

**General Assembly**

Distr.: General  
30 April 2015

Original: English

**Sixty-ninth session**

Agenda item 162

**Financing of the United Nations Mission in South Sudan****Budget performance of the United Nations Mission in South Sudan for the period from 1 July 2013 to 30 June 2014 and proposed budget for the United Nations Mission in South Sudan for the period from 1 July 2015 to 30 June 2016****Report of the Advisory Committee on Administrative and Budgetary Questions**

Appropriation for 2013/14	\$924,426,000
Expenditure for 2013/14	\$919,154,500
Unencumbered balance for 2013/14	\$5,271,500
Appropriation for 2014/15	\$1,097,315,100
Projected expenditure for 2014/15 <sup>a</sup>	\$1,097,085,300
Estimated unencumbered balance for 2014/15 <sup>a</sup>	\$229,800
Proposal submitted by the Secretary-General for 2015/16	\$1,109,770,800
Recommendation of the Advisory Committee for 2015/16	\$1,095,219,100

<sup>a</sup> Estimates as at 28 February 2015.

## **I. Introduction**

1. **The recommendations of the Advisory Committee on Administrative and Budgetary Questions contained in paragraphs 25, 30, 35, 38, 42, 48, 50 and 51 below would entail a reduction of \$14,551,700 to the proposed budget of the United Nations Mission in South Sudan (UNMISS) for the period from 1 July 2015 to 30 June 2016. The Committee has made recommendations and observations on specific issues, where appropriate, in the paragraphs below.**

2. During its consideration of the financing of UNMISS, the Advisory Committee met with representatives of the Secretary-General, who provided additional information and clarification, concluding with written responses received on 28 April 2015. The documents reviewed and those used for background by the Committee are listed at the end of the present report. The Advisory Committee's detailed comments and recommendations on the findings of the Board of Auditors on United Nations peacekeeping operations for the period from 1 July 2013 to 30 June 2014 and on cross-cutting issues related to peacekeeping operations can be found in its related reports (A/69/838 and A/69/839, respectively).

## **II. Budget performance report for the period from 1 July 2013 to 30 June 2014**

3. By its resolution 67/280, the General Assembly appropriated an amount of \$924,426,000 gross (\$904,617,900 net) for the maintenance of the Mission for the period from 1 July 2013 to 30 June 2014. Expenditures for the period totalled \$919,154,500 gross (\$899,705,600 net). The resulting unencumbered balance of \$5,271,500, in gross terms, represents 0.6 per cent of the appropriation.

4. An analysis of variances is provided in section IV of the performance report for the period from 1 July 2013 to 30 June 2014 (A/69/677). Reduced requirements were attributable mainly to:

(a) Air transportation (\$16,145,900 or 10.4 per cent), owing mainly to lower requirements for the rental and operations of fixed-wing aircraft and helicopters and fuel, due to the reduction in flights as a result of the security crisis and the closure of county support bases and company operating bases;

(b) Ground transportation (\$11,763,200 or 32.8 per cent), due mainly to lower utilization of and requirements for fuel; non-payment for vehicles which were not delivered in 2013/14; and non-acquisition of vehicle workshop equipment (see A/69/677, paras. 70-71).

5. The reduced requirements were partly offset by increased requirements attributable primarily to:

(a) Military contingents (\$19,641,800 or 9.0 per cent), owing mainly to the additional military contingent personnel pursuant to Security Council resolution 2132 (2013);

(b) United Nations police (\$8,335,300 or 26.5 per cent), owing mainly to the higher-than-budgeted number of United Nations police who were eligible for the full first 30 days of mission subsistence allowance, and higher requirements in rotation travel (see A/69/677, paras. 59-60).

6. The comments of the Advisory Committee on the information presented in the performance report on individual objects of expenditure can be found, where relevant, in the discussion of the proposed budget for the period from 1 July 2015 to 30 June 2016 (A/69/800) in the paragraphs below.

### III. Information on performance for the current period

7. With respect to assessments for UNMISS, the Advisory Committee was informed that, as at 23 March 2015, a total of \$3,238,241,000 had been assessed on Member States in respect of UNMISS since its inception. Payments received as at the same date amounted to \$2,977,734,000, leaving an outstanding balance of \$260,507,000. The Advisory Committee notes that the cash position of UNMISS was \$243,200,000 as at 23 March 2015, which covers the three-month operating cash reserve of \$233,460,000, leaving \$9,740,000 in remaining cash.

8. The Advisory Committee was also informed that payments totalling \$93,421,000 had been made during 2014 for the reimbursement of troop costs, leaving a balance of \$55,691,000 as at 31 December 2014. The Committee was informed that, as at 31 December 2014, the outstanding balance for contingent-owned equipment amounted to \$63,522,000.

9. The amount of \$716,000 was paid in respect of 12 claims for death and disability compensation related to the period from inception to 28 February 2015. The Advisory Committee was also informed that there were four pending death and disability claims. **The Advisory Committee expects that all outstanding claims will be settled expeditiously.**

10. Regarding incumbency, the Advisory Committee was informed that, as at 28 February 2015, the incumbency for UNMISS was as follows:

	Authorized <sup>a</sup>	Encumbered	Vacancy rate (percentage)
<b>Military and police personnel</b>			
Military observers	166	166	—
Military contingent personnel	12 334	10 338	16.2
United Nations police	663	625	5.7
Formed police unit personnel	660	443	32.9
<b>Civilian personnel<sup>b</sup></b>			
International staff	908	757	16.6
National Professional Officers	159	142	10.7
National General Service staff	1 379	1 001	27.4
<b>Temporary positions<sup>b</sup></b>			
International staff	35	18	48.6
National Professional Officers	10	5	50.0
United Nations Volunteers (International)	466	399	14.4
United Nations Volunteers (National)	3	2	33.3

<sup>a</sup> Represents the highest authorized strength for the period.

