Overall orientation

- 29B.1 The Office of Programme Planning, Budget and Accounts is responsible for the implementation of the work programme under this section. The programme is guided by the Administrative and Budgetary (Fifth) Committee of the General Assembly and the Committee for Programme and Coordination.
- 29B.2 The activities programmed under this section fall within subprogramme 2, Programme planning, budget and accounts, of programme 25, Management and support services, of the biennial programme plan for the period 2018-2019.
- 29B.3 The Office of Programme Planning, Budget and Accounts:
- Administers and ensures compliance with the Financial Regulations and Rules of the United Nations, the Regulations and Rules Governing Programme Planning, the Programme Aspects of the Budget, the Monitoring of Implementation and the Methods of Evaluation, and relevant legislative mandates;
 - Establishes and applies the budgetary and accounting policies and procedures of the United Nations, in accordance with the Financial Regulations and Rules of the United Nations and relevant standards;
 - Ensures sound financial management of all resources made available to the Organization, as well as their effective and efficient use, directly or through delegation of authority and/or instructions to other offices of the United Nations at Headquarters and overseas;

Note: The following abbreviations are used in tables and charts: ASG, Assistant Secretary-General; GS, General Service; OL, Other level; PL, Principal level; RB, regular budget; XB, extrabudgetary.

- (d) Accounts for and reports to the appropriate authorities on the use made of United Nations financial resources;
 - (e) Facilitates intergovernmental deliberations by the General Assembly and decision-making bodies on the issues of planning, programming, budgeting and accounts of the Organization;
 - (f) Oversees the implementation and operations of the financial components of the enterprise resource planning system, Umoja.
- 29B.4 The Office of Programme Planning, Budget and Accounts carries out its activities in cooperation with other departments and offices of the Secretariat and, as appropriate, other entities of the United Nations system. Such collaboration and cooperation includes the preparation of reports, participation in meetings, briefings, technical and substantive support and the sharing of information and experience.
- 29B.5 Efforts are ongoing to ensure that activities implemented from all sources of funding are directed at improving internal controls; enhancing risk management; streamlining processes; strengthening financial information and analysis; improving financial management, reporting and accounting; and improving services to meet clients' needs.
- 29B.6 During the biennium 2018-2019, the Office of Programme Planning, Budget and Accounts will continue to be fully engaged in the further strengthening of the financial modules of the Umoja project, in particular the budget formulation, grantor and donor relations modules (Extension 2), which will complement the existing Umoja functionalities delivered in previous phases (Foundation and Extension 1), ensuring seamless transition across budget planning, implementation and reporting. Having led the implementation of the International Public Sector Accounting Standards (IPSAS) for peacekeeping and all other operations across the Secretariat, with the focus on the timely preparation of the first set of IPSAS-compliant financial statements, the Office will direct its attention during 2018-2019 to the Organization-wide initiative to strengthen internal controls in all peacekeeping and non-peacekeeping entities through the preparation of an annual Statement on Internal Controls, which will accompany the IPSAS-compliant financial statements.
- 29B.7 On the basis of lessons learned during the IPSAS implementation, the experience gained over three financial periods since the preparation of the first IPSAS-compliant financial statements in 2014, and a review of the residual functions of the IPSAS team, it has become clear that the adoption of IPSAS has permanently increased the workload in the Accounts Division with tasks that were not previously performed. While most of the significant increase in work is anticipated to be absorbed by existing posts in the Accounts Division of the Office of Programme Planning, Budgets and Accounts, there is a need for a core team to handle areas with a high level of integration within finance and across functional areas beyond finance.
- 29B.8 Furthermore, it will be recalled that the Secretary-General, in his ninth progress report on the adoption of IPSAS by the United Nations ([A/71/226](#)), indicated that the IPSAS team as a separate organizational unit would be decommissioned on 31 December 2017. It will be recalled also that in his seventh progress report ([A/69/367](#)), the Secretary-General pointed out that beyond the post-implementation phase of the IPSAS project, there would remain a need to maintain a supporting structure within the Organization to lead the long-term sustainability of IPSAS compliance. Accordingly, as of the biennium 2018-2019, the existing three posts (1 P-5, 1 P-4 and 1 General Service (Other level)) in support of the IPSAS sustainability activities will be redeployed and mainstreamed from the Office of the Controller, under executive direction and management, into the functions of component 3, Accounting, contributions and financial reporting.
- 29B.9 In a system-wide coherence context, the Office of Programme Planning, Budget and Accounts contributes to the Finance and Budget Network and is instrumental in providing input with regard to finance and budget-related issues of common concern to United Nations system organizations as a whole. The Finance and Budget Network covers areas such as international accounting standards, treasury practices, auditing and oversight mechanisms, financial reporting and cost recovery, and is

