The total resource requirements for UNMIK for the financial period from 1 July 2017 to 30 June 2018 have been linked to the Mission's objective through a number of results-based frameworks, organized according to components, namely, substantive and support. The human resources of the Mission in terms of the number of personnel have been attributed to the individual components, with the exception of the Mission's executive direction and management, which can be attributed to the Mission as a whole.

I. Mandate and planned results

A. Overall

1. The mandate of the United Nations Interim Administration Mission in Kosovo (UNMIK) was established by the Security Council in its resolution 1244 (1999).

2. The Mission is mandated to help the Security Council achieve an overall objective, namely, to ensure conditions for a peaceful and normal life for all inhabitants in Kosovo and advance regional stability in the western Balkans.

3. Within this overall objective, during the budget period, UNMIK will contribute to a number of expected accomplishments by delivering related key outputs, shown in the frameworks below. The frameworks are organized according to components (substantive and support), which are derived from the mandate of the Mission.

4. The expected accomplishments would lead to the fulfilment of the Security Council's objective within the lifetime of the Mission, and the indicators of achievement show a measurement of progress towards such accomplishments during the budget period. The human resources of UNMIK in terms of the number of personnel have been attributed to the individual components, with the exception of the Mission's executive direction and management, which can be attributed to the Mission as a whole. Variances in the number of personnel, compared to the approved budget for the 2016/17 period, have been explained under the respective components.

5. UNMIK is headed by the Special Representative of the Secretary-General, who ensures a coordinated approach by the international civilian presence. The Special Representative also ensures coordination with the international security presence (the Kosovo Force — KFOR) and the European Union Rule of Law Mission in Kosovo (EULEX) which is deployed under the overall authority of Security Council resolution 1244 (1999).

B. Planning assumptions and mission support initiatives

6. Pursuant to Security Council resolution 1244 (1999), the strategic objective of the Mission remains to strengthen and consolidate peace, security, the rule of law and stability in Kosovo and the region. The Mission's main priorities during the budget period will include: (a) improvement of relations through diplomatic engagement with local, regional and international interlocutors, including international organizations present in Kosovo and major bilateral organizations; (b) provision of support to local institutions in the areas of rule of law and human rights; (c) facilitation of support to the reconciliation and integration of minority communities, including through its good offices, to improve relations among all communities within Kosovo, at all levels; and (d) strengthening its capacities for information collection and predictive analysis. In addition, UNMIK will continue to monitor, report and facilitate activities with a view to encouraging long-term normalization of relations between Belgrade and Pristina, as well as strengthening their respective commitment to the implementation of the political and technical

agreements reached in the framework of the European Union-facilitated dialogue, in particular the "First Agreement of Principles Governing the Normalization of Relations" of 19 April 2013, including the broader objective of European Union integration.

7. The Mission will continue to ensure that resources are directed towards achieving objectives in line with the Mission's mandate and strategy. During the next budget period, UNMIK shall undertake innovative measures to implement its mandate, taking into consideration extensive internal review processes by mission senior management, the conclusions of an internal review, the recommendations of the High-Level Independent Panel on Peace Operations, and cross-cutting strategies.

8. The Mission will adopt a wider regional approach and perspective. Regional, inter-agency and inter-organizational perspectives will be integrated into all substantive offices and areas. This will include increased frequency and improved quality of collaboration, as well as the enhancement of UNMIK integration of its field and regional offices into all activities of the Mission.

9. The Mission will also continue its facilitation role, where necessary and agreed, to enable participation by Kosovo in international meetings, in particular those of the bodies monitoring the implementation of the treaties to which UNMIK remains the signatory on behalf of Kosovo.

10. UNMIK will continue to strengthen its role in the promotion and protection of human rights in Kosovo. The Mission will achieve this objective through active engagement with Kosovo institutions, particularly the Office of Good Governance in the Office of the Prime Minister and the Ombudsperson Institution to: (a) ensure that relevant legislation and policies are in compliance with human rights norms relating to non-discrimination, gender equality and reconciliation of communities in Kosovo; (b) promote and facilitate the engagement of local Kosovo actors with international and regional human rights mechanisms; and (c) remain closely engaged with the human rights treaty bodies and support the work of the special procedures of the Human Rights Council through the facilitation of interaction between human rights actors in Kosovo and the special rapporteurs of the Council. In addition, the Mission will focus on promoting the compliance of Kosovo legislation, policies, programmes and institutions, those being the judiciary and the Ombudsperson Institution, with international and regional human rights standards. Efforts will be made to increase participation, including by women and minority communities, in public life, and promoting equal access to government-provided services. The Mission will continue to support civil society, in particular youth and women, in the exercise of their rights and access to legal remedies, and to support Kosovo institutions in responding to and preventing violent extremism.