<sup>b</sup> Posts and positions do not include incumbency information for the Regional Service Centre at Entebbe.

11. Upon enquiry, the Advisory Committee was informed that funding for 2014/15 was based on the phased deployment of uniformed personnel, in addition to the application of a delayed deployment factor. The Committee was also provided with the table below for a comparison of the 2014/15 budgeted average deployment and the 2014/15 current projected average deployment based on latest deployment timelines.

<i>Uniformed personnel</i>	<i>2014/15 funded average</i>	<i>2014/15 current projected average</i>
Military observers	139	157
Military contingents	10 729	10 643
United Nations police	565	595
Formed police unit personnel	497	451

12. The Advisory Committee was provided with a table showing current and projected expenditures for the period from 1 July 2014 to 30 June 2015, with the reasons for variances. Expenditures for the period as at 28 February 2015 amounted to \$428,779,800. At the end of the current financial period, the estimated total expenditures would amount to \$1,097,085,300 against the appropriation of \$1,097,315,100, leaving a projected unencumbered balance of \$229,800.

#### **IV. Proposed budget for the period from 1 July 2015 to 30 June 2016**

##### **A. Mandate and planned results**

13. The mandate of UNMISS was established by the Security Council in its resolution 1996 (2011), which was most recently extended by resolution 2187 (2014) to 30 May 2015. The budget report states that pursuant to Security Council resolutions 2155 (2014) and 2187 (2014), UNMISS will focus on four main priorities: (a) protection of civilians; (b) monitoring, reporting and investigating human rights; (c) creating the conditions for delivery of humanitarian assistance; and (d) supporting the implementation of the Cessation of Hostilities Agreement. UNMISS will also operate under a number of assumptions, most notably the continuation of the political power struggle between the Government and the Sudan People's Liberation Movement/Army in Opposition and resultant fighting (see A/69/800, paras. 3 and 9).

14. The Secretary-General's report states that the prolonged presence of more than 100,000 internally displaced persons in UNMISS protection of civilians sites will continue to present numerous challenges for the Mission in 2015/16, including requiring significant military, police and civilian resources. It is further indicated that the civilian staffing review and realignment of human and financial resources conducted in 2014 will continue in 2015/16, as UNMISS continues to refine and streamline its operations as mandated by the Security Council in its resolution 2187 (2014) (see A/69/800, paras. 14 and 16).

15. Paragraphs 18 to 31 of the budget report elaborate on the planned activities in support of the four main priorities. It is indicated that implementation of the protection of civilians strategy would involve expanding the Mission's reach,

including through the establishment of forward operating bases and proactive and targeted patrolling, refining its early warning and early response strategy, increasing its collaboration with United Nations partners to find transitional solutions for internally displaced persons in UNMISS protection of civilians sites and continuing to support the implementation of the peace agreement between the Government and the South Sudan Democratic Movement Army Cobra Division (see A/69/800, paras. 18-23).

16. The budget report states that UNMISS would also focus on human rights violations and abuses and violations of international humanitarian law, including those that may amount to war crimes or crimes against humanity, in particular violations and abuses committed against women and children. With respect to humanitarian assistance, UNMISS would continue to provide armed escorts for road, river and air movements and allocate space for the co-location of humanitarian facilities and assets within UNMISS bases upon request by humanitarian actors. It is further stated that, on the implementation of the Cessation of Hostilities Agreement, UNMISS would provide support to the Intergovernmental Authority on Development monitoring and verification mechanism (see A/69/800, paras. 24-25, 28 and 30).

17. On regional mission cooperation, the Secretary-General states that the Mission will continue to work closely with regional and other peacekeeping operations, including by providing support to the United Nations Interim Security Force for Abyei (UNISFA) and, upon request, by providing logistical support to the African Union-led Regional Cooperation Initiative and, in particular, the African Union Regional Task Force. With respect to partnerships, the report indicates that UNMISS and the United Nations country team are working to delineate roles and responsibilities in areas of mutual concern, such as gender and women's protection, child protection, HIV/AIDS and national reconciliation and protection (see A/69/800, paras. 36 and 40).

## **B. Resource requirements**

18. The proposed budget for UNMISS for the period from 1 July 2015 to 30 June 2016 amounts to \$1,109,770,800, representing an increase of \$12,455,700 or 1.1 per cent, in gross terms, compared with the appropriation of \$1,097,315,100 for 2014/15. The Advisory Committee notes that, if compared to the projected expenditures of \$1,097,085,300 for 2014/15 (see para. 12 above), it would reflect a proposed increase for 2015/16 in the amount of \$12,685,500. The proposed budget provides for the deployment of 166 military observers, 12,334 military contingent personnel, 663 United Nations police officers, 660 formed police unit personnel, 968 international staff, 1,613 national staff and 465 United Nations Volunteers, including temporary positions.

