Noting the threat to international peace and security posed by illicit brokering activities circumventing the international arms control and non-proliferation framework,

Concerned that, if proper measures are not taken, the illicit brokering of arms in all its aspects will adversely affect the maintenance of international peace and security, and prolong conflicts, and could be an obstacle to sustainable economic and social development and result in illicit transfers of conventional arms and the acquisition of weapons of mass destruction by non-State actors,

Recognizing the need for Member States to prevent and combat illicit brokering activities, which covers not only conventional arms but also materials, equipment and technology that could contribute to the proliferation of weapons of mass destruction and their means of delivery,

Draft resolution V

Reducing nuclear danger

The General Assembly,

Bearing in mind that the use of nuclear weapons poses the most serious threat to mankind and to the survival of civilization,

Reaffirming that any use or threat of use of nuclear weapons would constitute a violation of the Charter of the United Nations,

Convinced that the proliferation of nuclear weapons in all its aspects would seriously enhance the danger of nuclear war,

Convinced also that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Considering that, until nuclear weapons cease to exist, it is imperative on the part of the nuclear-weapon States to adopt measures that assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Considering also that the hair-trigger alert of nuclear weapons carries unacceptable risks of unintentional or accidental use of nuclear weapons, which would have catastrophic consequences for all mankind,

Emphasizing the need to adopt measures to avoid accidental, unauthorized or unexplained incidents arising from computer anomalies or other technical malfunctions,

Conscious that limited steps relating to de-alerting and de-targeting have been taken by the nuclear-weapon States and that further practical, realistic and mutually reinforcing steps are necessary to contribute to the improvement in the international climate for negotiations leading to the elimination of nuclear weapons,

Mindful that a diminishing role for nuclear weapons in the security policies of nuclear-weapon States would have a positive impact on international peace and security and improve the conditions for the further reduction and the elimination of nuclear weapons,

Reiterating the highest priority accorded to nuclear disarmament in the Final Document of the Tenth Special Session of the General Assembly¹ and by the international community,

Recalling the advisory opinion of the International Court of Justice on the legality of the threat or use of nuclear weapons² that there exists an obligation for all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Recalling also the call, in the United Nations Millennium Declaration,³ to seek to eliminate the dangers posed by weapons of mass destruction and the resolve to

¹ Resolution S-10/2.

² [A/51/218](#), annex.

³ Resolution [55/2](#).

strive for the elimination of weapons of mass destruction, particularly nuclear weapons, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

1. *Calls for* a review of nuclear doctrines and, in this context, immediate and urgent steps to reduce the risks of unintentional and accidental use of nuclear weapons, including through de-alerting and de-targeting nuclear weapons;

2. *Requests* the five nuclear-weapon States to take measures towards the implementation of paragraph 1 above;

3. *Calls upon* Member States to take the measures necessary to prevent the proliferation of nuclear weapons in all its aspects and to promote nuclear disarmament, with the objective of eliminating nuclear weapons;

Welcoming the response of Member States to the request contained in paragraphs 9 and 10 of resolution [46/36](#) L to provide data on their imports and exports of arms, as well as available background information regarding their military holdings, procurement through national production and relevant policies,

Draft resolution XIII

Implementation of the Convention on Cluster Munitions

The General Assembly,

Recalling its resolutions [63/71](#) of 2 December 2008 on the Convention on Cluster Munitions and [70/54](#) of 7 December 2015 on the implementation of the Convention,

Reaffirming its determination to put an end for all time to the suffering and casualties caused by cluster munitions at the time of their use, when they fail to function as intended or when they are abandoned,

Concerned that cluster munition remnants kill or maim civilians, including women and children, obstruct economic and social development, including through the loss of livelihood, impede post-conflict rehabilitation and reconstruction, delay or prevent the return of refugees and internally displaced persons, can have a negative impact on national and international peacebuilding and humanitarian assistance efforts, and have other severe consequences for many years after use,

Deeply concerned about the dangers presented by the large national stockpiles of cluster munitions retained for operational use, and determined to ensure their rapid destruction,

Believing it necessary to contribute effectively in an efficient, coordinated manner to resolving the challenge of removing cluster munition remnants located throughout the world, and to ensure their destruction,

Mindful of the need to coordinate adequately efforts undertaken in various forums, including through the Convention on the Rights of Persons with Disabilities,¹ to address the rights and needs of victims of various types of weapons, and resolved to avoid discrimination among victims of various types of weapons,

Reaffirming that in cases not covered by the Convention on Cluster Munitions² or by other international agreements, civilians and combatants remain under the protection and authority of the principles of international law, derived from established custom, from the principles of humanity and from the dictates of public conscience,

Welcoming the steps taken nationally, regionally and globally in recent years aimed at prohibiting, restricting or suspending the use, stockpiling, production and transfer of cluster munitions, and welcoming in this regard that, since 2014, all Central American States have joined the Convention, thus fulfilling their aspiration to become the first cluster munitions-free region in the world,

Stressing the role of public conscience in furthering the principles of humanity, as evidenced by the global call for an end to civilian suffering caused by cluster munitions, and recognizing the efforts to that end undertaken by the United Nations, the International Committee of the Red Cross, the Cluster Munition Coalition and numerous other non-governmental organizations around the world,

¹ United Nations, *Treaty Series*, vol. 2515, No. 44910.

² *Ibid.*, vol. 2688, No. 47713.

Noting that a total of 119 States have joined the Convention, 100 as States parties and 19 as signatories,

Taking note of the 2015 Dubrovnik Declaration³ and the Dubrovnik Action Plan⁴ adopted at the First Review Conference of States Parties to the Convention on Cluster Munitions, held in Dubrovnik, Croatia, from 7 to 11 September 2015,

Taking note also of the political declaration establishing 2030 as a target date to implement all individual and collective outstanding obligations under the Convention as adopted by consensus under the presidency of the Netherlands at the Sixth Meeting of States Parties to the Convention on Cluster Munitions, held in Geneva from 5 to 7 September 2016,

1. *Urges* all States outside the Convention on Cluster Munitions² to join as soon as possible, whether by ratifying or acceding to it, and all States parties that are in a position to do so to promote adherence to the Convention through bilateral, subregional and multilateral contacts, outreach and other means;
2. *Stresses* the importance of the full and effective implementation of and compliance with the Convention, including through the implementation of the Dubrovnik Action Plan;⁴
3. *Expresses strong concern* regarding recent allegations, reports or documented evidence of the use of cluster munitions in different parts of the world;
4. *Urges* all States parties to provide the Secretary-General with complete and timely information as required under article 7 of the Convention in order to promote transparency and compliance with the Convention;
5. *Invites* all States that have not ratified the Convention or acceded to it to provide, on a voluntary basis, information that could make the clearance and destruction of cluster munition remnants and related activities more effective;
6. *Reiterates its invitation and encouragement* to all States parties, interested States, the United Nations, other relevant international organizations or institutions, regional organizations, the International Committee of the Red Cross, the Cluster Munition Coalition and other relevant non-governmental organizations to participate in the future meetings of States parties to the Convention;
7. *Calls upon* States parties and participating States to address issues arising from outstanding dues and from recently implemented United Nations financial and accounting practices;
8. *Decides* to include in the provisional agenda of its seventy-second session, under the item entitled “General and complete disarmament”, the sub-item entitled “Implementation of the Convention on Cluster Munitions”.

Draft resolution XIV

Humanitarian consequences of nuclear weapons

The General Assembly,

Recalling its resolution [70/47](#) of 7 December 2015,

Reiterating the deep concern about the catastrophic consequences of nuclear weapons,

Stressing that the immense and uncontrollable destructive capability and indiscriminate nature of nuclear weapons cause unacceptable humanitarian consequences, as has been demonstrated through their past use and testing,

Recalling that concern about the humanitarian consequences of nuclear weapons has been reflected in numerous United Nations resolutions, including the first resolution adopted by the General Assembly, on 24 January 1946,

Recalling also that at the first special session of the General Assembly devoted to disarmament, in 1978, the Assembly stressed that nuclear weapons posed the greatest danger to mankind and to the survival of civilization,¹

Welcoming the renewed interest and resolve of the international community, together with the International Committee of the Red Cross and international humanitarian organizations, to address the catastrophic consequences of nuclear weapons,

Recalling that the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons expressed deep concern at the catastrophic humanitarian consequences of any use of nuclear weapons,²

Noting the resolution of 26 November 2011 of the Council of Delegates of the International Red Cross and Red Crescent Movement entitled “Working towards the elimination of nuclear weapons”,

Recalling the joint statements on the humanitarian consequences of nuclear weapons delivered to the General Assembly and during the 2010-2015 cycle of the review of the Treaty on the Non-Proliferation of Nuclear Weapons,³

Welcoming the facts-based discussions on the effects of a nuclear weapon detonation that were held at the conferences on the humanitarian impact of nuclear weapons, convened by Norway, on 4 and 5 March 2013, Mexico, on 13 and 14 February 2014, and Austria, on 8 and 9 December 2014,

Cognizant that a key message from experts and international organizations at those conferences was that no State or international body could address the immediate humanitarian emergency caused by a nuclear weapon detonation or provide adequate assistance to victims,

¹ See resolution S-10/2.

² See *2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document*, vol. I (NPT/CONF.2010/50 (Vol. I)), part I, *Conclusions and recommendations for follow-on actions*.

³ United Nations, *Treaty Series*, vol. 729, No. 10485.

