- 27.1 In its mission to help fulfil the substantive purposes of the United Nations by strategically communicating the activities and concerns of the Organization to achieve the greatest public impact, the Department of Public Information coordinates its communications campaigns on key priority areas and maintains a balance between new and traditional means of communications. It also makes every effort to widen the pool of its communications partners and to strengthen its outreach to the public in both developed and developing countries through the network of United Nations information centres. The mandate of the Department is contained in General Assembly resolution 13 (I). The Department's work is guided by the priorities laid down by the Assembly and its subsidiary body, the Committee on Information, through resolutions on questions relating to information, the most recent of which are General Assembly resolutions 63/100 A and B.
- 27.2 The Department seeks to promote global awareness and enhanced understanding of the work and issues of the United Nations by providing timely, accurate, impartial, comprehensive and coherent information. To this end, using the Millennium Declaration as its guide, the Department will focus on themes in support of the three pillars of the Organization: development, peace and security, and human rights, including priority themes such as peacekeeping, climate change, and food security. The Department will continue to provide support for the dissemination of information pertaining to United Nations initiatives, including dialogue among civilizations and the culture of peace. Within these themes and initiatives, the Department will seek to underscore the Secretary-General's emphasis on delivering results, accountability and addressing global challenges for the common good. In addition, the Department identifies Africa as a regional focus and youth as a strategic audience for its communications work.

- 27.3 The Department works closely with substantive offices of the United Nations system to deliver effective and targeted information programmes on the identified key areas, including for global conferences and observances. It aims to reach and engage audiences worldwide, including Governments, the media, non-governmental organizations, educational institutions, business and professional organizations and other members of civil society to encourage support for the Organization and its objectives.
- 27.4 To accomplish its mission, the Department takes the following core approaches: strategic working relationships with the substantive departments and offices of the Secretariat and the organizations and bodies of the United Nations system; enhanced use of the latest information and communications technologies, in both traditional and electronic media, to deliver information directly and instantaneously worldwide; the building of expanded grass-roots support through partnerships with civil society organizations; and the parity of official United Nations languages in the preparation of news and communications products.
- 27.5 The issue of publications as part of the programme of work has been reviewed in the context of each subprogramme. It is anticipated that recurrent and non-recurrent publications will be issued as summarized in table 27.3 and as described in the output information for each subprogramme.

- 27.6 For the purpose of presenting the proposed programme budget for the Department of Public Information, the organizational units have been broadly grouped under the three subprogrammes, as indicated in table 27.4.

Table 27.4 Organizational units responsible for carrying out the programme of work

<i>Subprogramme</i>	<i>Responsible entity</i>
1. Strategic communication services	Strategic Communications Division, including information activities on the questions of Palestine, Rwanda and the United Nations outreach programme, and the United Nations information centres, services and information components of United Nations offices
2. News services	Office of the Spokesperson for the Secretary-General and News and Media Division
3. Outreach and knowledge-sharing services	Outreach Division, which includes the Civil Society Service, the Dag Hammarskjöld Library and Knowledge-Sharing Centre, other United Nations libraries, as applicable, the Sales and Marketing Section and the secretariat of the Publications Board