19. An analysis of variances is provided in section III of the proposed budget. Increased requirements for 2015/16 are mainly attributable to:

(a) Air transportation (\$17,586,100 or 12.8 per cent), due mainly, according to supplementary information provided to the Advisory Committee, to additional requirements in: (i) petrol, oil and lubricants (\$8,048,500 or 32.7 per cent), owing to a higher projected volume of 21.1 million litres of aviation fuel in 2015/16 compared to 19.9 million litres in 2014/15; (ii) services (\$8,225,100 or 408.0 per cent), owing to the deployment of an unmanned aerial system for eight months in

2015/16 compared to three months in 2014/15; and (iii) rental and operation of fixed-wing aircraft (\$5,941,200 or 24.7 per cent), owing to an increase in the number of flying hours;

(b) Military contingents (\$15,204,000 or 3.9 per cent), owing primarily to the deployment at the highest authorized strength of 12,334 military contingent personnel projected to be sustained throughout the 2015/16 period, with the application of a 5.0 per cent vacancy rate, compared to the phased deployment applied during the 2014/15 period (see A/69/800, paras. 78 and 90).

20. The increased requirements are partly offset by reduced requirements primarily under:

(a) Facilities and infrastructure (\$13,938,700 or 11.1 per cent), owing mainly to the lower requirements under architectural and demolition services as a result of dividing large projects between budget periods to scale engineering capacity and decreased requirements for security services as a result of the reduction in the number of operational company support bases and company operating bases;

(b) International staff (\$8,034,600 or 4.5 per cent), owing to the projected deployment of an average strength of 909 international staff compared with an average strength of 927 in the 2014/15 period, a decrease of 23 international staff posts in the Regional Service Centre at Entebbe and the fact that no termination indemnity payments are expected (see A/69/800, paras. 81 and 88).

# 1. Military and police personnel

<i>Category</i>	<i>Approved 2014/15<sup>a</sup></i>	<i>Proposed 2015/16</i>	<i>Variance</i>
Military observers	166	166	–
Military contingent personnel	12 334	12 334	–
United Nations police	663	663	–
Formed police unit personnel	660	660	–
<b>Total</b>	<b>13 823</b>	<b>13 823</b>	<b>–</b>

<sup>a</sup> Represents the highest level of authorized/proposed strength.

21. The estimated requirements for military and police personnel for 2015/16 amount to \$464,053,500, an increase of \$20,689,400, or 4.7 per cent, compared with the appropriation for 2014/15. The proposed increase for 2015/16 reflects that requirements are calculated on the basis of full deployment in 2015/16, compared with phased deployment in 2014/15, and vacancy factors are also applied on that basis. The Advisory Committee notes that the full deployment of authorized strength compared with the funded average of the phased deployment in 2014/15 would represent the following: (a) for military observers, 166 against the funded average of 139, representing 119.4 per cent; (b) for military contingents, 12,334 against the funded average of 10,729, representing 115.0 per cent; (c) for United Nations police, 663 against the funded average of 565, representing 117.3 per cent; and (d) for formed police unit personnel, 660 against the funded average of 497, representing 132.8 per cent (see also para. 11 above). The proposed increase is primarily attributable to increased requirements under military contingents, as mentioned in paragraph 19 (b) above. The Committee was informed that part of the increased requirements under

military contingents related to an increase of \$6,419,800, or 59.4 per cent, for mission subsistence allowance. The Committee was further informed upon enquiry that those are based on the higher monthly average deployment: for 2014/15, an average of 246 staff officers were funded on a monthly basis, compared with an average of 372 in the 2015/16 proposed budget.

**22. The Advisory Committee recommends approval of the requested resources for military and police personnel.**

**2. Civilian personnel**

<i>Category</i>	<i>Approved 2014/15<sup>a</sup></i>	<i>Proposed 2015/16</i>	<i>Variance</i>
International staff	955	933	(22)
National staff <sup>b</sup>	1 591	1 603	12
United Nations Volunteers	475	465	(10)
General temporary assistance	45	45	–
<b>Total</b>	<b>3 066</b>	<b>3 046</b>	<b>(20)</b>

<sup>a</sup> Represents the highest level of authorized/proposed strength.

<sup>b</sup> Includes National Professional Officers and national General Service staff.

23. The estimated requirements for civilian personnel for 2015/16 amount to \$239,216,200, a decrease of \$10,545,200, or 4.2 per cent, compared with the appropriation for 2014/15. The decreased requirements under civilian personnel for 2015/16 are mainly attributable to lower requirements under international staff as mentioned in paragraph 20 (b) above, and under Government-provided personnel (\$1,295,800, or 100.0 per cent), due to the abolishment of all Government-provided personnel, which commenced during the 2014/15 period on a phased reduction basis, owing to the change in the Mission mandate pursuant to Security Council resolutions 2155 (2014) and 2187 (2014) (see A/69/800, para. 85).

24. The cost estimates for civilian staff reflect vacancy factors of 15 per cent for international staff, 10 per cent for National Professional Officers, 30 per cent for national General Service staff, 20 per cent for United Nations Volunteers (international), zero per cent for United Nations Volunteers (national) and 30 per cent for general temporary assistance positions. The budget report indicates that the proposed vacancy factors take into account the Mission's experience to date and mission-specific circumstances in relation to the recruitment of civilian staff, reflecting current and fiscal year-to-date average vacancy rates, recent incumbency patterns and changes in the composition of staff (see A/69/800, para. 67). **The Advisory Committee has no objections to the proposed vacancy rates for civilian personnel.**

25. The Secretary-General's report states that the vacancy rates above exclude the 91 proposed posts within the Regional Service Centre at Entebbe, for which the following rates are applied in the 2015/16 period: 5 per cent for international staff, 15 per cent for national staff and 2 per cent for United Nations Volunteers (see A/69/800, para. 66). **In accordance with its observations and recommendations in its report on the global field support strategy, the Advisory Committee recommends that the vacancy rates of 17 per cent be applied to national General Service posts and 50 per cent to the National Professional Officer posts**