11. UNMIK will continue to prioritize reconciliation efforts, through continued close monitoring and reporting, and the implementation of confidence-building measures to promote, inter alia: (a) inter-municipal and inter-ethnic cooperation; (b) the provision of basic services at the community level to promote cooperation and reconciliation between communities; and (c) the resolution of economic, social and cultural issues at the local level. In order to enhance their impact, these confidence-building measures will be implemented in close coordination and after thorough consultation with local stakeholders and the United Nations Kosovo Team. The Mission will also focus on supporting the reconciliation and integration of

minority communities in Kosovo and, to this end, will continue to monitor and facilitate the resolution of issues relating to minorities and intercommunity relations.

12. UNMIK will continue to support progress on the determination of the fate of missing persons and the protection and preservation of cultural and religious heritage sites. UNMIK will continue to: (a) promote the safety of returnees, including through quarterly visits to identified return sites; (b) participate in the ad hoc meetings of the Working Group on persons who are unaccounted for in connection with events in Kosovo; (c) monitor the situation in the special protective zones; and (d) promote the protection and preservation of cultural and religious heritage sites, including through continued liaison with the United Nations Educational, Scientific and Cultural Organization (UNESCO) and facilitation of constructive dialogue between the Serbian Orthodox Church and Kosovo authorities.

13. UNMIK will also continue to maintain monitoring, reporting and institutional support capacities in the area of the rule of law, including limited capacity-building assistance to Kosovo authorities, in close collaboration with the United Nations Kosovo Team and other partners. In this context, UNMIK will provide support for the implementation of a joint United Nations police, justice and corrections support programme. UNMIK will also continue to perform functions such as the certification of civil status documents and functions related to the International Criminal Police Organization (INTERPOL).

14. UNMIK has noted the recommendations in the report of the High-Level Panel on Peace Operations, in which it is stated that "whether for police development, corrections or support to local authorities, … modest amounts of programmatic support could help develop capacity and yield better results in mandate implementation" and that "programmatic funding for mandated tasks should be implemented by the entity capable of most effectively delivering results, whether that is the mission itself, the United Nations country team or other implementing partners" (see A/70/95-S/2015/446, para. 152).

15. UNMIK will also continue to coordinate with the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women) and advocate the equal engagement of women on issues affecting them, promote equal inclusion of women and men in facilitation efforts, promote equal participation in all forums and ensure the integration of a gender perspective into its work in accordance with Security Council resolutions 1325 (2000) and 2122 (2013). In addition, UNMIK will also ensure the integration of the perspectives of youth into the Mission's work, in accordance with Security Council resolution 2250 (2015), and take into consideration the key role that youth can play in furtherance of the Mission's mandate in facilitating the reconciliation process in Kosovo.

16. The Mission proposes to establish one additional United Nations police position in the Office of the Police Adviser to enhance its capacities to meet demands for the issuance, processing and referral of an estimated 3,000 INTERPOL cases. Until now, support for those activities had been provided by a co-located unit comprising EULEX and UNMIK. EULEX reduced this unit from 8 staff to 3 in November 2016.

17. The Mission will continue to pursue actions that will help mitigate the environmental impact of its operations, including through the implementation of the Department of Peacekeeping Operations and the Department of Field Support's environmental policy. By 30 June 2018, UNMIK plans to install solar energy systems in the Mitrovica Regional Office and continue its efforts in recycling, composting of biodegradable waste and tree-planting to further reduce its environmental impact. The Mission also aims to optimize its workflows and resource allocation to achieve greater synergies between mission components, to enhance its integrated reporting function by strengthening its capacities concerning information collection and predictive analysis, and to deepen its analytical reporting on specific subjects through its analytical reporting unit.

C. Partnerships and country team coordination

18. The Mission will further strengthen its relationship with key international partners, including KFOR, the Office of the European Union Special Representative, the Organization for Security and Cooperation in Europe (OSCE), EULEX, the Council of Europe and other European actors, including through regular consultations at the leadership level. Consultations with major bilateral partners as well as with the European Union and the European Commission entities leading the current political process will be more frequent, based upon common interests and mutual support. UNMIK will continue to strengthen its cooperation and consultations with key international actors on possible changes to their configuration and continuously assess the possible implications for the Mission's ability to carry out its mandate. Furthermore, the Mission will continue to identify and reduce potential sources of tension on the ground, including through the development of joint strategies and the formulation of common messages with key international partners, as well as active engagement with local leaders and communities.

