate.
- 25.3 The strategic objectives of UNRWA for the biennium 2010-2011 are to promote the best possible levels of human development of the refugees consistent with internationally agreed goals and the standards in the region where they reside.
- 25.4 UNRWA aims to achieve its objectives by maintaining and improving the provision of education and health services, relief and social support and microfinance loans to registered Palestine refugees in Jordan, Lebanon, the Syrian Arab Republic, the West Bank and the Gaza Strip, a population that is projected to reach 4.8 million by 2010.

- 25.5 Since 2000, the Agency has provided emergency assistance to refugees in acute distress within its areas of operations as a result of conflicts, including military operations, humanitarian access restrictions and prolonged economic hardship in the occupied Palestinian territory and Lebanon. This emergency assistance programme reaches more than 1.4 million refugees annually. UNRWA will continue to provide such services as necessary, as well as, on an exceptional basis, as mandated in General Assembly resolution 2252 (ES-V), services to non-refugees in serious need of immediate assistance.
- 25.6 During the biennium 2010-2011, UNRWA seeks to make further progress in strengthening its management and service delivery through its organizational development programme, through which the Agency is enhancing its capacity to plan, implement and evaluate its services to the refugees, expand outreach to non-traditional donors and further enhance accountability to its stakeholders. UNRWA will also continue its efforts to mainstream gender and meet the needs of refugee children and those with disabilities, and to develop further the Agency's protection, programming, operation and advocacy responses, thereby bringing UNRWA closer to fulfilling its obligations vis-à-vis the directives of the General Assembly and the Secretary-General, international human rights law, the Beijing Platform for Action, the Convention on the Rights of the Child and the Convention on the Rights of Persons with Disabilities.
- 25.7 The Agency, which is almost entirely dependent on voluntary funding to implement its programmes, has contended not only with chronic funding shortfalls but also with more sudden, politically induced funding uncertainties. It will continue to seek the additional resources it needs to improve the quality of services it provides to the refugees, while maintaining cost-conscious management and the operational flexibility required to respond to unforeseen disruptions to lives and livelihoods in Palestine refugee communities.
- 25.8 The overall regular budget resources for the biennium 2010-2011 under this section amount to \$46,849,900 before recosting, which reflects a net increase of \$1,779,800 (or 3.9 per cent at 2008-2009 rates). The resource growth shown in table 25.3 is due to the delayed impact of six new international posts (1 D-2, 1 P-5, 3 P-4, 1 P-3) approved by the General Assembly for the biennium 2008-2009 (\$1,163,000) and three new P-4 posts proposed for the biennium 2010-2011 (\$616,800) (see table 25.4).
- 25.9 During the biennium 2010-2011, the Agency projects that approximately \$2.0 billion of extrabudgetary resources will be required, in large part as a result of its strategic plan, which will enable it to provide assistance to Palestine refugees, and the evolving operational environment in the occupied Palestinian territory.
- 25.10 The regular budget share of the total UNRWA biennial budget amounts to approximately 2.2 per cent.
- 25.11 Pursuant to General Assembly resolution 58/269, resources identified for the conduct of monitoring and evaluation activities would amount to \$1,873,900, \$288,100 of which will be funded from the regular budget and \$1,585,800 from extrabudgetary resources. The staff time devoted to self-assessment and self-evaluation is estimated at 230 work-months.

- (c) A worsening economic situation and increased unemployment leading to increased dropout and failure rates;
- (d) Funding constraints resulting in difficulty in responding to unplanned curricular changes introduced by host authorities and restricted ability to improve the learning environment (e.g. double-shifting in schools, school maintenance, furniture and equipment).

### Outputs

25.14 During the biennium 2010-2011, the following outputs will be delivered:

<sup>a</sup> International posts; does not include local area posts, estimated at 28,000.