**at the Regional Service Centre at Entebbe (see A/69/874, para. 61). Any related operational costs should be adjusted as appropriate.**

#### **Comments and recommendations on posts and positions**

26. A summary of the proposed staffing changes is presented in annex I of the present report, which shows a net decrease of 155 posts/positions under component 1, protection of civilians; a net increase of 30 posts/positions under component 2, monitoring, reporting and investigating human rights; a net increase of 76 posts/positions under component 3, creating the conditions for delivery of humanitarian assistance; a net increase of 50 posts/positions under component 4, supporting the implementation of the Cessation of Hostilities Agreement; and a net decrease of 6 posts/positions under component 5, support. In addition, a net reduction of 15 posts/positions is proposed for the Regional Service Centre at Entebbe (see also A/69/800, tables 2-7). Upon enquiry as to the attribution of units such as Political Affairs, Civil Affairs, Communications and Public Information across four components, the Advisory Committee was informed that there are no changes to the results-based budgeting framework components, and no change in the functions performed by staff, between 2014/15 and 2015/16.

**27. The Advisory Committee recalls that in its previous report, it had encouraged the Secretary-General to continue his efforts to refine the presentation of his budget submission for the 2015/16 period (see A/69/650, para. 46). The Advisory Committee is of the view that the presentation of the staffing changes in the current budget report could have been clearer, with movements of posts and positions set out distinctly and in an accessible format. The Committee therefore encourages the Secretary-General to make further efforts to improve the presentation in future budget submissions.**

#### *Component 2, monitoring, reporting and investigating human rights*

28. Under component 2, it is proposed that a D-1 post of Deputy Director of the Human Rights Division be established. The Secretary-General states that the conflict in South Sudan, as well as the related prioritization of human rights in the Mission mandate contained in Security Council resolutions 2155 (2014) and 2187 (2014), have led to an increase in the workload and related expectations of the Human Rights Division. It is further stated that the Human Rights Division would need to enhance its internal management and oversight, and it is envisioned that the Deputy Director would focus on the day-to-day management and operations of the Division related to the protection of civilians and public reporting. The report also states that the Deputy Director would also coordinate and oversee the organizational units of the Division headed at the P-5 level, offer technical guidance, ensure quality control of the Division's work and ensure consistent high-level coverage of the Division at all times (see A/69/800, paras. 46-50).

29. The Advisory Committee recalls that the Secretary-General had recently requested, in the context of his 2014/15 budget proposal submitted in December 2014, the reassignment of a D-1 Deputy Director post from the abolished Rule of Law and Security Institutions Support Unit to the Human Rights Division. At that time, the Committee was not convinced of the need for a Deputy Director in the Human Rights Division and had recommended against the proposed reassignment (see A/69/650, para. 48). The Committee's recommendation was endorsed by the

General Assembly in its resolution 69/260 in February 2015. The Committee notes that the present request was submitted shortly after the General Assembly decided against the previous request.

**30. The Advisory Committee is of the view that the present justifications provided do not specifically address the need for a high-level management post at the D-1 level, considering that current capacity provides for the management at the P-5 level of the three organizational units of the Division, with oversight provided by the Director at the D-2 level. The Committee also notes the recent decision in this regard of the General Assembly in its resolution 69/260. The Advisory Committee remains unconvinced of the need for a Deputy Director in the Human Rights Division and recommends against the proposed establishment of the D-1 post. Any related operational costs should be adjusted accordingly.**

*Component 5, support*

31. It is proposed under component 5, support, to abolish six Geographic Information Assistants (international United Nations Volunteers) positions and reclassify one Geographic Information Assistant (national General Service) post as a Geographic Information Officer (National Professional Officer) post within the Geospatial, Information and Telecommunications Technologies Section. The budget report states that the functions and geospatial capabilities currently performed in missions are proposed to be centralized within the United Nations Global Service Centre to leverage existing infrastructure and staffing resources (see A/69/800, paras. 58-59).

32. Upon enquiry, the Advisory Committee was informed that the proposed abolishment of six United Nations Volunteer positions would entail an estimated reduction of \$219,400 of the total reduced requirements of \$524,300, while the reclassification of one national General Service post to a National Professional Officer post would entail net increased estimated requirements of \$45,945. The Committee was further informed that of the six United Nations Volunteer positions, two positions have been vacant since July 2014 and four posts are currently encumbered. The Committee was also informed that the proposed reclassification would align with the minimum qualifications of staff who perform highly sensitive and specialized cartographic mapping duties within the unit.

**33. The Advisory Committee has no objections to the proposed abolishment of six United Nations Volunteer positions and the reclassification of one national General Service post to a National Professional Officer post.**

*Posts vacant for two years or longer*

34. Upon enquiry as to posts that have been vacant for two years or longer, the Advisory Committee was provided with a table showing that there are currently 50 such posts, of which 3 posts were reassigned in the 2014/15 budget and 21 posts are at advanced stages of recruitment, including at interview or selection stages (see annex II). The remaining 26 posts are to be re-advertised or are under review for re-advertisement.

**35. The Advisory Committee reiterates that the continuing requirement for posts that have been vacant for two years or longer should be reviewed and the posts proposed for retention or abolishment in subsequent budget proposals**

(see A/68/782, para. 109). Considering the current status of the 50 long-vacant posts mentioned above, the Advisory Committee has no objections to the 3 recently reassigned posts and 21 posts at advanced stages of recruitment. With respect to the remaining 26 long-vacant posts, the Committee notes that these posts have not been proposed for retention with a full rejustification. The Committee therefore recommends that these 26 posts be abolished. Any related operational costs should be adjusted accordingly.