Firmly believing that it is in the interest of all States to engage in discussions on the humanitarian consequences of nuclear weapons with the aim of further broadening and deepening the understanding of this matter, and welcoming civil society's ongoing engagement,

Reaffirming the role of civil society, in partnership with Governments, in raising awareness about the unacceptable humanitarian consequences of nuclear weapons,

Emphasizing that the catastrophic consequences of nuclear weapons affect not only Governments but each and every citizen of our interconnected world and have deep implications for human survival, for the environment, for socioeconomic development, for our economies and for the health of future generations,

1. *Stresses* that it is in the interest of the very survival of humanity that nuclear weapons never be used again, under any circumstances;
2. *Emphasizes* that the only way to guarantee that nuclear weapons will never be used again is their total elimination;
3. *Stresses* that the catastrophic effects of a nuclear weapon detonation, whether by accident, miscalculation or design, cannot be adequately addressed;
4. *Expresses its firm belief* that awareness of the catastrophic consequences of nuclear weapons must underpin all approaches and efforts towards nuclear disarmament;
5. *Calls upon* all States, in their shared responsibility, to prevent the use of nuclear weapons, to prevent their vertical and horizontal proliferation and to achieve nuclear disarmament;
6. *Urges* States to exert all efforts to totally eliminate the threat of these weapons of mass destruction;
7. *Decides* to include in the provisional agenda of its seventy-second session, under the item entitled "General and complete disarmament", the sub-item entitled "Humanitarian consequences of nuclear weapons".

Draft resolution XV

Humanitarian pledge for the prohibition and elimination of nuclear weapons

The General Assembly,

Recalling its resolution [70/48](#) of 7 December 2015,

Ever mindful of the unacceptable harm that victims of nuclear weapon explosions and nuclear testing have experienced, and recognizing that the rights and needs of victims have not yet been adequately addressed,

Understanding that the immediate, medium-term and long-term consequences of a nuclear weapon explosion would be significantly graver than was understood in the past and would not be constrained by national borders but have regional or even global effects, potentially threatening the survival of humanity,

Recognizing the complexity of and relationship between these consequences for, inter alia, health, the environment, infrastructure, food security, climate, development, social cohesion, displacement and the global economy, which would be systemic and potentially irreversible,

Aware that the risk of a nuclear weapon explosion is significantly greater than previously assumed and is indeed increasing with increased proliferation, the lowering of the technical threshold for nuclear weapon capability, the ongoing modernization of nuclear weapon arsenals in States possessing nuclear weapons and the role that is attributed to nuclear weapons in the nuclear doctrines of such States,

Cognizant that the risk of the use of nuclear weapons, with its unacceptable consequences, can be avoided only when all nuclear weapons have been eliminated,

Emphasizing that the consequences of a nuclear weapon explosion and the risks associated with nuclear weapons concern the security of all humanity and that all States share the responsibility to prevent any use of nuclear weapons,

Emphasizing also that the scope of the consequences of a nuclear weapon explosion and the associated risks raise profound moral and ethical questions that go beyond debates about the legality of nuclear weapons,

Mindful that no national or international capacity exists that would adequately respond to the human suffering and humanitarian harm that would result from a nuclear weapon explosion in a populated area, and that such capacity most likely will never exist,

Affirming that it is in the interest of the very survival of humanity that nuclear weapons are never used again, under any circumstances,

Reiterating the crucial role that international organizations, relevant entities of the United Nations, the International Red Cross and Red Crescent Movement, elected representatives, academia and civil society play in advancing the shared objective of a nuclear-weapon-free world,

Recalling the three international conferences convened, respectively, by Norway in March 2013, Mexico in February 2014 and Austria in December 2014 on

the humanitarian impact of nuclear weapons, and the compelling evidence presented at these conferences,

Welcoming the fact that 127 States have drawn inescapable conclusions from the evidence on the humanitarian impact of nuclear weapons and, consequently, supported or endorsed the Humanitarian Pledge,¹

1. *Stresses* the importance of having fact-based discussions and presenting findings and compelling evidence on the humanitarian impact of nuclear weapons in all relevant forums and within the United Nations framework, as they should be at the centre of all deliberations and the implementation of obligations and commitments with regard to nuclear disarmament;

2. *Appeals* to all States to follow the imperative of human security for all and to promote the protection of civilians against risks stemming from nuclear weapons;

3. *Urges* all States parties to the Treaty on the Non-Proliferation of Nuclear Weapons² to renew their commitment to the urgent and full implementation of their existing obligations under article VI, and calls upon all States to identify and pursue effective measures to fill the legal gap for the prohibition and elimination of nuclear weapons and to cooperate with all stakeholders to achieve this goal;

4. *Calls upon* all States to pursue an additional legal instrument or instruments with urgency and to support international efforts to prohibit and eliminate nuclear weapons;

5. *Recalls* that all such efforts are aimed at contributing to the full implementation of article VI of the Treaty and the achievement and maintenance of a world without nuclear weapons;

6. *Requests* all States possessing nuclear weapons, pending the total elimination of their nuclear weapon arsenals, to take concrete interim measures to reduce the risk of nuclear weapon detonations, including by reducing the operational status of nuclear weapons and moving nuclear weapons away from deployment and into storage, diminishing the role of nuclear weapons in military doctrines and rapidly reducing all types of nuclear weapons;

7. *Calls upon* all relevant stakeholders, States, international organizations, the International Red Cross and Red Crescent Movement, parliamentarians and civil society to cooperate in efforts to stigmatize, prohibit and eliminate nuclear weapons in the light of their unacceptable humanitarian consequences and associated risks;

8. *Decides* to include in the provisional agenda of its seventy-second session, under the item entitled “General and complete disarmament”, the sub-item entitled “Humanitarian pledge for the prohibition and elimination of nuclear weapons”.

Emphasizing the importance of the continued and full implementation of the Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons in All Its Aspects, adopted by the United Nations Conference on the Illicit Trade in Small Arms and Light Weapons in All Its Aspects,¹ and recognizing its important contribution to international efforts on this matter,

Emphasizing also the importance of the continued and full implementation of the International Instrument to Enable States to Identify and Trace, in a Timely and Reliable Manner, Illicit Small Arms and Light Weapons (the International Tracing Instrument),²

Welcoming also the adoption of the 2030 Agenda for Sustainable Development,⁴ including Goal 16 of the Sustainable Development Goals,

Noting that tools developed by the Office for Disarmament Affairs of the Secretariat, including the Programme of Action Implementation Support System,

and those developed by Member States could be used to assess progress made in the implementation of the Programme of Action,

Welcoming the coordinated efforts within the United Nations to implement the Programme of Action, including by developing the Programme of Action Implementation Support System, which forms an integrated clearing house for international cooperation and assistance for capacity-building in the area of small arms and light weapons,

Noting that voluntary national reports on the implementation of the Programme of Action can serve, inter alia, to provide a baseline for measuring progress in its implementation, build confidence and promote transparency, provide a basis for information exchange and action and serve to identify needs and opportunities for international assistance and cooperation, including the matching of needs with available resources and expertise,

Noting with satisfaction regional and subregional efforts being undertaken in support of the implementation of the Programme of Action, and commending the progress that has already been made in this regard, including the tackling of both supply and demand factors that are relevant to addressing the illicit trade in small arms and light weapons,

Reaffirming that international cooperation and assistance are an essential aspect of the full and effective implementation of the Programme of Action and the International Tracing Instrument,

Recognizing the efforts undertaken by non-governmental organizations in the provision of assistance to States for the implementation of the Programme of Action,

Recalling that Governments bear the primary responsibility for preventing, combating and eradicating the illicit trade in small arms and light weapons in all its aspects, in accordance with the sovereignty of States and their relevant international obligations,

Reiterating that illicit brokering in small arms and light weapons is a serious problem that the international community should address urgently,

Highlighting new challenges and potential opportunities with regard to effective marking, record-keeping and tracing resulting from developments in the manufacturing, technology and design of small arms and light weapons, and bearing in mind the different situations, capacities and priorities of States and regions,

Taking note of the report of the Secretary-General,⁵ which includes an overview of the implementation of resolution 70/49,

Welcoming the inclusion of small arms and light weapons in the scope of the Arms Trade Treaty,⁶

Acknowledging efforts related to the transfer of conventional arms that may also contribute to the prevention and eradication of the illicit trade in small arms and light weapons,

⁵ A/71/438.

⁶ See resolution 67/234 B.