19. UNMIK will continue its collaboration with the United Nations Kosovo Team, including through its integrated assessment and planning process, to maximize the efficiency of United Nations resources in Kosovo. UNMIK and the United Nations Kosovo Team will continue to jointly focus on governance and rule of law issues and to engage constructively with headquarters. Moreover, UNMIK will continue to coordinate with the United Nations Kosovo Team and other international partners in a number of key areas during the implementation of the proposed confidence-building and reconciliation projects throughout Kosovo.

20. UNMIK will also continue to facilitate the activities of UNESCO, the Food and Agriculture Organization of the United Nations, the United Nations Office for Project Services and the United Nations Human Settlements Programme (UN-Habitat), in accordance with the memorandums of understanding between UNMIK and the respective organizations.

31. The implementation of Umoja as a single integrated system across all missions has enabled the Organization to centralize payroll processing for all field-based national staff and uniformed personnel at the Regional Service Centre in Entebbe and Kuwait Joint Support Office. Payroll for UNMIK national staff is processed by the Kuwait Joint Support Office, effective November 2016. Centralization of payroll services and other entitlements requires a redistribution of finance staff from the affected missions. In that regard, one Finance Officer post (Field Service) and one Finance Assistant post (national General Service) have been relocated to the Kuwait duty station. This temporary arrangement will remain in effect pending a decision by the General Assembly on the global service delivery model.

(Thousands of United States dollars)

Category	Estimated value
Status-of-mission agreement ^a	82.4

(Thousands of United States dollars)

Category	Amount	Initiative
Facilities and infrastructure	70.6	Efficiencies achieved in electricity consumption as a result of installation of the photovoltaic system at the headquarters compound in Pristina
Total	70.6	

D. Vacancy factors

34. The cost estimates for the period from 1 July 2017 to 30 June 2018 take into account the following vacancy factors:

(Percentage)

Category	Actual 2015/16	Budgeted 2016/17	Projected 2017/18
Military and police personnel			
Military observers	_	-	-
United Nations police	_	6.0	5.0

National staff			
National Professional Officers	_	5.0	3.0
National General Service staff	2.4	2.0	1.0
United Nations Volunteers	22.2	11.0	11.0

35. The proposed vacancy factors are based on experience to date and take into account mission-specific circumstances in relation to the deployment of uniformed personnel and the recruitment of civilian staff. Specifically, in determining the rates for the 2017/18 period, the following variables, among others, were considered: the current vacancy rates, the rate of deployment or recruitment for the duration of the current fiscal year and the circumstances that UNMIK anticipates during the budget period. On the basis of the considerations above, the factor for United Nations police has been reduced from 6 per cent in the 2016/17 period to 5 per cent in the proposed budget for the 2017/18 period, the factor for international staff has increased from 5 per cent in the 2016/17 period to 6 per cent in the proposed budget for the 2016/17 period to 3 per cent for the 2017/18 period.

E. Training

36. The estimated resource requirements for training for the period from 1 July 2017 to 30 June 2018 are as follows:

(Thousands of United States dollars)

Category	Estimated amount

F. Confidence-building projects

38. The estimated resource requirements for confidence-building projects for the period from 1 July 2017 to 30 June 2018, compared with previous periods, are as follows:

(Thousands of United States dollars)

Period	Amount	Number of projects	
1 July 2015 to 30 June 2016 (actual)	412.9	22	
1 July 2016 to 30 June 2017 (approved)	364.8	21	
1 July 2017 to 30 June 2018 (proposed)	380.1	21	

39. A provision of \$380,100 is proposed for the 2017/18 period to implement 21 confidence-building projects in the areas of (a) inter-ethnic cooperation; (b) promoting cooperation and reconciliation between communities; (c) economic, social and cultural issues at the local level; and (d) the empowerment of women.