36. Subject to its recommendations in paragraphs 25, 30 and 35 above, the Advisory Committee recommends approval of the requested resources for civilian personnel.

### 3. Operational costs

<i>Apportioned 2014/15</i>	<i>Proposed 2015/16</i>	<i>Variance</i>
\$404 189 600	\$406 501 100	\$2 311 500

37. The proposed operational requirements for 2015/16 amount to \$406,501,100, an increase of \$2,311,500, or 0.6 per cent, compared with the appropriation for 2014/15. The increase is attributable mainly to increased requirements under air transportation as mentioned in paragraph 19 (a) above, and ground transportation (\$2,896,900 or 14.1 per cent) mainly due to increased requirements in petrol, oil and lubricants owing to a higher projected volume of fuel, a projected increase in contingent-owned vehicles due to the increase in deployment of military contingent and formed police unit personnel and the replacement of old vehicles with the acquisition of new vehicle models (see A/69/800, para. 89).

#### *Cost apportionment*

38. The Advisory Committee's report on cross-cutting issues related to peacekeeping operations includes observations and recommendations with respect to those costs that the Secretary-General proposes to be apportioned to individual mission budgets, including applications developed by the Office of Information and Communications Technology and deployed to the field and the additional requirements relating to the supply chain management initiative (A/69/839). **The Committee does not concur with the Secretary-General's proposal to charge the missions for the entirety of these costs and recommends that the proposed resource requirements in individual missions be reduced accordingly.** The relevant table in the cross-cutting report contains a summary of the Committee's recommended reductions by mission. **In the case of UNMISS, this recommendation would result in a reduction of \$245,985 from the requirements for information technology, \$220,800 for consultancy services and \$331,200 for official travel respectively.** Related upward adjustments to the resource requirements included in the Support Account are in the Committee's report on the subject (A/69/860).

#### *Official travel*

39. The proposed budget includes a request of \$6,793,000 for official travel, representing an increase of \$536,000 (or 8.6 per cent) from the apportionment of \$6,257,000 for 2014/15. It is stated that the variance is mainly due to the UNMISS share of the indirect centralized costs associated with the supply chain management project (see A/69/800, para. 87).

40. Upon enquiry, the Advisory Committee was provided with two tables showing a breakdown of proposed official travel for non-training purposes (see annex III) and training (see annex IV). The Committee notes from annex III that the stated purpose of some trips under non-training travel outside of the Mission area is to participate in training or workshops, and it is unclear why those are not considered training travel. For example, under executive direction and management, trips to New York and Brindisi for a “Training of trainers conduct and discipline workshop” and “Conduct and discipline induction training” are included under non-training.

41. The Advisory Committee also notes that a number of out-of-Mission trips are from the same requesting office to the same destination, which could be combined. For example, under the protection of civilians component, there are multiple references to trips to New York by the Office of the Force Commander and the Office of the Police Commissioner. In addition, the Committee was informed that, in respect of the current period, increased requirements are attributable to increased travel outside the Mission partly owing to visits by delegates from Headquarters and legislative committees. Upon enquiry, it was clarified that those visits referred to the travel from Headquarters, not travel by Mission staff outside of the Mission area.

**42. Taking into account its observations above, the Advisory Committee is of the view that the Mission could make greater efforts to consolidate trips and minimize the number of travellers per trip. The Committee also encourages UNMISS to review the planned trips under non-training travel outside of the Mission area, in order to ensure these resources are utilized for the purposes intended, that is, for non-training travel of Mission staff, rather than training travel or travel of Headquarters staff to missions. In the light of the foregoing, the Committee recommends a 15 per cent reduction in the proposed resources for official travel (non-training) outside of the Mission area, in addition to the reduction of \$331,200 for official travel recommended in paragraph 38 above.**

**43. Furthermore, the Advisory Committee is of the view that measures such as the consolidation of trips and alternative means of communication will not only contribute to a more efficient use of financial resources but also reduce the disruptive effect that frequent or extended absences from missions can have on the day-to-day work of staff and on effective programme delivery (see also A/68/782, para. 199).**

#### *Facilities and infrastructure*

44. Under facilities and infrastructure, the Secretary-General proposes one construction project with a value greater than \$1 million, which is the construction of one two-storey building for United Nations Volunteers and staff accommodation, with an estimated value of \$1.7 million and projected completion by June 2016 (see A/69/800, para. 35). Upon enquiry, the Advisory Committee was provided with a table of proposed major projects for the 2015/16 period (see annex V). The Committee was also provided with a table showing the status of engineering projects from 2011 to 2015 (see annex VI) and a table showing 2013/14 expenditures for engineering projects (see annex VII). **The Advisory Committee reiterates that projects sometimes span more than one budgetary cycle and require better long-term project planning, including the formulation of realistic budget and time frame assumptions. Details regarding multi-year projects should be included in budget submissions, including the overall status of implementation at the time of the budget request consideration (see A/68/782, para. 132).**

*Ground transportation*

45. The proposed budget includes a request of \$23,402,900 for ground transportation, representing an increase of \$2,896,900, or 14.1 per cent, from the apportionment of \$20,506,000 for 2014/15. It is stated that the variance is partly attributable to increased requirements related to the acquisition of new vehicles (see para. 37 above). The Advisory Committee was informed that the amount of \$8,060,000 is requested for the acquisition of vehicles, representing an increase of \$807,700, or 11.1 per cent, from the apportionment of \$7,252,300 for 2014/15.