responsible for providing guidance to jointly financed activities of the United Nations system, including investment management. The efforts made in that context would lead to the harmonization of business practices throughout the United Nations system, including general management issues, to ensure management coherence from the global level to the country level.

- 29B.10 While the totality of resources available is presented, the proposals herein do not address elements directly related to the support of peacekeeping operations, which are funded from the support account for peacekeeping operations. Details of all the responsibilities of the Office of Programme Planning, Budget and Accounts are included in the most recent Secretary-General's bulletin for the Office.
- 29B.11 The specific objectives, expected accomplishments and indicators of achievement of the main organizational units of the Office of Programme Planning, Budget and Accounts for the biennium 2018-2019 are detailed, together with resources, under executive direction and management and the programme of work.

Overview of resources

- 29B.12 The overall resources proposed for the biennium 2018-2019 for this section amount to \$33,932,000 before recosting, reflecting a net decrease of \$774,100, or 2.2 per cent, compared with the appropriation for the biennium 2016-2017. Resource changes result from three factors, namely: (a) technical adjustments pertaining to the reductions relating to the phased abolishment of posts; (b) changes within and/or across sections; and (c) other resource changes. The proposed resource level provides for the full, efficient and effective implementation of mandates.
- 29B.13 The distribution of resources is reflected in tables 29B.3 to 29B.5.

Technical adjustments

- 29B.14 Resource changes reflecting a decrease of \$274,100 under posts relate to the removal of provisions for the phased abolishment of posts approved by the General Assembly in its resolution [70/247](#).

Changes within and/or across section(s)

- 29B.15 Resource changes under post and non-post resources relate to the redeployment of three posts (1 P-5, 1 P-4 and 1 General Service (Other level)) in connection with the transfer of the IPSAS

sustainability activities from the Office of the Controller, under executive direction and management, to component 3, Accounting, contributions and financial reporting.

Other changes

- 29B.16 Resource changes reflect a reduction of \$500,000, made possible from efficiencies that the Office plans to bring about in the biennium 2018-2019. The proposed reduction is a result of the efforts of the Office to apply the anticipated Umoja efficiencies presented in the eighth progress report of the Secretary-General on the enterprise resource planning project ([A/71/390](#)) to individual day-to-day operations. The Umoja efficiencies set out in the eighth progress report were based on the Organization's experience with the system, anticipated future changes, including future roll-outs, a global review of end-to-end processes, the retirement of legacy systems and improvements to business process and planning capabilities. Efficiencies were expressed, inter alia, as the dollar value of a full-time equivalent, where applicable. Further information on the approach is provided in the foreword and introduction of the proposed programme budget for the biennium 2018-2019.
- 29B.17 For the Office of Programme Planning, Budget and Accounts, this translates to post and non-post reductions of \$500,000 which fall under executive direction and management (\$3,000) and programme of work (\$497,000), specifically under components 3, 4 and 5.

Other assessed and extrabudgetary resources

- 29B.18 Projected other assessed and extrabudgetary resources amounting to \$62,313,900 would support the Office in the implementation of its programme of work and complement resources from the programme budget. The projected level includes \$34,894,500 from the support account for peacekeeping operations and \$27,419,400 from extrabudgetary resources, which represents a decrease of \$7,259,800, or 10.4 per cent, compared with the level of projected resources in the biennium 2016-2017. The decrease is attributable broadly to lower requirements under the support account and programme support income received as reimbursement for services provided by the central administration for extrabudgetary activities, funds and programmes.

