### Overall orientation

29H.1 The United Nations Office at Nairobi was established with effect from 1 January 1996 as a successor to the United Nations Common Services Unit at Nairobi and two separate divisions of administration of the United Nations Environment Programme (UNEP) and the United Nations Human Settlements Programme (UN-Habitat). The objective in establishing the Office was to strengthen the United Nations presence in Nairobi and to achieve economies of scale. Under a memorandum of understanding and specific service arrangements with UNEP and UN-Habitat, the Office provides them with a full range of administrative and other support services. Under various agreements with offices of other organizations of the United Nations system located in Nairobi, the Office also administers common support services for those offices. The Office also manages the United Nations facilities in Nairobi. The responsibilities of the Office are set out in the Secretary-General's bulletin on the organization of the United Nations Office at Nairobi (ST/SGB/2009/3).

Note: The following abbreviations are used in tables and charts: GS, General Service; IPSAS, International Public Sector Accounting Standards; LL, Local level; NPO, National Professional Officer; RB, regular budget; XB, extrabudgetary; and –, Not Applicable.

29H.2 The substantive programme activities of both UNEP and UN-Habitat are funded predominantly from extrabudgetary resources. On the basis of data on administrative workloads in support of their operations, UNEP and UN-Habitat reimburse the United Nations Office at Nairobi for the services provided for administrative support of their extrabudgetary activities through a system of reimbursement arrangements for the services rendered. A significant component of funding for the Administration, Nairobi, is consequentially of an extrabudgetary origin.

### Overview of resources

- 29H.3 The overall resources proposed for the biennium 2018-2019 for this section amount to \$28,488,000 before recosting, reflecting a decrease of \$917,700 (or 3.1 per cent) compared with the appropriation for 2016-2017. The resource changes result from three factors, namely: (a) technical adjustments relating to the phased abolishment of posts in 2016-2017; (b) changes within and/or across sections; and (c) other resource changes. The proposed resource level provides for the full, efficient and effective implementation of mandates.
- 29H.4 The distribution of resources is reflected in tables 29H.3 to 29H.5 below.

### **Technical adjustments**

29H.5 Resource changes totalling \$226,500 under information and communications technology operations relate to reductions related to the phased abolishment of posts in 2016-2017.

### Changes within and/or across section(s)

- 29H.6 Resource changes reflect the following redeployments, reclassification and abolishment of posts on a cost-neutral basis:
  - (a) Redeployment of: (i) one Local level post from executive direction and management to subprogramme 2, Programme planning, budget and accounts; (ii) one P-3 post from subprogramme 2, Programme planning, budget and accounts, to subprogramme 4, Support services; and (iii) one Local level post from subprogramme 4, Support services, to subprogramme 2, Programme planning, budget and accounts;
  - (b) Proposed reclassification of one P-4 post as a P-5 post under subprogramme 6, Information and communications technology operations, to strengthen the oversight of the local information technology infrastructure and provision of service (the cost of which is offset by (c) below);
  - (c) Abolishment of one Local level position under subprogramme 6, Information and communications technology operations.

### Other changes

- 29H.7 Resource changes reflect a reduction of \$691,200, made possible from efficiencies that the Office plans to bring about in the biennium 2018-2019. The proposed reduction is a result of the efforts of the Office to apply the anticipated Umoja efficiencies presented in the eighth progress report of the Secretary-General on the enterprise resource planning project (A/71/390) to individual day-to-day operations. The Umoja efficiencies set out in the eighth progress report were based on the Organization's experience with the system, anticipated future changes, including future roll-outs, a global review of end-to-end processes, the retirement of legacy systems and improvements to business process and planning capabilities. Efficiencies were expressed, inter alia, as the dollar value of a full-time equivalent, where applicable. Further information on the approach is provided in the foreword and introduction of the proposed programme budget for the biennium 2018-2019.
- 29H.8 For the Administration, Nairobi, this translates to post and non-post reductions of \$691,200, including the proposed abolishment of six Local level posts, which fall under the programme of work as follows: human resources management (\$180,800), support services (\$285,500) and information and communications technology operations (\$224,900).

### Other assessed and extrabudgetary resources

- The Office receives both cash and in-kind contributions, which complement regular budget resources and continue to be vital in the delivery of its mandates. During the biennium 2018-2019, projected cash contributions estimated at \$43,630,400 would support various activities, such as common services and charge-back arrangements, commercial operations and core services provided to UNEP, UN-Habitat and the Division of Conference Services, Nairobi. The increased requirements reflect mainly the establishment of the Business Transformation and Change Management Unit, a joint initiative of the United Nations Office at Nairobi, UNEP and UN-Habitat, focusing on change management initiatives through the re-engineering of local processes to enhance the efficiency and effectiveness of service and programme delivery. This initiative is fully funded from extrabudgetary resources.
- 29H.10 Anticipated in-kind contributions would provide for government-provided, rent-free land/premises with an estimated value of \$20,573,400 for the biennium 2018-2019.