46. Upon enquiry, the Advisory Committee was informed that UNMISS had inherited its ground transportation assets from the United Nations Mission in the Sudan (UNMIS), at which time 69 per cent of the light passenger vehicle fleet was approaching or had exceeded its economic life cycle. Fleet replacement was deferred by two years and no vehicle/equipment replacements/acquisitions were conducted in 2011/12 and 2012/13. The Committee was also informed that UNMISS had engineered a phased write-off plan of the aged fleet supported by a controlled acquisition plan over a four-year period: in 2013/14, 163 light passenger vehicles were replaced or acquired; in 2014/15, 100 vehicles were replaced; in 2015/16, a projected 75 vehicles would be replaced, with a target of 100 per cent replacement by 2016/17 of the light passenger vehicle fleet that is beyond replacement age. The Committee was provided with the following list of planned acquisitions:

**Planned asset acquisition for 2015/16**

<i>Category</i>	<i>Vehicle type</i>	<i>Additional</i>	<i>Replacement</i>	<i>Total</i>
Light passenger vehicles	4x4 general purpose heavy	—	35	35
Light passenger vehicles	Bus, 4x4 minibus, 8 seater	—	40	40
Special purpose vehicles	Bus over 15 passengers	10	—	10
Special purpose vehicles	Truck, cargo, medium	—	3	3
Special purpose vehicles	Truck, pallet loading system, heavy	11	2	13
Special purpose vehicles	Truck, tractor 6x6	4	1	5
Special purpose vehicles	Van 4x4	5	12	17
Ground support equipment	Airfield, cargo/utility tractor	4	—	4
Ground support equipment	Airfield ground power unit — 140 kVA	4	—	4
Engineering equipment	Motor grader	—	1	1
Material handling equipment	Forklift, medium — 7T rough terrain	—	3	3
Trailers	Trailer, cargo — 30,000 kg	4	—	4
<b>Total</b>		<b>42</b>	<b>97</b>	<b>139</b>

47. On the related resources for spare parts and repairs/maintenance, the Advisory Committee was provided upon enquiry with the table below.

<i>Category</i>	<i>2014/15 allotment</i>	<i>2015/16 requirement</i>	<i>Variance</i>	
			<i>Amount</i>	<i>Percentage</i>
Acquisition of vehicles	\$7 252 300	\$8 060 000	\$807 700	11.1
Spare parts	\$1 501 400	\$2 668 000	\$1 166 600	77.7
Repairs and maintenance	\$756 100	\$856 100	\$100 000	13.2

The Committee was also informed that the increased requirements of \$1,166,600 for spare parts are required to maintain the existing fleet, new vehicles and specialized ground transport assets. It is stated that UNMISS vehicles and specialized ground transport assets are maintained through in-house capacity and local repair services through local service contracts in the Mission, while vehicles and equipment that require major repairs are sent to outsourced workshops through local contracts.

**48. In the light of the information above on the proposed acquisition plan for vehicles in 2015/16, the Advisory Committee is not convinced of the necessity of the proposed acquisitions, and recommends that resources related to acquisition of vehicles be in the amount of \$7,252,300 instead of the proposed \$8,060,000, that is, at the same level as the apportionment for 2014/15.**

#### *Air transportation*

49. The Advisory Committee was informed that the variance relating to the additional requirements for services under air transportation amounts to \$8,225,100, or 408.0 per cent, mainly relating to the deployment of an unmanned aerial system for eight months in 2015/16 as compared with three months in 2014/15, as mentioned in paragraph 19 (a) above. The Committee was informed upon enquiry that the budgeted cost of the unmanned aerial system for three months in 2014/15 was \$1.2 million, and the proposed cost of the system for eight months in 2015/16 amounts to \$10,000,000. Upon enquiry as to status of the deployment, the Advisory Committee was informed that the Mission currently does not have any such assets on board, and is working with Headquarters on the technical nature of the requirement in order to determine the most appropriate scope of work and technical specifications to suit the Mission. The Committee was also informed that UNMISS is reviewing its requirements for this capability in order to determine factors such as locations to be covered, thereby determining bases to host the system, as well as the scope, height and range of this capability, after which UNMISS will begin the procurement exercise. It is therefore projected that the system would only be deployed in UNMISS during the final eight months of the 2015/16 period.

**50. Taking into account the current status of the deployment of the unmanned aerial system and given that the procurement exercise has not commenced, the Advisory Committee is of the view that the projected timeline for the deployment of the unmanned aerial system may be unrealistic. The Committee therefore recommends a reduction of \$5,000,000 in the requested resources. Should additional resources be required in 2015/16 for the deployment of the system, this should be reflected in the performance report for that period.**

51. For petrol, oil and lubricants under air transportation, as mentioned in paragraph 19 (a) above, the Advisory Committee was informed of a variance in the amount of \$8,048,500 (or 32.7 per cent), owing to a higher projected volume of 21.1 million litres of aviation fuel in 2015/16 compared with 19.9 million litres in 2014/15. Upon enquiry, the Advisory Committee was informed that the budgeted unit cost of fuel for 2014/15 was \$1.32, while the unit cost of \$1.34 is proposed for 2015/16. Based on this information, the Committee notes that, for the current period, budgeted fuel consumption of 19.9 million litres at the unit cost of \$1.32 would amount to \$26.3 million. The Committee further notes that, for 2015/16, estimated fuel consumption of 21.1 million litres at the proposed unit cost of \$1.34 would amount to \$28.3 million, resulting in a variance between the two budget

periods of \$2.0 million, instead of the proposed variance of \$8 million. **For this reason, the Advisory Committee recommends a reduction of \$6,000,000 from petrol, oil and lubricants under air transportation.**

*Information technology*

52. The Secretary-General proposes the amount of \$18,338,000 under information technology for 2015/16, representing an increase of \$1,467,300, or 8.7 per cent, from the apportionment of \$16,870,700 for 2014/15. Paragraph 93 of the budget report states that the increased requirements are mainly attributable to: (a) UNMISS share of costs for the development of centralized systems, which was not provided for in 2014/15; (b) information technology services owing to a planned increase of internationally contracted personnel; (c) acquisition of new software and licences owing to the acquisition of new information technology equipment; and (d) the upgrade and replacement of information technology equipment to maintain the network infrastructure's security.