Other information

- 29B.19 Pursuant to General Assembly resolution [58/269](#), resources were identified within the available capacity in the Professional and General Service categories for the conduct of monitoring and evaluation in the Office of Programme Planning, Budget and Accounts equivalent to \$2,374,300 (\$1,991,700 funded from the regular budget, comprising 124 work-months at the Professional level and 23 work-months at the General Service level; \$29,300 funded from the support account for peacekeeping operations, comprising 2 work-months at the Professional level; and \$353,300 funded from the extrabudgetary resources, comprising 20 work-months at the Professional level and 4 work-months at the General Service level).
- 29B.20 The Office has carried out periodic reviews and analysis of performance data, as well as client satisfaction surveys conducted at regular intervals within the existing capacity. The reviews have resulted in the automation of various accounting processes, including those pertaining to payroll, income tax, health and life insurance and travel/vendor claims, which has improved monitoring of and efficiency in the delivery of client services. The programme will also rely on a careful and comprehensive review of audit opinions of the Board of Auditors, the Office of Internal Oversight Services (OIOS) and the Joint Inspection Unit.

A. Executive direction and management

Resource requirements (before recosting): \$2,307,300

- 29B.21 The Assistant Secretary-General, Controller, is responsible for all the activities of the Office of Programme Planning, Budget and Accounts and supervises five organizational entities, namely, the

Programme Planning and Budget Division, the Peacekeeping Financing Division, the Accounts Division, the Treasury and the Financial Information Operations Service. The Assistant Secretary-General, Controller, administers, as delegated, the Financial Regulations and Rules of the United Nations and ensures compliance therewith; advises the Secretary-General and the Under-Secretary-General for Management on policy matters with respect to the budget, plans, work programmes and finances of the United Nations; represents the Secretary-General in the committees of the General Assembly, the Advisory Committee on Administrative and Budgetary Questions and the Committee for Programme and Coordination in the presentation of the budget outline, the biennial programme budgets, the budgets of the International Tribunals, the strategic framework, the United Nations capital master plan budget and the peacekeeping budgets and budget performance reports; represents the Secretary-General in other bodies and working groups of the United Nations system and in other international forums on budgetary and financial matters; establishes budgetary and accounting policies, procedures and guidelines for the Organization, including the issuance of instructions for the preparation of budget and performance reports and establishment of submission deadlines; exercises financial control of the resources of the Organization; and designates and approves staff members whose functions involve significant financial duties, where this authority is to be exercised by the Controller pursuant to existing rules.

- 29B.22 The Office of the Assistant Secretary-General, Controller, provides assistance in the overall direction, supervision and management of the Office of Programme Planning, Budget and Accounts; discharges responsibilities as delegated to the Assistant Secretary-General, Controller, under the Financial Regulations and Rules of the United Nations; formulates policy papers, reports and guidelines and provides advice on planning, programming and budgetary and accounting matters; evaluates, reviews and formulates the terms and conditions of the delegation of the Controller's authority and responsibility under the Financial Regulations and Rules of the United Nations and monitors the application thereof; reviews and issues framework agreements outlining the terms and conditions of voluntary contributions, including contributions in kind and non-reimbursable loans in compliance with the Financial Regulations and Rules of the United Nations; and coordinates interdepartmental activities relating to planning and programming as well as budgetary and accounting matters.
- 29B.23 The Deputy Controller at the D-2 level oversees the overall management of the Office of Programme Planning, Budget and Accounts and provides guidance to the financial community of the Organization. The responsibility of the Deputy Controller is to respond to the identified need to improve timeliness and to ensure comprehensive review and approval of administrative actions. This also includes assisting the Controller in discharging his/her overall responsibilities, including responding promptly to and following up on the implementation of oversight recommendations made by OIOS, the Joint Inspection Unit and the Board of Auditors. This enables appropriate burden-sharing between the Controller and the Deputy Controller in addressing the complex and critical financial management issues in a proactive manner.
- 29B.24 Further to resolution [60/283](#), by which the General Assembly approved the adoption by the United Nations of IPSAS, the International Public Sector Accounting Standards Implementation Unit was established in the Office of the Assistant Secretary-General, Controller, during the biennium 2006-2007. This responsibility will be embedded into the Accounts Division to mainstream IPSAS policies and procedures for the biennium 2018-2019. In addition, the Office will undertake the initiative to strengthen internal controls in all peacekeeping and non-peacekeeping entities through the preparation of an annual Statement on Internal Controls, which will accompany the IPSAS-compliant financial statements.