1. *Underlines* the fact that the issue of the illicit trade in small arms and light weapons in all its aspects requires concerted efforts at the national, regional and international levels to prevent, combat and eradicate the illicit manufacture, transfer and circulation of small arms and light weapons, and that their uncontrolled spread in many regions of the world has a wide range of humanitarian and socioeconomic consequences and poses a serious threat to peace, reconciliation, safety, security, stability and sustainable development at the individual, local, national, regional and international levels;

2. *Recognizes* the urgent need to maintain and enhance national controls, in accordance with the Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons in All Its Aspects,¹ to prevent, combat and eradicate the illicit trade in small arms and light weapons, including their diversion to illicit trade, illegal armed groups, terrorists and other unauthorized recipients, taking into account, inter alia, their adverse humanitarian and socioeconomic consequences for the affected States;

Draft resolution XXI

Decreasing the operational readiness of nuclear weapons systems

The General Assembly,

Recalling its resolutions [62/36](#) of 5 December 2007, [63/41](#) of 2 December 2008, [65/71](#) of 8 December 2010, [67/46](#) of 3 December 2012 and [69/42](#) of 2 December 2014,

Recalling also that the maintenance of nuclear weapons on high alert was a feature of cold war nuclear postures, and welcoming the increased confidence and transparency since the cessation of the cold war,

Concerned that, notwithstanding the end of the cold war, several thousand nuclear weapons remain on high alert, ready to be launched within minutes,

Noting the continuing engagement in multilateral disarmament forums in support of further reductions to the operational status of nuclear weapons systems,

Recognizing that the maintenance of nuclear weapons systems at a high level of readiness increases the risk of the unintentional or accidental use of such weapons, which would have catastrophic humanitarian consequences,

Recognizing also that reductions in deployments and the lowering of operational status contribute to the maintenance of international peace and security, as well as to the process of nuclear disarmament, through the enhancement of confidence-building and transparency measures and a diminishing role for nuclear weapons in security policies,

Welcoming the steps taken by some States in support of nuclear disarmament, including de-targeting initiatives, increasing the amount of preparation time required for deployment and other measures to diminish further the possibility of nuclear launches resulting from accidents, unauthorized actions or misperceptions,

Recalling the adoption by consensus of the conclusions and recommendations for follow-on actions by the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,¹ including the commitments of the nuclear-weapon States to promptly engage with a view to, inter alia, considering the legitimate interest of non-nuclear-weapon States in further reducing the operational status of nuclear weapons systems in ways that promote international stability and security,

Acknowledging, in this regard, the continued dialogue among the nuclear-weapon States to advance their nuclear non-proliferation and disarmament commitments under the action plan of the 2010 Review Conference¹ and the potential of this process for leading to deeper engagement on nuclear disarmament and greater mutual confidence,

Taking note of the references to operational readiness in reports of the nuclear-weapon States during the last review cycle of the Treaty on the Non-Proliferation of Nuclear Weapons,

¹ See *2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document*, vols. I-III (NPT/CONF.2010/50 (Vols. I-III)), vol. I, part I.

Welcoming all opportunities to address the further reduction of the operational status of nuclear weapons systems as a step leading to nuclear disarmament,

1. *Calls for* further practical steps to be taken to decrease the operational readiness of nuclear weapons systems, with a view to ensuring that all nuclear weapons are removed from high alert status;
2. *Looks forward* to the issue of the lowering of the operational readiness of nuclear weapons systems being addressed further at the next review cycle of the Treaty on the Non-Proliferation of Nuclear Weapons;
3. *Urges* States to update the General Assembly on progress made in the implementation of the present resolution;
4. *Decides* to remain seized of the matter.

Draft resolution XXII

Towards a nuclear-weapon-free world: accelerating the implementation of nuclear disarmament commitments

The General Assembly,

Recalling its resolutions 1 (I) of 24 January 1946, 67/34 of 3 December 2012, 68/39 of 5 December 2013, 69/37 of 2 December 2014 and 70/51 of 7 December 2015,

Reiterating its grave concern at the danger to humanity posed by nuclear weapons, which should inform all deliberations, decisions and actions relating to nuclear disarmament and nuclear non-proliferation,

Recalling the expression of deep concern by the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons at the catastrophic humanitarian consequences of any use of nuclear weapons, and its resolve to seek a safer world for all and to achieve the peace and security of a world without nuclear weapons,¹

Noting with satisfaction the renewed attention to the catastrophic humanitarian consequences and risks associated with nuclear weapons that has been generated by the international community since 2010 and the growing awareness that these concerns should underpin the need for nuclear disarmament and the urgency of achieving and maintaining a nuclear-weapon-free world, and noting with satisfaction also the prominence accorded to the humanitarian impact of nuclear weapons in multilateral disarmament forums,

Recalling the discussions held at the Conferences on the Humanitarian Impact of Nuclear Weapons, hosted by Norway, on 4 and 5 March 2013, Mexico, on 13 and 14 February 2014, and Austria, on 8 and 9 December 2014, aimed at understanding and developing a greater awareness of the catastrophic consequences of nuclear weapon detonations which further reinforce the urgency of nuclear disarmament,

Emphasizing the compelling evidence, including that presented at the Conferences on the Humanitarian Impact of Nuclear Weapons, that has detailed the catastrophic consequences that would result from a nuclear weapon detonation, reaching well beyond national borders and also imperilling the achievement of the Sustainable Development Goals, the lack of capacity of States and international organizations to deal with the aftermath and the risk of an occurrence, due to an accident, systems failure or human error,

Noting the research findings presented to the Vienna Conference regarding the strongly disproportionate and gendered impact of exposure to ionizing radiation for women and girls,

Recalling the convening, on 26 September 2013, of the high-level meeting of the General Assembly on nuclear disarmament and its resolution 70/34 of 7 December 2015 on the follow-up to that meeting and the decisions contained

¹ See *2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, Final Document*, vol. I (NPT/CONF.2010/50 (Vol. I)), part I, *Conclusions and recommendations for follow-on actions*.

therein, and taking note of the report of the Secretary-General submitted pursuant to that resolution,²

Welcoming the commemoration and promotion of 26 September as the International Day for the Total Elimination of Nuclear Weapons,

Welcoming also the convening of the Open-ended Working Group established pursuant to resolution [70/33](#) of 7 December 2015 on taking forward multilateral nuclear disarmament negotiations, as well as the report on its work submitted pursuant to that resolution,³

Underlining the importance of nuclear disarmament and non-proliferation education,

Reaffirming that transparency, verifiability and irreversibility are cardinal principles applying to nuclear disarmament and nuclear non-proliferation, which are mutually reinforcing processes,

Recalling the decisions and the resolution adopted at the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁴ the basis upon which the Treaty was indefinitely extended, and the Final Documents of the 2000⁵ and the 2010⁶ Review Conferences of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, and in particular the unequivocal undertaking by the nuclear-weapon States to accomplish the total elimination of their nuclear arsenals, leading to nuclear disarmament, in accordance with commitments made under article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,⁷

Reaffirming the commitment of all States parties to the Treaty on the Non-Proliferation of Nuclear Weapons to applying the principles of irreversibility, verifiability and transparency in relation to the implementation of their treaty obligations,

Recognizing the continued vital importance of the entry into force of the Comprehensive Nuclear-Test-Ban Treaty⁸ to the advancement of nuclear disarmament and nuclear non-proliferation objectives, and welcoming the recent ratification of the Treaty by Myanmar and Swaziland,

Recalling that the total elimination of nuclear weapons is the only absolute guarantee against the use or threat of use of nuclear weapons and the legitimate interest of non-nuclear-weapon States in receiving unequivocal and legally binding negative security assurances from nuclear-weapon States pending the total elimination of nuclear weapons,

Reaffirming the conviction that, pending the total elimination of nuclear weapons, the establishment and maintenance of nuclear-weapon-free zones enhances global and regional peace and security, strengthens the nuclear non-proliferation regime and contributes towards realizing the objectives of nuclear disarmament, and welcoming the Conferences of States Parties and Signatories to Treaties that Establish Nuclear-Weapon-Free Zones and Mongolia,

Welcoming the ratification by China, France, the Russian Federation and the United Kingdom of Great Britain and Northern Ireland of the Protocol to the Treaty on a Nuclear-Weapon-Free Zone in Central Asia, and urging those States to continue to make real progress towards strengthening all existing nuclear-weapon-free zones, inter alia, through the withdrawal or revision of any reservations or interpretative declarations contrary to the object and purpose of the treaties establishing such zones,

Recalling the encouragement expressed at the 2010 Review Conference for the establishment of further nuclear-weapon-free zones, on the basis of arrangements freely arrived at among the States of the region concerned, reaffirming the expectation that this will be followed by concerted international efforts to create such zones in areas where they do not currently exist, especially in the Middle East, in this context noting with deep disappointment the non-fulfilment of the agreement at the 2010 Review Conference on practical steps to fully implement the 1995 resolution on the Middle East, and disappointed that no agreement could be reached at the 2015 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons on this issue,

Deeply disappointed at the continued absence of progress towards multilateral nuclear disarmament at the Conference on Disarmament, which has been unable for the past 20 years to agree upon and implement a programme of work, and disappointed that the Disarmament Commission has not produced a substantive outcome since 1999,

Deeply regretting the lack of any substantive outcome of the 2015 Review Conference,

Disappointed that the 2015 Review Conference missed an opportunity to strengthen the Treaty on the Non-Proliferation of Nuclear Weapons, enhance progress towards its full implementation and universality and monitor the implementation of commitments made and actions agreed upon at the 1995, 2000 and 2010 Review Conferences, and deeply concerned about the impact of this failure on the Treaty and the balance between its three pillars,

Acknowledging the ongoing efforts towards the full implementation of the Treaty between the Russian Federation and the United States of America on Measures for the Further Reduction and Limitation of Strategic Offensive Arms, while re-emphasizing the encouragement of the 2010 Review Conference to both States to continue discussions on follow-on measures in order to achieve deeper reductions in their nuclear arsenals,

Underlining the importance of multilateralism in relation to nuclear disarmament, while recognizing the value of unilateral, bilateral and regional initiatives and the importance of compliance with the terms of these initiatives,

1. *Reiterates* that each article of the Treaty on the Non-Proliferation of Nuclear Weapons⁷ is binding on the States parties at all times and in all circumstances and that all States parties should be held fully accountable with respect to strict compliance with their obligations under the Treaty, and calls upon all States parties to comply fully with all decisions, resolutions and commitments made at the 1995, 2000 and 2010 Review Conferences;

2. *Also reiterates* the deep concern expressed by the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons at the catastrophic humanitarian consequences of any use of nuclear weapons, and the need for all States at all times to comply with applicable international law, including international humanitarian law;

3. *Acknowledges* the evidence presented at the Conferences on the Humanitarian Impact of Nuclear Weapons, and calls upon Member States, in their relevant decisions and actions, to give due prominence to the humanitarian imperatives that underpin nuclear disarmament and to the urgency of achieving this goal;