G. Other programmatic activities

40. The estimated resource requirements provide for seven projects in support of justice and the rule of law and human rights in Kosovo for the period from 1 July 2017 to 30 June 2018, as follows:

(Thousands of United States dollars)

Description	Proposed amount
Provision to implement projects to support Kosovo's judicial institutions and Kosovo Police in the area of the rule of law, in accordance with international criminal justice and human rights norms and standards	1 500.0
Provision to implement projects to enhance reconciliation between communities, including by facilitating the return of displaced populations	487.0
Total	1 987.0

41. In addition to the confidence-building projects described in section F above, the proposed budget for the 2017/18 period for UNMIK includes a provision in the amount of \$1,987,000 for the implementation of projects to support Kosovo institutions in rule of law, justice and security and to implement projects to enhance reconciliation between communities, thereby contributing to stability and the peaceful coexistence of various communities in Kosovo. The proposed projects are based on the strategic priorities of UNMIK for the 2017/18 period and are in line with the Mission's mandate to promote stability and reconciliation in Kosovo, including through limited institutional assistance in support of governmental priorities, and to complement the initiatives of international partners. In this respect, the proposed projects are aligned with the priorities identified by the Kosovo authorities, including in the National Development Strategy (2016-2021) and the Rule of Law Assistance Strategy in Kosovo (2016-2019).

III. Analysis of variances

42. The standard terminology applied with respect to the analysis of resource variances in this section are defined in annex I.B to the present report. The terminology used remains the same as in previous reports.

	Variance	
Military observers	(\$23.5)	(6.8%)

• Cost parameters: change in foreign exchange rate

43. The decreased requirements are attributable mainly to the applied rate of 0.96 euro to 1 United States dollar, compared to a rate of 0.91 applied in the 2016/17 period.

	Variance	
United Nations police	\$19.7	5.6%

• Management: additional outputs and inputs

44. The increased requirements are attributable mainly to the proposed establishment of one additional United Nations police officer, which will increase the authorized strength of United Nations police officers from 9 to 10. The proposed additional United Nations police officer will be located in the INTERPOL Liaison Unit to support work related to the processing and referral of an estimated 3,000 INTERPOL cases for investigation by the relevant actors in Kosovo.

	Variance	Variance	
International staff	\$1 173.7	6.6%	

• Management: additional outputs and inputs

45. The increased requirements are attributable mainly to requirements related to two D-1 posts and one P-4 post for which there were no provisions made in the approved budget for the 2016/17 period and to the application of a higher percentage of common staff costs, at 67.1 per cent of net salaries for the 2017/18 period, compared to 57.6 per cent of net salaries provided for in the 2016/17 period.

	Variance	Variance	
National staff	(\$402.4)	(4.6%)	

• Cost parameters: change in foreign exchange rate

46. The decreased requirements are attributable mainly to the applied rate of 0.96 euro to 1 United States dollar, compared to a rate of 0.91 applied in the 2016/17 period. This is offset in part by the revised salary scale for national staff, which reflects an increase of 7.8 per cent.

	Varianc	е
Consultants	 \$87.2	167.0%

• Management: additional outputs and inputs

47. The increased requirements are attributable mainly to the provisions for a senior consultant to conduct a fact-finding review of the Kosovo criminal justice system.

	Variance	
Facilities and infrastructure	(\$522.9)	(15.5%)

• Management: reduced inputs and same outputs

48. The decreased requirements are attributable mainly to lower requirements for solar panels, which will be installed at the Mitrovica Regional Office, compared with the higher requirements for solar panels at the headquarters in Pristina, which were provided for in the approved budget for the 2016/17 period. These are offset in part by increased requirements for security upgrades for the Mitrovica Regional Office and for field defence supplies.

	Variance	
Ground transportation	(\$67.7)	(18.8%)

· Management: reduced inputs and same outputs

49. The decreased requirements are attributable mainly to: (a) petrol, oil and lubricants owing to the lower projected price of 0.37 per litre in the 2017/18 period, compared to 0.56 per litre applied in the 2016/17 period; and (b) liability insurance owing to the implementation of the United Nations worldwide insurance coverage in Kosovo.

	Varia	Variance	
Communications	(\$493.8)	(31.5%)	

• Management: reduced inputs and same outputs

50. The decreased requirements are attributable mainly to: (a) commercial communications, owing to reduced charges for leased lines; and (b) maintenance of equipment and communications support services, owing to reduced monthly fees for internationally contracted communications personnel and reduced requirements for the maintenance of towers.

	Variance	
Information technology	\$74.9	5.7%

• Management: additional outputs and inputs

51. The increased requirements are attributable mainly to the acquisition of equipment owing to the replacement of obsolete computer devices, the Internet

protocol telephone system and one microwave link, which is situated at the Mitrovica logistics base.