29B.27 The amount of \$2,154,700 under posts, reflecting a decrease of \$923,700, would provide for the funding of: (a) three posts (1 ASG, 1 P-5 and 1 General Service (Other level)) in the immediate Office of the Controller; and (b) three posts (1 D-2, 1 P-4 and 1 General Service (Other level)) in the Office of the Deputy Controller to support the implementation of mandates under the programme. The decrease relates to the outward redeployment of three posts (1 P-5, 1 P-4 and 1 General Service (Other level)) in connection with the transfer of the IPSAS sustainability activities to component 3, Accounting, contributions and financial reporting.

29B.28 Non-post requirements amounting to \$152,600, reflecting a net decrease of \$141,800, would provide for general temporary assistance, overtime, travel of staff, contractual services and other operational expenses. The net decrease relates to the outward redeployment of resources in connection with the transfer of the IPSAS sustainability activities to component 3, Accounting, contributions and financial reporting (\$138,800), and a reduction as a result of efficiencies that the Office plans to bring about in the biennium 2018-2019 (\$3,000).

- 29B.29 The Office is supported by projected other assessed resources and extrabudgetary resources amounting to \$725,800 and \$1,925,100, respectively. Other assessed resources would provide for two posts (1 P-4 and 1 General Service (Other level)) funded from the support account for peacekeeping operations and extrabudgetary resources would provide for four posts (1 P-5 and 3 P-4). The decrease of \$4,054,200 compared with the biennium 2016-2017 is attributable to reduced requirements under the support account owing to the discontinuation of general temporary positions, reduction in consultants, and travel in line with the discontinuation of the IPSAS team and the redeployment of IPSAS sustainability activities from executive direction and management to component 3, Accounting, contributions and financial reporting.

Component 1 Programme planning and budgeting

Resource requirements (before recosting): \$9,862,800

- 29B.30 Responsibility for programme planning and budgeting is vested in the Programme Planning and Budget Division of the Office of Programme Planning, Budget and Accounts. This component will be implemented in accordance with the strategy detailed under component 1, Programme planning and budgeting, of subprogramme 2, Programme planning, budget and accounts, of programme 25, Management and support services, of the biennial programme plan for the period 2018-2019.

¹ Subprogramme 2 of programme 25 of the biennial programme plan for the period 2018-2019.

- 29B.34 The amount of \$9,436,100 under posts would provide for the continuation of 31 posts (1 D-2, 3 D-1, 2 P-5, 8 P-4, 7 P-3, 2 P-2, 2 General Service (Principal level) and 6 General Service (Other level)), and non-post requirements amounting to \$426,700 would provide for general temporary assistance, overtime, travel of staff, contractual services and other operational expenses, to support the implementation of mandates under the programme.
- 29B.35 The component is supported by estimated extrabudgetary resources amounting to \$3,763,100 and provides for the continuation of 10 posts (3 P-5, 2 P-4 and 5 General Service (Other level)), to service intergovernmental bodies and related meetings, provide support in financial and budgetary issues and prepare parliamentary documentation.

Component 2

Financial services relating to peacekeeping operations

Resource requirements: financed mainly by the support account for peacekeeping operations

- 29B.36 Component 2 is the responsibility of the Peacekeeping Financing Division of the Office of Programme Planning, Budget and Accounts. The component will be implemented in accordance with the strategy detailed under component 2, Financial services relating to peacekeeping operations, of subprogramme 2, Programme planning, budget and accounts, of programme 25, Management and support services, of the biennial programme plan for the period 2018-2019.

- 29B.39 The resource requirements of the Division are financed from the support account for peacekeeping operations and extrabudgetary resources amounting to \$12,706,000 and \$416,100, respectively. The resources would provide for 35 posts (1 D-2, 1 D-1, 4 P-5, 12 P-4, 9 P-3 and 8 General Service (Other level)) under the support account for peacekeeping operations and 2 posts (General Service (Other level)) funded from extrabudgetary resources. The proposed budget for the support account for peacekeeping operations ([A/71/806](#)) is to be considered by the General Assembly at the second part of its resumed seventy-first session, in May 2017.