4. *Recalls* the reaffirmation of the continued validity of the practical steps agreed to in the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁹ including the specific reaffirmation of the unequivocal undertaking of the nuclear-weapon States to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament, to which all States parties are committed under article VI of the Treaty, recalls the commitment of the nuclear-weapon States to accelerating concrete progress on the steps leading to nuclear disarmament, and calls upon the nuclear-weapon States to take all steps necessary to accelerate the fulfilment of their commitments;

5. *Calls upon* the nuclear-weapon States to fulfil their commitment to undertaking further efforts to reduce and ultimately eliminate all types of nuclear weapons, deployed and non-deployed, including through unilateral, bilateral, regional and multilateral measures;

6. *Urges* all States possessing nuclear weapons to decrease the operational readiness of nuclear-weapon systems in a verifiable and transparent manner with a view to ensuring that all nuclear weapons are removed from high alert status;

7. *Encourages* the nuclear-weapon States to make concrete reductions in the role and significance of nuclear weapons in all military and security concepts, doctrines and policies, pending their total elimination;

8. *Encourages* all States that are part of regional alliances that include nuclear-weapon States to diminish the role of nuclear weapons in their collective security doctrines, pending their total elimination;

10. *Encourages* further steps by all nuclear-weapon States, in accordance with the previous obligations and commitments on nuclear disarmament, to ensure the irreversible removal of all fissile material designated by each nuclear-weapon State as no longer required for military purposes, and calls upon all States to support, within the context of the International Atomic Energy Agency, the development of appropriate nuclear disarmament verification capabilities and legally binding verification arrangements, thereby ensuring that such material remains permanently outside military programmes in a verifiable manner;

11. *Calls upon* all States parties to the Treaty on the Non-Proliferation of Nuclear Weapons to work towards the full implementation of the resolution on the Middle East adopted at the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, which is inextricably linked to the indefinite extension of the Treaty, and expresses disappointment and deep concern at the lack of a substantive outcome of the 2015 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, including on the process to establish a Middle East zone free of nuclear weapons and all other weapons of mass destruction as contained in the 1995 resolution on the Middle East, which remains valid until fully implemented;

12. *Expresses its profound disappointment* at the failure to convene a conference in 2012 on the establishment in the Middle East of a zone free of nuclear weapons and all other weapons of mass destruction as mandated at the 2010 Review Conference;

13. *Stresses* the fundamental role of the Treaty on the Non-Proliferation of Nuclear Weapons in achieving nuclear disarmament and nuclear non-proliferation, and looks forward to the first session of the Preparatory Committee for the 2020 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, to be held in Vienna from 2 to 12 May 2017;

14. *Calls upon* all States parties to spare no effort to achieve the universality of the Treaty on the Non-Proliferation of Nuclear Weapons, and in this regard urges India, Israel and Pakistan to accede to the Treaty as non-nuclear-weapon States promptly and without conditions, and to place all their nuclear facilities under International Atomic Energy Agency safeguards;

15. *Urges* the Democratic People's Republic of Korea to fulfil its commitments under the Six-Party Talks, including those in the September 2005 joint statement, to abandon all nuclear weapons and existing nuclear programmes, to return, at an early date, to the Treaty on the Non-Proliferation of Nuclear Weapons and to adhere to its International Atomic Energy Agency safeguards agreement,¹⁰ with a view to achieving the denuclearization of the Korean Peninsula in a peaceful manner, and reaffirms its firm support for the Six-Party Talks;

22. *Decides* to include in the provisional agenda of its seventy-second session, under the item entitled “General and complete disarmament”, the sub-item entitled “Towards a nuclear-weapon-free world: accelerating the implementation of nuclear disarmament commitments” and to review the implementation of the present resolution at that session.

Draft resolution XXIII

Ethical imperatives for a nuclear-weapon-free world

The General Assembly,

Recalling its resolution [70/50](#) of 7 December 2015, adopted on the occasion of the seventieth anniversary of the United Nations, which was established to save succeeding generations from the untold suffering of the scourge of war,

Recalling also that the United Nations emerged at the time of the immense trail of death and destruction resulting from the Second World War, 71 years ago,

Recalling further the noble principles of the Charter of the United Nations, which enjoin the international community, individually and collectively, to spare no effort in promoting the ethical imperative of “in larger freedom”, so that all peoples may enjoy freedom from want, freedom from fear and the freedom to live in dignity,

Convinced that, given the catastrophic humanitarian consequences and risks associated with a nuclear weapon detonation, Member States have long envisaged nuclear disarmament and nuclear non-proliferation as urgent and interlinked ethical imperatives in achieving the objectives of the Charter, which is reflected in the first resolution, resolution 1 (I), adopted by the General Assembly on 24 January 1946, aimed at the elimination from national armaments of atomic weapons and of all other major weapons adaptable to mass destruction,

Acknowledging, in this connection, the ethical imperatives outlined in the provisions of its resolutions and reports and those of other related international initiatives on the catastrophic humanitarian consequences and risks posed by a nuclear weapon detonation, including the declaration that the use of nuclear weapons would cause indiscriminate suffering and as such is a violation of the Charter and the laws of humanity and international law,¹ the condemnation of nuclear war as contrary to human conscience and a violation of the fundamental right to life,² the threat to the very survival of humankind posed by the existence of nuclear weapons,³ the detrimental environmental effects of the use of nuclear weapons,⁴ and the disquiet that was expressed at the continued spending on the development and maintenance of nuclear arsenals,⁵

Acknowledging also the preamble to and article VI of the Treaty on the Non-Proliferation of Nuclear Weapons⁶ and the advisory opinion of the International Court of Justice on the legality of the threat or use of nuclear weapons,⁷ in which the Court unanimously concluded that there exists an obligation to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Acknowledging further the United Nations Millennium Declaration,⁸ in which Heads of State and Government resolved to strive for the elimination of weapons of

mass destruction, particularly nuclear weapons, and to keep all options open for achieving that aim, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

Concerned that, despite the long-standing recognition it has accorded to these ethical imperatives and while much effort has been directed to addressing nuclear non-proliferation, limited progress has been made in meeting the nuclear disarmament obligations required to achieve and maintain the nuclear-weapon-free world that the international community demands,

Disappointed at the continued absence of progress towards multilateral negotiations on nuclear disarmament in the Conference on Disarmament, despite unrelenting efforts of Member States towards this end, and the lack of concrete outcomes of multilateral nuclear disarmament negotiations within the United Nations framework,

Noting with satisfaction the increasing awareness, renewed attention and growing momentum that has been generated by Member States and the international community since 2010 regarding the catastrophic humanitarian consequences and risks associated with nuclear weapons, which underpin the ethical imperatives for nuclear disarmament and the urgency of achieving and maintaining a nuclear-weapon-free world, together with all related international initiatives,

Conscious of the absolute validity of multilateral diplomacy in relation to nuclear disarmament, and determined to promote multilateralism as essential to nuclear disarmament negotiations,

1. *Calls upon* all States to acknowledge the catastrophic humanitarian consequences and risks posed by a nuclear weapon detonation, whether by accident, miscalculation or design;

2. *Acknowledges* the ethical imperatives for nuclear disarmament and the urgency of achieving and maintaining a nuclear-weapon-free world, which is a “global public good of the highest order”, serving both national and collective security interests;

3. *Declares*:

(a) The global threat posed by nuclear weapons must urgently be eliminated;

(b) Discussions, decisions and actions on nuclear weapons must focus on the effects of these weapons on human beings and the environment and must be guided by the unspeakable suffering and unacceptable harm that they cause;

(c) Greater attention must be given to the impact of a nuclear weapon detonation on women and the importance of their participation in discussions, decisions and actions on nuclear weapons;

(d) Nuclear weapons serve to undermine collective security, heighten the risk of nuclear catastrophe, aggravate international tension and make conflict more dangerous;

(e) Arguments in favour of the retention of nuclear weapons have a negative impact on the credibility of the nuclear disarmament and non-proliferation regime;

(f) The long-term plans for the modernization of nuclear weapons arsenals run contrary to commitments and obligations to nuclear disarmament and engender perceptions of the indefinite possession of these weapons;

(g) In a world where basic human needs have not yet been met, the vast resources allocated to the modernization of nuclear weapons arsenals could instead be redirected to meeting the Sustainable Development Goals;

(h) Given the humanitarian impact of nuclear weapons, it is inconceivable that any use of nuclear weapons, irrespective of the cause, would be compatible with the requirements of international humanitarian law or international law, or the laws of morality, or the dictates of public conscience;

(i) Given their indiscriminate nature and potential to annihilate humanity, nuclear weapons are inherently immoral;

4. *Notes* that all responsible States have a solemn duty to take decisions that serve to protect their people and each other from the ravages of a nuclear weapon detonation, and that the only way for States to do so is through the total elimination of nuclear weapons;

5. *Stresses* that all States share an ethical responsibility to act with urgency and determination, with the support of all relevant stakeholders, to take the effective measures, including legally binding measures, necessary to eliminate and prohibit all nuclear weapons, given their catastrophic humanitarian consequences and associated risks;

6. *Decides* to include in the provisional agenda of its seventy-second session, under the item entitled “General and complete disarmament”, the sub-item entitled “Ethical imperatives for a nuclear-weapon-free world”.