- 27.7 The overall resources required for the biennium 2010-2011 amount to \$187,316,400 before recosting, reflecting a net decrease of \$2,058,200 (1.1 per cent) compared with the revised appropriation for the biennium 2008-2009.
- 27.8 The net decrease shown in table 27.6 below is summarized as follows:
- (a) The net decrease of \$41,800 under executive direction and management relates broadly to reduced requirements in other staff costs, hospitality, and furniture and equipment;
 - (b) The net decrease of \$1,699,300 under programme of work represents:
 - (i) A net decrease of \$542,300 under subprogramme 1, comprising a decrease of \$1,403,000 for posts due to the proposed abolition of 12 posts (1 P-5, 1 P-3, 1 General Service (Other level), and 9 Local level); the outward redeployment of one P-5 post to subprogramme 3, the Outreach Division, and the inward redeployment of one P-3 from subprogramme 3. The decrease under posts is partially offset by an increase of \$860,700 for non-post resources primarily under general operating expenses;
 - (ii) A net decrease of \$975,900 under subprogramme 2, driven by reductions under non-post costs (\$1,061,900), particularly under contractual services, supplies and materials, and furniture and equipment, partially offset by an increase in post costs (\$86,000), which primarily reflects the inward redeployment of one P-2 post from subprogramme 3 and the outward redeployment of one General Service (Other level) post to subprogramme 3;
 - (iii) A net decrease of \$596,900 under subprogramme 3, owing to a net decrease under post costs of \$565,900 resulting from the proposed abolition of four General Service (Other level) posts, the outward redeployments of one P-3 post to subprogramme 1 and one P-2 post to subprogramme 2; and the inward redeployment of one General Service (Other level) post from subprogramme 2, and reduced requirements of \$31,000 under non-post resources;
 - (iv) An increase of \$415,800 under special conferences in support of the Twelfth United Nations Congress on Crime Prevention and Criminal Justice and the Fourth United Nations Conference on the Least Developed Countries;
 - (c) The net decrease of \$317,100 under programme support reflects reduced requirements for non-post resources under contractual services and general operating expenses.
- 27.9 During the biennium 2010-2011, projected extrabudgetary resources amounting to \$6,313,000, representing 3 per cent of overall resource requirements, will complement resources from the regular budget to finance various activities, such as technical advisory services, training, workshops, seminars and field projects. The projected level represents a decrease of approximately \$1,113,200 over the biennium 2008-2009, arising from reduced requirements anticipated under the Trust Fund for Jointly Financed Information Projects, the Trust Fund for Economic and Social Information, and the United Nations International Partnership Trust Fund projects as the majority of projects under the trust funds will be completed in the 2008-2009 biennium.
- 27.10 Pursuant to General Assembly resolution 58/269, resources identified for the conduct of monitoring and evaluation total \$3,413,000, of which \$3,332,200 relate to the regular budget and \$80,800 relate to extrabudgetary resources. Under the regular budget, \$3,231,700 is equivalent to 344 work-months of staff, comprising 225 work-months at the Professional level and 119 work-months at the General Service level; \$58,500 for consultants; and \$42,000 for other costs. The entire amount of \$80,800 under extrabudgetary resources is related to six work-months of staff.
- 27.11 The estimated percentage distribution of the resources of the programme in the biennium 2008-2009 is as shown in table 27.5.

- 27.23 The amount of \$15,209,500 representing a net increase of \$10,800, provides for 30 posts in the Professional category and 24 posts in the General Service (Other level) category (\$13,602,800) and related non-post resources (\$1,606,700). The increase of \$140,500 in post resources represents: (a) the continuation of 29 posts in the Professional category and 24 General Service (Other level) posts; (b) the inward redeployment of one P-3 post of Information Officer from subprogramme 3 to the Communications Campaigns Service to facilitate the development and delivery of communications campaigns on key priority issues through the enhanced use of new media platforms, development of website and web content and integration of new media tools into online communications and public outreach; and (c) the proposed abolition of one General Service (Other level) post from the Information Centres Services as a result of the redistribution of functions among the approved level of resources. The increase is partially offset by reduced requirements of \$129,700 under non-post resources owing mainly to reduced requirements under other staff costs and travel of representatives and staff.

- 27.24 The components comprising the Strategic Communications Division include Strategic Communications (1 D-2, 1 D-1, 3 P-5, 5 P-4, 6 P-3, 4 P-2 and 11 General Service (Other level) posts) and the Information Centres Service (1 D-1, 2 P-5, 3 P-4, 2 P-3, 2 P-2 and 13 General Service (Other level) posts).
- 27.25 The subprogramme is supported by projected extrabudgetary resources amounting to \$1,464,100, including three posts in the Professional category and one General Service (Other level) post that will be utilized to support public information activities in peacekeeping missions. The volume of resources in comparison to the biennium 2008-2009 remains largely unchanged except for the decrease anticipated under the Trust Funds for the United Nations International Partnership and Jointly Financed Information Projects resulting from the completion of projects in the biennium 2008-2009.