### Other information

- 29H.11 The United Nations Office at Nairobi has taken steps to promote organizational reform across the Division of Administrative Services through the revision of standard operating procedures and the simplification of processes and services prompted by the implementation of Umoja. Efforts have been made to enhance the management of assets and inventory and the presentation of financial statements to better aid the programmes in the planning, implementation and reporting of programme activities. The Division of Administrative Services continues to play an active role in the Secretariat's efforts to enhance cost-recovery policies and practices. Staff pay and benefits and talent management initiatives have been launched to better meet the requirements of the programmes in the context of the changing environment introduced by Umoja and other change management initiatives. The introduction of the Nairobi business centre, which monitors workflows and processes in relation to client engagement, has facilitated the tracking of client queries, improved response time and allowed for management to monitor and address gaps in the processes. With the establishment of the Business Analytics and Reporting Unit in the Office of the Director of Administration, the United Nations Office at Nairobi has sought to strengthen performance monitoring and reporting across UNEP, UN-Habitat and the United Nations Office at Nairobi. Through the establishment of the joint Business Transformation and Change Management Unit, UNEP, UN-Habitat and the United Nations Office at Nairobi are seeking to identify and capture opportunities that can further enhance efficiencies, effectiveness and transparency in the existing business processes and procedures by maximizing the use of Umoja functionalities. In order to support the Secretariat's efforts to move towards a unified service catalogue approach, the United Nations Office at Nairobi has obtained the support of United Nations agencies and programmes operating in or from Kenya for the implementation of a rate card model for common services.
- Pursuant to General Assembly resolution 58/269, resources identified for the conduct of monitoring and evaluation for this section are estimated at \$487,100 (45 work-months), representing 29.5 work-months of staff in the Professional category and 15.5 work-months of staff in the General Service category. Each organizational unit of the Division of Administrative Services establishes targets in specific service areas to gauge the effectiveness and efficiency of its performance. Internal evaluation is based on periodic reviews and analysis of performance data, client surveys conducted by the Nairobi Services Group and real-time feedback mechanisms on specific services. The Division also relies on the evaluation capacity of the resident office of the Office of Internal Oversight Services to review the structure and procedures of the Division.
- 29H.13 Under the framework of system-wide coherence, the Office coordinates regularly with other United Nations oversight entities, including the Board of Auditors and the Joint Inspection Unit, to ensure that potential gaps and unnecessary duplication and overlap in oversight work are minimized. The Office meets with the Joint Inspection Unit on an ad hoc basis when issues of particular concern arise. The Inspection and Evaluation Division of the Office of Internal Oversight Services continues to play a role in the larger evaluation community of the United Nations and serves as the Chair of the United Nations Evaluation Group, which promotes and strengthens the evaluation functions in the United Nations. The Internal Audit Division of the Office of Internal Oversight Services also contributes actively to the work of the Division of Administrative Services. For example, the Division is involved in the review of the common services operations and processes relating to service level agreements.

### A. Executive direction and management

Resource requirements (before recosting): \$1,564,300

29H.14 Activities under this heading are the responsibility of the Office of the Director of Administration. The Director of Administration is responsible for the direction and management of administrative and related support services provided by the United Nations Office at Nairobi to its client organizations.

### Section 29H Administration, Nairobi

- 29H.15 The Office of the Director of Administration also provides daily oversight to the Business Transformation and Change Management Unit, established jointly by the United Nations Office at Nairobi, UNEP and UN-Habitat, targeting the enhancement of existing business processes through the maximization of the functionalities offered by Umoja and other corporate change management initiatives.
- 29H.16 The Business Analytics and Reporting Unit, which provides analysis of performance measures and indicators, is also the responsibility of the Office of the Director of Administration. The Unit seeks to enhance performance reporting and monitoring across UNEP, UN-Habitat and the United Nations Office at Nairobi and is funded from extrabudgetary resources.