Draft resolution XXIV

Reaffirming that the equal, full and effective participation of both women and men is one of the essential factors for the promotion and attainment of sustainable peace and security,

Recognizing the valuable contribution of women to practical disarmament measures carried out at the local, national, subregional and regional levels in the prevention and reduction of armed violence and armed conflict, and in promoting disarmament, non-proliferation and arms control,

Recognizing also that the role of women in disarmament, non-proliferation and arms control should be further developed and in particular the need to facilitate the participation and representation of women in policymaking, planning and implementation processes related to disarmament, non-proliferation and arms control,

Recalling the entry into force of the Arms Trade Treaty,² and therefore encouraging States parties to fully implement all the provisions of the Treaty, including the provisions on serious acts of gender-based violence and on violence against children,

Noting with appreciation the efforts of Member States to increase the participation of women in their national and regional coordination mechanisms on disarmament-related matters, including in efforts to prevent, combat and eradicate the illicit trade in small arms and light weapons in all its aspects,

1. *Urges* Member States, relevant subregional and regional organizations, the United Nations and the specialized agencies to promote equal opportunities for

3. *Also welcomes* the continuing efforts of the United Nations organs, agencies, funds and programmes to accord high priority to the issue of women and peace and security, and in this regard notes the role of the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women) in promoting the implementation of all resolutions related to women in the context of peace and security;

4. *Encourages* Member States to better understand the impact of armed violence, in particular the impact of the illicit trafficking in small arms and light weapons on women and girls, through, inter alia, the development of national action plans on women and peace and security and strengthening the collection of data disaggregated by sex and age;

5. *Urges* Member States to support and strengthen the effective participation of women in organizations in the field of disarmament at the local, national, subregional and regional levels;

6. *Calls upon* all States to empower women, including through capacity-building efforts, as appropriate, to participate in the design and implementation of disarmament, non-proliferation and arms control efforts;

7. *Encourages* States to seriously consider increasing funding for policies and programmes that take account of the differing impacts of illicit small arms and light weapons on women, men, girls and boys;

8. *Calls upon* all States to develop appropriate and effective national risk assessment criteria to facilitate the prevention of the use of arms to commit violence against women and children;

9. *Requests* the relevant United Nations organs, agencies, funds and programmes to assist States, upon request, in promoting the role of women in disarmament, non-proliferation and arms control, including in preventing, combating and eradicating the illicit trade in small arms and light weapons;

United Nations study on disarmament and non-proliferation education

The General Assembly,

Recalling its resolutions [55/33](#) E of 20 November 2000, [57/60](#) of 22 November 2002, [59/93](#) of 3 December 2004, [61/73](#) of 6 December 2006, [63/70](#) of 2 December 2008, [65/77](#) of 8 December 2010, [67/47](#) of 3 December 2012 and [69/65](#) of 2 December 2014,

Welcoming the report of the Secretary-General on disarmament and non-proliferation education,¹ in which the Secretary-General reported on the implementation of the recommendations contained in the United Nations study on disarmament and non-proliferation education,² and recalling that 2016 marks the fourteenth anniversary of that report,

Recognizing the usefulness of the disarmament and non-proliferation education website “Disarmament education: resources for learning”, which is updated on a regular basis by the Office for Disarmament Affairs of the Secretariat, including to provide information in all its sections, such as presentations, interviews in the “Disarmament today” series of podcasts, which include the experiences of the hibakusha, the atomic bomb survivors, films and publications on disarmament issues, and encouraging the use of new communications technologies and social media for the promotion of disarmament and non-proliferation education,

Draft resolution XXX

Promotion of multilateralism in the area of disarmament and non-proliferation

The General Assembly,

Determined to foster strict respect for the purposes and principles enshrined in the Charter of the United Nations,

Recalling its resolution [56/24](#) T of 29 November 2001 on multilateral cooperation in the area of disarmament and non-proliferation and global efforts against terrorism and other relevant resolutions, as well as its resolutions [57/63](#) of 22 November 2002, [58/44](#) of 8 December 2003, [59/69](#) of 3 December 2004, [60/59](#) of 8 December 2005, [61/62](#) of 6 December 2006, [62/27](#) of 5 December 2007, [63/50](#) of 2 December 2008, [64/34](#) of 2 December 2009, [65/54](#) of 8 December 2010, [66/32](#) of 2 December 2011, [67/38](#) of 3 December 2012, [68/38](#) of 5 December 2013, [69/54](#) of 2 December 2014 and [70/31](#) of 7 December 2015 on the promotion of multilateralism in the area of disarmament and non-proliferation,

Recalling also the purpose of the United Nations to maintain international peace and security and, to that end, to take effective collective measures for the prevention and removal of threats to the peace and for the suppression of acts of aggression or other breaches of the peace, and to bring about by peaceful means, and in conformity with the principles of justice and international law, adjustment or settlement of international disputes or situations which might lead to a breach of the peace, as enshrined in the Charter,

Recalling further the United Nations Millennium Declaration,¹ in which it is stated, inter alia, that the responsibility for managing worldwide economic and social development, as well as threats to international peace and security, must be shared among the nations of the world and should be exercised multilaterally and that, as the most universal and most representative organization in the world, the United Nations must play the central role,

Convinced that, in the globalization era and with the information revolution, arms regulation, non-proliferation and disarmament problems are more than ever the concern of all countries in the world, which are affected in one way or another by these problems and therefore should have the possibility to participate in the negotiations that arise to tackle them,

Bearing in mind the existence of a broad structure of disarmament and arms regulation agreements resulting from non-discriminatory and transparent multilateral negotiations with the participation of a large number of countries, regardless of their size and power,

Aware of the need to advance further in the field of arms regulation, non-proliferation and disarmament on the basis of universal, multilateral, non-discriminatory and transparent negotiations with the goal of reaching general and complete disarmament under strict international control,

¹ Resolution [55/2](#).

Recognizing the complementarity of bilateral, plurilateral and multilateral negotiations on disarmament,

Recognizing also that the proliferation and development of weapons of mass destruction, including nuclear weapons, are among the most immediate threats to international peace and security which need to be dealt with, with the highest priority,

Considering that the multilateral disarmament agreements provide the mechanism for States parties to consult one another and to cooperate in solving any problems which may arise in relation to the objective of, or in the application of, the provisions of the agreements and that such consultations and cooperation may also be undertaken through appropriate international procedures within the framework of the United Nations and in accordance with the Charter,

Stressing that international cooperation, the peaceful settlement of disputes, dialogue and confidence-building measures would make an essential contribution to the creation of multilateral and bilateral friendly relations among peoples and nations,

Being concerned at the continuous erosion of multilateralism in the field of arms regulation, non-proliferation and disarmament, and recognizing that a resort to unilateral actions by Member States in resolving their security concerns would jeopardize international peace and security and undermine confidence in the international security system as well as the foundations of the United Nations itself,

Noting that the Seventeenth Conference of Heads of State or Government of Non-Aligned Countries, held on Margarita Island, Bolivarian Republic of Venezuela, from 13 to 18 September 2016, welcomed the adoption of resolution 70/31 on the promotion of multilateralism in the area of disarmament and non-proliferation and underlined the fact that multilateralism and multilaterally agreed solutions, in accordance with the Charter, provide the only sustainable method of addressing disarmament and international security issues,

Reaffirming the absolute validity of multilateral diplomacy in the field of disarmament and non-proliferation, and determined to promote multilateralism as an essential way to develop arms regulation and disarmament negotiations,

1. *Reaffirms* multilateralism as the core principle in negotiations in the area of disarmament and non-proliferation with a view to maintaining and strengthening universal norms and enlarging their scope;
2. *Also reaffirms* multilateralism as the core principle in resolving disarmament and non-proliferation concerns;
3. *Urges* the participation of all interested States in multilateral negotiations on arms regulation, non-proliferation and disarmament in a non-discriminatory and transparent manner;
4. *Underlines* the importance of preserving the existing agreements on arms regulation and disarmament, which constitute an expression of the results of international cooperation and multilateral negotiations in response to the challenges facing mankind;
5. *Calls once again upon* all Member States to renew and fulfil their individual and collective commitments to multilateral cooperation as an important

means of pursuing and achieving their common objectives in the area of disarmament and non-proliferation;

6. *Requests* the States parties to the relevant instruments on weapons of mass destruction to consult and cooperate among themselves in resolving their concerns with regard to cases of non-compliance as well as on implementation, in accordance with the procedures defined in those instruments, and to refrain from resorting or threatening to resort to unilateral actions or directing unverified non-compliance accusations against one another to resolve their concerns;

7. *Takes note* of the report of the Secretary-General containing the replies of Member States on the promotion of multilateralism in the area of disarmament and non-proliferation, submitted pursuant to resolution [70/31](#);²

8. *Requests* the Secretary-General to seek the views of Member States on the issue of the promotion of multilateralism in the area of disarmament and non-proliferation and to submit a report thereon to the General Assembly at its seventy-second session;

Consolidation of peace through practical disarmament measures

The General Assembly,

Recalling its resolutions [51/45](#) N of 10 December 1996, [52/38](#) G of 9 December 1997, [53/77](#) M of 4 December 1998, [54/54](#) H of 1 December 1999, [55/33](#) G of 20 November 2000, [56/24](#) P of 29 November 2001 and [57/81](#) of 22 November 2002, its decision 58/519 of 8 December 2003, as well as its resolutions [59/82](#) of 3 December 2004, [61/76](#) of 6 December 2006, [63/62](#) of 2 December 2008, [65/67](#) of 8 December 2010, [67/50](#) of 3 December 2012 and [69/60](#) of 2 December 2014, entitled “Consolidation of peace through practical disarmament measures”,