- 27.26 The amount of \$632,600, reflecting a net reduction of \$33,700, provides for (a) the travel of journalists to attend the annual training programme for Palestinian media practitioners, including news missions in the Middle East; (b) travel for participants to the annual International Media Seminar on Peace in the Middle East; (c) travel of staff to support the international seminars on peace in the Middle East, and (d) contractual services for external printing and translation services; general operating expenses relating to conference facilities; and stationery and office supplies. The net decrease of \$33,700 takes into account expenditure patterns and relates broadly to decreased requirements under other staff costs relating to the reduced input required for the production of the booklet *The Question of Palestine and the United Nations*, which was updated in the biennium 2008-2009, contractual services due to reduced requirements for external translation services and general operating expenses.
- 27.27 Subprogramme 1, Strategic communications services, also includes public information services and activities implemented by the United Nations Information Service at Geneva, the United Nations Information Service at Vienna, the United Nations information centres and the information components in United Nations field offices. Those services and centres work through intermediaries, such as the media and local partners, to adapt global communications strategies for regional, national and local audiences. The distribution of resources among those organizational units is shown in tables 27.15 to 27.18.

- 27.29 The requirements of \$2,723,000, reflecting a net reduction of \$20,200, will provide for the continuation of five posts in the Professional category, and five General Service posts totalling \$2,413,400, and related non-post resources of \$309,600 to provide press coverage and public relations services with outreach to not only the media but also civil society in Austria, Hungary, Slovakia and Slovenia. The service also coordinates public information actions with United Nations organs, specialized agencies and other entities based in Vienna to ensure a unified message. The net decrease of \$20,200 under non-post resources relates broadly to reduced requirements under contractual services for external translation, and other operating requirements.

- 27.30 The amount of \$2,681,700, reflecting a net reduction of \$361,600, provides for four posts in the Professional category and seven posts at the local level (\$1,986,500) and related non-post resources (\$695,200) in eight field offices in Armenia, Azerbaijan, Belarus, Eritrea, Georgia, Kazakhstan, Ukraine and Uzbekistan to serve as representatives of the Department of Public Information in carrying out information activities. The decrease of \$361,600 in post resources represents the outward redeployment of one P-5 post (Department of Public Information Representative) to subprogramme 3 under the Outreach Division to head the Education Outreach Cluster. Over the past several years, the National Public Information Officer has been responsible for public information activities under the supervision of the United Nations Resident Coordinator. Under the existing arrangement, the Office has managed to deliver the programme of work successfully, and as a result, the P-5 post is proposed for redeployment to cover the Department's needs in other areas. The resources requested under non-post requirements provide for, inter alia, other staff costs, travel of staff, contractual services, and other operating requirements.

- 27.31 The amount of \$41,228,400 representing a net reduction of \$165,300, would provide for 37 posts in the Professional category, and 207 Local level and National Officer posts (\$31,638,300) and related non-post resources (\$9,590,100). The decrease of \$1,181,900 in post resources represents the proposed abolition of 11 posts (1 P-5, 1 P-3, and 9 Local level) located within the network of the United Nations information centres. The proposed abolition of posts is based on a review of the Department's information centre needs and its ability to redistribute functions within existing capacity, taking into account retirement and vacancy trends. The increase of \$1,016,600 under non-post requirements is largely attributable to the increase in the rental and maintenance of 53 United Nations information centres premises largely due to (a) increased costs for common

services in locations where they are co-located with other United Nations entities under the “UN House concept”; (b) maintenance of premises in locations where the Office is not co-located with other United Nations entities in accordance with minimum operational security standards; and (c) general maintenance of premises including painting and minor repairs as a result of deteriorating conditions.