- 25.21 The amount of \$46,834,700, reflecting an increase of \$1,779,800, provides for 122 regular budget posts, including 111 Professional and above and 11 General Service posts. The increase of \$1,779,800 is due to the delayed impact of six new posts (1 D-2, 1 P-5, 3 P-4 and 1 P-3) approved by the General Assembly for the biennium 2008-2009 (\$1,163,000) and additional requirements for the proposed three new P-4 posts, including the post of a Special Assistant to the Commissioner-General and two posts of Field Programme Support Officers for the biennium 2010-2011 (\$616,800). The amount of \$15,200 for non-post requirements provides for general temporary assistance and resources for centrally provided data-processing infrastructure services and support costs.
- 25.22 It is projected that extrabudgetary resources would amount to \$2,056,427,600 in the biennium 2010-2011, representing a growth of \$186,948,000 in comparison with \$1,869,479,600 in the biennium 2008-2009.

<b>United Nations Board of Auditors</b> (A/63/5/Add.3, chap. II)	
The Board recommended that UNRWA, in coordination with the United Nations, ensure that its liabilities in respect of after-service health insurance are determined and accurately recorded (para. 46).	After-service health insurance liability for those UNRWA staff who are on posts funded from the United Nations regular budget is assumed by the United Nations.

The Board recommended that UNRWA formalize gender distribution milestones and monitor all new appointments against such milestones (para. 98).

In April 2008, UNRWA adopted the comprehensive gender mainstreaming strategy for 2008-2009. Data on the gender composition of all posts was distributed in September 2008, and managers were asked to continue to monitor new appointments in accordance with the gender mainstreaming strategy.

The Board recommended that UNRWA include in its human resources plan a strategy to manage the timely filling of long-vacant posts (para. 101).

Human resources strategy revolves around the implementation of target timelines and the assessment of individual vacancy particulars, as required, to determine the best method for filling the post in a timely way, in line with recruitment best practice. An 80-day time limit is set for filling international posts.

The Board recommended that UNRWA adopt a policy covering the management of all projects, including by setting out the responsibilities of all role players, as well as the competencies and training required (para. 158). The Board recommended establishing a system to record and apply lessons learned in project implementation (para. 162). The Board recommended updating the project procedures manual, with input from the field offices, and benchmarking it against best practice and international standards (para. 165).

Section B.15 of the report of the Board of Auditors relates to programme and project management and includes four recommendations that relate specifically to the management of “projects”. The agency’s comments in relation to the recommendations have mostly been reflected in the relevant paragraphs of the report of the Board of Auditors. UNRWA acknowledges certain shortcomings in “project” management and is addressing them as part of its organizational development plan. It is doing so as part of its programme cycle management reform efforts, which are well under way.

**United Nations Board of Auditors**  
(A/61/5/Add.3, chap. II)

The Board recommended that UNRWA establish policies and procedures on results-based management to provide for strategic planning, setting of targets, monitoring of processes, promoting effective management decisions and reporting on performance (para. 84).