Resources in the amount of \$1,564,300, reflecting a decrease of \$90,400 compared with the appropriation for 2016-2017, would provide for the continuation of three posts (1 D-2, 1 P-4 and 1 Local level) in the Office of the Director of Administration and non-post resources to support the implementation of mandates under the programme. Non-post requirements in the amount of \$733,700 would provide for temporary assistance mainly to support organizational resilience management, as well as overtime and travel requirements covering executive direction and management and all subprogrammes. The reduction of \$90,400 is due to the redeployment of one Local level post to subprogramme 2, Programme planning, budget and accounts, in view of the shift of functions to support the end-to-end processing in Umoja to the latter subprogramme.

29H.20 Regular budget resources are complemented by extrabudgetary resources estimated at \$1,486,100, which would provide for the continuation of three posts and operational costs, such as other staff costs, consultants and experts, travel and general operating requirements for the delivery of the outputs reported in paragraph 29H.17.

# Subprogramme 2 Programme planning, budget and accounts

### Resource requirements (before recosting): \$5,353,000

29H.22 The subprogramme is the responsibility of the Budget and Financial Management Service. The subprogramme will be implemented in accordance with the strategy detailed under subprogramme 2, Programme planning, budget and accounts, of section D of programme 25, Management and support services, of the biennial programme plan for the period 2018-2019.

### **Outputs**

29H.23 During the biennium 2018-2019, the following outputs and services will be delivered (regular budget and extrabudgetary):

Table 29H.11 Categories of outputs and final outputs

10. Monthly financial statement/statement of financial position that details the financial activities for each client entity	18
11. Monthly payroll produced for 3,100 staff and client entities' personnel	24

29H.24 The distribution of resources for subprogramme 2 is reflected in table 29H.12 below.

Table 29H.12 Resource requirements: subprogramme 2

	Resources (thousands of U	Resources (thousands of United States dollars)

Extrabudgetary	8 764.7	9 916.1	53	53
Total	14 200.1	15 269.1	83	84

Resources in the amount of \$5,353,000, reflecting a net decrease of \$82,400 compared with the appropriation for 2016-2017, would provide for 31 posts in the Service (1 D-1, 2 P-5, 3 P-4, 3 P-3, 4 P-2 and 18 Local level) to support the implementation of mandates under the programme. The net reduction results from the redeployment of one P-3 post to subprogramme 4 in view of the shift of functions related to asset management, in particular the administration of assets under construction, to the latter subprogramme following the implementation of the International Public Sector Accounting Standards (IPSAS), partially offset by the redeployment of two Local level posts (one from executive direction and management and one from subprogramme 4) to this subprogramme in view of the shift of functions to support the end-to-end processing in Umoja.

29H.26 Regular budget resources would be complemented by extrabudgetary resources estimated at \$9,916,100, relating to the continuation of 53 temporary Local level posts and operational requirements to deliver the outputs detailed in paragraph 29H.23.

### Subprogramme 3 Human resources management

### Resource requirements (before recosting): \$4,768,700

Responsibility for this subprogramme is vested with the Human Resources Management Service. The subprogramme will be implemented in accordance with the strategy detailed under subprogramme 3, Human resources management, of section D of programme 25, Management and support services, of the biennial programme plan for the period 2018-2019. The Human Resources Management Service is responsible for recruitment, personnel administration, job classification, post management and provision of in-service training programmes with respect to all categories of staff of UNEP, UN-Habitat and the United Nations Office at Nairobi.

- 29H.30 Resources in the amount of \$4,768,700, reflecting a decrease of \$180,800 compared with the appropriation for 2016-2017, would provide for the continuation of 23 posts (1 D-1, 2 P-5, 2 P-4, 6 P-3, 1 P-2 and 11 Local level) and non-post requirements to support the implementation of mandates under the programme. The reduction of \$180,800 is due to the proposed abolishment of two posts of Human Resources Assistant (Local level), as a result of efficiencies that the Office plans to bring about in 2018-2019.
- 29H.31 Regular budget resources would be complemented by extrabudgetary resources estimated at \$6,601,200, relating to the continuation of 47 posts and operational requirements to deliver the programme of work and outputs described in paragraph 29H.28.

# **Subprogramme 4 Support services**

### Resource requirements (before recosting): \$13,982,400

29H.32 Responsibility for this subprogramme is vested with Support Services. The subprogramme will be implemented in accordance with the strategy detailed under subprogramme 4, Support services, of section D of programme 25, Management and support services, of the biennial programme plan for the period 2018-2019.

### **External factors**

29H.33 The objectives and expected accomplishments are expected to be achieved on the assumption that:
(a) the developments in the airline and shipping industries will continue to enable the negotiation of favourable contracts; and (b) there are no sudden or unexpected political, economic or technological changes that adversely affect the scope of services.

### Outputs

29H.35 The distribution of resources for subprogramme 4 is reflected in table 29H.18 below.