	Variance	
Other supplies, services and equipment	\$1 699.0	138.9%

• Management: additional outputs and inputs

52. The increased requirements are attributable mainly to the proposed requirements for programmatic activities of \$1,987,000. These are offset in part by reduced requirements for external audit and freight and related costs.

IV. Actions to be taken by the General Assembly

53. The actions to be taken by the General Assembly in connection with the financing of the Mission are the appropriation of the amount of \$38,016,600 for the maintenance of the Mission for the 12-month period from 1 July 2017 to 30 June 2018.

V. Summary of follow-up action taken to implement the decisions and requests of the General Assembly in its resolutions 70/286 and 70/277, including the requests and recommendations of the Advisory Committee on Administrative and Budgetary Questions endorsed by the Assembly

A. General Assembly

(Resolution 70/286)

Decision/request	Action taken to implement decision/request
Requests the Secretary-General to improve the ratio of substantive to support staff, with particular attention to the feasibility of nationalizing functions, especially Field Service level functions, to ensure that the civilian staffing structure is appropriate for the effective implementation of the current mission mandate and that it reflects staffing best practices across other missions (para. 20).	UNMIK has a substantive to support staff ratio of 1:1. The Mission has, since the reconfiguration in 2009, made efforts to nationalize posts. There are currently 27 Field Service posts in the Mission. The latest civilian staffing review did not identify any further opportunities for nationalization of Field Service posts.

Decision/request	Action taken to implement decision/request

Urges the Secretary-General to make every effort to reduce the recruitment lead time for staff in field missions, taking into account the relevant provisions governing recruitment of United Nations staff, to enhance the transparency of the staffing process at all stages and to report on the steps taken and results achieved in the context of his next overview report (para. 22).

Welcomes the continued efforts of the Secretary-General to mainstream gender perspectives in United Nations peacekeeping, and requests the Secretary-General to ensure that senior gender advisers in all United Nations peacekeeping operations report directly to mission leadership (para. 24).

Recognizes the role of women in all aspects of peace and security issues, expresses concern about the gender imbalance in the staffing of peacekeeping operations, particularly at senior levels, requests the Secretary-General to intensify efforts to recruit and retain women in peacekeeping operations, in particular to appoint women to senior United Nations leadership positions, with full respect for the principle of equitable geographical distribution, in conformity with Article 101 of the Charter of the United Nations, considering, in particular, women from troop- and police-contributing countries, and strongly encourages Member States, where applicable, to identify and regularly submit more women candidates for appointment to positions in the United Nations system (para. 25).

Requests the Secretary-General to continue his efforts to reduce the overall environmental footprint of each peacekeeping mission, including by implementing environmentally friendly waste management and power generation systems, in full compliance with the relevant rules and regulations, including, but not limited to, the United Nations environmental and waste management policy and procedures (para. 31).

Recognizes the increasing demands and challenges of the volatile work environment faced in peacekeeping operations, and requests the Secretary-General to strengthen capacity and standards with regard to the UNMIK has made efforts to reduce the recruitment lead time and to ensure timely filling of vacancies. In order to reduce the recruitment lead time, the Human Resources Section has worked closely with hiring managers to actively involve them in each step of the recruitment process, provided guidance to hiring managers to ensure adherence to the recruitment rules and regulations and trained hiring managers on the recruitment process in Inspira.

UNMIK continues to maintain its network of gender focal points for the purpose of gender mainstreaming and the incorporation of gender perspectives into all mission activities. A newly appointed gender adviser, who reports to the Special Representative of the Secretary-General, will continue to support mission leadership to mainstream gender perspectives in the Mission.

UNMIK continues to make efforts to recruit and retain women and to appoint women to senior positions, taking into consideration the principle of equitable geographical distribution.

UNMIK has been taking action to reduce the Mission's environmental footprint through the implementation of environmentally friendly practices in: (a) solar energy; (b) waste management; (c) energy preservation; and (d) wastewater treatment.

UNMIK has agreements with international and local medical facilities to fulfil the 10-1-2 casualty response and ensures the availability of capacity-building, training and education opportunities, as required.