Component 3

Accounting, contributions and financial reporting

Resource requirements (before recosting): \$17,404,100

- 29B.40 Substantive responsibility for this component is vested within the Accounts Division of the Office of Programme Planning, Budget and Accounts. The component will be implemented in accordance with the strategy detailed under component 3, Accounting, contributions and financial reporting, of subprogramme 2, Programme planning, budget and accounts, of programme 25, Management and support services, of the biennial programme plan for the period 2018-2019.
- 29B.41 Emphasis will be placed on leveraging technology to improve the processing of financial transactions, client services and the quality and availability of timely and accurate financial information, as well as the preparation of the financial statements using Umoja. The Division will

participate actively in the development of Umoja Extension 2 and the strengthening of internal controls and monitoring tools in the finance and accounting area. It will also prepare an annual Statement on Internal Controls, which will accompany the IPSAS-compliant financial statements; this will involve designing the underlying assurance process, and the development and deployment of evidence-based self-assessment checklists as well as assurance statements to be completed by all peacekeeping heads of mission and non-peacekeeping programme managers. The Division will continue to carry out activities aimed at ensuring the sustainability of IPSAS-compliant accounting and reporting. It will provide effective support to the Committee on Contributions and the General Assembly in the process of reaching agreement on the scale of assessments for the period 2019-2021 and on the basis for financing peacekeeping activities for that period and will ensure the timely issuance of assessments and information on the status of assessed contributions. The Division will continue to ensure the proper application of the Financial Regulations and Rules of the United Nations and of established policies and procedures relating to accounting matters.

Table 29B.13 Objectives for the biennium, expected accomplishments and indicators of achievement

Objective of the Organization: To further improve the quality of financial statements and client satisfaction with services provided, to secure financing for the expenses of the Organization pursuant to Article 17 of the Charter of the United Nations and to improve the application of related decisions

Expected accomplishments of the Secretariat	Indicators of achievement		Performance measures			
			2018-2019	2016-2017	2014-2015	2012-2013

	(ii) All documentation relating to the scale of assessments submitted by the documentation deadlines [percentage]	Target	100	100	100	100
		Estimate		100	100	100
		Actual			100	100

External factors

- 29B.42 Component 3 is expected to achieve its objectives and expected accomplishments on the assumption that the relevant information is complete and is submitted for processing without delay and that there are no major outages or malfunctions in the computerized systems, including Umoja.

Outputs

- 29B.43 During the biennium, the following outputs will be delivered:

Extrabudgetary	17 329.2	14 279.4	52	49
Total	49 467.4	46 810.4	172	170

29B.44 The amount of \$16,170,000 under posts, reflecting a net increase of \$194,400, would provide for the funding of 68 posts (1 D-2, 3 D-1, 3 P-5, 8 P-4, 7 P-3, 6 P-2, 6 General Service (Principal level) and 34 General Service (Other level)) to support the implementation of mandates under the programme. The net increase is attributable to the: (a) inward redeployment of three posts (1 P-5, 1 P-4 and 1 General Service (Other level)) in connection with the transfer of the IPSAS sustainability activities from the Office of the Controller, under executive direction and

management (\$923,700); offset in part by (b) removal of provisions for the phased abolishment of posts approved by the General Assembly in its resolution 70/247 (\$274,100); and (c) proposed abolishment of two posts (1 P-3 and 1 General Service (Other level)) as a result of efficiencies that the Division plans to bring about in the biennium 2018-2019 (\$455,200).

29B.45 Non-post requirements amounting to \$1,234,100, reflecting a net increase of \$129,400, would provide for general temporary assistance, overtime, travel of staff, contractual services and other operational expenses. The net increase relates to the inward redeployment of resources in connection with the transfer of the IPSAS sustainability activities from the Office of the Controller, under executive direction and management (\$138,800), offset in part by the proposed reduction of \$9,400 as a result of efficiencies that the Division plans to bring about in the biennium 2018-2019.