- 27.32 The subprogramme is supported by projected extrabudgetary resources amounting to \$2,030,900 that will be utilized in support of public information activities in the information centres. The volume of resources in comparison to the biennium 2008-2009 remains largely unchanged except for the increase anticipated under the Trust Funds for expanding public information activities in Japan and for government contributions to United Nations information centres.

general temporary assistance required to provide press coverage, accreditation, documents distribution during regular and special sessions of the General Assembly and Security Council meetings; and (e) general operating expenses relating to the repair and maintenance of inter alia, video, radio, audio-visual equipment and systems.

- 27.40 The projected decrease in extrabudgetary resources relates to reduced requirements under the Trust Fund for Jointly Financed Information Projects owing to the completion of projects in the 2008-2009 biennium.

- 27.44 The amount of \$39,307,800, reflecting a net reduction of \$596,900, provides for combined activities associated with the continuation of subprogramme 3, Outreach and knowledge-sharing services, which includes library services and outreach services including, inter alia, the Holocaust remembrance. The requirements provide for 73 posts in the Professional category and 84 posts in the General Service category totalling \$35,015,600, and related non-post resources amounting to \$4,292,200.
- 27.45 The net reduction of \$565,900 under post resources is attributable mainly to (a) abolition of four General Service (Other level) posts resulting from the modernization of processes in the Dag Hammarskjöld Library; (b) the outward redeployment of one P-3 Information Officer to subprogramme 1 to strengthen the communications and campaigns service as reflected in paragraph 27.23 of the present report; (c) the inward redeployment of one P-5 post from subprogramme 1, to head the Education Outreach Cluster within the Outreach Division in support of the high priority given to education outreach; and (d) the inward redeployment of one General Service (Other level) post from subprogramme 2, to strengthen the UN Year Book Publications and Editorial Cluster.
- 27.46 The net reduction of \$31,000 under non-post requirements broadly reflects reduced requirements under (a) other staff costs related to reduced requirements for general temporary assistance; (b) travel of representatives in line with expenditure trends; and (c) supplies and materials; partially offset by increased requirements under (d) contractual services resulting from increased costs for common support data processing services provided by the Office of Information and Communications Technology; (e) general operating expenses relating to external printing costs associated with, inter alia, the binding and preservation of United Nations documents in the archival collection, printing of the United Nations Yearbook; and (f) furniture and equipment relating to the rental of furniture and equipment for conferences and exhibitions.
- 27.47 Projected extrabudgetary resources totalling \$2,818,000, inclusive of one Professional post and nine General Service posts, will be utilized in support of the *United Nations Development Business* publication. The decrease in volume of resources in comparison to the 2008-2009 biennium is anticipated under the Trust Funds for economic and social information, and education and communication due to the completion of projects.

The estimated resource requirements will provide for promotional public information activities before and after the special conferences in 2010-2011, including personal service contracts for media liaison, contractual services for the preparation, printing, and translation of promotional material (press kits, posters, brochures, etc.), travel of staff to meetings and conferences, data processing services and rental of conference service equipment.

C. Programme support

- 27.49 The Executive Office provides the administrative, managerial and programme support necessary for the implementation of the mandated activities of the Department of Public Information. It assists the Under-Secretary-General in the preparation of the biennial programme plan and priorities, the preparation, administration and monitoring of the programme budget and the management of trust funds and other extrabudgetary resources, provides relevant support services for the efficient utilization of human resources and plans and controls and coordinates requirements related to general office administration. It also handles the Department's information technology needs, including the maintenance and upgrading of computer equipment and user applications.

Non-post	3 809.9	3 492.8	—	—
Total	8 576.1	8 259.0	23	23

- 27.50 The amount of \$8,259,000, representing a net decrease of \$317,100, will provide for the continuation of 7 posts in the Professional category and 16 posts in the General Service category (\$4,766,200), and related non-post requirements (\$3,492,800). The net decrease of \$317,100 under non-post resources is largely attributable to reduced requirements for centrally provided data-processing infrastructure services and support costs provided by the Office of Communication and Information Technology, following a review of the Department's requirements, and adjustments being made to the level of service agreements to be used, and rationalizing the number of temporary accounts serviced.