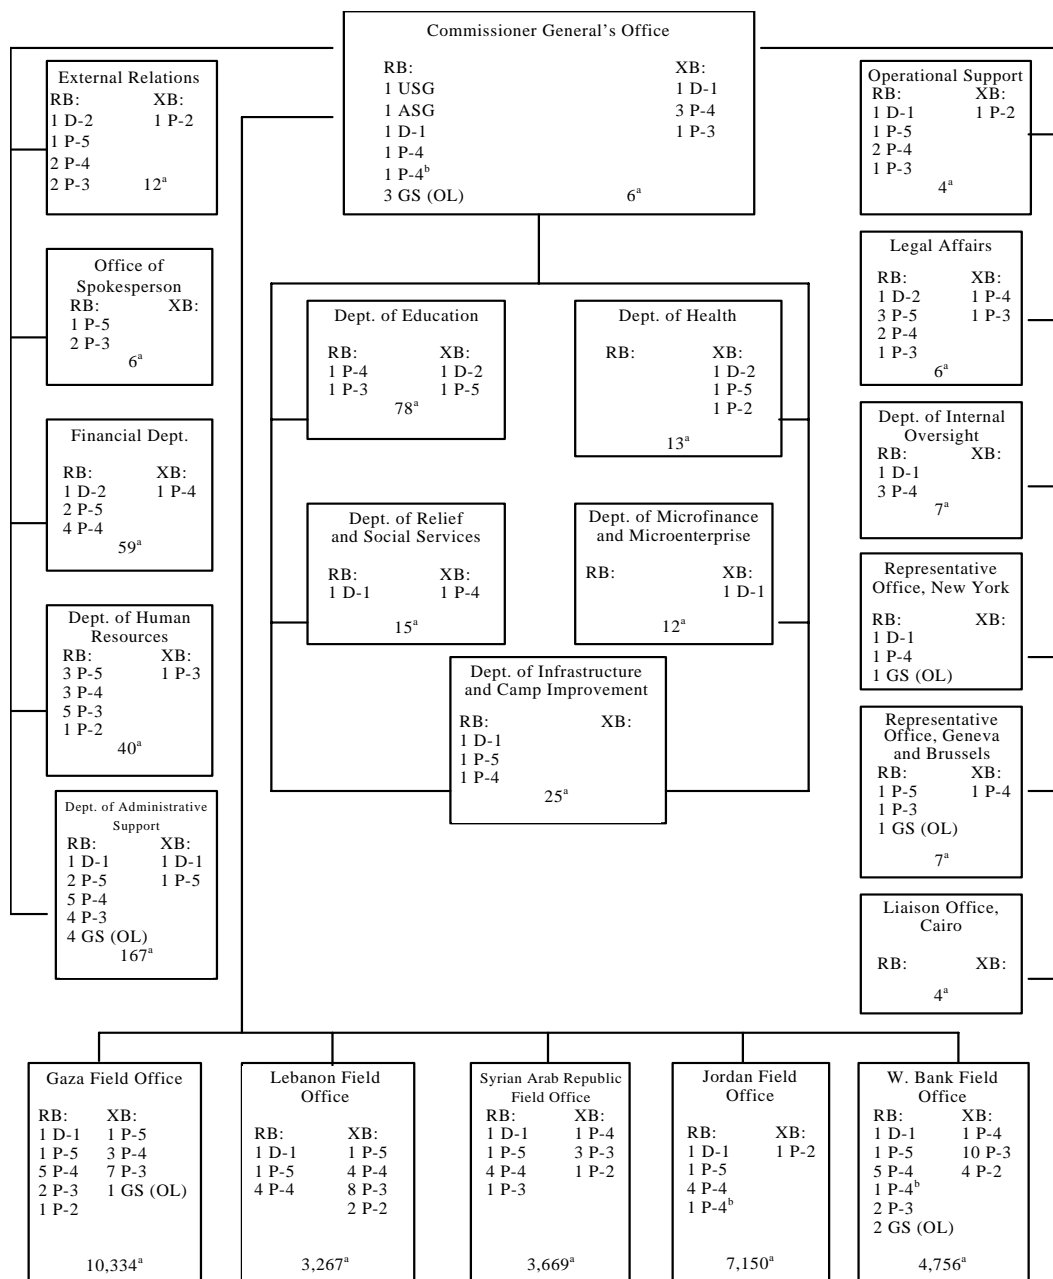

The budget division of UNRWA’s Department of Finance will again provide guidance on results-based budgeting for purposes of the preparation of the 2008-2009 biennium budget. UNRWA agrees that, on the broader topic of results-based management, policies and procedures should be established in order to enhance strategic planning, setting of targets, monitoring of processes, promoting effective management decisions and reporting on performance. The Office of the Director of Operational Support will take the lead in the preparation of these policies and procedures, with the active participation of the budget division of the Department of Finance.