29B.46 Component 3 is supported by projected other assessed and extrabudgetary resources amounting to \$15,126,900 and \$14,279,400, respectively. Other assessed resources would provide for the continuation of 53 posts (1 P-5, 12 P-4, 11 P-3, 1 P-2, 2 General Service (Principal level) and 26 General Service (Other level)) funded from the support account for peacekeeping operations. Extrabudgetary resources would provide for 49 posts (4 P-5, 2 P-4, 9 P-3, 2 P-2, 8 General Service (Principal level) and 24 General Service (Other level)). The overall decrease under other assessed and extrabudgetary resources in the amount of \$2,980,800 compared with the biennium 2016-2017 relates broadly to a reduction of resources for programme support for extrabudgetary administrative structures and for substantive activities.

Component 4 Treasury services

Resource requirements (before recosting): \$1,713,000

29B.47 Component 4 is the responsibility of the Treasury of the Office of Programme Planning, Budget and Accounts. It will be implemented in accordance with the strategy detailed under component 4, Treasury services, of subprogramme 2, Programme planning, budget and accounts, of programme 25, Management and support services, of the biennial programme plan for the period 2018-2019.

External factors

- 29B.48 The Treasury is expected to achieve its objective and expected accomplishments based on current levels of interest rates. Economic conditions beyond the control of the Treasury could lead to an adverse change in interest rates, consequently reducing the actual return on investments.

Outputs

- 29B.49 During the biennium, the following outputs will be delivered:

Outputs	Quantity
Servicing of intergovernmental and expert bodies, and reports thereto (regular budget, other assessed and extrabudgetary)	
<i>Investments Committee</i>	
Substantive servicing of meetings	
1. Meetings of the Committee	4
Administrative support services (regular budget, other assessed and extrabudgetary)	
2. Administration of bank accounts worldwide, including maintenance of bank account signatory panels and establishment of banking arrangements for offices away from Headquarters, regional economic commissions and special political missions, as required (number of bank accounts maintained)	300
3. Assessment of global cashier functions and approval of regional cashiers (number of cashiers)	30
4. Support to global cashier function (number of cashiers)	129
5. Maintenance of sufficient cash balances for daily requirements through daily monitoring of balances of the United Nations bank accounts (number of bank accounts)	300
6. Daily management of currencies to meet cash requirements (number of foreign exchange transactions)	1 900
7. Recording of miscellaneous incoming funds (number of receipts)	480
8. Update and maintenance of banking details of, inter alia, vendors, employees and Member States (number of records)	26 500
9. Investment of pooled funds in line with the United Nations Investment Management Guidelines, with the goal of preserving capital, managing risk and ensuring sufficient liquidity to meet operational requirements while earning a competitive rate of return for the regular budget, peacekeeping operations, general trust funds, technical cooperation funds, the escrow account and other funds (number of investment settlements)	1 060
10. Processing of payments for United Nations Headquarters-managed house bank accounts in a secure and timely manner (number of payments)	720 000
11. Establishment of United Nations operational rates of exchange (number of times)	24

- 29B.50 Resources amounting to \$1,609,900 under posts would provide for the continuation of five posts (1 D-1, 2 P-5 and 2 General Service (Other level)) to support the implementation of mandates under the programme.
- 29B.51 Non-post requirements of \$103,100, reflecting a decrease of \$6,300, would provide for travel of staff, contractual services and other operational expenses. The proposed reduction results from efficiencies that the Treasury plans to bring about in the biennium 2018-2019.
- 29B.52 Component 4 is supported by projected other assessed and extrabudgetary resources amounting to \$3,051,100 and \$1,424,800, respectively. Other assessed resources would provide for nine posts (1 P-5, 3 P-4, 1 P-3, 1 P-2, 1 General Service (Principal level) and 2 General Service (Other level)) funded from the support account for peacekeeping operations, and five posts (1 P-4, 1 P-3 and 3 General Service (Other level)) funded from extrabudgetary resources.