Table 29H.18 Resource requirements: subprogramme 4

- Resources in the amount of \$13,982,400, reflecting a net decrease of \$112,700 compared with the appropriation for 2016-2017, would provide for the continuation of 43 posts (1 D-1, 2 P-5, 1 P-4, 4 P-3, 2 P-2, 1 National Professional Officer and 32 Local level) and non-post resources to support the implementation of mandates under the programme. The non-post requirements amounting to \$7,961,100 would provide for contractual services, general operating expenses, supplies and materials, and furniture and equipment.
- 29H.37 The net decrease of \$112,700 is the result of: (a) the redeployment of one Local level post to subprogramme 2, and (b) the proposed abolishment of two posts of Procurement Assistant (Local level), as well as non-post reductions as a result of efficiencies that the Office plans to bring about in 2018-2019, partially offset by (c) the inward redeployment of a P-3 post from subprogramme 2 related to the shift of functions on asset management, in particular the administration of assets under construction, to this subprogramme following the implementation of IPSAS.
- 29H.38 Regular budget resources would be complemented by extrabudgetary resources estimated at \$16,291,500, relating to the continuation of 69 posts and operational requirements to deliver the programme of work and outputs described in paragraph 29H.34.

# Subprogramme 6 Information and communications technology operations

### Resource requirements (before recosting): \$2,819,600

Responsibility for this subprogramme is vested with the Information and Communications Technology Service. The subprogramme will be implemented in accordance with the strategy detailed under subprogramme 6, Information and communications technology operations, of section D of programme 25, Management and support services, of the biennial programme plan for the period 2018-2019.

		Actual				
(d) Improved support for enterprise	Increased percentage of overall user satisfaction rating	Target	82			
applications		Estimate				
		Actual				

### **External factors**

The objective and expected accomplishments are expected to be achieved on the assumption that:

(a) the evolution of technology and developments in related industries are in line with and conducive to the information and communications technology strategy, including the implementation of enterprise content management and Umoja, and leading-edge technology and technologically skilled people are readily available; and (b) there are no sudden or unexpected political, economic or technological changes that adversely affect the scope of services.

### **Outputs**

29H.41 During the biennium 2018-2019, the following outputs and services will be delivered (regular budget and extrabudgetary):

Table 29H.20 Categories of outputs and final outputs

Out	tputs	Quantity
Ad	lministrative support services (regular budget)	_
1.	Basic services, including network/connectivity services, hosting services and the associated technical support to end users	2 100
2.	Operation and maintenance of communications facilities, including voice, video and data communication services (telephone/cellular phones, videoconferencing equipment)	4 000
3.	Provision of security for information technology systems	3 500
4.	Operation and maintenance of existing and new applications systems	40

29H.42 The distribution of resources for subprogramme 6 is reflected in table 29H.21 below.

Table 29H.21 Resource requirements: subprogramme 6

	Resources (thousands of U	Posts		
	2016-2017	2018-2019 (before recosting)	2016-2017	2018-2019

Subtotal	3 271.0	2 819.6	15	12
Extrabudgetary	8 984.4	9 335.5	32	32
Total	12 255.4	12 155.1	47	44

- Resources in the amount of \$2,819,600, reflecting a decrease of \$451,400 compared with the appropriation for 2016-2017, would provide for the continuation of 12 posts (1 D-1, 1 P-5, 2 P-4, 4 P-3 and 4 Local level) to support the implementation of mandates under the programme.
- 29H.44 The net decrease \$451,400 is attributable to: (a) technical adjustments relating to the phased abolishment of posts in 2016-2017, (b) the abolishment of two Local level posts as a result of efficiencies that the Office plans to bring about in 2018-2019, and (c) the abolishment of one Local level post resulting from the streamlining of functions in the Service, partially offset by (d) the proposed reclassification of one P-4 post as a P-5 post.
- Pursuant to the designation of the Chief of the Information and Communications Technology Service as the Chief of the Regional Technology Centre-Africa at the D-1 level, the functions of the Chief of the Conference and Client Services Section have increased in complexity and scope, thus necessitating the reclassification of the post, which is at the P-4 level, as a P-5 post. The incumbent is expected to act as deputy of the Chief of the Information and Communications Technology Service, as well as oversee the provision of service locally in accordance with service level agreements.
- 29H.46 Regular budget resources would be complemented by extrabudgetary resources estimated at \$9,335,500, relating to 32 posts and operational requirements to meet the programme of work of the subprogramme, as well as deliver the outputs detailed in paragraph 29H.41.
