The role of diamonds in fuelling conflict: breaking the link between the illicit transaction of rough diamonds and armed conflict as a contribution to prevention and settlement of conflicts

The General Assembly,

Recognizing that the trade in conflict diamonds continues to be a matter of serious international concern, which can be directly linked to the fuelling of armed conflict, the activities of rebel movements aimed at undermining or overthrowing legitimate Governments and the illicit traffic in and proliferation of armaments, especially small arms and light weapons,

Recognizing also the devastating impact of conflicts fuelled by the trade in conflict diamonds on the peace, safety and security of people in affected countries, and the systematic and gross human rights violations that have been perpetrated in such conflicts,

Noting the negative impact of such conflicts on regional stability and the obligations placed upon States by the Charter of the United Nations regarding the maintenance of international peace and security,

Recognizing that continued action to curb the trade in conflict diamonds is imperative,

Noting with appreciation that the Kimberley Process, as an international initiative led by the Governments of participant States, has pursued its deliberations on an inclusive basis involving concerned stakeholders, including producing, exporting and importing States, the diamond industry and civil society, as well as applicant States and international organizations,

Recalling that the elimination of conflict diamonds from legitimate trade is the primary objective of the Kimberley Process, and stressing the need to continue its activities in order to achieve this objective,

Welcoming the important contribution of the Kimberley Process, which was initiated by African diamond-producing countries, and calling for the consistent implementation of commitments made by Kimberley Process participant States and the diamond industry and civil society organizations, as observers,

Acknowledging the successful role that the Kimberley Process has played in stemming the flow of conflict diamonds and the significant developmental impact it has had in improving the lives of people dependent on the trade in diamonds, and noting that the plenary meeting of the Process, in looking towards the future, committed to continue to ensure that the Process remains relevant as a credible tool in curbing the illegal flow of rough diamonds,

Acknowledging also that the diamond sector is an important catalyst for promoting economic and social development, which are necessary for poverty reduction and meeting the requirements of the Millennium Development Goals in many producing countries, particularly in developing countries,

Bearing in mind the positive benefits of the legitimate diamond trade to producing countries, and underlining the need for continued international action to prevent the problem of conflict diamonds from negatively affecting the trade in legitimate diamonds, which makes a critical contribution to the economies of the producing, exporting and importing States,

Noting that the vast majority of rough diamonds produced in the world are from legitimate sources,

Recalling the Charter and all the relevant resolutions of the Security Council related to conflict diamonds, and determined to contribute to and support the implementation of the measures provided for in those resolutions,

Recalling also Security Council resolution 1459 (2003) of 28 January 2003, in which the Council strongly supported the Kimberley Process Certification Scheme¹ as a valuable contribution against trafficking in conflict diamonds,

Noting with satisfaction that the implementation of the Kimberley Process Certification Scheme continues to have a positive impact in reducing the opportunity for conflict diamonds to play a role in fuelling armed conflict and helps to protect legitimate trade and ensure the effective implementation of the relevant resolutions on trade in conflict diamonds,

Acknowledging that lessons learned from the Kimberley Process may be useful for the work of the Peacebuilding Commission in its consideration of the countries included in its agenda, as appropriate,

Recalling its resolutions 55/56 of 1 December 2000, 56/263 of 13 March 2002, 57/302 of 15 April 2003, 58/290 of 14 April 2004, 59/144 of 15 December 2004, 60/182 of 20 December 2005, 61/28 of 4 December 2006, 62/11 of 26 November 2007, 63/134 of 11 December 2008, 64/109 of 11 December 2009, 65/137 of 16 December 2010, 66/252 of 25 January 2012, 67/135 of 18 December 2012 and

Recognizing that State sovereignty should be fully respected and that the principles of equality, mutual benefits and consensus should be adhered to,

Recognizing also that the Kimberley Process Certification Scheme, which came into effect on 1 January 2003, will be credible only if all Participants have the requisite national legislation coupled with effective and credible internal systems of control designed to eliminate the presence of conflict diamonds in the chain of producing, exporting and importing rough diamonds within their own territories and across their borders, while taking into account that differences in production methods and trading practices, as well as differences in the institutional controls thereof, may require different approaches to meeting minimum standards,