Action taken to implement the recommendation

Board of Auditors

(A/71/5, Vol. I, chap. II)

To ensure the timely preparation of high-quality financial statements for the year ending 31 December 2016, the Board recommended that the Secretariat:

- (a) Carry out a review of the lessons learned from the 2015 financial statements preparation exercise;
- (b) Prepare more detailed accounts closure and preparation instructions and ensure that uniform processes and documentation standards were applied by all entities contributing to volume I of the 2016 United Nations financial statements;
- (c) Ensure that finance staff at Headquarters exercised greater central control and oversight of the preparation of the financial statements and that management review at all levels was sufficiently robust to identify material misstatements before the financial statements were presented for audit;
- (d) Derive the 2016 financial statements from the prime books of record to the fullest extent possible, making minimal use of spreadsheet accounting (para. 20).

The Board recommended that the regular budget income estimates and out-turn be fully disclosed in statement V to the financial statements to ensure compliance with the International Public Sector Accounting Standards (IPSAS) requirements and to enhance the information available to Member States (para. 49).

The Administration carried out an online survey in September 2016 to capture lessons learned from the financial statements preparation process in order to improve the quality and timeliness of the 2016 financial statements. All major offices contributing to volume I of the United Nations financial statements responded to the survey. The Administration has already issued a report on the lessons learned review of the financial statements preparation process. The Administration has also put in place a number of automated accuracy controls around the financial statements preparation process that will be part of the business planning and consolidation process, which provides a high degree of automation of the production of the financial statements. This new automated process and controls, which will be applied for the first time to volume I of the 2016 United Nations financial statements, supports a shorter financial statements preparation timeline, thus allowing more time for their review at all levels.

The Administration has plans to improve the financial statements preparation instructions and the Accounts Division has partnered with the Umoja project team and the United Nations Office at Nairobi to update and improve the instructions.

Regarding the derivation of financial statements from the prime books of record, the Umoja work plan includes this development for the 2016 financial statements. It was already deployed for volume II of the United Nations financial statements in August 2016 and has both improved the process and reduced manual interventions.

The Administration will present regular budget income estimates and out-turn in statement V to the financial statements for the year ending 31 December 2016 alongside the budgeted and actual expenditures.

Brief description of the recommendation

Action taken to implement the recommendation

The Board recommended that the Administration improve scrutiny of open commitments at year-end by providing more detailed guidance on how staff should establish the need to retain them (para. 56).

The Administration is in the process of improving the section on commitments in the instructions on financial statements preparation with the aim of providing more guidance on the scrutiny of open commitments at year-end and the criteria that staff should apply to establish the need to retain commitments.

The Board also recommended that the Administration review open commitments during the year, in particular at year-end, to challenge any that appeared to be retained unnecessarily (para. 57).

The Administration will increase its scrutiny of intended retained commitments, as recommended by the Board.

The Board reiterated its previous recommendation that the Administration establish how and under what time frame it would be able to more closely link budget consumption with what had been delivered in terms of outputs and outcomes; and with that as the aim, set out a detailed plan for embedding results-based management as part of business as usual, defining clear responsibilities and resources (para. 90).

This is a complex issue that requires further review and analyses in terms of the added value of cost-accounting, given that a number of factors have an impact on the correlation between the two areas. For example, improvement in percentage of outputs vis-à-vis increased savings could be attributable to a number of factors beyond the Organization's control, such as increased post costs owing to post adjustment multipliers and the strength of the United States dollar. Hence, while the output continues to be delivered, the cost of delivery has decreased owing to factors beyond the Secretariat's control.

The Board recommended that the Administration accelerate its current process of strengthening the performance measures used by departments to measure and report results (para. 99).

The strengthening of performance measures is an ongoing process. Most recently, in the context of the preparations for the 2018-2019 strategic framework, revisions to elements of the strategic framework were undertaken to make them more impact-oriented.

The Board recommended that the Administration develop a common principles-based framework for the management of partners that would specify the key procedures to be performed by all Secretariat entities. To facilitate the development of the common framework, the Secretariat should conduct an end-to-end review of the project management life cycle, including consultations with key stakeholders and a review of all current practices (para. 264).

The Office of Programme Planning, Budget and Accounts is working with counterparts to develop a common principles-based framework for the management of partners.