Convinced that a comprehensive and integrated approach towards certain practical disarmament measures often is a prerequisite to maintaining and consolidating peace and security and thus provides a basis for effective post-conflict peacebuilding; such measures include collection and responsible disposal, preferably through destruction, of weapons obtained through illicit trafficking or illicit manufacture as well as of stockpiled weapons and ammunition declared by competent national authorities to be surplus to requirements, particularly with regard to small arms and light weapons, unless another form of disposition or use has been officially authorized and provided that such weapons have been duly marked and registered; confidence-building measures; disarmament, demobilization and reintegration of former combatants; demining; and conversion,

Noting with satisfaction that the international community is more than ever aware of the importance of such practical disarmament measures, especially with regard to the growing problems arising from the excessive accumulation and uncontrolled spread of small arms and light weapons, including their ammunition, which pose a threat to peace and security and reduce the prospects for economic and social development in many regions, particularly in post-conflict situations,

Stressing that further efforts are needed in order to develop and effectively implement programmes of practical disarmament in affected areas as part of disarmament, demobilization and reintegration measures so as to complement, on a case-by-case basis, peacekeeping and peacebuilding efforts,

Taking note of Security Council resolution [2171 \(2014\)](#) of 21 August 2014, in which the Council affirmed that a comprehensive conflict prevention strategy should include practical disarmament and other measures to contribute to combating the proliferation and illicit trade of arms,

3. *Emphasizes* the importance of including in United Nations-mandated peacekeeping missions, as appropriate and with the consent of the host State, practical disarmament measures aimed at addressing the illicit trafficking of small arms and light weapons, including through weapons collection, disarmament, demobilization, and reintegration programmes and enhancing physical security and stockpile management practices, as well as relevant training programmes, with a view to promoting and implementing an integrated comprehensive and effective weapons management strategy that would contribute to a sustainable peacebuilding process;

4. *Welcomes* the activities undertaken by the Group of Interested States for Practical Disarmament Measures, and invites the Group to continue to promote, on the basis of lessons learned from previous disarmament and peacebuilding projects, new practical disarmament measures to consolidate peace, especially as undertaken or designed by affected States themselves and regional and subregional organizations, as well as United Nations agencies;

5. *Encourages* the Group of Interested States to continue to function as an informal, open and transparent forum supporting the implementation of the Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons in All Its Aspects,² in particular to facilitate the exchange of views on issues related to the United Nations small arms and light weapons

Draft resolution XXXVIII
Implementation of the Convention on the Prohibition of the
Development, Production, Stockpiling and Use of Chemical
Weapons and on Their Destruction

The General Assembly,

Recalling its previous resolutions on the subject of chemical weapons, in particular resolution [70/41](#) of 7 December 2015,

Determined to achieve the effective prohibition of the development, production, acquisition, transfer, stockpiling and use of chemical weapons and their destruction,

Re-emphasizing its unequivocal support for the decision of the Director General of the Organization for the Prohibition of Chemical Weapons to continue the mission to establish the facts surrounding the allegations of the use of toxic chemicals, reportedly chlorine, for hostile purposes in the Syrian Arab Republic, while stressing that the safety and security of mission personnel remains the top priority,

Recalling that, pursuant to Security Council resolution [2235 \(2015\)](#) of 7 August 2015, the Joint Investigative Mechanism of the Organization for the Prohibition of Chemical Weapons and the United Nations was established to identify to the greatest extent feasible individuals, entities, groups or Governments that were perpetrators, organizers, sponsors or otherwise involved in the use of chemicals as weapons, including chlorine or any other toxic chemical, in the Syrian Arab Republic, where the fact-finding mission of the Organization for the Prohibition of Chemical Weapons determined that a specific incident in the Syrian Arab Republic involved or likely involved the use of chemicals as weapons,

Reaffirming the importance of the outcome of the Third Special Session of the Conference of the States Parties to Review the Operation of the Chemical Weapons Convention, held in The Hague from 8 to 19 April 2013 (the Third Review Conference), including its consensus final report, in which the Conference addressed all aspects of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction¹ and made important recommendations on its continued implementation,

Emphasizing that the Third Review Conference welcomed the fact that the Convention is a unique multilateral agreement banning an entire category of weapons of mass destruction in a non-discriminatory and verifiable manner under strict and effective international control and noted with satisfaction that the Convention continues to be a remarkable success and an example of effective multilateralism,

Convinced that the Convention, 19 years after its entry into force, has reinforced its role as the international norm against chemical weapons, and that it constitutes a major contribution to:

¹ United Nations, *Treaty Series*, vol. 1974, No. 33757.

- (a) International peace and security,
- (b) Eliminating chemical weapons and preventing their re-emergence,

2. *Also condemns in the strongest possible terms* the use of chemical weapons as reported in the reports of the Joint Investigative Mechanism of the Organization for the Prohibition of Chemical Weapons and the United Nations of 24 August 2016² and 21 October 2016,³ which concluded that there was sufficient information to determine that the Syrian Arab Armed Forces were responsible for the attacks which released toxic substances in Talmenes, Syrian Arab Republic, on 21 April 2014, in Sarmin, Syrian Arab Republic, on 16 March 2015, and in Qmenas, Syrian Arab Republic, also on 16 March 2015, and that the so-called “Islamic State in Iraq and the Levant” used sulphur mustard in Marea, Syrian Arab Republic, on 21 August 2015, and demands that its perpetrators immediately desist from any further use of chemical weapons;

3. *Emphasizes* that the universality of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction¹ is essential to achieving its object and purpose and to enhancing the security of States parties, as well as to international peace and security, underlines the fact that the objectives of the Convention will not be fully realized as long as there remains even a single State not party to the Convention that could possess or acquire such weapons, and calls upon all States that have not yet done so to become parties to the Convention without delay;

4. *Underlines* the fact that the full, effective and non-discriminatory implementation of all articles of the Convention makes a major contribution to international peace and security through the elimination of existing stockpiles of chemical weapons and the prohibition of their acquisition and use, and provides for assistance and protection in the event of use or threat of use of chemical weapons and for international cooperation for peaceful purposes in the field of chemical activities;

² See [S/2016/738/Rev.1](#).

³ See [S/2016/888](#).

10. *Notes with concern* that, along with the threat of the possible production, acquisition and use of chemical weapons by States, the international community also faces the danger of the production, acquisition and use of chemical weapons by non-State actors, including terrorists, concerns which have highlighted the necessity of achieving universal adherence to the Convention, as well as the high level of readiness of the Organization for the Prohibition of Chemical Weapons, and stresses that the full and effective implementation of all provisions of the Convention, including those on national implementation (article VII) and assistance and protection (article X), constitutes an important contribution to the efforts of the United Nations in the global fight against terrorism in all its forms and manifestations;

11. *Notes* that the effective application of the verification system builds confidence in compliance with the Convention by States parties;

12. *Stresses* the importance of the Organization for the Prohibition of Chemical Weapons in verifying compliance with the provisions of the Convention as well as in promoting the timely and efficient accomplishment of all its objectives;

13. *Underscores* the concern expressed by the Executive Council in its decision EC-81/DEC.4 of 23 March 2016 regarding the report of the Director General (EC-81/HP/DG.1) indicating the gaps, inconsistencies and discrepancies that remain with respect to chemical weapons facilities, activities, munitions and chemical materials and concluding that the Technical Secretariat is unable at present to verify fully that the declaration and related submissions of the Syrian Arab Republic are accurate and complete, as required by the Convention and Executive Council decision EC-M-33/DEC.1 of 27 September 2013, and also underscores the importance of such full verification;

14. *Urges* all States parties to the Convention to meet in full and on time their obligations under the Convention and to support the Organization for the Prohibition of Chemical Weapons in its implementation activities;

17. *Reaffirms* that the provisions of the Convention shall be implemented in a manner that avoids hampering the economic or technological development of States parties and international cooperation in the field of chemical activities for purposes not prohibited under the Convention, including the international exchange of scientific and technical information, and chemicals and equipment for the production, processing or use of chemicals for purposes not prohibited under the Convention;

Recognizing the importance of implementing, as appropriate, the recommendations of the International Atomic Energy Agency, the United Nations Environment Programme and the World Health Organization to mitigate potential hazards to human beings and the environment from the contamination of territories with depleted uranium residues,

Considering that studies conducted so far by relevant international organizations have not provided a detailed enough account of the magnitude of the potential long-term effects on human beings and the environment of the use of armaments and ammunitions containing depleted uranium,

Recalling that the United Nations Environment Programme, in its report to the Secretary-General on the subject,² affirms that major scientific uncertainties persist regarding the long-term environmental impacts of depleted uranium, particularly with respect to long-term groundwater contamination, and calls for a precautionary approach to the use of depleted uranium,

Convinced that, as humankind becomes more aware of the need to take immediate measures to protect the environment, any event that could jeopardize such efforts requires urgent attention to implement the required measures,

Noting that further research should be done to assess the health risks and environmental impact of the use of arms and ammunitions containing depleted uranium in conflict situations,

Noting also the technical and financial barriers faced by affected States seeking to implement post-conflict remedial measures that meet international standards for radioactive waste management for locations, infrastructure and materiel contaminated by arms and ammunitions containing depleted uranium,

² [A/65/129/Add.1](#), sect. III.