53. Upon enquiry, the Advisory Committee was informed that the planned increase of internationally contracted personnel relates to three additional contracted personnel to perform functions at the Regional Service Centre at Entebbe as part of the support team for the centralized regional initiatives benefiting UNMISS. The Committee was further informed that the development of centralized systems refers to systems including Umoja, Field Support Suite, e-mail, eBilling and Galileo, which are hosted in Brindisi, Italy, and Valencia, Spain. The Committee was also informed that as end-users of the centralized systems, all field missions are required to share the costs for the development, upgrade and maintenance of the systems monetarily and/or with staff.

*Other supplies, services and equipment*

54. Under other supplies, services and equipment, the Secretary-General proposes the amount of \$70,423,400 for 2015/16, representing a decrease of \$5,413,400, or 7.1 per cent, from the apportionment of \$75,836,800 for 2014/15. Included are proposed resource requirements for mine detection and mine-clearing services in the amount of \$38,400,000. The budget report states that the proposed requirements would include funding for international and national staff (\$6,904,884); eight contracts, including for route verification and clearance teams, integrated clearance capacity teams and explosive detection dog teams (\$27,261,165); official travel (\$560,806); and equipment and operational expenses (\$779,386), with the balance representing support and management fees for the United Nations Mine Action Service implementing partner, the United Nations Office for Project Services, amounting to \$1,065,187 and \$1,828,571, respectively (see A/69/800, para. 73).

55. The Advisory Committee was informed upon enquiry that all 10 states in South Sudan remain contaminated with landmines and/or explosive remnants of war and new contamination from the ongoing conflict since December 2013 has compounded the previous threat, representing a daily threat to communities, UNMISS uniformed and civilian personnel, internally displaced people and humanitarian aid actors. The Committee was also informed that mine action teams are required to respond to incidents related to grenades, mortars, small arms ammunition and other explosive remnants of war in UNMISS protection of civilians sites and on/near United Nations bases; conduct survey and clearance of explosive

remnants of war in/around airfields and at United Nations bases/facilities and transit routes; provide risk education for internally displaced people; and help in the destruction of the weapons and ammunition recovered inside civilian sites protected by UNMISS. The Committee was further informed that these activities contribute to implementation of results-based budgeting outputs under components 1, 2 and 3 of the Mission's mandate.

#### *Quick-impact projects*

56. The Secretary-General proposes the amount of \$1,000,000 for quick-impact projects for 2015/16, the same level that was approved for 2014/15. For the 2013/14 period, it is indicated that reduced requirements in the amount of \$900,000, or 45 per cent, under quick-impact projects were owing mainly to a suspension in implementation after the outbreak of the security crisis in December 2013 (see A/69/677, para. 77).

57. Upon enquiry as to implementation of the projects related to the current period, the Advisory Committee was informed that the 2014/15 budget includes the implementation of 18 approved quick-impact projects in 2014/15, the 20 per cent completion costs for the remaining 2012/13 projects (\$126,372) and the 20 per cent completion costs for the remaining 2013/14 projects (\$275,000). All projects are expected to be completed by 30 June 2015, thereby utilizing the full allocated budget of \$1 million. The Committee was also informed that payments for the 80 per cent of costs for the current period had been made and implementation is under way, and the first instalment payments amounting to \$744,730 had been disbursed as at 31 March 2015. The Committee was further informed that the Mission expects to implement the proposed projects in 2015/16, since no quick-impact projects are expected to roll over from 2013/14 or 2014/15.

58. The Advisory Committee was provided with the table below on implementation in 2013/14 and 2014/15 as at 31 March 2015:

<i>Period</i>	<i>Completed</i>			<i>Under implementation</i>			<i>Not yet started</i>		
	<i>Number of projects</i>	<i>Cost</i>	<i>Percentage</i>	<i>Number of projects</i>	<i>Cost</i>	<i>Percentage</i>	<i>Number of projects</i>	<i>Cost</i>	<i>Percentage</i>
2013/14	30	\$1 097 336	97	1	\$39 211	3	—	—	—
2014/15	—	—	—	18	\$842 952	100	—	—	—

**59. The Advisory Committee recommends approval of the requested resources for quick-impact projects, and encourages UNMISS to select and implement the projects in a timely manner so as to achieve the quick impact of the projects planned.**

**60. Subject to its recommendations in paragraphs 25, 30, 35, 38, 42, 48, 50 and 51 above, the Advisory Committee recommends approval of the requested resources for operational costs.**

## V. Board of Auditors

61. Upon enquiry as to the actions taken by UNMISS to address the findings of the Board of Auditors relating to the Mission for the period from 1 July 2013 to 30 June 2014 (A/69/5 (Vol. II), chap. II), the Advisory Committee was informed of the actions taken in the following areas:

(a) Weakness in fuel management: the Electronic Fuel Management System was implemented in UNMISS as at June 2014 and the Fuel Unit is now in a better position to detect abnormal consumption in a timely manner and to refer the cases to the self-accounting units for investigation. Unresolved cases are referred to the Security Investigations Unit for formal investigation. In addition, UNMISS has been paying all invoices within the time frame stipulated in the Fuel Supply and Service Agreement and is benefiting from prompt payment discounts throughout the fiscal year;

(b) Deficiencies in construction project management: the Mission's Project Management Group was established in November 2013 to approve, allocate resources for, monitor and implement all projects in accordance with UNMISS mandate and priorities set by the senior leadership. Individual project progress is monitored through the Mission Project Plan, which provides the status of ongoing projects across the Mission, forecasts the whole life of the project and includes capital projects, such as major construction, across several budget years. The Engineering Section has also reviewed its capacity to undertake and manage the large number of Mission projects, with the result of spreading projects over two financial year periods, focusing resources more effectively on the Mission Project Plan and developing a team within the Chief Engineer's office to provide operational and project management support and project oversight;

(c) Deficiencies in the implementation of quick-impact projects: the Project Review Committee currently meets more regularly (once a month) to be able to more closely monitor the progress of the implementation of quick-impact projects, to ensure that the projects can be completed within the fiscal year. UNMISS is in the process of establishing a quick-impact project management team to continually review and monitor the implementation of projects and conduct two field visits to selected projects every year to monitor progress and ensure timely implementation;

(d) Deficiencies in the implementation of Umoja: the Mission has commenced a rigorous programme of training end-users by using a team of local process experts to coach and offer hands-on guidance as required. In addition, the Mission has reviewed and aligned user roles within the Mission structure and is strengthening its capability to use the Business Intelligence reporting functionality. The Mission has set up a deployment team to ensure that Umoja Extension 1 is implemented in accordance with the Umoja deployment manual, including ongoing activities to ensure proper data cleansing.

62. The Board of Auditors also found that there were many items that were overstocked and other items that had nil stock, with an increase of line items by 13.5 per cent in 2013/14 with a monetary value of \$39.09 million (see A/69/5 (Vol. II), chap. II, paras. 105-107). Upon enquiry, the Advisory Committee was informed that UNMISS has undertaken a complete review of its inventory holdings, and is engaging all stakeholders in rightsizing and assessing the condition of their assets. The Mission has also revised its acquisition processes and, as a result, all

requisitions are now being scrutinized to confirm stock levels and consumption before the procurement process commences. The Committee was also informed that the Mission is engaging with pertinent stakeholders to reduce slow-moving assets and asset holdings that have passed life expectancy in a timely manner.

63. In paragraph 74 of the same report, the Board noted that in relation to UNMISS, a review of 2,337 pending advance payments of daily subsistence allowance amounts disclosed that an amount of \$1.64 million pertaining to 825 cases was pending for clearance as at 30 June 2014. Upon enquiry, the Advisory Committee was informed that a total of \$681,500 had been recovered from the daily subsistence allowance amounts pending clearance, so that the amounts pending clearance currently stand at \$958,500, which the Mission is reviewing with the Regional Service Centre at Entebbe to pursue and clear.

## VI. Conclusion

64. The actions to be taken by the General Assembly in connection with the financing of UNMISS for the period from 1 July 2013 to 30 June 2014 are indicated in section V of the performance report (A/69/677). **The Advisory Committee recommends that the unencumbered balance of \$5,271,500 for the period from 1 July 2013 to 30 June 2014, as well as other income/adjustments amounting to \$19,887,200 for the period ended 30 June 2014, be credited to Member States.**

65. The actions to be taken by the General Assembly in connection with the financing of UNMISS for the period from 1 July 2015 to 30 June 2016 are indicated in section IV of the proposed budget (A/69/800). **Taking into account its recommendations in paragraphs 25, 30, 35, 38, 42, 48, 50 and 51 above, the Advisory Committee recommends that the General Assembly appropriate the amount of \$1,095,219,100 for the maintenance of UNMISS for the 12-month period from 1 July 2015 to 30 June 2016, should the Security Council decide to extend the mandate of UNMISS.**

### *Documentation*

- Report of the Secretary-General on the budget performance of the United Nations Mission in South Sudan for the period from 1 July 2013 to 30 June 2014 (A/69/677)
- Report of the Secretary-General on the budget for the United Nations Mission in South Sudan for the period from 1 July 2015 to 30 June 2016 (A/69/800)
- Report of the Board of Auditors on United Nations peacekeeping operations for the 12-month period from 1 July 2013 to 30 June 2014 (A/69/5 (Vol. II), chap. II)
- Report of the Advisory Committee on Administrative and Budgetary Questions on observations and recommendations on cross-cutting issues related to peacekeeping operations (A/68/782)

- Report of the Advisory Committee on Administrative and Budgetary Questions on the budget for the period from 1 July 2014 to 30 June 2015 of the United Nations Mission in South Sudan (A/69/650)
- General Assembly resolutions 68/293 and 69/260 on the financing of the United Nations Mission in South Sudan
- Security Council resolutions 2155 (2014) and 2187 (2014)

## Annex I

### Summary of proposed changes for the United Nations Mission in South Sudan, 1 July 2015 to 30 June 2016

<i>Office/section/unit</i>	<i>Number</i>	<i>Level</i>	<i>Post action</i>	<i>Description</i>
<b>Component 1: Protection of civilians</b>				
<b>Political Affairs Division</b>				
<b>Attributed to component 4</b>				
	-1	D-1		Chief Political Affairs Officer