The Board recommended that the Administration finalize, and issue under appropriate authority, its standard template agreement with implementing partners to include appropriate anti-fraud, sanctions and audit clauses (para. 269).

The Administration will continue to work on issuing a standard template agreement to implementing partners. This is one of the action plans of the Enterprise Risk Management working group on implementing partners.

The Board reiterated its previous recommendation to establish information-sharing mechanisms on implementing partners that covered due diligence procedures, implementation issues and performance evaluations performed by United Nations entities and partners with which they had worked (para. 270).

The Administration will continue to work on issuing corporate guidance on due diligence procedures, implementation monitoring and performance evaluations of implementing partners. This is one of the action plans of the Enterprise Risk Management working group on implementing partners. With regard

Brief description of the recommendation

Action taken to implement the recommendation

(A/70/5, Vol. I, chap. II)

The Board recommended that the Administration transform the finance function into a more strategic value-adding service and that it support that transformation with a wider financial management training programme to enhance financial literacy and management across the Organization (para. 28).

The Board recommended that the Administration:

- (a) develop standard approaches and methodologies for measuring the costs of providing services to internal and external users; and
- (b) identify how Umoja can support more transparent recording, analysis and reporting of the full costs of activities (para. 40).

The Board recommended that the Administration develop the tools, capacity and capability to generate comprehensive and detailed information which can be used to better understand, manage and control staff costs and to provide more accurate, timely and complete management information to support decision-making (para. 55).

The Board recommended that the Administration examine the underlying causes for the differences in average claim costs to determine whether there is scope to reduce the administration costs of the schemes (para. 60).

The Board recommended that arrangements be made to conduct an open-book audit of the third-party administrators to provide assurance over the accuracy of reported costs and activities performed by the Administration's agents and to confirm that they have complied with their contractual obligations. The inspection rights under those contracts should be exercised regularly in future (para. 64).

to information-sharing with United Nations entities, the High-level Committee on Management Procurement Network was requested to establish a task force to assess the feasibility of adapting the United Nations Global Marketplace as a platform for tracking fraud cases related to implementing partners.

The Administration continued its efforts to pilot the professional financial management training via the Chartered Institute of Public Finance and Accountancy and, in addition, has trained key finance managers in the areas of risk management and internal controls.

This recommendation is being implemented in tandem with the Umoja services delivery module becoming operational across the Secretariat. The Administration has begun to focus on reviewing and refining the costing of services, which includes the Secretariat-wide review of the service catalogue. A workshop on cost recovery was held in September 2016, which focused on the principles governing cost recovery, harmonizing best practices and reviewing Umoja functionality.

The Administration has implemented this recommendation and stands ready to explain the issues and components driving the management of staff costs.

The Administration monitors the average claim costs and an investigation will be undertaken only if the trend warrants it. Additional disclosure in the notes to the financial statements will also be considered if appropriate. Based on the above, the Administration has implemented the recommendation.

The Administration has identified an audit firm to conduct the next two open-book audits of the third-party administrators.

Advisory Committee on Administrative and Budgetary Questions
(A/70/7)

With regard to the presentation and preparation of the budget, the Advisory Committee considers that the Office should examine more closely the format and content of the draft submissions of individual departments/offices. The Office should also scrutinize the proposed resource requirements more thoroughly, analyse past expenditure patterns and exercise stricter control to ensure that the cost estimates are consistent, realistic and fully justified. In addition, the Office should ensure that the budget methodology and related instructions are applied in a consistent manner across all budget fascicles (para. VIII.45).

The Advisory Committee is of the view that consideration should be given to providing any relevant information that would facilitate the assessment of performance measures in the budget fascicle (para. VIII.46).

The Office of Programme Planning, Budget and Accounts has improved its budget guidance to all departments to ensure consistency in the presentation and format of the budget proposals, where applicable. The Office and the departments conducted a review of resource requirements to ensure that the proposed programme budget proposals (including the justifications provided therein) for the biennium 2018-2019 reflect the resources required for the full, efficient and effective implementation of mandates.

Implemented. Additional information provided in the logical framework of the Treasury (see indicator of achievement (iii) under expected accomplishment (a)).