Taking into consideration the potential harmful effects of the use of armaments and ammunitions containing depleted uranium on human health and the environment, and the ongoing concerns of affected States and communities, health experts and civil society about such effects,

1. *Expresses its appreciation* to the Member States and international organizations that submitted their views to the Secretary-General pursuant to resolution 69/57 and previous resolutions on the subject;

2. *Invites* Member States and relevant international organizations, particularly those that have not yet done so, to communicate to the Secretary-General their views on the effects of the use of armaments and ammunitions containing depleted uranium;

3. *Requests* the Secretary-General to request relevant international organizations to update and complete, as appropriate, their studies and research on the effects of the use of armaments and ammunitions containing depleted uranium on human health and the environment;

4. *Encourages* Member States, particularly the affected States, as necessary, to facilitate the studies and research referred to in paragraph 3 above;

5. *Also encourages* Member States to follow closely the development of the studies and research referred to in paragraph 3 above;

6. *Invites* Member States that have used armaments and ammunitions containing depleted uranium in armed conflicts to provide the relevant authorities of affected States, upon request, with information, as detailed as possible, about the location of the areas of use and the amounts used, with the objective of facilitating the assessment and clearance of such areas;

7. *Encourages* Member States in a position to do so to provide assistance to States affected by the use of arms and ammunitions containing depleted uranium, in particular in identifying and managing contaminated sites and material;

8. *Requests* the Secretary-General to submit an updated report on the subject to the General Assembly at its seventy-third session, reflecting the information submitted by Member States and relevant international organizations, including the information submitted pursuant to paragraphs 2 and 3 above;

9. *Decides* to include in the provisional agenda of its seventy-third session, under the item entitled “General and complete disarmament”, the sub-item entitled “Effects of the use of armaments and ammunitions containing depleted uranium”.

Treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices

The General Assembly,

Recalling its resolutions [48/75](#) L of 16 December 1993, [53/77](#) I of 4 December 1998, [55/33](#) Y of 20 November 2000, [56/24](#) J of 29 November 2001, [57/80](#) of 22 November 2002, [58/57](#) of 8 December 2003, [59/81](#) of 3 December 2004, [64/29](#) of 2 December 2009, [65/65](#) of 8 December 2010, [66/44](#) of 2 December 2011 and [67/53](#) of 3 December 2012, its decisions 68/518 of 5 December 2013 and 69/516 of 2 December 2014, as well as its resolution [70/39](#) of 7 December 2015 on the subject of banning the production of fissile material for nuclear weapons or other nuclear explosive devices,

Recalling also document [CD/1299](#) of 24 March 1995, which indicated that all members of the Conference on Disarmament had agreed that the mandate to negotiate a treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices would not preclude any delegation from raising for consideration, in negotiations, any issue noted therein,

Reaffirming the importance of ensuring continued international commitment and high-level attention to making practical progress on achieving a world without nuclear weapons and on non-proliferation in all its aspects,

Mindful of the continuing importance and relevance of the Conference on Disarmament and recalling the past achievements of that body in successfully negotiating non-proliferation and disarmament agreements,

Expressing frustration at the years of stalemate in the Conference on Disarmament, and looking forward to the Conference again fulfilling its mandate as the world's single multilateral disarmament negotiating forum,

Recalling action 15 of the conclusions and recommendations for follow-on actions agreed by consensus at the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons¹ that, inter alia, the Conference on Disarmament should, within the context of an agreed, comprehensive and balanced programme of work, immediately begin negotiation of a treaty banning the production of fissile material for use in nuclear weapons or other nuclear explosive devices in accordance with the report of the Special Coordinator of 1995 ([CD/1299](#)) and the mandate contained therein,

Convinced that a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices would represent a significant practical contribution to nuclear disarmament and non-proliferation efforts,

Recognizing the essential role of fissile material in the manufacture of nuclear weapons or other nuclear explosive devices and the long-standing efforts of the

international community to negotiate a treaty that would ban its production for such purposes,

Recognizing also that a future treaty should not prohibit the production of fissile material for non-proscribed military purposes or civilian use, consistent with the obligations of State parties, nor interfere in any other way with a State's right to peaceful uses of nuclear energy,

Noting with appreciation the submissions by Member States to the Secretary-General containing views on a treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices, including possible aspects thereof, and the subsequent reports submitted by the Secretary-General to the General Assembly at its sixty-eighth² and seventy-first sessions,³

Underlining that the report of the Group of Governmental Experts, mandated in resolution 67/53, as contained in document A/70/81, and the deliberations which underpin it, serve as a valuable reference for States and should be a useful resource for negotiators of a treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices,

Taking note of the conclusion of the Group of Governmental Experts that the various perspectives of States on a treaty should not be an obstacle to the commencement of negotiations,

1. *Urges* the Conference on Disarmament to agree on and implement at its earliest opportunity a balanced and comprehensive programme of work that includes the immediate commencement of negotiations on a treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices on the basis of document CD/1299 and the mandate contained therein;

2. *Requests* the Secretary-General to establish a high-level fissile material cut-off treaty (FMCT) expert preparatory group with a membership of 25 States, chosen on the basis of equitable geographical representation, which will operate by consensus,⁴ without prejudice to national positions in future negotiations, and which will meet in Geneva for a session of two weeks each in 2017 and in 2018, to consider and make recommendations on substantial elements of a future non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices, on the basis of CD/1299 and the mandate contained therein; the high-level FMCT expert preparatory group will also examine, with a view to making possible recommendations, the report of the Group of Governmental Experts, mandated pursuant to resolution 67/53, as contained in document A/70/81, as well as the views submitted by Member States as contained in documents A/68/154 and Add.1 and A/71/140/Rev.1 and Add.1;

² A/68/154 and Add.1.

³ A/71/140/Rev.1 and Add.1.

⁴ The high-level FMCT expert preparatory group will be governed by the rules and established practices applicable to groups of governmental experts.

3. *Requests* the Chair of the high-level FMCT expert preparatory group to organize, in New York, two two-day informal consultative meetings, open-ended so that all Member States can engage in interactive discussions and share their views, which the Chair shall convey to the high-level FMCT expert preparatory group for consideration; the first meeting will convene in 2017 to consider the report of the Group of Governmental Experts, as contained in document [A/70/81](#), the second in 2018 in order for the Chair to provide a report in his own capacity on the work of the high-level FMCT expert preparatory group;

4. *Calls upon* the Secretary-General to transmit the report of the high-level FMCT expert preparatory group to the General Assembly at its seventy-third session and to the Conference on Disarmament prior to its 2019 session;

5. *Invites* the Conference on Disarmament to examine the report of the high-level FMCT expert preparatory group and consider further action, as appropriate;

6. *Decides* that, should the Conference on Disarmament agree upon and implement a balanced and comprehensive programme of work that includes the negotiation of a treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices, all activities mandated by the present resolution shall conclude and the work of the high-level FMCT expert preparatory group shall be submitted to the Secretary-General for onward transmittal to the Conference on Disarmament;

7. *Requests* the Secretary-General to render the high-level FMCT expert preparatory group and its Chair all the necessary assistance, including the provision of relevant documents;

8. *Decides* to include in the provisional agenda of its seventy-second session, under the item entitled “General and complete disarmament”, the sub-item entitled “Treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices”.

Draft resolution XLII

Countering the threat posed by improvised explosive devices

The General Assembly,

Recalling its resolution [70/46](#) of 7 December 2015,

Expressing grave concern over the devastation caused by the increasing use of improvised explosive devices by illegal armed groups, terrorists and other unauthorized recipients,¹ which has affected a large number of countries and has resulted in thousands of casualties, both civilian and military,

Expressing concern at the serious harm that such improvised explosive device attacks have caused to United Nations staff and peacekeepers, and to humanitarian workers, by threatening their lives, increasing the cost of their activities, limiting their freedom of movement and affecting their ability to deliver on their mandates,

Expressing concern also about the negative impact of these attacks on socioeconomic development, infrastructure and freedom of movement, and the security and stability of States, and thus underlining the need to address this issue in order to achieve relevant goals and targets under the 2030 Agenda for Sustainable Development,² in particular target 16.1 on significantly reducing all forms of violence and related death rates everywhere,

Recognizing that the wide spectrum of materials that can be used for the manufacture of improvised explosive devices, including those sourced from the military and civilian industry, contributes to their diverse nature and their deployment methods, which thus requires an appropriate approach to the formulation of measures to counter them,

Noting that the impact of improvised explosive devices spans a wide array of policy areas and that, owing to the extent of the cross-cutting nature of the issue, a whole-of-government approach focusing on the capacity of Governments to effectively bring together several policy strands for comprehensive action is essential,

Underlining the important role that States can play in raising awareness among private sector entities about the possible theft, diversion and misuse of their products to make improvised explosive devices, with a view to enabling business entities to develop effective strategies to counter the threat of improvised explosive devices,³ including to prevent the adverse impact of the diversion of materials and the potential loss of revenue and risk to reputation,

Noting the contribution of good governance, the promotion of human rights, the rule of law and sustained and inclusive socioeconomic growth, including through effective measures and mechanisms for persons belonging to vulnerable groups, as important elements in comprehensively addressing the issue of improvised explosive devices, in particular in post-conflict situations,

¹ See resolution [69/51](#), [A/CONF.192/BMS/2014/2](#) and [A/71/187](#).

² Resolution [70/1](#).

³ See the Guiding Principles on Business and Human Rights: Implementing the United Nations “Protect, Respect and Remedy” Framework ([A/HRC/17/31](#), annex).