10-1-2 casualty response, including capacity-building, training and education, and to continue to develop innovative solutions in this regard (para. 32).	
Requests the Secretary-General to ensure the security of information and communications in missions, including those gathered from the use of unmanned aerial systems, as a matter of priority (para. 35).	The Mission's Communications and Information Technology Section has introduced a robust firewall system to ensure the security and integrity of the information and communications infrastructure. Furthermore, UNMIK continues to educate users and raise awareness through regular broadcasts in order to reduce security threats. This has enhanced understanding of the security risks involved and improved user behaviour.
Further requests the Secretary-General to present in individual mission budget proposals a clear vision of the annual construction requirements by ensuring, as appropriate, multi-year plans and to continue his efforts to enhance the accuracy of budgeting, by improving aspects of project planning, management and oversight, with due consideration for operational circumstances on the ground, and to closely monitor the execution of works to ensure their timely completion (para. 42).	UNMIK does not have any multi-year projects, nor any projects valued at \$1 million or more in the proposed budget for the 2017/18 period.
Requests the Secretary-General to strengthen oversight and internal controls in the areas of procurement and asset management across peacekeeping missions, including by holding a named official in mission management accountable for checking stock levels before undertaking any acquisition activity in order to ensure compliance with established asset management policies, taking into account the current and future needs of the mission and the importance of the full implementation of the International Public Sector Accounting Standards (para 43).	UNMIK standard operating procedures for the procurement, monitoring, issuance and replenishment of assets and supply items are in compliance with established United Nations asset management policies, including accountability for the managemen of inventory levels, which is a core function of the Acquisition and Requisition Unit.
Encourages the Secretary-General to utilize local materials, capacity and knowledge in the implementation of construction projects for peacekeeping operations, in compliance with the United Nations Procurement Manual (para. 45).	UNMIK utilizes local materials, capacity and knowledge in the implementation of construction projects in compliance with the United Nations Procurement Manual. The Mission has local systems contracts for construction materials used in carpentry plumbing, painting, asphalting and metal profiles.

Decision/request	Action taken to implement decision/request

Recognizes the important role played by quick-impact projects in supporting the implementation of mission mandates, stresses the need for the timely, responsible and accountable implementation of all planned projects, and requests the Secretary-General to enhance the impact of these projects while addressing underlying challenges (para. 55).

Recalls the collective and unanimous position that one substantiated case of sexual exploitation and sexual abuse is one case too many, and requests the Secretary-General to ensure that all peacekeeping operations implement fully the United Nations policy of zero tolerance of sexual exploitation and sexual abuse in United Nations peacekeeping operations with regard to all civilian, military and police personnel (para. 70, see also paras. 71, 76, 79, 80, 81 and 82).

Welcomes the determination of the Secretary-General to fully implement the United Nations policy of zero tolerance of sexual exploitation and sexual abuse, and requests the Secretary-General to report on the results achieved and challenges encountered in the next report (para. 71).

Calls upon the Secretary-General to ensure coordination across United Nations entities at the country level in order for victims to receive immediate basic assistance and support in accordance with their individual needs arising from alleged sexual exploitation and abuse (para. 76).

Requests the Secretary-General to immediately inform the Member States concerned about allegations of sexual exploitation and abuse, of which United Nations entities may become aware, in missions operating under a Security Council mandate, and requests the Secretary-General to ensure that the Member States concerned receive all available information to allow for appropriate follow-up by their national authorities (para. 79).

Recognizes the risk factors linked to recent allegations of sexual exploitation and abuse, as identified by the Secretary-General in paragraph 25 of his latest report, including the rehatting of troops, the absence of predeployment training on standards of conduct, the excessive length of deployment for certain contingents, the living conditions of contingents, including lack of welfare and communication facilities to stay in contact with home, camps being situated in proximity to and not UNMIK confidence-building projects provide support

to the implementation of the Mission's mandate. The Mission continues to select projects that are anticipated to have the greatest impact in the local communities.

The related response for all peacekeeping missions, including UNMIK, to address issues raised in paragraphs 70, 71, 76, 79, 80, 81 and 82, will be included in the context of the report of the Secretary-General on special measures for protection from sexual exploitation and sexual abuse.

Decision/request

properly separated from the local population, and lack of discipline among some contingents, and in this regard requests the Secretary-General to further analyse all risk factors, including those listed above, in his next report and to provide recommendations to mitigate those risks, taking into account the respective responsibilities of missions, the Secretariat and troop- and policecontributing countries (para. 80).

Stresses the importance of training all personnel for the prevention of sexual exploitation and sexual abuse, as part of the predeployment training, as well as in mission training and awareness-raising programmes, and requests the Secretary-General to expedite the deployment of the e-learning programme (para. 81).

Recalls paragraph 175 of the report of the Advisory Committee, and requests the Secretary-General to include in future reports information on allegations of sexual exploitation and abuse by non-United Nations forces operating under a Security Council mandate (para. 82).

B. Advisory Committee on Administrative and Budgetary Questions

(A/70/742)

Request/recommendation	Action taken to implement request/recommendation
The Advisory Committee shares the concern of the Board of Auditors over the continuing level and frequency of redeployments among and between expenditure groups and classes across peacekeeping operations (para. 31).	UNMIK confirms that redeployments of funds among and between expenditure groups and classes are made only to meet the evolving operational needs of the Mission.
The Committee notes with regret that mission budget proposals for 2016/17 do not always comply with the requirement for all posts that have been vacant for two years or longer to be reviewed and the posts proposed for retention or abolishment (para. 46).	UNMIK does not have any posts that have been vacant for more than two years at this time. The Mission complies with the requirement to review and propose the retention or abolishment of posts vacant for two years or longer, as applicable.
The Committee recommends that a breakdown of the	UNMIK has taken the necessary measures during the

The Committee recommends that a breakdown of the travel requirements for all peacekeeping operations, including details with respect to trip destinations, the purpose of the trips, the number and functions of travellers and estimated air fares and other travel costs, be included in the information provided to the Committee prior to its consideration of mission budget proposals (para. 154).

UNMIK has taken the necessary measures during the 2016/17 period to have more robust internal controls over official travel and to provide the required information in a timely manner.

Request/recommendation	Action taken to implement request/recommendation
The Committee stresses the need for realistic planning and budgeting and enhanced project monitoring and oversight, including by the appropriate offices within the Department of Field Support at Headquarters and UNLB, particularly for those projects spanning more than one budgetary cycle. Details of multi-year projects should be included in specific budget proposals, including the overall status of implementation at the time of the respective budget request, and those projects valued at \$1 million or more should be clearly identifiable within the budget request (para. 157).	UNMIK does not have any multi-year projects, nor any projects valued at \$1 million or more in the proposed budget for the 2017/18 period.
The Committee looks forward to reviewing the results of the analysis currently under way of the possibility of replacing part of the light passenger vehicle fleet with sedan-type, multipurpose and alternative-type vehicles. The Committee trusts that the mission vehicle acquisition plans for the 2017/18 financial period will reflect the outcome of this review (para. 160).	The Mission has undertaken appropriate action with regard to the replacement of light passenger vehicles with sedan and other types of vehicles. In the 2016/17 period, the Mission has replaced 20 four-wheel drive vehicles with light hybrid vehicles. The Mission has also committed to the rental of three buses to transport staff to and from the office.

Financing of the United Nations Interim Administration Mission in Kosovo

(A/70/742/Add.10 and General Assembly resolution 70/277)

Request/recommendation	Action taken to implement request/recommendation

In connection with the proposed net reductions to the number of national staff, the Advisory Committee recalls that the General Assembly, in paragraph 32 of its resolution 65/289, has noted the increasing role of national staff in peacekeeping operations and the need for missions to build national capacity. The Committee reiterates its support to the increasing trend towards nationalizing posts and positions, whenever possible. Any nationalization proposals should, in the view of the Committee, also preserve the impartial nature of United Nations peacekeeping presence (see A/68/782, para. 91) (para. 18).

The Advisory Committee commends the Mission for its efforts to introduce renewable energy and trusts that this will lead to, inter alia, more efficient fuel consumption, including for generator usage (para. 22 (a)). UNMIK is committed to national capacity-building. In the approved budget for the 2016/17 period, seven international professional posts were converted to National Professional Officer posts. The Mission will continue to explore further opportunities wherever possible.

The Mission has only modest fuel consumption from the use of generators in its headquarters in Pristina. The approved budget for the 2016/17 period provided for the installation of solar panels at headquarters in Pristina, and the proposed budget for the 2017/18 period includes a provision for the installation of solar panels at the Mitrovica Regional Office. It is therefore anticipated that fuel consumption for generator usage will be reduced in future periods. Request/recommendation

Action taken to implement request/recommendation

The Advisory Committee recalls paragraph 23 of resolution 66/264, in which the General Assembly underlined the importance of the Secretary-General comprehensively reviewing the civilian staffing requirements for each peacekeeping mission, with particular attention to the feasibility of nationalization of Field Service posts and improving the ratio of substantive to support staff, in particular when there is a significant change in mandate or authorized force levels, to ensure that the civilian staffing structure is appropriate to effectively implement the current mandate and that it reflects staffing best practices across missions (para. 26). A civilian staffing review was conducted at the end of June 2015 to assess all areas of civilian staffing and identify synergies and increased efficiencies in terms of the composition of the civilian staffing capacity. It should be noted that since its reconfiguration in 2009, UNMIK has increased its national capacity from 59 per cent to 62 per cent of mission staff. Further opportunities were only identified in the substantive area for posts at the professional level. The Mission has already successfully nationalized a large number of posts and there are very limited opportunities for further nationalization of Field Service posts.

Annex I

Definitions

A. Terminology related to proposed changes in human resources

The following terminology has been applied with respect to proposed changes in human resources (see sect. I of the present report):

- **Post establishment:** a new post is proposed to be established when additional resources are necessary and when it is not possible to redeploy resources from other offices or otherwise accommodate specific activities from within existing resources.
- **Post reassignment:** an approved post that was intended to cover a certain function is proposed to implement other priority mandated activities unrelated to the original function. While a post reassignment may involve a change of location or office, it does not change the category or level of the post.
- **Post redeployment:** an approved post is proposed to be redeployed to cover comparable or related functions in another office.
- **Post reclassification:** an approved post is proposed to be reclassified (upgraded or downgraded) when the duties and responsibilities of the post have changed substantially.
- **Post abolishment:** an approved post is proposed to be abolished if it is no longer needed to implement the activities for which it was approved or to implement other priority mandated activities within the mission.
- **Post conversion:** three possible options for post conversion are as follows:
 - Conversion of general temporary assistance positions to posts: approved positions financed under general temporary assistance are proposed for conversion to posts if the functions being performed are of a continuing nature.
 - Conversion of individual contractors or individuals on procurement contracts to national staff posts: taking into account the continuing nature of certain functions, in line with section VIII, paragraph 11, of General Assembly resolution 59/296, individual contractors or individuals on procurement contracts are proposed for conversion to national staff posts.
 - Conversion of international staff posts to national staff posts: approved international staff posts are proposed for conversion to national staff posts.

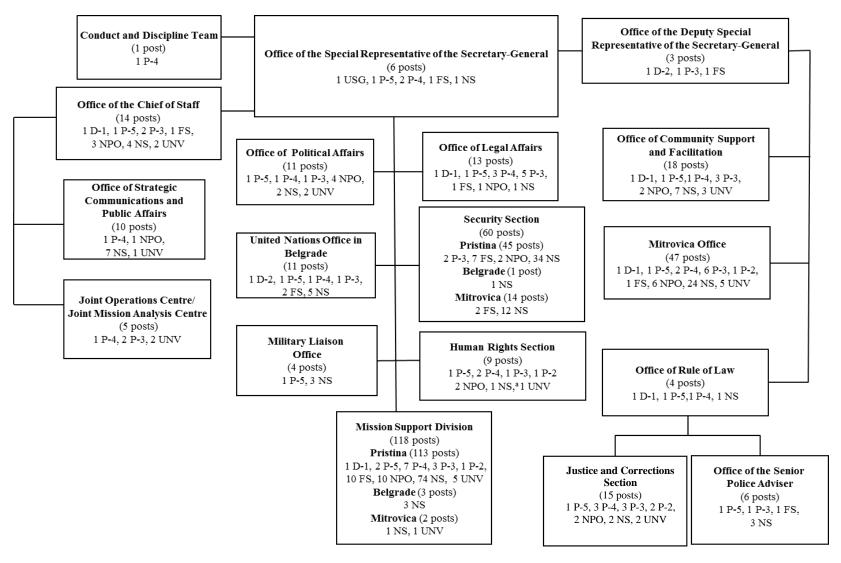

B. Terminology related to variance analysis

Section III of the present report indicates the single largest contributing factor of each resource variance according to specific standard options encompassed in the four standard categories listed below:

- Mandate: variances caused by changes in the scale or scope of the mandate, or changes in the expected accomplishments as driven by the mandate.
- External: variances caused by parties or situations external to the United Nations.
- Cost parameters: variances caused by United Nations regulations, rules and policies.
- Management: variances caused by management actions to achieve planned results more effectively (e.g., by reprioritizing or adding certain outputs) or efficiently (e.g., by taking measures to reduce personnel or operational inputs while maintaining the same level of outputs) and/or from performance-related issues (e.g., by having underestimated the costs or quantities of inputs required to produce a certain level of outputs, or by delayed recruitment).