Stressing the paramount need to prevent illegal armed groups, terrorists and other unauthorized recipients from, and identify the networks that support them in, obtaining, handling, financing, storing, using or seeking access to all types of explosives, whether military or civilian, as well as other military or civilian materials and components that can be used to manufacture improvised explosive devices, including detonators, detonating cords and chemical components, while at the same time avoiding any undue restrictions on the legitimate use of those materials,

Stressing also the importance of securing conventional ammunition stockpiles in order to mitigate the risk of their diversion to illicit use as materials for improvised explosive devices,

Stressing further the importance of engagement by all Member States in a comprehensive and coordinated community of action to counter the global threat posed by improvised explosive devices in the hands of illegal armed groups, terrorists and other unauthorized recipients, taking into account national capacities,

Noting that, at the global level, organizations across many sectors have expertise that can contribute to a useful set of measures for the mitigation of improvised explosive devices, and noting also the value of considered and coordinated efforts by various stakeholders, including intergovernmental organizations, with a view to investing effectively in coordination and information exchange,

Noting also the discussions on the issue of improvised explosive devices by the informal group of experts under the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby Traps and Other Devices as amended on 3 May 1996 (Amended Protocol II)⁴ and on the technical annex to the Protocol on Explosive Remnants of War (Protocol V)⁵ to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects,⁶

Noting further the multilateral efforts to counter improvised explosive devices of the Programme Global Shield, led by the World Customs Organization and assisted by the International Criminal Police Organization (INTERPOL) and the United Nations Office on Drugs and Crime, to prevent the smuggling and illicit diversion of precursor chemicals that could be used to build improvised explosive devices, the network of regional and multilateral communities of action established by States to counter improvised explosive devices, the research on those devices undertaken by the United Nations Institute for Disarmament Research and the work undertaken by the Mine Action Service of the United Nations to mitigate the threat posed by those devices to civilians, United Nations staff, peacekeepers and humanitarian personnel, in particular in the field,

Taking note of the International Convention for the Suppression of Terrorist Bombings⁷ and the United Nations Global Counter-Terrorism Strategy,⁸

⁷ *Ibid.*, vol. 2149, No. 37517.

⁸ Resolution [60/288](#).

Reaffirming the inherent right of Member States to individual or collective self-defence in accordance with Article 51 of the Charter of the United Nations,

1. *Welcomes* the report of the Secretary-General submitted pursuant to resolution 70/46,⁹ and takes note of the recommendations contained therein;

2. *Recognizes* that existing approaches in multilateral arms regulation, while valuable, do not fully address the issue of improvised explosive devices, and therefore strongly urges States to develop and implement, where appropriate, all national measures, including outreach and partnerships with relevant actors, including the private sector, necessary to promote awareness and vigilance among their nationals, persons subject to their jurisdiction and firms incorporated in their territory or subject to their jurisdiction that are involved in the production, sale, supply, purchase, transfer and/or storage of precursor components and materials that could be used to make improvised explosive devices;

3. *Strongly encourages* States, where appropriate, to develop and adopt their own national policy to counter improvised explosive devices that includes civilian-military cooperation, to strengthen their countermeasure capability, to prevent their territory from being used for terrorist purposes and to combat illegal armed groups, terrorists and other unauthorized recipients in their use of improvised explosive devices, while bearing in mind their obligations under applicable international law, and notes that the policy could include measures to support international and regional efforts to prevent, protect against, respond to, recover from and mitigate attacks using improvised explosive devices and their widespread consequences;

4. *Stresses* the need for States to take appropriate measures to strengthen the management of their national ammunition stockpiles to prevent the diversion of materials for making improvised explosive devices to illicit markets, illegal armed groups, terrorists and other unauthorized recipients, and encourages the application of the International Ammunition Technical Guidelines for the safer and more secure management of ammunition stockpiles, while also recognizing the importance of capacity-building in this regard;¹⁰

5. *Underlines* that, for the issue of improvised explosive devices to be effectively addressed, it is essential to comprehend the importance of action needed at the local and community levels; through activities ranging from awareness-raising with local retailers and intelligence-gathering to establishing deradicalization programmes, Governments will need to engage continuously with local authorities and groups;

6. *Encourages* States to enhance, as appropriate, international and regional cooperation, including the sharing of information on good practices as appropriate and where relevant, in cooperation with the International Criminal Police Organization (INTERPOL) and the World Customs Organization, in order to address the theft, diversion, loss and illicit use of materials for making improvised explosive devices, while ensuring the security of sensitive information that is shared;

⁹ A/71/187.

¹⁰ The General Assembly, in its resolution 66/42, welcomed the completion of the International Ammunition Technical Guidelines and the establishment of the “SaferGuard” knowledge resource management programme for the stockpile management of conventional ammunition.

7. *Also encourages* States to take measures to stem the transfer of knowledge of improvised explosive devices and their construction and use by illegal armed groups, terrorists and other unauthorized recipients, as well as the illicit acquisition of components over the Internet;

8. *Further encourages* States to participate, in accordance with their obligations and commitments, in the ongoing work on improvised explosive devices by the informal group of experts under the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby Traps and Other Devices as amended on 3 May 1996 (Amended Protocol II)⁴ to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects;⁶

9. *Encourages* States to participate, as appropriate, in a comprehensive and coordinated community of action to counter improvised explosive devices in accordance with their respective international obligations and commitments, and to consider supporting the Programme Global Shield of the World Customs Organization, the proposal for a counter-improvised explosive device global alliance emanating from the inaugural International Counter-Improvised Explosive Device Leaders' Forum, held in Canberra from 2 to 4 September 2015, and other multilateral and regional efforts;

10. *Encourages* States and international, regional and other organizations with relevant expertise and that are in a position to do so to render to interested States, upon their request, technical, financial and material assistance aimed at strengthening the capacity of such States to counter the threat of improvised explosive devices, including through assistance for developing good practices for the protection of civilians from attacks using improvised explosive devices, and to provide appropriate assistance to the victims of such attacks;

11. *Encourages* States to respond to the needs of today's peacekeepers to operate in new threat environments involving improvised explosive devices, including by providing, in consultation with the Department of Peacekeeping Operations of the Secretariat, the appropriate training, capabilities, information and knowledge management and technology that is required to counter improvised explosive devices, and to ensure that adequate financial resources are allocated to meet such needs;

12. *Recognizes* that improvised explosive devices are used in terrorist activities, takes note of the work of the Counter-Terrorism Implementation Task Force, and urges its further attention to the issue of improvised explosive devices in line with the mandates of its associated entities;

13. *Urges* Member States to comply fully with all relevant United Nations resolutions, including those related to preventing terrorist groups from using and accessing materials that can be used in the making of improvised explosive devices;¹¹

14. *Encourages* States and relevant international and regional organizations and non-governmental organizations to continue to build upon existing awareness

¹¹ Including Security Council resolutions [1373 \(2001\)](#), [2160 \(2014\)](#), [2161 \(2014\)](#), [2199 \(2015\)](#), [2253 \(2015\)](#) and [2255 \(2015\)](#).

and risk education campaigns regarding the urgent threat of improvised explosive devices;

15. *Encourages* States and relevant international and regional organizations to engage, as appropriate, business entities in discussions and initiatives on countering improvised explosive devices, including on issues such as accountability for dual-use components, improving the regulation of explosive precursors, where possible and as appropriate, strengthening security for the transport of explosives and at explosive facilities, as well as enhancing the vetting procedures for personnel with access to explosives, while avoiding undue restrictions on the legitimate use of and access to such materials;

16. *Strongly encourages* States to share information on a voluntary basis on the diversion of commercial-grade explosives and commercially available detonators to the illicit trade, and transfers to illegal armed groups, terrorists and other unauthorized recipients, through relevant channels including, but not limited to, the INTERPOL Chemical Anti-Smuggling Enforcement and Chemical Risk Identification and Mitigation programmes and the Programme Global Shield of the World Customs Organization;

17. *Takes into account* the existing initiatives at the international, regional and national levels to counter improvised explosive devices, and encourages the engagement by States in an open and inclusive dialogue on steps forward to harmonize diverse ongoing efforts;

18. *Urges* States in a position to do so to contribute funding to the diverse areas of work needed to effectively address the issue of improvised explosive devices, including research, clearance, ammunition stockpile management, preventing violent extremism as and when conducive to terrorism, awareness-raising, capacity-building, information management and victim assistance, through existing trust funds and arrangements, including those of the Counter-Terrorism Implementation Task Force, the United Nations Institute for Disarmament Research and the Office for Disarmament Affairs of the Secretariat, and the Voluntary Trust Fund for Assistance in Mine Action, or through regional or national programmes;

19. *Requests* the Office for Disarmament Affairs to establish, where feasible and in coordination with other relevant entities, an online hub providing impartial, authoritative information relevant to addressing the issue of improvised explosive devices in a comprehensive manner, thus facilitating access to existing initiatives, policies and tools presenting good practices, inside and outside the United Nations system, filling gaps where needed but avoiding duplication;

20. *Encourages* States in a position to do so to support the United Nations Institute for Disarmament Research, in consultation with relevant bodies of the United Nations system, in developing a voluntary self-assessment tool to assist States in identifying gaps and challenges in their national regulation and preparedness regarding improvised explosive devices;

22. *Requests* the Secretary-General to report to the General Assembly at its seventy-third session on the implementation of the present resolution, acknowledging and taking into account existing efforts and seeking the views of Member States;

23. *Encourages* States to hold open, informal consultations, where appropriate, in preparation for the seventy-second session of the General Assembly, focusing on matters of coordination between the various existing initiatives and approaches relating to improvised explosive devices within the United Nations system and beyond, with information provided by States, international and regional organizations, as well as experts from non-governmental organizations, on efforts to prevent, counter and mitigate the threat posed by improvised explosive devices, which could thus assist the Assembly in maintaining a comprehensive overview of relevant global activities;

24. *Decides* to include in the provisional agenda of its seventy-second session, under the item entitled “General and complete disarmament”, the sub-item entitled “Countering the threat posed by improvised explosive devices”.

113. The First Committee also recommends to the General Assembly the adoption of the following draft decisions:
